Gray Town Council

Fellow citizens,

Once again, we have had a good year in our community. Many people have come together to help with the Libby Hill project to create one of the finest nature and open space systems in the area.

At midterm, we had a change in management. I hope that you will take the time to meet and welcome Mitch and Sally Berkowitz to town.

Many plans have been laid out over this past year to keep up with and control the growth of Gray for the future. The Council as well as all town committees have worked together to keep Gray a clean,

safe and well-managed community for us all to live in and enjoy. Having been involved in town government for four years, I've developed a deep respect for our employees. It's their hard work that keeps us all on the move.

I'd like to thank you all for your support during my term, and I hope to be able to serve you all again in the future.

God Bless,
Mark Sanborn, Chair, Gray Town Council

Annual Report from the Town Manager

Dear Citizens of Gray:

This will be my first annual report to you. It covers the full year ending June 30, 2001. If this year were to have a label, one could say that it was both a crossroads for the community and a period of transition.

The orderly transition between town managers took place on May 1, 2001. Acting Manager Richard Cahill provided the necessary interim management skills and leadership, as well as applying his many qualified years of experience. I appreciate his wisdom and will continue to seek his advice and collaboration on many Town-wide issues. Donna Hill's expertise clearly had guided the fiscal practices of Gray, and her daily efforts go beyond the office. My gratitude continues to go out to her as well. Our staff and citizens are also to be commended for their guidance through all the transitional period. During this year, we had additional members join your municipal team. I would like to welcome Randy Cookson, Director of Solid Waste; Ron Cook, Deputy Code Enforcement Officer; and Dave Hogle, part-time employee of the Buildings and Grounds Department.

Since my arrival, it has become clear that there are many volunteers, citizens and employees who are extremely committed to the success of the Gray community. Without their continued dedication, Gray would not be in the fine shape it is, from both a fiscal and physical perspective. My short tenure has given me a very wide perspective and appreciation for everyone involved, and I would like to extend my gratitude to each person since their aggregate contributions continue to influence the quality and excellence of all the services that help make our community special.

The Town continued to work on various projects. We take a great

deal of pride in reporting these to you:

- Completion of the necessary easement acquisitions to allow the sidewalk project along Route 100 North to proceed.
- Worked with MDOT and the Turnpike Authority to assure funding for the proposed bypass and to work on truck route alternatives.
- Installed an efficient irrigation system at the Monument to assure quality of the landscape and its positive image to the public. This will become a model for other Town parks.
- Worked with representatives of Pineland as this project continues to become a significant regional focus and influence.
- Continued to improve the Town's financial recording systems, both hardware and software.
- The Council initiated their appointments to the Comprehensive Plan Update Committee. Members will spend most of the next fiscal year intensively reviewing and recommending a Plan for the next ten years.
- Designed a new street reclamation process that will be implemented in the next fiscal year in an effort to improve road surface life span.
- Our Staff at the Transfer Station has made several operational changes that have improved the day-to-day operations*as well as looking at long-term needs of the community and how this facility must change to meet those needs.
- Began working with each Department Head in outlining long-term planning for the development of the next several budgets.
- Continued working with the Gray Water District on various projects, including water lines planned for North and South Route 100 and the NorthBrook Campus.
- Worked with the surrounding Town leadership as needed to assure that regional issues were being fully identified and addressed.

Overall, the Town's departments completed a very challenging year. In facing the unexpected heavy snows and added fuel costs, what could have been a fiscal disaster became a successfully-completed response. Through proper resource planning, the response by our Public Works staff kept our roads open and passable. The same approach has been taken by our other departments when it comes to meeting service demands with limited resources. These valuable resources will become an important part of the effort that Gray must engage in as we look at where our community needs to go. As the Comprehensive Plan is completed, it will not only guide the

direction for the future, but identify the resources we will need to sustain that effort.

Finally, a very special thank you goes to our Town Council, whose faith and trust was invested through their decision to hire me as your next Town Manager. Their continued leadership and guidance will serve as a model of how Gray can develop in the future.

Respectfully submitted,
Mitchell A. Berkowitz
Town Manager

Gray Parks & Recreation

The Parks & Recreation Department is responsible for the coordination, supervision, implementation and administration of many activities, programs, facilities and special events for the benefit of the residents of Gray. With only two staff members, we coordinate all recreation programs, maintain/clean facilities (Wilkie's Beach, Newbegin Community Center, soccer fields, basketball and volleyball courts, Monument Park and various other small sites), administer office duties (answering and returning phone calls, producing quarterly fliers and brochures, submitting news releases, processing registrations and fees, and making deposits). We are also responsible for setting up and taking down of the municipal voting apparatus. In order to help with expenses of operating Newbegin, we rent the gym out for birthdays, school functions, special meetings and events. This department is also responsible for the maintenance of and coordination of activities at Libby Hill Forest trail system. This department plays a very important role in the shaping of our community. I hope that the community, our Town officials and businesses realize the importance and impact this department has on our growing community.

Parks Division: Wilkie's Beach experienced a variety of issues this summer. The most important was that of water quality. With above-average temperatures and the large number of swimmers utilizing the beach, our water quickly became a concern. We also dealt with a wide variety of vandalism and social issues. Overall, the beach was a place of relaxing and enjoying the cool water of Crystal Lake. We are

lucky to have a great resource-let's protect it! Monument Park and the grounds surrounding the Newbegin complex were maintained and kept well landscaped. Monument Park now has an automated sprinkler system. Libby Hill Forest has sparked much enthusiasm and excitement in the community. This past year, the committee has sponsored many special events, including cross-country ski races, nature walks and fun trail races.

