CODE OF ORDINANCES
CITY OF LEWISTON, MAINE

Section 1. The Code entitled "Code of Ordinances, City of Lewiston, Maine," published by Municipal Code Corporation, consisting of Chapters 1 through 82, each inclusive, is adopted.

Section 2. All ordinances of a general and permanent nature enacted on or before July 19, 1994, and not included in the Code or recognized and continued in force by reference therein are repealed.

Section 3. The repeal provided for in Section 2 hereof shall not be construed to revive any ordinance or part thereof that has been repealed by a subsequent ordinance that is repealed by this ordinance.

Section 4. Unless another penalty is expressly provided, every person convicted of a violation of any provision of the Code or any ordinance, rule or regulation adopted or issued in pursuance thereof shall be punished by a fine of not more than $1,000.00. Each act of violation and each day upon which any such violation shall occur shall constitute a separate offense. The penalty provided by this section, unless another penalty is expressly provided, shall apply to the amendment of any Code section whether or not such penalty is reenacted in the amendatory ordinance. In addition to the penalty prescribed above, the council may pursue other remedies such as abatement of nuisances, injunctive relief and revocation of licenses or permits.

Section 5. Additions or amendments to the Code, when passed in the form as to indicate the intention of the council to make the same a part of the Code, shall be deemed to be incorporated in the Code, so that reference to the Code includes the additions and amendments.

The notice shall advise said owner or tenant that the use of the property as an adult business establishment is apparently nonconforming and that failure to apply for and obtain a nonconforming use permit, as provided herein, may result in the termination of its right to continue such a use.

(b) Time for application. An adult business establishment which is eligible for a nonconforming use permit, pursuant to appendix A, article IV, § 6, must submit a complete application, as provided herein, to the city clerk within 90 days from December 20, 1984, or within 30 days from the date of mailing of the notice to the owner or tenant operating said establishment, whichever is later. Nothing herein shall be construed to prevent an eligible nonconforming adult business establishment from applying for a use permit before a notice is sent by the city clerk, and an application for a use permit shall be deemed a waiver of the notice requirement.

(c) Contents of application. The application for an initial nonconforming use permit shall be on a form provided by the city clerk, and a complete application shall contain such information as deemed necessary by the city clerk including, but not limited to:

(c) **Late application.** The holder of an expired nonconforming use permit may obtain a renewal permit by submitting a complete renewal application, as provided herein, together with a late fee of $10.00, not later than 15 days from the date of mailing of the notice.

(d) **Contents of renewal application.** The renewal application shall be on a form provided by the city clerk, and a complete application shall contain such information as deemed necessary by the city clerk; including, but not limited to, such information as is necessary to establish that during the 12 months immediately following the effective date of the last issuance of such permit, the adult business establishment met the qualifications set forth in appendix A, article IV. The city clerk may require the applicant to produce such documents and records, and to respond to such interrogatories under oath or affirmation, as is reasonably necessary to establish that the applicant qualifies for the permit. For purposes of establishing that the applicant has met the gross receipts requirements of appendix A, article IV, a sworn affidavit of a certified public accountant, who has personal knowledge of the financial records of the applicant, shall be accepted as sufficient evidence on such issues.

(Code 1982, § 17-144)

**Sec. 10-155. Decisions and appeals.**

During such owner confinement, the animal shall be subject to examination by the ACO or his/her deputy at any time.

Impoundment at any state or city approved facility for rabies quarantine purposes shall be at the expense of the owner of the impounded animal, livestock or wildlife. In the event a harborer of a quarantined animal cannot be identified and located within a reasonable length of time, the victim, at his/her option (or at the option of the parent or legal guardian in the case of a minor under the age of 18 year of age), may elect to have the animal examined by a veterinarian, or to have the tissue submitted for laboratory examination; and the costs so incurred shall be borne by the victim. Upon the publication of such proclamation by the director, any person keeping or harboring any animal shall restrain the animal from running at-large except that such animal under the control of an adult person and on a leash, may do so only if the animal is effectively muzzled. As a matter of policy, the ACO shall not enter private property to capture and/or impound any animal known to belong to the owner of said property without probable cause to believe that said animal poses a threat, public nuisance or danger to property, human beings or other animals.

(b) Additionally, it is the responsibility of the ACO to accept any animal delivered to the ACO or the facility under his/her control (while he/she or other authorized agents of the city are physically present) pursuant to the requirements of this chapter, except those animals that are voluntarily released by their owners. (d) Prior to the release from impound, the authorized owner must obtain an impound release form from the ACO or an official within the police department. (a) It is the duty of the ACO to capture and impound, when appropriate, wild or non- domesticated animals in response to citizen complaints of public nuisance or to control feral populations.

(b) If, by identification tag, the owner of an impounded animal can be identified, the ACO will, as soon as practical, notify the owner either in person or by telephone of said impoundment. If the animal is locally owned within the city and telephone contact cannot be made, the ACO will leave a notice at the owner's last known and verifiable residence indicating that the animal has been impounded.

(c) All impounded animals shall be kept for not less than eight days, unless the animal is reclaimed earlier by the rightful owner under conditions acceptable to the ACO. However, no impoundment period is required for an animal voluntarily delivered and released into the custody of the ACO by its owner.

(d) After the expiration of any required impoundment period, the impounded animal shall be released to the animal control facility or veterinary hospital contracted by, or doing business with, the city. At that time, the animal shall be disposed of by adoption from the facility, by offering it to a local animal humane group for adoption, or by humanely destroying the animal. No record shall be kept by the ACO as to the disposition of an individual animal after release is made to the animal control facility/veterinary hospital for the purposes specified in this paragraph.

(a) Upon receipt of a written sworn notarized affidavit by any person, charging that a particular animal is dangerous, the city director of public health shall conduct an administrative hearing within ten days of the receipt of such affidavit, to determine whether such animal is, in fact, dangerous. Unless the matter is resolved by mutual agreement of all parties involved prior to the hearing, said animal shall be impounded until a final disposition is reached. Any written sworn notarized affidavit shall contain at least the following information:

(1) Name, address and telephone number of the complainant and witnesses; and

(2) Date, time and location of the incident(s); and

(3) A complete description, to the best of the complainant's ability, of the animal including breed, color, sex, size, etc.; and

The complainant in the matter shall also be notified by certified return receipt mail. At such hearing, all parties shall be given the opportunity to present evidence on the issue of whether or not such animal is to be declared dangerous.
(c) Upon conclusion of a dangerous animal hearing, the city director of public health may find that the animal is not dangerous. In such cases, the animal shall be returned to the owner, provided the animal has been properly vaccinated and registered and all applicable fees are paid.

