TOWN OF CHESTERVILLE
BOARD OF APPEALS ORDINANCE

I. GENERAL PROVISIONS

A. Business of the Board shall be conducted in accord with Maine Statutes, Town Ordinances, and Roberts' Rules of Order.

B. It shall be the responsibility of the Board to become familiar with all the duly enacted ordinances of the town upon which it may be expected to act as well as with the applicable state statutes.

C. It shall be the responsibility of the Board to become familiar with the community goals, desires, and policies as expressed in a "comprehensive plan," if any, and to grant the minimum relief that will ensure that the goals and policies of the plan are preserved and that substantial justice is done.

II. APPOINTMENTS

A. The Board shall consist of five (5) members appointed by the municipal officers of the Town of Chesterville for terms of 1, 2, and 3 years. The initial appointments shall be as follows: One (1) member to serve a term to expire as of the date of the Annual Town Meeting in one (1) year, two (2) members to serve terms to expire as of the date of the Annual Town Meeting in two (2) years, and two (2) members to serve terms to expire as of the date of the Annual Town Meeting in three (3) years.

B. Thereafter, all appointments to the Board shall be for terms of three (3) years.

C. If state law permits, the municipal officers may appoint up to one (1) associate member to the Board.

D. Neither a municipal officer nor his or her spouse may be a member or an associate member of the Board.

E. Any member of the Board may be removed from the Board, for cause, by the municipal officers before expiration of his/her term but only after notice and an opportunity for a hearing at which the member in question has an opportunity to refute specific charges against him/her. The term "for cause" shall include failure to attend three (3) consecutive Board meetings or hearings without sufficient justification, or voting when the member has a "conflict of interest."

F. When there is a permanent vacancy of either a full or associate member, the Secretary shall immediately notify the Town Clerk. Within sixty (60) days the municipal officers shall appoint a person to serve for the unexpired term.
III. OFFICERS AND DUTIES

A. The officers of the Board shall consist of a Chairperson, an Acting Chairperson, and a Secretary, all of whom shall be elected annually by a majority of the Board.

B. CHAIRPERSON. The chairperson shall perform all duties required by law and by these bylaws and shall preside at all meetings of the Board. The Chairperson shall rule on issues of evidence, order, and procedure and shall take such other actions as are necessary for the efficient and orderly conduct of hearings, unless directed otherwise by a majority of the Board. The Chairperson shall appoint any committees found necessary to carry out the business of the Board.

C. ACTING CHAIRPERSON. The Acting Chairperson shall serve in the absence of the Chairperson and shall have all the powers of the Chairperson during the Chairperson's absence, disability, or disqualification.

D. SECRETARY. The Secretary, subject to the direction of the Board and the Chairperson, shall keep minutes of all Board proceedings, showing the vote of each member upon every question, or, if any member is absent or failing to vote, indicating such fact. The Secretary shall also arrange proper and legal notice of hearings, and shall attend to correspondence of the Board and to other duties as are normally carried out by a secretary. The Secretary shall keep a record of all resolutions, transactions, correspondence, findings, and determinations of the Board and shall prepare a complete record of each hearing, including: date, time, and place of the hearing; subject of the hearing; identification of each participant; any agreements made between parties and the Board regarding procedures; the testimony presented; findings of fact and conclusions; the decision of the Board; and the date of issuance of the decision. All records are public and may be inspected at reasonable times.

IV. CONFLICT OF INTEREST

Any question of whether a particular issue involves a "conflict of interest" sufficient to disqualify a member from voting thereon shall be decided by a majority vote of the members, except the member whose potential conflict is under consideration.

The term "conflict of interest" shall be construed to mean direct or indirect pecuniary interest, which shall include pecuniary benefit to any member of the person's immediate family (e.g., grandfather, father, wife, son, grandson,) or to his employer or the employer of any member of the person's immediate family.

V. POWERS AND LIMITATIONS

A. The Board shall have the following powers, to be exercised only upon receipt of a written appeal by an aggrieved party:

1. The Board may interpret the provisions of any applicable town ordinance that are called into question.

2. The Board may approve the issuance of a special exception permit or conditional use permit in strict compliance with any applicable town ordinance.
3. **The Board may grant a variance only where strict application of any applicable town ordinance, or a provision thereof, to the petitioner and his property would cause undue hardship.** The words "undue hardship" as used in this subsection mean:

   a. that the land in question cannot yield a reasonable return unless a variance is granted;
   b. that the need for a variance is due to the unique circumstances of the property and not to the general conditions in the neighborhood;
   c. that the granting of a variance will not alter the essential character of the locality; and
   d. that the hardship is not a result of action taken by the applicant or prior owner.

4. **The Board shall have the power to hear and determine all appeals by any person directly or indirectly affected by any decision, action, or failure to act with respect to any license, permit, variance, or other required approval, or any application therefor, including the grant, conditional grant, denial, suspension or revocation of any such license, permit, variance, or other approval (hereinafter a "Decision"):**

   a. rendered by the Code Enforcement Officer or the Planning Board pursuant to the Shoreland Zoning Ordinance;
   b. rendered by the Code Enforcement Officer or the Building Inspector relating to building code enforcement pursuant to any statute or Town ordinance;
   c. rendered by the Planning Board or the Selectmen pursuant to the Subdivision Regulations or the Maine subdivision statute; or
   d. rendered by the Planning Board or the Code Enforcement Officer pursuant to the ordinance relating to Flood Hazard Building Permit System and review procedures.

VI. **MEETINGS**

A. The regular meeting of the Board shall be held once every month or as necessary.

B. The annual organization meeting of the Board shall be the first regular meeting of the year.

C. Special meetings of the Board may be called by the chairperson. At least forty-eight (48) hours written notice of the time, place and business of the meeting shall be given to each member of the Board, to the chairman of the Selectmen and the Planning Board, the Selectmen and the Planning Board and to the Code Enforcement Officer.
D. The chairperson shall call a special meeting within ten (10) days of receipt of a written request from any three members of the Board, which request shall specify the matters to be considered at such special meeting.

E. The order of business at regular meetings of the Board shall be as follows: (A) roll call; (B) reading and approval of the minutes of the preceding meeting; (C) action on held cases; (D) public hearing (when scheduled); (E) other business; and (F) adjournment.

F. All meetings of the Board shall be open to the public, except executive sessions. No votes may be taken by the Board except in public meeting. The Board shall not hold executive sessions except for consultation between the Board and its legal counsel concerning litigation or other legal matters where premature general public knowledge would clearly place the town or Board at a substantial disadvantage.

VII. VOTING

A. A quorum shall consist of three (3) members of the Board.

B. No hearing or meeting of the Board shall be held, nor any action taken, in the absence of a quorum; however, those members present shall be entitled to request the chairperson to call a special meeting for a subsequent date.

C. All matters shall be decided by a roll-call vote. Decisions on any matter before the Board shall require the affirmative vote of a majority of the entire membership of the Board unless otherwise specified herein.

D. A tie vote or a favorable vote by a lesser number than the required majority shall be considered a rejection of the application under consideration.

E. If a member has a conflict of interest, said member shall not be counted by the Board in establishing the quorum for such matter.

F. If the Board has associate members, the Chairperson shall appoint an associate member to act for a regular member who is: disqualified from voting; unable to attend the hearing; or absent from a substantial portion of the hearing because of late arrival. The associate member will act for the regular member until the case is decided.

G. If the Board has no associate members, no regular member shall vote on the determination of any matter requiring public hearing unless he or she has attended the public hearing thereon; however, where such a member has familiarized himself with such matter by reading the record, he or she shall be qualified to vote.

VIII. APPEAL PROCEDURE

A. Any person aggrieved by an action that comes under the jurisdiction of the Board pursuant to Section V who desires remedy of such action must file such application for appeal in writing, on forms provided, within thirty (30) days of the granting or denial of a permit pursuant to said action. The applicant shall file this appeal at the town office with the Code Enforcement Officer, setting forth the ground for his/her appeal. Upon
receiving the application for appeal, the Code Enforcement Officer shall notify the Chairperson of the Board.

B. The fee to accompany applications for appeal shall be fifty (50) dollars. Checks are to be made payable to the Board of Appeals of the Town of Chesterville.

IX. HEARINGS

A. The Board shall schedule a public hearing on all appeals applications within thirty-five (35) days of the filing of a completed appeal application.

B. The Board shall cause notice of the date, time, and place of such hearing, the location of the building or lot, and the general nature of the question involved to be given to the person making the application and to be published in a newspaper of general circulation in the municipality at least two times, the date of the first publication to be at least ten (10) days prior to the hearing. The Board shall also cause notice of the hearing to be given to the municipal officers, the Planning Board, the Code Enforcement Officer, and the owners of property abutting that for which the appeal is sought at least ten (10) days prior to the date of the hearing.

C. The Board shall provide as a matter of policy for exclusion of irrelevant, immaterial, or unduly repetitious evidence.

D. The order of business at a public hearing shall be as follows:

1. The Chairperson calls the hearing to order.

2. The Chairperson determines whether there is a quorum.

3. The Chairperson gives a statement of the case and reads all correspondence and reports received relating to the case.

4. The Board determines whether it has jurisdiction over the appeal.

5. The Board decides whether the applicant has the right to appear before the Board.

6. The Board determines which individuals attending the hearing are "interested parties." "Interested parties" are those persons who request to offer testimony and evidence and to participate in oral cross-examination. They would include abutting property owners and those who might be adversely affected by the Board's decision. Parties may be required by the Board to consolidate or to join their appearances in part or in whole if their interests or contentions are substantially similar and such consolidation would expedite the hearing. Selectmen, the Planning Board, and the Code Enforcement Officer shall automatically be made interested parties to the proceeding.

Other persons attending the hearing and federal, state, municipal, and other governmental agencies shall be permitted to make oral or written statements and
to submit oral and written questions through the Chair.

7. The appellant is given the opportunity to present his or her case without interruption.

8. The Board and interested parties may ask questions of the appellant through the Chair.

9. The interested parties are given the opportunity to present their testimony relative to the case. The Board may call its own witnesses, such as the Code Enforcement Officer.

10. The appellant may ask questions of the interested parties and Board witnesses directly.

11. All parties are given the opportunity to refute or to rebut statements made throughout the hearing.

12. The Board shall receive comments and questions from all observers and interested citizens who wish to express their views.

13. The hearing is closed after all parties have been heard. If additional time is needed, the hearing may be continued to a later date. All participants should be notified of the date, time, and place of the continued hearing.

14. No written testimony will be accepted by the Board after the close of the hearing.

E. The Board may waive any of the above rules if good cause is shown.

X. DECISIONS

A. Decisions by the Board shall be made not later than thirty-five (35) days from the date of the final hearing.

B. The final decision on any matter before the Board shall be made by written order signed by the chairperson. The transcript of testimony, if any, and exhibits, together with all papers and requests filed in the proceedings, shall constitute the record. All decisions shall become a part of the record and shall include a statement of findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented and the appropriate order, relief, or denial thereof.

C. The Board, in reaching said decision, shall be guided by standards specified in the applicable state laws, local ordinances, policies specified in the Comprehensive Plan (if any), and by Findings of Fact by the Board in each case.

D. In reviewing an application on any matter, the standards in any applicable local ordinance or statute shall take precedence over the standards of these rules whenever a conflict occurs. In all other instances, the more restrictive rule shall apply.
E. The Board may reverse the decision, or failure to act, of the Code Enforcement Officer or Planning Board only upon a finding that the decision, or failure to act, was clearly contrary to specific provisions of this ordinance or was unsupported by substantial evidence in the record.

F. Notice of any decision shall be sent by certified or registered mail or shall be hand-delivered to the applicant, his representative or agent, the Planning Board, the Code Enforcement Officer, and the municipal officers within seven (7) days of the decision.

G. Decisions of the Board shall be immediately filed in the office of the Town Clerk and shall be made public record. The date of filing of each decision shall be entered in the official records and minutes of the Board.

XI. CONSIDERATIONS

A. The Board may reconsider any decision. The Board must decide to reconsider any decision, notify all interested parties, and make any change in its original decision within thirty (30) days of its prior decision. A meeting to decide whether to reconsider shall be called by the Chairperson in accordance with Article VI of these bylaws. The Board may conduct additional hearings and receive additional evidence and testimony.

B. Reconsideration should be for one of the following reasons:

1. The record contains significant factual errors due to fraud or mistake, regarding facts upon which the decision was based; or

2. The Board misinterpreted the ordinance, followed improper procedures, or acted beyond its jurisdiction.

XII. APPEAL TO SUPERIOR COURT

A. An aggrieved party may appeal any decision of the Board under these regulations to Franklin County Superior Court within thirty (30) days of the date the Board issues a written order of its decision.

XIII. SEVERABILITY

The invalidity of any section or provision of these bylaws shall not be held to invalidate any other section or provision of these bylaws.
A motion was made to accept this article as recommended, seconded and passed by the Aye Vote.

ARTICLE 52. To see if the Town will vote to raise and appropriate a sum of money for a new calcium sprayer and Hopper Sander. Selectmen and Budget Committee Recommend: $8,600.00
A motion was made to accept this article as recommended, seconded and passed by the Aye Vote.

ARTICLE 53. To see if the Town will vote to prohibit the sale, service, use or possession of alcoholic beverages on the premises of the Town Hall.
A motion was made to accept this article as read, seconded and passed by the Aye Vote.

ARTICLE 54. To see if the Town will vote to designate the Board of Appeals as also the Board of Assessment Review.
A motion was made to accept this article as read, seconded and passed by the Aye Vote.

David Archer and Rosemary Poulson were duly sworn into office by Moderator, John Hinkley. The meeting was adjourned at 8:30 P.M.

PATRICIA A. GORDON
TOWN CLERK
CHESTERVILLE, ME 04938
BARKING DOG ORDINANCE
TOWN OF CHESTERVILLE

No owner or person having custody of any dog within the legal limits of the Town shall keep or maintain a dog which creates a nuisance by continued or repeated barking, howling, making of other loud or unusual noises, or in any other manner disturbing the peace of any other person, or persons, after that owner, or keeper has been warned by any law enforcement officer, animal control officer, or other public official authorized for these purposes that his/her dog, or dogs, have been disturbing the peace and quiet of another person, or persons, A person who keeps or maintains a dog whose barking or howling, sustained for one hour or intermittently for three hours, can be heard at or beyond the boundary of the property on which the dog is located commits a civil violation for which a civil penalty shall be assessed.

Penalty. Any person who violates this section commits a civil violation for which a civil penalty of not less than $25.00 nor more than $100.00 shall be assessed. Any fine collected shall be recovered to the use of the Town of Chesterville and deposited in a separate account as required by Title 7, MRSA, Section 3945.

ENACTED:
MARCH 10, 2003

Given under our hands this 20th day of February, 2003 A.D.

A true copy of the warrant, Attest: Resident of Chesterville

Attest: A true copy of an ordinance entitled "Barking Dog Ordinance-Town of Chesterville, as certified to me by the municipal officers of Chesterville on the 20th day of February, 2003.

Town Clerk of Chesterville
E 9-1-1 Enabling Ordinance

Chesterville, Maine
Annual Town Meeting, March 1996

Section 1. Purpose. The purpose of this ordinance is to enhance the easy and rapid location of properties by law enforcement, fire rescue, and emergency medical services personnel in the town of Chesterville.

Section 2. Authority. This ordinance is adopted pursuant to and consistent with the Municipal Home Rule Powers as provided for in Article VIII, Part 2, Section 1 of the Constitution of the State of Maine and Title 30-A M.R.S.A. Section 3001.

Section 3. Administration. This ordinance shall be administered by the Chesterville Emergency Management Director (EMD), who, with the Chesterville Planning Board, is authorized to and shall assign road names and numbers to all properties, both on existing and proposed roads, in accordance with the criteria in Sections 4 and 5. The Chesterville EMD shall also be responsible for maintaining the following official records of this ordinance:
   a. A Chesterville map for official use showing road names and numbers.
   b. An alphabetical list of all property owners as identified by current assessment records, by last name, showing the assigned numbers.
   c. An alphabetical list of all roads with property owners listed in order of their assigned numbers.

Section 4. Naming System. All roads that serve two or more properties shall be named regardless of whether the ownership is public or private. A "road" refers to any highway, road, street, avenue, lane, private way, or similar paved, gravel, or dirt thoroughfare. "Property" refers to any property on which a more or less permanent structure has been erected or could be placed. A road name assigned by the town of Chesterville shall not constitute or imply acceptance of the road as a public way.

The following criteria shall govern the naming system:
   a. No two roads shall be given the same name (e.g., no Pine Road and Pine Lane).
   b. No two roads should have similar-sounding names (e.g., Beech Street and Peach Street).
   c. Each road shall have the same name throughout its entire length.

Section 5. Numbering System
Numbers shall be assigned every 50 (fifty) feet along both sides of the road, with even numbers appearing on the left side of the road and odd numbers appearing on the right side of the road, determined by the number origin.

The following criteria shall govern the numbering system:

a. All number origins shall begin from the center of Chesterville or that end of the road closest to the designated center. For dead end roads, numbering shall originate at the intersection of the adjacent road and terminate at the dead end.

b. The number assigned to each structure shall be that of the numbered-interval falling closest to the front door. If the front door cannot be seen from the main road, the number shall be that of the interval falling closest to the driveway of said structure.

c. Every structure with more than one principal use or occupancy shall have a separate number for each use or occupancy.

Section 6. Compliance. All owners of structures shall, by the date stipulated in Section 3, display and maintain in a conspicuous place on said structure, the assigned numbers in the following manner:

a. Number of the Structure or Residence. Where the residence or structure is within 50 (fifty) feet of the edge of the road right-of-way, the assigned number shall be displayed on the front of the residence or structure near the front door or entry.

b. Number at the Street Line. Where the residence or structure is over 50 (fifty) feet from the edge of the road right-of-way, the assigned number shall be displayed on a post, fence, wall, the mail box, or on some structure at the property line next to the walk or access drive to the residence or structure.

c. Size and Color of Number. Numbers shall be displayed in a color and size approved for use by the Chesterville EMD and shall be located to be visible from the road.

d. Every person whose duty is to display the assigned number shall remove any different number that might be mistaken for, or confused with, the number assigned in conformance with this ordinance.

e. Interior location. All residents and other occupants are requested to post the assigned number and road name next to the telephone for emergency reference.

Section 7. New Construction and Subdivisions. All new construction and subdivisions shall be named and numbered in accordance with the provisions of this ordinance and as follows:

a. New Construction. Whenever any residence or other structure is constructed or developed, it shall be the duty of the new owner to obtain an assigned number from the
Chesterville EMD. This shall be done at the time of the issuance of the building permit.

b. New Subdivisions. Any prospective subdivider shall show a proposed road name and lot numbering system of the pre-application submission to the Planning Board. Approval by the Planning Board, after consultation with the Chesterville EMD, shall constitute the assignment of road names and numbers to the lots in the subdivision. On the final plan showing proposed roads, the applicant shall mark on the plan, lines or dots, in the center of the streets every 50 (fifty) feet to aid in assignment of numbers to structures subsequently constructed.

Section 8. Effective Date. This ordinance shall become effective at the conclusion of the 1996 Annual Town Meeting. It shall be the duty of the Chesterville EMD to notify by mail each property owner and the Post Office of a new address at least 30 (thirty) days before the effective date of the new address's use. It shall be the duty of each property owner to comply with this ordinance, including the posting of new property numbers, within 30 (thirty) days following notification. On new structures, numbering will be installed before final inspection or when the structure is first used or occupied, whichever comes first.

60.3 (b) Rev. 04/09
(ordinance prepared 6/2/09 by SPO/dlt)
ARTICLE I - PURPOSE AND ESTABLISHMENT

Certain areas of the Town of Chesterville, Maine are subject to periodic flooding, causing serious damages to properties within these areas. Relief is available in the form of flood insurance as authorized by the National Flood Insurance Act of 1968.

Therefore, the Town of Chesterville, Maine has chosen to become a participating community in the National Flood Insurance Program, and agrees to comply with the requirements of the National Flood Insurance Act of 1968 (P.L. 90-488, as amended) as delineated in this Floodplain Management Ordinance.

It is the intent of the Town of Chesterville, Maine to require the recognition and evaluation of flood hazards in all official actions relating to land use in the floodplain areas having special flood hazards.

The Town of Chesterville has the legal authority to adopt land use and control measures to reduce future flood losses pursuant to Title 30-A MRSA, Sections 3001-3007, 4352, 4401-4407, and Title 38 MRSA, Section 440.

The National Flood Insurance Program, established in the aforesaid Act, provides that areas of the Town of Chesterville having a special flood hazard be identified by the Federal Emergency Management Agency and that floodplain management measures be applied in such flood hazard areas. This Ordinance establishes a Flood Hazard Development Permit system and review procedure for development activities in the designated flood hazard areas of the Town of Chesterville, Maine.

The areas of special flood hazard, are identified by the Federal Emergency Management Agency in a map entitled “Flood Insurance Rate Map - Town of Chesterville, Maine, Franklin County,” dated August 19, 1985, which is hereby adopted by reference and declared to be a part of this Ordinance.

ARTICLE II - PERMIT REQUIRED

Before any construction or other development (as defined in Article XIII), including the placement of manufactured homes, begins within any areas of special flood hazard established in Article I, a Flood Hazard Development Permit shall be obtained from the Code Enforcement Officer. This permit shall be in addition to any other permits which may be required pursuant to the codes and ordinances of the Town of Chesterville, Maine.

ARTICLE III - APPLICATION FOR PERMIT

The application for a Flood Hazard Development Permit shall be submitted to the Code Enforcement Officer and shall include:

A. The name, address and phone number of the applicant, owner, and contractor;

B. An address and a map indicating the location of the construction site;

C. A site plan showing location of existing and/or proposed development, including but not limited to structures, sewage disposal facilities, water supply facilities, areas to be cut and filled, and lot dimensions;
D. A statement of the intended use of the structure and/or development;
E. A statement of the cost of the development including all materials and labor;
F. A statement as to the type of sewage system proposed;
G. Specification of dimensions of the proposed structure and/or development;

[Items H-K.2. apply only to new construction and substantial improvements.]

H. The elevation in relation to the National Geodetic Vertical Datum (NGVD), North American Vertical Datum (NAVD) or to a locally established datum, of the:

1. base flood at the proposed site of all new or substantially improved structures, which in Zone A is determined:
   a. from any base flood elevation data from federal, state, or other technical sources (such as FEMA’s Quick-2 model, FEMA 265/July 1995), including information obtained pursuant to Article VI.J. and VIII.D.;
   b. from the contour elevation extrapolated from a best fit analysis of the floodplain boundary when overlaid onto a USGS Quadrangle Map or other topographic map prepared by a Professional Land Surveyor or registered professional engineer, if the floodplain boundary has a significant correlation to the elevation contour line(s); or, in the absence of all other data,
   c. to be the elevation of the ground at the intersection of the floodplain boundary and a line perpendicular to the shoreline which passes along the ground through the site of the proposed building.

I. A description of an elevation reference point established on the site of all developments for which elevation standards apply as required in Article VI;

J. A written certification by a Professional Land Surveyor, registered professional engineer or architect, that the base flood elevation and grade elevations shown on the application are accurate;

K. The following certifications as required in Article VI by a registered professional engineer or architect:

1. A Floodproofing Certificate (FEMA Form 81-65, 02/06, as amended), to verify that the floodproofing methods for any non-residential structures will meet the floodproofing criteria of Article III.H.4.; Article VI.G.; and other applicable standards in Article VI;

2. A Hydraulic Openings Certificate to verify that engineered hydraulic openings in foundation walls will meet the standards of Article VI.K.2.a.;

3. A certified statement that bridges will meet the standards of Article VI.L.;

4. A certified statement that containment walls will meet the standards of Article VI.M.;

L. A description of the extent to which any water course will be altered or relocated as a result of the proposed development; and,
M. A statement of construction plans describing in detail how each applicable development standard in Article VI will be met.

ARTICLE IV - APPLICATION FEE AND EXPERT’S FEE

A non-refundable application fee as established by the Board of Selectmen shall be paid to the Town Clerk and a copy of a receipt for the same shall accompany the application.

An additional fee may be charged if the Code Enforcement Officer and/or Board of Appeals needs the assistance of a professional engineer or other expert. The expert’s fee shall be paid in full by the applicant within 10 days after the town submits a bill to the applicant. Failure to pay the bill shall constitute a violation of the ordinance and be grounds for the issuance of a stop work order. An expert shall not be hired by the municipality at the expense of an applicant until the applicant has either consented to such hiring in writing or been given an opportunity to be heard on the subject. An applicant who is dissatisfied with a decision to hire expert assistance may appeal that decision to the Board of Appeals.

ARTICLE V - REVIEW STANDARDS FOR FLOOD HAZARD DEVELOPMENT PERMIT APPLICATIONS

The Code Enforcement Officer shall:

A. Review all applications for the Flood Hazard Development Permit to assure that proposed developments are reasonably safe from flooding and to determine that all pertinent requirements of Article VI (Development Standards) have been, or will be met;

B. Utilize, in the review of all Flood Hazard Development Permit applications:

1. the base flood data contained in the "Flood Insurance Rate Map - Town of Chesterville, Maine," as described in Article I;

2. in special flood hazard areas where base flood elevation and floodway data are not provided, the Code Enforcement Officer shall obtain, review and reasonably utilize any base flood elevation and floodway data from federal, state, or other technical sources, including information obtained pursuant to Article III.H.1.; Article VI.J.; and Article VIII.D., in order to administer Article VI of this Ordinance; and,

3. when the community establishes a base flood elevation in a Zone A by methods outlined in Article III.H.1., the community shall submit that data to the Maine Floodplain Management Program in the State Planning Office.

C. Make interpretations of the location of boundaries of special flood hazard areas shown on the maps described in Article I of this Ordinance;

D. In the review of Flood Hazard Development Permit applications, determine that all necessary permits have been obtained from those federal, state, and local government agencies from which prior approval is required by federal or state law, including but not limited to Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1344;

E. Notify adjacent municipalities, the Department of Environmental Protection, and the Maine Floodplain Management Program in the State Planning Office prior to any alteration or relocation of a water course and submit copies of such notifications to the Federal Emergency Management Agency;
F. If the application satisfies the requirements of this Ordinance, approve the issuance of one of the following Flood Hazard Development Permits based on the type of development:

1. A two part Flood Hazard Development Permit for elevated structures. Part I shall authorize the applicant to build a structure to and including the first horizontal floor only above the base flood level. At that time the applicant shall provide the Code Enforcement Officer with an Elevation Certificate completed by a Professional Land Surveyor, registered professional engineer or architect based on the Part I permit construction, "as built", for verifying compliance with the elevation requirements of Article VI, paragraphs F, G, or H. Following review of the Elevation Certificate data, which shall take place within 72 hours of receipt of the application, the Code Enforcement Officer shall issue Part II of the Flood Hazard Development Permit. Part II shall authorize the applicant to complete the construction project; or,

2. A Flood Hazard Development Permit for Floodproofing of Non-Residential Structures that are new construction or substantially improved non-residential structures that are not being elevated but that meet the floodproofing standards of Article VI.G.1.,2., and 3. The application for this permit shall include a Floodproofing Certificate signed by a registered professional engineer or architect; or,

3. A Flood Hazard Development Permit for Minor Development for all development that is not new construction or a substantial improvement, such as repairs, maintenance, renovations, or additions, whose value is less than 50% of the market value of the structure. Minor development also includes, but is not limited to: accessory structures as provided for in Article VI.I., mining, dredging, filling, grading, paving, excavation, drilling operations, storage of equipment or materials, deposition or extraction of materials, public or private sewage disposal systems or water supply facilities that do not involve structures; and non-structural projects such as bridges, dams, towers, fencing, pipelines, wharves and piers.

G. Maintain, as a permanent record, copies of all Flood Hazard Development Permit Applications, corresponding Permits issued, and data relevant thereto, including reports of the Board of Appeals on variances granted under the provisions of Article IX of this Ordinance, and copies of Elevation Certificates, Floodproofing Certificates, Certificates of Compliance and certifications of design standards required under the provisions of Articles III, VI, and VII of this Ordinance.

ARTICLE VI - DEVELOPMENT STANDARDS

All developments in areas of special flood hazard shall meet the following applicable standards:

A. All Development - All development shall:

1. be designed or modified and adequately anchored to prevent flotation (excluding piers and docks), collapse or lateral movement of the development resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;

2. use construction materials that are resistant to flood damage;

3. use construction methods and practices that will minimize flood damage; and,

4. use electrical, heating, ventilation, plumbing, and air conditioning equipment, and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during flooding conditions.

Chesterville Floodplain Ordinance
B. **Water Supply** - All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the systems.

C. **Sanitary Sewage Systems** - All new and replacement sanitary sewage systems shall be designed and located to minimize or eliminate infiltration of flood waters into the system and discharges from the system into flood waters.

D. **On Site Waste Disposal Systems** - On site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during floods.

E. **Watercourse Carrying Capacity** - All development associated with altered or relocated portions of a watercourse shall be constructed and maintained in such a manner that no reduction occurs in the flood carrying capacity of the watercourse.

F. **Residential** - New construction or substantial improvement of any residential structure located within Zone A shall have the lowest floor (including basement) elevated to at least one foot above the base flood elevation utilizing information obtained pursuant to Article III.H.1.; Article V.B; or Article VIII.D.

G. **Non Residential** - New construction or substantial improvement of any non-residential structure located within Zone A shall have the lowest floor (including basement) elevated to at least one foot above the base flood elevation utilizing information obtained pursuant to Article III.H.1.; Article V.B; or Article VIII.D., or together with attendant utility and sanitary facilities shall:

   1. be floodproofed to at least one foot above the base flood elevation utilizing information obtained pursuant to Article III.H.1.; Article V.B; or Article VIII.D., so that below that elevation the structure is watertight with walls substantially impermeable to the passage of water;

   2. have structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy; and,

   3. be certified by a registered professional engineer or architect that the floodproofing design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this section. Such certification shall be provided with the application for a Flood Hazard Development Permit, as required by Article III.K. and shall include a record of the elevation above mean sea level to which the structure is floodproofed.

H. **Manufactured Homes** - New or substantially improved manufactured homes located within Zone A shall:

   1. be elevated such that the lowest floor (including basement) of the manufactured home is at least one foot above the base flood elevation utilizing information obtained pursuant to Article III.H.1.; Article V.B; or Article VIII.D.;

   2. be on a permanent foundation, which may be poured masonry slab or foundation walls, with hydraulic openings, or may be reinforced piers or block supports, any of which support the manufactured home so that no weight is supported by its wheels and axles; and,

   3. be securely anchored to an adequately anchored foundation system to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to:
a. over-the-top ties anchored to the ground at the four corners of the manufactured home, plus two additional ties per side at intermediate points (manufactured homes less than 50 feet long require one additional tie per side); or by,
b. frame ties at each corner of the home, plus five additional ties along each side at intermediate points (manufactured homes less than 50 feet long require four additional ties per side).
c. all components of the anchoring system described in Article VI.H.3.a. & b. shall be capable of carrying a force of 4800 pounds.

I. Recreational Vehicles - Recreational Vehicles located within:
   1. Zone A shall either:
      a. be on the site for fewer than 180 consecutive days;
      b. be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions; or,
      c. be permitted in accordance with the elevation and anchoring requirements for "manufactured homes" in Article VI.H.1.

J. Accessory Structures - Accessory Structures, as defined in Article XIII, located within Zone A, shall be exempt from the elevation criteria required in Article VI.F. & G. above, if all other requirements of Article VI and all the following requirements are met. Accessory Structures shall:
   1. be 500 square feet or less and have a value less than $3000;
   2. have unfinished interiors and not be used for human habitation;
   3. have hydraulic openings, as specified in Article VI.K.2., in at least two different walls of the accessory structure;
   4. be located outside the floodway;
   5. when possible be constructed and placed on the building site so as to offer the minimum resistance to the flow of floodwaters and be placed further from the source of flooding than is the primary structure; and,
   6. have only ground fault interrupt electrical outlets. The electric service disconnect shall be located above the base flood elevation and when possible outside the Special Flood Hazard Area.

K. Floodways - Encroachments, including fill, new construction, substantial improvement, and other development shall not be permitted in a floodway which, in Zone A riverine areas, is the channel of the river or other water course and the adjacent land areas to a distance of one-half the width of the floodplain as measured from the normal high water mark to the upland limit of the floodplain, unless a technical evaluation certified by a registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing development and anticipated development:
1. will not increase the water surface elevation of the base flood more than one foot at any point within the community; and,

2. is consistent with the technical criteria contained in Chapter 5 entitled "Hydraulic Analyses," Flood Insurance Study - Guidelines and Specifications for Study Contractors, (FEMA 371 January 1995, as amended).

L. Enclosed Areas Below the Lowest Floor - New construction or substantial improvement of any structure in Zone A that meets the development standards of Article VI, including the elevation requirements of Article VI, paragraphs F, G, or H and is elevated on posts, columns, piers, piles, "stilts," or crawlspaces may be enclosed below the base flood elevation requirements provided all the following criteria are met or exceeded:

1. Enclosed areas are not "basements" as defined in Article XIII;

2. Enclosed areas shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of flood water. Designs for meeting this requirement must either:

   a. be engineered and certified by a registered professional engineer or architect; or,

   b. meet or exceed the following minimum criteria:

      (1) a minimum of two openings having a total net area of not less than one square inch for every square foot of the enclosed area;

      (2) the bottom of all openings shall be below the base flood elevation and no higher than one foot above the lowest grade; and,

      (3) openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the entry and exit of flood waters automatically without any external influence or control such as human intervention, including the use of electrical and other non-automatic mechanical means;

3. The enclosed area shall not be used for human habitation; and,

4. The enclosed areas are usable solely for building access, parking of vehicles, or storage.

M. Bridges - New construction or substantial improvement of any bridge in Zone A shall be designed such that:

1. when possible, the lowest horizontal member (excluding the pilings, or columns) is elevated to at least one foot above the base flood elevation utilizing information obtained pursuant to Article III.H.1.; Article V.B; or Article VIII.D.; and

2. a registered professional engineer shall certify that:

   a. the structural design and methods of construction shall meet the elevation requirements of this section and the floodway standards of Article VI.J.; and
b. the foundation and superstructure attached thereto are designed to resist flotation, collapse and lateral movement due to the effects of wind and water loads acting simultaneously on structural components. Water loading values used shall be those associated with the base flood.

N. **Containment Walls** - New construction or substantial improvement of any containment wall located within Zone A shall:

1. have the containment wall elevated to at least one foot above the base flood elevation utilizing information obtained pursuant to Article III.H.1.; Article V.B.; or Article VIII.D.;

2. have structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy; and

3. be certified by a registered professional engineer or architect that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this section. Such certification shall be provided with the application for a Flood Hazard Development Permit, as required by Article III.K.

O. **Wharves, Piers and Docks** - New construction or substantial improvement of wharves, piers, and docks are permitted in Zone A in and over water and seaward of the mean high tide if the following requirements are met:

1. wharves, piers, and docks shall comply with all applicable local, state, and federal regulations; and

2. for commercial wharves, piers, and docks, a registered professional engineer shall develop or review the structural design, specifications, and plans for the construction.

**ARTICLE VII - CERTIFICATE OF COMPLIANCE**

No land in a special flood hazard area shall be occupied or used and no structure which is constructed or substantially improved shall be occupied until a Certificate of Compliance is issued by the Code Enforcement Officer subject to the following provisions:

A. For New Construction or Substantial Improvement of any elevated structure the applicant shall submit to the Code Enforcement Officer, an Elevation Certificate completed by a Professional Land Surveyor, registered professional engineer, or architect, for compliance with Article VI, paragraphs F, G, or H.

B. The applicant shall submit written notification to the Code Enforcement Officer that the development is complete and complies with the provisions of this ordinance.

C. Within 10 working days, the Code Enforcement Officer shall:

1. review the Elevation Certificate and the applicant's written notification; and,

2. upon determination that the development conforms with the provisions of this ordinance, shall issue a Certificate of Compliance.
ARTICLE VIII - REVIEW OF SUBDIVISION AND DEVELOPMENT PROPOSALS

The Planning Board shall, when reviewing subdivisions and other proposed developments that require review under other federal law, state law or local ordinances or regulations and all projects on 5 or more disturbed acres, or in the case of manufactured home parks divided into two or more lots, assure that:

A. All such proposals are consistent with the need to minimize flood damage.

B. All public utilities and facilities, such as sewer, gas, electrical and water systems are located and constructed to minimize or eliminate flood damages.

C. Adequate drainage is provided so as to reduce exposure to flood hazards.

D. All proposals include base flood elevations, flood boundaries, and, in a riverine floodplain, floodway data. These determinations shall be based on engineering practices recognized by the Federal Emergency Management Agency.

E. Any proposed development plan must include a condition of plan approval requiring that structures on any lot in the development having any portion of its land within a Special Flood hazard Area, are to be constructed in accordance with Article VI of this ordinance. Such requirement will be included in any deed, lease, purchase and sale agreement, or document transferring or expressing an intent to transfer any interest in real estate or structure, including but not limited to a time-share interest. The condition shall clearly articulate that the municipality may enforce any violation of the construction requirement and that fact shall also be included in the deed or any other document previously described. The construction requirement shall also be clearly stated on any map, plat, or plan to be signed by the Planning Board or local reviewing authority as part of the approval process.

ARTICLE IX - APPEALS AND VARIANCES

The Board of Appeals of the Town of Chesterville may, upon written application of an aggrieved party, hear and decide appeals where it is alleged that there is an error in any order, requirement, decision, or determination made by, or failure to act by, the Code Enforcement Officer or Planning Board in the administration or enforcement of the provisions of this Ordinance.

The Board of Appeals may grant a variance from the requirements of this Ordinance consistent with state law and the following criteria:

A. Variances shall not be granted within any designated regulatory floodway if any increase in flood levels during the base flood discharge would result.

B. Variances shall be granted only upon:

1. a showing of good and sufficient cause; and,

2. a determination that should a flood comparable to the base flood occur, the granting of a variance will not result in increased flood heights, additional threats to public safety, public expense, or create nuisances, cause fraud or victimization of the public or conflict with existing local laws or ordinances; and,

3. a showing that the issuance of the variance will not conflict with other state, federal or local laws or ordinances; and,
4. a determination that failure to grant the variance would result in "undue hardship," which in this sub-section means:

a. that the land in question cannot yield a reasonable return unless a variance is granted; and,

b. that the need for a variance is due to the unique circumstances of the property and not to the general conditions in the neighborhood; and,

c. that the granting of a variance will not alter the essential character of the locality; and,

d. that the hardship is not the result of action taken by the applicant or a prior owner.

C. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief, and the Board of Appeals may impose such conditions to a variance as it deems necessary.

D. Variances may be issued for new construction, substantial improvements, or other development for the conduct of a functionally dependent use provided that:

1. other criteria of Article IX and Article VI.J. are met; and,

2. the structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.

E. Variances may be issued for the repair, reconstruction, rehabilitation, or restoration of Historic Structures upon the determination that:

1. the development meets the criteria of Article IX, paragraphs A. through D. above; and,

2. the proposed repair, reconstruction, rehabilitation, or restoration will not preclude the structure's continued designation as a Historic Structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

F. Any applicant who meets the criteria of Article IX, paragraphs A. through E. shall be notified by the Board of Appeals in writing over the signature of the Chairman of the Board of Appeals that:

1. the issuance of a variance to construct a structure below the base flood level will result in greatly increased premium rates for flood insurance up to amounts as high as $25 per $100 of insurance coverage;

2. such construction below the base flood level increases risks to life and property; and,

3. the applicant agrees in writing that the applicant is fully aware of all the risks inherent in the use of land subject to flooding, assumes those risks and agrees to indemnify and defend the municipality against any claims filed against it that are related to the applicant's decision to use land located in a floodplain and that the applicant individually releases the municipality from any claims the applicant may have against the municipality that are related to the use of land located in a floodplain.

---

Chesterville Floodplain Ordinance
G. Appeal Procedure for Administrative and Variance Appeals

1. An administrative or variance appeal may be taken to the Board of Appeals by an aggrieved party within thirty days after receipt of a written decision of the Code Enforcement Officer or Planning Board.

2. Upon being notified of an appeal, the Code Enforcement Officer or Planning Board, as appropriate, shall transmit to the Board of Appeals all of the papers constituting the record of the decision appealed from.

3. The Board of Appeals shall hold a public hearing on the appeal within thirty-five days of its receipt of an appeal request.

4. The person filing the appeal shall have the burden of proof.

5. The Board of Appeals shall decide all appeals within thirty-five days after the close of the hearing, and shall issue a written decision on all appeals.

6. The Board of Appeals shall submit to the Code Enforcement Officer a report of all variance actions, including justification for the granting of the variance and an authorization for the Code Enforcement Officer to issue a Flood Hazard Development Permit, which includes any conditions to be attached to said permit.

7. Any aggrieved party who participated as a party during the proceedings before the Board of Appeals may take an appeal to Superior Court in accordance with State laws within forty-five days from the date of any decision of the Board of Appeals.