Recreation Division: Many programs experienced an increase in enrollment. The fall soccer, recreational basketball and travel basketball programs all experienced substantial growth. The ever-popular special events, such as Santa Claus Is Coming to Town, the Halloween party and craft fair all went smoothly, with the help of civic groups and volunteers. All of the summer programs all went smoothly. Summer Day Camp averaged 60 day-campers for each of the six weeks. The summer concert series was a smash hit again this year. Major League Soccer Camp was a smashing success, with approximately 80 registered players. The other camps and clinics also provided area youth with excellent instruction. Men's 4 vs. 4 Basketball League is now a year-round program. We have also added the following programs: adult flag football, coed softball, coed volleyball and after-school floor hockey.

Newbegin Gym: Many of the ongoing activities and programs that are offered either in the gym or recreation room continue to be well attended. Men's pickup basketball and coed volleyball are very popular. Some of the ongoing groups that use or rent the gym on a regular basis are Shotokan Karate, Prudence's School of Ballet and a toddler playgroup. This year, we plan on working with Gray-New Gloucester Adult education with programming activities/classes. This past year, we added new windows and a new ceiling in the recreation room. The three back doors were replaced, and the front steps had an overhaul.

In conclusion, we at Parks & Recreation hope to continue existing programs and activities, expand into new and creative areas and make a commitment to improving some of the areas of need.

Respectfully submitted,
Dean Bennett
Director

Gray Water District: Independent Auditors' Report

To the Board of Trustees
Gray Water District
Gray, Maine

We have audited the accompanying financial statements of the Gray Water District as of December 31, 2000, and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of Gray Water District as of December 31, 1999, were audited by other auditors whose report dated April 14, 2000, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Gray Water District as of December 31, 2000, and the results of its operations, changes in equity and its cash flows for the year then ended in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule of operating revenues and expenses on page 11 is presented for purposes of additional analysis and is not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Clark, Friel and Nicholson, P.A., April 19, 2001

Report of the Assessor

Fiscal year 2000-2001 has continued to be busy for the Assessor, with 85 new home constructions along with numerous other building permits for additions, decks, garages, etc., to existing properties. There were also several subdivisions and single-lot land splits to map and record. Property transfers have continued to be plentiful each month, and I wish to take this opportunity to welcome each of our new neighbors to the Town of Gray. If any of you have questions regarding your property, the Assessor's Office is always open to help answer your questions.

We are continuing to update our tax maps with GIS (Geographic Information System) format, incorporating new roads and all the road name changes we've made over the year. When the printer in my office died last summer, we replaced it with a printer that allows us to print our 11x17 maps in my office.

John O'Donnell & Associates of New Gloucester (a longtime Maine mapping and assessing company) was awarded the bid for the Town-wide revaluation (equalization) of all real estate. The project will be getting under way in the next few weeks, and will be finished to reflect the assessment of April 1, 2003. The personal property revaluation was awarded to G&K Associates, of Manchester, CT (a company which specializes in business/personal property appraisals, and which has done considerable work in Maine, including our immediate area). This will be done effective April 2002. Both of these awards include computer programs for appraising property. The personal-property program will be a first. Until now, we have been manually computing depreciation and values for each account every year, then entering the final figures into the computer-a very time-consuming operation.

As always, I want to remind all veterans who have attained the age of 62, or who have been declared 100% disabled by the Veterans' Administration, to apply for the Veterans' Exemptions. This also applies to widows, mothers or minor children of veterans who would be eligible. You only need apply once if the exemption is granted.

The same applies for the Homestead Exemption. If you meet the basic requirements of the State of Maine-that is, if you are a legal resident of the State of Maine, owning your primary residence for a minimum of twelve months prior to April 1-you may be eligible for an

exemption. Applications are available in the Assessor's Office, or can be mailed to you, if you request one, by calling 657-3112.

Respectfully submitted,
Helen R. Taylor, Assessor

Town Planner Annual Report for Year Ending June 30, 2001

The Town Planner's activities for the year ending June 30, 2001, are grouped under the categories of Development, Grantsmanship, Ordinances, Comprehensive Plan, Subdivision, Site Plans, Economic Development, Transportation, Miscellaneous Items, and The Year Ahead.

Development

Development activities centered around the review and approval of a Site Plan and Subdivision Plan for EM Solutions; a computer and telecommunications company. In addition to the site plans, approval was granted to enlarge the water main serving the facility.

Other major development activity included the review and approval of the new U.S. Postal Service facility on Turnpike Acres.

Grantsmanship

The major grantsmanship activity included the submission of a Community Development Block Grant application for funds for updating the Town's Comprehensive Plan.

Ordinances

Ordinance activity included work on a Wireless Telecommunications Ordinance, the Private Street Construction Ordinance, the Subdivision Ordinance and the new Geographic Information System Zoning Map.

Subdivisions

There were some seven different subdivisions reviewed during the course of the year, ranging from three to seven lots. The largest subdivision came in as a sketch plan, and it was for a twenty-nine

(29) lot subdivision on Whitney Road.

Comprehensive Plan

Work began on the update of the Town Comprehensive Plan. The Comprehensive Plan was adopted in 1991 and revised in 1996. The Town Council has appointed a Comprehensive Plan Update Committee and the update is currently under way.

Site Plans

There were approximately fourteen (14) site plans reviewed and approved during the course of the last twelve months. The three plans with the most significant impact included the EM Solutions data storage, computer and telecommunications facility, the U.S. Postal Service building and the Hill Farm Equestrian Center at Pineland.

Economic Development

Economic development activities included, among other things, research and assisting and following through on inquiries for commercial and business development in Gray, work on the Route 100 Tax Increment Financing District and the NorthBrook TIF, and providing information for the economic strategy study.

Transportation

Work continued on the proposed Westerly Bypass, the T-2000 Sidewalk Program, the repair to the Center Road Turnpike overpass, and meetings periodically with the Traffic Committee on traffic issues.