(d) Should the animal be classified as a dangerous animal, the owner shall comply with one of the following requirements:

(1) Humane destruction of the dangerous animal; or
(2) Provide for the keeping of the animal as detailed in section 14-20 and 14-21 of this chapter.

(f) Findings of the city director of public health pertaining to dangerous animals may be appealed to the superior court in accordance with the provisions outlined in state law. During the pendency of such appeal, the findings of the city director of public health shall be suspended. However, the animal shall continue to be impounded at the owner's expense at the animal control facility selected by the ACO for observation and to protect the health and safety of the public until a final disposition is reached.

(g) If an animal that has been declared dangerous causes death or serious bodily injury to a person or to another animal, the city director of public health may order that the animal be destroyed in a manner consistent with state law. All related expenses shall be paid by the owner.

(h) Where the victim of a dangerous animal, specifically a dog, has incurred medical expenses, veterinary expenses, or any other direct financial loss, the owner of said dangerous dog shall be ordered to pay restitution to the victim in accordance with the criteria set forth in 17-A M.R.S.A. § 1325.

ARTICLE XIV. OUTPATIENT ADDICTION TREATMENT CLINICS

Sec. 22-410. Purpose.

The city council recognizes that an outpatient addiction treatment clinic can be a valuable component of our health care system. The city council also recognizes that the appropriate siting of such clinics, including restricting their proximity to schools, churches, family day care homes, small day care facilities, day care centers, and public parks and play grounds as well as other locations where children and other young adults may frequent is important in order to protect the public. In addition, the city has devoted substantial resources and made significant efforts to attract retail and commercial development in the Southern Gateway Development District, South Lewiston Retail Growth District, and Western Gateway Development District. The city council finds that it is in the best interests of the city to protect areas where efforts are currently being made to stimulate new business investment, and encourage focused and planned economic growth, which includes the districts identified above. Siting of outpatient addiction treatment clinics in these areas could detract from these efforts. Proper siting will also work to minimize potential adverse law enforcement impacts and overburdening of police and rescue resources. The city council finds that with the reasonable and necessary siting restrictions listed herein, there remain sufficient suitable areas within the city to site outpatient addiction treatment clinics. Licensing of these facilities will enhance community relations with the providers of such clinics and will establish lines of communications with the clinics. Licensing of these facilities is appropriate and consistent with the city's policies and practices to review and license business activities that impact its citizens. The licensing is not meant to duplicate the licensing done at the state level pursuant to 14-118 CMR Ch. 4 Regulations for Licensing/Certifying Substance Abuse Treatment Programs in the State of Maine, but to provide separate and additional requirements as necessitated by the above findings.

(Ord. No. 06-06, 5-4-06)

This article shall apply to any outpatient addiction treatment clinic which is located within the city.

Sec. 22-415. Location criteria.

(1) Location criteria.

a. No clinic may be located within 1,000 feet of any church, school, family day care home, small day care facility, day care center, or public park or playground.

b. No clinic may be located within the bounds of the following revitalization and/or growth areas: South Lewiston Retail Growth Area, Southern Gateway, and the Western Gateway.

(2) Neighborhood compatibility standards. No license shall be approved if the city council finds that the granting of the license would violate one or more of the
BUSINESSES

following neighborhood compatibility standards:

a. Neither the proposed use nor the proposed site upon which the use will be located is of such a character that the use will have significant adverse impact upon the value or quiet possession of surrounding properties. The city council may not find that this standard is satisfied unless it finds that:

1. The size of the proposed use is comparable to the size of surrounding uses;

2. The amount and type of traffic to be generated, hours of operation, expanse of pavement, and the number of parking spaces are comparable to surrounding uses;

3. The generation of noise, dust, odor, vibration, glare, smoke, litter and other nuisances is comparable to that generated surrounding uses;

4. The impact of the use on the quality and quantity of groundwater available to abutting properties is comparable to that for surrounding uses;

5. Unusual physical characteristics of the site, including size of the lot, shape of the lot, topography, and soils, do not aggravate adverse impacts upon surrounding properties.

(3) Vehicular and pedestrian access and circulation to, from, into and within the site will be safe and no public way will be overburdened or made hazardous as a result of the new use of and/or development of the property. The city council may not find that this standard has been satisfied unless it first finds that:

a. Vehicular access to the site will be on roads which have adequate capacity to accommodate the additional traffic generated by the development. Adequate capacity means that: Intersections on major access routes to the site within a one-half mile radius of any entrance road will function after development at a minimum at Level of Service C, as defined in Maine Department of Transportation regulations, 17-229 C.M.R. Ch. 305, Rules and Regulations Pertaining to Traffic Movement Permits (2000); or

b. If any such intersection is functioning at a Level of Service D (as defined in MDOT regulations Chapter 305, cited above) or lower prior to the development, the project will not reduce the current level of service. The city council may approve a license for an application not meeting this requirement if the applicant demonstrates that: A public agency has committed funds to construct the improvements necessary to bring the level of access to said standard, or the applicant will assume financial responsibility for the improvements necessary to bring the level of service to said standard and will guarantee the completion of the improvements within one year of approval of the license.

(4) The topography of the site shall permit the construction of all driveways, entrances or proposed streets to meet the standards set forth in appendix A, article XIII, subsection 4(c) of this Code.
(5) Adequate facilities are present to assure the safety of pedestrians passing by or through the site.

(6) Municipal or other facilities serving the proposed use will not be overburdened or made hazardous. The city council may not find that this standard is satisfied unless it finds that: The capacity of sewerage and water supply systems is adequate to accommodate the proposed use; the capacity of the storm drainage system is adequate to accommodate the proposed use; and the ability of the fire department to provide necessary protection services to the site and development is adequate.

(7) The soils on the proposed site shall have adequate capacity and stability to support all loadings, including fill, developed by the proposed use and the use will not cause unreasonable soil erosion or reduction in the capacity of the land to hold water to the extent that a dangerous or unhealthy condition may result on the site or upon the land of abutters. In considering whether this standard is satisfied, the city council shall take into account the elevation above sea level of the site and surrounding properties, its relation to floodplains, the slope and vegetation of the land and their effects on drainage.