ARTICLE X - ENFORCEMENT AND PENALTIES

A. It shall be the duty of the Code Enforcement Officer to enforce the provisions of this Ordinance pursuant to Title 30-A MRSA § 4452.

B. The penalties contained in Title 30-A MRSA § 4452 shall apply to any violation of this Ordinance.

C. In addition to any other actions, the Code Enforcement Officer, upon determination that a violation exists, may submit a declaration to the Administrator of the Federal Insurance Administration requesting a denial of flood insurance. The valid declaration shall consist of;

1. the name of the property owner and address or legal description of the property sufficient to confirm its identity or location;

2. a clear and unequivocal declaration that the property is in violation of a cited State or local law, regulation, or ordinance;

3. a clear statement that the public body making the declaration has authority to do so and a citation to that authority;

4. evidence that the property owner has been provided notice of the violation and the prospective denial of insurance; and,

5. a clear statement that the declaration is being submitted pursuant to Section 1316 of the National Flood Insurance Act of 1968, as amended.
ARTICLE XI - VALIDITY AND SEVERABILITY

If any section or provision of this Ordinance is declared by the courts to be invalid, such decision shall not invalidate any other section or provision of this Ordinance.

ARTICLE XII - CONFLICT WITH OTHER ORDINANCES

This Ordinance shall not in any way impair or remove the necessity of compliance with any other applicable rule, ordinance, regulation, bylaw, permit, or provision of law. Where this Ordinance imposes a greater restriction upon the use of land, buildings, or structures, the provisions of this Ordinance shall control.

ARTICLE XIII - DEFINITIONS

Unless specifically defined below, words and phrases used in this Ordinance shall have the same meaning as they have at common law and to give this Ordinance its most reasonable application. Words used in the present tense include the future, the singular number includes the plural, and the plural number includes the singular. The word "may" is permissive; "shall" is mandatory and not discretionary.

Accessory Structure - means a small detached structure that is incidental and subordinate to the principal structure.

Adjacent Grade - means the natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

Area of Special Flood Hazard - means the land in the floodplain having a one percent or greater chance of flooding in any given year, as specifically identified in the Flood Insurance Rate Map cited in Article I of this Ordinance.

Base Flood - means the flood having a one percent chance of being equaled or exceeded in any given year, commonly called the 100-year flood.

Basement - means any area of the building having its floor subgrade (below ground level) on all sides.

Building - see Structure.

Certificate of Compliance - A document signed by the Code Enforcement Officer stating that a structure is in compliance with all of the provisions of this Ordinance.

Code Enforcement Officer - A person certified under Title 30-A M.R.S.A, Section 4451 (including exceptions in subsection 4451, paragraph 1) and employed by a municipality to enforce all applicable comprehensive planning and land use laws and ordinances.

Development - means any man made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, drilling operations or storage of equipment or materials.

Elevated Building - means a non-basement building:

a. built, in the case of a building in Zone A, to have the top of the elevated floor, elevated above the ground level by means of pilings, columns, post, piers, or "stilts;" and
b. adequately anchored so as not to impair the structural integrity of the building during a flood of up to one foot above the magnitude of the base flood.

In the case of Zone A, Elevated Building also includes a building elevated by means of fill or solid foundation perimeter walls with hydraulic openings sufficient to facilitate the unimpeded movement of flood waters, as required in Article V.I.K.

Elevation Certificate - An official form (FEMA Form 81-31, 03/09, as amended) that:

a. is used to verify compliance with the floodplain management regulations of the National Flood Insurance Program; and,

b. is required for purchasing flood insurance.

Flood or Flooding - means:

a. A general and temporary condition of partial or complete inundation of normally dry land areas from:
   
   1. The overflow of inland or tidal waters.
   
   2. The unusual and rapid accumulation or runoff of surface waters from any source.

b. The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in paragraph a.1. of this definition.

Flood Elevation Study - means an examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations.

Flood Insurance Rate Map (FIRM) - means an official map of a community, on which the Federal Insurance Administrator has delineated both the special hazard areas and the risk premium zones applicable to the community.

Floodplain or Flood-prone Area - means any land area susceptible to being inundated by water from any source (see flooding).

Floodplain Management - means the operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works, and floodplain management regulations.

Floodplain Management Regulations - means zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances (such as a floodplain ordinance, grading ordinance, and erosion control ordinance) and other applications of police power. The term describes such state or local regulations, in any combination thereof, which provide standards for the purpose of flood damage prevention and reduction.

Floodproofing - means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and contents.

Floodway - see Regulatory Floodway.
Freeboard - means a factor of safety usually expressed in feet above a flood level for purposes of floodplain management. Freeboard tends to compensate for the many unknown factors, such as wave action, bridge openings, and the hydrological effect of urbanization of the watershed, that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions.

Functionally Dependent Use - means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

Historic Structure - means any structure that is:

a. Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

b. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary of the Interior to qualify as a registered historic district;

c. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or

d. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:

1. By an approved state program as determined by the Secretary of the Interior, or

2. Directly by the Secretary of the Interior in states without approved programs.

Locally Established Datum - means, for purposes of this ordinance, an elevation established for a specific site to which all other elevations at the site are referenced. This elevation is generally not referenced to the National Geodetic Vertical Datum (NGVD), North American Vertical Datum (NAVD) or any other established datum and is used in areas where Mean Sea Level data is too far from a specific site to be practically used.

Lowest Floor - means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor, provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements described in Article VI.K. of this ordinance.

Manufactured Home - means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term manufactured home also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days.

Manufactured Home Park or Subdivision - means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.
Mean Sea Level - means, for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929, North American Vertical Datum (NAVD) or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.

Minor Development - means all development that is not new construction or a substantial improvement, such as repairs, maintenance, renovations, or additions, whose value is less than 50% of the market value of the structure. It also includes, but is not limited to: accessory structures as provided for in Article V.I., mining, dredging, filling, grading, paving, excavation, drilling operations, storage of equipment or materials, deposition or extraction of materials, public or private sewage disposal systems or water supply facilities that do not involve structures; and non-structural projects such as bridges, dams, towers, fencing, pipelines, wharves and piers.

National Geodetic Vertical Datum (NGVD) - means the national vertical datum, whose standard was established in 1929, which is used by the National Flood Insurance Program (NFIP). NGVD was based upon mean sea level in 1929 and also has been called “1929 Mean Sea Level (MSL)”.

New Construction - means structures for which the "start of construction" commenced on or after the effective date of the initial floodplain management regulations adopted by a community and includes any subsequent improvements to such structures.

North American Vertical Datum (NAVD) - means the national datum whose standard was established in 1988, which is the new vertical datum used by the National Flood Insurance Program (NFIP) for all new Flood Insurance Rate Maps. NAVD is based upon vertical datum used by other North American countries such as Canada and Mexico and was established to replace NGVD because of constant movement of the earth's crust, glacial rebound, and subsidence and the increasing use of satellite technology.

100-year flood - see Base Flood.

Recreational Vehicle - means a vehicle which is:

a. built on a single chassis;

b. 400 square feet or less when measured at the largest horizontal projection, not including slideouts;

c. designed to be self-propelled or permanently towable by a motor vehicle; and

d. designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

Regulatory Floodway -

a. means the channel of a river or other water course and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot, and

b. in Zone A riverine areas, the floodway is considered to be the channel of a river or other water course and the adjacent land areas to a distance of one-half the width of the floodplain, as measured from the normal high water mark to the upland limit of the floodplain.

Riverine - means relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

Special Flood Hazard Area - see Area of Special Flood Hazard.

Chesterville Floodplain Ordinance 16
Start of Construction - means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, substantial improvement or other improvement was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, or modification of any construction element, whether or not that alteration affects the external dimensions of the building.

Structure - means, for floodplain management purposes, a walled and roofed building. A gas or liquid storage tank that is principally above ground is also a structure.

Substantial Damage - means, damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damage condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

Substantial Improvement - means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the start of construction of the improvement. This term includes structures which have incurred substantial damage, regardless of the actual repair work performed. The term does not, however, include either:

a. Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or

b. Any alteration of a Historic Structure, provided that the alteration will not preclude the structure's continued designation as a historic structure, and a variance is obtained from the community's Board of Appeals.

Variance - means a grant of relief by a community from the terms of a floodplain management regulation.

Violation - means the failure of a structure or development to comply with a community's floodplain management regulations.

ARTICLE XIV - ABROGATION

This ordinance repeals and replaces any municipal ordinance previously enacted to comply with the National Flood Insurance Act of 1968 (P.L. 90-488, as amended).

ARTICLE I

Statement of Policy

The Municipality of ______________________ administers a program of general assistance (GA) available to all persons who are eligible to receive assistance in accordance with the standards of eligibility as provided within this ordinance, Department of Health and Human Services (DHHS) GA policy and in 22 M.R.S.A. § 4301 et seq.

Every effort will be made to recognize the dignity of the applicant while encouraging self-reliance. The program will strive to help eligible persons achieve self-maintenance by promoting the work incentive. When possible, it will seek to alleviate needs other than financial through rehabilitative, preventive and protective services. The general assistance program will place no unreasonable restrictions on the personal rights of the applicant or recipient, nor will there be any unlawful discrimination based on sex, age, race, nationality, religion, sexual orientation or disability. The municipality is committed to including qualified individuals with disabilities in municipal services, programs, and activities. As a result, the municipality will promote a GA program that when viewed in its entirety, is readily accessible to and usable by individuals with disabilities. GA applicants with physical or mental disabilities that require a reasonable accommodation in order to access and/or utilize the municipal GA program are encouraged to provide the municipality with advance notice regarding the accommodation request.

The general assistance administrator will act promptly on all applications for assistance and requests for fair hearings. GA applicants will be provided information regarding their rights and responsibilities under the GA program. Within 24 hours after receipt of an application, the administrator will provide the applicant a written decision, whether or not assistance is granted, that will state the specific reasons for the decision. The administrator will also provide the applicant written notice that the applicant may appeal to the municipal fair hearing authority if dissatisfied with the decision. When an
applicant is determined to be eligible, assistance appropriate to the need will be furnished within 24 hours after the completed application is submitted except when the administrator issues non-emergency assistance conditionally on the successful completion of a workfare assignment (see section 5.6 of this ordinance).

The administrator will maintain complete and accurate records pertaining to each applicant and recipient. These records are confidential as a matter of law (see 22 MRSA §4306).

The administrator will post notice stating the day(s) and hours the administrator will be available. The administrator, or other designated person/entity, will be available to take applications in the event of an emergency at all other times. A copy of this ordinance and Maine General Assistance law will be readily available to any member of the public upon request. Notice to this effect will be posted.
ARTICLE II

Definitions

Section 2.1—Common Meaning of Words

Unless otherwise apparent or defined, all words in this ordinance will have their common meaning.

Section 2.2—Special Definitions

Applicant. A person who has submitted, either directly or through an authorized representative, an application for general assistance or who has, in an emergency, requested assistance without first completing an application. In addition, all persons on whose behalf an authorized application has been submitted or on whose behalf benefits have been granted shall be considered applicants.

Application Form. A standardized form used by the general assistance administrator for the purpose of allowing a person to apply for general assistance and confirming the fact that a person has made application. The application form must be signed by the applicant to be considered complete.

Basic Necessities. Food, clothing, shelter, fuel, electricity, non-elective essential medical services as prescribed by a physician, nonprescription drugs, basic telephone service where it is necessary for medical reasons, property taxes when a tax lien placed on the property threatens the loss of the applicant's place of residence, and any other commodity or service determined essential by the municipality.

“Basic necessities” do not include:

- Phone bills
- Cable or satellite dish television
- Mail orders
- Vehicle payments
- Credit card debt**
- Furniture
- Loan re-payments**
- Cigarettes
- Alcohol
- Pet care costs
- Vacation costs
- Legal fees
- Late fees
- Key deposits
- Security deposits for rental property (except for those situations where no other tenant to satisfy the need for the immediate payment of the security deposit or payment in full) \(22 \text{ M.R.S.A. § 4301(1)}\).

**Repayments of loans or credit will be treated as having been spent on basic necessities when the applicant can provide verification of this fact.**

**Case Record.** An official file containing application forms; correspondence; narrative records and all other communications pertaining to an applicant or recipient; written decisions regarding eligibility including reasons for those decisions as well as the types and amounts of assistance provided; and all records concerning an applicant’s request for fair hearing and those fair hearing decisions.

**Categorical Assistance.** All state and federal income maintenance programs.

**Claimant.** A person who has requested a fair hearing.

**Deficit.** An applicant’s deficit is the appropriate overall maximum level of assistance for the household as provided in section 6.8 of this ordinance less the household income as calculated pursuant to section 6.7 of this ordinance, provided such a calculation yields a positive number. If the household income is greater than the appropriate overall maximum level of assistance, the household has no deficit.
**Disabled Person.** A person who is presently unable to work or maintain a home due to a physical or mental disability that is verified by a physician or qualified mental health provider.

**Dwelling Unit.** A building or part thereof used for separate living quarters for one or more persons living as a single housekeeping unit (22 M.R.S.A. § 4301(2)).

**Eligible Person.** A person who is qualified to receive general assistance benefits from the municipality according to the standards of eligibility set forth in this ordinance, Maine General Assistance law (22 M.R.S.A. ch. 1161), and Maine Department of Health & Human Services regulations (10-144 C.M.R. ch. 323). If otherwise qualified, “Eligible Person” shall include U.S. citizens; non-U.S. citizens who are lawfully present in the United States as described in 8 U.S.C. § 1621(a)(1)-(3); and non-U.S. citizens who are pursuing a lawful process to apply for immigration relief. Assistance for non-citizens pursuing a lawful process for immigration relief shall not exceed 24 months beginning with assistance provided after July 1, 2015. “Eligible Person” does not include a fugitive from justice as defined in 15 M.R.S.A. § 201(4).

**Emergency.** Any life threatening situation or a situation beyond the control of the individual which, if not alleviated immediately, could reasonably be expected to pose a threat to the health or safety of a person. At the municipality’s option, a situation which is imminent and which may result in undue hardship or unnecessary cost to the individual or municipality if not resolved immediately. (22 M.R.S.A. §§ 4301(4), 4308(2), 4310).

**General Assistance Program.** A service administered by a municipality for the immediate aid of persons who are unable to provide the basic necessities essential to maintain themselves or their families. A general assistance program provides a specific amount and type of aid for defined needs during a limited period of time and is not intended to be a continuing “grant-in-aid” or “categorical” welfare program. This definition shall not in any way lessen the responsibility of each municipality to provide general assistance to a person each time that the person is in need and is found to be otherwise eligible to receive general assistance (22 M.R.S.A. § 4301(5)).
General Assistance Administrator. A municipal official designated to receive applications, make decisions concerning an applicant’s right to receive assistance, and prepare records and communications concerning assistance. He or she may be an elected overseer or an authorized agent such as a town manager, welfare director, or caseworker (22 M.R.S.A. § 4301(12)).

Household. “Household” means an individual or a group of individuals who share a dwelling unit. When an applicant shares a dwelling unit with one or more individuals, even when a landlord-tenant relationship may exist between individuals residing in the dwelling unit, eligible applicants may receive assistance for no more than their pro rata share of the actual costs of the shared basic needs of that household according to the maximum levels of assistance established in the municipal ordinance. The pro rata share is calculated by dividing the maximum level of assistance available to the entire household by the total number of household members. The income of household members not legally liable shall be considered as available to the applicant only when there is a pooling of income (22 M.R.S.A. § 4301(6)).

Income. “Income” means any form of income in cash or in kind received by the household including:

- Net remuneration for services performed
- Cash received on either secured or unsecured credit
- Payments received as an annuity, retirement or disability benefits
- Veterans’ pensions and/or benefits
- Retirement accounts or benefits
- Workers’ compensation
- Unemployment benefits
- Federal and/or state tax returns
- Benefits under any state or federal categorical assistance program such as, TANF, Supplemental Security Income, Social Security and any other payments from governmental sources (unless specifically prohibited by any law or regulation)
• Court ordered support payments, e.g., child support
• Income from pension or trust funds
• Household income from any other source, including

The following items shall not be considered as income or assets that must be liquidated for the purposes of deriving income:

1) Real or personal income-producing property, tools of trade, governmental entitlement specifically treated as exempt assets by state or federal law;

2) Actual work-related expenses, whether itemized or by standard deduction, such as taxes, retirement fund contributions, union dues, transportation costs to and from work, special equipment costs and child care expenses; or

3) Earned income of children below the age of 18 years who are full-time students and who are not working full time.

In determining need, the period of time used as a basis for the calculation shall be a 30-day period commencing on the date of the application. This prospective calculation shall not disqualify an applicant who has exhausted income to purchase basic necessities, provided that the income does not exceed the income standards established by the municipality (22 M.R.S.A. § 4301(7)).

4) Certain public benefit programs are specifically exempt from being counted as income for purposes of GA. These programs include:
   • Food Stamps (7 USCS § 2017(b))
   • Li-Heap (42 USCS § 8624)
   • Family Development Accounts (22 M.R.S. § 3762)
   • Americorp VISTA program benefits (42 USCS § 5044 (f))
• Property tax rebates issued under the Maine Property Tax Fairness Credit program, only so long as the money is spent on basic necessities. (22 M.R.S.A. § 4301(7))

• Aspire Support Service Payments (10-144 CMR Chapter 323)

**Initial Applicant.** A person who has not applied for assistance in this or any other municipality is considered an initial applicant.

**Just Cause.** A valid, verifiable reason that hinders an individual from complying with one or more conditions of eligibility or from attending a scheduled fair hearing (22 M.R.S.A. §§ 4301(8), 4316-A(5)).

**Lump Sum Payment.** A one-time or typically nonrecurring sum of money issued to an applicant or recipient. Lump sum payment includes, but is not limited to, retroactive or settlement portions of social security benefits, workers' compensation payments, unemployment benefits, disability income, veterans' benefits, severance pay benefits, or money received from inheritances, lottery winnings, personal injury awards, property damage claims or divorce settlements. A lump sum payment includes only the amount of money available to the applicant after payment of required deductions has been made from the gross lump sum payment. A lump sum payment does not include conversion of a non-liquid resource to a liquid resource if the liquid resource has been used or is intended to be used to replace the converted resource or for other necessary expenses. (22 MRSA § 4301 (8-A)).

**Material Fact.** A material fact is a fact that necessarily has some bearing on the determination of an applicant’s general assistance eligibility, and which would, if disclosed to the administrator, have some determinable effect on the calculation of eligibility or the issuance of a grant of assistance.
Maximum Levels of Assistance. The amount of financial assistance for a commodity or service as established in section 6.8 of this ordinance or the actual cost of any such basic necessity, whichever is less.

Misconduct. For purposes of the GA work requirement (see 22 MRSA §4316-A) misconduct shall have the same meaning as misconduct defined in 26 MRSA §1043 (23). (See Appendix I of this ordinance for the official definition of misconduct.) Generally, employees are guilty of misconduct when the employee violates his or her duties or obligations to the employer. Employees who engage in a pattern of irresponsible behavior to the detriment of the employer’s interest may also be found guilty of misconduct.

Municipality. Any city, town or plantation administering a general assistance program.

Municipality of Responsibility. The municipality which is financially liable for the support of an eligible person at the time of application (22 M.R.S.A. §§ 4301(9), 4307).

Need. The condition whereby a person’s income, money, property, credit, assets or other resources available to provide basic necessities for the individual and the individual’s family are less than the maximum levels of assistance (22 M.R.S.A. §§ 4301(10), 4308).

Net General Assistance Costs. Those direct costs incurred by a municipality in providing assistance to eligible persons according to standards established by the municipal officers. These do not include the administrative expenses of the general assistance program (22 M.R.S.A. §§ 4301(11), 4311).

Period of Eligibility. The time for which a person has been granted assistance. The period of eligibility may vary depending on the type of assistance provided, however, in no event shall this period extend beyond one month (22 M.R.S.A. § 4309(1)).

Pooling of Income. “Pooling of income” means the financial relationship among household members who are not legally liable for mutual support in which there occurs
any commingling of funds or sharing of income or expenses. Municipalities may by ordinance establish as a rebuttable presumption that persons sharing the same dwelling unit are pooling their income. Applicants who are requesting that the determination of eligibility be calculated as though one or more household members are not pooling their income have the burden of rebutting the presumed pooling of income.

**Real Estate.** Any land, buildings, homes, mobile homes and any other things affixed to the land (22 M.R.S.A. § 4301(13)).

**Recipient.** A person who has applied for and is currently receiving general assistance.

**Registered Domestic Partner.** An individual registered as the domestic partner of the applicant pursuant to 22 M.R.S.A. § 2710.

**Repeat Applicants.** All applicants for general assistance that are not initial applicants are repeat applicants. For purposes of this ordinance repeat and subsequent shall have the same meaning.

**Resident.** A person who is physically present in a municipality with the intention of remaining in that municipality in order to maintain or establish a home and who has no other residence. A person who applies for assistance in a municipality who is not a resident of that municipality or any other municipality is the responsibility of the municipality where the person first applies. That municipality must take an application and grant assistance to the applicant if he/she is eligible, until he/she establishes a new residence in another municipality (22 M.R.S.A. § 4307).

**Resources.** Resources include any program, service, or other sources of support which are an alternative to or supplement for general assistance. There are two kinds of resources: “available” and “potential”. Potential resources are programs, services, non-liquid assets, or trusts that typically require people to apply in writing and/or wait a period of time before eligibility is determined or the potential income is released.
Potential resources include but are not limited to any state or federal assistance program, employment benefits, governmental or private pension program, available trust funds, support from legally liable relatives, child support payments, and jointly held resources where the applicant or recipient share may be available to the individual (22 M.R.S.A. § 4317). Potential resources include the TANF (previously known as AFDC) program, Food Stamps, fuel assistance (HEAP), subsidized housing, and similar programs.

Available resources include resources which are immediately available to the applicant or which can be conveniently secured by the applicant without delay, such as cash on hand or in bank accounts, assets for which there is an immediate and available market, or support from relatives which is being made available at the time of application and for which the applicant does not have to take any unreasonable steps to secure (e.g., relocation beyond the immediate region). At the discretion of the GA administrator a necessary minimum balance required by a financial institution in order to obtain free checking or in order to maintain the account shall not be considered an available resource.

The municipal GA administrator reserves the right to inform GA clients of services, commodities or facilities made available by private organizations or charities. Although GA applicants/recipients may be informed of the existence of a charitable resource and/or organization, GA eligibility shall not be based or conditioned on the use of a private charitable resource(s).

**30-Day Need.** An applicant’s 30-day need is the sum of the household’s prospective 30-day costs, from the date of application, for the various basic necessities. For the purpose of this calculation, the 30-day cost for any basic need shall be the household’s actual 30-day cost for the basic necessity or the maximum 30-day cost for the basic necessity as established by this ordinance, whichever is less.

**Unforeseen Repeat Applicants.** Are repeat applicants who have not applied for assistance within the last twelve months and who have been regularly employed or
receiving support from a public benefit or private source and who have unexpectedly become unemployed through no fault of their own or whose benefits (e.g., through an available resource) have ceased through no fault of their own.

**Unmet Need.** An applicant’s unmet need is the household’s 30-day need as established by section 6.6 of the ordinance less the household income as calculated pursuant to section 6.7 of this ordinance, provided such a calculation yields a positive number. If the household income is greater than the household’s 30-day need, the household does not have an unmet need.

**Work Requirements.** Work requirements are those obligations the municipal administrator places on applicants for general assistance as directed and/or authorized by 22 M.R.S.A. § 4316-A to the extent such obligations ensure a continuing potential eligibility for general assistance when complied with, result in ineligibility when violated, and are not merely optional, discretionary, or advisory. Work requirements include registering for work, looking for work in good faith, accepting all suitable job offers, maintaining employment, performing workfare, and participating in training, educational, or rehabilitation programs that will assist the participant in securing employment.
ARTICLE III

Administrative Rules and Regulations

The following are rules and regulations for the administration of general assistance.

Section 3.1—Confidentiality of Information

Case records and all other information relating to an applicant or recipient of general assistance are confidential and will not be disclosed to the general public, unless the applicant or recipient states in writing what information is to be released (22 M.R.S.A. § 4306).

Release of Information. Applicants, recipients and their legal representatives have the right to review their case records. No record will be released to a third party, however, unless the administrator receives a consent form signed by the applicant expressly authorizing the release of his or her records to the specified parties. Whenever the administrator releases any information, he/she will make a notation in the applicant’s file stating to whom the record was released and the date. The administrator may charge a reasonable fee for the reproduction of any records when appropriate.

Information from Other Sources; Penalty. Information furnished to the municipality by the Department of Health and Human Services or any other agency or institution pursuant to 22 M.R.S.A. § 4314, is confidential. The general assistance administrator will also comply with laws relating to the confidentiality of vital statistic records such as those concerning birth, marriage and death. (22 M.R.S.A. § 2706).

Any representative of a financial institution or any employer of a general assistance applicant who, upon receipt of a written release signed by the depositor and a written request from the Administrator, refuses to provide necessary information to the administrator in order to verify an applicant’s eligibility must state in writing the reason for the refusal. Effective November 1, 2017 national banks are also obligated to disclose deposit information to the Administrator upon receipt of a written request and
release signed by the depositor. Additionally, effective November 1, 2017, when a municipality or its agents are acting in accordance with section 4313(2) to verify eligibility for funeral or cremation benefits, an officer of a financial institution must disclose the amount deposited upon receipt of a written request from the municipality or its agents and a notarized affidavit signed by the overseer of the municipality or its agents stating that the named depositor is deceased. Any such person who refuses to provide information, without just cause, may be subject to a civil penalty of not less than $25 nor more than $100. Any person, including the applicant, who knowingly and willfully makes a false representation of a material fact to the administrator is committing a Class E crime (22 M.R.S.A. §§ 4314, 4315).

Misuse of Information. Misuse of any information relating to an applicant or recipient is a punishable offense (22 M.R.S.A. § 42(2)).

Section 3.2—Maintenance of Records

The general assistance administrator will keep complete and accurate general assistance records (22 M.R.S.A. § 4306). These records are necessary to:

a) provide a valid basis of accounting for municipal expenditures;

b) document and support decisions concerning an applicant or recipient; and

c) ensure the availability of all relevant information in the event of a fair hearing or judicial review of a decision by the general assistance administrator.

Case Records. The administrator will establish and maintain a separate case record, either in paper format or digital format for each applicant or recipient. Each case record will include at least:

- household applications
- budget sheets
- information concerning the types and amounts of assistance provided
- narrative statements describing the nature of the emergency situation whenever general assistance is granted in amounts greater than the applicant's mathematical eligibility (i.e., deficit or unmet need, whichever is less)
- written decisions
- requests for fair hearings and the fair hearing authority decisions
- workfare participation records
- repayments to the municipality
- narrative writings documenting the need for general assistance, the results of home visits, collateral information, referrals, changes in status
- client authorization(s) for the release of GA information and/or reason(s) for the release of confidential information
- adjustments in aid, and suspension or termination of eligibility
- physician's documentation
- Supplemental Security Income (SSI) interim assistance reimbursement authorization forms
- vendor forms

Case records will not include information or material that is irrelevant to either the applicant's or recipient's application or the administrator's decisions.

**Retention of Records.** General assistance records shall be retained for a minimum of three full years. The three year period shall coincide with the State's fiscal year which begins July 1 and ends on the following June 30. Records may be destroyed after three years by one of the two preferred methods of destruction for confidential records, i.e., supervised shredding, burning or appropriate digital deletion/destruction process. In the event a client's records contain SSI reimbursement forms, the client's records should be maintained so that the municipality may seek reimbursement.
ARTICLE IV

Application Procedure

Section 4.1—Right to Apply

**Who May Apply.** *Anyone* may apply for general assistance. The head of the family, any other responsible household member, or an authorized representative must apply in person, except in special emergency situations as provided in section 4.9 of this ordinance or except when the applicant is a resident of an emergency shelter and the municipality has made an agreement with that emergency shelter to presume shelter residents to be eligible for general assistance (22 M.R.S.A. §4304(3)). In such cases, the administrator may require a representative to present a signed statement documenting that he/she is in fact authorized to apply for general assistance on behalf of the named applicant. The applicant or representative must complete a written application and any other required forms so that the administrator can determine eligibility (22 M.R.S.A. §§ 4305, 4308). With notice, all members of the household receiving general assistance may be required to physically present themselves to the administrator. Note that fugitives from justice are ineligible for general assistance.

**Application Via Telephone.** When a person has an emergency but is unable to apply in person due to illness, disability, lack of child care, lack of transportation or other good cause, and he/she cannot send an authorized representative, the administrator will accept an application by telephone. The telephone application process will include the administrator receiving written verification by mail and visiting the applicant's home with his or her permission (22 M.R.S.A. § 4304).

**Written Application Upon Each Request.** Each request for assistance will be administered in accordance with these guidelines. The administrator will make an independent determination of eligibility for general assistance each time a person applies (22 M.R.S.A. §§ 4308, 4309).
Applications Accepted; Posted Notice. Application forms will be available during regular business hours at the municipal office and when the general assistance administrator is conducting interviews with applicants. Notice will be posted stating when and where people may apply for assistance and the name of the administrator available to take emergency applications at all other times. In addition, the posted notice shall include the fact that the municipality must issue a written decision on all applications within 24 hours, and the DHHS toll-free telephone numbers for reporting alleged violations or complaints. Completed applications will be accepted and interviews given only during the regular hours established and posted by the administrator. In an emergency, however, the administrator or his or her designee will be available to accept applications for assistance whenever necessary (22 M.R.S.A. § 4304).

Section 4.2—Application Interview

Except when it is impractical, the general assistance administrator will interview each applicant personally before making a decision. The interview will be conducted in private, although the applicant may be accompanied by a legal representative, friend or family member.

Section 4.3—Contents of the Application

At a minimum, the application will contain the following mandatory information:

a) applicant’s name, address, date of birth, Social Security number or appropriate United States Customs and Immigration Services (USCIS) documentation, and phone number;

b) names, date(s) of birth, and Social Security number(s) or appropriate USCIS documentation of other household members for whom the applicant is seeking assistance;

c) total number of individuals living with the applicant;

d) employment and employability information;
e) all household income, resources, assets, and property; 

f) household expenses; 

g) types of assistance being requested; 

h) penalty for false representation; 

i) applicant’s permission to verify information; 

j) signature of applicant and date. 

In the event an initial applicant is unable to provide identification records (e.g., Social Security card/number) because the record may have been lost, stolen or misplaced, the initial applicant may be provided a reasonable amount of time, e.g., five working days, in order to obtain copies of identification records. Provided the initial applicant makes a good faith effort to obtain the item/record sought, GA required to cure an immediate and/or emergency need shall not be withheld. In such cases the municipality may elect to provide only a prorated amount of GA, e.g., five day’s worth, while the applicant proceeds to obtain the required information.

Section 4.4—General Assistance Administrator’s Responsibilities at the Time of the Application

The administrator will make every effort to inform all applicants of their rights and responsibilities as well as the general program requirements associated with applying for and receiving general assistance, including application requirements, eligibility guidelines, applicant rights, and applicant reimbursement obligations.

**Application Requirements.** The administrator will help the applicant fill out the application form as described in the preceding section. The administrator will inform the applicant of any other information or documentation that the applicant will have to provide in order for the administrator to evaluate the applicant’s eligibility for assistance. The administrator will fully explain the purpose of any release of information form or reimbursement agreement before seeking to obtain the applicant’s signature or written authorization.
**Eligibility Requirements.** The administrator will inform, either verbally or in writing, the applicant of the eligibility requirements of the program, including:

- the income standard of need;
- the applicant’s ongoing use-of-income, work-related, and resource-related responsibilities, as described in the section immediately below;
- the financial reduction in assistance that is the consequence of spending household income on non-basic necessities;
- immigration status (see definition of “Eligible Person”); and
- the disqualification penalties associated with committing fraud, failing to perform work-related assignments without just cause, or failing to make a good faith effort to secure potential resources when the requirement to attempt to obtain those resources has been explained to the applicant in writing.

**Applicant Rights.** The administrator will inform all applicants of their rights to:

- review the municipal General Assistance ordinance and Maine General Assistance law;
- apply for assistance;
- receive a written decision concerning eligibility within 24 hours of applying for assistance;
- confidentiality;
- contact the DHHS;
- challenge the administrator’s decision by requesting a fair hearing.

**Reimbursement/Recovery.** The administrator will inform the applicant that he/she must reimburse the municipality for the amount of general assistance he/she has been granted in the event of a subsequent ability to pay. The municipality may also, as appropriate, contact the client’s legal representative to inform him or her of the client’s obligation to repay the municipality under the GA program. In addition to seeking
repayment from a recipient, the municipality also may recover the amount of assistance
granted to a recipient during the previous 12 months from any relative legally liable for
the applicant’s support (spouses, parents of persons under the age of 25, see Article
VIII, “Recovery of Expenses”) (22 M.R.S.A. §§ 4318, 4319). Whenever applicable, the
administrator will explain the various liens a municipality may place against a recipient’s
real or personal property, such as the mortgage or capital improvement lien, the
Workers’ Compensation lump sum payment lien, or the SSI “interim assistance
agreement” lien, as these liens are described in Article VIII, “Recovery of Expenses”.

Section 4.5—Responsibilities of the Applicant at the Time of Application

The applicant has the responsibility at the time of each application to provide accurate,
complete and current household information and verifiable documentation concerning:

- Income
- Resources
- Assets
- Employment
- Use of income
- Names and addresses of any relatives legally liable for the applicant’s support
- Any change in this information from a previous application that would
  affect household eligibility (22 M.R.S.A. §4309).

In addition, the applicant must accurately report and provide verifiable documentation
that shows the applicant:

a) has remained employed, if previously employed, and not quit work without
   just cause or been discharged from employment for misconduct;

b) has been seeking employment, if previously unemployed or employed on a
   part-time basis, has accepted any suitable offer of employment, and has
satisfactorily performed all workfare assignments or had just cause not to perform those assignments;

c) has made use of all available and potential resources when directed in writing to such a program by the administrator, including, but not limited to, other government benefit programs or the assistance of liable relatives of sufficient means; and

d) has participated in any training, retraining, educational or rehabilitative program when appropriate and when directed in writing to such a program by the administrator, in order to diminish the applicant’s need for general assistance (22 M.R.S.A. § §4316-A, 4317).

Section 4.6—Action on Applications

Written Decision. The general assistance administrator will give a written decision to the applicant concerning his or her eligibility within 24 hours after the applicant submits a written application. Assistance will be furnished to eligible applicants within that period except when the municipality is permitted by law (and pursuant to section 5.6 of this ordinance) to issue assistance conditionally on the successful completion of a workfare assignment (22 M.R.S.A. § § 4305, 4316-A, 4321). A written decision will be given each time a person applies, whether assistance is granted, denied, reduced or terminated.

Content. The written decision will contain the following information:

a) the type and amount of aid the applicant is being granted or the applicant’s ineligibility;

b) the period of eligibility if the applicant is eligible for assistance;

c) the specific reasons for the decision;
d) the applicant’s right to a fair hearing; and

e) the applicant’s right to notify the DHHS if he/she believes the municipality has acted illegally (22 M.R.S.A. § 4321).

Section 4.7—Withdrawal of an Application

An application is considered withdrawn if:

a) the applicant requests in writing that his or her application be withdrawn; or

b) the applicant refuses to complete or sign the application or any other form needed by the general assistance administrator.

Section 4.8—Temporary Refusal to Accept Application

Under special circumstances, the general assistance administrator may temporarily refuse to accept applications. Such circumstances may include, but are not limited to, the following:

a) When the applicant’s conduct is abusive, disruptive, or harassing, or when the applicant is under the influence of drugs or alcohol. In these situations, the applicant will be asked to leave, and if the applicant refuses to leave, the police may be summoned. The applicant will be informed that an application will only be accepted when his or her conduct is under control.

b) If the administrator believes that an applicant’s behavior presents a threat to the health or safety of the public or to a municipal employee, or if such behavior is violent, or if an applicant has engaged in abusive, disruptive or harassing behavior and has been required to leave on more than one occasion, then the applicant may be required to designate a third party to apply for assistance on his or her behalf and the applicant may be prohibited from entering the municipal building;
c) When a third person applies for assistance on behalf of the applicant that person may be required to provide written verification that he/she has been duly authorized to act as a representative for the applicant (22 M.R.S.A. § 4308).

Section 4.9—Emergencies

An emergency is considered to be any life threatening situation or a situation beyond the control of the applicant which if not alleviated immediately could reasonably be expected to pose a threat to the health or safety of the applicant or a member of the household (22 M.R.S.A. § 4301(4)). Although they may be considered otherwise ineligible to receive general assistance, persons who apply for assistance to alleviate an emergency may be granted assistance, except as provided below, if they do not have sufficient income and resources to meet an actual emergency need and have not had sufficient income and resources to avert the emergency (22 M.R.S.A. § 4308).

A municipality may provide emergency assistance when the municipality determines that an emergency is imminent and that failure to provide assistance may result in undue hardship and unnecessary costs to either the client or the municipality.

Disqualification. A person who is currently disqualified from receiving General Assistance due to a violation of sections 5.5, 5.6, 5.7, 5.8, 5.9 or 6.4 of this ordinance is ineligible to receive emergency assistance (22 M.R.S.A. § 4308(2)(A)). However, dependents of a disqualified person may be eligible for assistance. For the purposes of this section, “dependents” are defined as: 1) a dependent minor child; 2) an elderly, ill or disabled person; or 3) a person whose presence is required to provide care for any child under the age of 6 years or any ill or disabled member of the household (22 M.R.S.A. § 4309(3)).

In the event one or more members of a household are disqualified and assistance is requested for the remaining dependents, the eligibility of those dependents will be calculated by dividing the maximum level of assistance available to the entire household by the total number of household members.
Assistance Prior to Verification. Whenever an applicant informs the administrator that he/she needs assistance immediately, the administrator will grant, pending verification, the assistance within 24 hours, provided that:

a) after interviewing the applicant the administrator has determined that the applicant will probably be eligible for assistance after a verification of information is completed; and

b) the applicant submits documentation when possible, to verify his or her need. The administrator may contact at least one other person to confirm the applicant’s statements about needing emergency assistance. No further assistance will be authorized until the applicant’s eligibility is confirmed (22 M.R.S.A. § 4310).

Telephone Applications. If a person has an emergency need and cannot apply in person due to illness, disability, lack of transportation, or other good cause, and if there is no authorized representative who can apply on behalf of the applicant, the administrator shall accept an application over the telephone (22 M.R.S.A. § 4304).

The administrator will not grant any assistance as the result of a telephone application if the applicant refuses to allow the administrator to verify the information either by visiting his or her home or by mail and the administrator cannot determine his or her eligibility through any other means.

Limitation on Emergency Assistance. Applicants are not automatically eligible for emergency assistance. If applicants had income which could have been used to prevent all or part of an emergency, but they spent that income on items which are not basic necessities, they will not be eligible to receive general assistance to replace the misspent money (22 MRSA §§ 4308(2) & 4315-A).

All applicants have the responsibility to provide the administrator with verifiable documentation demonstrating that the applicant did not have sufficient income to avert
the emergency situation. According to the following criteria, the administrator may limit emergency assistance to cover only the difference between the amount of money necessary for the household to avoid the emergency and the amount of income available to the household during the applicable time period.

a) The applicable time period shall be the 30 days preceding the application for emergency assistance, except in those cases where the emergency was created by a negative account balance for a commodity or service (such as rent, mortgage or utility payments), and the negative account balance was created over a longer period of time. In such cases, the applicable time period shall be the consecutive length of time the account balance has been in the negative.

b) The administrator shall seek from the applicant all information pertinent to the applicant’s ability to provide for his or her basic necessities for the applicable time period, including evidence of all income and resources received over that period of time.

c) The administrator shall calculate all costs for the household’s basic necessities during the applicable time period, per month, in accordance with the maximum levels established by this ordinance for the specific basic necessity or the actual monthly cost, whichever is less, including all costs associated with averting the particular emergency situation for which the applicant is seeking assistance.

d) From the total household costs for basic necessities during the applicable time period, the administrator shall subtract the total income and lump sum payments available to the household for the applicable time period as well as the total general assistance actually received during the applicable time period.

e) The administrator may restrict the issuance of emergency assistance to the difference yielded by the computation in subsection (d), even when such a grant will not totally alleviate the emergency situation.
f) The administrator may waive this limitation on emergency assistance in life threatening situations or for initial applicants; that is, persons who have never before applied for general assistance.

g) Nothing in these criteria may be construed as prohibiting a municipality from electing to alleviate an emergency situation in the most cost-effective manner available, provided such a determination of eligibility for emergency assistance is in conformance with general assistance law.

Section 4.10—Residence

The administrator shall provide general assistance to all eligible persons applying for assistance who are residents of this municipality. A resident is a person who has no other residence and is physically present in this municipality and who intends to remain here and establish a household.

The municipality also recognizes its responsibility to provide assistance to eligible persons who apply here and who are not residents of this municipality or any other municipality. If a person who is not a resident of any municipality applies in this municipality first, the administrator will determine his or her eligibility and, if eligible, will grant assistance until he/she establishes a residence in another municipality (22 M.R.S.A. §4307).

