Surveyors of Wood and Lumber:

R. C. Booth,	Charles Bradbury,	Abner Hawkes,
Daniel Conant,	S. Jordan,	James A. Milliken.

MAYOR'S ADDRESS.

Gentlemen of the City Council :

It is for the second time my privilege and pleasure to address the City Council at its first meeting. I am especially pleased to welcome again among you a majority of old members. We undoubtedly profited to some extent from our experience of the past year and in so far are in a better condition to promptly and intelligently lay out the work for the coming year.

Your support has at all times been most hearty and with our intimate acquaintance and good fellowship we may go ahead with the new work as a continuation of the old, after an appeal to the voters for their approval which has been generously granted.

It is unfortunate that a record of each year's doings appears in published form so late that it cannot be carefully reviewed at the season of changing administrations when the interest of all is most intent upon municipal affairs.

Since the closing of accounts for the last year I have not had opportunity to study them very carefully, but will make a brief statement of some facts and figures of especial interest. The record without giving an opportunity for boasting in any department is on the whole satisfactory.

The valuation for the year 1901-1902 was	\$3,855,390 00
The valuation for the year 1902-1903 was	3,967,180 00

Increase	\$111,790 00
----------	--------------

making an increase in the tax over that of last year (at the same rate, \$19.50,) of \$2177.00.

The increase of the preceding year was \$1500, and the aver-

age yearly increase for the eleven preceding years of city government at the same rate would have been \$1680. The year was one of marked growth in the city's industries and it is probable that the next valuation will show a good increase. We have every reason to feel gratified with this showing. The prospect for the growth and improvement of the city was never brighter than to-day.

The net debt to-day is	\$130,011 05
The net debt one year ago,	132,473 00
Reduction,	<hr/> \$2,461 95

This shows that the expenditures have not exceeded the income and a balance is left amply large to cover any increase in worthless assets. During the year there were no unusual expenditures except in the Health Department which exceeded the normal by about \$3000. To offset this there was no payment to make on the Water Contract, which gave us an advantage over former years of \$2500.

It is very satisfactory to be able to report that the collections have again (as one year ago) exceeded the commitment by \$270. The outstanding bonds are the same as by the last

report,	\$129,000 00
The outstanding notes,	2,925 31
A decrease over the last report of	2,855 00

All notes, with the exception of the Memorial Library notes and the temporary loan of \$10,000, in anticipation of taxes, bear interest at 3½ per cent. or less. The city has been able to borrow at a rate so low as to make a saving of \$1200 in interest over the preceding years.

The expenditure on roads was \$8727. The average expenditure for the eleven preceding years has been \$9200.

The cost of maintaining the Alms House has been \$2210, and an increase of \$85 over the preceding year. This department shows a steady but very slow increase, as might be expected with the growth of the city.

The cost for outside poor was \$2997. This is the lowest figure since 1897, and the average for the whole period of city government has been \$3412. The overseers adopted the policy last year of taking to the farm all applicants for help unless for some special reason they could support them more cheaply outside. I believe that this is the proper course, and that the condition of the inmates should be made as cheerful and comfortable as possible.

Two persons were sent to the Insane Hospital at the city's expense and thereby increased the cost of this department.

The increase in pay of members of the Fire Department raised the cost of this department to \$3439. The pay is still too small to attract members for the money alone. Their motive is mainly that of pride in the efficiency of service and we should see in every possible manner that public interest in the service is maintained.

The expenditures on sewers was under \$3000, and a considerable quantity of small pipe was laid. There is no prospect of any heavy expenditure in this line for many years to come, but an annual appropriation of from \$3000 to \$4000 is required for maintenance and extension.

The last council should be commended for the large amount of intelligent work done in revising the ordinances. The necessity for this work has been felt for a number of years. The revised ordinances have some changes which to some may seem to increase the power of the mayor. I do not view them in this light. The ordinances have been in several respects in conflict with the charter, which evidently intended to separate the legislative and executive functions, giving the one to the council, the other to the mayor. Some ordinances which gave to the committees a certain degree of control over appointed officers, have been amended to agree with the intent of the charter. The council should specify the place and manner in which all money appropriated shall be expended. The more complete and detailed their instructions, the better.

In all probability the next election will take place next December. Thus the coming year will comprise but nine instead of twelve months, and some new problems regarding the appropriations are raised. I think that careful consideration of the question will show that this change introduces no reason for decreasing the taxes, nor does it give an opportunity to spend more money than usual. It is true that for current expenses some \$14,000 less than usual will be required, but any expenditure of this money for other purposes than that of the temporary loan will increase the city's indebtedness to that extent.

The increase would not show on the balance at the end of December, but would show if anyone took the trouble to compare the balance of to-day with that of one year from to-day.

Report of Trustees of Memorial Library

To the Honorable Council of the City of Westbrook:

GENTLEMEN:—The Trustees and Regents of the Memorial Library respectfully submit the following report.

The organization for the year was as follows:

President—J. E. Warren.

Vice President—A. A. Cordwell.

Secretary—E. J. Haskell.

Purchasing Committee—T. P. Smith, W. F. Haskell, E. J. Haskell.