Miscellaneous Activity

Miscellaneous activity included the review and approval of several private street construction applications, gravel pit applications, telecommunications tower applications, timber harvesting applications and hazardous material applications.

The Year Ahead

Activities for the coming year include, among other things, the updating of the Comprehensive Plan, economic development activities and grantsmanship programs. Gray continues to grow at a modest rate. The U.S. Census count for 2000 showed Gray at a population of 6,820. The town should continue its policy of growth management, i.e., to protect its natural environment, yet provide for economic

development that will provide for a diversified tax base with good-paying jobs.

Dry Mills School Committee

We held an Open House at Dry Mills School on June 23, and had quite a few visitors. On July 19, a group of 15 students with their chaperones visited the school. This group was from A Joyful Noise Christian Daycare & Learning Center, from Windham, ME. They were very impressed with the school, and enjoyed their visit. We did put on a small program for them. They have made tentative plans to pay another visit before the school is closed for the fall. We would like to see more interest from the schools in Gray and New Gloucester.

Plans have been set up to have the school open starting on the first and fourth Sunday of each month, June through September, 11:00 A.M. to 2:00 P.M. This has been advertised in the local newspapers as well as surrounding towns.

We purchased a sign for the school and placed it near the road to be easily seen by people traveling to the Wildlife Park.

We have not had the school open as much as we would like, due to a lack of volunteers to have it open. With a committee presently of only 5 people, we need the assistance of volunteers and also welcome additional members.

Nancy B. McMinn, Secretary

Pennell Institute Alumni Association

On July 21, 2001, the Pennell Alumni Association met for their annual reunion, with 50 faithful graduates attending.

This year was only an afternoon session, with memorabilia to look through, socializing, refreshments and a business meeting. There were 2 from the class of 1951 who traveled the longest distance; they were Rita Sayward Giblin and Muriel Verrill Gade, both from California (their class had its 50th reunion this year). The oldest attending were from the class of 1934; they were Dorothy Edwards, from North Raymond, Glennis Morrell Wilkinson and Orin Whitney, from Gray.

The election of officers was held, and the 2001-2002 slate is

President, Jane Barton; Vice President, Jean Dunn; Secretary, Margaret Wilson; and Treasurer, Yvonne Wilkinson.

The Pennell Clock Tower fund is still crawling along. Remember the history of this "Special Building and Clock", and the memories we all have. Take time to reflect. Donations are always welcome, and can be sent to Donna Hill, care of the Town Office.

We had a successful Pie Sale this past year at the Firemen's Barbecue to benefit the Pennell Clock Tower Fund.

Our reunion next year is the third Saturday of July. Mark your calendar!

Respectfully submitted,
Ellen S. Parady, Past President

Department of Public Works

To the Town Manager, Gray Town Council and the Citizens of Gray:

It is with great pleasure that I submit to you the annual report of the Department of Public Works:

The summer of 2000 proved to be another busy summer for the Department. The major reclamation project was the Dutton Hill Road. Seven-tenths of a mile, or 8,624 square yards, were reclaimed and then resurfaced with 1,715 tons of hot top. The following roads were overlaid with 1-1/2 inches of hot top: Adler Dr., Colley Hill Rd., Fran Circle, Libby Hill Rd., Liberty Ave., Mayberry Rd., Merrill Rd., Upper Marginal Way and Westward Rd. a total of 8,461 tons of hot top were added to these roads. After the installation of shoulders for the abovementioned roads, the Department spent the rest of the season doing routine maintenance.

The winter of 2000-2001 was another challenging season. Over the course of the winter, we used 1,570 tons of salt, 12,847 yards of sand and 3,380 gallons of calcium. Our first storm was October 29, 2000, and our last storm was April 8, 2001. We had a total of 167.3 inches of snow and 3 inches of ice. We had a total of 33 storms, with the majority coming on the weekends, which severely strained our budget. We were also hit very hard in the month of March, with two storms, one at the beginning of the month and one at the end of the month. Both storms lasted over 48 hours, hitting us with several inches of wet, heavy snow. The snowfall caused a lot of damage to our

highways and equipment, but we managed to survive another Maine winter.

Our short-range plans are to upgrade the infrastructure, especially the gravel roads and bridges. We are continuing the upgrade of our communication system, and we are in the process of studying the feasibility of a new Public Works and Sand/Salt facility.

Many thanks to Ed Milose, our maintenance head, who constantly bails us out of many situations.

Once again, I want to thank Chief Barton and the Department of Public Safety for the many assists during the past year. I would also like to thank the Maine State Police and Cumberland County Sheriff's Department for their many assists. I would also like to thank our Public Safety Dispatchers; they are a valuable asset to the many Town departments.

At this time, I would like to extend a hearty welcome to Mitch Berkowitz, our new Town Manager, and wish him good luck as he leads Gray into the future.

Also, a big thank-you to all the citizens of Gray, who volunteer their time to serve our departments, and to all the citizens who show courtesy toward us as we strive to improve the safety of our Town ways. And last, but not least, to Donna, Denise, Meredith, Ronna, Helen, Debbie, Dick and Tom, whose constant support makes my job much easier.

Respectfully submitted
Steve LaVallee, Public Works Director

Gray Historical Society

The Gray Historical Society is a nonprofit organization dedicated "to collect, preserve, and to share the history of the town of Gray and the State of Maine". It was founded on June 6, 1962, by the Gray Grange as a committee project, and was incorporated in 1973. We would like others to join us and become aware of the history around them. The meetings are held each month from May through October on the second Wednesday, at 7:00 P.M. at the Museum; from November to May, the meeting place is the Gray Congregational Church Parish House.