(8) The scale and design of the proposed structures with respect to materials, scale and massing shall be compatible with existing structures within 500 feet of the site in areas where the existing structures are of a similar scale and architectural treatment.

(Ord. No. 06-06, 5-4-06)

Sec. 22-416. Screening requirements.

All clinics shall be required to erect and maintain opaque fencing to provide an effective visual screen at least six feet in height to be located along side and rear property lines that abut properties in residential use. Said fencing is to screen the clinic entrance and parking lot from ordinary view from all directly adjoining properties.

(Ord. No. 06-06, 5-4-06)

Sec. 22-417. Meetings with the chief of police.

Meetings will be conducted at the clinic, held at the discretion of the chief of police, to allow the applicant and city staff the opportunity to discuss issues with the chief of police and or his designee. The purpose of said meetings is to establish a good working relationship between the police department and the owner and operators of clinics.

CABLE TELEVISION

ARTICLE I. IN GENERAL

Sec. 24-1. Establishment and purpose.

This chapter is an ordinance providing for city regulation and use of the cable television system including its construction, operation and maintenance in, along, upon, across, over and under the streets, alleys, public ways and public places now laid out or dedicated, and all extensions thereof and additions thereto in the city, including poles, wires, cables, underground conduits, manholes, conductors and fixtures necessary for a cable television system and to provide conditions accompanying the grant of a franchise and providing for the city's regulating of cable television system operation.

(Ord. No. 96-17, 12-17-96)

Sec. 24-2. Definitions.

For purposes of this chapter, the following definitions shall apply unless the context clearly implies otherwise:

Cable television company or company means any person, firm or corporation owning, controlling, operating, managing or leasing a cable television system within the city.

Cable television system means any facility that, in whole or in part, receives directly or indirectly over the air, and amplifies or otherwise modifies signals transmitting programs broadcast by one or more television or radio stations, or originates its own signal or signals produced through any of its community access channels, and distributes such signals by wire or cable to subscribing members of the public who pay for such services. The term does not include any such facility that serves fewer than 50 subscribers or that serves only the residents of one or more apartment dwellings under common ownership, control or management, and commercial establishments located on the premises of the apartment dwellings.

City shall mean the City of Lewiston organized and existing under the laws of the State of Maine and the area within its territorial limits.

(Ord. No. 96-17, 12-17-96)

Cross references: Definitions and rules of construction, § 1-2.

Sec. 24-3. Franchise required.

No person, firm or corporation shall install, maintain or operate within the city or any of its public streets or other public areas any equipment or facilities for the operation of a cable television system unless a franchise agreement authorizing the use of said public streets or areas has first been obtained pursuant to the provisions of this chapter and unless said franchise agreement is in full force and effect.

(Ord. No. 96-17, 12-17-96)

Sec. 24-4. Franchise contract.

The municipal officers of the city may contract on such terms, conditions and fees as are in the best interest of the municipality and its residents with one or more cable television companies for the operation of a cable television system within the city, including the granting of
nonexclusive franchise agreements for the operation thereof for a period not to exceed 15 years.

Applicants for a franchise agreement, including applicants for renewal of a franchise agreement, shall pay a reasonable fee to the city to defray the cost of public notices, advertising and other expenses relating to, or incurred by the city in acting upon, such applications. The amount of said fee is to be determined by the municipal officers.

The application shall be filed with the city clerk and shall contain such information as the city may require, including but not limited to a general description of the applicant's proposed operation, a schedule of proposed changes, a statement detailing its previous two fiscal years, an estimated ten-year financial projection of its proposed system and its proposed annual city franchise fee or the basis for same, and a statement detailing the prior operational experience of the applicant in both cable television and microwave service including that of its officers, management and staff to be associated with the proposed operation.

Prior to issuing a request for proposals to any cable television company or companies for franchise agreements or renewals, the city shall hold a public hearing or conduct some other process to determine any special local needs or interests with respect to cable television service and shall allow for a period of public comment on the request for proposals.

Franchise agreement applications, including renewal applications, and any submittals in response to a request for proposals or solicitation of bids and related documents, are public records. Upon the filing of such documents, the city shall provide reasonable notice to the public that such documents are open to public inspection during reasonable hours.

A franchise agreement may be revoked by the municipal officers for good and sufficient cause after due notice to the company and a public hearing thereon; with the sole right to appeal to the Androscoggin County Superior Court pursuant to Rule 80B of the Maine Rules of Civil Procedure.

(Ord. No. 96-17, 12-17-96)

Sec. 24-5. Public hearing.

Before authorizing the issuance of any such franchise agreement, including renewals, and approvals of any transfers of ownership, property or rights under franchise agreements, the municipal officers shall review the applicant's character, financial and technical qualifications and the adequacy and feasibility of its qualifications to operate a cable television system within the city, and shall conduct a public hearing thereon with at least seven days advertised notice prior to said public hearing. Such public hearing shall provide a reasonable opportunity for public input on the proposed franchise agreement, renewal or transfer.

(Ord. No. 96-17, 12-17-96)

Sec. 24-6. Performance bond and insurance coverage.

Upon the execution of any such franchise agreement, the cable television company shall file a surety company performance bond in the amount and in such form as is acceptable to the city.

The city, in making this determination, may rely upon the advice of the municipal officers, city administrator, city attorney and/or other appropriate city officials. The amount of
said bond shall not be less than the estimated cost of performing any work specified in the franchise agreement and shall include the cost of dismantling the cable television system. Said bond shall be conditioned upon the faithful performance of said contract and full compliance with any laws, ordinances or regulations governing said franchise agreements.

When the cable television company has completed construction of the system as set forth in the franchise agreement and provided that the cable television company is otherwise in compliance with the terms of the franchise agreement, the municipal officers shall permit the company to reduce said bond to an amount sufficient to cover the cost of dismantling the system.

The cable television company shall also, upon execution of any such franchise contract, provide evidence of such public liability, copyright infringement and other insurance coverage as the municipal officers may require.

The municipal officers may opt to provide for a cash security fund in lieu of a performance bond and appropriately condition the security fund.

Any such order shall be revoked upon the presentation of satisfactory evidence that the dangerous situation which prompted it no longer exists. Such evidence may consist of instrument readings and other scientific data relative to the presence of natural gas in the area where the leak is located.