Auditing Committee—Mayor Warren, A. A. Cordwell, W. F. Haskell.

During the year just closed the librarian, Miss E. M. Atkinson, resigned, as well as the assistant librarian, Miss L. Foster. Their positions were filled by the electing of Miss L. B. Quinby for librarian and Miss J. G. Andrews for assistant librarian.

We have made a little gain in circulation which is gratifying to note.

The librarian's report which follows shows the work of the library during the year.

Report of the Librarian.

To the Trustees and Regents of the Memorial Library of Westbrook:

GENTLEMEN:—As required by Art. 5 of our Rules and Regulations I submit herewith the Tenth Annual Report of the Librarian, a report covering the period of eleven months, beginning February 1st and including December 31st, 1903.

Accessions.

There are 9,130 books in the library. Five hundred and ninety-four books have been added since the last report, and 29 withdrawn, making a net increase of 565 volumes.

Two hundred and ninety-one of the accessions are fiction, 84 reference, 64 history and travel, 30 biography and 29 literature. Only two French books have been added to the library since the last report.

Of the new books 532 were obtained by purchase, 53 by binding magazines and 9 by gift.

There are now in the library 454 bound periodicals. Seventy-seven reports have been received.

Some of the more valuable additions to the library are "Modern Eloquence" a series of ten volumes edited by Thomas B. Reed and others, "The Oriental Series" on Japan and China by Capt. F. Brinkley, and the New International Encyclopedia.

Registration.

Two hundred and twenty-nine new cards have been issued, making a total registration of 3,889.

Circulation.

The total number of books delivered for home use was 23,666, making the average distribution between 85 and 86 volumes per day. 89 per cent of the books loaned were fiction.

The largest number of books delivered in one day was 306 on March 22d.

The smallest number was 15 on July 9th.

One hundred and seventy-six mail notices and two messenger calls have been required to secure overdue books.

One hundred and eighty-four volumes have been rebound.

It seems strange in a city of so large a French population that there is not a greater demand for books in the French language, and perhaps it is not generally understood that the library

has a number of good French books upon its shelves, and is willing to increase the supply.

Reading Rooms.

Six hundred and fifty books have been delivered for use in the reading room. "The United Service," "The World's Work," and "The Literary Digest" have been added to the list of periodicals.

Catalogues.

The prospect of a new card catalogue in the library is a very pleasant one to the librarian, and a little experience with it will prove to the public what a desirable thing it is. The titles and numbers of the newest books will be published at intervals in the Westbrook Gazette, so that patrons of the library who prefer to have a catalogue at home may provide themselves with one by preserving the lists.

Finance.

Total cash receipts,	\$59.14
Expenditures,	27.19
	<hr/>
Balance on hand,	\$31.95

General Statistics.

Total number of volumes in the library,	9130
Volumes added during the year,	594
Volumes withdrawn,	29
Volumes rebound,	184
Notices sent for overdue books,	176
Total registration,	3889

Respectfully submitted,

LILLIAN QUINBY,

Librarian.

The new librarian and assistant are doing good work, and they, with the janitor, have our thanks.

We would ask for the sum of \$1300, for the expense of the library for the year, and \$275.40 to meet the premiums of insurance coming due in May.

Respectfully submitted,

J. E. WARREN,
A. A. CORDWELL,
J. A. WARREN,
T. P. SMITH,
W. K. DANA,
W. F. HASKELL,
M. H. WEBB,
E. J. HASKELL,

Report of the City Solicitor.

WESTBROOK, MAINE, December 28, 1903.

To the Honorable Mayor and City Council:

I have the honor to submit my annual report:

Early in the year it was deemed best to bring suit against the Town of Gorham to recover the amount disbursed by the City of Westbrook in caring for the small pox case of Sadie Feeney. The various bills incurred, as presented to the Solicitor, amounted to about \$1400; but even a cursory examination of the items disclosed the fact that many of them were not such as could be collected by suit between the two municipalities. Several conferences with Gorham's attorney showed that the difference between the amount for which suit would be brought and the amount which Gorham would willingly pay without suit was nominal; accordingly the Solicitor recommended to the Council that he be authorized to settle the claim without suit, and on May 8, 1903, a check was received from Gorham for \$1151.79, in full settlement of the claim.

The suit of F. M. Ray, Esq., against the City, for services performed in 1898-1900 amounting to \$174.51, was settled October 6, 1903 by the payment of \$150.

Roberts vs. City of Westbrook is still on the docket, the case not having been assigned for trial.

As mentioned in a previous report, Andrew J. Boynton died at the Poor Farm without having mentioned that he had a small bank account. The City's claim was presented to the public administrator of the estate, and on November 14, 1903, the full

amount of money found on deposit, less the charges of administration, was turned over to the City Treasurer.

Mrs. Louisa S. Clarke's claim of \$500 as damages to the cellar of her house on Rochester street on account of change of grade of said street and of defective sewer was settled December 5, 1903, by the payment of \$200.