GHS's Museum is located on the second floor of Pennell Institute. We have had numerous visitors and researchers over the past year during our extended open hours and by appointment. The public is

welcome to visit the Museum during "Open House" on Alumni Reunion Day in July, and during Maine Heritage Museum Day in September. You are welcome to call the Museum at 657-2235, or call the curator, 657-3507, for a special appointment to see the Museum or do research. Special tours and special programs are given to children on request by calling any member or e-mailing to cnlknapp@msn.com.

The GREAT NEWS! The Gray Historical Society has completed the matching grant from the New Century Community Program, a statewide cultural initiative funded by the people of Maine, which has enabled us to preserve and make more accessible to you the documents and photos which are an important part of Gray's past. Hundreds of volunteer hours have resulted in a workable research room, meeting the high standards recommended by our consultant, Elizabeth Maule. We are continuing to work on the next level towards our goal. We welcome any volunteer to join us. Tuesdays and Fridays, we are at the Museum working from 10 A.M. to 3 P.M.; we are also open for visitors at this same time.

One of our special events is the Annual Christmas Tree Lighting ceremony in front of Gray's Town Hall in November; it has become a popular tradition. A special thanks to the Fire Department and Auxiliary for their help with preparations and serving the refreshments. We cannot forget the Number One guest, Santa Claus!

The Society continues to assist in supporting the restoration of the Dry Mills School House. With the assistance of our wonderful volunteers, the School is open again on the first and last Sundays of each month during the summer, 11:00 A.M. to 2:00 P.M. Getting involved with such projects is certainly a way to appreciate the historical values and purpose of our Society.

August 4, 2001, the Historical Society presented by request a repeat of last year's exhibit and slide program on the Portland-Lewiston Interurban Electric Railroad. An added feature was an exhibit on "Early Autos and Gray's Andrew Johnson." Johnson was an acknowledged pioneer auto designer/teacher. We wish to thank everyone who helped with this project, and a special thanks to all who visited the exhibit and slide show.

Howard Black, Helen Davis and Karen Taylor have submitted the final list of Gray soldiers' names to be engraved on the Civil War Soldiers' Monument. Watch the newspapers for the rededication of the Monument on August 3, 2002.

Remember the Gray Historical Society when looking for a special gift to give. We have available the following items to purchase: the

Images of America, Gray, Maine, book, postcards of Gray, Woolen Mill T-shirts, History, Records and Recollections of Gray, Maine, by George T. Hill, bronze medallion necklaces with the Town seal, a historical map (great for framing), a ceramic tile trivet with a trolley picture of PLI Interurban, and the Town of Gray afghan. To purchase any of these items, call us at 657-2235 or 657-4297. Also, you can pick up the gifts when you visit us on Tuesdays and Fridays.

The Gray Historical Society continues to attend many informative meetings throughout the year pertaining to the organization and the protection of materials and artifacts. We are members of S.O.L.V.E., a nonprofit historical management organization in southern Maine.

Many thanks for the gift of a new computer, printer/scanner from the Cable Committee, and the installation of a telephone, which has enhanced our services to the public. Our dedicated members continue to inventory the Society's collections of articles that have also been donated through the years. Gifts of artifacts, pictures and documents continue to come in, and we appreciate the many people who have made these donations. If you have any paper documents, photos or any items concerning Gray, PLEASE think of the Museum and call us!

This year's officers are: President, Louise Knapp (cnlknapp@msn.com); Vice President, Mae Beck; Secretary, Brent Gordon; Treasurer, Howard Black; Co-curator/Historians, Jan Szendrei and Kathy Stewart; Membership Secretary, Helen Davis.

The Historical Society thanks all who continue to support our programs.

Respectfully submitted, Louise Knapp, President

Gray Public Library

Annual Report 2000-2001

Statistics

Total yearly circulation	46,769
Average daily circulation	181
Interlibrary loans processed	443
New patrons	479
New books added	1,386
Days open	259

Volunteer hours	1,412
Children's programs	60
Attendance	1,105
Computer usage	2,243
Reference questions	678
Hours per week	33

This has been a year in which we have seen circulation rise rapidly. The use of public-access computer stations rises each month. These are used mostly for Internet access, e-mail and word processing. We have done computer instruction with several residents of the community and have assisted others. We began keeping a record of our computer assists in January of 2001, and since that time have assisted approximately 242 patrons. It is with many thanks to the Cable TV Committee and their generosity that we were able to add two more computer stations. We now have 7 stations that are Internet ready, and one station that is dedicated entirely to word processing. All of these are used heavily.

Last fall, we applied for a grant through the Davis Family Foundation in Falmouth. In December, we received word that we had been awarded the grant in the amount of \$6,271.00. This grant was for the purpose of providing educational equipment, books and programs for homeschool children. However, the materials will also be available to all residents of the community. We have purchased laptop computers and microscopes that can be borrowed to assist students in their work. We have also purchased books on United States history and Maine history.

We also received a gift from the KIM Fund of the Maine Community Foundation in the amount of \$500.00. These funds were used to purchase children's books. We are grateful to both of these entities for the funding we received.

The Friends of the Library continue to be very supportive of the Library, and with the proceeds of their two book and bake sales, they have contributed in many ways to support the Library program. They continued to provide passes to the Portland Museum of Art, the Children's Museum and the Maine Wildlife Park. They also support the summer concert series, sponsored by the Library and the Gray Department of Parks and Recreation. We appreciate the many ways in which they support the Library and its programs.

The Board of Trustees continues to be a very supportive group,

and we have worked together this year on the budget. They have appointed a Long-Range Planning Committee, which is looking at the present facility and how it does or does not meet our needs. We are in the process of evaluating what we need in the future and how best to serve the needs of the people of Gray.