(b) Any person who refuses to comply with any lawful order issued under the provisions of this section shall be punished by a fine in accordance with the city's policy manual as approved by the city council, which such fine shall not be suspended. The term “Eligible Person” does not include a person who is a fugitive from justice as defined in 15 M.R.S. §201 or any person for whom the municipality is ineligible for reimbursement in accordance with the rules, regulations, and statutes governing the State of Maine’s General Assistance program.

Emergency means any life threatening situation or a situation beyond the control of the individual which, if not alleviated immediately, could reasonably be expected to pose a threat to the health or safety of a person.

General assistance administrator means a municipal official designated to receive applications, make decisions concerning an applicant's right to receive assistance, and prepare records and communications concerning assistance. The administrator may be an overseer or an authorized agent such as a town manager, welfare director, or caseworker.

General assistance program means a service administered by a municipality for the immediate aid of persons who are unable to provide the basic necessities essential to maintain themselves or their families. A general assistance program provides a specific amount and type of aid for defined needs during a limited period of time and is not intended to be a continuing "grant-in-aid" or "categorical" welfare program. This definition shall not in any way lessen the responsibility of each municipality to provide general assistance to a person each time that the person has need and is found to be otherwise eligible to receive general assistance.

Household means an individual or a group of individuals who share a dwelling unit. When an applicant shares a dwelling unit with one or more individuals, even when a landlord-tenant relationship may exist between individuals residing in the dwelling unit, eligible applicants may receive assistance for no more than their pro rata share of the actual costs of the shared basic needs of that household according to the maximum levels of assistance established in the municipal ordinance. The pro rata share is calculated by dividing the maximum level of assistance available to the entire household by the total number of household members. The income of household members not legally liable or otherwise responsible for supporting the household shall be considered as available to the applicant only when there is a pooling of income.

Income means any form of income in cash or in kind received by the household, including net remuneration for services performed, cash received on either secured or unsecured credit, any payments received as an annuity, retirement or disability benefits, veterans’ pensions,
workers' compensation, unemployment benefits, benefits under any state or federal categorical assistance program, supplemental security income, social security and any other payments from governmental sources, unless specifically prohibited by any law or regulation, court ordered support payments, income from pension or trust funds, household income from any other source, including relatives or unrelated household members and any benefits received pursuant to Title 36, chapter 907 and Title 36, section 5219-II, unless used for basic necessities as defined in section 4301, subsection 1.

The following items shall not be considered as income or assets which must be liquidated for the purposes of deriving income.

(1) Real or personal income-producing property, tools of trade, governmental entitlement specifically treated as exempt assets by state or federal law;

(2) Actual work-related expenses, whether itemized or by standard deduction, such as taxes, retirement fund contributions, union dues, transportation costs to and from work, special equipment costs and child care expenses; or

(3) Earned income of children below the age of 18 years who are full-time students and who are not working full time.

In determining need, the period of time used as a basis for the calculation shall be a 30-day period commencing on the date of application. This prospective calculation shall not disqualify an applicant who has exhausted income to purchase basic necessities, provided that the income does not exceed the income standards established by the municipality.

Notwithstanding this prospective calculation, if any applicant or recipient receives a lump sum payment prior or subsequent to applying for assistance, that payment must be prorated over future months.

Just cause means a valid, verifiable reason that hinders an individual from complying with one or more conditions of eligibility.

Lump sum payment means a one-time or typically nonrecurring sum of money issued to an applicant or recipient. "Lump sum payment" includes, but is not limited to, retroactive or settlement portions of social security benefits, workers' compensation payments, unemployment benefits, disability income, veterans' benefits, severance pay benefits, or money received from inheritances, lottery winnings, personal injury awards, property damage claims or divorce settlements. A lump sum payment includes only the amount of money available to the applicant after payment of required deductions has been made from the gross lump sum payment. A lump sum payment does not include conversion of a nonliquid resource to a liquid resource if the liquid resource has been used or is intended to be used to replace the converted resource or for other necessary expenses.

Maximum levels of assistance means the amount of assistance as established in article IV or the actual cost of any basic necessity, whichever is less.

Misconduct shall have the same meaning as misconduct defined in 26 MRSA§1043 (23). Generally, employees are guilty of misconduct when the employee violates his or her duties or obligations to the employer. Employees who engage in a pattern of irresponsible behavior to the detriment of the employer’s interests may also be found guilty of misconduct.

Municipality means any city, town or plantation administering a general assistance
program.

*Municipality of responsibility* means the municipality which is liable for the support of an Eligible Person at the time of application.

*Need* means the condition whereby a person's income, money, property, credit, assets or other resources available to provide basic necessities for the individual and the individual's family are less than the maximum levels of assistance.

*Net general assistance costs* means those direct costs incurred by a municipality in providing assistance to Eligible Persons according to standards established by the municipal officers. These do not include the administrative expenses of the general assistance program.

*Period of eligibility* means the time for which a person has been granted assistance. The period of eligibility may vary depending on the type of assistance, provided, however, that in no event shall this period extend beyond one month.

*Pooling of income* means the financial relationship among household members who are not legally liable for mutual support in which there occurs any commingling of funds or sharing of income or expenses. Municipalities may by ordinance establish as a rebuttable presumption that persons sharing the same dwelling unit are pooling their income. Applicants who are requesting that the determination of eligibility be calculated as though one or more household members are not pooling their income have the burden of rebutting the presumption of pooling income.

*Real estate* means any land, buildings, homes, mobile homes, and any other things affixed to the land.

*Recipient* means a person who has applied for and is currently receiving general assistance.

*Registered Domestic Partner* means an individual registered as the domestic partner of the applicant pursuant to 22 M.R.S.A. § 2710.

*Resident* means a person who is physically present in Lewiston with the intention of remaining in Lewiston in order to maintain or establish a home and who has no other residence. A person who applies for assistance in Lewiston who is not a resident of Lewiston or any other municipality is the responsibility of the municipality where the person first applies. That municipality must take an application and grant assistance to the applicant if he is eligible, until he establishes a new residence in another municipality. See section 46-40.

*Resources* means and includes any program, service, or other sources of support which are an alternative to or supplement for general assistance. There are two kinds of resources: available and potential.