In 1897 the Municipal Officers awarded Daniel Cressey \$50 for damages to his premises on Brown street, for change of grade. An appeal was taken to the Supreme Judicial Court, and the case has been pending until the present month, when the claimant withdrew upon payment of the original award of \$50.

Several other small claims have been settled during the year with the consent of the Mayor and Council.

There have been several conferences with Boston & Maine officials and a hearing before the County Commissioners which have been attended by the Solicitor.

Under instructions of the Council the Solicitor prepared a bill and presented it to the Legislature changing the municipal election from March to December. It is believed that this is an important and progressive change; not the least of the resulting benefits being evidenced in the street department, as all appropriations and preparations can now be made early in the municipal year, and work can be undertaken as soon as climatic conditions warrant, whereas under the old system valuable weeks were lost waiting for authority and money.

Another important change incorporated into the Charter at the same session was that permitting the Mayor to veto specific items in an appropriation bill, instead of passing upon the order as a whole.

The term of service of the Overseers of the Poor was changed from one to three years.

I would suggest that two other changes be made in our Charter: one relating to sewer assessments and one to the time of the inauguration of the Mayor and his associates. It is manifest that our present system of levying sewer assessments is very un-

satisfactory. Without elaborating my own ideas I would suggest that a commission consisting of the Mayor, Solicitor and one alderman, or more, be appointed early in the coming year to look into the methods which prevail in other cities and report to the Council with recommendations, before the expiration of the year. As to the second change suggested, it would be a matter of convenience to many business men of our city, if the inaugural ceremonies were held in the evening. Undoubtedly the inauguration would then be attended by many more of our citizens, and the various features would elicit more of the attention and interest they merit.

Respectfully submitted,

FRANK H. SWAN,

Solicitor.

REPORT OF THE Committee on Street Lights.

WESTBROOK, ME., Dec. 7, 1903.

To the Honorable Mayor and Board of Aldermen:

The Committee on Street Lights respectfully submit the following report:

During the present municipal year ending December, 1903, we have added the following lights to the service:

- 3 lights on Saco street.
- 1 light on Valentine street.
- 3 lights on Pierce street.
- 3 lights on Cumberland street.
- 1 light on Haskell street.
- 4 lights on Old Gorham road.
- 1 light on Lamb street.
- 1 light on Brackett street.
- 1 light changed from corner of Haskell and Pine streets to junction of Pine and Haskell streets.
- 1 light changed from easterly side of Lamb street crossing to westerly side on corner of Lamb and Cottage streets.

The appropriation was \$3800.00.

- 5 arc lights, 1200 C. P.
- 180 lights, 25 C. P.
- 102 lights, 16 C. P.

EDWARD ANDERSON,
 PERL A. BROWN,
 ALPHONSO M. SWETT.

REPORT OF THE Chief Engineer of the Fire Department

To His Honor the Mayor and Members of the City Council:

GENTLEMEN:—In conformity with section 9 of the ordinance relating to the Fire Department, I herewith submit the annual report for the year ending December 31st, 1903.

It contains a list of the officers and members, a record of all fires and alarms with the names of owners and occupants, the loss and insurance, and the cause thereof as near as could be ascertained, together with the number and location of the hydrants.

APPARATUS.

The apparatus of the department consists of two hose wagons and one ladder truck, two one-horse pungs, one one-horse and one two-horse exercise sleds and one one-horse dump cart.

HORSES.

There are three horses in the department.

HOSE.

We have in service 4800 feet of hose, classed as follows: 3800 feet good, 500 feet second class, and 500 feet badly worn.

SIZE OF THE DEPARTMENT.

The size of the department is the same as in previous years.

The working force consists of one chief, two assistant engineers, three foremen, three assistant foremen, three clerks, three

drivers, and thirty-six hosemen and laddermen, making a total of fifty-one men in the City Fire Department.

FIRES AND ALARMS.

From March 1st, 1903, to January 1st, 1904 there have been twenty-three fires: seventeen bell alarms, three still alarms, and three no alarm given.

The number of fires for each month was as follows: March none, April two, May four, June none, July two, August one, September four, October one, November two, and December seven.

LOSS AND INSURANCE.

Value of property insured,	\$97,127.33
Loss on buildings,	9,887.25
Insurance on buildings,	33,300.00
Insurance paid on buildings,	5,235.00
Loss on personal property,	12,637.81
Insurance on personal property,	25,500.00
Insurance paid on personal property,	9,838.48
Loss over insurance paid,	7,451.58

DEATH.

Albert M. Meserve, who has been a genial and efficient member of Hook and Ladder Co. No. 1, for eight years, and who served as foreman for four years, died on Dec. 14, 1903.

In his death the Department has lost a valuable member and faithful worker.

IMPROVEMENTS.

During the year 1903 a few improvements have been made.

Two new fire alarm boxes have been purchased and one placed at the corner of Mechanic and Valentine streets, (number 34), and one at the corner of Bridge and Walker streets, (number 43).

There has also been purchased 500 feet of cotton rubber lined hose.

One new hydrant has been placed on North street in front of L. Maurice's residence.

The floor in the cellar of Valentine Hose House No. 2, has been cemented.

