**REPORT OF THE
SUPERINTENDENT OF SCHOOLS**

To the Superintending School Committee and
Citizens of Alfred:

The annual report of the Alfred Schools is hereby
submitted for your consideration.

Pupils are registered and classified by grades at the
present time as follows:

Grade 1	31
Grade 2	18
Grade 3	24
Grade 4	14
Grade 5	27
Grade 6	21
Grade 7	17
Grade 8	18

170

Number of persons between the ages of 5 and 21 years
according to last school census: Boys, 148; Girls, 123.
Total, 271.

At the present time the elementary schools are too
crowded to permit the carrying on of work in the most
satisfactory manner or with the best results. This condi-
tion is detrimental both to proper instruction and discipline.
It is a recognized fact that for best results a school should
have a registration of about thirty pupils. A glance at the
foregoing registration statistics will show that if we had
five teachers in the elementary grades there would still be
an average of 34 pupils in each room.

Little work was done this year toward finishing the assembly hall since the repair of the boiler exhausted and overdrew the amount appropriated for repairs and equipment. More work on this room is anticipated during the coming year.

A new system of reading is being used in Grade 1 this year with very satisfactory results. This system will be used in the succeeding primary and intermediate grades.

I wish to urge once more that parents and citizens visit the schools more frequently, talk over with teachers matters of mutual interest and acquaint themselves at first hand with those things which the schools are endeavoring to accomplish.

In conclusion, I wish to express to the committee, to the teachers, and to the citizens of Alfred, my appreciation of the kindness and consideration shown me during the past year.

Respectfully submitted,

MAYNARD E. WRIGHT,

Superintendent of Schools

REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools and Superintending
School Committee, Alfred, Maine:

On June 17, 1937, nine pupils were graduated from the High School. Graduation exercises were held in the Congregational Church and were well attended.

Seventeen pupils enrolled for the Freshman Class in the Fall.

On September 13, school opened with fifty-two pupils in the High School and thirty-six in the Junior High.

From year to year it is the purpose of the teachers to maintain and keep to its high level the scholastic standing of Alfred High School and this has been accomplished during the year.

Athletics, Plays, and Socials have been the extra curricula activities during the year. The boys' basketball team has been especially successful, coming through the season with a clean slate, and winning the championship of the Central York County League. Senior play was well attended as was the Social given in honor of the boys' basketball team.

It is my sincere desire to have a finished assembly room and a laboratory, with proper equipment for Chemistry and Physics.

In conclusion, I wish to express my sincere appreciation of the friendly cooperation which I have received from the Superintending School Committee, Superintendent M. E. Wright, and the citizens of Alfred.

Respectfully submitted,

M. W. WEYMOUTH,
Principal

REPORT OF THE SUPERVISOR OF MUSIC

To the Superintendent of Schools and Board of
Education of Alfred:

I herewith submit the following report of music in
the schools for the past year:

The regular outlines for the Music Hour Series of text
books are followed as far in as practical through the first
six grades.

Grades 1 and 2 are quite thrilled with the piano in their
room, which was a greatly appreciated gift from the Con-
gregational Church. These children are getting unusually
sweet headtones in their singing this year.

The third and fourth grades are studying intervals,
sequential drills, sharp and flat chromatics, etc. These seem
to facilitate their sight reading, and their tones are very
true to pitch.

Part singing begins in the fifth and sixth grades; also
study of the minor keys. The voices here show more matur-
ity yet maintain excellent tone quality. Biographical
sketches of famous composers are studied with much interest.

The Junior High group have been keeping note books
on music appreciation. They have just completed a study
of the Peer Gynt Suite, taking up the life of Eduard
Grieg and descriptive analyses of the numbers as heard in
the Victrola recordings.

This class has about thirty-five boys and nine girls
with some extremely good voices.

In the High School we have a fine girls' chorus.

A large group from the High School sang in the All-County Chorus at the York County Teachers' convention in Sanford last fall.

I wish to thank you, our Superintendent, School Board, High School faculty, grade teachers and citizens of the town for your loyal support and cooperation throughout the year.

Respectfully submitted,

HELEN M. DOLLEY,

Supervisor of Music

REPORT OF THE PUBLIC HEALTH NURSE

To the Citizens of the Town of Alfred, I hereby submit my report as Public Health Nurse for the period from January 1, 1937 to December 31, 1937:

During the year many follow-up visits were made to the homes of school children regarding necessary corrective work. On information received from a teacher, an investigation was made into the home life and environment of a number of children in one family, all attending school with either improper or no daily lunch, and with unsuitable clothing. The case was brought to the attention of proper authorities and the case eventually disposed of satisfactorily. Several calls were made to the home of a school child chronically ill. Arrangements were made for two children with defective vision to have an examination by an oculist and corrections made. In response to a request from an interested citizen in Alfred, assistance was given on several occasions in transporting a school child and her mother to a dentist in Sanford for corrective work.

In May, assistance was given at a Farm Bureau pre-school clinic held at the Chapel, at which five children and mothers were present.