Moving/Relocating. The municipality will not consider moving or transporting an applicant or recipient into another municipality unless the person requests assistance to relocate to another municipality. If the administrator determines the applicant is eligible and grants financial assistance to help with the requested relocation, this municipality will be responsible for providing assistance to the applicant for 30 days after he/she moves provided the recipient remains eligible.

Institutions. If a resident of this municipality enters an institution located in another municipality (such as a group home, shelter, rehabilitation center, nursing home, or
hospital) and requests assistance while at the institution, he/she will be the responsibility of this municipality for up to 6 months after he/she enters the institution if the conditions of 22 M.R.S.A. § 4307 and §4313 are met. The municipality thereafter retains responsibility for an applicant in an institution only if the applicant has maintained a home in this municipality to which he/she intends to return. The municipality also recognizes its responsibility for applicants residing in an institution in this municipality if such an applicant had no residence prior to entering the institution (22 M.R.S.A. § 4307(4)).

Temporary Housing. Hotels/motels and similar places of temporary lodging are considered institutions if the municipality grants financial assistance for, makes arrangements for, or advises or encourages an applicant to stay in temporary lodging.

Note: Municipalities which illegally deny housing assistance and, as a result of the denial, the applicant stays in temporary lodging are responsible for the applicant for up to 6 months and may be subject to other penalties (22 M.R.S.A. § 4307(4)).

Disputes. When the administrator believes that an applicant is a resident of another municipality but that municipality disputes its responsibility the administrator will notify the DHHS in Augusta (287-3654 or 1-800-442-6003). If the applicant applies in this municipality first, the administrator will determine his or her eligibility and, if eligible, will grant assistance until the DHHS has concluded which municipality is responsible for providing assistance. If another municipality was responsible, the DHHS will recover the amount due from the other municipality. (22 M.R.S.A. § § 4307(5), 4307(6)).
ARTICLE V

Eligibility Factors

A person will be eligible for general assistance if he/she is an “Eligible Person” as defined in section 2.2, is in need, and has complied with the eligibility requirements set forth below. For guidance in determining whether an applicant is an Eligible Person, contact the Department of Health & Human Services at (800) 442-6003 (TTY: 287-6948).

Section 5.1—Initial Application

Initial Application. For initial applicants, except as provided immediately below, need will be the sole condition of eligibility. The exception to this general rule, as provided by law, applies to all applicants, including initial applicants, who are disqualified for a defined period for quitting employment without just cause or for being discharged from employment for misconduct (22 M.R.S.A. § 1043 (23)) (see section 5.5 of this ordinance) and to fugitives from justice as defined in 15 M.R.S.A. § 201(4) (22 M.R.S.A. § 4301(3)). An initial applicant is a person who has never before applied for general assistance in any municipality in Maine (22 M.R.S.A. § 4308(1)).

“Need” means that the applicant's income (including prorated income, where applicable), property, credit, assets or other resources are less than the overall maximum level of assistance contained in section 6.8 of this ordinance or the applicant’s 30-day need, whichever is less, and he/she does not have adequate income or other resources available to provide basic necessities.

Subsequent Applicants. Persons who are not initial applicants are repeat applicants. Repeat applicants are people who have applied for general assistance at any time in the past. Repeat applicants are also people on whose behalf a general assistance application was made at any time in the past, provided that at such a time the applicant was not a dependent minor in the household. For repeat applicants to be
eligible for general assistance, they must be in need and meet all other eligibility requirements. The eligibility of repeat applicants may also be adversely affected to the extent they have not used their income and resources to secure basic necessities.

Section 5.2—Eligibility for Categorical Assistance

Receipt of categorical assistance will not disqualify a person from receiving general assistance if the applicant is otherwise eligible. Benefits received from other assistance programs will be considered as income when determining need, with the exception of Food Stamps, which will not be counted as income or resources or otherwise taken into consideration when determining need (7 U.S.C. § 2017 (b)).

In addition, any fuel assistance (HEAP/ECIP) received by an applicant will not be considered as income; that is, the administrator will always compute the heating needs of an applicant who has received HEAP or ECIP as if that applicant paid all costs associated with his or her fuel needs (42 U.S.C. §8624(f)). The calculation of general assistance for heating energy needs when an applicant has received HEAP or ECIP shall be accomplished in accordance with subsection (c) under “Types of Income” at section 6.7 of this ordinance. For several additional exceptions please refer to the definition of “Income” in this ordinance (see page 7, subsection 4).

Applicants or recipients must apply for other program benefits within 7 days after being advised in writing to do so by the general assistance administrator. Persons who, without just cause, make no good faith effort to obtain a potential resource will be disqualified from receiving assistance until they make a good faith effort to obtain the benefit (22 M.R.S.A. § 4317).

Section 5.3—Personal Property

a) Liquid Assets. No person owning assets easily convertible into cash, including but not limited to, bank deposits, stocks, bonds, certificates of deposit, retirement accounts, life insurance policies and other marketable security, will be eligible for
general assistance unless and until he or she uses these assets to meet his or her basic needs, and thereby exhausts them. At the discretion of the GA administrator, liquid assets do not mean a reasonable minimum balance necessary for obtaining free checking. Although one checking account per household may be allowed, any monies over the minimum required to obtain free checking are to be considered available liquid assets.

b) **Tangible Assets.** No person owning or possessing personal property, such as but not limited to: a motor vehicle (except as provided immediately below in subsection c), or a boat, trailer, recreation vehicle or other assets that are convertible into cash and are non-essential to the maintenance of the applicant’s household, will be eligible for general assistance. Exceptions may be made when a person is making an initial application or is an unforeseeable repeat applicant as defined in Section 2.2 or when reasonable efforts to convert assets to cash at fair market value are unsuccessful. Tools of a trade, livestock, farm equipment and other equipment used for the production of income are exempt from the above category and are not considered available assets.

c) **Automobile Ownership.** Ownership of one automobile per household will not make a person ineligible for assistance if such vehicle is essential for transportation to employment or for seeking employment, obtaining medical care, rehabilitation or training facilities, or for any other reason the GA administrator determines reasonable for the maintenance of the applicant’s household. Recipients of general assistance who own an automobile with a market value greater than $8000 may be required, with written, 7-day notice, to make a good faith effort to trade that automobile for an automobile with a market value of less than $8000. Any income received by the applicant by virtue of such a trade down must be used for his or her basic necessities. Failure to liquidate or trade down the excess value of any automobile asset can result in disqualification (22 M.R.S.A. § 4317).
The municipality will neither pay nor consider as necessary any car payment or vehicle maintenance cost including insurance for which the applicant is responsible. However, provided the vehicle value is $8000 or less and the applicant is utilizing the vehicle for any of the above mentioned “essential” reasons, the municipality in its discretion may choose to not consider reasonable car payments, reasonable car insurance and reasonable associated costs of maintenance as “misspent” income. General assistance for travel-related needs shall be computed in accordance with section 6.8(F)(7), (8) “Work Related/Travel Expenses.”

d) **Insurance.** Insurance that is available to an applicant on a non-contributory basis or that is required as a condition of employment will not be a factor in determining eligibility for general assistance. Life insurance with a cash surrender value may, at the discretion of the GA administrator, be considered as a tangible asset.

e) **Transfer of Property.** Applicants who transfer assets for less than fair market value to someone else solely for the purpose of establishing eligibility for general assistance will not be granted general assistance to replace the uncompensated value of the transferred asset. Assistance will be denied within a 120-day limit up to the uncompensated value of the asset which was transferred unless the transfer of asset is fraudulently misrepresented, in which case a 120-day disqualification will be issued. There will be a presumption that the applicant transferred his or her assets in order to be eligible for general assistance whenever property is sold for less than the fair market value or when the transfer occurred within 30 days prior to applying for general assistance unless the applicant can demonstrate the existence of a good faith transaction.

**Section 5.4—Ownership of Real Estate**

a) **Principal Residence.** For purposes of General Assistance solely, the applicant’s principal residence, including any adjoining land, is considered an exempt resource, even if temporarily unoccupied because of employment, job training,
education, illness or disaster, provided there is demonstrated an intent to return. If the applicant owns land in excess of the minimum lot size for the zone or district in which the home is located, then that land may be considered a potential resource if:

1. The applicant has received General Assistance for the last 120 consecutive days; and

2. The applicant has the legal right to sell the land (e.g., any mortgagee will release any mortgage, any co-owners agree to the sale, zoning or other land use laws do not render the sale illegal or impracticable); and

3. The applicant has the financial capability to put the land into a marketable condition (e.g., the applicant can pay for any necessary surveys); and

4. The land is not utilized for the maintenance and/or support of the household; and

5. A knowledgeable source (e.g., a realtor) indicates that the land in question can be sold at fair market value, for an amount which will aid the applicant’s financial rehabilitation; and

6. No other circumstances exist which cause any sale to be unduly burdensome or inequitable.

If the above conditions are met, then the administrator may condition the receipt of future assistance on the applicant’s good faith efforts to sell, or render saleable, land which could be used to provide necessary support for the applicant (e.g., the applicant owns 100 "excess" acres. Sale of 10 of the acres would provide for the necessary support and therefore not all the land need be sold at the present time.) Assistance shall not be denied during the time that the
applicant is making a good faith effort to sell or render saleable the land in
question.

Once the applicant ceases to receive assistance the obligations under this
section shall also cease.

b) **Other Property.** If the applicant or dependents own real property other than that
occupied as the principal residence, continued eligibility will depend on the
applicant making a reasonable effort to:

1. Dispose of the property at fair market value in order to convert the
   property into cash which can be applied toward meeting present need; or

2. Obtain a loan against such property which may be used to meet present
   need. Applicants who transfer their excess property to a third party in
   order to become eligible for general assistance will be ineligible.

If an applicant is granted assistance in the form of a mortgage payment or capital
improvement payment, the municipality may claim a lien against the
property. The lien shall not be enforceable until the time of sale of the property
or upon the death of the recipient *(see also section 6.8 of this ordinance)* (22
M.R.S.A. § 4320).

**Section 5.5—Work Requirement**

All general assistance recipients are required to register for work, look for work, work to
the extent of available employment, and otherwise fulfill the work requirements, unless
the applicant is exempt from such requirements as provided below.

**Employment; Rehabilitation.** All unemployed applicants and members of their
households who are 16 years of age or older and who are not attending a full-time
primary or secondary school intended to lead to a high school diploma will be required
to accept any suitable job offer and/or meet with job counselors, attend employment
workshops and rehabilitative services, except as provided below (see “Exemptions”). Applicants must demonstrate to the administrator that they are available for work and are actively seeking employment.

A “suitable job” means any job, which the applicant is mentally and physically able to perform. “Available for work” means that applicants must make themselves available for work during normal business hours prevailing in the area, and show that no circumstance exists which would prevent them from complying with the work requirement.

Verification. Unemployed applicants or applicants employed on a part-time basis will be required to provide verifiable documentation of their pursuit of employment at the time of each application. At a minimum, such documentation shall consist of a list of the employers contacted, the date and time of the application contact, and the name of the employer representative contacted. “Pursuit of employment” means actually submitting a written application or applying for a job in person when reasonable, or submitting a written application or letter of inquiry to employers.

For the duration of any repeat applicant’s period of unemployment or partial employment, the administrator will establish the number of employers per week to whom each non-exempt applicant shall be required to apply in order to fulfill his or her work search requirements. The number of weekly employer contacts required by the administrator shall be reasonably related to the number of potential employers in the region and the number of hours in the week the applicant has available for work search activities after considering all time the applicant must devote to existing employment obligations, workfare obligations, and required classroom or on-site participation in job training, educational, or rehabilitation programs. Fulfillment of these requirements will not be expected at the time of the initial application, but will be a condition of eligibility for subsequent assistance.
Ineligibility. After being granted assistance at the time of initial application, applicants will be considered ineligible for further assistance for 120 days if they, without just cause:

a) refuse to register for employment with the Maine Job Service;

b) refuse to search diligently for employment when the search is reasonable and appropriate; recipients who unreasonably seek work at the same places repeatedly will not be considered to be performing a diligent work search and will be disqualified;

c) refuse to accept a suitable job offer;

d) refuse to participate in an assigned training, education or rehabilitation program that would assist the applicant in securing employment;

e) fail to be available for work; or

f) refuse to participate or participate in a substandard manner in the municipal work program (see section 5.6).

Ineligibility Due to Job Quit or Discharge for Misconduct. No applicant, whether an initial or repeat applicant, who has quit his or her full-time or part-time job without just cause or who has been discharged from employment for misconduct (see Appendix I, 26 M.R.S.A. § 1043 (23) for the definition) will be eligible to receive general assistance of any kind for a 120-day period from the date of separation from employment (22 M.R.S.A. §§ 4301(8), 4316-A (1-A)).

Just Cause. Applicants will be ineligible for assistance for 120 days if they refuse to comply with the work requirements of this section without just cause. With respect to any work requirement, just cause will be considered to exist when there is reasonable and verifiable evidence that:
a) the applicant has a physical or mental illness or disability which prevents him/her from working;

b) the work assignment pays below minimum wages;

c) the applicant was subject to sexual harassment;

d) the applicant is physically or mentally unable to perform required job tasks, or to meet piece work standards;

e) the applicant has no means of transportation to or from work or a training or rehabilitation program;

f) the applicant is unable to arrange for necessary child care or care of ill or disabled family members; or

g) any reason found to be good cause by the Maine Department of Labor, or any other verifiable reason the administrator considers reasonable and appropriate will be accepted as just cause. (22 M.R.S.A. § 4316-A(5)).

**Applicant’s Burden of Establishing Just Cause.** If the administrator finds that the applicant has violated a work-related rule without just cause, it shall be the responsibility of the applicant to establish the presence of just cause (22 M.R.S.A. § 4316-A).

**Eligibility Regained.** Persons who are disqualified for 120 days because they violated a work requirement may regain their eligibility if and only when they become employed or otherwise satisfy the administrator that they are complying with the work requirement by fulfilling the work requirement or requirements they violated.

For the purpose of regaining eligibility by becoming employed, “employment” shall mean employment by an employer as defined in 26 M.R.S.A. § § 1043 et seq., or the performance of a service for an employer who withholds from the employee a social security tax pursuant to federal law.
The special provisions regarding the opportunity to regain eligibility after a disqualification for workfare violations are detailed in section 5.6 of this ordinance, under “Eligibility Regained”.

**Dependents.** Failure of an otherwise eligible person to comply with the work requirements shall not affect the eligibility of any member of the person’s household who is not capable of working, including:

- a) a dependent minor child;
- b) an elderly, ill, or disabled person; and
- c) a person whose presence is required in order to provide care for any child under 6 years of age or for any ill or disabled member of the household (22 M.R.S.A. § 4309(3)).

In the event one (or more) member(s) of a household is disqualified and assistance is requested for those remaining members of the household who are dependents, the eligibility of those dependents will be calculated by dividing the maximum level of assistance available to the entire household by the total number of household members.

**Exemptions.** The above work requirements do not apply to any person who is elderly, physically or mentally ill or disabled. Any person whose presence is required to care for any pre-school age child or for any ill or disabled member of the household is also exempt from these requirements.

The requirements of this section will not be imposed so as to interfere with an applicant’s existing employment, ability to pursue a bona fide job offer, ability to attend an interview for possible employment, classroom participation in a primary or secondary educational program intended to lead to a high school diploma, classroom or on site participation in a training program which is either approved by the Department of Labor or determined by the Department of Labor to be expected to assist the applicant in
securing employment, or classroom participation in a degree-granting program operated under the control of the Department of Labor.

**Section 5.6—Municipal Work Program**

Each applicant and any member of the household who is capable of working may be required to perform work for the municipality, including work for a non-profit organization, as a condition of receiving assistance (22 M.R.S.A. § 4316-A(2)).

As part of the municipal work program, the municipality can require recipients to participate in training, education, or rehabilitative programs that will assist the recipient in securing employment. The work requirement provisions found in section 5.5 regarding just cause, dependents, and exemptions also apply to the municipal workfare program.

**Consent.** Persons assigned to the work program are required to sign a form stating that they understand the requirements of general assistance and the work program. Prior to signing the form, the administrator will read it to the applicants or the applicants will read it themselves. The form will also state the number of hours the applicants must work and the hourly rate by means of which the duration of the work assignment is calculated. In addition, the consent form shall describe the consequences of failing to adequately perform part or all of the workfare or workfare-first assignment.

**Subtracting Value of Workfare Performed from Client’s GA Debt.** Pursuant to 22 MRSA § 4318 individuals owing the municipality funds for general assistance provided to them are obligated to repay the municipality when and if they become able *(see Article VIII).* However, persons performing workfare shall have the value of the workfare performed deducted from any and all GA debt including GA liens (e.g., Workers’ Compensation Settlement, SSI Retroactive Payment, Capital Improvement, Home Mortgage) that might exist against their settlements, payments or other such property.
Limitations. The work requirement is subject to the following limitations (22 M.R.S.A. § 4316-A(3)).

1) No person shall, as a condition of eligibility, be required to do any amount of work that exceeds the value of the net general assistance that the person receives under municipal general assistance standards. Any person performing work under this subsection shall be provided with net general assistance, the value of which is calculated at a rate of at least the prevailing minimum wage under state or federal law at the time the workfare was performed.

2) No workfare participant shall be required to work for a nonprofit organization if that work would violate the participant’s basic religious beliefs.

3) In no case shall eligible persons performing work under this subsection replace regular municipal employees.

4) In no case will work performed under this subsection interfere with an eligible person’s:
   a) existing employment;
   b) ability to follow up on a bona fide job offer;
   c) attendance at an interview for possible employment;
   d) classroom participation in a primary or secondary educational program intended to lead to a high school diploma; or
   e) classroom or on site participation in a training program which is approved by the Department of Labor or determined by the Department of Labor to be reasonably expected to assist the person in securing employment, or classroom participation in a degree-granting program administered by the DHHS or the Department of Labor.

5) In no case may an eligible person be required to work more than 40 hours per week. An eligible person who has full or part-time employment shall be exempt from the work requirement to the extent that the work requirement in combination with his or her regular employment would result in the person working more than 40 hours per week.
6) In no case will an eligible person be required to perform work beyond his or her capabilities. However, when an illness or disability is claimed, an eligible person may be required as a condition of receiving assistance to present a doctor’s statement detailing the extent of the disability or illness (22 M.R.S.A. § 4309).

If the administrator requires a doctor’s statement to verify an applicant’s illness or disability and the applicant is not currently under the care of a provider, the municipality may pay for the doctor’s evaluation if the applicant has no means to pay for the exam. However in such a case the administrator will choose the doctor. If there is a no-cost or low-cost health care option, the municipality may elect to refer the client to such a resource. The administrator will not require verification of medical conditions which are apparent or which are of such short duration that a reasonable person would not ordinarily seek medical attention (22 M.R.S.A. § 4316(5)).

7) In no case may an eligible person with an immediate need (i.e., a person in an emergency situation who has not been disqualified from receiving assistance for committing a program violation) be required to perform work under this subsection prior to receiving general assistance. The administrator shall meet immediate needs upon receiving written assurance from the eligible person that he/she is willing to work to maintain eligibility for general assistance. When the recipient has no immediate need, workfare participation may be required prior to receiving general assistance in accordance with the following “workfare first” policy.

“Workfare First” Policy. Under the authority of 22 M.R.S.A. § 4316-A(2)(D), the administrator may, in accordance with the following guidelines, require a recipient of general assistance to perform a workfare assignment prior to the actual issuance of the general assistance benefit conditionally granted.
1) In no circumstance will emergency general assistance for which an applicant is eligible be withheld pending the satisfactory performance of workfare.

2) All workfare participants under this policy will be provided a written decision, as otherwise required by law, within 24 hours of submitting an application for general assistance and prior to performing any workfare for the municipality associated with that request for assistance. That written decision must include:

   a) a specific description of the amount of general assistance being conditionally granted to the household, and for which basic needs;

   b) the period of eligibility for which the general assistance grant is being issued (in days or weeks, but not to exceed 30 days);

   c) the rate, at a dollar-per-hour basis (but not less than the prevailing minimum wage), upon which the duration of the workfare assignment is calculated;

   d) the actual duration of the workfare assignment that must be performed, in hours, before the general assistance grant will be actually issued;

   e) the specifics of the workfare assignment(s), including the general nature of the type of work being assigned, location(s) of work-site, date(s) and time(s) of assigned workfare, workfare supervisors’ names and contact telephone numbers; and

   f) any other pertinent information related to the workfare assignment(s) the recipient will be expected to perform.

3) As previously provided in this section, all workfare participants under this policy must sign a consent form that informs the participant of his or her workfare-related rights and responsibilities, including the consequences of failing to perform all or part of the workfare assigned without just cause.
4) If a portion of the workfare-first assignment is satisfactorily performed but there has been a failure to perform the remainder of the assignment, without just cause, the administrator shall issue a grant of general assistance in the amount of the number of workfare hours satisfactorily performed times the hourly rate used to calculate the duration of the workfare assignment. In addition to any disqualification penalty that may apply, the remaining value of the conditionally issued general assistance grant shall be terminated, and notice of the partial termination, and the reasons therefore, will be issued to the workfare participant in accordance with section 6.10 of this ordinance.

5) Any amount of the workfare assignment that is not performed because the workfare participant was temporarily unable to perform the assignment for just cause reasons shall be reassigned or excused at the discretion of the GA administrator.

**Work-Related Expenses.** A participant’s expenses related to work performed under this section will be added to the amount of net general assistance to be provided to the person (22 M.R.S.A. § 4316-A(2)(E)). The municipality will provide any special clothes or equipment the recipient needs to perform his or her work assignment.

**Disqualification.** Any person who either willfully fails to perform or willfully performs below average standards the work assigned by the municipality, will be ineligible for assistance for 120 days (22 M.R.S.A. § 4316-A(1)). As soon as the administrator knows that a recipient failed to fulfill the work assignment, the administrator will notify the recipient in writing that he/she is disqualified for 120 days starting from the last date of authorized assistance unless the recipient can show just cause. The burden of demonstrating a just cause failure to perform a workfare assignment falls on the workfare participant.
Eligibility Regained. Recipients who are disqualified from receiving assistance because they have violated the requirements of the municipal work program may regain their eligibility under the following conditions.

Recipients who fail to complete the first municipal work assignment they have been given will be disqualified from receiving assistance during the next 120 days, although dependents in the household may be eligible (see section 5.5, “Dependents”).

If during the 120-day disqualification period the recipient requests an opportunity to perform the work assignment which he or she, without just cause failed to perform, the disqualified recipient will be given one opportunity to regain eligibility. The administrator will give the recipient a work assignment as soon as possible.

If under such a set of circumstances the recipient has an emergency need and the administrator is unable to schedule a work assignment in time to alleviate the emergency, the administrator will provide sufficient assistance to the recipient to avert the emergency. However, the provision of such emergency assistance will not bar the administrator from subsequently enforcing the previously issued 120-day disqualification if the recipient fails to regain eligibility by satisfactorily performing the work assignment. The amount of emergency assistance granted will be considered in the computation of the total number of hours the recipient must work.

Recipients who have asked for the opportunity to regain their eligibility during a 120 day disqualification period and who agreed to fulfill the assignment which they previously failed to perform and who, without just cause, fail to fulfill their municipal work assignment will be considered to have acted in bad faith. In such a circumstance, the administrator will enforce the 120-day disqualification for the term of its initial duration.

If a workfare participant regains eligibility under this section but is subsequently disqualified within the initial 120-day period of ineligibility for failing to comply with the
municipal work program, that participant will be ineligible for a new 120-day period beginning with the new disqualification date, but will be provided no opportunity to requalify.

Any recipient who intentionally causes damage to property, harasses or harms other employees or who otherwise conducts themselves in a disruptive manner and is discharged by the work supervisor will not be entitled to regain eligibility by returning to the work program. Eligibility may be regained by otherwise becoming employed and meeting the definition of need.

**Reports.** The administrator will itemize the assistance that has been provided to persons who work for the municipality in reports to the DHHS (22 M.R.S.A. § 4316-A(2)).

**Section 5.7—Use of Resources**

Each applicant has the responsibility to make a good faith effort to utilize every available or potential resource that may reduce his or her need for general assistance (*see section 2.2 for definition of “Resources”*). People who refuse or fail to make a good faith effort to secure a potential resource after receiving written notice to do so are disqualified from receiving assistance until they make an effort to secure the resource. Applicants are required to prove that they have made a good faith effort to secure the resource (22 M.R.S.A. § 4317).

**Minors.** A minor under the age of 18 who has never married and is applying independently for general assistance and who is pregnant or has a dependent child or children will be eligible to receive general assistance only if the minor is residing in the home of his or her parent, legal guardian or other adult relative, in which case the entire household will be evaluated for eligibility. Exceptions to this limitation on eligibility will be made when:

1) the minor is residing in a foster home, maternity home, or other adult-supervised supportive living arrangement; or
2) the minor has no living parent or the whereabouts of the both parents are unknown; or

3) no parent will permit the minor to live in the parent’s home; or

4) the minor has lived apart from both parents for at least one year before the birth of any dependent child; or

5) the DHHS determines that the physical or emotional health or safety of the minor or the minor’s dependent child or children would be jeopardized if the minor and his or her child or children lived with a parent; or

6) the DHHS determines, in accordance with its regulation, that there is good cause to waive this limitation on eligibility (22 M.R.S.A. § 4309(4)).

Any person under the age of 25 who is applying independently from his or her parents for general assistance will be informed that until he or she reaches the age of 25, the applicant’s parents are still legally liable for his or her support and the municipality has the right to seek recovery from the parents of the cost of all assistance granted to such a recipient to the extent his or her parents are financially capable of repaying the municipality (22 M.R.S.A. § 4319).

With regard to such application, the municipality may seek verification of the applicant’s need for general assistance by contacting his or her parents. If the applicant’s parents declare a willingness to provide the applicant with his or her basic needs directly, and there is no convincing evidence that the applicant would be jeopardized by relying on his or her parents for basic needs, the administrator may find the applicant not to be in need of general assistance for the reason that his or her needs can be provided by a legally liable relative.

**Mental or Physical Disability.** Any applicant who has a mental or physical disability must make a good faith effort to utilize any medical or rehabilitative services which have been recommended by a physician, psychologist or other professional retraining or
rehabilitation specialist when the services are available to the applicant and would not constitute a financial burden or create a physical risk to the individual.

**Written Notice; Disqualification.** The administrator will give each applicant written notice whenever the applicant is required to utilize any specific potential resource(s). Any applicant who refuses to utilize potential resources, without just cause, after receiving written 7-day notice will be ineligible for further assistance until he/she has made a good faith effort to utilize or obtain the resources. General assistance will not be withheld from the applicant pending receipt of a resource if the applicant has made, or is in the process of making, a good faith effort to obtain the resource.

**Forfeiture of Benefits.** Any applicant who forfeits receipt of or causes a reduction in benefits from another public assistance program due to fraud, misrepresentation, a knowing or intentional violation of program rules or a refusal to comply with that program’s rules without just cause will be ineligible to receive general assistance to replace the forfeited benefits. To the extent the forfeited benefits can be considered income under general assistance law, the worth of the forfeited benefits will be considered income that is available to the applicant for the duration of the forfeiture.

To the extent the forfeited benefits were provided not in the form of income but, rather, in the form of a specific, regularly issued resource of a calculable value, that resource, up to its forfeited value, need not be replaced with general assistance for a period of 120 days from the date of the forfeiture—unless the municipality is prohibited by federal or state law from considering the forfeited resource as available with respect to local public assistance programs (22 M.R.S.A. § 4317).

**Section 5.8—Period of Ineligibility**

No one will have his or her assistance terminated, reduced, or suspended prior to being given written notice and an opportunity for a fair hearing (22 M.R.S.A. § 4321-4322). Each person will be notified in writing of the reasons for his or her ineligibility,
and any person disqualified for not complying with the ordinance will be informed in writing of the period of ineligibility.

**Work Requirement.** Applicants/recipient who do not comply with a work requirement are disqualified from receiving assistance for a period of 120 days (unless they regain their eligibility) *(see sections 5.5, 5.6).* If an applicant/recipient is provided assistance and does not comply with the work requirement, the applicant/recipient shall be disqualified for 120 days following the end of the period covered by the grant of assistance. The administrator shall give recipients written notice that they are disqualified as soon as the administrator has sufficient knowledge and information to render a decision of ineligibility.

**Fraud.** People who commit fraud are disqualified from receiving assistance for a period of 120 days *(see section 6.4, “Fraud”).* The administrator shall give recipients written notice that they are ineligible as soon as the administrator has sufficient knowledge and information to render a decision. If the disqualification for fraud is issued before the expiration of a grant of assistance, the period of ineligibility shall commence on the day following the end of the period covered by the grant of assistance. If fraud is discovered after the period covered by the grant of assistance has expired, the period of ineligibility will commence on the day of the written notice of ineligibility.

**Section 5.9 – Unemployment Fraud**

An applicant who is found ineligible for unemployment compensation benefits because of a finding of fraud by the Department of Labor pursuant to 26 M.R.S.A. § 1051(1) is ineligible to receive general assistance to replace the forfeited unemployment compensation benefits for the duration of the forfeiture established by the Department of Labor. 22 M.R.S.A. § 4317.
ARTICLE VI

Determination of Eligibility

Section 6.1—Recognition of Dignity and Rights

Any determination or investigation into an applicant’s eligibility will be conducted in a manner that will not violate the applicant’s privacy or personal dignity or violate his or her individual rights.

Section 6.2—Determination; Redetermination

The administrator will make an individual, factual determination of eligibility each time a person applies or reapplys for general assistance. The administrator will make a redetermination of eligibility at least monthly but may do so as often as necessary to administer the program efficiently and meet the needs of the applicants. Upon any application, the administrator will determine the applicant’s eligibility on the basis of a 30-day prospective analysis, but may elect to disburse that applicant’s assistance periodically, e.g., weekly, throughout a 30-day period of eligibility pursuant to that initial eligibility determination.

The administrator may redetermine a person’s eligibility at any time during the period he or she is receiving assistance if the administrator is notified of any change in the recipient’s circumstances that may alter the amount of assistance the recipient may receive. Once a recipient has been granted assistance, the administrator may not reduce or rescind the grant without giving prior written notice to the recipient explaining the reasons for the decision and offering the recipient an opportunity to appeal the decision to the fair hearing authority (22 M.R.S.A. § 4309).
Section 6.3—Verification

Eligibility of applicant; duration of eligibility. The overseer shall determine eligibility each time a person applies or re-applies for general assistance. The period of eligibility will not exceed one month. At the expiration of this period applicants/recipients may re-apply for assistance and the person’s eligibility will be redetermined.

Applicant’s responsibilities. Applicants and recipients for general assistance are responsible for providing to the overseer all information necessary to determine eligibility. If further information or documentation is necessary to demonstrate eligibility, the applicant must have the first opportunity to provide the specific information or documentation required by the overseer. When information required by the overseer is unavailable, the overseer must accept alternative available information, which is subject to verification.

Each applicant and recipient has the responsibility at the time of application and continuing thereafter to provide complete, accurate and current information and documentation concerning his/her:

- Need
- Income
- Employment
- Use of income
- Expenses
- Assets & liabilities
- Use of available resources
- Household composition

Initial Applicants. Persons who have not applied for assistance in this or any other municipality are considered initial applicants and must have their eligibility determined solely on the basis of need. Initial applicants are not subject to eligibility conditions placed on repeat applicants (see below). However, such applicants are still responsible for providing the GA administrator with reasonably obtainable documentation adequate
to verify that there is a need for assistance. In addition, initial applicants must also comply with both lump sum and relevant work rules (i.e. job quit).

**Repeat Applicants.** All applicants for general assistance that are not initial applicants are repeat applicants. The eligibility of repeat applicants must be determined on the basis of need and all other conditions of eligibility established by law and this municipal ordinance.

The administrator will require documentation of a repeat applicant's income, use of income, assets and resources plus actual bills and receipts for rent, utilities, fuel, telephone, medical services and other basic necessities. In addition, repeat applicants instructed to seek employment shall verify their work search results, e.g., provide a list of the employers contacted, the date and time of the application contact, and the name of the employer representative contacted, as required by the GA administrator.

Repeat applicants are also responsible for providing any changes of information reported on previous applications including changes in his/her household or income that may affect his/her eligibility.

**Unforeseen Repeat Applicants.** Unforeseen repeat applicants are applicants who have not applied for assistance within the last twelve months and who have been regularly employed or receiving support from a public benefit or private source who have unexpectedly become unemployed through no fault of their own or whose income and/or benefits (e.g., through an available resource) have ceased through no fault of their own. Such unforeseen repeat applicants may be considered initial applicants for purposes of verification requirements and misspent income if the administrator finds that imposing the general verification requirements and misspent income rules imposed on repeat applicants would be unreasonable or inappropriate.

**Overseer's responsibilities.** In order to determine an applicant's eligibility for general assistance, the overseer first must seek information and documentation from the applicant. Once the applicant has presented the necessary information, the overseer is
responsible for determining eligibility. The overseer will seek verification necessary to determine eligibility. In order to determine eligibility, the overseer may contact sources other than the applicant for verification only with the specific knowledge and consent of the applicant, except that the overseer may examine public records without the applicant's knowledge and consent.

Appropriate sources, which the overseers may contact, include, but are not limited to:

- DHHS and any other department/agency of the state or non-profit organizations
- financial institutions
- creditors
- utility companies
- employers
- landlords
- physicians
- persons with whom the applicant/recipient is a cohabitant
- legally and non-legally liable relatives

Assistance will be denied or terminated if the applicant is unwilling to supply the overseer with necessary information, documentation, or permission to make collateral contacts, or if the overseer cannot determine that eligibility exists based on information supplied by the applicant or others.

**Redetermination of eligibility.** The overseer may redetermine a person's eligibility at any time during the period that person is receiving assistance if the overseer is informed of any change in the recipient's circumstances that may affect the amount of assistance to which the recipient is entitled or that may make the recipient ineligible, provided that once a determination of eligibility has been made for a specific time period, a reduction in assistance for that time period may not be made without prior written notice to the recipient with the reasons for the action and an opportunity for the recipient to receive a fair hearing upon the proposed change.
Penalty for Refusing to Release Information. Any person governed by 22 M.R.S.A. § 4314 who refuses to provide necessary information to the administrator after it has been requested must state in writing the reasons for the refusal within 3 days of receiving the request. Any such person who refuses to provide the information, without just cause, commits a civil violation and may be subject to a fine of not less than $25 nor more than $100 which may be adjudged in any court of competent jurisdiction. Any person who willfully renders false information to the administrator is guilty of a Class E crime (22 M.R.S.A. §§ 4314(5), 4314(6), 4315).

Section 6.4—Fraud

It is unlawful for a person to make knowingly and willfully a false representation of a material fact to the administrator in order to receive general assistance or cause someone else to receive general assistance (22 M.R.S.A. § 4315). False representation shall consist of any individual knowingly and willfully:

a) making a false statement to the general assistance administrator, either orally or in writing, in order to obtain assistance to which the applicant or the applicant’s household is not entitled;

b) concealing information from the general assistance administrator in order to obtain assistance to which the applicant or applicant’s household is not entitled; or

c) using general assistance benefits for a purpose other than that for which they were intended.

No person may be denied assistance solely for making a false representation prior to being given an opportunity for a fair hearing.

Period of Ineligibility. When the general assistance administrator finds that a person has knowingly and willfully misrepresented material facts for the purpose of making
himself or herself eligible for general assistance, the administrator shall notify that applicant in writing that he or she has been disqualified from receiving assistance for 120 days. For the purpose of this section, a material misrepresentation is a false statement about eligibility factor in the absence of which some or all of the assistance would not be or would not have been granted.

The notification of ineligibility issued by the administrator shall inform the applicant of his or her right to appeal the administrator's decision to the fair hearing authority (FHA) within 5 working days of receipt. The period of ineligibility shall commence on the day following the end of the period covered by the grant of assistance fraudulently received or upon the date of notification of ineligibility, whichever is later.

**Right to a Fair Hearing.** Any applicant who is denied assistance for making a false representation will be afforded the opportunity to appeal the decision to the fair hearing authority (FHA) in accordance with Article VII of this ordinance. No recipient shall have his or her assistance reduced or revoked during the period of eligibility before being notified and given the opportunity to appeal the decision. Any person who is dissatisfied with the decision of the FHA may appeal that decision to the Superior Court pursuant to Rule 80-B of the Maine Rules of Civil Procedure (22 M.R.S.A. § 4309(3)).

**Reimbursement.** If a recipient does not appeal the decision or if the fair hearing authority determines that a recipient did make a false representation, the recipient will be required to reimburse the municipality for any assistance received to which he/she was not entitled.

**Dependents.** In no event will the ineligibility of a person under this section serve to disqualify any eligible dependent in that household (22 M.R.S.A. § 4309(3)). In the event one or more members of a household are disqualified and assistance is requested for the remaining dependents, the eligibility of those dependents will be
calculated by dividing the maximum level of assistance available to the entire household by the total number of household members.

Section 6.5—Period of Eligibility

The administrator will grant assistance to all eligible persons for a period that is sufficient to meet their need but in no event may a grant of assistance cover a period in excess of one month (22 M.R.S.A. § 4309). Upon receiving a completed and signed application the administrator will determine the applicant’s eligibility on the basis of a 30-day prospective analysis.

When an applicant submits an incomplete or unsigned application, due to the 24-hour decision requirement placed on the GA administrator, the GA administrator shall render a notice of “ineligibility” and advise the applicant that he or she has a right to reapply as soon as he or she has the necessary information and/or as soon as is practicable for the applicant.

Although eligibility is determined on a 30-day basis, for reasons of administrative efficiency the administrator may elect to disburse an applicant’s assistance for shorter periods of time, such as weekly, throughout the 30-day period of eligibility. When the administrator elects to disburse general assistance for a period of time less than 30 days, subsequent grants of assistance during that 30-day period may be issued pursuant to the initial determination of need unless the applicant’s financial situation changes substantially enough to warrant a redetermination of eligibility.

Section 6.6—Determination of Need

The period of time used to calculate need will be the next 30-day period from the date of application (22 M.R.S.A. § 4301(7)). The administrator will calculate applicants’ expenses according to the actual expense of the basic necessity or the maximum levels for the specific necessities allowed in section 6.8, whichever is less. The sum of these
expenses, as calculated for a prospective 30-day period, is the applicant’s 30-day need. Applicants will not be considered eligible if their income and other resources exceed this calculation except in an emergency (22 M.R.S.A. § 4308(2)) (see section 4.9 of this ordinance).

Applicants will also not be considered in need of general assistance if their income, property, credit, assets or other resources available to provide basic necessities for their household are greater than the applicable overall maximum level of assistance set forth in the beginning of section 6.8 (22 M.R.S.A. §§ 4301(10), 4305(3-B)). The difference between the applicant’s income and the overall maximum levels of assistance established by this ordinance is the applicant’s deficit.

Once an applicant’s deficit has been determined, the specific maximum levels of assistance for each basic necessity (see Appendixes A-H of this ordinance) shall be used by the administrator to guide the distribution of assistance for which the applicant is eligible. The specific maximum levels of assistance for each basic necessity are intended to be reasonable and sufficient to help recipients maintain a standard of health and decency (22 M.R.S.A. § 4305(3-A)).

Income for Basic Necessities. Applicants are required to use their income for basic necessities. Except for initial applicants, no applicant is eligible to receive assistance to replace income that was spent within the 30-day period prior to an application for assistance on goods and services that are not basic necessities. All income spent on goods and services that are not basic necessities will be considered available to the applicant and combined with the applicant’s prospective 30-day income for the purposes of computing eligibility (22 M.R.S.A. § 4315-A). Applicants who have sufficient income to provide their basic necessities but who use that income to purchase goods or services which are not basic necessities will not be considered eligible for assistance. Persons who exhaust their income on basic necessities and who still need
assistance with other basic necessities will be eligible, provided that their income does not exceed the overall maximum level of assistance.

**Use-of-Income Requirements.** The administrator may require that anyone applying for general assistance provide documentation of his or her use of income. This documentation can take the form of cancelled checks and/or receipts which demonstrate that the applicant has exhausted all household income received over the last 30-day period. Except as is deemed appropriate by the GA administrator for “unforeseen” repeat applicants *(See Section 6.3 of this ordinance)*, repeat applicants may be required to verify that expenditure of income was for basic necessities. Income expended that cannot be verified will generally be considered available and in such case will be added to the 30-day prospective income.

Allowable expenditures include reasonable shelter costs (rent/mortgage); the cost of heating fuel, electricity, and food up to the ordinance maximums; telephone costs at the base rate if the household needs a telephone for medical reasons, the cost of non-elective medical services as recommended by a physician which are not otherwise covered by medical entitlement, Hospital Free Care or insurance; the reasonable cost of essential clothing and non-prescription drugs, and the costs of any other commodity or service determined essential by the administrator.

