Superintendent's Report

To the Selectmen and Citizens of Wiscasset:

Gentlemen:

In conformity to law and custom your superintendent respectfully submits the following report at the close of the fiscal year, March 1, 1926.

Another regular session of thirty-six weeks has closed, and, fortunately, without interruption. The schools are in a highly satisfactory condition and good progress has been made. I feel that, on the whole, the year has been a profitable one. The work has been conducted according to a well planned schedule with an effort to strengthen a bit here and there where possible.

- The fall term opened with the following teachers in charge:

Jessie Jackson—First Grammar, 28 pupils.

Zina Davis—Second Grammar, 34 pupils

Ethel Redonnett—Intermediate, 27 pupils.

Elinor Cutts—Primary, 31 pupils.

Lillian Smith—North, 16 pupils.

Mary Trussell—West, 7 pupils.

Edna Currier—South, 19 pupils.

Helen White—Birch Point, 21 pupils.

The last school census numbered 386 persons, a decrease of six. The number of pupils registered will not vary greatly from that of the preceding year. The aggregate attendance has been a little larger. During the present term the attendance at North, Birch Point, South and Primary schools has been broken to some extent, due to illness among the pupils. We regret to report the death of two of our little people, Richard

Ifill and Roberta Shea. The registration at West School is small, but the children are very regular in attendance and are doing good work. We would recommend the continuation of that school.

There has been but little change in the teaching force. Mrs. Currier was returned to South school in place of Miss Bradford, resigned, and was granted leave of absence during winter. Mrs. Metcalf, a former teacher of the school kindly consented to supply for her. The resignation of Miss West, our primary teacher was greatly regretted by us all.

Miss West has given long service and has ever been a dependable and efficient teacher. Miss Elinor Cutts, a normal graduate and successful young teacher was secured for the primary department and we felt fortunate in securing her services.

The teachers' salaries have remained same as last year with the exception that Mrs. Currier was raised one dollar per week. They are now as follows:

Village teachers, \$18.00 per week; North, South and Birch Point teachers, \$16.00 per week; West school teacher, \$15.00 per week, or \$612.00, \$576.00 and \$540.00 respectively, per year. These salaries are rather lower than teachers of equal ability and training receive elsewhere. We have a strong corps of teachers deserving of the highest degree of confidence. As a co-worker with them, I can hardly commend their faithfulness and devotion to their pupils' good too highly. I deeply appreciate their cheerfulness in co-operating in every endeavor for the good of their schools.

During such visits as I have been able to make at the Academy, I have, as usual, been very favorably impressed with the appearance of the school, and thoroughness of the work done. Principal Sewall and his assistants have earned the fullest confidence and appreciation of the patrons and citizens. As his report of the Academy is expected it will be read with interest,

and, I have no doubt, will meet with approval and afford some a better understanding as to the work of that institution.

As the financial condition of the schools will appear in the town report, citizens are referred to that document. It costs to maintain schools and the tax payers may rightly insist that the investment yield the best results possible under the circumstances. I believe that Wiscasset is receiving good value for the money invested, even though the results, present or future, cannot be estimated in hard cash. Our young people are our most valuable asset and should have the best possible opportunity for making useful citizens.

The feeling which has existed for some time on the part of the school officials, that a readjustment of the educational program might be of decided advantage, led to the appointing of a committee to consider the feasibility of conducting a junior high school. The report of that committee is awaited with interest. It is our belief that such school, functioning with the Academy, would greatly strengthen our school system.

Outside of the usual expenditures for the upkeep of school property, the important repairs of the past year were made at Birch Point. The school house was equipped with an approved sanitary toilet and wood shed combination, the old shed being made useful. In spite of a rather difficult situation a very creditable piece of work was done. The school room was treated to a coat of fresh paint and whitewash and greatly improved in appearance. The exterior of the building needs painting badly, a matter which should receive early attention. We would advise that repairs on West school house be made the coming summer. With the above exceptions the buildings are in excellent condition.

In concluding my brief report I wish to express my deepest appreciation of the opportunity of serving the schools so long,

for the generous co-operation accorded and for the many courtesies and helpful suggestions received.

Respectfully submitted,

LESLIE A. BAILEY,
Union Superintendent.
