COMMON SCHOOLS

We have had a school year of thirty-two weeks divided into a spring term of eleven weeks, a fall term of eleven weeks and a winter term of ten weeks.

The scholars who formerly attended the Cove school have attended the Sullivan schools as tuition scholars again this year. This arrangement gives these scholars the advantages of well-graded schools and is also a great financial saving to the Town of Sorrento. A rate of tuition of \$10.00 a year per scholar has been fixed with the Sullivan S. S. Committee. Unless there is a substantial increase in the number of scholars in this district, which seems improbable at this time, it will be of advantage to all concerned to continue this arrangement another year.

The work in the High Head school has progressed in a favorable manner this year and the general results have been good. In the past the progress of this school has been greatly retarded by a far too frequent change in teachers. This year we have had but one change in teachers, one teacher remaining for three terms which all who are familiar with school conditions will agree is a benefit to any school. The school is now graded as follows:

Grades.....	I	II	III	IV	V	VI	VII	VIII	IX	Total
Number of Pupils..	2	0	7	0	1	4	0	0	3	17

The school has been continued on the outline of work which was introduced last year and this has been a great aid in bringing the various grades up to a required standard. The lower

grades are now in an excellent condition but the progress of the higher grades has not been so satisfactory. There are several reasons for this, the principal ones being the difficulty of overcoming the results of many terms of haphazard work of these pupils before the school was graded, irregular attendance of part of the pupils and in some cases a failure on the part of parents to cooperate with the teacher. To quote an eminent educator, "It seems unnecessary to add, much less to urge, that the teacher needs the hearty cooperation of school officers and patrons. This is an oft-attested fact of school experience that no longer needs proof." The hostile attitude taken by a number of parents who have children in the High Head school is extremely unfortunate not only for the interests of their own children but for that of the whole school. We earnestly hope these parents will see the mistake they are making and come to regard the teacher and school officials in their right light, as the true friends of their children with an interest only for their best good and welfare.

We are pleased to note an improvement in average attendance this year but feel that there are still many cases of unnecessary absence. Regular attendance and punctuality are among the cardinal virtues of a scholar and the scholar who forms these habits will not only receive a greater benefit from his school but will most likely acquire permanent habits of regularity and punctuality which cannot fail to add to his chances of success in life. We trust the parents will cooperate with us for a greater improvement in attendance next year.

In last year's report we mentioned the plan which is now being followed by a large number of towns of jointly hiring special teachers of music and drawing for their schools. A special teacher of music has been employed by the neighboring Town of Sullivan this year and it is quite possible that arrangements can be made with this teacher to include the High Head school among the schools under her instruction. If this arrangement can be made the expense will be comparatively small with a great benefit to the pupils of the school.

TEXT BOOKS AND APPARATUS

New supplementary readers have been purchased this year, a new series of physiologies adopted and the supply of regular textbooks renewed when found necessary. A cabinet of maps has been added to the apparatus of the school and other apparatus of a minor nature purchased. The usual appropriation will be sufficient for the needs of this account for another year.

APPROPRIATIONS RECOMMENDED FOR 1912

In closing this report I wish to express my thanks to all those who have assisted in advancing the interests of the schools during the past year.

Respectfully submitted,

A. W. GORDON, *Superintendent of Schools.*
