EXPLANATION

Following is an explanation of the change in the apportionment of the several school funds:- The Mill tax act was passed and approved Feb. 29, 1872, but the fund was not apportioned until 1873. For this reason it has been apportioned each year one year later than the school year in which it was raised by the State. The same applies to the Common School fund and the Equalization fund. On notice from the State Supt. of schools that these funds must be expended in the school year in which they are raised and upon his suggestion, the amount of the several funds has been carried to one school fund and the undrawn balance is to be used within the next few years.

REMARKS

We have worked throughout the year to make the schools the best possible. A graded course of study was introduced in all the schools with varying success. The text books purchased were absolutely necessary to make all books uniform and to replace very many which were wornout.

\$200.00 raised for text books will pay outstanding bills and buy some more which are necessary. The Supt. made 66 visits to the different schools and put in 450 hours of actual service in school work.

Respectfully submitted,

Walter A. Smith, Supt. of Schools.