Items not considered to be basic necessities and thus will not be allowed in the budget computation include:

- Internet services
- Cable or satellite television
- Cellular phones
- Cigarettes/alcohol
- Gifts purchased
- Pet care costs
- Costs of trips or vacations
- Paid court fines
- Repayments of unsecured loans
- Legal fees
- Late fees
- Credit card debt.
The municipality reserves the right to apply specific use-of-income requirements to any applicant, other than an initial applicant, who fails to use his or her income for basic necessities or fails to reasonably document his or her use of income (22 M.R.S.A. § 4315-A). Those additional requirements will be applied in the following manner:

1) The administrator may require the applicant to use some or all of his or her income, at the time it becomes available, toward specific basic necessities. The administrator may prioritize such required expenditures so that most or all of the applicant’s income is applied to housing (i.e., rent/mortgage), energy (i.e., heating fuel, electricity), or other specified basic necessities;

2) The administrator will notify applicants in writing of the specific use-of-income requirements placed on them;

3) If upon subsequent application it cannot be determined how the applicant’s income was spent, or it is determined that some or all of the applicant’s income was not spent as directed and was also not spent on basic necessities, the applicant will not be eligible to receive either regular or emergency general assistance to replace that income; and

4) If the applicant does not spend his or her income as directed, but can show with verifiable documentation that all income was spent on basic necessities up to allowed amounts, the applicant will remain eligible to the extent of the applicant’s eligibility and need.

**Calculation of Income and Expenses.** When determining eligibility, the administrator will subtract the applicant’s net income from the overall maximum level of assistance found at the beginning of section 6.8. If income is greater than the overall maximum level of assistance, the applicant will not be eligible except in an emergency (see section 4.9). If income is less than the overall maximum level of assistance, the applicant has a deficit.
The municipality will provide assistance in an amount up to the deficit to the extent the applicant also has an unmet need and is in need of basic necessities. The municipality will not grant assistance in excess of the maximum amounts allowed in section 6.8 of this ordinance for specific basic necessities except in an emergency or when the administrator elects to consolidate the applicant’s deficit, as provided immediately below.

**Consolidation of Deficit.** As a general rule and to the extent of their deficit, applicants will be eligible for assistance for any basic necessity up to, but not exceeding, the maximum amount allowed for that necessity in this ordinance or the actual 30-day cost of the necessity, whichever is less. Under certain circumstances, however, and in accordance with the following conditions, the administrator may consolidate the applicant’s deficit and apply it toward a basic necessity in an amount greater than the ordinance maximum for that necessity.

1) The practice of consolidating the deficit and applying it toward a basic necessity in amounts greater than the ordinance maximum shall be the exception rather than the rule;

2) The total general assistance grant cannot exceed the total deficit unless the applicant is in an emergency situation; and

3) The need for the application of the recipient’s consolidated deficit toward a basic necessity was not created by the recipient misspending his or her income or resources in violation of the use-of-income requirements of this ordinance.

**Section 6.7—Income**

**Income Standards.** Applicants whose income exceeds the overall maximum level of assistance provided in section 6.8 shall not be eligible for general assistance except in an emergency. The administrator will conduct an individual factual inquiry into the applicant’s income and expenses each time an applicant applies.
Calculation of Income. To determine whether applicants are in need, the administrator will calculate the income they will receive during the next 30-day period commencing on the date of application, and identify any assets or resources that would alleviate their need. For all applicants other than initial applicants, the administrator will also consider as available income any income that was not spent during the previous 30-day period on basic necessities, as well as any income that was spent on basic necessities in unreasonable excess of the ordinance maximums for specific basic necessities. If a household’s income exceeds the amount of the household’s need for basic necessities, up to the maximum levels contained in section 6.8, applicants will not be considered in need.

Exceptions will be made in emergency situations, which may necessitate that the maximum levels be exceeded (22 M.R.S.A. § 4308) (see section 4.9 of this ordinance). To calculate weekly income and expenses, the administrator will use actual income received or actual anticipated income.

Types of Income. Income that will be considered in determining an applicant’s need includes:

a) Earned income. Income in cash or in kind earned by the applicant through wages, salary, commissions, or profit, whether self-employed or as an employee, is considered earned income. If a person is self-employed, total income will be computed by subtracting reasonable and actual business expenses from gross income. When income consists of wages, the amount computed will be the income available after taxes, social security and other payroll deductions required by state, federal, and local law. Rental income and profit from produce that is sold is considered earned income. Income that is held in trust and unavailable to the applicant or the applicant’s dependents will not be considered as earned income.
Note: Actual work-related expenses such as union dues, transportation to and from work, special equipment or work clothes, and child care costs will be deducted from an applicant’s income (22 M.R.S.A. § 4301(7)).

b) **Income from Other Assistance or Social Services Programs.** State/federal categorical assistance benefits, SSI payments, Social Security payments, VA benefits, unemployment insurance benefits, and payments from other government sources will be considered as income, unless expressly prohibited by federal law or regulation. Federal law prohibits Food Stamps and fuel assistance payments made by the Home Energy Assistance Program (HEAP and EPIC) from being considered income. The value of the food stamps or fuel assistance will not be used to reduce the amount of general assistance the applicant is eligible to receive. Although applicants may have only a limited or reduced need for general assistance for heating fuel or electricity if a recently received HEAP/ECIP benefit has sufficiently credited their account or otherwise prevented the fuel-related costs for the prospective 30-day period.

The administrator’s obligation is to always compute the heating needs of an applicant who has received HEAP or ECIP as if that applicant paid for his or her total fuel costs. Accordingly, in such cases, the administrator will budget for the household’s heating energy needs according to actual usage, up to the ordinance maximums, but the administrator may, with written notice to the applicant, hold in reserve the heating energy portion of the applicant’s deficit until such a time during the period of eligibility that the applicant has a demonstrable need for the disbursement of heating energy assistance; that is, the applicant’s fuel tank can accept a minimum fuel delivery or the applicant no longer has a positive credit balance with his or her utility company. The municipality is not obligated to divert any recipient’s heating energy allowance toward non-heating purposes solely on the basis of the recipient’s receipt of HEAP/ECIP.
Other programs whose income cannot be counted for purposes of GA eligibility include:

- Family Development Accounts (22 M.R.S. § 3762)
- Americorp VISTA program benefits (42 USCS § 5044 (f))
- Property tax rebates issued under the Maine Property Tax Fairness Credit program, only so long as the money is spent on basic necessities. (22 M.R.S.A. § 4301(7))

c) Court-Ordered Support Payments. Alimony and child support payments will be considered income only if actually received by the applicant. The general assistance administrator will refer cases where support payments are not actually received to the State Department of Health and Human Services’ Child Support Enforcement Unit. In order to be eligible for future GA, applicants being referred to DHHS for such enforcement services shall be required to follow-through with such services. Because child support payments are considered a resource, applicants must make a good faith effort to secure such payments.

d) Income from Other Sources. Payments from pensions and trust funds will be considered income. Payments from boarders or lodgers will be considered income as will cash or in-kind contributions provided to the household from any other source, including relatives (22 M.R.S.A. § 4301(7)).

e) Earnings of a Son or Daughter. Earned income received by sons and daughters below the age of 18 who are full-time students and who are not working full-time will not be considered income. The unearned income of a minor in the household will be considered available to the household.

f) Income from Household Members. Income from household members will be considered available to the applicant, whether or not the household member is legally obligated for the support of the applicant, if the household members pool
or share their income and expenses as a family or intermingle their funds so as to provide support to one another.

g) **The Pooling or Non-Pooling of Income.** When two or more individuals share the same dwelling unit but not all members of the household are applying for general assistance, the administrator shall make a finding under a rebuttable presumption that the entire household is pooling income (22 M.R.S.A. § 4301(12-A)).

One or more applicants for assistance can successfully rebut the presumption that all household income is being pooled by providing the administrator with verifiable documentation affirmatively demonstrating a pattern of non-pooling for the duration of the shared living arrangement. Such documentation would include evidence of the entire household expenses as well as bank statements, cancelled checks, receipts, landlord statements or other vendor accounts clearly supporting a claim that the applicant has been and is presently solely and entirely responsible for his or her pro-rata share of household costs.

If the applicant is unable to successfully rebut the municipality’s presumption that all household income is being pooled, eligibility of the entire household will be determined based on total household income. If the applicant successfully rebuts the municipality’s presumption that all household income is being pooled, the applicant’s eligibility will be determined on the basis of his or her income and his or her pro-rata share of actual household expenses.

h) **Lump Sum Income.** A lump sum payment received by any GA applicant or recipient prior or subsequent to the date of application for general assistance will be considered as income available to the household. However, verified required payments (i.e., any third party payment which is required as a condition of receiving the lump sum payment, or any payments of bills earmarked for the
purpose for which the lump sum payment was made) and any amount of the
lump sum payment which the applicant can document was spent on basic
necessities, as described below, will not be considered available income.

Where a household receives a lump sum payment at any time prior or
subsequent to the date of application for general assistance, the administrator
will assess the need for prorating an applicant’s eligibility for general assistance
according to the following criteria (22 M.R.S.A. § 4301(7), (8-A)):

1) identify the date the lump sum payment was received;

2) subtract from the lump sum payment all required payments;

3) subtract from the lump sum any amount the applicant can demonstrate was
spent on basic necessities, including all basic necessities as defined by the
general assistance program such as: reasonable payment of funeral or
burial expenses for a family member; any reasonable travel costs related to
the illness or death of a family member; repair or replacement of essentials
lost due to fire, flood or other natural disaster; repair or purchase of a motor
vehicle essential for employment, education, training or other day-to-day
living necessities. Repayments of loans or credit, the proceeds of which
can be verified as having been spent on basic necessities; and payment of
bills earmarked for the purpose for which the lump sum is paid must also be
subtracted. (22 M.R.S.A. § 4301(7), (8-A));

4) add to the remainder all income received by the household between
the date of receipt of the lump sum payment and the date of
application for general assistance; and

5) divide the sum created in subsection (4) by the verified actual
monthly amounts for all of the household’s basic necessities. 22
M.R.S.A. § 4305(3-B)
This dividend represents the period of proration determined by the administrator to commence on the date of receipt of the lump sum payment. The prorated sum for each month must be considered available to the household for 12 months from the date of application or during the period of proration, whichever is less.

The household of an initial applicant that is otherwise eligible for emergency assistance may not be denied emergency assistance to meet an immediate need solely on the basis of the proration of a lump sum payment. (22 MRSA § 4308)

Section 6.8—Basic Necessities; Maximum Levels of Assistance

**Overall Maximum Levels of Assistance.** Notwithstanding any of the maximum levels of assistance for specific basic necessities listed in Appendices B-H of this ordinance, an applicant’s eligibility for general assistance will be first determined by subtracting his or her income from the overall maximum level of assistance designated in Appendix A for the applicable household size (22 M.R.S.A. § 4305 (3-B)). The difference yielded by this calculation shall be the applicant’s deficit.

Applicants will be eligible for general assistance up to the calculated deficit to the extent the applicant is unable to otherwise provide the basic necessities essential to maintain themselves or their families. Applicants with no deficit shall be found ineligible for general assistance unless they are in an emergency, in which case eligibility for emergency general assistance will be determined according to section 4.9 of this ordinance.

**Maximum Levels of Assistance for Specific Basic Necessities.** The municipality will grant assistance to eligible applicants for basic necessities according to the maximum levels for specific types of assistance set forth below. The administrator, in consultation with the applicant, may apply the amount of the applicant’s deficit toward assistance
with any one or combination of necessities not to exceed the total deficit. These maximum levels will be strictly adhered to unless the administrator determines that there are exceptional circumstances and an emergency is shown to exist, in which case these absolute levels will be waived in order to meet immediate needs. In all cases either the actual expenses the applicant incurs for basic necessities or the maximum amount allowed in each category, whichever is less, will be used in determining need.

In roommate situations, the applicant’s need for common living expenses for rent, fuel, electricity, etc., will be presumed to be reduced by an amount equal to the other household members’ proportionate fair share of the common living expenses. No applicant will be allowed to claim a need for any expense which has been or will be paid by another person. In addition, as a general rule the municipality will not provide a benefit toward a basic need by paying a bill that is issued to a person not living with the applicant’s household or that has otherwise been incurred by a person who has not been found eligible to receive assistance.

Temporary exceptions to this general rule may be made by the administrator in the following circumstances: (1) a recent, unplanned separation has occurred in the household resulting in the sustained or permanent absence of a former household member in whose name the bill was customarily issued; (2) the applicant and members of the applicant’s household were or will be the sole recipients of the commodities or services covered by any bill to be paid or partially paid with general assistance; and (3) the applicant will make a good faith effort to direct the vendor to issue future bills in the name of the applicant or other responsible person residing in the household.

A) Food. The administrator will provide food assistance to eligible persons up to the allowed maximum amounts designated by the U.S.D.A. Thrifty Food Plan for the appropriate household size.

For this purpose, the municipality hereby incorporates by reference the U.S.D.A. Thrifty Food Plan, as distributed by the Maine Department of Health and Human
Services on or about October of each year. See Appendix B of this ordinance for the current year’s food maximums.

In determining need for food the administrator will not consider the value of the food stamps an applicant receives as income (22 M.R.S.A. § 4301.7(A); 7 U.S.C. §2017(b)). The municipality will authorize vouchers to be used solely for approved food products.

The administrator will exceed the maximums when necessary for households having members with special dietary needs. The administrator may require a doctor’s statement verifying there is a special dietary need requiring an expenditure for food that is greater than the ordinance maximums.

B) **Housing.** The administrator will provide assistance with rent or mortgage payments that are reasonable and/or within the allowed maximum levels. See Appendix C of this ordinance for the current year’s housing maximums. It is the applicant’s responsibility to find suitable housing, although the administrator may help the applicant find housing when appropriate. The administrator will inform the applicant of the allowed housing maximums to assist the applicant in his or her search for housing. The allowed maximum for any applicant will be the categorical housing maximum representing the minimum dwelling unit space necessary to adequately shelter the applicant household. Applicants requesting assistance for housing that contains more bedrooms than are necessary for the number of household members will be provided assistance according to the maximum level for the number of rooms actually needed.

**Rental Payments to Relatives.** The municipality may elect to not issue any rental payment to an applicant’s relatives unless the rental relationship has existed for at least three months and the applicant’s relative(s) rely on the rental payment for their basic needs. For the purpose of this section, a “relative” is defined as the applicant’s
parents, grandparents, children, grandchildren, siblings, parent’s siblings, or any of those relative’s children (22 M.R.S.A. § 4319(2)).

Rental Payments to Non-Relatives. When applicants are living in private homes with the owner or sharing dwelling units with people who are not pooling income or who are not legally liable relatives, the amount allowed as the applicant’s shelter expense will be the applicant’s pro rata share of the actual, total shelter cost, up to the ordinance maximum (22 M.R.S.A. § 4301(6)).

Any housing assistance issued to a recipient in such a circumstance will be issued, whenever reasonably possible, to the landlord or property owner with the most superior interest in the property; i.e., to a landlord before a tenant, or to a mortgagee before a mortgagor.

When the municipality issues in aggregate more than $600 in rental payments to any landlord in any calendar year, a 1099 form declaring the total amount of rental payments issued during the calendar year will be forwarded to the Internal Revenue Service (IRS) pursuant to IRS regulation (see section 6041(a) of Internal Revenue Code).

Any landlord wishing to regularly receive rental payments from the municipality on behalf of applicants renting rooms from the landlord’s own residence must, at a minimum, make a good faith effort to obtain a lodging license from the Department of Health and Human Services, Division of Health Engineering, pursuant to 10-144A Code of Maine Regulations, Chapter 201, as a condition of that landlord receiving future general assistance payments on behalf of his or her tenants.

Mortgage Payments. In the case of a request for assistance with a mortgage payment, the general assistance administrator will make an individual factual determination of whether the applicant has an immediate need for such aid. In
making this determination, the administrator will consider the extent and liquidity of
the applicant’s proprietary interest in the housing. Factors to consider in making this
determination include:

(1) the marketability of the shelter’s equity;

(2) the amount of equity;

(3) the availability of the equity interest in the shelter to provide the applicant
   an opportunity to secure a short-term loan in order to meet immediate
   needs;

(4) the extent to which liquidation may aid the applicant’s financial
   rehabilitation;

(5) a comparison between the amount of mortgage obligations and the
   anticipated rental charges the applicant would be responsible for if he/she
   were to be dislocated to rental housing;

(6) the imminence of the applicant’s dislocation from owned housing because
   of his or her inability to meet the mortgage payments;

(7) the likelihood that the provision of housing assistance will prevent such
   dislocation; and

(8) the applicant’s age, health, and social situation.

These factors shall be considered when determining whether the equity in the
shelter is an available asset which may be substituted for the assistance the
municipality would otherwise be required to provide.

The administrator shall consider issuing a benefit in response to the applicant’s
request for mortgage assistance to the extent the applicant is otherwise eligible for
general assistance if after reviewing the above criteria the administrator determines
that:
(1) the monthly mortgage obligation is in accordance with the maximum levels of assistance available for housing appropriate to the applicant’s household size;

(2) there is no capacity in the accumulated equity in the property, when considered in the context of the applicant’s borrowing capacity with the mortgagee or the general lending community, to suspend the mortgage obligation temporarily or reamortize the mortgage in such a way as to suspend or reduce the mortgage obligation; and

(3) the failure to provide a mortgage payment in a timely manner could jeopardize the applicant’s continued right of possession of the property.

If a mortgage payment is necessary, the administrator will pay the actual amount due, up to the amount allowed according to the maximum levels listed below. After an initial application, assistance with such payments will be given only after the applicant has made all reasonable efforts to borrow against the equity of his or her home. If there is not sufficient equity in the home with which to secure a loan, and if the monthly mortgage payments are not realistically in line with the rental rates for similar housing in the area that could meet the applicant’s needs, the administrator will inform the applicant that he/she is responsible for finding alternative housing within his or her ability to pay and will be obligated to make all reasonable efforts to secure such housing.

Liens. The municipality may place a lien on the property in order to recover its costs of granting assistance with mortgage payments. In addition, a municipality may claim a lien against the owner of real estate for the amount of money spent by it to make capital improvements to the real estate (22 M.R.S.A. § 4320). No lien may be enforced against a recipient except upon his or her death or the transfer of the property. Further, no lien may be enforced against a person who is currently receiving any form of public assistance, or who would again become eligible for general assistance if the lien were enforced.
If the municipality determines that it is appropriate to place a lien on a person’s property to recover its costs of providing general assistance for a mortgage payment or capital improvement it must file a notice of the lien with the county registry of deeds where the property is located within 30 days of making the mortgage payment. That filing shall secure the municipality’s or the state’s interest in an amount equal to the sum of that mortgage or capital improvement payment and all subsequent mortgage or capital improvement payments made on behalf of the same eligible person, plus interest and costs.

Not less than 10 days prior to filing the lien in the registry, the municipal officers must send notice to the owner of the real estate, the general assistance recipient, and any record holder of the mortgage by certified mail, return receipt requested, that a lien on the property is going to be filed with the registry. This notice must clearly inform the recipient of the limitations upon enforcement plus the name, title, address and telephone number of the person who granted the assistance. The municipal officers must also give written notice to the recipient each time the amount secured by the lien is increased because of an additional mortgage payment. This notice must include the same information that appeared on the original intent-to-file notice sent to the recipient.

The municipality may charge interest on the amount of money secured by the lien. The municipal officers will establish the interest rate not to exceed the maximum rate of interest allowed by the State Treasurer to be charged against delinquent taxes. The interest will accrue from the date the lien is filed.

**Property Taxes.** In the event an applicant requests assistance with his or her property taxes, the administrator will inform the applicant that there are two procedures on the local level to request that relief: the poverty abatement process (36 M.S.R.A. § 841(2)) and General Assistance. If the applicant chooses to seek
property tax assistance through General Assistance, or if the applicant is denied a poverty tax abatement, the administrator may consider using general assistance to meet this need only if:

a) the property tax in question is for the applicant’s place of residence;

b) there is a tax lien on the property which is due to mature within 60 days of the date of application;

c) as a matter of municipal policy or practice, or on the basis of information obtained from the applicant’s mortgagee, if any, it is reasonably certain that a tax lien foreclosure will result in subsequent eviction from the residential property; and

d) the applicant, with sufficient notice, applies for property tax relief through the Maine Property Tax Fairness Credit program, when available.

**Housing Maximums.** The maximum levels of housing assistance contained in this ordinance have been derived either from a locally accomplished fair market rental survey or the fair market rental values developed by the United States Department of Housing and Urban Development (HUD). If the maximum levels of housing are derived from the HUD values made effective as of every October 1, and adjusted to disregard the current and averaged utility allowances as developed by the Maine State Housing Authority, those levels are hereby incorporated by reference. See Appendix C of this ordinance for the current year’s housing maximums.

If and when the maximum levels of housing contained in this ordinance are derived from a locally developed fair market rental survey, a record of that survey will be submitted to the DHHS, General Assistance Unit, and the maximum levels of housing assistance will be incorporated into this ordinance pursuant to the ordinance adoption and amendment procedures found at 22 M.R.S.A. § 4305.
C) **Utilities.** Expenses for lights, cooking, and hot water will be budgeted separately if they are not included in the rent. Applicants are responsible for making arrangements with the utility company regarding service, including entering into a special payment arrangement if necessary.

Assistance will be granted to eligible applicants on the basis of their most recent bill. The municipality is not obligated to pay back bills or utility security deposits. Exceptions may be made in emergency situations pursuant to section 4.9.

Disconnection of utility service will not be considered an emergency in all cases. The administrator will make an individual, factual analysis to determine if the termination of utility service constitutes an emergency. The administrator will consider the household composition, the time of year, the age and health of the household members, and other appropriate factors in reaching a decision.

Applicants who had sufficient income, money, assets or other resources to pay their utility bill when it was received, but who spent all or part of their income on items which were not basic necessities, will not be eligible to receive general assistance to replace those funds.

Applicants have the burden of providing evidence of their income and use of income for the applicable time period (22 M.R.S.A. § 4308(2)) *(see section 4.9 and 6.3).* The administrator will notify applicants in writing that they must give the administrator prompt notice if their utility service is to be terminated or if their fuel supply is low. It is the applicant’s responsibility to attempt to make arrangements with the utility company to maintain their service and to notify the administrator if assistance is needed with a utility bill prior to service being terminated.

**Electricity Maximums for Households Without Electric Hot Water.** See Appendix D of this ordinance for the current year’s electricity maximums.
Electricity Maximums for Households that Use Electrically Heated Hot Water. See Appendix D of this ordinance for the current year’s electricity maximums.

Non-Electric Utilities. The allowed amount for water and sewer utility service will be budgeted at a 30-day reasonable usage rate.

D) Fuel. Expenses for home heating will be budgeted according to the actual need for fuel during the heating season (September through May) provided such expenses are reasonable, and at other times during the year when the administrator determines the request for fuel assistance is reasonable and appropriate.

Assistance will be granted to eligible applicants on the basis of their most recent bill. The municipality is not responsible for back bills except in an emergency as provided in section 4.9. Applicants are responsible for monitoring their fuel supply and requesting assistance prior to depleting their fuel supply. When applicants who have been informed of this responsibility run out of fuel nonetheless, and can show no just cause for failing to give the administrator timely notice of their need for fuel, the administrator shall find that the emergency was not beyond the applicants’ control, and process the emergency request accordingly, pursuant to section 4.9 of this ordinance.

See Appendix E of this ordinance for the current year’s fuel maximums.

E) Personal Care and Household Supplies. Expenses for ordinary personal and household supplies will be budgeted and allowed according to the applicant’s actual need for these items. Personal and household supplies include: hand soap, toothpaste, shampoo, shaving cream, deodorant, dish detergent, laundry supplies and costs, household cleaning supplies, razors, paper products such as toilet paper, tissues, paper towels, garbage/trash bags light bulbs and supplies for children under
5 years of age. See Appendix F of this ordinance for the current year's personal care and household supplies maximums.

F) **Other Basic Necessities.** Expenses falling under this section will be granted when they are deemed essential to an applicant's or recipient's health and safety by the general assistance administrator and, in some cases, upon verification by a physician. Assistance will be granted only when these necessities cannot be obtained through the utilization of available resources.

1) **Clothing.** The municipality may assist a household with the purchase of adequate clothing. Before assistance will be granted for clothing, the general assistance administrator must be satisfied that the applicant has utilized all available resources to secure the necessary clothing. In some circumstances, clothing will be a postponable item. Exceptions to this would be, for example, if fire, flood or unusually cold weather makes extra clothing an immediate necessity, special clothing is necessary for the applicant's employment, or a household member is without adequate clothing.

2) **Medical.** The municipality will pay for essential medical expenses, other than hospital bills (see below), provided that the municipality is notified and approves the expenses and services prior to their being made or delivered. Medical expenses include prescriptions, devices, treatments, or services that are determined to be 'medically necessary' by a licensed physician. The municipality will grant assistance for medical services only when assistance cannot be obtained from any other source and the applicant would not be able to receive necessary medical care without the municipality's assistance. The applicant is required to utilize any resource, including any federal or state program, that will diminish his or her need to seek general assistance for medical expenses. The municipality will grant assistance for non-emergency medical services only if a physician verifies that the services are
essential. Provided there is no cost to the applicant, the administrator may require a second medical opinion from a physician designated by the municipality to verify the necessity of the services.

Generally, the municipality will issue general assistance at the established Medicaid rates for all medical services, prescriptions, or other medical commodities. Before authorizing general assistance for any medical expenses, the administrator will inform the pharmacy or medical service provider of the municipality’s intention to pay for the medical service at the Medicaid rate, and ask to be billed accordingly.

Ordinary medical supplies/non-prescription drugs will be budgeted at the actual amount when the applicant can demonstrate a need for such items. Allowable supplies include bandages, aspirin, cough syrup, and other generic brand, non-prescription medicines. In addition, the basic monthly rate for telephone service will be budgeted when a telephone is essential to the health and safety of the household. In order for telephone service to be considered an allowable expense the applicant must provide a written statement from a physician certifying that the telephone is essential.

3) Hospital Bills. In the event of an emergency admission to the hospital, the hospital must notify the administrator within 5 business days of the admission. Notification must be by telephone, confirmed by certified mail, or by certified mail only. If a hospital fails to give timely notice to the administrator, the municipality will have no obligation to pay the bill.

Any person who cannot pay his or her hospital bill must apply to the hospital for consideration under the Hospital’s Free Care Program as provided in Title 22 M.R.S.A. § 1716. Anyone who is not eligible for the hospital’s free care program may apply for general assistance. Applicants must apply for
assistance within 30 days of being discharged from the hospital and provide a notice from the hospital certifying that he or she is not eligible for the hospital's free care program.

Before the administrator will consider whether to allow a hospital bill as a necessary expense, the applicant must enter into a reasonable payment arrangement with the hospital. The payment arrangement will be based upon the Medicaid rate. In determining an applicant’s eligibility, the municipality will budget the monthly payment to the hospital the applicant has agreed to pay. The applicant’s need for assistance with a hospital bill will be considered each time he/she applies by including the amount of the bill in the applicant’s monthly budget, but the recipient will be responsible for making any necessary payments to the hospital pursuant to the use-of-income requirements found at section 6.6 of this ordinance.

4) **Dental.** The municipality will pay for medically necessary dental services only. As is the case with medical services generally, the municipality will issue general assistance for dental services at the established Medicaid rates for those services, and before authorizing the general assistance benefit for dental services, the administrator will inform the dentist or dental surgeon of the municipality’s intention to pay at the Medicaid rate. If full mouth extractions are necessary, the municipality will pay for dentures provided the applicant has no other resources to pay for the dentures. The applicant will be referred to a dental clinic in the area whenever possible. The administrator will expect the applicant to bear a reasonable part of the cost for dental services, including extractions and dentures, taking into account the applicant’s ability to pay.

5) **Eye Care.** In order to be eligible to receive general assistance for eyeglasses, an applicant must have his or her medical need certified by a person licensed to practice optometry. The general assistance administrator will provide
assistance for eyeglasses to eligible persons only after the applicant has exhausted all other available resources and generally only at the Medicaid rate.

6) **Telephone Charge.** A payment for basic telephone will only be allowed if a telephone is necessary for medical reasons as verified by a physician. At the discretion of the GA administrator, minimum/basic telephone services may be allowed for households with children, for households where job search or job related reasons exist and/or for any other reasons the administrator deems necessary.

7) **Work-Related Expenses.** In determining need, reasonable and actual work-related expenses will be deducted from earned income. These expenses include childcare costs, work clothes, supplies and transportation at the actual costs not to exceed the ordinance maximum (*see Appendix G for this year’s maximum mileage allotment*). The applicant is required to provide documentation substantiating the costs and that the expenses were necessary.

8) **Travel Expenses.** In determining need, necessary travel which is not work-related will be budgeted if the applicant can satisfy the administrator that the prospective need for travel is necessary. For applicants in rural areas, weekly transportation to a supermarket will be considered, as will any medically necessary travel. See *Appendix G* for the current rate at which such necessary travel will be budgeted. This rate shall be construed to subsidize all costs associated with automobile ownership and operation, including gas/oil, tires, maintenance, insurance, financing, licensing/registration, excise tax, etc.

9) **Burials, Cremations.** Under the circumstances and in accordance with the procedures and limitations described below (*see section 6.9*), the municipality recognizes its responsibility to pay for the burial or cremation of eligible persons. See *Appendix H* for the current maximums.
10) **Capital Improvements.** The costs associated with capital improvements/repairs (e.g., heating/water/septic system repair) will generally not be budgeted as a basic necessity. Exceptions can be made only when the capital improvement/repair has been pre-approved by the administrator as a necessary expense and the monthly cost of the capital improvement/repair has been reduced as far as reasonably possible; for example, by means of the applicant entering into an installment payment arrangement with the contractor. The administrator may grant general assistance for capital improvements when:

1) the failure to do so would place the applicant(s) in emergency circumstances;
2) there are no other resources available to effect the capital repair; and
3) there is no more cost-effective alternative available to the applicant or municipality to alleviate an emergency situation.

In some cases, the entire immediate cost of the capital improvement can be mitigated by the applicant entering into an installment payment arrangement with a contractor. The municipality reserves the right to place a lien on any property pursuant to 22 M.R.S.A. § 4320 when general assistance has been used to effect a capital improvement. The lien process shall be accomplished in the same manner as for mortgage payments, as described in subsection (B) “Liens”, above.

**Section 6.9—Burials; Cremations**

**Funeral Director Must Give Timely Notice.** In order for the municipality to be liable for a burial or cremation expense, the funeral director must notify the administrator prior to the burial or cremation or by the end of three business days following the funeral director’ receipt of the body, whichever is earlier (22 M.R.S.A. §4313(2)). This contact by the funeral director shall begin the process of developing an application for
burial/cremation assistance on behalf of the deceased. It is the funeral director’s responsibility to make a good-faith effort to determine if the family or any other persons are going to pay all or part of the burial expenses. If family members or others are unable to pay the expenses, and the funeral director wants the municipality to pay all or part of the expenses, the funeral director must make timely contact to the municipal administrator. In addition, the funeral director may refer legally liable relatives to the administrator so that a timely determination of financial capacity may be accomplished.

**Application for Assistance Shall be Calculated on Behalf of the Deceased.** For the purposes of determining residency, calculating eligibility and issuing general assistance for burial or cremation purposes, an application for assistance shall be completed by the administrator on behalf of the deceased.

With regard to residency, the municipality of responsibility for burial expenses shall be the municipality in which the eligible deceased person was a resident at the time of death as residency is determined under section 4.10 of this ordinance.

Although legally liable relatives may be asked to provide information regarding their income, assets, and basic living expenses, that information will not be construed as an application for general assistance inasmuch as living persons are not eligible for burial assistance. To clarify this point of law, although legally liable relatives have a financial responsibility to pay for the burial or cremation of their relatives, that financial responsibility only exists to the extent the legally liable relatives have a financial capacity to do so. Therefore, legally liable relatives who are eligible for general assistance, by virtue of their eligibility, have no legal obligation to pay for the burial or cremation of their relatives. For these reasons, all general assistance issued for burial or cremation purposes shall be issued on behalf of, and in the name of, the deceased.

**The Financial Responsibility of Certain Family Members.** Through October 31, 2017, grandparents, parents, children and grandchildren of the deceased, who live in Maine or
own property in Maine, are financially responsible for the burial or cremation of the deceased to the extent those relatives, individually or as a group, have a financial capacity to pay for the burial or cremation either in lump sum or by means of a budgeted payment arrangement with the funeral home. Effective November 1, 2017, grandparents, parents, children and grandchildren of the deceased whether or not living in or owning property in Maine, and the spouse or registered domestic partner of the deceased, are financially responsible for the burial or cremation of the deceased to the extent those relatives, individually or as a group, have a financial capacity to pay for the burial or cremation either in lump sum or by means of a budgeted payment arrangement with the funeral home. Accordingly, at the request of the administrator, all legally liable relatives must provide the municipal administrator with any reasonably requested information regarding their income, assets, and basic living expenses. The Administrator may also seek information from financial institutions holding assets of the deceased. Effective November 1, 2017, Maine law requires a financial institution to disclose the amount deposited in the corporation or association when the municipality or its agents are acting in accordance with section 4313(2) and provide a written request and a notarized affidavit signed by the overseer of the municipality or its agents stating that the named depositor is deceased.

Consideration of the Financial Responsibility of Family Members. Generally, when the administrator can make a finding that one or more of the deceased’s legally liable relatives have an obvious and demonstrable financial capacity to pay for the burial or cremation, by lump sum payment or by means of a reasonable payment arrangement, the municipality will not grant the requested burial or cremation assistance. When the administrator is unable to make such a finding, the following proration of familial responsibility will be implemented.

Proration of Familial Responsibility. A proration of familial financial responsibility will be used when no legally liable relative possesses an obvious and demonstrable capacity to pay for the burial or cremation, but one or more of the financially liable relatives is found
to have a financial capacity to make a partial financial contribution, or the administrator is unable to determine the financial capacity of one or more of said relatives.

Under these circumstances, each legally liable relative is considered to be responsible for his or her pro rata share of the total municipal contribution that would exist if no legally liable relatives had a financial capacity to contribute. Furthermore, and as long as all other eligibility factors have been satisfied, the municipality will provide as a burial or cremation benefit the aggregate of all pro rata shares less the share of any legally liable relative who refuses to cooperate with the administrator by providing information or documentation reasonably necessary to determine that relative’s financial capacity, and less any share or part of a share attributable to a legally liable relative who can financially contribute or partially contribute toward the burial or cremation to the extent of that relative’s share.

Eight Days to Determine Eligibility. The administrator may take up to 8 days from the date of contact by the funeral director to issue a written decision regarding the amount of the municipal contribution toward the burial or cremation. The 8-day eligibility determination period from the date of contact by the funeral director shall be used as necessary to make third-party collateral contacts, verify the listing of legally liable family members and determine their respective financial capacities to contribute to the burial or cremation, contact the personal representative of the deceased’s estate, if any, and other related administrative tasks. The administrator shall not use this 8-day period allowed by law to unreasonably delay the municipality’s decision.

The Municipal Obligation to Pay When Legally Liable Relatives or Others Can Contribute. The figures provided in this section are the maximum benefits provided by the municipality when no contributions toward the burial or cremation are available from any other source. To the extent any legally liable relatives of the deceased have a financial capacity to pay for the burial or cremation, that financial capacity shall be deducted from the maximum burial costs allowed by this section. In addition, any other
benefits or resources that are available, such as Social Security burial benefits, veterans’ burial benefits, or contributions from other persons, will be deducted from the maximum amount the municipality will pay, except there will be no deduction from the municipal benefit level with respect to any contribution provided for the purpose of publishing an obituary notice up to an aggregate contribution limit for this purpose of $75 when a paid receipt demonstrating the purchase of an obituary notice is provided to the administrator.

**Burial Expenses.** The administrator will respect the wishes of family members with regard to whether the deceased is interred by means of burial or cremated. See Appendix H for the maximum levels of assistance granted for the purpose of burials.

**Cremation Expenses.** In the absence of any objection by any family members of the deceased, or when neither the administrator nor the funeral director can locate any family members, the administrator may issue general assistance for cremation services. See Appendix H for the maximum levels of assistance granted for the purpose of cremations.

---

**Section 6.10—Notice of Decision**

**Written Decision.** The administrator will give a written decision to each applicant after making a determination of eligibility each time a person applies. The decision will be given to the applicant **within 24 hours** of receiving a completed and signed application (22 M.R.S.A. § 4305(3)) *(see Article IV, section 4.6).*

When an applicant submits an incomplete or unsigned application, due to the 24-hour decision requirement placed on the GA administrator, the GA administrator may decide to render a notice of “ineligibility” and provide the applicant with another application to submit as soon as is practicable for the applicant.
In order to ensure that applicants understand their rights, it is the responsibility of the general assistance administrator to explain the applicants’ right to a fair hearing in the written notice of decision.

Contents. After an application has been completed, applicants will be given written notice of any decision concerning their eligibility for assistance. In addition to the contents of a written decision listed in section 4.6 of this ordinance, the notice will state that applicants:

a) have the right to a fair hearing and the method by which they may obtain a fair hearing and;

b) have the right to contact the DHHS if they believe the municipality has violated the law. The decision will state the method for notifying the department.

Disbursement of General Assistance. Except when determined impractical by the administrator, all general assistance will be provided in the form of a voucher or purchase order payable to a vendor or through direct municipal payment to a provider of goods or services. General assistance will not be issued in the form of a cash payment to an applicant unless there is no alternative to making such a cash payment, in which case the administrator shall document the circumstances for issuing general assistance in the form of cash (22 M.R.S.A. § 4305(6)).
ARTICLE VII

The Fair Hearing

Section 7.1—Right to a Fair Hearing

Within 5 working days of receiving a written notice of denial, reduction or termination of assistance, or within 10 working days after any other act or failure to act, the applicant or his or her authorized representative has the right to request a fair hearing (22 M.R.S.A. § 4322). The right to review a decision of the general assistance administrator is a basic right of the applicant to a full evidentiary hearing and is not limited solely to a review of the decision.

Section 7.2—Method of Obtaining a Fair Hearing

Upon receiving notification of the decision of the general assistance administrator, all claimants will be informed of the method of obtaining a fair hearing. All complaints that are not clear requests for a fair hearing will be answered by a personal interview or in writing by the general assistance administrator. If the client is satisfied with the adjustment or explanation, the administrator will make an entry in the case record and file any correspondence involved.

Written Request. To obtain a fair hearing, the claimant, or his or her authorized representative, must make a written request within 5 working days of receiving the administrator’s decision to grant, deny, reduce or terminate assistance, or within 10 working days after any other act or failure to act. The administrator will make available a printed form for requesting a fair hearing and will assist the claimant in completing it if necessary. On the printed form, the claimant will give the following information:

a) the decision on which review is sought;

b) the reason(s) for the claimant’s dissatisfaction and why the claimant believes he/she is eligible to receive assistance; and
c) the relief sought by the claimant.

The administrator cannot deny or dismiss a request for a hearing unless it has been withdrawn (in writing) by the claimant.

**Scheduling the Fair Hearing.** Upon receipt of the completed written request the fair hearing authority must meet and hold the hearing **within 5 working days**. The administrator will notify the claimant in writing when and where the hearing will be held (22 M.R.S.A. § 4322). In addition to the date, time and place of the hearing, the notice of fair hearing sent to the claimant shall include, at a minimum, the claimant’s rights to:

a) be his or her own spokesperson at the fair hearing, or be represented by legal counsel or other spokesperson at the hearing, at the claimant’s own expense;

b) confront and cross-examine any witnesses presented at the hearing against the claimant; and

c) present witnesses on his or her own behalf.

Arrangements for the date, time, and place of the hearing will take into consideration the convenience of the claimant and hearing authority. The claimant will be given timely notice to allow for preparation and will also be given adequate preliminary information about the hearing procedure to allow for effective preparation of his or her case.

**Section 7.3—The Fair Hearing Authority**

The municipal officers will appoint a fair hearing authority (FHA) that will determine, based on all the evidence presented at the fair hearing, whether the claimant(s) were eligible to receive assistance at the time they applied for GA. The FHA is charged with the responsibility of ensuring that general assistance is administered in accordance with the state law and local ordinance.
The fair hearing authority may consist of the municipal officers, one or more persons appointed by the municipal officers to act as the FHA, or, if designated, the board of appeals created under 30-A M.R.S.A. § 2691 (22 M.R.S.A. § 4322). In determining the organization of the fair hearing authority, the municipal officers will use the following criteria. The person(s) serving as FHA must:

a) not have participated in the decision which is the subject of the appeal;

b) be impartial;

c) be sufficiently skilled in interviewing techniques to be able to obtain evidence and the facts necessary to make a fair determination; and

d) be capable of evaluating all evidence fairly and realistically, explaining to the claimant the laws and regulations under which the administrator operated, and interpreting to the administrator any evidence of unsound, unclear, or inadequate policies, practices or actions.

