### Repairs, Insurance and General Supplies.

Appropriation .....	\$200 00
Amount expended.....	222 00

There are a very few repairs to be made on the school buildings the coming year. The south side of the Birch Point schoolhouse ought to be shingled in the early spring, and some work done on the roof of the West schoolhouse.

We have six schoolhouses and some of them need slight repairs every year although as a whole they are in good condition and will be adequate to the needs of the town for many years to come. It is good policy to do a little every year and keep them in good repair.

We recommend the following appropriations for the coming year.

For common schools .....	\$1,300 00
Insurance, repairs and general supplies.....	200 00
Text books .....	100 00
Free High School.....	500 00

Mr. Charles S. Sewall, the popular principal of the Academy resigned at the close of the Spring term, to accept the position as Superintendent of the schools at Eastport and Lubec. The school and community felt they had met with a great loss, but wished him success in his new field. We were very fortunate to secure the services of Mr. Willis F. Avery, of Manchester, N. H., to fill the vacancy, and he has proved to be all that was recommended, amiable, discreet and a first class teacher.

The schools have done fine work in every department for the past year, and the town is very fortunate to have first class teachers in every school.

During the eleven years I have served you as Superintendent of schools there have been many changes and we hope every change has been for the better.

You have good school buildings throughout the town. The pupils in every district are regular in attendance. Your teachers are good, faithful workers, and the future of your schools looks prosperous.

With a good, steady, reliable man at the wheel there is no reason why they should not continue to maintain their present high standard.

I desire to thank all parents, teachers and friends who have so ably assisted me in the work of the schools. It has only been through their

co-operation and assistance that the schools have been enabled to do such good work in the past and become so fully qualified to do still better work in the future.

I desire to express my gratitude to all persons who have in any way assisted me in the least in the school work during my term of office, and I assure you that I shall always be willing to assist in any way to forward the good work of the schools.

I am not a candidate, and under no consideration can I accept the office of superintendent for the coming year.

Respectfully submitted,

W. F. MERRILL, Superintendent.