1. *Available resources.* Available resources include resources which are immediately available to the applicant or which can be conveniently secured by the applicant without delay, such as cash on hand or in bank accounts, assets for which there is an immediate and available market, or support from relatives which is being made available at the time of application and for which the applicant does not have to take any unreasonable steps to secure (e.g., relocation beyond the immediate region). Available resources also include the services, commodities or facilities made available by private organizations when:
GENERAL ASSISTANCE

a. The applicant voluntarily agrees to utilize such services;
b. The municipality has established a contractual relationship with the private organization to provide services or commodities when requested;
c. The municipality is able to secure the services or commodities needed by an applicant from the private organization for any consideration acceptable to both the organization and the municipality; and
d. The service is available and offered at no cost to the applicant and deemed necessary by a physician, psychologist or other professional retraining or rehabilitation specialist.

Charities may be considered private organizations which are available resources only if the charity places no unreasonable requirements on the applicant which are violative of the applicant's fundamental rights. (Fjeld v. Lewiston, Andro. Sup. Ct. CV 87-4; Bolduc v. Lewiston, Andro. Sup. Ct. CV 87-248)

(2) Potential resources. Potential resources are programs, services, nonliquid assets, or trusts which typically require people to apply in writing and/or wait a period of time before eligibility is determined or the potential income is released. Potential resources include but are not limited to any state or federal assistance program, employment benefits, governmental or private pension program, available trust funds, support from legally liable relatives, child support payments, and jointly held resources where the applicant or recipient share may be available to the individual. Potential resources include TANF, food supplement, fuel assistance (HEAP), subsidized housing, and similar programs.

Sec. 46-3. Confidentiality of information.

(a) Confidentiality. Case records and all other information relating to an applicant or recipient of general assistance are confidential and will not be disclosed to the general public, unless the applicant or recipient states in writing what information is to be released. (Janak v. D.H.S., Aroostook Cty #CV-89-116).

(b) Release of information. Applicants, recipients and their legal representatives have the right to review their case records. No record will be released to a legal representative or other third party, however, unless the administrator receives a consent form signed by the applicant expressly authorizing the release of his records. Whenever the administrator releases any information, he will make a notation in the applicant's file stating to whom the record was released and the date. The administrator may charge a reasonable fee for the reproduction of any records when appropriate.

(c) Information from other sources; penalty.

(1) Information furnished to the municipality by the department of human services or
GENERAL ASSISTANCE

any other agency or institution pursuant to 22 M.R.S.A. § 4314 is confidential. The general assistance administrator will also comply with laws relating to the confidentiality of records concerning birth, marriage and death.

(2) Any representative of a financial institution or any employer of a general assistance applicant who, upon receipt of a written release signed by the depositor and a written request from the Administrator, refuses to provide necessary information to the administrator in order to verify an applicant's eligibility must state in writing the reason for the refusal. National banks are also obligated to disclose deposit information to the Administrator upon receipt of a written request and release signed by the depositor. Additionally, when a municipality or its agents are acting in accordance with section 4313(2) to verify eligibility for funeral or cremation benefits, an officer of a financial institution must disclose the amount deposited upon receipt of a written request from the municipality or its agents and a notarized affidavit signed by the overseer of the municipality or agents stating that the named depositor is deceased. Any person who refuses to provide necessary information to the administrator in order to verify an applicant's eligibility must state in writing the reason for the refusal. Any person who refuses to provide information, without just cause, may be subject to a civil penalty in accordance with the city's policy manual as approved by the city council. Any person, including the applicant, who knowingly and willfully gives false information to the administrator is committing a class E crime.

(d) Misuse of information. Misuse of any information relating to an applicant or recipient is a punishable offense.

Sec. 46-4. Maintenance of records.

(a) Purpose. The general assistance administrator will keep complete and accurate general assistance records. These records are necessary to:

(1) Provide a valid basis of accounting for municipal expenditures;
(2) Document and support decisions concerning an applicant or recipient; and
(3) Assure the availability of all relevant information in the event of a fair hearing or judicial review of a decision by the general assistance administrator.

(b) Case records. The administrator will establish and maintain a separate case record for each applicant or recipient. Each case record will include at least the household's applications, budget sheets, information concerning the types and amounts of assistance provided, narrative statements describing the nature of the emergency situation whenever general assistance is granted in amounts greater than the applicant's unmet need, written decisions, any requests for fair hearings and the fair hearing authority decisions. Workfare participation will also be recorded, as will any cash repayments to the municipality. The record may also include a narrative writings documenting the need for general assistance, the results of home visits, collateral information, referrals, changes in
status, the reason(s) for the release of confidential information, adjustments in aid and suspension or termination of eligibility.

Case records will not include information or material that is irrelevant to an applicant's or recipient's application or to the general assistance administrator's decisions.

Secs. 46-5--46-30.  Reserved.

ARTICLE II.  APPLICATION PROCEDURE

Sec. 46-31.  Right to apply.

(a)  Who may apply. Any Eligible Person may apply for general assistance. The head of the family, any other responsible household member, or an authorized representative must apply in person, except in special emergency situations as provided in section 46-39 or except when the applicant is a resident of an emergency shelter and the municipality has made an agreement with that emergency shelter to presume shelter residents to be eligible for general assistance. The administrator may require a duly authorized representative to present a signed statement documenting that he is in fact authorized to apply for general assistance on behalf of the named applicant. The applicant or representative must complete a written application and any other required forms so that the administrator can determine eligibility.

(b)  Telephone applications. When a person has an emergency but is unable to apply in person due to illness, disability, lack of transportation, lack of child care, or other good cause, and the person cannot send an authorized representative, the administrator will accept an application over the telephone. The telephone application process will include the administrator receiving written verification via mail or visiting the applicant's home with the applicant's permission.

(c)  Written application upon each request. Each request for assistance will be administered in accordance with these guidelines. The administrator will make an independent determination of eligibility for general assistance each time a person applies.

(d) Applications accepted; posted notice. Applications will be processed during regular business hours at the municipal office and when the general assistance administrator is conducting interviews with applicants. Notice will be posted stating when and where people may apply for assistance, and will include the information on the emergency contact available to take emergency applications at all other times. Completed applications will be accepted and interviews given only during the regular hours established and posted by the administrator; however, in an emergency, the administrator will be available to accept applications for assistance whenever necessary.

(Ord. No. 92-6, § 13-40, 3-5-92; Ord. No. 94-2, § 13-40, 5-5-94; 12-9, 8-16-12; Ord. No. 15-14, 01-14-16)

Sec. 46-32. Application interview.