Section 7.4—Fair Hearing Procedure

When a claimant requesting a fair hearing is notified of the date, time, and place of the hearing in writing, he/she will also be given adequate preliminary information about the hearing procedure to allow for effective preparation of his or her case. The claimant shall be permitted to review his or her file prior to the hearing. At a minimum, the claimant will be told the following information, which will govern all fair hearings. All fair hearings will:

a) be conducted privately, and will be open only to the claimant, witnesses, legal counsel, or others whom the claimant wants present, and the general assistance administrator, his or her agents, counsel and witnesses;

b) be opened with a presentation of the issue by the fair hearing authority;

c) be conducted informally, without technical rules of evidence, but subject to the requirements of due process;
d) allow the claimant and the administrator the option to present their positions for themselves or with the aid of others, including legal counsel;

e) give all participants an opportunity to present oral or written testimony or documentary evidence, offer rebuttal; question witnesses presented at the hearing; and examine all evidence presented at the hearing;

f) result in a decision, based exclusively on evidence or testimony presented at the hearing; and

The fair hearing authority shall admit all evidence if it is the kind of evidence upon which reasonable persons are accustomed to rely in the conduct of serious affairs (22 M.R.S.A. § 4322).

Claimant's Failure to Appear. In the event the claimant fails to appear, the FHA will send a written notice to the claimant that the GA administrator's decision was not altered due to the claimant's failure to appear. Furthermore, the notice shall indicate that the claimant has 5 working days from receipt of the notice to submit to the GA administrator information demonstrating "just cause," for failing to appear. For the purposes of a claimant's failure to appear at a fair hearing, examples of "just cause" include:

a) a death or serious illness in the family;
b) a personal illness which reasonably prevents the party from attending the hearing;
c) an emergency or unforeseen event which reasonably prevents the party from attending the hearing;
d) an obligation or responsibility which a reasonable person in the conduct of his or her affairs could reasonably conclude takes precedence over the attendance at the hearing; or
e) lack of receipt of adequate or timely notice; excusable neglect, excusable inadvertence, or excusable mistake.

If the claimant (or their attorney) establishes just cause, the request for the hearing will be reinstated and a hearing rescheduled.

In the event a claimant who is represented by legal counsel fails to appear at a fair hearing, legal counsel shall not testify in place of the claimant on matters of ‘fact’ but may cross examine witnesses and make ‘legal’ arguments on behalf of the claimant.

Section 7.5—The Fair Hearing Decision

The decision of the fair hearing authority will be binding on the general assistance administrator, and will be communicated in writing to the claimant within 5 working days after completion of the hearing. Written notice of the decision will contain the following:

a) a statement of the issue;
b) relevant facts brought out at the hearing;
c) pertinent provisions in the law or general assistance ordinance related to the decision; and
d) the decision and the reasons for it.

A copy of the notice of the decision will be given to the claimant. The hearing record and the case record will be maintained by the general assistance administrator.
The written notice of the decision will state that if the claimant is dissatisfied with the fair hearing decision, he/she has a further legal right to appeal the decision pursuant to the Maine Rules of Civil Procedure, Rule 80B. To take advantage of this right, the claimant must file a petition for review with the Superior Court within 30 days of receipt of the fair hearing decision.

When the decision by the fair hearing authority or court authorizes assistance to the claimant, the assistance will be provided within 24 hours.
ARTICLE VIII

Recovery of Expenses

**Recipients.** The municipality may recover the full amount of assistance granted to a person from either the recipient or from any person liable for the recipient, or his or her executors or administrators in a civil action. However, prior to recovering assistance granted, the municipality shall “offset” the value of any workfare performed by a GA recipient, at a rate not less than minimum wage.

Prior to taking a recipient to court to recover the amount of assistance, the municipality will seek voluntary repayment from the recipient by notifying him/her in writing and discussing it with the recipient. The municipality shall not attempt to recover such costs if, as a result of the repayment, the person would again become eligible for general assistance (22 M.R.S.A. § 4318).

**Recipients Anticipating Workers’ Compensation Benefits.** The municipality shall claim a lien for the value of all general assistance payments made to a recipient on any lump sum payment made to that recipient under the Workers’ Compensation Act or similar law of any other state (22 M.R.S.A. § 4318, 39-A M.R.S.A. § 106). After issuing any general assistance on behalf of a recipient who has applied for or is receiving Workers’ Compensation, the municipality shall file a notice of the municipal lien with the general assistance recipient and the Office of Secretary of State, Uniform Commercial Code division.

The notice of lien shall be filed on a UCC-1 form which must be signed by the recipient of general assistance who has applied for or is receiving Workers’ Compensation. Any general assistance applicant who has applied for or who is receiving Workers’ Compensation benefits and who refuses to sign a properly prepared UCC-1 form will be found ineligible to receive general assistance until he or she provides the required
signature. The municipality shall also send a photocopy of that filing to the recipient’s Worker’s Compensation attorney, if known, the applicant’s employer or the employer’s insurance company, and, at the administrator’s discretion, to the Workers’ Compensation Board. The lien shall be enforced at the time any lump sum Workers’ Compensation benefit is issued.

**Recipients of SSI.** All applicants who receive general assistance while receipt of their Supplemental Security Income (SSI) assistance is pending or suspended, and which therefore may be retroactively issued to the applicant at a later date, will be required to sign a statement on an Interim Assistance Agreement form distributed by the DHHS that authorizes the Social Security Administration to direct a portion of any retroactive SSI payment to the municipality and/or the state in repayment for the general assistance granted. Any general assistance applicant who has applied for or who may be applying for SSI, or who may be required to apply for SSI pursuant to 22 M.R.S.A. § 4317, and who refuses to sign the Interim Agreement SSI authorization form will be found ineligible to receive general assistance until he or she provides the required signature (22 M.R.S.A. § 4318).

**Relatives.** The spouse of an applicant, and the parents of any applicant under the age of 25, are liable for the support of the applicant (22 M.R.S.A. § 4319). In addition, the grandchildren, children, parents, grandparents, and effective November 1, 2017, the spouse and a registered domestic partner, are liable for the burial costs of each other. The municipality considers these relatives to be available resources and liable for the support of their relatives in proportion to their respective ability. The municipality may complain to any court of competent jurisdiction to recover any expenses made on the behalf of a recipient if the relatives fail to fulfill their responsibility (22 M.R.S.A. § 4319).
ARTICLE IX

Severability

Should any section or provision of this ordinance be declared by the courts to be invalid, such decision shall not invalidate any other section or provision of the ordinance.

*Please Note: Add $75 for each additional person.*
# Appendix B

Effective: 10/01/17 to 09/30/18

## 2017-2018 Food Maximums

Please Note: The maximum amounts allowed for food are established in accordance with the U.S.D.A. Thrifty Food Plan. As of October 1, 2017, those amounts are:

<table>
<thead>
<tr>
<th>Number in Household</th>

</tbody>
</table>

Note: For each additional person add $144 per month.
2017-2018 GA Housing Maximums
(Heated & Unheated Rents)

NOTE: NOT ALL MUNICIPALITIES SHOULD ADOPT THESE SUGGESTED HOUSING MAXIMUMS! Municipalities should ONLY consider adopting the following numbers, if these figures are consistent with local rent values. If not, a market survey should be conducted and the figures should be altered accordingly. The results of any such survey must be presented to DHHS prior to adoption. Or, no housing maximums should be adopted and eligibility should be analyzed in terms of the Overall Maximum—Appendix A. (See Instruction Memo for further guidance.)

</tbody>
</table>
NOTE: For an electrically heated dwelling also see “Heating Fuel” maximums below. But remember, an applicant is not automatically entitled to the “maximums” established—applicants must demonstrate need.

1) Electricity Maximums for Households \textit{Without Electric Hot Water}: The maximum amounts allowed for utilities, for lights, cooking and other electric uses \textit{excluding} electric hot water and heat:

<table>
<thead>
<tr>
<th>Number in Household</th>
<th>Weekly</th>
<th>Monthly</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>$14.00</td>
<td>$60.00</td>
</tr>
<tr>
<td>2</td>
<td>$15.70</td>
<td>$67.50</td>
</tr>
<tr>
<td>3</td>
<td>$17.45</td>
<td>$75.00</td>
</tr>
<tr>
<td>4</td>
<td>$19.90</td>
<td>$86.00</td>
</tr>
<tr>
<td>5</td>
<td>$23.10</td>
<td>$99.00</td>
</tr>
<tr>
<td>6</td>
<td>$25.00</td>
<td>$107.00</td>
</tr>
</tbody>
</table>

NOTE: For each additional person add $7.50 per month.

2) Electricity Maximums for Households \textit{With Electrically Heated Hot Water}: The maximum amounts allowed for utilities, hot water, for lights, cooking and other electric uses \textit{excluding} heat:

<table>
<thead>
<tr>
<th>Number in Household</th>
<th>Weekly</th>
<th>Monthly</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>$20.65</td>
<td>$89.00</td>
</tr>
<tr>
<td>2</td>
<td>$23.75</td>
<td>$102.00</td>
</tr>
<tr>
<td>3</td>
<td>$27.70</td>
<td>$119.00</td>
</tr>
<tr>
<td>4</td>
<td>$32.25</td>
<td>$139.00</td>
</tr>
<tr>
<td>5</td>
<td>$38.75</td>
<td>$167.00</td>
</tr>
<tr>
<td>6</td>
<td>$41.00</td>
<td>$176.00</td>
</tr>
</tbody>
</table>

NOTE: For each additional person add $10.00 per month.

NOTE: For electrically heated households, the maximum amount allowed for electrical utilities per month shall be the sum of the appropriate maximum amount under this subsection and the appropriate maximum for heating fuel as provided below.
## 2017-2018 HEATING FUEL MAXIMUMS

<table>
<thead>
<tr>
<th>Month</th>
<th>Gallons</th>
<th>Month</th>
<th>Gallons</th>
</tr>
</thead>
<tbody>
<tr>
<td>September</td>

<td>200</td>
<td>April</td>
<td>125</td>
</tr>
<tr>
<td></td>
<td></td>
<td>May</td>
<td>50</td>
</tr>
</tbody>
</table>

**NOTE:** When the dwelling unit is heated electrically, the maximum amount allowed for heating purposes will be calculated by multiplying the number of gallons of fuel allowed for that month by the current price per gallon. When fuels such as wood, coal and/or natural gas are used for heating purposes, they will be budgeted at actual rates, if they are reasonable. No eligible applicant shall be considered to need more than 7 tons of coal per year, 8 cords of wood per year, 126,000 cubic feet of natural gas per year, or 1000 gallons of propane.
APPENDIX F
Effective: 10/01/17 to 09/30/18

</tbody>
</table>
Mileage Rate

This municipality adopts the State of Maine travel expense reimbursement rate as set by the Office of the State Controller. The current rate for approved employment and necessary medical travel etc. is 44 cents (44¢) per mile.

Please refer to the Office of State Controller for changes to this rate: Telephone: 626-8420 or visit: http://www.state.me.us/osc/
Funeral Maximums

Burial Maximums

The maximum amount of general assistance granted for the purpose of burial is $1,125. Additional costs may be allowed by the GA administrator, where there is an actual cost, for:

- the wholesale cost of a cement liner if the cemetery by-laws require one;
- the opening and closing of the grave site; and
- a lot in the least expensive section of the cemetery. If the municipality is able to provide a cemetery lot in a municipally owned cemetery or in a cemetery under municipal control, the cost of the cemetery lot in any other cemetery will not be paid by the municipality.

The municipality’s obligation to provide funds for burial purposes is limited to a reasonable calculation of the funeral director’s direct costs, not to exceed the maximum amounts of assistance described in this section. Allowable burial expenses are limited to:

- removal of the body from a local residence or institution
- a secured death certificate or obituary
- embalming
- a minimum casket
- a reasonable cost for necessary transportation
- other reasonable and necessary specified direct costs, as itemized by the funeral director and approved by the municipal administrator.

Cremation Maximums

The maximum amount of assistance granted for a cremation shall be $785. Additional costs may be allowed by the GA administrator where there is an actual cost, for:

- a cremation lot in the least expensive section of the cemetery
- a reasonable cost for a burial urn not to exceed $50
- transportation costs borne by the funeral director at a reasonable rate per mile for transporting the remains to and from the cremation facility.
Appendix I

26 MRSA §1043 (23)

**Misconduct.** “Misconduct” means a culpable breach of the employee’s duties or obligations to the employer or a pattern of irresponsible behavior, which in either case manifests a disregard for a material interest of the employer. This definition relates only to an employee’s entitlement to benefits and does not preclude an employer from discharging an employee for actions that are not included in this definition of misconduct. A finding that an employee has not engaged in misconduct for purposes of this chapter may not be used as evidence that the employer lacked justification for discharge. [1999, c. 464, §2 (rpr).]

A. The following acts or omissions are presumed to manifest a disregard for a material interest of the employer. If a culpable breach or a pattern of irresponsible behavior is shown, these actions or omissions constitute “misconduct” as defined in this subsection. This does not preclude other acts or omissions from being considered to manifest a disregard for a material interest of the employer. The acts or omissions included in the presumption are the following:

1. Refusal, knowing failure or recurring neglect to perform reasonable and proper duties assigned by the employer;
2. Unreasonable violation of rules that are reasonably imposed and communicated and equitably enforced;
3. Unreasonable violation of rules that should be inferred to exist from common knowledge or from the nature of the employment;
4. Failure to exercise due care for punctuality or attendance after warnings;
5. Providing false information on material issues relating to the employee’s eligibility to do the work or false information or dishonesty that may substantially jeopardize a material interest of the employer;
6. Intoxication while on duty or when reporting to work or unauthorized use of alcohol while on duty;
7. Using illegal drugs or being under the influence of such drugs while on duty or when reporting to work;
8. Unauthorized sleeping while on duty;
9. Insubordination or refusal without good cause to follow reasonable and proper instructions from the employer;
10. Abusive or assaultive behavior while on duty, except as necessary for self-defense;
11. Destruction or theft of things valuable to the employer or another employee;
12. Substantially endangering the safety of the employee, coworkers, customers or members of the public while on duty;
13. Conviction of a crime in connection with the employment or a crime that reflects adversely on the employee’s qualifications to perform the work; or
14. Absence for more than 2 work days due to incarceration for conviction of a crime.
B. “Misconduct” may not be found solely on:

   (1) An isolated error in judgment or a failure to perform satisfactorily when the employee has made a good faith effort to perform the duties assigned;

   (2) Absenteeism caused by illness of the employee or an immediate family member if the employee made reasonable efforts to give notice of the absence and to comply with the employer’s notification rules and policies; or

   (3) Actions taken by the employee that were necessary to protect the employee or an immediate family member from domestic violence if the employee made all reasonable efforts to preserve the employment.

[1999, c. 464, §2 (new).]
ARTICLE 7. Hazardous Waste Ordinance

The Town of Chesterville hereby Ordains:

Section I. Purpose

The regulations set forth in this ordinance are adopted to:

A. Provide for the protection of ground water and surface water quality through the control of hazardous waste handling, storage, or disposal;
B. Protect the health, safety, and welfare of the citizens of Chesterville.

Section II. Legislative Authority

A. Authority:

1. This ordinance is adopted pursuant to Home Rule Powers as provided for in article VII-A of the Maine Constitution and Title 30, M.R.S.A., Section 1917, 38 M.R.S.A., Section 1320, and 38 M.R.S.A., Section 1321.

2. This ordinance shall be known as the "Hazardous Waste Ordinance" of the Town of Chesterville, Maine, adopted and effective by vote of the Town Meeting on

B. Administration:

1. The Planning Board of the Town of Chesterville shall administer this ordinance.

2. No person shall construct, develop, establish, operate, own, or maintain an industrial or commercial site which will handle, store, or dispose of hazardous waste without having first obtained a permit from the Planning Board. A permit or renewal permit shall be issued for a period of one (1) year from the date of issuance, unless suspended or revoked. Each permit or renewal permit shall be issued only for the site designated in the plans accompanying the application and shall not be transferable or assignable except with the written approval of the Planning Board.

Section III. Validity and Severability and Conflict with Other Ordinances

A. Validity and Separability:

1. Should any section or provision of this ordinance be declared by any court to be invalid, such decision shall not invalidate any other section or provision of the Ordinance.

B. Conflict with other Ordinances:

1. Whenever the requirements of this ordinance are inconsistent with the requirements of any other ordinances, code, or statute, the more restrictive requirements shall apply.

Section IV. Applicability

A. This ordinance shall apply to all development proposals for new construction of hazardous waste storage, handling, processing, and/or disposal facilities, and shall also apply to any expansion or existing facilities.

B. Existing facilities including commercial and industrial operations which store, handle, process, or dispose of hazardous wastes shall comply with renewal permit criteria in Section VI. C. of this ordinance.

C. Exemptions:

1. Agriculture: The storage and handling of products used for agricultural purposes on working farms.

2. Domestic sewage.

3. Household waste: Products which are used for normal domestic housekeeping.
4. Recycled oil and petroleum products generated in this town.

5. Industrial storage: Industrial or manufacturing facilities storing less than 400 pounds per calendar month, within a fully enclosed secure structure with concrete retaining walls on all sides.

Section V. Application Procedure and Site Plan Content

A. The Site Plan of Development Application shall include as a minimum:

1. A map at a convenient scale (i.e. U.S.G.S. 7½ minute or 15 minute topographic) delineating the parcel, existing dwelling units, other structures, 100 and 500 year flood zones, private and public water supplies, land currently used for agricultural purposes, aquifers and aquifer recharge areas.

2. Maps and/or engineering drawings at a scale of not less than one (1) inch to fifty (50) feet and shall include:
   a. name and address of the applicant or his authorized agent and name of proposed development and any land within 500 feet of the proposed development in which the applicant has title or interest;
   b. perimeter survey of the parcel made and certified by a Registered Land Surveyor relating to reference points, showing true north point, graphic scale, corners of parcel and date of survey and total acreage. Areas within 200 feet of the proposed development site shall be included;
   c. topography indicating contours at intervals of 2 or 5 feet in elevation as specified by the Planning Board;
   d. existing soil conditions described using the Unified Soil Classification System by a Registered Geologist or Soil Scientist in the State of Maine;
   e. location of aquifers and aquifer recharge areas and surface watershed boundaries as described by a Registered Geologist in the State of Maine;
   f. location, ground floor area and elevations of building and other structures on parcels abutting the site;
   g. location and dimensions of on-site pedestrian and vehicular access ways, parking areas, loading and unloading facilities, design at ingress and egress of vehicles to and from the site on to public streets;
   h. existing and proposed locations and dimensions of any utility lines, sewer lines, water lines, easements, drainage ways and public of private right-of-way;
   i. landscape plan showing location, type and approximate size of plantings and location and dimension of all fencing and screening;
   j. profiles of underlying soil and bedrock conditions prepared by a Registered Geologist in the State of Maine;
   k. engineering drawings including plans and profiles of all storage, handling, processing, and disposal facilities signed by a Professional Engineer licensed in the State of Maine. Additionally, construction drawings which show the site upon closure;
   l. location and details of ground water monitoring wells;
according to the procedures outlined in Title 30, M.R.S.A., Section 2411, Subsection 3 (A), (B), (D), (E), and (E).

3. Within 30 days of the public hearing, the Planning Board shall either approve, approve with conditions, or disapprove the application. The time limit for review may be extended by mutual agreement between the Planning Board and the applicant.

4. Within seven (7) days of reaching their decision, the Planning Board shall notify the applicant in writing of any action taken and the reason for taking such action.

Section VI. Requirements and Performance Standards

Requirements:

1. Monitoring wells shall be located to adequately sample ground water for contamination. The location, construction standards and monitoring program will be determined by a Registered Geologist.

2. Applicant must have acquired insurance of two million dollars ($2,000,000) per occurrence and an annual aggregate of four million dollars ($4,000,000) exclusive of legal defense costs, for claims arising out of injury to persons or property from the operations of the hazardous waste facility. The deductible written into the insurance policy must not exceed five (5) percent of the incident limit of liability of the policy. Such insurance shall be in effect for a period of 40 years after the site is no longer in operation.

3. Applicant must provide a surety bond to the Town of Chesterville in an amount sufficient to cover the construction or expansion costs of the hazardous waste facility as proposed to the Planning Board. This surety bond shall be released contingent upon approval of final construction by the Planning Board.

4. Applicant must have obtained a surety bond in the amount of $100,000 guaranteeing the operation of the site in accordance with these rules and regulations, or the applicant must post a sum equal to or greater than $1,000,000 with the Town of Chesterville any or all of which may be used by the Town of Chesterville to correct failures to comply with this ordinance.

5. The applicant shall provide such special equipment (on-site) and training to reasonably prepare the town's fire department to respond to emergencies at the site.

b. Performance Standards: The following standards are to be used by the Planning Board in judging applications and shall serve as minimum requirements for approval of the plan. The plan shall be approved unless in the judgement of the Planning Board the applicant is not able to reasonably meet one or more of these standards. In all instances, the burden of proof shall be on the applicant and such burden of proof shall include the production of evidence necessary to complete the application.

1. Buffering of development site: the lot shall be setback and landscaped in order to screen the appearance of outstanding features of the development i.e. exposed storage areas, truck loading, and unloading areas, to provide an audio/visual buffer to minimize their adverse impact on surrounding properties.

2. External lighting: all external lighting shall be designed to minimize adverse impact on neighboring properties.

3. Vehicular Access: the proposed site layout shall provide for safe access
and egress from public and private roads by providing adequate location, numbers and control of access points including site distances, turning lanes and traffic signalization when required by existing and projected traffic flow on the municipal road systems.

4. Parking and Circulation: the layout and design of all means of vehicular and pedestrian circulation, including walkways, interior drives, and parking areas, shall provide for safe general interior circulation, separation of pedestrian and vehicular traffic, service traffic, loading areas, and arrangements and use of parking areas.

5. Emergency Vehicle Access: provisions shall be made for providing and maintaining convenient and safe emergency vehicle access to the site and all facilities at all times.

6. Surface water drainage and soil erosion: adequate provision shall be made for surface drainage so that removal of surface waters will not adversely affect neighboring properties, downstream water quality or public storm drainage systems. On-site absorption of runoff waters shall be utilized to minimize discharges from the site. Also unreasonable soil erosion or reduction in flow capacity of the land to hold water so that a dangerous or unhealthy condition may result shall be prevented.

7. Water Pollution: in making this determination, the Board shall at least consider: (1) the elevation of land and its relation to flood plains, the nature of soils and subsoils and their ability to adequately support the development; (2) the applicability of any approved D.E.P. licenses; (3) the slope of the land; (4) the ground water resources including aquifer recharge areas; (5) the applicable federal, state and local laws, ordinance codes and regulations.

8. Air Pollution: in making this determination, the Board shall consult federal and state authorities to determine that applicable air quality laws and regulations can be met.

9. Safety/Fire Hazards: has sufficient facilities and equipment available for the needs of the development including fire-fighting and spill prevention and control.

10. Sewage Disposal: will provide for adequate sewage waste disposal.

11. Municipal Services: the development will not have an unreasonable adverse impact on the municipal services including municipal road systems, fire department, police department, solid waste program, sewage treatment plant, open spaces, recreational programs and facilities and other municipal services and facilities.

C. Annual Renewal Permit Standards: A yearly operations permit application shall be submitted to the Planning Board accompanied by a fee of $200.00 for processing the application. The Planning Board shall grant a yearly operations permit contingent upon the findings that the following have been met.

1. Maintenance of a current operations manual;
2. An acceptable emergency exercise;
3. Test monitoring of wells;
4. An acceptable facility inspection by a Registered Engineer.

Section VII. General Provisions

A. The Planning Board may modify or waive any of the above applications requirements when the Planning Board determines that because of the special circumstances of the site, such application requirements would not be applicable or
would be an unnecessary burden upon the applicant and would not adversely affect the abutting land owners and the general health and safety and welfare of the town.

B. A permit granted under this ordinance shall expire if the work or change is not commenced within one year from the date the permit is granted, although such permit may be renewed for additional periods. Renewal of a permit shall be treated as a new application and shall be subject to all provisions of this ordinance.

Section VIII. Violation, Enforcement, and Fines

A. Violation and Enforcement: The Planning Board, the Selectmen or the appropriate municipal official, upon a finding that any provision of this ordinance or the condition(s) of a permit issued under this ordinance is being violated are authorized to institute legal proceedings to enjoin violations of this ordinance.

B. Fines: A person who violates the provisions of this ordinance or the condition(s) of a permit shall be guilty of a civil violation and on conviction shall be fined not less than $100 nor more than $450. Each day such violation continues, shall also be liable for court costs and reasonable attorney fees incurred by the municipality.

Section IX. Appeals

A. If the Planning Board disapproves an application or grants approval with conditions that are objectionable to the applicant or any abutting land owner or any aggrieved party, or when it is claimed that the provisions of the ordinance do not apply, or that the true intent and meaning of the ordinance has been misconstrued or wrongfully interpreted, the applicant, an abutting land owner, or aggrieved party may appeal the decision to Superior Court within thirty (30) days from the Planning Board's final decision in accordance with rule 80 D of the Maine Rules of Civil Procedure.

Section X. Amendments

A. This ordinance may be amended by a majority vote of the Town Meeting. Amendments may be initiated by a majority vote of the Planning Board or by request of the Board of Selectmen to the Planning Board or on petition of 10% of the votes cast in the last gubernatorial election in the town. The Planning Board shall conduct a public hearing on any proposed amendment.

Section XI. Definitions

A. "Hazardous Waste" is defined as waste material which is radioactive, ignitable, corrosive, reactive and/or toxic. It will include: (1) all wastes determined to be hazardous by the Resource Conservation and Recovery Act, Section 3001 and regulations promulgated pursuant to said section excluding 40 CFR 261; (2) wastes determined to be hazardous by the State Board of Environmental Protection pursuant to 38 M.R.S.A., sections 1303 and 1303A; (3) wastes defined as radioactive waste materials by 38 M.R.S.A., sections 361­1(1) (B).

B. "Planning Board" shall mean the Chesterville Planning Board.

C. "Ground Water" shall mean the water present in the saturated zone of the ground.

D. "Aquifer" shall mean geologic deposits or structures from which useable quantities of ground water are available for households, municipalities, or industries.

E. "Surface Water" shall mean a body of water whose top surface is exposed to the atmosphere including but not limited to rivers, ponds, lakes, streams, marshes, and wetlands.
F. "Hazardous Materials use, storage, or disposal permit" shall mean a certificate issued by the Chesterville Planning Board authorizing the use, storage or disposal of hazardous materials for a specific use site by a specific person, or firm and specifying such other requirements which the Planning Board finds to be necessary for the protection of the health, safety and welfare of the citizens of Chesterville.

G. "Person" shall mean any individual, group of individuals, firm, corporation, association, partnership or private or public entity, including a district, county, city, town, or other governmental unit or agent thereof, and in the case of a corporation, any individual having active and general supervision of the properties of such corporation.

H. "Household waste" means any waste material (including garbage, trash, and sanitary wastes in septic tanks) derived from households (including single and multiple residences, hotels and motels).

The Registrar of Voters will be in session at the time and place of said meeting for the purpose of correcting the list of Voters. Fail not to make due service of this warrant and to return your doings at the time and place of said meeting.

JOHN HINLEY

DAVID ARCHER

GEORGE BARKER
TOWN OF CHESTERVILLE

REGULAR LAND USE ORDINANCE

MARCH 12, 2018
TOWN OF CHESTERVILLE
REGULAR LAND USE ORDINANCE

[Does not include shoreland zoning, wet lands, water quality or floodplain management]

SECTION 1

1:1 AUTHORITY
* State law allows towns to have home rule authority as per Article VIII of the Maine Constitution and Home Rule Statute, Title 30-A M.R.S.A., Section 3001
* The town will impose all regulations that they are mandated to by State or Federal law.
* Definitions that apply to this ordinance as defined by Maine State Statute.

SECTION 2

2:1 BUILDING NOTIFICATIONS
* Required for the construction of any building or addition over 200 sq.ft.
* Required for any building moved in from off the property over 200 sq.ft.
* Required for replacement of any structures that do not meet setback requirements.
* Not required for lean-to’s or easily moved structures. [ie: greenhouses and portable garages, etc.]
* Not required for any building relocated within the boundaries of the property.
* All buildings and structures must meet minimum setback requirements except where implied.
* Any needed septic and/or plumbing permits are required.
* Notifications can be obtained from the town office at no charge.

2:2 BUILDING DEMOLITION AND RENOVATIONS
All building demolition and/or renovations will meet all State of Maine and DEP permitting regulations. [ie: Single family residences that were not used commercially or residential buildings that consist of 2-4 units constructed after 1980 do not require a demolition permit.]

2:3 LOT REQUIREMENTS
* Minimum lot size of 20,000 sq. ft. as per state law with an entrance frontage of no less than 100 ft. on any public or private road.
* No private road or right of way may reduce the lot frontage requirements. [ie: minimum of 130’ with a right of way or 150’ with private road.]

2:4 SETBACK REQUIREMENTS
* A minimum setback of 10’ from any property lines and 35’ from the center of a town or state maintained traveled way.
* Fences, steps, ramps and walkways are exempt from setback requirements with landowner assuming all responsibility and liability for those not within the minimum setbacks.
* Structures in place that do not meet the required setbacks before the effective date of this ordinance will be grandfathered for repair or replacement.
* Replacement construction notification to be made within an 18 month period from demolition of the original structure.
* Wells and septic systems shall meet the setbacks required by state and federal law.
SECTION 3

3:1 DRIVEWAYS AND ENTRANCES
*Driveway entrance as determined by road foreman for culvert size and drainage if needed will be the responsibility of the landowner. It is preferred that the town install entrance culverts provided by the landowner and assume all maintenance responsibilities. The town will also maintain entrance culverts properly installed by the landowner or their agent.
*Actual stopping sight distance in each direction from where the driveway is located on a town maintained road is required. State or state aid roads shall meet the minimum State of Maine requirements as defined in The Department of Transportation, Highway Driveway Entrance Rules.
*A 30’ right of way is required with a 12’ driving surface recommended for any driveway serving one or two back lots or back lots exempt from sub division rules as defined under Maine State Statute.

3:2 PRIVATE ROADS
*A private road for subdivisions shall have a 50’ right of way with a minimum 18’ driving surface. Private roads shall meet the same entrance requirements as driveways.

SECTION 4

4:1 MOBILE HOME PARKS
*Mobile home parks shall meet the minimum of State of Maine regulation.

4:2 SUBDIVISIONS
*Subdivisions shall meet the minimum of State of Maine regulation.

4:3 COMMERCIAL WINDMILLS AND COMMUNICATIONS TOWERS
*Commercial windmill projects and communications towers will be regulated by Maine State Law and DEP review with a public hearing.

SECTION 5

5:1 CEO AUTHORITY
*The CEO will administer all regulations of this ordinance and all regulations mandated to the town by State of Maine and/or Federal land use laws. The CEO may enter any property with just cause and permission from the landowner or occupant to check for violations of this ordinance. If permission is not granted, legal action may be taken as needed.

5:2 VARIANCES
*Variances may be granted by the Board of Appeals operating under Maine State Statute, Title 30-A Section 2691.
*Board of Appeals decisions are final other than a Superior court ruling.

5:3 VIOLATIONS
*Violations of this ordinance to be dealt with by the CEO and Board Of Selectman as deemed necessary, within reason, depending on impact factors, without creating any undue hardship.
5:4 COMPLAINTS
*Any and all complaints will be documented in writing and are public record unless a personal safety issue is determined by the CEO and Board of Selectmen.

SECTION 6

6:1 REPEAL OF PRIOR ORDINANCES
*This ordinance repeals and replaces any and all regular land use ordinances and their supplements enacted in the Town of Chesterville prior to the approval of this ordinance. Effective date of this ordinance is March 12, 2018.
Article 39

Shall an Ordinance relating to Parking of Motor or other vehicles in the Town of Chesterville be enacted:

Be it ordained and enacted by the Inhabitants of the Town of Chesterville in the County of Franklin and State of Maine:

Section I: It shall be unlawful for any person to park motor or other vehicles or leave any obstruction on any way so as to interfere with or hinder the removal of snow or the normal movement of traffic.

Section II: That a vehicle which is parked in violation of this ordinance shall be prima facie evidence of the unlawful parking of such vehicle by the person in whose name such vehicle is registered.

Section III: That an officer may cause any vehicle so parked to be removed from the way and places in a suitable parking place, at the expense of the owner of such vehicle. Neither the Town nor the officer shall be liable for any damage that may be caused by such removal.

Section IV: Every person convicted of a violation of this ordinance shall be punished by a fine of not less than ten dollars ($10.00) not more than one hundred dollars ($100.00), to be recovered by a complaint before the Maine District Court, District XII, Division of Franklin, subject however, to the rights of exception and appeal as are provided by law. All fines recovered shall be to the use and benefit of the Inhabitants of the Town of Chesterville.

Section V: That all ordinances or parts of ordinances conflicting with the provisions of this ordinance are hereby repealed in so far as the same affect this ordinance.

Section VI: That this ordinance shall take effect and be in force from after this date.

A motion was made to pass this article as read, seconded, and passed by the aye votes.

"Attest: A true copy of an ordinance entitled "Parking of Motor Vehicle or other Vehicles" for the Town of Chesterville", as certified to me by the municipal officers of Chesterville on the 7th day of March, 1977.

Signature [signature]

Town Clerk of Chesterville
Town of Chesterville Recall of Selectmen Ordinance

A. Any Selectman representing the Town of Chesterville may be recalled and removed from office by the qualified voters of the Town of Chesterville as herein provided.

B. 10 percent or more of the voters of the municipality in the last gubernatorial election may make and file with the Town Clerk an original petition containing the name, or names of the Selectman or Selectmen whose removal is sought, and a general statement of the reasons why such removal is desired. The Town Clerk shall thereupon prepare petition blanks for such removal consisting of a copy of the original petition and the general statement printed thereon or attached thereto, which petition blanks shall also contain the signature of said Town Clerk, shall contain the Town's official seal, shall be dated as of the day the petition was filed with the Town Clerk, shall be addressed to the Board of Selectmen, and shall contain the name or names of the person or persons whose removal is sought. The Town Clerk shall file said petition blanks and shall during office hours for the next 20 business days thereafter, keep the same open for signatures by qualified voters of the town. For the recall petition to be effective the signatories to the original petition combined with the signatories to the petition blanks prepared by the clerk must equal at least 20 percent of the registered voters of the town, and to every signature shall be added the place of residence of the signer giving the street and number or description sufficient to identify the place.

C. At the expiration of said 20 business days, the Town Clerk shall declare the petition closed and shall within 5 business days ascertain whether or not the petition is signed by the requisite number of voters and shall attach thereto his certificate showing the results of such examination.

D. If the petition is certified by the Town Clerk to be sufficient he shall submit the same with his certificate to the Board of Selectmen at its next meeting and shall notify in person or by regular mail the officer(s) whose removal is sought of such action. The Board of Selectmen shall within five business days of the Town Clerk's certificate call a special town meeting to be held not less than 30 nor more than 40 calendar days thereafter, for the purpose of acting on the petition, and place the petition on the
warrant for that meeting, provided that, if a regular town meeting is to occur within 60 calendar days after the receipt of said certificate, the Board of Selectmen may, in its discretion, instead place the petition on the warrant for the regular town meeting.

E. If a majority of the written ballots cast concerning the article of recall approves the recall of an elected Selectman or Selectmen, then such recall shall become effective on the day after the date of the vote; provided that the total number of written ballots casts for and against the article equals or exceeds fifty percent (50%) of the total votes cast in the municipality in the last gubernatorial election.

In the event of a successful recall, the candidate(s) to succeed the recalled Selectman or Selectmen for the balance of the unexpired term shall be determined by an election to be held within 20 days.

F. Should the Board of Selectmen fail or refuse to order an election as herein provided, such election may be called by a Notary Public in the county on written petition of a number of voters equal to 10 percent or more of the number of votes cast in the town at the last gubernatorial election, but in no case less than ten (Title 30-A MRSA Selection 2521(4.)
A TRUE COPY OF AN ORDINANCE ENTITLED
"TOWN OF CHESTERVILLE RECALL OF SELECTMAN ORDINANCE"

PASSED ON: March 27, 2017

EFFECTIVE: March 27, 2017

CERTIFIED BY: Pamela Griswold
Pamela Griswold, Town Clerk
RECYCLING ORDINANCE for the TOWN OF CHESTERVILLE

1. Title and Purpose: This ordinance shall be known as the Recycling Ordinance for the Town of Chesterville. This ordinance has several purposes: to save tax dollars, to preserve and protect environmental resources, to protect the health, safety, and welfare of the public, to enhance the quality and character of life in the Town, and to improve efforts to recover and reuse valuable resources currently being wasted.

2. Scope: This ordinance applies to all domestic, commercial, and industrial producers of solid waste in the Town of Chesterville.

3. Authority: This ordinance is adopted pursuant to the Home Rule powers granted in the Maine Constitution, 30-A M.R.S.A. section 3001 et seq., and 38 M.R.S.A. section 1301 et seq.

4. Definitions: The definitions set forth in 38 M.R.S.A. §1303-C apply to this ordinance and are incorporated herein. Any word not otherwise defined shall have its ordinary meaning.

5. Recycling Requirement: All recyclables shall be separated out and prepared for collection by a contractor designated by the Selectmen of the Town of Chesterville. Such recyclables may include but are not limited to:
   1. Clear glass containers
   2. Brown and green glass containers
   3. Number 2 (HDPE) plastic
   4. Tin & steel cans
   5. Aluminum
   6. Newspapers
   7. Brown corrugated cardboard

   The Selectmen or their duly appointed agents will publish and distribute details regarding the preparation of such recyclables to all Chesterville residents.

6. Recycling Facility at Landfill: The Town shall maintain the recycling collection roll-off container at the town landfill for the convenience of town residents. All residents not served by roadside collection shall bring their wastes to the landfill, with recyclables prepared and separated in accordance with the rules published by the Selectmen.

7. Administration and Enforcement: The Selectmen or their duly appointed agents shall administer and enforce this ordinance. The Selectmen shall adopt written regulations governing preparation and collection of recyclables and other wastes, collection schedules, containers to be used, fees to be charged, and criteria for accepting or rejecting wastes for collection. The Selectmen are hereby granted the authority to modify the requirements for preparation, separation, and collection of recyclables in response to changes in the Sandy River Recycling Association's or any other association's rules, the contractor's requirements, or other market conditions.

   The Selectmen further have the authority to negotiate and contract with any person, corporation agency, partnership, or other entity for the disposal of recyclable materials.

8. Violations: Violations of this ordinance shall be enforced in accordance with the provisions of 30-A M.R.S.A. § 4452 as land use violations, and penalties set forth therein shall apply to violations of this ordinance. In any case, the minimum penalty shall be $100.00 and the maximum penalty shall not exceed $25,000.00.

9. Power to Grant Variances and Waivers: If a person feels that extraordinary and unnecessary hardship has resulted from the strict compliance with the provisions of this ordinance, he/she may go to the selectmen to appeal any penalties which may be due.

10. Amendments: This ordinance may be amended as provided in 30-A M.R.S.A. § 3004 (4).

11. Severability and Effective Date: If any provision of this ordinance is found by a court of competent jurisdiction to be unenforceable, the remaining provisions shall continue in full force and effect. This ordinance shall become effective when adopted by a majority of the voters at any regular or special town meeting.

Shoreland Zoning Ordinance
Town of Chesterville

1. Purposes. The purposes of this Ordinance are to further the maintenance of safe and healthful conditions; to prevent and control water pollution; to protect fish spawning grounds, aquatic life, bird and other wildlife habitat; to protect buildings and lands from flooding and accelerated erosion; to protect archaeological and historic resources; to protect freshwater wetlands; to control building sites, placement of structures and land uses; to conserve shore cover, and visual as well as actual points of access to inland waters; to conserve natural beauty and open space; and to anticipate and respond to the impacts of development in shoreland areas.

2. Authority. This Ordinance has been prepared in accordance with the provisions of Title 38 sections 435-449 of the Maine Revised Statutes Annotated (M.R.S.A.).

3. Applicability. This Ordinance applies to all land areas within 250 feet, horizontal distance, of the normal high water line of a great pond, or river, within 250 feet, horizontal distance of the upland edge of a freshwater wetland; and within 75 feet, horizontal distance, of the normal high water line of a stream. This Ordinance also applies to any structure built on, over or abutting a dock, wharf or pier, or other structure extending or located below the normal high-water line of a water body or within a wetland.

4. Effective Date of Ordinance and Ordinance Amendments.

This Ordinance, which was adopted by the municipal legislative body on March 10, 1997, shall not be effective unless approved by the Commissioner of the Department of Environmental Protection. A certified copy of the Ordinance, or Ordinance Amendment, attested and signed by the Municipal Clerk, shall be forwarded to the Commissioner for approval. If the Commissioner fails to act on this Ordinance or Ordinance Amendment, within forty-five (45) days of his/her receipt of the Ordinance, or Ordinance Amendment, it shall be automatically approved. Any application for a permit submitted to the municipality within the forty-five (45) day period shall be governed by the terms of this Ordinance, or Ordinance Amendment, if the Ordinance, or Ordinance Amendment, is approved by the Commissioner.

5. Availability. A certified copy of this Ordinance shall be filed with the Municipal Clerk and shall be accessible to any member of the public. Copies shall be made available to the public at reasonable cost at the expense of the person making the request. Notice of availability of this Ordinance shall be posted.