This year, working with the Gray-New Gloucester Family Literacy Collaborative, we sponsored trips for all kindergarten students in the MSAD #15 School District to visit local libraries. Students from Dunn School visited both the Gray and New Gloucester libraries from January through May, and Russell School visited the Gray Public Library in May and June. Students from Memorial School visited the New Gloucester Library. We read stories to them, and each student was able to do a craft they took home with them. Many of the students also received library cards. The purpose of these visits was to introduce the public library to these students, and to help instill a love of reading.

Our children's program remains very strong, and that was evidenced by a strong sign-up for our summer reading program. We offer a variety of services to children; these include, but are not limited to, reader's advisory, computer assistance and homework help. We have offered a number of children's programs. The children's programs have been well-attended, and serve to bring many children and young families into the Library. Children are our future, and we try to make this an inviting and pleasant place for them.

In the coming year, we will be focusing on adding to and updating our reference collection as well as our large-print books, videos and audiobooks. This major updating has been made possible by some additional funds allocated to the Library by the Town Council.

The staff of the Gray Public Library-Kathy George, Melody Norman-Camp and I-have enjoyed being able to serve the people of this community and the people of the wider community. We look forward to continuing to serve you in the best way possible during the coming year.

Respectfully submitted,
Priscilla Payne, Library Director

Maintenance Department

2000-2001 has been a fast-paced year. We added a 16-hour part-time position along with our other 24-hour position. I am hoping

to have a 40-hour full-time position next year, if things stay as busy as they are now.

One of my tasks this year was filling in as a part-time Code Enforcement Officer. Being a limited electrician, I did electrical inspections at some residences.

I also maintain 10 Town buildings. Jobs include cleaning and general maintenance of buildings and grounds. Summers are usually busy with mowing, planting, watering and feeding plants at the Monument, Dry Mills School House and Town buildings. Winters are busy with snow removal, salting and sanding. There are always a lot of miscellaneous projects inside. Adding a sprinkler system to the Monument, Stimson Hall and the Town Office should help give us more time for other things.

In closing, I hope this informs you that we are a growing community, and the Maintenance Department should grow with it.

Respectfully submitted,
Edward A. Milose, Maintenance Director

Senator Karl W. Turner

Legislative Update - July 2001 to the Citizens of the Town of Gray

The 120th Maine State Legislature concluded its first regular session on Friday, June 22. My concerns regarding the high level of state spending continue. The legislature appears to have no appetite to free up money for new programs by cutting older, lower priority ones. Highlights of the session, from my perspective, included the following.

A dramatically downsized version of the much-touted L.D. 1303 "an act to increase access to healthcare" was enacted. This act, dependent on receiving a federal Medicaid waiver, will expand access to Medicaid to about 15,000 of Maine's low-income adults aged 19-64 who are at or below 100% of the federal poverty level (fpl). This program will be funded by an additional \$.06/pack tax on cigarettes.

The legislature also enacted legislation that will provide expanded coverage to an estimated additional 225,000 Mainers and reduce their cost of prescription drugs. This legislation was modeled after a Vermont law that allows lower income people to buy prescription drugs using the Medicaid pricing schedule. Taxpayer expense for the program is

essentially zero because of this approach. Typical cost savings to the prescription drug purchaser under the Medicaid schedule will range up to 25% and will reflect the purchasing power of the federal government. To apply or inquire about eligibility, residents may call toll-free 1-866-796-2463. However, as I write this, the Pharmaceutical Industry was challenging the program in court.

We raised the state contribution, referred to as General Purpose Aid (GPA), to communities for the cost of education. The legislature approved an increase of nearly \$31 million, 5% over current GPA funding, for fiscal year 2002. For fiscal year 2003, an additional 3% was added to GPA.

The legislature also raised the school construction bond interest ceiling by \$12 million, from \$84 million in fiscal year 2005 to \$96 million by 2007, allowing an additional \$150 million of school construction projects. Separately, the bond cap for renovation projects in the School Revolving Renovation Fund was raised from \$72 million to \$100 million, allowing for at least \$56 million of additional projects because of the local match.

The state funding for the University of Maine System, the Technical College System and the Maine Maritime Academy will receive a 4% increase next year and 2.5% the following year. These increases meet the per-pupil guarantee raises as promised by the Legislature.

The state Part I budget includes a provision fully exempting up to \$6,000 of a military pension from the state income tax. The new exemption will take effect this year. Under the old law, military retirees in Maine filing state income tax returns could claim up to a \$6,000 military pension exemption on state income tax forms but had to reduce the exemption by the amount of their Social Security earnings up to \$6,000. Under the new law, a retiree will be able to claim up to a \$6,000 exemption on state income tax forms regardless of Social Security earnings.

Maine, Wyoming and Montana are the only three states in the country currently free of the dangerous Eurasian milfoil. Eurasian milfoil is a fast-spreading, invasive lake and pond weed that chokes off native plants and can kill a water body for recreational use and native species. This session, we passed an emergency bill to protect Maine's waters from this weed. LD 1812 establishes an extensive educational campaign, creates a boat inspection program, and sets up a plan for emergency action if Eurasian milfoil is found in Maine.

This session additional funding was made available to help fight

domestic violence. The \$4.8 million in funds will be divided between prevention education and direct services to victims of sexual assault and domestic violence. The funding will establish community-based and school-based education programs aimed at reducing levels of violence in Maine. It will expand programs already in place that provide essential relief to victims of sexual assault and domestic violence.

If you have questions about these or any other legislative matters, I can be reached via e-mail at KWTurner@yahoo.com or by calling my office at 829-6427. Thank you.

Senator Karl W. Turner

State Representative Clifton E. Foster

To the Citizens of Gray:

The 120th Maine Legislature dealt with over 1800 bills during the first session of the biennium. We also did not have the surplus funds that the 118th and 119th had, however, the desire to spend money was as strong as ever.