New and heavy hind wheels have been placed under Hose Wagon No. 1.

Concluding this report I wish to thank His Honor the Mayor, the City Council, the Committee on Fire Department and the Assistant Engineers for the interest manifested in the Fire Department and for their assistance at all times.

To the officers and members of the different companies I desire to extend my thanks for their prompt and ready response to all calls and the courtesy shown me during the year just closed.

Respectfully,

H. M. STEVENS,

Chief of Department.

WESTBROOK FIRE DEPARTMENT.

ORGANIZED MAY 14, 1891.

HOWARD M. STEVENS,
WILLIAM H. PARKER,
FRED B. SPEAR,

CHIEF ENGINEER
FIRST ASSISTANT
SECOND ASSISTANT

 - 2—At 8 A. M. and 12.30 P. M., no school in Grammar and Lower Grades.

NOTICE.—Nearly correct time is given upon the Fire Alarm gongs and bell at 7 A. M. and 9 P. M.

Directions and Instructions for use of the Westbrook Fire Alarm Telegraph.

Alarms to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go.

After giving an alarm, remain or leave some one at the box to direct the firemen to the fire, and to see that no one interferes with the box. Do not pull the hook a second time or allow anyone but an officer to do so.

Never pull an alarm when you hear the bell ring inside the box.

The locks are "trap locks" and you cannot take your key out until the arrival of a Fire Engineer with a master key.

After giving an alarm always close the outside door.

Report of the Board of Health.

WESTBROOK, ME., Dec. 31, 1903.

*To the Honorable Mayor and City Council the following report
is respectfully submitted:*

Seven complaints have been made during the year which have been attended to and cause removed.

In response to petitions, four vaults have been abolished and water closets substituted and connected with public sewers.

Forty-seven (47) cases of contagious diseases have been reported as follows :

Diphtheria,	5
Scarlet Fever,	15
Typhoid "	21
Measles,	8

In comparison with last year's report it will be seen that scarlet fever and diphtheria have diminished, while typhoid has greatly increased, which has been the case in other places.

The work of extending the sewer system that has been carried forward the last two or three years has greatly diminished the cause of complaint.

As many complaints came from house drainage discharging into the public streets or running at random on the surface.

Doubtless the time will come when all privy vaults will be discontinued where convenient access can be had to a public sewer.

E. A. DURRELL,	} Board of Health.
THOMAS P. SMITH, M. D.,

H. K. GRIGGS, *Secretary.*

Report of the Overseers of the Poor.

WESTBROOK, MAINE, Dec. 31, 1903.

To the Honorable Mayor and City Council of the City of Westbrook:

GENTLEMEN :—We, the Overseers of the Poor of the City of Westbrook, beg leave to submit the following report for the year ending Dec. 31, 1903.

City Farm.

Mr. and Mrs. Freedom Newcomb have continued during the year their supervision of the almshouse and farm in a very satisfactory manner. The inmates have had the best of care and have been kept very clean and orderly.

There has been one death during the year, that of Mr. Hugh Gilmore.

There have been five admitted and four discharged during the year.

The Family.

There are now eight inmates.

Henry Carr, 69 years old.

Archie Raymond, 32 years old.

Joseph LePage, 31 years old.

Almory Hezelton, 70 years old.

Caroline Barbour, 53 years old.

Bessie Babb, 59 years old.

Mary Huckins, 60 years old.

Florence Maffit, 49 years old.

Outside Poor.

There has been the usual amount of what is termed outside poor. During the year 25 or more families have been helped, numbering in all about 92 persons, the larger part of which are mothers with their children, the head of the family being sick and unable to work.

There are five inmates at the Insane Asylum at Augusta, costing us about \$1200 or \$1500 per year for board. They are Annie Webber, Isa Bailey, Francis Bishop, Mary Libby and Annie Lowell.

Julia Gothro is still at the Industrial school.

Assistance rendered soldiers and their families about the same as last year.

We have paid out somewhere about \$600 this year for back bills.

Itemized bills of our expenditures will be found in the Auditor's report.

We herewith append our inventory of the city property, both real estate and personal in our department.

Real Estate.

Real Estate,	\$8,000 00	2 double wagons	
Pest house,	300 00	and carts,	180 00

Report of the Truant Officer.

WESTBROOK, Dec. 7, 1903.

To the Honorable Mayor and City Council of Westbrook:

GENTLEMEN:—In accordance with my office as Truant Officer I have the honor to submit the following report of my work for the past nine months, from March 1, 1903, to December 7, 1903, inclusive.

Number of visitations upon schools,	963
Number of cases of investigation attended to,	165
Number of visitations on families,	148

I have received from the Superintendent of Schools an earnest co-operation and support in my work.

Respectfully submitted,

EDWIN W. JONES,

Truant Officer.

Report of Street Commissioner.

To the Honorable Mayor and City Council:

I have the honor to submit to you my report for the year 1903.

Roads and Bridges.