6. Severability. Should any section or provision of this Ordinance be declared by the courts to be invalid, such decision shall not invalidate any other section or provision of the Ordinance.

7. Conflicts with Other Ordinances. Whenever a provision of this Ordinance conflicts with or is inconsistent with another provision of this Ordinance or of any other ordinance, regulation or statute administered by the municipality, the more restrictive provision shall control.

8. Amendments. This Ordinance may be amended by majority vote of the legislative body. Copies of amendments, attested and signed by the Municipal Clerk, shall be submitted to the Commissioner of

Shoreland Zoning Ordinance
Town of Chestererville
Amended: March 12, 2012
And
April 9, 2012
the Department of Environmental Protection following adoption by the municipal legislative body and shall not be effective unless approved by the Commissioner. If the Commissioner fails to act on any amendment within forty-five (45) days of his/her receipt of the amendment, the amendment is automatically approved. Any application for a permit submitted to the municipality within the forty-five (45) day period shall be governed by the terms of the amendment, if such amendment is approved by the Commissioner.

9. Districts and Zoning Map

A. Official Shoreland Zoning Map. The areas to which this Ordinance is applicable are hereby divided into the following districts as shown on the Official Shoreland Zoning Map(s) which is (are) made a part of this Ordinance:

(1) Resource Protection
(2) Limited Residential
(3) Limited Commercial
(4) General Development
(5) Stream Protection

B. Scale of Map. The Official Shoreland Zoning Map shall be drawn at a scale of not less than: 1 inch = 2000 feet. District boundaries shall be clearly delineated and a legend indicating the symbols for each district shall be placed on the map.

C. Certification of Official Shoreland Zoning Map. The Official Shoreland Zoning Map shall be certified by the attested signature of the Municipal Clerk and shall be located in the municipal office. In the event the municipality does not have a municipal office, the Municipal Clerk shall be the custodian of the map.

D. Changes to the Official Shoreland Zoning Map. If amendments, in accordance with Section 8, are made in the district boundaries or other matter portrayed on the Official Shoreland Zoning Map, such changes shall be made on the Official Shoreland Zoning Map within thirty (30) days after the amendment has been approved by the Commissioner of the Department of Environmental Protection.

10. Interpretation of District Boundaries. Unless otherwise set forth on the Official Shoreland Zoning Map, district boundary lines are property lines, the centerlines of streets, roads and rights of way, and the boundaries of the shoreland area as defined herein. Where uncertainty exists as to the exact location of district boundary lines, the Board of Appeals shall be the final authority as to location.

11. Land Use Requirements. Except as hereinafter specified, no building, structure or land shall hereafter be used or occupied, and no building or structure or part thereof shall hereafter be erected, constructed, expanded, moved, or altered and no new lot shall be created except in conformity with all of the regulations herein specified for the district in which it is located, unless a variance is granted.

A. Purpose. It is the intent of this Ordinance to promote land use conformities, except that non-conforming conditions that existed before the effective date of this Ordinance or amendments thereto shall be allowed to continue, subject to the requirements set forth in Section 12. Except as otherwise provided in this Ordinance, a non-conforming condition shall not be permitted to become more non-conforming.
B. General

(1) Transfer of Ownership. Non-conforming structures, lots, and uses may be transferred, and the new owner may continue the non-conforming use or continue to use the non-conforming structure or lot, subject to the provisions of this Ordinance.

(2) Repair and Maintenance. This Ordinance allows, without a permit, the normal upkeep and maintenance of non-conforming uses and structures including repairs or renovations that do not involve expansion of the non-conforming use or structure, and such other changes in a non-conforming use or structure as federal, state, or local building and safety codes may require.

C. Non-conforming Structures

(1) Expansions. A non-conforming structure may be added to or expanded after obtaining a permit from the same permitting authority as that for a new structure, if such addition or expansion does not increase the non-conformity of the structure and is in accordance with subparagraphs (a) and (b) below.

(a) After January 1, 1989 if any portion of a structure is less than the required setback from the normal high-water line of a water body or tributary stream or the upland edge of a wetland, that portion of the structure shall not be expanded, as measured in floor area or volume, by 30% or more, during the lifetime of the structure. If a replacement structure conforms with the requirements of Section 12(C)(3), and is less than the required setback from a water body, tributary stream or wetland, the replacement structure may not be expanded if the original structure existing on January 1, 1989 had been expanded by 30% in floor area and volume since that date.

(b) Whenever a new, enlarged, or replacement foundation is constructed under a non-conforming structure, the structure and new foundation must be placed such that the setback requirement is met to the greatest practical extent as determined by the Planning Board or its designee, basing its decision on the criteria specified in Section 12(C)(2) Relocation, below. If the completed foundation does not extend beyond the exterior dimensions of the structure, except for expansion in conformity with Section 12(C)(1)(a) above, and the foundation does not cause the structure to be elevated by more than three (3) additional feet, as measured from the uphill side of the structure (from original ground level to the bottom of the first floor sill), it shall not be considered to be an expansion of the structure.

(2) Relocation. A non-conforming structure may be relocated within the boundaries of the parcel on which the structure is located provided that the site of relocation conforms to all setback requirements to the greatest practical extent as determined by the Planning Board or its designee, and provided that the applicant demonstrates that the present subsurface sewage disposal system meets the requirements of State law and the State of Maine Subsurface Wastewater Disposal Rules (Rules), or that a new system can be installed in compliance with the law and said Rules. In no case shall a structure be relocated in a manner that causes the structure to be more non-conforming.

In determining whether the building relocation meets the setback to the greatest practical extent, the Planning Board or its designee shall consider the size of the lot, the slope of the land, the potential for soil erosion, the location of other structures on the property and on adjacent properties, the location of the septic system and other on-site soils suitable for septic systems, and the type and amount of vegetation to be removed to accomplish the relocation. When it is necessary to remove vegetation within the water or wetland setback area in order to relocate a structure, the Planning Board shall require replanting of native vegetation to compensate for the destroyed vegetation. In addition, the area from which the relocated structure was removed must be replanted with vegetation. Replanting shall be required as follows:

Shoreland Zoning Ordinance
Town of Chesterville
Amended: March 12, 2012
And
April 9, 2012
(a) Trees removed in order to relocate a structure must be replanted with at least one native tree, three (3) feet in height, for every tree removed. If more than five trees are planted, no one species of tree shall make up more than 50% of the number of trees planted. Replaced trees must be planted no further from the water or wetland than the trees that were removed.

Other woody and herbaceous vegetation, and ground cover, that are removed or destroyed in order to relocate a structure must be re-established. An area at least the same size as the area where vegetation and/or ground cover was disturbed, damaged, or removed must be reestablished within the setback area. The vegetation and/or ground cover must consist of similar native vegetation and/or ground cover that was disturbed, destroyed or removed.

(b) Where feasible, when a structure is relocated on a parcel the original location of the structure shall be replanted with vegetation which may consist of grasses, shrubs, trees, or a combination thereof.

(3) Reconstruction or Replacement. Any non-conforming structure which is located less than the required setback from a water body, tributary stream, or wetland and which is removed, or damaged or destroyed, regardless of the cause, by more than 50% of the market value of the structure before such damage, destruction or removal, may be reconstructed or replaced provided that a permit is obtained within eighteen (18) months of the date of said damage, destruction, or removal, and provided that such reconstruction or replacement is in compliance with the water body, tributary stream or wetland setback requirement to the greatest practical extent as determined by the Planning Board or its designee in accordance with the purposes of this Ordinance. In no case shall a structure be reconstructed or replaced so as to increase its non-conformity. If the reconstructed or replacement structure is less than the required setback it shall not be any larger than the original structure, except as allowed pursuant to Section 12(C)(1) above, as determined by the non-conforming floor area and volume of the reconstructed or replaced structure at its new location. If the total amount of floor area and volume of the original structure can be relocated or reconstructed beyond the required setback area, no portion of the relocated or reconstructed structure shall be replaced or constructed at less than the setback requirement for a new structure. When it is necessary to remove vegetation in order to replace or reconstruct a structure, vegetation shall be replanted in accordance with Section 12(C)(2) above.

Any non-conforming structure which is located less than the required setback from a water body, tributary stream, or wetland and which is removed by 50% or less of the market value, or damaged or destroyed by 50% or less of the market value of the structure, excluding normal maintenance and repair, may be reconstructed in place if a permit is obtained from the Code Enforcement Officer within 18 months of such damage, destruction, or removal.

In determining whether the building reconstruction or replacement meets the setback to the greatest practical extent the Planning Board or its designee shall consider, in addition to the criteria in Section 12(C)(2) above, the physical condition and type of foundation present, if any.

(4) Change of Use of a Non-conforming Structure. The use of a non-conforming structure may not be changed to another use unless the Planning Board, after receiving a written application, determines that the new use will have no greater adverse impact on the water body, tributary stream, or wetland, or on the subject or adjacent properties and resources than the existing use.

In determining that no greater adverse impact will occur, the Planning Board shall require written documentation from the applicant, regarding the probable effects on public health and safety, erosion and

Shoreland Zoning Ordinance
Town of Chesterville
Amended: March 12, 2012
And
April 9, 2012
D. Non-conforming Uses

(1) Expansions. Expansions of non-conforming uses are prohibited, except that non-conforming residential uses may, after obtaining a permit from the Planning Board, be expanded within existing residential structures or within expansions of such structures as allowed in Section 12(C)(1)(a) above.

(2) Resumption Prohibited. A lot, building or structure in or on which a non-conforming use is discontinued for a period exceeding one year, or which is superseded by a conforming use, may not again be devoted to a non-conforming use except that the Planning Board may, for good cause shown by the applicant, grant up to a one year extension to that time period. This provision shall not apply to the resumption of a use of a residential structure provided that the structure has been used or maintained for residential purposes during the preceding five (5) year period.

(3) Change of Use. An existing non-conforming use may be changed to another non-conforming use provided that the proposed use has no greater adverse impact on the subject and adjacent properties and resources, including water dependent uses in the CFMA district, than the former use, as determined by the Planning Board. The determination of no greater adverse impact shall be made according to criteria listed in Section 12(C)(4) above.

E. Non-conforming Lots

(1) Non-conforming Lots: A non-conforming lot of record as of the effective date of this Ordinance or amendment thereto may be built upon, without the need for a variance, provided that such lot is in separate ownership and not contiguous with any other lot in the same ownership, and that all provisions of this Ordinance except lot area, lot width and shore frontage can be met. Variances relating to setback or other requirements not involving lot area, lot width or shore frontage shall be obtained by action of the Board of Appeals.

(2) Contiguous Built Lots: If two or more contiguous lots or parcels are in a single or joint ownership of record at the time of adoption of this Ordinance, if all or part of the lots do not meet the dimensional requirements of this Ordinance, and if a principal use or structure exists on each lot, the non-conforming lots may be conveyed separately or together, provided that the State Minimum Lot Size Law (12 M.R.S.A. sections 4807-A through 4807-D) and the State of Maine Subsurface Wastewater Disposal Rules are complied with. If two or more principal uses or structures existed on a single lot of record on the effective date of this ordinance, each may be sold on a separate lot provided that the above referenced law and rules are complied with. When such lots are divided each lot thus created must be as conforming as possible to the dimensional requirements of this Ordinance.

(3) Contiguous Lots - Vacant or Partially Built: If two or more contiguous lots or parcels are in single or joint ownership of record at the time of or since adoption or amendment of this Ordinance, if any of these lots do not individually meet the dimensional requirements of this Ordinance or subsequent amendments, and if one or more of the lots are vacant or contain no principal structure the lots shall be combined to the extent necessary to meet the dimensional requirements.

This provision shall not apply to 2 or more contiguous lots, at least one of which is non-conforming, owned by the same person or persons on the effective date of this Ordinance and recorded in the registry of deeds if
the lot is served by a public sewer or can accommodate a subsurface sewage disposal system in conformance with the State of Maine Subsurface Wastewater Disposal Rules; and

(a) Each lot contains at least 100 feet of shore frontage and at least 20,000 square feet of lot area; or

(b) Any lots that do not meet the frontage and lot size requirements of Section 12(E)(3)(a) are reconfigured or combined so that each new lot contains at least 100 feet of shore frontage and 20,000 square feet of lot area.

13. Establishment of Districts

A. Resource Protection District. The Resource Protection District includes areas in which development would adversely affect water quality, productive habitat, biological ecosystems, or scenic and natural values. This district shall include the following areas when they occur within the limits of the shoreland zone, exclusive of the Stream Protection District, except that areas which are currently developed and areas which meet the criteria for the Limited Commercial, General Development Districts need not be included within the Resource Protection District.

1. Areas within 250 feet, horizontal distance, of the upland edge of freshwater wetlands and wetlands associated with great ponds and rivers, which are rated "moderate" or "high" value waterfowl and wading bird habitat, including nesting and feeding areas, by the Maine Department of Inland Fisheries and Wildlife (MDIF&W) that are depicted on a Geographic Information System (GIS) data layer maintained by either MDIF&W or the Department as of October 1, 2008. For the purposes of this paragraph "wetlands associated with great ponds and rivers" shall mean areas characterized by non-forested wetland vegetation and hydric soils that are contiguous with a great pond or river, and have a surface elevation at or below the water level of the great pond or river during the period of normal high water. “Wetlands associated with great ponds or rivers” are considered to be part of that great pond or river.

2. Floodplains along rivers and floodplains along artificially formed great ponds along rivers, defined by the 100 year floodplain as designated on the Federal Emergency Management Agency’s (FEMA) Flood Insurance Rate Maps or Flood Hazard Boundary Maps, or the flood of record, or in the absence of these, by soil types identified as recent floodplain soils.

3. Areas of two or more contiguous acres with sustained slopes of 20% or greater.

4. Areas of two (2) or more contiguous acres supporting wetland vegetation and hydric soils, which are not part of a freshwater as defined, and which are not surficially connected to a water body during the period of normal high water.

5. Land areas along rivers subject to severe bank erosion, undercutting, or river bed movement.

B. Limited Residential District. The Limited Residential District includes those areas suitable for residential and recreational development. It includes areas other than those in the Resource Protection District, or Stream Protection District, and areas which are used less intensively than those in the Limited Commercial District, the General Development Districts.

C. Limited Commercial District. The Limited Commercial District includes areas of mixed, light commercial and residential uses, exclusive of the Stream Protection District, which should not be developed as intensively as the General Development District. This district includes areas of two or more contiguous acres in size devoted to a mix of residential and low intensity business and commercial uses. Industrial uses are prohibited.
D. **General Development District.** The General Development District includes the following types of existing, intensively developed areas:

1. Areas of two or more contiguous acres devoted to commercial, industrial or intensive recreational activities, or a mix of such activities, including but not limited to the following:
   
   a. Areas devoted to manufacturing, fabricating or other industrial activities;
   
   b. Areas devoted to wholesaling, warehousing, retail trade and service activities, or other commercial activities; and
   
   c. Areas devoted to intensive recreational development and activities, such as, but not limited to amusement parks, race tracks and fairgrounds.

2. Areas otherwise discernible as having patterns of intensive commercial, industrial or recreational uses.

 Portions of the General Development District may also include residential development. However, no area shall be designated as a General Development District based solely on residential use.

In areas adjacent to great ponds and adjacent to rivers flowing to great ponds, the designation of an area as a General Development District shall be based upon uses existing at the time of adoption of this Ordinance. There shall be no newly established General Development Districts or expansions in area of existing General Development Districts adjacent to great ponds and adjacent to rivers that flow to great ponds.

E. **Stream Protection District.** The Stream Protection District includes all land areas within seventy-five (75) feet, horizontal distance, of the normal high-water line of a stream, exclusive of those areas within two-hundred and fifty (250) feet, horizontal distance, of the normal high-water line of a great pond, or river, or within two hundred and fifty (250) feet, horizontal distance, of the upland edge of a freshwater wetland. Where a stream and its associated shoreland area are located within two-hundred and fifty (250) feet, horizontal distance, of the above water bodies or wetlands, that land area shall be regulated under the terms of the shoreland district associated with that water body or wetland.

14. **Table of Land Uses.** All land use activities, as indicated in Table 1, Land Uses in the Shoreland Zone, shall conform with all of the applicable land use standards in Section 15. The district designation for a particular site shall be determined from the Official Shoreland Zoning Map.

**Key to Table 1:**

- **Yes** - Allowed (no permit required but the use must comply with all applicable land use standards.)
- **No** - Prohibited
- **PB** - Allowed with permit issued by the Planning Board.
- **CEO** - Allowed with permit issued by the Code Enforcement Officer
- **LPI** - Allowed with permit issued by the Local Plumbing Inspector

**Abbreviations:**

- **RP** - Resource Protection
- **GD** - General Development
- **LR** - Limited Residential
- **LC** - Limited Commercial
- **SP** - Stream Protection

1In RP allowed within 75 feet horizontal distance, of the normal high-water line of great ponds, except to remove safety hazards.
2Requires permit from the Code Enforcement Officer if more than 100 square feet of surface area, in total, is disturbed.
3In RP not allowed in areas so designated because of wildlife value.
4Provided that a variance from the setback requirement is obtained from the Board of Appeals.
5Functionally water-dependent uses and uses accessory to such water dependent uses only (see note on previous page).
6See further restrictions in Section 15(L)(2). 
7Except when area is zoned for resource protection due to floodplain criteria in which case a permit is required from the PB.
8Except as provided in Section 15(H)(3).
9Single family residential structures may be allowed by special exception only according to the provisions of Section 16(E), Special Exceptions. Two-family residential structures are prohibited.
10Except for commercial uses otherwise listed in this Table, such as marinas and campgrounds, that are allowed in the respective district.
11Excluding bridges and other crossings not involving earthwork, in which case no permit is required.
12 Permit not required but must file a written “notice of intent to construct” with CEO.

NOTE: Item 17, in its entirety, should be deleted from Table 1 if a municipality elects not to regulate “piers, docks, wharfs, bridges and other structures and uses extending over or below the normal high-water line or within a wetland”.

NOTE: A person performing any of the following activities shall require a permit from the Department of Environmental Protection, pursuant to 38 M.R.S.A. section 480-C, if the activity occurs in, on, over or adjacent to any freshwater wetland, great pond, river, stream or brook and operates in such a manner that material or soil may be washed into them:
A. Dredging, bulldozing, removing or displacing soil, sand, vegetation or other materials;
B. Draining or otherwise dewatering;
C. Filling, including adding sand or other material to a sand dune; or
D. Any construction or alteration of any permanent structure.

15. Land Use Standards. All land use activities within the shoreland zone shall conform with the following provisions, if applicable.

| Note: Municipalities should review the land use standards contained herein to determine whether they will result in a scale of development that is compatible with existing development or with the future desired scale of development. If not, more restrictive land use standards may be adopted by the municipality. |

Shoreland Zoning Ordinance
Town of Chesterville
Amended: March 12, 2012
And
April 9, 2012
Note: Municipalities should review the land use standards contained herein to determine whether they will result in a scale of development that is compatible with existing development or with the future desired scale of development. If not, more restrictive land use standards may be adopted by the municipality.

B. Principal and Accessory Structures

(1) All new principal and accessory structures shall be set back at least one hundred (100) feet, horizontal distance, from the normal high-water line of great ponds and rivers that flow to great ponds, and seventy-five (75) feet, horizontal distance, from the normal high-water line of other water bodies, tributary streams, or the upland edge of a wetland, except that in the General Development District the setback from the normal high-water line shall be at least twenty five (25) feet, horizontal distance. In the Resource Protection District the setback requirement shall be 250 feet, horizontal distance, except for structures, roads, parking spaces or other regulated objects specifically allowed in that district in which case the setback requirements specified above shall apply.

In addition:

(a) The water body, tributary stream, or wetland setback provision shall neither apply to structures which require direct access to the water body or wetland as an operational necessity, such as piers, docks and retaining walls, nor to other functionally water-dependent uses.

(b) On a non-conforming lot of record on which only a residential structure exists, and it is not possible to place an accessory structure meeting the required water body, tributary stream or wetland setbacks, the code enforcement officer may issue a permit to place a single accessory structure, with no utilities, for the storage of yard tools and similar equipment. Such accessory structure shall not exceed eighty (80) square feet in area nor eight (8) feet in height, and shall be located as far from the shoreline or tributary stream as practical and shall meet all other applicable standards, including lot coverage and vegetation clearing limitations. In no case shall the structure be located closer to the shoreline or tributary stream than the principal structure.

(2) Principal or accessory structures and expansions of existing structures which are permitted in the Resource Protection, Limited Residential, Limited Commercial, and Stream Protection Districts, shall not exceed thirty-five (35) feet in height. This provision shall not apply to structures such as transmission towers, windmills, antennas, and similar structures having no floor area.

(3) The lowest floor elevation or openings of all buildings and structures, including basements, shall be elevated at least one foot above the elevation of the 100 year flood, the flood of record, or in the absence of these, the flood as defined by soil types identified as recent flood-plain soils. In those municipalities that participate in the National Flood Insurance Program and have adopted the April 2005 version, or later version, of the Floodplain Management Ordinance, accessory structures may be placed in accordance with the standards of that ordinance and need not meet the elevation requirements of this paragraph.

The total footprint area of all structures, parking lots and other non-vegetated surfaces, within the shoreland zone shall not exceed twenty (20) percent of the lot or a portion thereof, located within the shoreland zone, including land area previously developed, except in the General Development District adjacent rivers that do not flow to great ponds, where lot coverage shall not exceed seventy (70) percent.

(4) Retaining walls that are necessary for erosion control shall meet the structure setback requirement, except for low retaining walls and associated fill provided all of the following conditions are met:
(a) The site has been previously altered and an effective vegetated buffer does not exist;

(b) The wall(s) is(are) at least 25 feet, horizontal distance, from the normal high-water line of a water body, tributary stream, or upland edge of a wetland;

(c) The site where the retaining wall will be constructed is legally existing lawn or is a site eroding from lack of naturally occurring vegetation, and which cannot be stabilized with vegetative plantings;

(d) The total height of the wall(s), in the aggregate, are no more than 24 inches;

(e) Retaining walls are located outside of the 100-year floodplain on rivers, streams, and tributary streams, as designated on the Federal Emergency Management Agency’s (FEMA) Flood Insurance Rate Maps or Flood Hazard Boundary Maps, or the flood of record, or in the absence of these, by soil types identified as recent flood plain soils.

(f) The area behind the wall is revegetated with sod, shrubs, trees, or a combination thereof, and no further structural development will occur within the setback area, including patios and decks; and

(g) A vegetated buffer area is established within 25 feet, horizontal distance, of the normal high-water line of a water body, tributary stream, or upland edge of a wetland when a natural buffer area does not exist. The buffer area must meet the following characteristics:

(i) The buffer must include shrubs and other woody and herbaceous vegetation. Where natural ground cover is lacking the area must be supplemented with leaf or bark mulch;

(ii) Vegetation plantings must be in quantities sufficient to retard erosion and provide for effective infiltration of stormwater runoff;

(iii) Only native species may be used to establish the buffer area;

(iv) There shall be no fertilizers or pesticides used to establish or maintain the buffer area.

(v) A minimum buffer width of 15 feet, horizontal distance, is required, measured perpendicularly to the normal high-water line or upland edge of a wetland;

(vi) A footpath not to exceed the standards in Section 15(P)(2)(a), may traverse the buffer.

(5) Notwithstanding the requirements stated above, stairways or similar structures may be allowed with a permit from the Code Enforcement Officer, to provide shoreline access in areas of steep slopes or unstable soils provided: that the structure is limited to a maximum of four (4) feet in width; that the structure does not extend below or over the normal high-water line of a water body or upland edge of a wetland, (unless permitted by the Department of Environmental Protection pursuant to the Natural Resources Protection Act, 38 M.R.S.A. section 480-C); and that the applicant demonstrates that no reasonable access alternative exists on the property.

C. Piers, Docks, Wharves, Bridges and Other Structures and Uses Extending Over or Below the Normal High-Water Line of a Water Body or Within a Wetland.

(1) Access from shore shall be developed on soils appropriate for such use and constructed so as to control erosion.
(2) The location shall not interfere with existing developed or natural beach areas.

(3) The facility shall be located so as to minimize adverse effects on fisheries.

(4) The facility shall be no larger in dimension than necessary to carry on the activity and be consistent with the surrounding character and uses of the area. A temporary pier, dock or wharf shall not be wider than six feet for non-commercial uses.

(5) No new structure shall be built on, over or abutting a pier, wharf, dock or other structure extending beyond the normal high-water line of a water body or within a wetland unless the structure requires direct access to the water body or wetland as an operational necessity.

(6) New permanent piers and docks shall not be permitted unless it is clearly demonstrated to the Planning Board that a temporary pier or dock is not feasible, and a permit has been obtained from the Department of Environmental Protection, pursuant to the Natural Resources Protection Act.

(7) No existing structures built on, over or abutting a pier, dock, wharf or other structure extending beyond the normal high-water line of a water body or within a wetland shall be converted to residential dwelling units in any district.

(8) Except in the General Development District, structures built on, over or abutting a pier, wharf, dock or other structure extending beyond the normal high-water line of a water body or within a wetland shall not exceed twenty (20) feet in height above the pier, wharf, dock or other structure.

Note: New permanent structures, and expansions thereof, projecting into or over water bodies shall require a permit from the Department of Environmental Protection pursuant to the Natural Resources Protection Act, 38 M.R.S.A. section 480-C. Permits may also be required from the Army Corps of Engineers if located in navigable waters.

D. Campgrounds. Campgrounds shall conform to the minimum requirements imposed under State licensing procedures and the following:

(1) Campgrounds shall contain a minimum of five thousand (5,000) square feet of land, not including roads and driveways, for each site. Land supporting wetland vegetation, and land below the normal high-water line of a water body shall not be included in calculating land area per site.

The areas intended for placement of a recreational vehicle, tent or shelter, and utility and service buildings shall be set back a minimum of one hundred (100) feet, horizontal distance, from the normal high-water line of a great pond, and seventy-five (75) feet, horizontal distance, from the normal high-water line of other water bodies, tributary streams, or the upland edge of a wetland.

E. Individual Private Campsites. Individual private campsites not associated with campgrounds are allowed provided the following conditions are met:

(1) One campsite per lot existing on the effective date of this Ordinance, or thirty thousand (30,000) square feet of lot area within the shoreland zone, whichever is less, may be permitted.

(2) Campsite placement on any lot, including the area intended for a recreational vehicle or tent platform, shall be set back one hundred (100) feet, horizontal distance, from the normal high-water line of a great pond or
river flowing to a great pond, and seventy-five (75) feet, horizontal distance, from the normal high-water line of other water bodies, tributary streams, or the upland edge of a wetland.

(3) Only one recreational vehicle shall be allowed on a campsite. The recreational vehicle shall not be located on any type of permanent foundation except for a gravel pad, and no structure except a canopy shall be attached to the recreational vehicle.

(4) The clearing of vegetation for the siting of the recreational vehicle, tent or similar shelter in a Resource Protection District shall be limited to one thousand (1000) square feet.

(5) A written sewage disposal plan describing the proposed method and location of sewage disposal shall be required for each campsite and shall be approved by the Local Plumbing Inspector. Where disposal is off-site, written authorization from the receiving facility or land owner is required.

(6) When a recreational vehicle, tent or similar shelter is placed on-site for more than one hundred and twenty (120) days per year, all requirements for residential structures shall be met, including the installation of a subsurface sewage disposal system in compliance with the State of Maine Subsurface Wastewater Disposal Rules unless served by public sewage facilities.

F. Commercial and Industrial Uses. The following new commercial and industrial uses are prohibited within the shoreland zone adjacent to great ponds, and rivers and streams which flow to great ponds:

(1) Auto washing facilities

(2) Auto or other vehicle service and/or repair operations, including body shops

(3) Chemical and bacteriological laboratories

(4) Storage of chemicals, including herbicides, pesticides or fertilizers, other than amounts normally associated with individual households or farms

(5) Commercial painting, wood preserving, and furniture stripping

(6) Dry cleaning establishments

(7) Electronic circuit assembly

(8) Laundromats, unless connected to a sanitary sewer

(9) Metal plating, finishing, or polishing

(10) Petroleum or petroleum product storage and/or sale except storage on same property as use occurs and except for storage and sales associated with marinas

(11) Photographic processing

(12) Printing

G. Parking Areas
(1) Parking areas shall meet the shoreline and tributary stream setback requirements for structures for the
district in which such areas are located. The setback requirement for parking areas serving public boat
launching facilities in Districts other than the General Development District shall be no less than fifty (50)
feet, horizontal distance, from the shoreline or tributary stream if the Planning Board finds that no other
reasonable alternative exists further from the shoreline or tributary stream.

(2) Parking areas shall be adequately sized for the proposed use and shall be designed to prevent stormwater
runoff from flowing directly into a water body, tributary stream or wetland and where feasible, to retain all
runoff on-site.

(3) In determining the appropriate size of proposed parking facilities, the following shall apply:

(a) Typical parking space: Approximately ten (10) feet wide and twenty (20) feet long, except that parking
spaces for a vehicle and boat trailer shall be forty (40) feet long.

(b) Internal travel aisles: Approximately twenty (20) feet wide.

H. Roads and Driveways. The following standards shall apply to the construction of roads and/or driveways and
drainage systems, culverts and other related features.

(1) Roads and driveways shall be set back at least one-hundred (100) feet, horizontal distance, from the normal
high-water line of a great pond or a river that flows to a great pond, and seventy-five (75) feet, horizontal
distance from the normal high-water line of other water bodies, tributary streams, or the upland edge of a
wetland unless no reasonable alternative exists as determined by the Planning Board. If no other reasonable
alternative exists, the road and/or driveway setback requirement shall be no less than fifty (50) feet,
horizontal distance, upon clear showing by the applicant that appropriate techniques will be used to prevent
sedimentation of the water body, tributary stream, or wetland. Such techniques may include, but are not
limited to, the installation of settling basins, and/or the effective use of additional ditch relief culverts and
turnouts placed so as to avoid sedimentation of the water body, tributary stream, or wetland.

On slopes of greater than twenty (20) percent the road and/or driveway setback shall be increased by ten
(10) feet, horizontal distance, for each five (5) percent increase in slope above twenty (20) percent.

Section 15 (H)(1) does not apply to approaches to water crossings or to roads or driveways that provide
access to permitted structures and facilities located nearer to the shoreline or tributary stream due to an
operational necessity, excluding temporary docks for recreational uses. Roads and driveways providing
access to permitted structures within the setback area shall comply fully with the requirements of Section
15(H)(1) except for that portion of the road or driveway necessary for direct access to the structure.

(2) Existing public roads may be expanded within the legal road right of way regardless of their setback from a
water body, tributary stream or wetland.

(3) New roads and driveways are prohibited in a Resource Protection District except that the Planning Board
may grant a permit to construct a road or driveway to provide access to permitted uses within the district. A
road or driveway may also be approved by the Planning Board in a Resource Protection District, upon a
finding that no reasonable alternative route or location is available outside the district. When a road or
driveway is permitted in a Resource Protection District the road and/or driveway shall be set back as far as
practicable from the normal high-water line of a water body, tributary stream, or upland edge of a wetland.
(4) Road and driveway banks shall be no steeper than a slope of two (2) horizontal to one (1) vertical, and shall be graded and stabilized in accordance with the provisions for erosion and sedimentation control contained in Section 15(Q).

(5) Road and driveway grades shall be no greater than ten (10) percent except for segments of less than two hundred (200) feet.

(6) In order to prevent road and driveway surface drainage from directly entering water bodies, tributary streams or wetlands, roads and driveways shall be designed, constructed, and maintained to empty onto an unscarified buffer strip at least (50) feet plus two times the average slope, in width between the outflow point of the ditch or culvert and the normal high-water line of a water body, tributary stream, or upland edge of a wetland. Surface drainage which is directed to an unscarified buffer strip shall be diffused or spread out to promote infiltration of the runoff and to minimize channelized flow of the drainage through the buffer strip.

(7) Ditch relief (cross drainage) culverts, drainage dips and water turnouts shall be installed in a manner effective in directing drainage onto unscarified buffer strips before the flow gains sufficient volume or head to erode the road, driveway, or ditch. To accomplish this, the following shall apply:

(a) Ditch relief culverts, drainage dips and associated water turnouts shall be spaced along the road, or driveway at intervals no greater than indicated in the following table:

<table>
<thead>
<tr>
<th>Grade (Percent)</th>
<th>Spacing (Feet)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-2</td>
<td>250</td>
</tr>
<tr>
<td>3-5</td>
<td>200-135</td>
</tr>
<tr>
<td>6-10</td>
<td>100-80</td>
</tr>
<tr>
<td>11-15</td>
<td>80-60</td>
</tr>
<tr>
<td>16-20</td>
<td>60-45</td>
</tr>
<tr>
<td>21+</td>
<td>40</td>
</tr>
</tbody>
</table>

(b) Drainage dips may be used in place of ditch relief culverts only where the grade is ten (10) percent or less.

(c) On sections having slopes greater than ten (10) percent, ditch relief culverts shall be placed at approximately a thirty (30) degree angle downslope from a line perpendicular to the centerline of the road or driveway.

(d) Ditch relief culverts shall be sufficiently sized and properly installed in order to allow for effective functioning, and their inlet and outlet ends shall be stabilized with appropriate materials.

(8) Ditches, culverts, bridges, dips, water turnouts and other storm water runoff control installations associated with roads and driveways shall be maintained on a regular basis to assure effective functioning.

I. Signs. The following provisions shall govern the use of signs in the Resource Protection, Stream Protection, Limited Residential and Limited Commercial Districts:
(1) Signs relating to goods and services sold on the premises shall be allowed, provided that such signs shall not exceed six (6) square feet in area and shall not exceed two (2) signs per premises. In the Limited Commercial District, however, such signs shall not exceed sixteen (16) square feet in area. Signs relating to goods or services not sold or rendered on the premises shall be prohibited.

(2) Name signs are allowed, provided such signs shall not exceed two (2) signs per premises, and shall not exceed twelve (12) square feet in the aggregate.

(3) Residential users may display a single sign not over three (3) square feet in area relating to the sale, rental, or lease of the premises.

(4) Signs relating to trespassing and hunting shall be allowed without restriction as to number provided that no such sign shall exceed two (2) square feet in area.

(5) Signs relating to public safety shall be allowed without restriction.

(6) No sign shall extend higher than twenty (20) feet above the ground.

(7) Signs may be illuminated only by shielded, non-flashing lights.

J. Storm Water Runoff

(1) All new construction and development shall be designed to minimize storm water runoff from the site in excess of the natural predevelopment conditions. Where possible, existing natural runoff control features, such as berms, swales, terraces and wooded areas, shall be retained in order to reduce runoff and encourage infiltration of stormwaters.

(2) Storm water runoff control systems shall be maintained as necessary to ensure proper functioning.

K. Septic Waste Disposal

(1) All subsurface sewage disposal systems shall be installed in conformance with the State of Maine Subsurface Wastewater Disposal Rules, and the following: A) clearing or removal of woody vegetation necessary to site a new system shall be in compliance with Section 15, Subsections O & P, and the system as well as any associated fill extensions, shall not extend closer than one hundred (100) feet, horizontal distance, from the normal high-water line of a waterbody or the upland edge of a wetland of a great pond, or seventyfive feet (75) horizontal distance from the normal high-water line of a stream. B) a holding tank is not allowed for a first-time residential use in the shoreland zone. C) Although subsurface sewerage disposal systems are defined as structures, the side and road seback requirements are not required provided the rules of the State of Maine Subsurface Wastewater Disposal Law are followed.

L. Essential Services

(1) Where feasible, the installation of essential services shall be limited to existing public ways and existing service corridors.

(2) The installation of essential services, other than road-side distribution lines, is not allowed in a Resource Protection or Stream Protection District, except to provide services to a permitted use within said district, or except where the applicant demonstrates that no reasonable alternative exists. Where allowed, such
structures and facilities shall be located so as to minimize any adverse impacts on surrounding uses and resources, including visual impacts.

(3) Damaged or destroyed public utility transmission and distribution lines, towers and related equipment may be replaced or reconstructed without a permit.

M. Mineral Exploration and Extraction.

Mineral exploration to determine the nature or extent of mineral resources shall be accomplished by hand sampling, test boring, or other methods which create minimal disturbance of less than one hundred (100) square feet of ground surface. A permit from the Code Enforcement Officer shall be required for mineral exploration which exceeds the above limitation. All excavations, including test pits and holes, shall be immediately capped, filled or secured by other equally effective measures to restore disturbed areas and to protect the public health and safety.

Mineral extraction may be permitted under the following conditions:

(1) A reclamation plan shall be filed with, and approved, by the Planning Board before a permit is granted. Such plan shall describe in detail procedures to be undertaken to fulfill the requirements of Section 15 (M)(3) below.

(2) No part of any extraction operation, including drainage and runoff control features, shall be permitted within one hundred (100) feet, horizontal distance, of the normal high-water line of a great pond, and within seventy-five (75) feet, horizontal distance, of the normal high-water line of any other water body, tributary stream, or the upland edge of a wetland. Extraction operations shall not be permitted within fifty (50) feet, horizontal distance, of any property line without written permission of the owner of such adjacent property.

(3) Within twelve (12) months following the completion of extraction operations at any extraction site, which operations shall be deemed complete when less than one hundred (100) cubic yards of materials are removed in any consecutive twelve (12) month period, ground levels and grades shall be established in accordance with the following:

   (a) All debris, stumps, and similar material shall be removed for disposal in an approved location, or shall be buried on-site. Only materials generated on-site may be buried or covered on-site.

   Note: The State of Maine Solid Waste Laws, 38 M.R.S.A., section 1301 and the solid waste management rules, Chapters 400-419 of the Department of Environmental Protection's regulations may contain other applicable provisions regarding disposal of such materials.

   (b) The final graded slope shall be two and one-half to one (2 1/2:1) slope or flatter.

   (c) Top soil or loam shall be retained to cover all disturbed land areas, which shall be reseeded and stabilized with vegetation native to the area. Additional topsoil or loam shall be obtained from off-site sources if necessary to complete the stabilization project.

(4) In keeping with the purposes of this Ordinance, the Planning Board may impose such conditions as are necessary to minimize the adverse impacts associated with mineral extraction operations on surrounding uses and resources.
N. Agriculture

(1) All spreading of manure shall be accomplished in conformance with the Manure Utilization Guidelines published by the Maine Department of Agriculture on November 1, 2001, and the Nutrient Management Law (7 M.R.S.A. sections 4201-4209).

(2) Manure shall not be stored or stockpiled within one hundred (100) feet, horizontal distance, of a great pond, or within seventy-five (75) feet horizontal distance, of other water bodies, tributary streams, or wetlands. All manure storage areas within the shoreland zone must be constructed or modified such that the facility produces no discharge of effluent or contaminated storm water.

(3) Agricultural activities involving tillage of soil greater than forty thousand (40,000) square feet in surface area, within the shoreland zone shall require a Conservation Plan to be filed with the Planning Board. Non-conformance with the provisions of said plan shall be considered to be a violation of this Ordinance.

(4) There shall be no new tilling of soil within one-hundred (100) feet, horizontal distance, of the normal high-water line of a great pond; within seventy-five (75) feet, horizontal distance, from other water bodies; nor within twenty-five (25) feet, horizontal distance, of tributary streams and freshwater wetlands. Operations in existence on the effective date of this ordinance and not in conformance with this provision may be maintained.

Newly established livestock grazing areas shall not be permitted within one hundred (100) feet, horizontal distance, of the normal high-water line of a great pond; within seventy-five (75) feet, horizontal distance, of other water bodies, nor; within twenty-five (25) feet, horizontal distance, of tributary streams and freshwater wetlands. Livestock grazing associated with ongoing farm activities, and which are not in conformance with the above setback provisions may continue, provided that such grazing is conducted in accordance with a Conservation Plan.

O. Timber Harvesting

(1) Shoreline integrity and sedimentation. Persons conducting timber harvesting and related activities must take reasonable measures to avoid the disruption of shoreline integrity, the occurrence of sedimentation of water, and the disturbance of water body and tributary stream banks, water body and tributary stream channels, shorelines, and soil lying within water bodies, tributary streams and wetlands. If, despite such precautions, the disruption of shoreline integrity, sedimentation of water, or the disturbance of water body and tributary stream banks, water body and tributary stream channels, shorelines, and soil lying within water bodies, tributary streams and wetlands occurs, such conditions must be corrected.

(2) Slash treatment. Timber harvesting and related activities shall be conducted such that slash or debris is not left below the normal high-water line of any water body or tributary stream, or the upland edge of a wetland. Section 15(O)(2) does not apply to minor, incidental amounts of slash that result from timber harvesting and related activities otherwise conducted in compliance with this section.

(a) Slash actively used to protect soil from disturbance by equipment or to stabilize exposed soil, may be left in place, provided that no part thereof extends more than 4 feet above the ground.

(b) Adjacent to great ponds, rivers and wetlands:
(i) No accumulation of slash shall be left within 50 feet, horizontal distance, of the normal high-water line or upland edge of a wetland; and

(ii) Between 50 feet and 250 feet, horizontal distance, of the normal high-water line or upland edge of a wetland, all slash larger than 3 inches in diameter must be disposed of in such a manner that no part thereof extends more than 4 feet above the ground.

