---	-------------

From the above it would appear that the town debt above available resources (\$16,250.24) is (\$518.59) more than last year's report i. e. (\$15,731.65) but taking into consideration that there was in the town treasury the sum of \$781 which

had been appropriated for state road, which was included in the statement of resources in last year's report (this amount having been expended on state road during this year) the actual fact is that the debt above available resources is \$262.41 less than last year.

Respectfully submitted,

S. A. SMITH,
HENRY COOLEY,
ORISON GORDON,

Selectmen of Bingham.

The Hamlin and Russell schools have not been reopened during the past year and the Whittier school was discontinued during the fall term and the pupils conveyed to the Blaine school but,

owing to an increase of pupils, was reopened for the winter. This school failed to maintain the legal average of attendance and we recommend that your Superintending School Committee be authorized to continue it during the coming year if found necessary.

The laying of the sewer in the main street of the village has made the plumbing of the two grade school buildings possible. The present water closets are wholly inadequate for the use of 112 children. They are too small and exceedingly unsanitary. The two primary school rooms are overcrowded making it impossible to properly ventilate either room. The wall of the larger building is in bad condition and should be repaired at once. Therefore we recommend that provision be made for the plumbing of both buildings, the enlargement of the smaller one, and such other repair of both as shall be found necessary.

Report of Board of Engineers of Fire Department

To the Honorable Board of Selectmen of the Town of Bingham:
Gentlemen:

The Board of Engineers of the Bingham Fire Department hereby submit the following report for the year last past:

The object of this report is to acquaint your Honorable Board and the people of Bingham with the organization, equipment and activities of the fire department, together with recommendations for the betterment of the service of the department and the consequent better protection of the lives and property of our town.

ORGANIZATION

The Bingham Fire Department is organized as follows: The department is in charge of a board of engineers consisting of a Chief, 1st Assistant Chief and 2nd Assistant Chief. We have a very efficient hose company of fifteen men, and a very efficient ladder company of fifteen men; each company being in command of a captain and a lieutenant. Each company also has a clerk whose duty it is to keep a record of all fires and meetings, and of the attendance of the men at both, and all the doings of their respective companies.

EQUIPMENT

The department is very well equipped as hereinafter appears.

Fire Station and lot on Murray Street, valued at	\$1,400.00
Hose Cart and Ladder Truck, valued at	150.00
1500 feet of rubber lined hose, valued at	911.00
320 feet of ladders, valued at	65.00
Fire Alarm System, valued at	225.00
Rubber coats and hats, valued at	167.00
Small tools, lanterns, &c, valued at	75.00

\$2,993.00

NUMBER OF ALARMS

We are pleased to report that there have been no real serious fires during the past year. The department has responded to eight alarms during the past year, three of these being false alarms due to the carelessness of those residing or being employed near the wires of the alarm system. There have been two quite bad fires, one at the residence of Dr. P. A. Wood, on August 19, and the other at the Miller Grain Store on December 1. The other three alarms were for fire at boarding house of Hub Mill, which was small and of no damage, on April 8, and for chimney fire at residence of John Miller, and chimney fire at residence of Carroll Clark on January 12, 1913. In addition to the above there were two still alarms for chimney fire at house of John Savage, on Mill Street, occupied by Austin McDonough, on January 21 and for chimney fire at house of A. P. Murray, on Baker Street, occupied by John P. Witham on February 1st. The 2nd Assistant Chief, with one fireman, answered these two still alarms and extinguished the fires with chemicals, no damage resulting.

RECOMMENDATIONS

We would recommend to your Honorable Board, and to the town the following:

That the old chemical engine be sold, as it is of no use to the department at this time, and is taking valuable space in the fire station.

That the members of the fire department be paid the sum of forty cents per hour for the time actually employed in fighting fire, no call to be considered less than one hour. While the members of the department take a great deal of interest in the department and in their work, we believe that it would have a tendency to increase the efficiency of the department if this consideration should be shown the men by the town.

That the town purchase not less than 300 feet of rubber lined hose this year. With what equipment we now have we are able to cover and protect the greater part of the village, but should a bad fire get started in the lumber yard of Bingham Lumber Company, which is adjacent to the High School building, we would not have enough hose to handle it properly. It is the belief of the engineers that it would be much better and

easier for the town to purchase a small amount of hose every year than to wait until what we now have, or a large part of it, becomes worthless, and it becomes necessary to purchase a large amount at one time. By adopting this plan the department would, at all times, have a sufficient amount of suitable hose for fire fighting purposes.

That the town purchase some hand chemical extinguishers. These would not be very expensive, and would be of great convenience in extinguishing chimney fires, and for inside work.

We wish to express our gratitude to those who have contributed to the expense of putting in the concrete floor in the fire station, and for the rubber coats and hats, which were so badly needed; and for the support and consideration shown the department by your Honorable Board and other citizens.

Bingham, Maine, Feb. 15, 1913.

Respectfully submitted,

P. C. FOSS, Chief,

W. J. ESTABROOK, 1st Assistant Chief,

HAROLD I. GOSS, 2nd Assistant Chief,

Board of Engineers, Bingham Fire Department.