There has been a very large amount of work on the streets this year, which kept us at work the entire season on account of help being hard to obtain. The new bridge at Cumberland Mills was re-planked with four-inch hard pine. We have used over 1000 yards of gravel on the following streets: Stroudwater, Files, Spring, Valentine, Central, Mechanic, Old Gorham, New Gorham, Rochester, Pierce, Bridge, Austin, Bridgton. The road machines we used very much this year and to good advantage. Early in the season we commenced at the stone crusher. It was necessary to expend something over three hundred dollars to put the plant in running order and it is now in fine condition. We have crushed and used 2200 tons on the following streets: Cumberland, Main, Pierce, Brown, Mechanic. We also loaned the small crusher to James Pride at Highland Lake and allowed him \$3.00 per cord for the stone prepared for Bridgton street, thus making some good roads in that section of the city.

Walks.

We have added one piece of brick walk in front of the Elwell store and Grain Mill, also one opposite Church street. We added one from Dr. Leighton's on Main street, East End, to Thomas Watson's, and set curb for the same. A new stone walk

with curb made of same, from Spring to Stroudwater streets. We re-surfaced a very large amount of concrete walk. This makes our present walks in very good shape. We have added four new cross walks, two of which are made of crushed stone, and for these we think will prove very satisfactory.

Sewers.

We have laid the following sewers:

Myrtle street, 300 feet of 8 inch.

North and Pierce streets, 1400 feet of 8 inch.

Brown street, 625 feet of 8 inch.

Valentine street, 875 feet of 8 inch.

Rochester street.

All of these sewers have the proper fittings, together with manholes and catch-basins.

Cesspools.

We have built nine new cesspools in localities where they are very much needed. We also used mostly the Rochester grates. We also changed four grates and substituted the large No. 30 grate, which is a great improvement.

INVENTORY.

Two road machines,	\$ 300 00
One stone crusher, engine and boiler (new),	1,400 00
One stone crusher and engine (old),	600 00
One stone roller,	3 00
One tool box,	4 00
One steam drill and fixtures,	300 00
Seven lanterns,	2 50
One derrick and fixtures,	125 00
Two oil cans,	1 00

Four wrenches,	2 00
Four sewer tubs,	4 00
Two squares,	50
Five hundred feet hose,	50 00
Two sidewalk ploughs,	75 00
One contractor's plough,	15 00
Three Frye ploughs,	35 00

Two rakes,	60
Six hoes,	1 80
Two spades,	1 25
Five stone rakes,	1 50

One Edson pump,	40 00
Six snow shovels,	1 20

Recommendations.

I would recommend that the bridge on Spring street over Stroudwater river be rebuilt, as the abutments are in very bad shape; and that the same be raised some two or three feet.

I would also recommend that a sum of one thousand dollars (\$1000) be expended in raising the bridge and road-bed near Riverton at the outlet of Mill Brook, so called. This work is very much needed in this section, as the road is often three or more feet under water, making it impassable.

I would recommend more new walks on the south side of Main street between East and West End, as they are very much needed.

Respectfully,

F. H. GRANT,

Street Commissioner.

Report of City Marshal.

WESTBROOK, ME., Jan. 1st, 1903.

*To the Honorable Mayor and City Council of the City of
Westbrook:*

I would respectfully submit the following report as the official work of the Police Department of the City of Westbrook for the municipal year ending Jan. 1st, 1904, together with the following recommendations which I believe to be essential and proper for the better protection and improvement of all matters coming before this department.

Drunks,	23
Drunkenness and disturbance,	2
Assault with dangerous weapon,	1
Tramps,	6
Malicious mischief,	5
Disorderly in street cars,	1
Assault and battery,	5
Search warrants for liquor,	4
Illegal transportation,	1
Larceny,	5
Assault,	1
Evading hotel bill,	1
Single sale,	5
Trespassing on railroad,	1
Obscene and indecent language,	2
Petition to Industrial school,	1
Vagabond,	1

One woman arrested for larceny and turned over to Deputy Marshal Frith, Portland,	1
One man arrested for robbing mail and turned over to U. S. Inspector Owing,	1
Tramps lodged and fed,	233
	<hr/>
Total for year ending Jan. 1st, 1904,	300

And would recommend that a lockup be provided on the ground floor, and a padded cell be provided for confinement of insane persons, also one cell apart from others for detention of women, together with other cells necessary for drunks and criminals, and a room for accommodation of tramps.

Most respectfully submitted,

D. M. WIGHT,

City Marshal.

REPORT OF THE Committee on Drains and Sewers.

To the Honorable Mayor and Council of the City of Westbrook:

GENTLEMEN:—Your Committee on Drains and Sewers respectfully submit the following report for the year 1903.