(3) Timber harvesting and related activities must leave adequate tree cover and shall be conducted so that a well-distributed stand of trees is retained. This requirement may be satisfied by following options in sections (a) or (b) below. Option 3 in section (c) below may be utilized only after the effective date of statewide timber harvesting standards established under 38 M.R.S.A. section 438-B(5).

(a) Option 1 (40% volume removal), as follows:

(i) Harvesting of no more than 40 percent of the total volume on each acre of trees 4.5 inches DBH or greater in any 10 year period is allowed. Volume may be considered to be equivalent to basal area;

(ii) A well-distributed stand of trees which is windfirm, and other vegetation including existing ground cover, must be maintained; and,

(iii) Within 75 feet, horizontal distance, of the normal high-water line of rivers, streams, and great ponds, and within 75 feet, horizontal distance, of the upland edge of a freshwater or coastal wetlands, there must be no cleared openings. At distances greater than 75 feet, horizontal distance, of the normal high-water line of a river or great pond or upland edge of a wetland, timber harvesting and related activities must not create single cleared openings greater than 14,000 square feet in the forest canopy. Where such openings exceed 10,000 square feet, they must be at least 100 feet, horizontal distance, apart. Such cleared openings will be included in the calculation of total volume removal. Volume may be considered equivalent to basal area.

(b) Option 2 (60 square foot basal area retention), as follows:

(i) The residual stand must contain an average basal area of at least 60 square feet per acre of woody vegetation greater than or equal to 1.0 inch DBH, of which 40 square feet per acre must be greater than or equal to 4.5 inches DBH;

(ii) A well-distributed stand of trees which is windfirm, and other vegetation including existing ground cover, must be maintained; and,

(iii) Within 75 feet, horizontal distance, of the normal high-water line of water bodies and within 75 feet, horizontal distance, of the upland edge of wetlands, there must be no cleared openings. At distances greater than 75 feet, horizontal distance, of the normal high-water line of a river or great pond, or upland edge of a wetland, timber harvesting and related activities must not create single cleared openings greater than 14,000 square feet in the forest canopy. Where such openings exceed 10,000 square feet, they must be at least 100 feet, horizontal distance, apart. Such cleared openings will be included in the calculation of the average basal area. Volume may be considered equivalent to basal area.
(c) Option 3 (Outcome based), which requires: An alternative method proposed in an application, signed by a Licensed Forester or certified wildlife professional, submitted by the landowner or designated agent to the State of Maine Department of Conservation’s Bureau of Forestry (Bureau) for review and approval, which provides equal or better protection of the shoreland area than this rule. This option may be utilized only after the effective date of state-wide timber harvesting standards established under 38 M.R.S.A. section 438-B(5).

Landowners must designate on the Forest Operations Notification form required by 12 M.R.S.A. chapter 805, subchapter 5 which option they choose to use. If landowners choose Option 1 or Option 2, compliance will be determined solely on the criteria for the option chosen. If landowners choose Option 3, timber harvesting and related activities may not begin until the Bureau has approved the alternative method.

The Bureau may verify that adequate tree cover and a well-distributed stand of trees is retained through a field procedure that uses sample plots that are located randomly or systematically to provide a fair representation of the harvest area.

(4) Skid trails, yards, and equipment operation. This requirement applies to the construction, maintenance, and use of skid trails and yards in shoreland areas.

(a) Equipment used in timber harvesting and related activities shall not use river, stream or tributary stream channels as travel routes except when surface waters are frozen and snow covered, and the activity will not result in any ground disturbance.

(b) Skid trails and yards must be designed and constructed to prevent sediment and concentrated water runoff from entering a water body, tributary stream, or wetland. Upon termination of their use, skid trails and yards must be stabilized.

(c) Setbacks:

(i) Equipment must be operated to avoid the exposure of mineral soil within 25 feet, horizontal distance, of any water body, tributary stream, or wetland. On slopes of 10 percent or greater, the setback for equipment operation must be increased by 20 feet, horizontal distance, plus an additional 10 feet, horizontal distance, for each 5 percent increase in slope above 10 percent. Where slopes fall away from the resource, no increase in the 25-foot setback is required.

(ii) Where such setbacks are impracticable, appropriate techniques shall be used to avoid sedimentation of the water body, tributary stream or wetland. Such techniques may include the installation of sump holes or settling basins, and/or the effective use of additional ditch relief culverts and ditch water turnouts placed to avoid sedimentation of the water body, tributary stream, or wetland. If, despite such precautions, sedimentation or the disruption of shoreline integrity occurs, such conditions must be corrected.

(5) Land Management Roads. Land management roads, including approaches to crossings of water bodies, tributary stream channels, and freshwater wetlands, ditches and other related structures, must be designed, constructed, and maintained to prevent sediment and concentrated water runoff from directly entering the water body, tributary stream or wetland. Surface water on or adjacent to water crossing approaches must be diverted through vegetative filter strips to avoid sedimentation of the watercourse or wetland. Because roadside ditches may not extend to the resource being crossed, vegetative filter strips must be established in accordance with the setback requirements in Section 15(0)(7) of this rule.
(a) Land management roads and associated ditches, excavation, and fill must be set back at least:

(i) 100 feet, horizontal distance, from the normal high-water line of a great pond, river or freshwater or coastal wetland;

(ii) 50 feet, horizontal distance, from the normal high-water line of streams; and

(iii) 25 feet, horizontal distance, from the normal high-water line of tributary streams

(b) The minimum 100 foot setback specified in Section 15(O)(5)(a)(i) above may be reduced to no less than 50 feet, horizontal distance, and the 50 foot setback specified in Section 15(O)(5)(a)(ii) above may be reduced to no less than 25 feet, horizontal distance, if, prior to construction, the landowner or the landowner’s designated agent demonstrates to the Planning Board’s satisfaction that no reasonable alternative exists and that appropriate techniques will be used to prevent sedimentation of the water body, tributary stream, or wetland. Such techniques may include, but are not limited to, the installation of settling basins, and/or the effective use of additional ditch relief culverts and turnouts placed to avoid sedimentation of the water body, tributary stream or wetland. If, despite such precautions, sedimentation or the disruption of shoreline integrity occurs, such conditions must be corrected.

(c) On slopes of 10 percent or greater, the land management road setback must be increased by at least 20 feet, horizontal distance, plus an additional 10 feet, horizontal distance, for each 5 percent increase in slope above 10 percent.

(d) New land management roads are not allowed within the shoreland area along Significant River Segments as identified in 38 M.R.S.A. section 437, nor in a Resource Protection District, unless, prior to construction, the landowner or the landowner’s designated agent makes a clear demonstration to the Planning Board’s satisfaction that no reasonable alternative route exists outside the shoreland zone, and that the new road must be set back as far as practicable from the normal high-water line and screened from the river by existing vegetation.

(e) Ditches, culverts, bridges, dips, water turnouts and other water control installations associated with roads must be maintained on a regular basis to assure effective functioning. Drainage structures shall deliver a dispersed flow of water into an unscarified filter strip no less than the width indicated in the setback requirements in Section 15(O)(7). Where such a filter strip is impracticable, appropriate techniques shall be used to avoid sedimentation of the water body, tributary stream, or wetland. Such techniques may include the installation of sump holes or settling basins, and/or the effective use of additional ditch relief culverts and ditch water turnouts placed to avoid sedimentation of the water body, tributary stream, or wetland. If, despite such precautions, sedimentation or the disruption of shoreline integrity occurs, such conditions must be corrected.

(f) Road closeout and discontinuance. Maintenance of the water control installations required in Section 15(O)(5)(e) must continue until use of the road is discontinued and the road is put to bed by effective installation of water bars or other adequate road drainage structures at appropriate intervals, constructed to avoid surface water flowing over or under the water bar, and extending a sufficient distance beyond the traveled way so that water does not reenter the road surface.
(g) Upgrading existing roads. Extension or enlargement of presently existing roads must conform to the provisions of Section 15(O). Any nonconforming existing road may continue to exist and to be maintained, as long as the nonconforming conditions are not made more nonconforming.

(h) Exception. Extension or enlargement of presently existing roads need not conform to the setback requirements of Section 15(O)(5)(a) if, prior to extension or enlargement, the landowner or the landowner's designated agent demonstrates to the Planning Board's satisfaction that no reasonable alternative exists and that appropriate techniques will be used to prevent sedimentation of the water body, tributary stream, or wetland. Such techniques may include, but are not limited to, the installation of settling basins, and/or the effective use of additional ditch relief culverts and turnouts placed to avoid sedimentation of the water body, tributary stream, or wetland. If, despite such precautions, sedimentation or the disruption of shoreline integrity occurs, such conditions must be corrected.

(i) Additional measures. In addition to the foregoing minimum requirements, persons undertaking construction and maintenance of roads and river, stream and tributary stream crossings must take reasonable measures to avoid sedimentation of surface waters.

(6) Crossings of waterbodies. Crossings of rivers, streams, and tributary streams must allow for fish passage at all times of the year, must not impound water, and must allow for the maintenance of normal flows.

(b) Upgrading existing water crossings. Extension or enlargement of presently existing water crossings must conform to the provisions of Section 15(O). Any nonconforming existing water crossing may continue to exist and be maintained, as long as the nonconforming conditions are not made more nonconforming; however, any maintenance or repair work done below the normal high-water line must conform to the provisions of Section 15(O).

(c) Other Agency Permits. Any timber harvesting and related activities involving the design, construction, and maintenance of crossings on waterbodies other than a river, stream or tributary stream may require a permit from the Land Use Regulation Commission, the Department of Environmental Protection, or the US Army Corps of Engineers.

(d) Any timber harvesting and related activities involving the design, construction, and maintenance of crossings of freshwater wetlands identified by the Department of Inland Fisheries and Wildlife as essential wildlife habitat require prior consultation with the Department of Inland Fisheries and Wildlife.

(e) Notice to Bureau of Forestry. Written notice of all water crossing construction maintenance, alteration and replacement activities in shoreland areas must be given to the Bureau prior to the commencement of such activities. Such notice must contain all information required by the Bureau, including:

(i) a map showing the location of all proposed permanent crossings;
(ii) the GPS location of all proposed permanent crossings;
(iii) for any temporary or permanent crossing that requires a permit from state or federal agencies, a copy of the approved permit or permits; and
(iv) a statement signed by the responsible party that all temporary and permanent crossings will be constructed, maintained, and closed out in accordance with the requirements of this Section.

(f) Water crossing standards. All crossings of rivers require a bridge or culvert sized according to the requirements of Section 15(0)(6)(g)) below. Streams and tributary streams may be crossed using temporary structures that are not bridges or culverts provided:

(i) concentrated water runoff does not enter the stream or tributary stream;
(ii) sedimentation of surface waters is reasonably avoided;
(iii) there is no substantial disturbance of the bank, or stream or tributary stream channel;
(iv) fish passage is not impeded; and,
(v) water flow is not unreasonably impeded.

Subject to Section 15(0)(6)(f)(i-v) above, skid trail crossings of streams and tributary streams when channels of such streams and tributary streams are frozen and snow-covered or are composed of a hard surface which will not be eroded or otherwise damaged are not required to use permanent or temporary structures.

(g) Bridge and Culvert Sizing. For crossings of river, stream and tributary stream channels with a bridge or culvert, the following requirements apply:

(i) Bridges and culverts must be installed and maintained to provide an opening sufficient in size and structure to accommodate 10 year frequency water flows or with a cross-sectional area at least equal to 2 1/2 times the cross-sectional area of the river, stream, or tributary stream channel.

(ii) Temporary bridge and culvert sizes may be smaller than provided in Section 15(0)(6)(g)(i) if techniques are effectively employed such that in the event of culvert or bridge failure, the natural course of water flow is maintained and sedimentation of the water body or tributary stream is avoided. Such crossing structures must be at least as wide as the channel and placed above the normal high-water line. Techniques may include, but are not limited to, the effective use of any, a combination of, or all of the following:
   1. use of temporary skidder bridges;
   2. removing culverts prior to the onset of frozen ground conditions;
   3. using water bars in conjunction with culverts;
   4. using road dips in conjunction with culverts.

(iii) Culverts utilized in river, stream and tributary stream crossings must:
   1. be installed at or below river, stream or tributary stream bed elevation;
   2. be seated on firm ground;
   3. have soil compacted at least halfway up the side of the culvert;
   4. be covered by soil to a minimum depth of 1 foot or according to the culvert manufacturer's specifications, whichever is greater; and
   5. have a headwall at the inlet end which is adequately stabilized by riprap or other suitable means to reasonably avoid erosion of material around the culvert.

(iv) River, stream and tributary stream crossings allowed under Section 15(O), but located in flood hazard areas (i.e. A zones) as identified on a community's Flood Insurance Rate Maps (FIRM) or...
Flood Hazard Boundary Maps (FHBM), must be designed and constructed under the stricter standards contained in that community's National Flood Insurance Program (NFIP). For example, a water crossing may be required to pass a 100-year flood event.

(v) Exception. Skid trail crossings of tributary streams within shoreland areas and wetlands adjacent to such streams may be undertaken in a manner not in conformity with the requirements of the foregoing subsections provided persons conducting such activities take reasonable measures to avoid the disruption of shoreline integrity, the occurrence of sedimentation of water, and the disturbance of stream banks, stream channels, shorelines, and soil lying within ponds and wetlands. If, despite such precautions, the disruption of shoreline integrity, sedimentation of water, or the disturbance of stream banks, stream channels, shorelines, and soil lying within ponds and wetlands occurs, such conditions must be corrected.

(h) Skid trail closeout. Upon completion of timber harvesting and related activities, or upon the expiration of a Forest Operations Notification, whichever is earlier, the following requirements apply:

(i) Bridges and culverts installed for river, stream and tributary stream crossings by skid trails must either be removed and areas of exposed soil stabilized, or upgraded to comply with the closeout standards for land management roads in Section 15(O)(6)(i) below.

(ii) Water crossing structures that are not bridges or culverts must either be removed immediately following timber harvesting and related activities, or, if frozen into the river, stream or tributary stream bed or bank, as soon as practical after snowmelt.

(iii) River, stream and tributary stream channels, banks and approaches to crossings of water bodies and tributary streams must be immediately stabilized on completion of harvest, or if the ground is frozen and/or snow-covered, as soon as practical after snowmelt. If, despite such precautions, sedimentation or the disruption of shoreline integrity occurs, such conditions must be corrected.

(i) Land management road closeout. Maintenance of the water control features must continue until use of the road is discontinued and the road is put to bed by taking the following actions:

(i) Effective installation of water bars or other adequate road drainage structures at appropriate intervals, constructed to reasonably avoid surface water flowing over or under the water bar, and extending sufficient distance beyond the traveled way so that water does not reenter the road surface.

(ii) Water crossing structures must be appropriately sized or dismantled and removed in a manner that reasonably avoids sedimentation of the water body or tributary stream.

(iii) Any bridge or water crossing culvert in roads to be discontinued shall satisfy one of the following requirements:
1. it shall be designed to provide an opening sufficient in size and structure to accommodate 25 year frequency water flows;
2. it shall be designed to provide an opening with a cross-sectional area at least 3 1/2 times the cross-sectional area of the river, stream or tributary stream channel; or
3. it shall be dismantled and removed in a fashion to reasonably avoid sedimentation of the river, stream or tributary stream.

If, despite such precautions, sedimentation or the disruption of shoreline integrity occurs, such conditions must be corrected.
Filter strips, skid trail setbacks, and land management road setbacks must be maintained as specified in Section 15(O), but in no case shall be less than shown in the following table.

P. Clearing or Removal of Vegetation for Activities Other Than Timber Harvesting

(1) In a Resource Protection District abutting a great pond, there shall be no cutting of vegetation within the strip of land extending 75 feet, horizontal distance, inland from the normal high-water line, except to remove safety hazards.

Elsewhere, in any Resource Protection District the cutting or removal of vegetation shall be limited to that which is necessary for uses expressly authorized in that district.

(2) Except in areas as described in Section P(1), above, and except to allow for the development of permitted uses, within a strip of land extending one-hundred (100) feet, horizontal distance, inland from the normal high-water line of a great pond, and seventy-five (75) feet, horizontal distance, from any other water body, tributary stream, or the upland edge of a wetland, a buffer strip of vegetation shall be preserved as follows:

(a) There shall be no cleared opening greater than 250 square feet in the forest canopy (or other existing woody vegetation if a forested canopy is not present) as measured from the outer limits of the tree or shrub crown. However, a footpath not to exceed six (6) feet in width as measured between tree trunks and/or shrub stems is allowed provided that a cleared line of sight to the water through the buffer strip is not created.

(b) Selective cutting of trees within the buffer strip is allowed provided that a well-distributed stand of trees and other natural vegetation is maintained. For the purposes of Section 15(P)(2)(b) a "well-distributed stand of trees" adjacent to a great pond or a river or stream flowing to a great pond, shall be defined as maintaining a rating score of 24 or more in each 25-foot by 50-foot rectangular (1250 square feet) area as determined by the following rating system.

Shoreland Zoning Ordinance
Town of Chesterville
Amended: March 12, 2012
And
April 9, 2012
Adjacent to other water bodies, tributary streams, and wetlands, a "well-distributed stand of trees" is defined as maintaining a minimum rating score of 16 per 25-foot by 50-foot rectangular area.

The following shall govern in applying this point system:

(i) The 25-foot by 50-foot rectangular plots must be established where the landowner or lessee proposes clearing within the required buffer;
(ii) Each successive plot must be adjacent to, but not overlap a previous plot;
(iii) Any plot not containing the required points must have no vegetation removed except as otherwise allowed by this Ordinance;
(iv) Any plot containing the required points may have vegetation removed down to the minimum points required or as otherwise allowed by this Ordinance;
(v) Where conditions permit, no more than 50% of the points on any 25-foot by 50-foot rectangular area may consist of trees greater than 12 inches in diameter.

For the purposes of Section 15(P)(2)(b) “other natural vegetation” is defined as retaining existing vegetation under three (3) feet in height and other ground cover and retaining at least five (5) saplings less than two (2) inches in diameter at four and one half (4 1/2) feet above ground level for each 25-foot by 50-foot rectangle area. If five saplings do not exist, no woody stems less than two (2) inches in diameter can be removed until 5 saplings have been recruited into the plot.

Notwithstanding the above provisions, no more than 40% of the total volume of trees four (4) inches or more in diameter, measured at 4 1/2 feet above ground level may be removed in any ten (10) year period.

(c) In order to protect water quality and wildlife habitat, existing vegetation under three (3) feet in height and other ground cover, including leaf litter and the forest duff layer, shall not be cut, covered, or removed, except to provide for a footpath or other permitted uses as described in Section 15(P) paragraphs (2) and (2)(a) above.

(d) Pruning of tree branches, on the bottom 1/3 of the tree is allowed.

(e) In order to maintain a buffer strip of vegetation, when the removal of storm-damaged, diseased, unsafe, or dead trees results in the creation of cleared openings, these openings shall be replanted with native tree species unless existing new tree growth is present.

Section 15(P)(2) does not apply to those portions of public recreational facilities adjacent to public swimming areas as long as cleared areas are limited to the minimum area necessary.

(3) At distances greater than one hundred (100) feet, horizontal distance, from a great pond, and seventy-five (75) feet, horizontal distance, from the normal high-water line of any other water body, tributary stream, or the upland edge of a wetland, there shall be allowed on any lot, in any ten (10) year period, selective cutting of not more than forty (40) percent of the volume of trees four (4) inches or more in diameter, measured 4 1/2 feet above ground level. Tree removal in conjunction with the development of permitted uses shall be included in the forty (40) percent calculation. For the purposes of these standards volume may be considered to be equivalent to basal area.

In no event shall cleared openings for any purpose, including but not limited to, principal and accessory structures, driveways, lawns and sewage disposal areas, exceed in the aggregate, 25% of the lot area within the shoreland zone or ten thousand (10,000) square feet, whichever is greater, including land previously cleared. This provision shall not apply to the General Development District.
may include Maine Certified Soil Scientists, Maine Registered Professional Engineers, Maine State Certified Geologists and other persons who have training and experience in the recognition and evaluation of soil properties. The report shall be based upon the analysis of the characteristics of the soil and surrounding land and water areas, maximum ground water elevation, presence of ledge, drainage conditions, and other pertinent data which the evaluator deems appropriate. The soils report shall include recommendations for a proposed use to counteract soil limitations where they exist.

S. Water Quality. No activity shall deposit on or into the ground or discharge to the waters of the State any pollutant that, by itself or in combination with other activities or substances, will impair designated uses or the water classification of the water body, tributary stream or wetland.

T. Archaeological Site. Any proposed land use activity involving structural development or soil disturbance on or adjacent to sites listed on, or eligible to be listed on the National Register of Historic Places, as determined by the permitting authority, shall be submitted by the applicant to the Maine Historic Preservation Commission for review and comment, at least twenty (20) days prior to action being taken by the permitting authority. The permitting authority shall consider comments received from the Commission prior to rendering a decision on the application.

16. Administration

A. Administering Bodies and Agents

(1) Code Enforcement Officer. A Code Enforcement Officer shall be appointed or reappointed annually by July 1st.

(2) Board of Appeals. A Board of Appeals shall be created in accordance with the provisions of 30-A M.R.S.A. section 2691.

(3) Planning Board. A Planning Board shall be created in accordance with the provisions of State law.

B. Permits Required. After the effective date of this Ordinance no person shall, without first obtaining a permit, engage in any activity or use of land or structure requiring a permit in the district in which such activity or use would occur; or expand, change, or replace an existing use or structure; or renew a discontinued nonconforming use. A person who is issued a permit pursuant to this Ordinance shall have a copy of the permit on site while the work authorized by the permit is performed.

(1) A permit is not required for the replacement of an existing road culvert as long as:

   (a) The replacement culvert is not more than 25% longer than the culvert being replaced;

   (b) The replacement culvert is not longer than 75 feet; and

   (c) Adequate erosion control measures are taken to prevent sedimentation of the water, and the crossing does not block fish passage in the watercourse.

(2) A permit is not required for an archaeological excavation as long as the excavation is conducted by an archaeologist listed on the State Historic Preservation Officer's level 1 or level 2 approved list, and unreasonable erosion and sedimentation is prevented by means of adequate and timely temporary and permanent stabilization measures.

(3) Any permit required by this Ordinance shall be in addition to any other permit required by other law or ordinance.

Shoreland Zoning Ordinance
Town of Chesterville
Amended: March 12, 2012
And
April 9, 2012
(4) Legally existing nonconforming cleared openings may be maintained, but shall not be enlarged, except as allowed by this Ordinance.

(5) Fields and other cleared openings which have reverted to primarily shrubs, trees, or other woody vegetation shall be regulated under the provisions of Section 15(P).

Q. Erosion and Sedimentation Control

(1) All activities which involve filling, grading, excavation or other similar activities which result in unstabilized soil conditions and which require a permit shall also require a written soil erosion and sedimentation control plan. The plan shall be submitted to the permitting authority for approval and shall include, where applicable, provisions for:

(a) Mulching and revegetation of disturbed soil.

(b) Temporary runoff control features such as hay bales, silt fencing or diversion ditches.

(c) Permanent stabilization structures such as retaining walls or rip-rap.

(2) In order to create the least potential for erosion, development shall be designed to fit with the topography and soils of the site. Areas of steep slopes where high cuts and fills may be required shall be avoided wherever possible, and natural contours shall be followed as closely as possible.

(3) Erosion and sedimentation control measures shall apply to all aspects of the proposed project involving land disturbance, and shall be in operation during all stages of the activity. The amount of exposed soil at every phase of construction shall be minimized to reduce the potential for erosion.

(4) Any exposed ground area shall be temporarily or permanently stabilized within one (1) week from the time it was last actively worked, by use of riprap, sod, seed, and mulch, or other effective measures. In all cases permanent stabilization shall occur within nine (9) months of the initial date of exposure. In addition:

(a) Where mulch is used, it shall be applied at a rate of at least one (1) bale per five hundred (500) square feet and shall be maintained until a catch of vegetation is established.

(b) Anchoring the mulch with netting, peg and twine or other suitable method may be required to maintain the mulch cover.

(c) Additional measures shall be taken where necessary in order to avoid siltation into the water. Such measures may include the use of staked hay bales and/or silt fences.

(5) Natural and man-made drainage ways and drainage outlets shall be protected from erosion from water flowing through them. Drainageways shall be designed and constructed in order to carry water from a twenty five (25) year storm or greater, and shall be stabilized with vegetation or lined with riprap.

R. Soils. All land uses shall be located on soils in or upon which the proposed uses or structures can be established or maintained without causing adverse environmental impacts, including severe erosion, mass soil movement, improper drainage, and water pollution, whether during or after construction. Proposed uses requiring subsurface waste disposal, and commercial or industrial development and other similar intensive land uses, shall require a soils report based on an on-site investigation and be prepared by state-certified professionals. Certified persons...
C. Permit Application

(1) Every applicant for a permit shall submit a written application, including a scaled site plan, on a form provided by the municipality, to the appropriate official as indicated in Section 14.

(2) All applications shall be signed by an owner or individual who can show evidence of right, title or interest in the property or by an agent, representative, tenant, or contractor of the owner with authorization from the owner to apply for a permit hereunder, certifying that the information in the application is complete and correct.

(3) All applications shall be dated, and the Code Enforcement Officer or Planning Board, as appropriate, shall note upon each application the date and time of its receipt.

(4) If the property is not served by a public sewer, a valid plumbing permit or a completed application for a plumbing permit, including the site evaluation approved by the Plumbing Inspector, shall be submitted whenever the nature of the proposed structure or use would require the installation of a subsurface sewage disposal system.

D. Procedure for Administering Permits. Within 35 days of the date of receiving a written application, the Planning Board or Code Enforcement Officer, as indicated in Section 14, shall notify the applicant in writing that the application is a complete application, or, if the application is incomplete, that specified additional material is needed to make the application complete. The Planning Board or the Code Enforcement Officer, as appropriate, shall approve, approve with conditions, or deny all permit applications in writing within 35 days of receiving a completed application. However, if the Planning Board has a waiting list of applications, a decision on the application shall occur within 35 days after the first available date on the Planning Board's agenda following receipt of the completed application, or within 35 days of the public hearing, if the proposed use or structure is found to be in conformity with the purposes and provisions of this Ordinance.

The applicant shall have the burden of proving that the proposed land use activity is in conformity with the purposes and provisions of this Ordinance.

After the submission of a complete application to the Planning Board, the Board shall approve an application or approve it with conditions if it makes a positive finding based on the information presented that the proposed use:

(1) Will maintain safe and healthful conditions;

(2) Will not result in water pollution, erosion, or sedimentation to surface waters;

(3) Will adequately provide for the disposal of all wastewater;

(4) Will not have an adverse impact on spawning grounds, fish, aquatic life, bird or other wildlife habitat;

(5) Will conserve shore cover and visual, as well as actual, points of access to inland waters;

(6) Will protect archaeological and historic resources as designated in the comprehensive plan;

(7) Will avoid problems associated with floodplain development and use; and

(8) Is in conformance with the provisions of Section 15, Land Use Standards.

Shoreland Zoning Ordinance
Town of Chesterville
Amended: March 12, 2012
And
April 9, 2012

29
If a permit is either denied or approved with conditions, the reasons as well as conditions shall be stated in writing. No approval shall be granted for an application involving a structure if the structure would be located in an unapproved subdivision or would violate any other local ordinance, or regulation or statute administered by the municipality.

E. Special Exceptions. In addition to the criteria specified in Section 16(D) above, excepting structure setback requirements, the Planning Board may approve a permit for a single family residential structure in a Resource Protection District provided that the applicant demonstrates that all of the following conditions are met:

(1) There is no location on the property, other than a location within the Resource Protection District, where the structure can be built.

(2) The lot on which the structure is proposed is undeveloped and was established and recorded in the registry of deeds of the county in which the lot is located before the adoption of the Resource Protection District.

(3) All proposed buildings, sewage disposal systems and other improvements are:

   (a) Located on natural ground slopes of less than 20%; and

   (b) Located outside the floodway of the 100-year flood-plain along rivers and artificially formed great ponds along rivers based on detailed flood insurance studies and as delineated on the Federal Emergency Management Agency's Flood Boundary and Floodway Maps and Flood Insurance Rate Maps; all buildings, including basements, are elevated at least one foot above the 100-year flood-plain elevation; and the development is otherwise in compliance with any applicable municipal flood-plain ordinance.

   If the floodway is not shown on the Federal Emergency Management Agency Maps, it is deemed to be 1/2 the width of the 100-year flood-plain.

(4) The total ground-floor area, including cantilevered or similar overhanging extensions, of all principal and accessory structures is limited to a maximum of 1,500 square feet. This limitation shall not be altered by variance.

(5) All structures, except functionally water-dependent structures, are set back from the normal high-water line of a water body, tributary stream or upland edge of a wetland to the greatest practical extent, but not less than 75 feet, horizontal distance. In determining the greatest practical extent, the Planning Board shall consider the depth of the lot, the slope of the land, the potential for soil erosion, the type and amount of vegetation to be removed, the proposed building site's elevation in regard to the flood-plain, and its proximity to moderate-value and high-value wetlands.

F. Expiration of Permit. Permits shall expire one year from the date of issuance if a substantial start is not made in construction or in the use of the property during that period. If a substantial start is made within one year of the issuance of the permit, the applicant shall have one additional year to complete the project, at which time the permit shall expire.

G. Installation of Public Utility Service. A public utility, water district, sanitary district or any utility company of any kind may not install services to any new structure located in the shoreland zone unless written authorization attesting to the validity and currency of all local permits required under this or any previous Ordinance has been issued by the appropriate municipal officials or other written arrangements have been made between the municipal officials and the utility.
H. Appeals

(1) Powers and Duties of the Board of Appeals. The Board of Appeals shall have the following powers:

(a) Administrative Appeals: To hear and decide administrative appeals, on an appellate basis, where it is alleged by an aggrieved party that there is an error in any order, requirement, decision, or determination made by, or failure to act by, the Planning Board in the administration of this Ordinance; and to hear and decide administrative appeals on a de novo basis where it is alleged by an aggrieved party that there is an error in any order, requirement, decision or determination made by, or failure to act by, the Code Enforcement Officer in his or her review of and action on a permit application under this Ordinance. Any order, requirement, decision or determination made, or failure to act, in the enforcement of this ordinance is not appealable to the Board of Appeals.

(b) Variance Appeals: To authorize variances upon appeal, within the limitations set forth in this Ordinance.

(2) Variance Appeals. Variances may be granted only under the following conditions:

(a) Variances may be granted only from dimensional requirements including, but not limited to, lot width, structure height, percent of lot coverage, and setback requirements.

(b) Variances shall not be granted for establishment of any uses otherwise prohibited by this Ordinance.

(c) The Board shall not grant a variance unless it finds that:

(i) The proposed structure or use would meet the provisions of Section 15 except for the specific provision which has created the non-conformity and from which relief is sought; and

(ii) The strict application of the terms of this Ordinance would result in undue hardship. The term "undue hardship" shall mean:

a. That the land in question cannot yield a reasonable return unless a variance is granted;

b. That the need for a variance is due to the unique circumstances of the property and not to the general conditions in the neighborhood;

c. That the granting of a variance will not alter the essential character of the locality; and

d. That the hardship is not the result of action taken by the applicant or a prior owner.

(d) Notwithstanding Section 16(H)(2)(c)(ii) above, the Board of Appeals may grant a variance to an owner of a residential dwelling for the purpose of making that dwelling accessible to a person with a disability who resides in or regularly uses the dwelling. The board shall restrict any variance granted under this subsection solely to the installation of equipment or the construction of structures necessary for access to or egress from the dwelling by the person with the disability. The board may impose conditions on the variance, including limiting the variance to the duration of the disability or to the time that the person with the disability lives in the dwelling. The term “structures necessary for access to or egress from the dwelling” shall include railing, wall or roof systems necessary for the safety or effectiveness of the structure.
(e) The Board of Appeals shall limit any variances granted as strictly as possible in order to ensure conformance with the purposes and provisions of this Ordinance to the greatest extent possible, and in doing so may impose such conditions to a variance as it deems necessary. The party receiving the variance shall comply with any conditions imposed.

(f) A copy of each variance request, including the application and all supporting information supplied by the applicant, shall be forwarded by the municipal officials to the Commissioner of the Department of Environmental Protection at least twenty (20) days prior to action by the Board of Appeals. Any comments received from the Commissioner prior to the action by the Board of Appeals shall be made part of the record and shall be taken into consideration by the Board of Appeals.

(3) Administrative Appeals

When the Board of Appeals reviews a decision of the Code Enforcement Officer the Board of Appeals shall hold a “de novo” hearing. At this time the Board may receive and consider new evidence and testimony, be it oral or written. When acting in a “de novo” capacity the Board of Appeals shall hear and decide the matter afresh, undertaking its own independent analysis of evidence and the law, and reaching its own decision.

When the Board of Appeals hears a decision of the Planning Board, it shall hold an appellate hearing, and may reverse the decision of the Planning Board only upon finding that the decision was contrary to specific provisions of the Ordinance or contrary to the facts presented to the Planning Board. The Board of Appeals may only review the record of the proceedings before the Planning Board. The Board of Appeals shall not receive or consider any evidence which was not presented to the Planning Board, but the Board of Appeals may receive and consider written or oral arguments. If the Board of Appeals determines that the record of the Planning Board proceedings are inadequate, the Board of Appeals may remand the matter to the Planning Board for additional fact finding.

(4) Appeal Procedure

(a) Making an Appeal

(i) An administrative or variance appeal may be taken to the Board of Appeals by an aggrieved party from any decision of the Code Enforcement Officer or the Planning Board, except for enforcement-related matters as described in Section 16(H)(1)(a) above. Such an appeal shall be taken within thirty (30) days of the date of the official, written decision appealed from, and not otherwise, except that the Board, upon a showing of good cause, may waive the thirty (30) day requirement.

(ii) Applications for appeals shall be made by filing with the Board of Appeals a written notice of appeal which includes:

a. A concise written statement indicating what relief is requested and why the appeal or variance should be granted.

b. A sketch drawn to scale showing lot lines, location of existing buildings and structures and other physical features of the lot pertinent to the relief sought.

(iii) Upon receiving an application for an administrative appeal or a variance, the Code Enforcement Officer or Planning Board, as appropriate, shall transmit to the Board of Appeals all of the papers constituting the record of the decision appealed from.
(iv) The Board of Appeals shall hold a public hearing on an administrative appeal or a request for a variance within thirty-five (35) days of its receipt of a complete written application, unless this time period is extended by the parties.

(b) Decision by Board of Appeals

(i) A majority of the full voting membership of the Board shall constitute a quorum for the purpose of deciding an appeal.

(ii) The person filing the appeal shall have the burden of proof.

(iii) The Board shall decide all administrative appeals and variance appeals within thirty-five (35) days after the close of the hearing, and shall issue a written decision on all appeals.

(iv) The Board of Appeals shall state the reasons and basis for its decision, including a statement of the facts found and conclusions reached by the Board. The Board shall cause written notice of its decision to be mailed or hand-delivered to the applicant and to the Department of Environmental Protection within seven (7) days of the Board’s decision. Copies of written decisions of the Board of Appeals shall be given to the Planning Board, Code Enforcement Officer, and the municipal officers.

(5) Appeal to Superior Court. Except as provided by 30-A M.R.S.A. section 2691(3)(F), any aggrieved party who participated as a party during the proceedings before the Board of Appeals may take an appeal to Superior Court in accordance with State laws within forty-five (45) days from the date of any decision of the Board of Appeals.

(6) Reconsideration. In accordance with 30-A M.R.S.A. section 2691(3)(F), the Board of Appeals may reconsider any decision within forty-five (45) days of its prior decision. A request to the Board to reconsider a decision must be filed within ten (10) days of the decision that is being reconsidered. A vote to reconsider and the action taken on that reconsideration must occur and be completed within forty-five (45) days of the date of the vote on the original decision. Reconsideration of a decision shall require a positive vote of the majority of the Board members originally voting on the decision, and proper notification to the landowner, petitioner, planning board, code enforcement officer, and other parties of interest, including abutters and those who testified at the original hearing(s). The Board may conduct additional hearings and receive additional evidence and testimony. Appeal of a reconsidered decision to Superior Court must be made within fifteen (15) days after the decision on reconsideration.

I. Enforcement

(1) Nuisances. Any violation of this Ordinance shall be deemed to be a nuisance.

(2) Code Enforcement Officer

(a) It shall be the duty of the Code Enforcement Officer to enforce the provisions of this Ordinance. If the Code Enforcement Officer shall find that any provision of this Ordinance is being violated, he or she shall notify in writing the person responsible for such violation, indicating the nature of the violation and ordering the action necessary to correct it, including discontinuance of illegal use of land, buildings or structures, or work being done, removal of illegal buildings or structures, and abatement of nuisance conditions. A copy of such notices shall be submitted to the municipal officers and be maintained as a permanent record.
(b) The Code Enforcement Officer shall conduct on-site inspections to insure compliance with all applicable laws and conditions attached to permit approvals. The Code Enforcement Officer shall also investigate all complaints of alleged violations of this Ordinance.

(c) The Code Enforcement Officer shall keep a complete record of all essential transactions of the office, including applications submitted, permits granted or denied, variances granted or denied, revocation actions, revocation of permits, appeals, court actions, violations investigated, violations found, and fees collected. On a biennial basis, a summary of this record shall be submitted to the Director of the Bureau of Land and Water Quality within the Department of Environmental Protection.

(3) Legal Actions. When the above action does not result in the correction or abatement of the violation or nuisance condition, the Municipal Officers, upon notice from the Code Enforcement Officer, are hereby directed to institute any and all actions and proceedings, either legal or equitable, including seeking injunctions of violations and the imposition of fines, that may be appropriate or necessary to enforce the provisions of this Ordinance in the name of the municipality. The municipal officers, or their authorized agent, are hereby authorized to enter into administrative consent agreements for the purpose of eliminating violations of this Ordinance and recovering fines without Court action. Such agreements shall not allow an illegal structure or use to continue unless there is clear and convincing evidence that the illegal structure or use was constructed or conducted as a direct result of erroneous advice given by an authorized municipal official and there is no evidence that the owner acted in bad faith, or unless the removal of the structure or use will result in a threat or hazard to public health and safety or will result in substantial environmental damage.

(4) Fines. Any person, including but not limited to a landowner, a landowner's agent or a contractor, who violates any provision or requirement of this Ordinance shall be penalized in accordance with 30-A, M.R.S.A. section 4452.

17. Definitions.

Accessory structure or use - a use or structure which is incidental and subordinate to the principal use or structure. Accessory uses, when aggregated, shall not subordinate the principal use of the lot. A deck or similar extension of the principal structure or a garage attached to the principal structure by a roof or a common wall is considered part of the principal structure.

Aggrieved party - an owner of land whose property is directly or indirectly affected by the granting or denial of a permit or variance under this Ordinance; a person whose land abuts land for which a permit or variance has been granted; or any other person or group of persons who have suffered particularized injury as a result of the granting or denial of such permit or variance.

Agriculture - the production, keeping or maintenance for sale or lease, of plants and/or animals, including but not limited to: forages and sod crops; grains and seed crops; dairy animals and dairy products; poultry and poultry products; livestock; fruits and vegetables; and ornamental and green-house products. Agriculture does not include forest management and timber harvesting activities.

Aquaculture - the growing or propagation of harvestable freshwater, estuarine, or marine plant or animal species.

Back Lot: a deeded parcel of land which does not have any frontage on a Town accepted road and/or frontage along a private road or lacks the required frontage for the district of which it is located in.

Basal Area - the area of cross-section of a tree stem at 4 1/2 feet above ground level and inclusive of bark.
Basement - any portion of a structure with a floor-to-ceiling height of 6 feet or more and having more than 50% of its volume below the existing ground level.

Boat Launching Facility - a facility designed primarily for the launching and landing of watercraft, and which may include an access ramp, docking area, and parking spaces for vehicles and trailers.

Bureau - State of Maine Department of Conservation’s Bureau of Forestry

Campground - any area or tract of land to accommodate two (2) or more parties in temporary living quarters, including, but not limited to tents, recreational vehicles or other shelters.

Canopy - the more or less continuous cover formed by tree crowns in a wooded area.

Commercial: The use of lands, buildings, or structures, other than a “home occupation”, defined below, the intent and result of which activity is the production of income from the buying and selling of goods and/or services, exclusive of rental of residential buildings and/or dwelling units.

Commercial use - the use of lands, buildings, or structures, other than a "home occupation," defined below, the intent and result of which activity is the production of income from the buying and selling of goods and/or services, exclusive of rental of residential buildings and/or dwelling units.

Cross-sectional area - the cross-sectional area of a stream or tributary stream channel is determined by multiplying the stream or tributary stream channel width by the average stream or tributary stream channel depth. The stream or tributary stream channel width is the straight line distance from the normal high-water line on one side of the channel to the normal high-water line on the opposite side of the channel. The average stream or tributary stream channel depth is the average of the vertical distances from a straight line between the normal high-water lines of the stream or tributary stream channel to the bottom of the channel.

DBH - the diameter of a standing tree measured 4.5 feet from ground level.