Some of the more controversial and/or popular bills that were dealt with this session are as follows:

1. Fourteen state liquor stores will be closed over the next two years which will save about \$2,000,000.
2. The minimum wage will be raised to \$5.75/hr. beginning January 1, 2002, and to \$6.25/hr. beginning January 1, 2003, in anticipation of similar action by the U.S. Congress.
3. Eurasian milfoil, a foreign lake weed not yet found in Maine, but causing serious concern, will be fought by assessing state resident boat owners \$10/boat and out-of-state owners \$20, which is to provide for inspections at 10 state line entrances this year and 10 more next year.
4. The laptop computer fund was reduced from 50 million to 30 million to help balance the budget.
5. The bill to eliminate fingerprinting for school personnel passed both houses, was vetoed by the Governor and upheld by the Senate.
6. a bill to provide health care for everyone in Maine at a cost of at least 6.8 billion dollars for the biennium, was reduced to a study

committee. (The estimated cost of current health care by groups and individuals is about 4 billion every two years and not everyone is covered.)

7. Another 54.2 million dollars was added to General Purpose Aid (GPA) to schools, in addition to the current year's 664 million.

8. The cigarette tax will go up to around \$1.14 per pack and meals in restaurants that do not serve liquor will increase from 5% to 7%. These two taxes will definitely put Maine in a negative position compared to New Hampshire. These taxes were passed to provide money for additional access to health care, basically for individuals and also, to fund violence against women, in addition to the 10 million already being spent.

I could not support either the part-one budget or the part-two budget which is now over 5.2 billion dollars for the biennium. My reasons are as follows:

1. The tax burden on Maine citizens is now 4th highest in the country.

2. Disposable income (after taxes and fees) is at the bottom of all states.

This is not a good situation and much will depend on what the economy does in those two years.

Also, there will be about 130 million dollars in various bond issues to be voted on this November, from highway funding to cleaning up tires, again.

Three bills which I introduced and were passed, were to update the Charter of the Gray Water District, a bill to allow the state to sell land to the October Corporation and change zoning for the building of a hotel and restaurant at Pineland, a bill to increase the tax credit from \$200 to \$300 for people who have land under the Tree Growth Tax law prior to 1989. This last bill (Tree Growth) was not funded and, therefore, does not go into effect.

It has been my privilege to serve you and, as always, I welcome your thoughts and opinions.

Respectfully submitted

Clifton E. Foster, State Representative

Gray Health Council

To the Citizens of Gray:

We have a Loan Closet with wheelchairs, commodes, walkers, crutches and a hospital bed available for short-term use. These may be used at no charge to the residents of Gray. All we ask is for you to take good care of our equipment.

W.I.C. is available at the Parish House of the Congregational Church on the second Thursday of each month.

The flu clinics are also supported by our Health Council in the month of October each year. Last year we had 3 clinics, one at the Congregational Church Parish House on Brown Street, one at Senior Dining at St. Gregory's and one at the High School. Response was terrific.

For information, call 657-3766.

Agnes Stansfield, Chair

Web Site Committee

The Gray Web Site Committee has completed its third year of operation, and what a success it has been. The Gray Web Site Committee is very proud of the work that all the interested individuals have accomplished in the past year.

The Gray web site is seen as an information resource for both local townspeople and anyone in the world interested in this area of Maine. For the local townspeople we offer comprehensive information on town services, town committees, town recreation, social and religious organizations, fire and rescue, town library, and many other items. For the world wide web browser, we offer information about local life and our past town history.

An exciting new feature is our Virtual Town Hall aspect of the site. VTH allows us to be more interactive by allowing citizens to download town minutes and agendas, post public notices in a timely fashion, interactive community calendars, and an e-mail based subscription service for agendas, public notices, etc.

The Gray Web Site Committee also would like to have all other committees and organizations submit information to us for publication on the site. Please access the site at www.graymaine.org for

information.

The Gray Web Site Committee would like to thank Jerry Grant as our Town Council contact.

Last but not least, the Gray Web Site Committee would like to thank our webmaster, Tammy Ryan, for the great job she has done on the site.

2001 Gray Web Site Committee:

Natalie Blake, Jack DeMarco, Chris Dombrowski

Solid Waste Department

Greetings:

I would like to take this opportunity to express my gratitude to the people of Gray for the warm welcome extended to me upon my taking over the position of Solid Waste Director from Perley Witham. It is difficult to fill the role of a couple as popular as Helen and Perley, but thanks to their assistance I believe the transition has gone smoothly.

As transportation costs and disposal fees continue to climb, putting a strain on the budget, it is all the more important that we carefully consider the ways in which we dispose of our waste. Recycling is a proven method of keeping costs down, both through avoided cost (not paying for disposal) and the sale of material.

The total weight of the waste handled at the Town of Gray Transfer/Recycling Facility during calendar year 2000 was 3,869 tons (1,135 pounds per person). Of these 3,869 tons, 1,380 tons were recycled (405 pounds per person). Combined with State credits for recycling, the Town of Gray's Recycling Rate for year 2000 was 46.7%! The citizenry of Gray should be proud and congratulated for this accomplishment, while continuing to strive for the State's goal of 50%.

Discussions are currently being held with the Maine Department of Environmental Protection on establishing a leaf and grass composting operation at the facility. Available space, considering necessary setbacks from property lines, appears to be the major hurdle to overcome, but with some reorganization I am optimistic that this can be accomplished.

There are several openings on the Town's Solid Waste Committee and I encourage anyone with an interest in recycling or solid waste in general to apply.