We have recommended and the Council has authorized the Mayor to construct the following sewers, viz.,

185 ft. of 8 in. pipe on Myrtle street, at a cost of	\$116.82
950 " " " Valentine " "	525.69
1400 " " " North & Pierce streets, at cost of	906.02
630 " " " Brown street, at a cost of	399.83

Total cost of these sewers,	\$1948.36
-----------------------------	-----------

Of this amount the abutters have been assessed for betterments \$928.34, making the actual cost to the city \$1020.02. Owing to the faulty condition of the old Rochester street sewer, it was deemed advisable to lay a larger pipe on said street and avoid further damage claims. It was also found necessary to provide an outfall from Rochester street along Main street to the stone outfall near the Chase block. This work was contracted with Worster & Wilson, and consisted of 550 ft. of 24 inch pipe on Main street, and 300 ft. 22 inch, 450 ft. 18 inch, 275 ft. 15 inch pipe on Rochester street, connecting with the recently built Rochester street sewer at a manhole near the property of J. F. Hayes. The expenditure on this sewer, including catch basins, manholes and house connections amounted to \$3721.17. This

sewer is designed for house and surface drainage, and will not only provide for a large area above Pine street, but will relieve the crowded condition of Lamb street sewer, owing to surface water.

Other expenditures have been confined to necessary repairs, several new catch basins, cleaning ditches, etc.

Report of S. S. Committee.

To the Honorable Mayor and Board of Aldermen :

We have the honor to transmit to you the school report for the year ending Dec. 31, 1903.

The schools have held their sessions and the general program for public education has been carried out as indicated in the calendar for the year. We think it is cause for congratulation that no serious interruptions have occurred in the work and that the school curriculum could be followed in an almost absolute way.

This condition joined to the fact of an efficient corps of teachers has made it possible to report a most successful and profitable school year. The average attendance has been high and the whole number of scholars registered slightly in excess of the year previous. The school census of the city showed also a small increase over the returns of a year ago. While some cases of truancy have been brought to our notice, nothing unusual has occurred to call for special report. It has been the policy of the board to increase its watchfulness over those pupils who for whatever reason have been reported as inconstant in attendance. In some instances the age limit has made it impossible to accomplish anything, but we feel on the whole good results have been attained.

Our force of teachers remains practically the same as last year, few changes having been made in its personel. They are a faithful and efficient body of men and women in whom the city may justly take pride, and their work will compare favorably with that of any other city in the State.

The text books at the beginning of the year were, taking the schools as a whole, not in good condition nor were there enough books to work with properly. We were getting along with a text book appropriation unreasonably low and wholly insufficient. The city generously increased this amount at the request of the committee and we are happy to report that our books are at the end of this year in far better condition than last, and we are much better equipped to do the work expected. This is gratifying to the committee and has been a great help to the teachers. Such changes as have been made in the books we trust have further improved the teaching facilities of the schools.

The buildings are in good repair. The Sub-Committee having in charge repairs and sanitation are to be commended for their fidelity and the judicious use of the money entrusted to them. The small and unused school building on Spruce street was sold during the summer, there being no prospect that it would be needed again for school purposes. The land was retained by the city. Some most vexing questions have arisen and it would seem that a few of the citizens, not appreciating the difficulty of the situation, have unjustly criticised this committee. They have done all that could be done under the circumstances, and the Board approves their conduct. I do not think it necessary here to go into details respecting this matter, it is sufficient to report that in this and all other matters entrusted to their care, the interests of the city have been protected, and the wishes of all concerned have been considered.

Three years ago the School Committee approached the Mayor and pledged itself through its Sub-Committee on Finance, that if a reasonable appropriation was given the Board it would make every endeavor to live inside of that sum. Since that day the school committee has never overrun its appropriation. It has spent the money carefully and up to almost the last dollar but not more. The Sub-Committee on Finance this year, like its predecessors, has the same commendable report to offer. In one section a slight balance as two cents appears, in other

sections larger ones, but nowhere is there an overdraft. We submit to you that this is a commendable record, and this in a department of the city making larger yearly expenditures than any other. An itemized account of receipts and expenditures will be found elsewhere in this report, also the report of the Superintendent of Schools and the Principal of the High School.

The Board would commend Supt. Benson for the prompt discharge of the duties entrusted to him, his uniform courtesy and the efficient manner in which he has served the Board as its secretary.

The Board desires to commend the work of Principal Andrews and his assistants for their faithful work; they recognize genuine progress in the school and the earnest desire to do the best possible work. To effect this another teacher should be added to the number of assistants already in the school. The Principal should be more at liberty to visit the classes during the school sessions. He should be able to know of the work done in recitation otherwise than from the marks returned to him by his assistants. He also should be at liberty to give suggestions to his helpers, and this he can best do while the work of teaching is in progress. But aside from this, the demands of the school require another assistant. In other schools of the same size six instead of four assistants may commonly be found. We trust that you will increase this year the appropriation for the High school so as to make an additional teacher possible.

To further facilitate the work of the High School and the lower schools as well, a new building is needed. This matter the Board has presented to you in detail and also to a committee appointed to confer with them. The need is imperative. It cannot be disguised and to perpetuate the present conditions longer is an injustice to both pupils and the citizens of the city. The plan suggested is a feasible one and perhaps the least expensive that it is possible to suggest. Mere makeshifts in this matter will end in more expense than is suggested by the plan of your School Board. They have carefully canvassed the whole

situation and realize keenly the need that exists. We trust that the urgency of the case will lead to prompt action by your honorable body. The school should be ready for school purposes by the opening of the fall term. We earnestly solicit that you give this matter favorable action at the earliest possible moment.