2. Names, dates of birth, and Social Security Numbers of other household members for whom the applicant is seeking assistance;
3. Total number of individuals in the building or apartment where the applicant is residing;

(Ord. No. 92-6, § 13-42, 3-5-92; Ord. No. 94-2, § 13-42, 5-5-94)

Sec. 46-34. General assistance administrator's responsibilities at time of application.

(a) Generally. The administrator will make every effort to inform all applicants of their rights and responsibilities as well as the general program requirements associated with applying for and receiving general assistance, including application requirements, eligibility guidelines, applicant rights, and reimbursement obligations.

(b) Application requirements. The administrator will fill out the application as described in section 46-33, with information and documentation provided by the applicant. The administrator will inform the applicant of any other information or documentation that the applicant will have to provide in order for the administrator to evaluate the applicant's eligibility for assistance. The administrator will fully explain the purpose of any release of information form or reimbursement agreement before seeking to obtain the applicant's signature or written authorization.

(c) Eligibility requirements. The administrator will inform the applicant of the eligibility requirements of the program, including the income standard of need; the applicant's ongoing use-of-income, work related, and resource related responsibilities, as described in section 46-35; the financial reduction in assistance that is the consequence of spending
household income on non-necessities; and the disqualification penalties associated with committing fraud, failing to perform work related assignments without just cause, or failing to make a good faith effort to secure potential resources when the requirement to attempt to obtain those resources has been explained to the applicant in writing.

(d) Applicant rights. The administrator will inform all applicants of their rights to, review this chapter and the state general assistance law, apply for assistance, receive a written decision concerning eligibility within 24 hours of applying for assistance, confidentiality, contact the department of health and human services, and challenge the administrator's decision by requesting a fair hearing.

(e) Reimbursement, recovery. The administrator will inform the applicant that he must reimburse the municipality for the amount of general assistance he has been granted in the event of a subsequent ability to pay. In addition to seeking repayment from a recipient, the municipality also may recover the amount of assistance granted to a recipient during the previous 12 months from any relative legally liable for the applicant's support (spouses, parents of persons under the age of 25, see article VI, relative to recovery of expenses). Whenever applicable, the administrator will explain the various liens a municipality may place against a recipient's real or personal property, such as the mortgage or capital improvement lien, the workers' compensation lump sum payment lien or the SSI interim assistance agreement lien, as these liens are described in article VI.

(Ord. No. 92-6, § 13-43, 3-5-92; Ord. No. 94-2, § 13-43, 5-5-94; 12-9, 8-16-12)

State law references: Similar provisions, 22 M.R.S.A. §§ 4318, 4319.

Sec. 46-35. Responsibilities of applicant at time of application.

(a) The applicant has the responsibility at the time of each application to provide accurate, complete and current information and verifiable documentation concerning the applicant's income, resources, assets, household employment, how the applicant has spent his income, the names and addresses of any relatives legally liable for the applicant's support, and any change in this information from a previous application that would affect the applicant's eligibility.

(b) In addition, the applicant must accurately report and provide verifiable documentation that shows that the applicant:

(1) Has remained employed, if previously employed, and not quit work without just cause or been discharged from employment for misconduct;

(2) Has been seeking employment, if previously unemployed or employed on a part-time basis, has accepted any suitable offer of employment, and has satisfactorily performed all workfare assignments or had just cause not to perform those assignments;

(3) Has made use of all available and potential resources when directed in writing to such a program by the administrator, including but not limited to other government benefit programs or the assistance of liable relatives of sufficient means; and

(4) Has participated in any training, retraining, educational or rehabilitative program when appropriate and when directed in writing to such a program by the
Sec. 46-36. Action on applications.

(a) Written decision. The general assistance administrator will give a written decision to the applicant concerning his eligibility within 24 hours after he submits a written application and will furnish assistance to eligible applicants within that period except when the municipality is permitted by law (and pursuant to section 46-67) to issue assistance conditionally on the successful completion of a workfare assignment. A written decision will be given each time a person applies, whether assistance is granted, denied, reduced or terminated.

(b) Content of decision. The written decision on the application will contain the following information:

1. The type and amount of aid the applicant is being granted or the applicant's ineligibility;
2. The period of eligibility if the applicant is eligible for assistance;
3. The specific reasons for the decision;
4. The applicant's right to a fair hearing; and
5. The applicant's right to notify the department of health and human services if he believes the municipality has acted illegally.

Sec. 46-37. Withdrawal of an application.

An application is considered withdrawn if:

1. The applicant requests, in writing, that his application be withdrawn; or
2. The applicant refuses to complete or sign the application, or any other form needed by the general assistance administrator.

Sec. 46-38. Temporary refusal to accept application.

Under special circumstances, the general assistance administrator may temporarily refuse to accept applications for 24 hours. Such circumstances may include, but are not limited to, the following:

1. When the applicant's conduct is abusive, disruptive, or harassing, or when the applicant is under the influence of drugs or alcohol. In these situations, the applicant will be requested to leave. If the applicant refuses to leave, the police may be summoned. The applicant will be informed that an application will be
accepted when his conduct is under control;

(2) When a third person applies for assistance on behalf of the applicant. That person may be required to provide written verification that he has been duly authorized to act as a representative for the applicant.

(Ord. No. 92-6, § 13-47, 3-5-92; Ord. No. 94-2, § 13-47, 5-5-94)

State law references: Similar provisions, 22 M.R.S.A. § 4308.

An emergency is considered to be any life threatening situation or a situation beyond the control of the applicant which, if not alleviated immediately, could reasonably be expected to pose a threat to the health or safety of the applicant or a member of the household. Although applicants may be considered otherwise ineligible to receive general assistance, persons who apply for assistance to alleviate an emergency will be granted assistance, except as provided below, if they do not have sufficient income and resources to meet an actual emergency need and have not had sufficient income and resources to avert the emergency. The following exceptions and conditions apply when determining eligibility for emergency assistance.

(1) Disqualification. A person who is currently disqualified from receiving general assistance due to a violation of sections 46-66, 46-67, 46-68 and 46-94 is ineligible to receive emergency assistance. Dependents of a disqualified person may be eligible for assistance. For the purposes of this section, "dependents" are defined as: (i) a dependent minor child; (ii) an elderly, ill or disabled person; or (iii) a person whose presence is required to provide care for any child under the age of six years or any ill or disabled member of the household. If one or more members of a household are disqualified and assistance is requested for the remaining dependents, the eligibility of those dependents will be calculated as though the household is comprised of the dependents only, except that all household income will be considered available to them.