Respectfully submitted,

Randy J. Cookson, Solid Waste Director

Ordinance Review Committee

Town Manager Berkowitz; Gray Town Council; Citizens of Gray:

The function of the Town of Gray Ordinance Review Committee is to make recommendations for ordinance additions, deletions or changes to best represent the interests of our town. The subjects and issues we study are usually in response to the requests of Town Manager, the Town Council, Planning Board, Town Planner, Code Enforcement Officer or town property owners. Prior to a final recommendation on an item being passed on to Town Council for public hearing and approval, considerable effort is put into researching the reasons behind a requested change, the best methods to be used to attain the desired result, and possible ramifications and effects that a zoning change might have on others along the way. Recommendations need to conform to state and federal guidelines and follow the direction defined in our comprehensive plan. Public input is always part of this process and everyone's participation is necessary to assure that our zoning codes best serve the desires and requirements of the people who live and work in the town. Meetings are normally held the first Thursday of each month at 7:00 P.M. in Stimson Hall. Please attend if you see an issue of interest on the agenda.

As our year began last July we finished reviewing material and making adjustments to the language for an ordinance change addressing "Temporary Structures". The intent was to allow temporary structures to be used as a place of domicile on the lot of a damaged residence in the case of disasters or emergencies but to keep some control over this use. There were guidelines recommended for the size and setbacks of the temporary structure as well as requirements for an approved sewage hookup. The length of time a "temporary structure" can be used as a residence was also determined.

Early in the year we also worked on some ambiguous wording in the Shoreland Zone about setbacks, making it clear that the "50 foot front setback" pertained to lots without frontage on the water body. We continued to make minor changes in the "Street Construction Ordinance" as requested and made some zone change recommendations in the vicinity of the Rt. 26 and North Raymond Rd. corner.

Our largest project for the year was to develop a "Telecommunications Ordinance" for the Town. For many months we went through the State model ordinance, other towns' ordinances, public hearings,

meetings with tower builders and representatives of the cell phone and television industry. We examined topographic maps of the Town of Gray and present tower sites. Maps showing the present cell phone coverage for the town were reviewed and possible placement of new telecommunication facilities was discussed. The Town of Gray comprehensive plan was reviewed for compatibility and the legal aspects of FCC regulations were explored. Considerable time was spent determining the areas of the model ordinance and other towns' ordinances that did not meet our town's needs. New wording was developed to fill those deficiencies and provide flexibility and protection for residents and facilities owners alike.

In its final form the ordinance addresses maximum tower height, lighting, fencing, visual screening, and fall zones. Co-location and architectural attachment of new facilities are encouraged to keep the number of new towers constructed to a minimum. Tower facilities must be inspected by an engineer periodically and removed if unsafe or abandoned. Financial requirements are included in the ordinance to be sure resources are available to cover the removal process. There is a "clean fuel" requirement for temporary power generators to protect the environment. Lighting of new tower facilities in Gray is limited to particular areas of the town and not allowed in shoreland, wellhead or VAP zones. For facilities developers the application process is reasonable in cost and time frame. Flexibility of property ownership or lease arrangements, types of towers allowed, expansion of existing towers, access requirements and location should allow for tower construction that would be expected to provide adequate telecommunication service for many years to come.

Most recently we have addressed requests for clarification of portions of the sign ordinance relating to electronic messaging boards and changes in the RP zone where lines on our existing maps and position of wetlands on the ground do not coincide.

Our next project will be to review the recently enacted "Street Ordinance" and make some recommendations for adjustments in standards or definitions that appear to be a problem for residents, the Planning Board and the CEO.

Many thanks to our present committee members for their ongoing efforts and to past members who have moved on to other endeavors. Thanks also to the town employees, business owners, and residents that have given of their time to this process. It takes many different opinions, ideas, cooperation and compromise to derive ordinances that best serve all the needs of the town. From time to time

there are openings available on our Committee for new members and there is always the opportunity for citizens who attend our meetings to provide their input to any subject being addressed. Any residents interested should contact Dick Cahill or Tom Reinsborough at the town office or members of the Town Council or ORC.

Respectfully submitted,
Scott Lowell

CODE ENFORCEMENT OFFICE

I am sending you my report as the Code Officer for the town of Gray. I am enjoying my job working with your community; you have a great town. If it seems like your community is growing, it is! In 2000, there were 77 residential permits (59 single-family units, 5 duplexes and 1 four-unit). From January 1, 2001, to August 8, 2001, 35 new single-family dwellings have been built; that is about 1.35 residential units per week. Seasonal conversion to year-round homes around the lake also will add to this number about 1 per month. We have also had 3 small commercial projects started or completed since last year. The Pineland Project is bringing a very large therapeutic horseback riding arena to Gray. January 1 brought the adoption by the Town Council of a new Building Code, BOCA 1999.

We see many septic problems in the Town, as everyone has a septic system. Be kind to your septic system-have your tank pumped the first time in year 3 and let your maintenance company recommend your next pumping cycle. Remember that we are a town that survives by well water. NEVER dump petroleum products into your septic, or on the ground.

The Code Office is really a safety office, so check your railings, fix your rotted or loose stairs and patch your roof so water will not get in. Look around your home. Is an electrical problem kind of hanging around, or are you constantly changing a fuse? Have it checked so that you don't end up in the Fire Chief's report. I always like to tell people that preventative measures and early detection are the key to saving your loved ones. Please make sure that your smoke detectors work and have an escape plan to save your family.

Have a safe year.
Tom Reinsborough
Code Enforcement Officer
Town of Gray

Report of Gray Fire-Rescue Department 2000-2001

I am pleased to submit my report for the year 2000-2001. I would like to thank the Council members, Town Manager and the citizens of Gray for their continued support to the department this year.

We received the new Rescue Unit in late October and it was placed in service in December, once the EVOC training had been completed. We also received our Rescue Alive Ice/Water Rescue Platform Boat in late January 2001. The members had an extensive training session on January 27 from Better Products Company, from whom it was purchased.