Development - a change in land use involving alteration of the land, water or vegetation, or the addition or alteration of structures or other construction not naturally occurring.

Dimensional requirements - numerical standards relating to spatial relationships including but not limited to setback, lot area, shore frontage and height.

Disability - any disability, infirmity, malformation, disfigurement, congenital defect or mental condition caused by bodily injury, accident, disease, birth defect, environmental conditions or illness; and also includes the physical or mental condition of a person which constitutes a substantial handicap as determined by a physician or in the case of mental handicap, by a psychiatrist or psychologist, as well as any other health or sensory impairment which requires special education, vocational rehabilitation or related services.

Disruption of shoreline integrity - the alteration of the physical shape, properties, or condition of a shoreline at any location by timber harvesting and related activities. A shoreline where shoreline integrity has been disrupted is recognized by compacted, scarified and/or rutted soil, an abnormal channel or shoreline cross-section, and in the case of flowing waters, a profile and character altered from natural conditions.
Driveway - a vehicular access-way less than five hundred (500) feet in length serving two single-family dwellings or one two-family dwelling, or less.

Emergency operations - operations conducted for the public health, safety or general welfare, such as protection of resources from immediate destruction or loss, law enforcement, and operations to rescue human beings, property and livestock from the threat of destruction or injury.

Essential services - gas, electrical or communication facilities; steam, fuel, electric power or water transmission or distribution lines, towers and related equipment; telephone cables or lines, poles and related equipment; gas, oil, water, slurry or other similar pipelines; municipal sewage lines, collection or supply systems; and associated storage tanks. Such systems may include towers, poles, wires, mains, drains, pipes, conduits, cables, fire alarms and police call boxes, traffic signals, hydrants and similar accessories, but shall not include service drops or buildings which are necessary for the furnishing of such services.

Expansion of a structure - an increase in the floor area or volume of a structure, including all extensions such as, but not limited to: attached decks, garages, porches and greenhouses.

Expansion of use - the addition of one or more months to a use's operating season; or the use of more floor area or ground area devoted to a particular use.

Family - one or more persons occupying a premises and living as a single housekeeping unit.

Floodway - the channel of a river or other watercourse and adjacent land areas that must be reserved in order to discharge the 100-year flood without cumulatively increasing the water surface elevation by more than one foot in height.

Floor area - the sum of the horizontal areas of the floor(s) of a structure enclosed by exterior walls, plus the horizontal area of any unenclosed portions of a structure such as porches and decks.

Forest management activities - timber cruising and other forest resource evaluation activities, pesticide or fertilizer application, management planning activities, timber stand improvement, pruning, regeneration of forest stands, and other similar or associated activities, exclusive of timber harvesting and the construction, creation or maintenance of roads.

Forest Stand - a contiguous group of trees sufficiently uniform in age class distribution, composition, and structure, and growing on a site of sufficiently uniform quality, to be a distinguishable unit.

Foundation - the supporting substructure of a building or other structure, excluding wooden sills and post supports, but including basements, slabs, frostwalls, or other base consisting of concrete, block, brick or similar material.

Freshwater wetland - freshwater swamps, marshes, bogs and similar areas, other than forested wetlands, which are:

1. Of ten or more contiguous acres; or of less than 10 contiguous acres and adjacent to a surface water body, excluding any river, stream or brook, such that in a natural state, the combined surface area is in excess of 10 acres; and
2. Inundated or saturated by surface or ground water at a frequency and for a duration sufficient to support, and which under normal circumstances do support, a prevalence of wetland vegetation typically adapted for life in saturated soils.

Freshwater wetlands may contain small stream channels or inclusions of land that do not conform to the criteria of this definition.

**Functionally water-dependent uses** - those uses that require, for their primary purpose, location on submerged lands or that require direct access to, or location in, inland waters and that can not be located away from these waters. The uses include, but are not limited to commercial and recreational fishing and boating facilities, excluding recreational boat storage buildings, finfish and shellfish processing, fish storage and retail and wholesale fish marketing facilities, waterfront dock and port facilities, shipyards and boat building facilities, marinas, navigation aids, basins and channels, retaining walls, industrial uses dependent upon water-borne transportation or requiring large volumes of cooling or processing water that can not reasonably be located or operated at an inland site, and uses that primarily provide general public access to inland waters.

**Great pond** - any inland body of water which in a natural state has a surface area in excess of ten acres, and any inland body of water artificially formed or increased which has a surface area in excess of thirty (30) acres except for the purposes of this Ordinance, where the artificially formed or increased inland body of water is completely surrounded by land held by a single owner.

**Ground cover** - small plants, fallen leaves, needles and twigs, and the partially decayed organic matter of the forest floor.

**Harvest Area** - the area where timber harvesting and related activities, including the cutting of trees, skidding, yarding, and associated road construction take place. The area affected by a harvest encompasses the area within the outer boundaries of these activities, excepting unharvested areas greater than 10 acres within the area affected by a harvest.

**Height of a structure** - the vertical distance between the mean original (prior to construction) grade at the downhill side of the structure and the highest point of the structure, excluding chimneys, steeples, antennas, and similar appurtenances that have no floor area.

**Home occupation** - an occupation or profession which is customarily conducted on or in a residential structure or property and which is 1) clearly incidental to and compatible with the residential use of the property and surrounding residential uses; and 2) which employs no more than two (2) persons other than family members residing in the home.

**Increase in nonconformity of a structure** - any change in a structure or property which causes further deviation from the dimensional standard(s) creating the nonconformity such as, but not limited to, reduction in water body, tributary stream or wetland setback distance, increase in lot coverage, or increase in height of a structure. Property changes or structure expansions which either meet the dimensional standard or which cause no further increase in the linear extent of nonconformance of the existing structure shall not be considered to increase nonconformity. For example, there is no increase in nonconformity with the setback requirement for water bodies, wetlands, or tributary streams if the expansion extends no further into the required setback area than does any portion of the existing nonconforming structure. Hence, a structure may be expanded laterally provided that the expansion extends no closer to the water body, tributary stream, or wetland than the closest portion of the existing structure from that water body, tributary stream, or wetland. Included in this allowance are expansions which in-fill irregularly shaped structures.

**Individual private campsite** - an area of land which is not associated with a campground, but which is developed for repeated camping by only one group not to exceed ten (10) individuals and which involves site improvements which may include but not be limited to a gravel pad, parking area, fire place, or tent platform.
Industrial - The assembling, fabrication, finishing, manufacturing, packaging or processing of goods, or the extraction of minerals.

Institutional - a non-profit or quasi-public use, or institution such as a church, library, public or private school, hospital, or municipally owned or operated building, structure or land used for public purposes.

Land Management Road - a route or track consisting of a bed of exposed mineral soil, gravel, or other surfacing materials constructed for, or created by, the passage of motorized vehicles and used primarily for timber harvesting and related activities, including associated log yards, but not including skid trails or skid roads.

Lean-to: A wooden or metal structure with 3 walls or less with no permanent floor utilized for storage.

Licensed Forester - a forester licensed under 32 M.R.S.A. Chapter 76.

Lot area - The area of land enclosed within the boundary lines of a lot, minus land below the normal high-water line of a water body or upland edge of a wetland and areas beneath roads serving more than two lots.

Marina - a business establishment having frontage on navigable water and, as its principal use, providing for hire offshore moorings or docking facilities for boats, and which may also provide accessory services such as boat and related sales, boat repair and construction, indoor and outdoor storage of boats and marine equipment, bait and tackle shops and marine fuel service facilities.

Market value - the estimated price a property will bring in the open market and under prevailing market conditions in a sale between a willing seller and a willing buyer, both conversant with the property and with prevailing general price levels.

Mineral exploration - hand sampling, test boring, or other methods of determining the nature or extent of mineral resources which create minimal disturbance to the land and which include reasonable measures to restore the land to its original condition.

Mineral extraction - any operation within any twelve (12) month period which removes more than one hundred (100) cubic yards of soil, topsoil, loam, sand, gravel, clay, rock, peat, or other like material from its natural location and to transport the product removed, away from the extraction site.

Minimum lot width - the closest distance between the side lot lines of a lot. When only two lot lines extend into the shoreland zone, both lot lines shall be considered to be side lot lines.

Multi-unit residential - a residential structure containing three (3) or more residential dwelling units.

Native - indigenous to the local forests.

Non-conforming condition - non-conforming lot, structure or use which is allowed solely because it was in lawful existence at the time this Ordinance or subsequent amendment took effect.

Non-conforming lot - a single lot of record which, at the effective date of adoption or amendment of this Ordinance, does not meet the area, frontage, or width requirements of the district in which it is located.

Non-conforming structure - a structure which does not meet any one or more of the following dimensional requirements; setback, height, or lot coverage, but which is allowed solely because it was in lawful existence at the time this Ordinance or subsequent amendments took effect.
Non-conforming use - use of buildings, structures, premises, land or parts thereof which is not allowed in the district in which it is situated, but which is allowed to remain solely because it was in lawful existence at the time this Ordinance or subsequent amendments took effect.

Normal high-water line - that line which is apparent from visible markings, changes in the character of soils due to prolonged action of the water or changes in vegetation, and which distinguishes between predominantly aquatic and predominantly terrestrial land. Areas contiguous with rivers and great ponds that support non-forested wetland vegetation and hydric soils and that are at the same or lower elevation as the water level of the river or great pond during the period of normal high-water are considered part of the river or great pond.

Party- An individual, a corporation, a governmental agency, a municipality, a trust, and estate, a partnership, an association, two or more individuals having joint or common interest, or any other legal entity.

Permanent: Structures which remain in or over the water for seven (7) months or more in any period of twelve (12) consecutive months.

Person – See “Party”

Piers, docks, wharves, bridges and other structures and uses extending over or beyond the normal high-water line or within a wetland.

Principal structure - a building other than one which is used for purposes wholly incidental or accessory to the use of another building or use on the same premises.

Principal use - a use other than one which is wholly incidental or accessory to another use on the same premises.

Property Line – A line dividing a parcel of land from another.

Property Line, Rear – The line opposite the line that forms the lot frontage or the shore frontage.

Property Line, Side – Any property line that is not a rear property line or that does not form the lot frontage or the shore frontage.

Public facility - any facility, including, but not limited to, buildings, property, recreation areas, and roads, which are owned, leased, or otherwise operated, or funded by a governmental body or public entity.

Recent floodplain soils - the following soil series as described and identified by the National Cooperative Soil Survey:

- Fryeburg
- Lovewell
- Alluvial
- Podunk
- Suncook
- Hadley
- Medomak
- Cornish
- Runney
- Sunday
- Limerick
- Ondawa
- Charles
- Saco
- Winooski

Recreational facility - a place designed and equipped for the conduct of sports, leisure time activities, and other customary and usual recreational activities, excluding boat launching facilities.

Recreational vehicle - a vehicle or an attachment to a vehicle designed to be towed, and designed for temporary sleeping or living quarters for one or more persons, and which may include a pick-up camper, travel trailer, tent trailer, camp
trailer, and motor home. In order to be considered as a vehicle and not as a structure, the unit must remain with its tires on the ground, and must be registered with the State Division of Motor Vehicles.

Replacement system - a system intended to replace: 1.) an existing system which is either malfunctioning or being upgraded with no significant change of design flow or use of the structure, or 2.) any existing overboard wastewater discharge.

Residential dwelling unit - a room or group of rooms designed and equipped exclusively for use as permanent, seasonal, or temporary living quarters for only one family at a time, and containing cooking, sleeping and toilet facilities. The term shall include mobile homes and rental units that contain cooking, sleeping, and toilet facilities regardless of the time-period rented. Recreational vehicles are not residential dwelling units.

Residual basal area - the average of the basal area of trees remaining on a harvested site.

Residual Stand - a stand of trees remaining in the forest following timber harvesting and related activities

Right-of-Way - An easement for vehicular access and pedestrian access.

Right-of-Way Line - The outer limits of the traveled way of a driveway or road or the limits of the easement of a driveway or road, where defined.

Riprap - rocks, irregularly shaped, and at least six (6) inches in diameter, used for erosion control and soil stabilization, typically used on ground slopes of two (2) units horizontal to one (1) unit vertical or less.

River - a free-flowing body of water including its associated floodplain wetlands from that point at which it provides drainage for a watershed of twenty five (25) square miles to its mouth.

Road - a route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing material constructed for or created by the repeated passage of motorized vehicles, excluding a driveway as defined.

Road, Private - A route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing material constructed for or created by the repeated passage of motorized vehicles, excluding a driveway as defined, not accepted by the voters of the town.

Road, Public - 1. A route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing material constructed for or created by the repeated passage of motorized vehicles, excluding a driveway as defined, accepted by the voters of the town. 2. Any State or County Road.

Seasonal Use: Structures, roads, driveways, etc., that are utilized for 120 days or less within a calendar year.

Service drop - any utility line extension which does not cross or run beneath any portion of a water body provided that:

1. in the case of electric service
   a. the placement of wires and/or the installation of utility poles is located entirely upon the premises of the customer requesting service or upon a roadway right-of-way; and
   b. the total length of the extension is less than one thousand (1,000) feet.

2. in the case of telephone service
a. the extension, regardless of length, will be made by the installation of telephone wires to existing utility poles, or

b. the extension requiring the installation of new utility poles or placement underground is less than one thousand (1,000) feet in length.

Setback - the nearest horizontal distance from the normal high-water line of a water body or tributary stream, or upland edge of a wetland, to the nearest part of a structure, road, parking space or other regulated object or area.

Shore frontage - the length of a lot bordering on a water body or wetland measured in a straight line between the intersections of the lot lines with the shoreline.

Shoreland zone - the land area located within two hundred and fifty (250) feet, horizontal distance, of the normal high-water line of any great pond or river; within 250 feet; within 250 feet of the upland edge of a freshwater wetland; or within seventy-five (75) feet, horizontal distance, of the normal high-water line of a stream.

Shoreline - the normal high-water line, or upland edge of a freshwater wetland.

Skid Road or Trail - a route repeatedly used by forwarding machinery or animal to haul or drag forest products from the stump to the yard or landing, the construction of which requires minimal excavation.

Slash - the residue, e.g., treetops and branches, left on the ground after a timber harvest.

Stream - a free-flowing body of water from the outlet of a great pond or the confluence of two (2) perennial streams as depicted on the most recent edition of a United States Geological Survey 7.5 minute series topographic map, or if not available, a 15-minute series topographic map, to the point where the body of water becomes a river or flows to another water body or wetland within the shoreland area.

Structure - anything built for the support, shelter or enclosure of persons, animals, goods or property of any kind, together with anything constructed or erected with a fixed location on or in the ground, exclusive of fences, poles, wiring and other aerial equipment normally associated with service drops as well as guyed and guy anchors. The term includes structures temporarily or permanently located, such as decks, patios, and satellite dishes.

Substantial start - completion of thirty (30) percent of a permitted structure or use measured as a percentage of estimated total cost.

Subsurface sewage disposal system - any system designed to dispose of waste or waste water on or beneath the surface of the earth; includes, but is not limited to: septic tanks; disposal fields; grandfathered cesspools; holding tanks; pretreatment filter, piping, or any other fixture, mechanism, or apparatus used for those purposes; does not include any discharge system licensed under 38 M.R.S.A. section 414, any surface waste water disposal system, or any municipal or quasi-municipal sewer or waste water treatment system.

Sustained slope - a change in elevation where the referenced percent grade is substantially maintained or exceeded throughout the measured area.

Temporary: Structures which remain in or over the water for less than seven (7) months in any period of twelve (12) consecutive months.

Timber harvesting - the cutting and removal of timber for the primary purpose of selling or processing forest products. The cutting or removal of trees in the shoreland zone on a lot that has less than two (2) acres within the shoreland zone shall not be considered timber harvesting. Such cutting or removal of trees shall be regulated pursuant to Section 15 (P), Clearing or Removal of Vegetation for Activities Other Than Timber Harvesting.
**Windfirm** - the ability of a forest stand to withstand strong winds and resist windthrow, wind rocking, and major breakage.

**Woody Vegetation** - live trees or woody, non-herbaceous shrubs.

**Year-Around-Use:** Structures, roads, driveways, etc., that are utilized for more than 120 days a calendar year.

**Zoning Line:** A line separating the Shoreland Zone from other land in the Town.
APPPOINTMENT OF TOWN CLERK AND TAX COLLECTOR ORDINANCE

FOR THE

TOWN OF CHESTERVILLE

ENACTED: MARCH 6, 1995

"Attest: A true copy of an ordinance entitled "Appointment of Town Clerk and Tax Collector."

[Signature]

Town Clerk
TOWN OF CHESTERVILLE ORDINANCE
APPOINTMENT OF TOWN CLERK AND TAX COLLECTOR

1. Purpose. To change the offices of Town Clerk and Tax Collector from elected to appointed, and to make related provisions.

2. Town Clerk and Tax Collector to be Appointed; initial appointment—when effective. The offices of Town Clerk and Tax Collector shall not be elective but shall be filled by appointment made by the municipal officers. The initial appointments shall be made not before but within thirty days after the first annual town meeting held not less than ninety days after the meeting that enacts this ordinance. Both initially and thereafter, the municipal officers may in their discretion appoint one person to hold both offices.

3. Term of office; probationary period. The municipal officers may appoint the Clerk and the Tax Collector for a term of one, two, or three town years, such that the appointment will expire with the adjournment of an annual town meeting, and successive appointments may also be for a term of not more than three years. The first six months of the initial term for an individual shall constitute a probationary period, but the municipal officers, in their discretion but in writing, may specify a shorter probationary period or may waive the period entirely. The initial appointment, regardless of the term specified, and any and all other rights of continued appointment or employment, may be terminated by the municipal officers without hearing or cause at any time within any probationary period established by this ordinance or by the municipal officers pursuant to this ordinance. Where the same person has been appointed to both offices, a termination of either appointment shall operate to terminate the other, effective immediately, and that person shall have no further right or entitlement to either office or to the emoluments of either, nor to any continued employment March 6, 1995 in either capacity, nor to the perquisites of employment in either capacity.

4. Removal from office. After the expiration of any probationary period pursuant to this ordinance, the municipal officers may remove the Town Clerk or Tax Collector from office only for cause, after notice and hearing. Such removal shall constitute not only a removal from office but also a termination of employment, unless the municipal officers specify otherwise in their decision. If a person holding both of these offices is removed from one of them, the person affected shall be deemed to have vacated the other office held, effective immediately, and shall have no further right or entitlement to either office or to the emoluments of either, nor to any continued employment in either capacity, nor to the perquisites of employment in either capacity.

5. Compensation. The municipal officers shall determine the compensation of the Town Clerk and Tax Collector. (The town meeting shall determine the compensation of the Town Clerk and Tax Collector.)

6. Prohibited appointments. No former selectman, for a period of one year after the end of the term for which he or she shall have been elected, (nor spouse of a municipal officer in office,) shall be appointed to either position.
7. Interim vacancy. When a vacancy arises in either or both offices, the municipal officers may appoint a person to serve on an interim basis, for initial and renewal terms as short as the municipal officers think appropriate in the circumstances, such as week to week. Such initial and renewal terms may, also in the municipal officers’ discretion, be of varying length.

8. Severability. If any part of this ordinance is found unlawful by a court of competent jurisdiction, then the remainder of it shall not fail, but shall remain in effect to the extent the court can give effect to it in order to carry out the purpose for which it is enacted.

9. Effective date. This ordinance shall take effect immediately upon final adjournment of the town meeting or election at which it is enacted, and shall apply beginning with the first annual town meeting held not less than ninety days after the date of its enactment.

Appointment of Town Clerk and Tax Collector Ordinance passed at Town Meeting
March 6, 1995
TOWN OF CHESTERVILLE ORDINANCE
APPOINTMENT OF TREASURER

1. Purpose. To change the office of Treasurer from elected to appointed, and to make related provisions.

2. Treasurer to be Appointed; initial appointment—when effective. The office of Treasurer shall not be elective but shall be filled by appointment made by the municipal officers. The initial appointment shall be made not before but within thirty days after the first annual town meeting held not less than ninety days after the meeting that enacts this ordinance. Initially thereafter, the municipal officers may in their discretion appoint a person to hold office.

3. Term of office; probationary period. The municipal officers may appoint the Treasurer for a term of one, two, or three town years, such that the appointment will expire with the adjournment of an annual town meeting, and successive appointments may also be for a term of not more than three years. The first six months of the initial term for an individual shall constitute a probationary period, but the municipal officers, in their discretion but in writing, may specify a shorter probationary period or may waive the period entirely. The initial appointment, regardless of the term specified, and any and all other rights of continued appointment or employment, may be terminated by the municipal officers without hearing or cause at any time within any probationary period established by this ordinance or by the municipal officers pursuant to this ordinance effective immediately, and that person shall have no further right or entitlement to the Treasurer’s office or to the emoluments, nor to any continued employment in this capacity, nor to the perquisites of employment in this capacity.

4. Removal from office. After the expiration of any probationary period pursuant to this ordinance, the municipal officers may remove the Treasurer from office only for cause, after notice and hearing. Such removal shall constitute not only a removal from office but also a termination of employment, unless the municipal officers specify otherwise in their decision. If a person holding this office is removed they shall have no further right or entitlement to the emoluments, nor to any continued employment in this capacity, nor to the perquisites of employment.

5. Compensation. The municipal officers shall determine the compensation of the Treasurer. (The town meeting shall determine the compensation of the Treasurer.)

6. Prohibited appointments. No former selectman, for a period of one year after the end of the term for which he or she shall have been elected, (nor spouse of a municipal officer in office,) shall be appointed to this position.

7. Interim vacancy. When a vacancy arises in this office, the municipal officers may appoint a person to serve on an interim basis, for initial and renewal terms as short as the municipal officers think appropriate in the circumstances, such as week to week. Such initial and renewal terms may, also in the municipal officers‘ discretion, be of varying length.
8. Severability. If any part of this ordinance is found unlawful by a court of competent jurisdiction, then the remainder of it shall not fail, but shall remain in effect to the extent the court can give effect to it in order to carry out the purpose for which it is enacted.

9. Effective date. This ordinance shall take effect immediately upon final adjournment of the town meeting or election at which it is enacted, and shall apply beginning with the first annual town meeting held not less than ninety days after the date of its enactment.

ENACTED: March 8, 2004

PURPOSE

The Legislature has declared “that the protection of ground water resources is critical to promote the health, safety and general welfare of the people of the state... and further finds and declares that ground water resources are endangered by unwise uses and land use practices”.

“The legislature finds that sand and gravel aquifers and all ground water are important public and private resources for drinking water supplies and other industrial, commercial and agricultural uses. All ground water is particularly susceptible to contamination by pollutants and, once polluted, may not recover for hundreds of years.”

Title 30-A of the Maine Revised Statutes grants municipalities all powers necessary to protect the health, safety and welfare of its residents. All residents of the Town of Chesterville possess a fundamental right to access, use, consume and preserve water to sustain life within the town.

WATER EXTRACTION

No corporation, business or persons shall engage in groundwater withdrawals for commercial sale in the Town of Chesterville without the approval of a town meeting/ballot vote by the citizens. A yes vote of a majority is needed to pass and allow water to be extracted. If passed, the permitting process will be handled at the state level.

POTENTIAL CONTAMINANTS IN EXTRACTION SITES

The following requirements apply only to commercial operations. All fuels or hazardous materials of more than 100 gallons must be stored within a spill-proof secondary containment with sufficient capacity to contain 110% of the volume of the single largest container. Oil changes on mobile equipment must take place over impervious surfaces. Routine maintenance operations are allowed for fixed equipment, such as screens, crushers and wash facilities, provided that precautionary measures such as portable drip pans or vacuum devices are used. No persons, or equipment shall discharge, or permit the discharge of any treated, untreated or inadequately treated liquid, gaseous or solid materials of such nature, quantity, toxicity or temperature that will run off, seep, percolate or wash into surface or ground waters so as to contaminate, pollute, or harm such waters or be harmful to human, plant, animal or aquatic life.

This requirement does not include subsurface wastewater storage systems such as approved septic systems and gray water systems.

MINERAL EXTRACTION

Existing mineral extraction pits may be expanded only in accordance with State Law, existing state permits, and the Town of Chesterville Water Protection Ordinance. Mineral, soil, and gravel extraction may be permitted only after an Extraction permit for such operation has been issued by the Planning Board. Although a site under (5) five acres does not require a site plan, they must fill out the permit and submit it to the Planning Board to insure they are familiar with the Town of Chesterville’s Water Ordinance (existing extraction sites under (5) five acres are exempt from a. and c. under Mineral Extraction.). Such a permit may only be issued provided that:
a. A site plan is submitted by the applicant and approved by the Planning Board showing existing grades in the area from which the materials are to be removed and finished grades at the conclusion of the operations.

b. When the removal of materials is completed, the finished grade [slope is to be (3) three to (1) one unless approved by the Planning Board in no case to be less than (2) two to (1) one], as specified in the plan and approved, is to be covered with not less than (4) four inches of topsoil and seeded with (90) ninety percent suitable cover crop except where ledge is exposed.

c. Funds sufficient to satisfy the Planning Board in the amount sufficient to recover costs typically required for reclamation and/or damages, must be posted with the town to guarantee conformance with the requirements of the permit and this Ordinance.

d. No excavation may occur within (5) five feet of the high water table without a waiver or variance granted by the Planning Board/Appeals Board. No ditches, trenches, pumping or other methods shall be used to lower the water table to permit more gravel or other mineral extraction than could occur under natural conditions.

e. A (200) two hundred foot separation must be maintained between an excavation and private drinking water supply, or (1000) one thousand feet from public drinking water supply that is point-driven or dug, or an existing septic field, that was in existence prior to the excavation. A (100) one hundred foot separation must be maintained between an excavation and a private drinking water supply, or (1000) one thousand feet from public drinking water supply that is drilled into saturated bedrock and was in existence prior to excavation.

f. If the extraction site is (5) five acres or larger a natural buffer strip at least (100) one hundred feet wide must be maintained between an excavation and any property boundary. A (100) one hundred foot buffer must be maintained if the pit is under (5) five acres. This natural buffer may be reduced on pits under (5) acres to (10) feet with written permission from the abutter, except a (25) twenty five foot natural buffer must be maintained from the boundary of a cemetery or burial ground. Any written permission remains in effect until mining is complete and must be recorded in the Registry of Deeds.

For existing mineral extraction pits that are currently closer to a property line setback or buffer than stated in Section “f” above, the applicant may maintain the same distance or buffer for the permitted area provided it is in compliance with State Law. Any new expansion of the footprint shall follow the rules of Section “f” and all other requirements of the Water Quality Ordinance. The Planning Board may require a professional surveyor to determine the existing distance of the mineral extraction pit to property lines and/or the buffer.

g. No oiling of the road for dust control shall be permitted. Dust generated by activities at an extraction site must be controlled by sweeping, paving, watering or other best management practices for control of fugitive emissions.

h. Appropriate fencing or landscaping may be required to screen the site of digging from any public right of way and from any dwelling within (250) two hundred and fifty feet of the property lines of the excavation site.
i. No part of any excavation operation, including drainage and runoff control features, shall be permitted within (100) one hundred feet horizontal distance of the normal high water line of a Great Pond and within (75) seventy five feet, horizontal distance of a normal high water line of any other water body, tributary, or upland edge of a wetland.

j. Existing mineral extraction pits are permitted to dig no deeper than five (5) feet above the high water table. Digging deeper than five feet above the water table constitutes a vertical expansion and is prohibited under Section “d” without a waiver and/or variance as granted by the Planning Board/Appeals Board. Vertical expansions must comply with section “d”.

For existing mineral extraction pits with a footprint under five (5) acres that are currently below five feet of the high water table, the applicant may maintain the same depth for the existing area. Any new expansion shall follow the rules of Section “d” and all other requirements of the Water Quality Ordinance. The Planning Board may require a professional engineer to determine the existing depth of the mineral extraction pit.

Horizontal excavation outside the approved footprint constitutes an expansion. Horizontal expansion causes the existing pit to fall under the ordinance, requiring a permit from the Chesterville Planning Board. Horizontal expansion must comply with Sections “f” and “i”.

k. The operator of a mineral extraction operation that affects either a private or public drinking water supply by contamination, interruption, or diminution must restore or replace the affected water supply with an alternate source of water adequate in quantity and quality for the purpose served by the supply. The operator will also be held financially responsible for the testing necessary to determine the contamination, interruption, or diminution.

l. This ordinance does not regulate Farm Ponds or Frog Ponds.

**APPLICATION PROCESS**

An application for excavation for a permit shall be filed with the Planning Board and accompanied by the application fee as established by the Planning Board. Within (30) thirty days the Planning Board may hold a public hearing. The Planning Board shall publish the time, date, and place of the hearing set by the town meeting post requirements. The applicant shall notify the abutting owners by registered or certified mail of the public hearing. The applicant must provide proof to the Planning Board of such notification at or prior to the public hearing.

The Planning Board, within thirty days from the public hearing or within sixty days of receiving a complete application, if no hearing is held, shall make written findings of the fact, conclusions relative to the review criteria in this Ordinance. If the Planning Board finds that all criteria have been met, they shall approve the application. If the Planning board finds that any of the criteria have not been met, the Planning board shall deny the application or approve the application with conditions to ensure all criteria will be met. The reasons for any conditions shall be stated in written findings of fact and conclusions.
WAIVERS
Where the Planning Board makes written findings of fact and the applicant can show that such requirements are not relevant to the proposed project or will suffer an undue economic or other hardship if the requirements of this ordinance are strictly applied, it may waive the necessity for strict compliance with the application requirements and/or review criteria of this ordinance in order to provide relief to permit a more practical and economical development, provided, however, that the public health, safety, and welfare will not be compromised, and further provided that the waivers in question will not have the effect of nullifying this ordinance.

In granting waivers to any of these requirements the Planning Board shall require such conditions as will assure that the objectives of this ordinance are met.

When the Board grants a waiver to any of the improvements required by this ordinance, the final plan shall indicate the waiver(s) granted and the date on which it (they) was (were) granted.

APPEALS
An appeal may be taken to the Board of Appeals by an aggrieved party from any decision of the CEO or the PB, except for enforcement-related matters. Such an appeal shall be taken within thirty (30) days of the date of the official, written decision appealed from, and not otherwise, except that the Board, upon a showing of good cause, may waive the thirty (30) day requirement.

When the Board of Appeals reviews a decision of the CEO the Board of Appeals shall hold a “de novo” hearing. At this time the Board may receive and consider new evidence and testimony, be it oral or written. When acting in a “de novo” capacity the Board of Appeals shall hear and decide the matter afresh, undertaking its own independent analysis of evidence and the law, and reaching its own decision.

When the Board of Appeals hears a decision of the Planning Board, it shall hold an appellate hearing, and may reverse the decision of the Planning Board only upon finding that the decision was contrary to specific provisions of the Ordinance or contrary to the facts presented to the Planning Board. The Board of Appeals may only review the record of the proceedings before the Planning Board. The Board of Appeals shall not receive or consider any evidence which was not presented to the Planning Board, but the Board of Appeals may receive and consider written or oral arguments. If the Board of Appeals determines that the record of the Planning Board proceedings are inadequate, the Board of Appeals may remand the matter to the Planning Board for additional fact finding.

Except as provided by 30-A M.R.S.A. section 2691(3)(F), any aggrieved party who participated as a party during the proceedings before the Board of Appeals may take an appeal to Superior Court in accordance with State laws within forty-five (45) days from the date of any decision of the Board of Appeals.
ENFORCEMENT

NUISANCES: Any violation of this Ordinance shall be deemed to be a nuisance.

CODE ENFORCEMENT OFFICER

It shall be the duty of the Code Enforcement Officer to enforce the provisions of this Ordinance. If the Code Enforcement Officer shall find that any provision of this Ordinance is being violated, he or she shall notify in writing the person responsible for such violation, indicating the nature of the violation and ordering the action necessary to correct it. A copy of such notices shall be submitted to the municipal officers and be maintained as a permanent record.

The Code Enforcement Officer shall conduct on-site inspections to insure compliance with all applicable laws and conditions attached to permit approvals. The Code Enforcement Officer shall also investigate all complaints of alleged violations of this Ordinance. The Code Enforcement Officer shall keep a complete record of all essential transactions of the office, including applications submitted, permits granted or denied, variances granted or denied, revocation actions, revocation of permits, appeals, court actions, violations investigated, violations found, and fees collected.

LEGAL ACTIONS

When the above action does not result in the correction or abatement of the violation or nuisance condition, the Municipal Officers, upon notice from the Code Enforcement Officer, are hereby directed to institute any and all actions and proceedings, either legal or equitable, including seeking injunctions of violations and the imposition of fines, that may be appropriate or necessary to enforce the provisions of this Ordinance in the name of the municipality. The municipal officers, or their authorized agent, are hereby authorized to enter into administrative consent agreements for the purpose of eliminating violations of this Ordinance and recovering fines without Court action. Such agreements shall not allow an illegal structure or use to continue unless there is clear and convincing evidence that the illegal structure or use was constructed or conducted as a direct result of erroneous advice given by an authorized municipal official and there is no evidence that the owner acted in bad faith, or unless the removal of the structure or use will result in a threat or hazard to public health and safety or will result in substantial environmental damage.

FINES

Any person, including but not limited to a landowner, a landowner’s agent or a contractor, who violates any provision or requirement of this Ordinance shall be penalized in accordance with 30-A, M.R.S.A. section 4452.

AMENDMENTS

This ordinance may be amended by a majority vote of the town meeting. Amendments may be initiated by a majority vote of the Planning Board, by request of Selectmen to the Planning Board, or on petition of a number of voters equal to or greater than ten (10) percent of the votes cast in the last gubernatorial election in the town. The Planning Board shall conduct a public hearing on any proposed amendment.

VALIDITY AND SEVERABILITY

Should any article or provision of this ordinance be declared by any court to be invalid, such decision shall not invalidate any other article or provision of this ordinance.
CONFLICT WITH OTHER ORDINANCES
Whenever the requirements of this ordinance are inconsistent with the requirements of any other ordinance, code, or statute, the more restrictive requirements shall apply.

EFFECTIVE DATE
The effective date of this Ordinance is the date of its adoption at either a town meeting or by an election. Permits are in effect until extracting is complete.

APPLICATION REQUIREMENTS
An application for excavation permit shall consist of the following:

a. Name and address of the property owner.
b. Name and address of operator of excavation if different from the property owner.
c. Right, title or interest in the property.
d. Names and addresses of all people owning property abutting the subject property.

NOTE: Water extraction permits STOP HERE; applicants only need to fill out a. through d. of the permitting process at the town level. The remainder of the water extraction permitting process will be handled at the State level after voter approval.

e. A site plan at scale of not less than (1) one inch = (100) one hundred feet with the following information:
   1. Boundaries of the subject property.
   2. Existing wells, rivers, brooks, streams, freshwater wetland and depth of groundwater as by determined by test boring, wells or pits.
   3. Existing site features such as fields, wooded areas, structures, roads and driveways.
   4. Residents and wells within (250) two hundred and fifty feet of subject property.
   5. Existing and proposed excavation sites including acreage, phasing, depth of excavation and final grades.
   6. Locations of proposed access and any roads to be constructed within the site and sight distances of intersection or access with a public road.
   7. Improvements for the control of drainage, sedimentation and erosion.
   8. Removal plan for all oils/hazardous waste from excavation site when mining is complete.

f. Proposed rehabilitation plan including temporary and final seeding, planting and permanent drainage improvements.

g. Spill prevention and cleanup controls for hazardous materials.
h. A plan for screening excavation from direct view from residents and public roads.
i. Estimate of the costs rehabilitating the site when excavation is complete.

REVIEW CRITERIA
The Planning board shall approve an application for excavation if it finds that the proposed operation:

a. Will not unreasonably result in unsafe or unhealthful conditions.
b. Will not unreasonably result in erosion or sedimentation.
c. Will not unreasonably result in water pollution nor adversely affect existing groundwater, springs, ponds, rivers, brooks or streams.
d. Will not adversely affect public ways.
e. Will not adversely affect surrounding properties.
f. Is in conformance with this ordinance.
DEFINITIONS

Abutter - The owner of any property with at least one common boundary or point, or across the road, driveway or stream from the property in an application or appeal.

Brooks- (see definition of Streams and Brooks)

Commercial Operations - Any activity which involves the buying or selling of goods or services, or the exchange or attempt or offer to exchange goods or services for money, barter, or for anything of value.

Damages - Loss or harm to property.

Expansion/Expanded - Excavation operation that exceed the approved area footprint.

Extraction - Any operation within any (12) twelve month period which removes more than (500) five hundred cubic yards of soil, topsoil, loam, sand, gravel, clay, rock, peat, or other like material from its natural location and transports the removed material away from the extraction site.

Farm/Frog Pond - A water impoundment made by constructing a dam or embankment or by excavating a pit or "dug out" not larger than (1) one acre for the purpose of serving livestock or decoration.

Freshwater Wetland- Means fresh water swamps, marshes, bogs and similar areas which are:
1. Inundated or saturated by surface or ground water at a frequency and for a duration sufficient to support, and which under normal circumstances do support, a prevalence of wetland vegetation typically adapted for life in saturated soils; and
2. Not considered part of great pond, river, stream or brook.
These areas may contain small stream channels or inclusions of land that do not conform to the criteria.

Freshwater wetland (Shoreland Zone) - Freshwater swamps, marshes, bogs and similar areas, other than forested wetlands, which are:
1. Of ten or more contiguous acres; or of less than 10 contiguous acres and adjacent to a surface water body, excluding any river, stream or brook, such that in a natural state, the combined surface area is in excess of 10 acres; and
2. Inundated or saturated by surface or ground water at a frequency and for duration sufficient to support, and which under normal circumstances do support, a prevalence of wetland vegetation typically adapted for life in saturated soils.
Freshwater wetlands may contain small stream channels or inclusions of land that do not conform to the criteria of this definition.

Great Pond - Any inland body of water which in a natural state has a surface area in excess of ten acres, and any inland body of water artificially formed or increased which has a surface area in excess of thirty (30) thirty acres except for the purposes of this Ordinance, where the artificially formed or increased inland body of water is completely surrounded by land held by a single owner.
High Water Table - As determined by a registered soil scientist, certified site evaluator, or licensed professional engineer.

Natural Buffer Strip - "Natural buffer strip" means an undisturbed area or belt of land that is covered with trees or other vegetation.

Normal High Water Line- The line that marks the limit of the soil so affected by water of a lake or river as to have a nature and vegetation distinct from that of the banks. That line which is apparent from visible markings, changes in the character of soils due to prolonged action of the water or changes in vegetation, and which distinguishes between predominantly aquatic and predominantly terrestrial land.

Private Drinking Water Supply – Surface water supply, a dug well, a spring or a hole drilled, driven or bored into the earth that is used to extract drinking water for human consumption and that is not part of the public drinking water supply.

Private Road - A route or track consisting of a bed of exposed mineral soil, gravel, asphalt, or other surfacing material constructed for or created by the repeated passage of motorized vehicles, excluding a driveway as defined, not accepted by the voters of the town.

Property Line – A line dividing a parcel of land from another.

Property Line, Rear – The line opposite the line that forms the lot frontage or the shore frontage.

Property Line, Side – Any property line that is not a rear property line or that does not form the lot frontage or the shore frontage.

Public Drinking Water Source – Any groundwater well or any surface water source that directly serves a water distribution system that has at least (15) fifteen service connections or regularly services an average of at least (25) twenty five individuals daily for at least (60) sixty days of the year.

Roads - Any State or County Road. Roads which are maintained by the Town of Chesterville, the State of Maine and/or County.

Reclamation. "Reclamation" means the rehabilitation of the area of land affected by mining, including, but not limited to, the stabilization of slopes and creation of safety benches, the planting of forests, the seeding of grasses and legumes for grazing purposes, the planting of crops for harvest, the enhancement of wildlife and aquatic habitat and aquatic resources and the development of the site for residential, commercial, recreational or industrial use.

Right-of-Way – An easement for vehicular access and pedestrian access.

Right-of-Way Line – The outer limits of the traveled way of a driveway or road or the limits of the easement of a driveway or road, where defined.

River (Shoreland Zone) A free-flowing body of water including its associated floodplain wetlands from that point at which it provides drainage for a watershed of (25) twenty five square miles to its mouth.

Setback - The nearest horizontal distance from the normal high-water line of a water body or tributary stream, or upland edge of a wetland, to the nearest part of a structure, road, parking space or other regulated object or area.
Shoreland Zone - The land area located within (250) two hundred and fifty feet, horizontal distance, of the normal high-water line of any great pond or river; within (250) two hundred and fifty feet of the upland edge of a freshwater wetland; or within seventy-five (75) seventy-five feet, horizontal distance, of the normal high-water line of a stream.

Shoreline – The normal high-water line, or upland edge of a freshwater wetland.

Streams and Brooks (Shoreland Zone)- A free-flowing body of water from the outlet of a great pond or the confluence of two (2) perennial streams as depicted on the most recent edition of a United States Geological Survey 7.5 minute series topographic map, or if not available, a 15-minute series topographic map, to the point where the body of water becomes a river or flows to another water body or wet lands within the shoreland area.