It is gratifying to be able to record the pleasant relations which have existed among the members of the Board for the year, the cordial sympathy with which they have acted upon the money items of business coming before it, and the hearty support each Sub-Committee has given the other in the discharge of their several duties.

Respectfully submitted,

REV. ELLIOT B. BARBER, *Chairman*.

RUSSELL D. WOODMAN.

Superintendent's Report.

To the S. S. Committee:

GENTLEMEN:—Herewith is presented the thirteenth annual report and being my fifth annual report as Superintendent of Schools of the City of Westbrook.

STATISTICS.

Total number enumerated by census of April, 1903, between the ages of 4 and 21 years, 2622; divided as follows:

Ward 1,	364 scholars
Ward 2,	597 “
Ward 3,	505 “
Ward 4,	891 “
Ward 5,	265 “

The school enrollment for Spring Term was as follows:

Boys,	547
Girls,	623
	<hr/>
Total,	1170

Average attendance for Spring Term, 1065.

Per cent. of average attendance to total enrollment for Spring Term, 91.

The enrollment for Fall Term:

Boys,	572
Girls,	632
	<hr/>
Total,	1204

Average attendance for Fall Term of fourteen weeks was 1082.

Per cent. of average attendance to total enrollment, 90.

The change in the City Charter making the municipal year close Dec. 31st of each year instead of the last day of February following, as formerly, causes this report to contain statistics for only two terms.

The amount expended as shown in the financial report for this short year should be considered only as sufficient for two terms of 24 weeks.

To keep our schools showing progress and improvement we need quite a large expenditure of money and we may feel that the taxpayers are well satisfied with our efforts by their generous appropriations each year.

There have been a few changes in text-books during the year which are proving quite to the advantage of our plan of work.

The new basal readers—The New Education, adopted for the first grades are proving decidedly superior to those previously used. The books contain lessons which are highly interesting and have a practical and well graded vocabulary.

The work of phonics which is of utmost importance is introduced in such a way as not to overtax the child and be a source of discouragement rather than pleasure. The constant review of new words brings the pupils to acquire a well established vocabulary while at the same time they are learning to read with expression and enthusiasm.

Several modern books have been introduced into the High School and will undoubtedly add to its present well selected text-book equipment.

To keep up the standard of work, it is necessary to furnish as good books as may be at our command to furnish.

It has been my desire to provide each school with a sufficient number of books and avoid the necessity of transferring them from one school to another and I can report less transferring of books during the last year than during a like period for five years.

When we consider that we only expend for text-books less

than 69 cents for each pupil in schools, including the necessary expenditure for a large High School, it is easily seen that a great deal of economy has to be practiced in this department alone. At the present time there are in use at the various schools 12,791 text-books and nearly all are in good condition.

The schools of Westbrook show that the work in the various grades is of a standard that is looked upon with much satisfaction by the citizens of the city. The teachers have worked harmoniously and have shown an unmistakable interest by their earnest efforts along the various lines which the true teacher needs to follow.

The change, in the plan of ranking in the High School, from numbers to letters and requiring examinations each six weeks instead of once a term as heretofore seems to be more satisfactory.

The plan of submitting the ranks to parents each six weeks gives the parents a chance to be better acquainted with their son's or daughter's work and if necessary have more interest in the High School requirements.

The Manual Training School is showing evidence of increasing popularity and usefulness as a part of our school system. Manual Training does not always show results that are expected because the work of the teacher depends so much upon individual instruction and the teacher, having from twenty to twenty-five pupils, has not much time for individual attention but through Mrs. Berry's interest the pupils have received assistance which has obviated this difficulty to a certain extent.

As we have added new school rooms during the last two years, there has been no well directed effort to furnish pictures appropriate for these school rooms to make them compare favorably with those rooms previously furnished. I trust that at an early date attention will be given this matter.

There will need to be some quite extensive repairs made and as you have such under consideration at the present time, mention need not be made of repairs in detail.

The graduating class from the High School has received an expression of thanks for the kindness shown in presenting the school with a new flag. Each school with the exception of one, Warren, is provided with a flag and without doubt this one will be supplied soon.

Owing to the increasing demands in the work of the High School it is essential that the building be used exclusively for high school work and provisions should at once be made to remove from this building the two primary rooms which have been there for so many years.

There is need of a practical business course in the High School. The reasons are so apparent that the city will undoubtedly make provisions for such a course as soon as room is available. The results of this course will more than compensate for the extra cost in providing for the same.

Allow me to thank the teachers for their earnest co-operation with me during the year just closed, and the members of the S. S. Committee for hearty support and interest in conducting the schools under our charge.

Respectfully submitted,

FRED BENSON,

Superintendent.

†Resigned at end of Spring Term. *Fall Term. ‡Transferred at end of Spring Term

Report of the Principal of the High School.

WESTBROOK, Dec. 23, 1903.