Once again, I want to commend the members for their commitment to the Town of Gray and for the numerous hours of training that they give of their own free time. The training is as follows: Fire Fighter 11 at University of New England, Ernie Verrill (9 days); BLTS, Jim Starkey, Stephanie Berryman and Joe Carroll (2 days); AVOC, 22 members (2 days); Samoset Conference, 5 members (2 days); Fire Investigation, Gary Latno (2 days); S MEMS Conference, Joe Carroll and Paula Rice (1 day); Cardiac Care, Heide Westleigh (1 day); Cumberland County Fire-EMS School, 7 members (2-3 days); Fire Fighter 1 Class, Kurt Elkanich, Robert Linstedt, Stephanie Berryman and Mark Hassett (not completed); Hazmat Operations Level, 9 members (24 hours each); New England Chiefs' Conference, 3 members (4 days); Public Official Awareness, Chief (1 day); Incident Command System Training ICS-2000, Chief and C. Carroll (2 days); ICS-300, Chief and C. Carroll (2 days); In-house training with the

mandatory requirements for each individual to attend QA/QI Update and Review, Protocol Update and Review, Bloodborne-Airborne, Hazard Communications, OSHA Updates, Sexual Harassment, Respiratory Protection and Basic Operations. As you can see, the members gave a lot of time for the various trainings.

Once again, special thanks to Public Works Director Steve LaVallee and crew for all their assistance throughout the year.

The dispatchers are a vital part of our operation; without them, we would be in deep trouble. They are to be commended for a job well done. This past year, they answered 18,418 telephone calls, dealt with 739 walk-ins, issued 919 burning permits and handled all Fire-Rescue and Public Works radio traffic. This past spring, we changed over to the E-911 system. We have upgraded our GIS system, which tracks our emergency calls for identification. The dispatchers continue to be a vital part of our organization, and they are to be commended for their expertise.

I am pleased to report that we have completed the past year with coverage seven days a week, 24 hours a day, with our per diem personnel. This has worked out fairly well, for the most part. We have some shifts that are hard to fill, over the weekends especially. As a part of the service we provide, we are getting more and more requests for public assistance, which I welcome. During the daytime hours, we are still hampered because there are not enough personnel available to respond to emergency calls, and, as always, we need more call personnel for all times of the day and night.

We continue to promote the Learn Not To Burn and Juvenile Fire Setter Intervention programs. We are pleased that SAD #15 has been able to include some of this in their curriculum during the past year; hopefully this can be increased as time goes on.

Our EMS and Fire Prevention weeks continue to be successful events, with visits to the schools, Open Houses at the station and a planned schedule of events for each at a Saturday during the weeks. I want to thank the Maine State Police, LifeFlight of Maine, the Cumberland County Sheriff Department, the Portland Police Department and the Maine Warden Service for the demonstrations they provided. A thank you to the Salvation Army and the American Red Cross for their support at our open houses and on scenes. A special thanks goes to our own members, who planned the activities and gave numerous demonstrations throughout the day.

This past March, 2001, the Department took on a fundraiser for a

very worthy project: to raise some \$40,000 to purchase two Thermal Imaging Cameras. A letter was sent out to all residents and business owners. I'm pleased to report that as of June 30, 2001, we had received \$14,206.84 for this fund. Two families elected to have "in memory of" go to this fund, which added another \$2,550. It is the Department's intention to purchase one camera prior to fall, and continue to raise the rest of the money for the second one. I personally would like to thank everyone for his or her support with this project.

I want to remind citizens that a Burning Permit is required at all times. We do not issue any incinerator permits, and the reason for this is that it is unlawful to burn rubbish, refuse, garbage, paper, cardboard or wood boxes, as these are accepted at the Transfer Station. We do not issue burning permits on weekdays during the months of April through November, unless the ground is snow-covered or we have had substantial rain. If you have any questions, please call 657-3931.

Local businesses are to be commended for their continued support, either with monetary or material contributions or by allowing employees to leave their jobs when called upon.

I want to thank our Mutual Aid Towns-New Gloucester, Cumberland, Windham, North Yarmouth and Raymond-for their continued support. Without this agreement, all towns would be in a lot of trouble due to the lack of manpower.

Gray Fire-Rescue responded to a total of 884 calls this past year. The breakdown is as follows:

Vehicles	18
Chimney	6
Structure	24
Motor Vehicle Incident	93
Grass/Woods	50 (includes 30 unpermitted)
False Alarms	47
EMS Calls (patients treated)	480 (691)
Miscellaneous	57
CO2 Detectors	6
Mutual Aid-Fire	26
Public Assistance	77
TOTAL	884

I would like to thank a special friend of the Department for all he has done over the past years whenever called upon. I speak of PERLEY WITHAM. THANKS FROM ALL OF US.

LAST BUT NOT LEAST I WANT TO THANK MY OFFICERS AND MEMBERS FOR ALL THEIR TIME AND SUPPORT YOU HAVE GIVEN ME AND THE TOWN OF GRAY.

WE ARE ON CALL 24 HOURS A DAY, 365 DAYS A YEAR, PROTECTING LIFE AND PROPERTY.

Respectfully submitted, Jon E. Barton, Chief Fire-Rescue/
Public Safety Coordinator

INDEPENDENT AUDITORS REPORT

 Town Council
 Town of Gray
 Gray, Maine

I have audited the accompanying general purpose financial statements of the Town of Gray, Maine, as of June 30, 2001, and for the year then ended, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town of Gray, Maine management. My responsibility is to express an opinion on those general purpose financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the general purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Town of Gray, Maine as of June 30, 2001 and the results of its operations and cash flows of its proprietary fund types and similar trust funds for the year then ended, in conformity with generally accepted accounting principles.

My audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statement of the Town of Gray, Maine. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in my opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

Thurley Hood, CPA

July 10, 2001