(2) Assistance prior to verification. Whenever an applicant informs the administrator that he needs assistance immediately, the administrator will grant, pending verification, the assistance within 24 hours, provided that:

a. After interviewing the applicant, the administrator has determined that he will probably be eligible for assistance after a verification of information is completed; and

b. The applicant submits documentation, when possible, to verify his need.

The administrator may contact at least one other person to confirm the applicant's statements about needing emergency assistance. No further assistance will be authorized until the applicant's eligibility has been confirmed.

(3) Telephone applications. If a person has an emergency need and cannot apply in person due to illness, disability, lack of transportation, lack of child care, or other good cause, and if there is no authorized representative who can apply for the applicant, the administrator will accept an application over the telephone.

The administrator will not grant any assistance as the result of a telephone
application if the applicant refuses to allow the administrator to verify the information either by visiting his home, or by mail, and the administrator cannot determine his eligibility through any other means.

(4) **Limitation on emergency assistance.** Applicants are not automatically eligible for emergency assistance. If applicants had income which could have been used to prevent all or part of an emergency, but they spent that income on items which are not basic necessities, they will not be eligible to receive general assistance to replace that money. Applicants have the responsibility to provide the administrator with verifiable documentation demonstrating that the applicant did not have sufficient income to avert the emergency situation.

According to the following criteria, the administrator may limit emergency assistance to cover only the difference between the amount of money necessary for the household to avoid the emergency and the amount of income available to the household during the applicable time period.

a. The applicable time period shall be the 30 days preceding the application for emergency assistance, except in those cases where the emergency was created by a negative account balance for a commodity or service (such as rent, mortgage or utility payments), and the negative account balance was created over a longer period of time. In such cases, the applicable time period shall be the consecutive length of time the account balance has been in the negative.

b. The administrator shall seek from the applicant all information pertinent to the applicant's ability to provide for his basic necessities for the applicable time period, including evidence of all income and resources for the applicable time period.

c. The administrator shall compute all costs for the household's basic necessities during the applicable time period, per month, in accordance with the maximum levels established by this chapter for the specific basic necessities or the actual monthly cost, whichever is less, including all costs associated with averting the particular emergency situation for which the applicant is seeking assistance.

d. From the total household costs for basic necessities during the applicable time period, the administrator shall subtract the total income and lump sum payments available to the household for the applicable time period as well as the total general assistance actually received during the applicable time period.

e. The administrator may restrict the issuance of emergency assistance to the difference yielded by the computation in subsection (4)d, above, even when such a grant will not totally alleviate the emergency situation.

f. The administrator may waive this limitation on emergency assistance in life threatening situations or for first time applicants, that is, persons who have never before applied for general assistance.

g. Nothing in these criteria may be construed as prohibiting a municipality
GENERAL ASSISTANCE

from electing to alleviate an emergency situation in the most cost-effective manner available, provided such a determination of eligibility for emergency assistance is in conformance with general assistance law.

A municipality may provide emergency assistance when the municipality determines that an emergency is imminent and that failure to provide assistance may result in undue hardship and unnecessary costs.

The household of an initial applicant that is otherwise eligible for emergency assistance may not be denied emergency assistance to meet an immediate need solely on the basis of the proration of a lump sum payment. Upon subsequent applications, that household's eligibility is subject to all the standards established by this chapter.

(Ord. No. 92-6, § 13-48, 3-5-92; Ord. No. 94-2, § 13-48, 5-5-94; 12-9, 8-16-12)

Sec. 46-40. Residence.

(a) **Eligibility.** The administrator shall provide general assistance to all Eligible Persons applying for assistance who are residents of this municipality. A "resident" is a person who has no other residence and is physically present in this municipality and who intends to remain here and establish a household. The municipality also recognizes its responsibility to provide assistance to Eligible Persons who apply here and who are not residents of this municipality or any other municipality. If a person who is not a resident of any municipality applies in this municipality first, the administrator will determine his eligibility and, if eligible, will grant assistance until he establishes a residence in another municipality.

(b) **Moving, relocating.** The municipality will not consider moving or transporting an applicant or recipient into another municipality unless the person requests assistance to relocate to another municipality. If the administrator determines the applicant is eligible and grants financial assistance to help with the requested relocation, this municipality will be responsible for providing assistance to the applicant for 30 days after the applicant moves, provided the recipient remains eligible.

(c) **Institutions.** If a resident of this municipality enters an institution located in another municipality (such as a group home, shelter, rehabilitative center, nursing home, or hospital) and requests assistance while at the institution, he will be the responsibility of this municipality for up to six months after he enters the institution. The municipality thereafter retains responsibility for an applicant in an institution only if the applicant has maintained a home in this municipality to which he intends to return. The municipality also recognizes its responsibility for applicants residing in an institution in this municipality if such an applicant had no residence prior to entering the institution.

(d) **Temporary housing.** Hotels, motels and similar places of temporary lodging are considered institutions if the municipality grants financial assistance for, makes arrangements for, or advises or encourages an applicant to stay in temporary lodging. [Note: Municipalities which illegally deny housing assistance, and as a result of the denial the applicant stays in temporary lodging, are responsible for the applicant for up to

Lewiston Code

CH 46:16
six months and may be subject to other penalties.]

(e) *Disputes.* When the administrator believes that an applicant is a resident of another municipality, but that municipality disputes its responsibility, the administrator will notify the department of human services in Augusta (287-3654 or 1-800-442-6003). If the applicant applies in this municipality first, the administrator will determine his eligibility and, if eligible, will grant assistance until the department has concluded which municipality is responsible for providing assistance. If another municipality was responsible, the department will recover the amount due from the other municipality.

ARTICLE III. ELIGIBILITY FACTORS

Sec. 46-61. Generally.

An Eligible Person may receive general assistance if he is in need and has complied with the eligibility requirements set forth in this article.

(Ord. No. 92-6, art. V, 3-5-92; Ord. No. 94-2, art. V, 5-5-94; Ord. No. 15-14, 01-14-16)

Sec. 46-62. Initial application; repeat applicants.