To the Superintending School Committee:

GENTLEMEN :—The large entering class in the fall term forcibly emphasizes the necessity of more room for our work in the High school. Large classes are obliged to recite in rooms much too small for comfort, to say nothing of sanitary requirements. In order to do the work in Physics which is done by other High schools of the size of ours, a physical laboratory is urgently needed. Last year, with smaller classes, we were able to utilize part of the chemical laboratory for the Physics class, but with larger classes this arrangement is impracticable. There is but one room beside the main room in which there are desks. This is extremely inconvenient when the teacher wishes to give the class a written lesson, or to dictate notes for the next recitation. The entire building is none too large for the use of the High school exclusively, and arrangements should be made as soon as possible to accommodate the pupils of the lower grades elsewhere.

It is a gratifying fact that comparatively few have dropped out of the school during the year. Nearly all the pupils in good standing at the close of the spring term returned in the fall, and during the fall term only five of the 142 registered left before the close of the term, these all being members of the Freshman class.

At the meeting of the New England College Entrance Certificate Board held in October, this school was placed on its approved list for a period of three years commencing January 1,

1904. During this period graduates of this school will be admitted upon the certificate of the principal into the following colleges, without examination: Amherst, Boston University, Bowdoin, Brown, Dartmouth, University of Maine, Mount Holyoke, Smith, Tufts, Wellesley and Wesleyan.

The "point system" is working well. The fact that a certain number of points must be gained, and that to gain these the pupil is allowed some latitude in the selection of studies, are features that make it a decided improvement over the old "course of study" system.

Respectfully submitted,

W. B. ANDREWS,

Principal.

CLASS ODE.

Words by Esther Clare Johnson.

Music composed by Alice Rose Quinby.

The wilding by the brooklet's brim,
Half hid in leafy gloom,

Repeats within the crystal tide
A shadow-dream of bloom ;
So friendship's gentle ministries
Unnoticed, fond and true,
Reflect within responsive hearts
Their own unfading hue.

"Bring lilies with full hands" to lay
On Alma Mater's shrine,
And with their transient loveliness
This fadeless flower intwine.
The flower of friendship, fragrant, free,
Shall grace the wreath we bring,
And whisper still, undimmed by years,
Sweet memories of the spring.

School Calendar.

Fall term begins Monday, Sept. 14, 1903.
Fall term closes Friday, Dec. 18, 1903.
Winter term begins Monday, Jan. 4, 1904.
Winter term closes Friday, March 25, 1904.

Memorial Day, Monday, May 30, 1904.

REPORT OF THE Trustees of Woodlawn Cemetery.

WESTBROOK, Jan. 1st, 1904.

To the Honorable Mayor and City Council of Westbrook:

GENTLEMEN:—In accordance with Section four of the City Ordinances for the control of Woodlawn Cemetery we respectfully submit the following report.

VALUATION.

Number of lots made and unsold,	\$4,086 50
House and lot,	800 00
About four acres of improved but unoccupied land,	1,100 00
Tools,	25 00
Hay,	50 00
Dressing,	20 00

\$6,081 50

Number of lots sold since March 1st, 1903, including half-lots, twelve and one-half,	\$670 00
Received for perpetual care,	425 00
Received for three single graves,	15 00

There has been finished eleven hundred feet of sidewalk on Rochester street extension.

Eleven hundred feet of Hartman No. 3 steel picket fence, thoroughly painted, has been placed on Rochester street side of the Cemetery.

Western avenue has been extended two hundred feet.

Eight lots have been made in Section B on the unavailable land reported in 1902.

Eight lots have been made in Section K.

Pine Grove has been divested of its trees, the stumpage removed and the land ploughed and graded. This portion of Section C which is to be plotted is regarded as the most valuable portion of the Cemetery, facing as it does Rochester street.

Lots sold previous to March 2, 1896, whose owners have not paid for perpetual or annual care, will not receive such attention until provision is made for the same with the Trustees.

Report of the Committee on Accounts.

To the President and Members of the City Council:

Your Committee on Accounts beg leave to report as follows:

That they have carefully followed the accounts of the Auditor, Collector and Treasurer during the past municipal year, and having examined all bills and vouchers, and checked the same, and having compared all individual payments in the Collector's books and those of other departments with the Treasurer's cash book receipts, we find every item properly cast and accounted for.

The labors of your Committee have been very much lightened by the able and willing assistance of the Auditor, Treasurer and Treasurer's Assistant.

KIT R. BLASLAND,	} Committee on Accounts.
A. F. SMALL.	

Report of the Auditor.

AUDITOR'S OFFICE,
WESTBROOK, Jan. 1, 1904.

To the Honorable Mayor and Council of the City of Westbrook:

GENTLEMEN:—In accordance with the requirements of the ordinance relating to the office of "Auditor of Accounts," I have the honor to present herewith my report of the receipts and expenditures of the various departments of the City of Westbrook for the financial year ending Jan. 1, 1904, which consists only of ten months.

By referring to the Net Debt account you will note that a reduction of \$13,506.37 has been made, but from this amount should be deducted the balance due on the State Tax, \$2,097.48 which makes the actual reduction in the Net Debt for the ten months of \$11,408.89.

The city debt at the beginning of the year was as follows:

LIABILITIES.

Notes,	\$ 42,925 31	
Bonds,	129,000 00