During the months of March and April all rooms of the Alfred School were visited and inspection of teeth, throat, posture and skin given. In November they were again visited and the children weighed and measured for average weight for height and age, and the skin and hair were inspected.

The following is the report of the health inspections given at school during the year:

Pupils Inspected	235
Defects Found	46
Defective Teeth	17
10% or More Underweight	14
20% or More Overweight	5
Defective Throat	10
Excluded for Symptoms of Skin Disease	13
Excluded for Evidence of Pediculosis	7
Vision Corrections	5
Teeth Corrections which have been made since last visit	46

The nurse wishes to assure you that she is always glad to respond to any calls for service or consultation in your community, and she appreciates the cooperation you have given her in the past.

To the superintendent of schools, the teachers, and all others who have helped with the health work this year, I am grateful.

Respectfully submitted,

OLIVE TWICHELL, R. N.,

York County Health Service

AUDITOR'S REPORT

To the Citizens and Taxpayers of Alfred, Maine :

I have examined the accounts of the Selectmen, Town Treasurer, Superintendent of Schools, Tax Collector, Excise Tax Collector, and Treasurer of the Alfred Fire Department and find them correct.

Respectfully submitted,

FLORENCE L. WENTWORTH,

Auditor.

Alfred, Maine,
February 26, 1938.

PARSONS MEMORIAL LIBRARY

To the Board of Directors of Parsons Memorial Library:
Gentlemen:

I present the following as the thirty-second annual report of Parsons Memorial Library.

I sometimes wonder if we as a town, realize how fortunate we are to have a beautiful library with its well-stocked shelves containing information on very many subjects as well as many books for entertainment and amusement. Surely we ought to feel both proud and thankful for so fine an institution in so small a town.

We have added during the year one hundred and forty-five books. Among them, some of lasting value as well as what, in our judgment, was some of the best of the current fiction. As some of the older books are wearing out and have been discarded, the actual number of volumes in the library has not increased much.

The number of card-holders is about the same as last year as well as the number of books let out, although there has been quite an increase in the last few months in the number of books loaned.

We still send boxes of books to Mrs. Leland Gile and Miss Elsie Gile and they loan them to people in their neighborhood, thus adding to the usefulness of the library and we sincerely hope that more people may be able to make use of it in the coming year.

The following is a list of books added during the past year:

Respectfully submitted,

MARY C. EMERSON,
Librarian

**REPORT OF THE DIRECTORS OF
PARSONS MEMORIAL LIBRARY**

To the Legal Residents of the Town of Alfred:

As we enter upon the thirty-fifth year of service to the residents of Alfred and the vicinity, the Directors of the Parsons Memorial Library are pleased with the record of steady growth and the continued appreciation of the facilities afforded the public by our institution as evinced by the constantly increasing patronage.

The finances of the Library are in a very satisfactory condition although the General Reserve Fund has been lowered during the past few years by banking conditions. The building has been kept in good condition and during the past year, some emergency repairs were made to the roof at a considerable expense.

We are asking the Town for the usual sum of \$250.00 and this amount, with the vested income, should be sufficient to pay all expenses during the ensuing year.

DEVELOPMENT ASSOCIATION FOR YORK COUNTY, MAINE

This is a county-wide organization founded for the sole purpose of developing and advertising the outstanding natural advantages and attractions of York County. Its one object is to increase the amount of revenue now being received by every individual in the county. Its founders feel sure this can be done, primarily, by increasing the tourist traffic into the county and by bringing in half a million more vacationists than are coming here each year at the present time. The association would also assist the agricultural and industrial interests of the county in ways that are not covered by the excellent organizations which represent these important activities at the present time, and which may be said to be outside of their field of work. Mainly, this would be through channels of county-wide advertising and publicity which would mean increased sales for both the farmer and the business man, small or large.

York County has reached the point where it must present a united front in its effort to hold and to increase its present business. This is why the Development Association for York County, Maine, has been founded and is being backed by many of the most public-spirited and far-seeing men and women in the county.

Its program will include extensive county advertising campaigns in the great newspapers of Eastern United States and Canada; the publication of a beautifully illustrated York County booklet in which each of its 28 towns and cities will have identical space and pictures; establish information bureaus to give out vital facts about what York County has to offer; increase the sale

of old farms and community homes to summer residents and make more taxpayers and more demand for local labor; develop and improve its highways; publicize the county's agricultural and industrial advantages; promote Old Home Days, Winter Sports, and other events that will attract large numbers of people from outside the county; mark its historical spots, and stimulate interest in making its communities and its highways more beautiful so that they will attract more people.

The association has been so organized that every town and city has equal representation on its Governing Board. There can be no politics, no cliques, no special benefits for one section over another, within the organization. It must work for the county as a whole. It will have to be supported by low cost Investor-memberships and the more who join it the more work the association can do.

Complete details will be furnished all who write for information. Address, Development Association for York County, Maine, Biddeford, Maine.