(a) *Initial application.*

(1) For initial applicants, except as provided below, need will be the sole condition of eligibility. The exception to this general rule, as provided by law, applies to all applicants, including initial applicants, who are disqualified for a defined period for quitting employment without just cause or for being discharged from employment for misconduct. See section 46-66. An initial applicant is a person who has never before applied for general assistance in any Maine municipality.

(2) *Need* means that the applicant's income, including pro-rated income where applicable, property, credit, assets or other resources are less than the overall maximum levels of assistance established in accordance with section 46-98 or the actual 30-day costs, whichever is less, and he doesn't have adequate income or other resources available to provide basic necessities.

(b) *Subsequent applicants.* Persons who are not initial applicants are repeat applicants. Repeat applicants are people who have applied for general assistance at any time in the past. Repeat applicants are also people on whose behalf a general assistance application was made at any time in the past, provided that at such a time the applicant was not a dependent minor in the household. For repeat applicants to be eligible for general assistance, they must be in need, have used their income and resources to secure basic necessities, and meet all other eligibility requirements.

(Ord. No. 92-6, § 13-50, 3-5-92; Ord. No. 94-2, § 13-50, 5-5-94)

State law references: Similar provisions, 22 M.R.S.A. §§ 4308(1), 4316-A(1A).
Sec. 46-63. Eligibility for categorical assistance.

(a) Receipt of categorical assistance will not disqualify a person from receiving general assistance, if he is otherwise eligible. Benefits received from other assistance programs will be considered as income when determining need, with the exception of food stamps, which will not be counted as income or resources or otherwise taken into consideration when determining need (7 U.S.C. section 2017(b)). Also, any fuel assistance (HEAP/ECIP) received by an applicant will not be considered as income or resources; that is, the administrator will always compute the heating needs of an applicant who has received HEAP or ECIP as if that applicant paid for his total fuel costs (42 U.S.C. section 624(f); Dept. of Health and Welfare v. Block, 784 F.2d 895). The computation of general assistance for heating energy needs when an applicant has received HEAP or ECIP shall be accomplished in accordance with subsection (c) under types of income at section 46-96.

(b) Applicants or recipients must apply for other program benefits within seven days after being advised in writing to do so by the general assistance administrator. Persons who, without just cause, fail to make a good faith effort to obtain a potential resource will be disqualified from receiving assistance until they make a good faith effort to obtain the benefit.

(Ord. No. 92-6, § 13-51, 3-5-92; Ord. No. 94-2, § 13-51, 5-5-94)

State law references: Similar provisions, 22 M.R.S.A. § 4317.

Sec. 46-64. Personal property.

(a) Liquid assets. No person owning assets easily convertible into cash, including, but not limited to, bank deposits, stocks, bonds, certificates of deposit and other marketable security, will be eligible for general assistance unless and until he uses these assets to meet his basic needs and thereby exhausts them.

(b) Tangible assets. No person owning or possessing personal property consisting of more than one motor vehicle, or a boat, trailer, recreation vehicle or other assets that are convertible into cash and are nonessential to the maintenance of the applicant's household will be eligible for general assistance. Exceptions may be made when a person is making an initial application and when reasonable efforts to convert assets to cash at fair market value are unsuccessful. Tools of a trade, livestock, farm equipment and other equipment used for the production of income are exempt from the above category and are not considered available assets.

(c) Automobile ownership. Ownership of one automobile per household will not make a person ineligible for assistance, if such vehicle is essential for transportation to employment, medical care, rehabilitation or training facilities, or if it is essential to the maintenance of the applicant and his family. Recipients of general assistance who own an automobile with a market value greater than $8,000.00 may be required, with written, 30-day notice, to make a good faith effort to trade that automobile in to a reputable automobile dealer for an automobile with a market value of less than $8,000.00. Any income received by the applicant by virtue of such a trade-down must be used for his basic necessities. Failure to liquidate or trade down the excess value of an automobile asset can result in disqualification. The municipality will neither pay, nor consider as
necessary expenses, any car payment for which the applicant is responsible. General assistance for travel-related needs shall be computed in accordance with section 46-98, regarding work related expenses.

(d) **Insurance.** Insurance that is available to an applicant on a noncontributory basis, or that is required as a condition of employment, will not be a factor in determining eligibility for general assistance. Life insurance with a cash surrender value may be considered as a tangible asset when an applicant has received assistance for four weeks or more after an application for assistance.

(e) **Transfer of property.** Applicants who transfer assets for less than fair market value to someone else solely for the purpose of establishing eligibility for general assistance will not be granted general assistance to replace the uncompensated value of the transferred asset. Assistance will be denied within a 120-day limit up to the uncompensated value of the asset which was transferred unless the transfer of asset is fraudulently misrepresented, in which case a 120-day disqualification will issue. There will be a presumption that the applicant transferred his assets in order to be eligible for general assistance whenever property is sold for less than the fair market value or when the transfer occurred within 30 days prior to applying for general assistance unless the applicant can demonstrate the existence of an arms-length transaction.

(Ord. No. 92-6, § 13-52, 3-5-92; Ord. No. 94-2, § 13-52, 5-5-94; 12-9, 8-16-12)

State law references: Similar provisions, 22 M.R.S.A. § 4317.

**Sec. 46-65. Ownership of real estate.**

(a) If the applicant or dependents own real property other than that occupied as the principal home, continued eligibility will depend on the applicant making a reasonable effort to:

(1) Dispose of the property at fair market value in order to convert the property into cash which can be applied toward meeting present need; or

(2) Obtain a loan against such property which may be used to meet present need. Applicants who transfer their excess property to someone solely to appear eligible for general assistance will be ineligible.

(b) If an applicant is granted assistance in the form of a mortgage payment or capital improvement payment, the municipality may claim a lien against the property. The lien shall not be enforceable until the time of sale of the property or upon the death of the recipient. See section 46-97.

(Ord. No. 92-6, § 13-53, 3-5-92; Ord. No. 94-2, § 13-53, 5-5-94)

State law references: Similar provisions, 22 M.R.S.A. § 4320.

**Sec. 46-66. Work requirement.**

All general assistance recipients are required to work, look for work, and fulfill the work requirements, unless they are exempt as provided in this section.

(1) **Employment, rehabilitation.** All unemployed applicants and members of their households who are 16 years of age or older will be required to accept any suitable job offer or opportunity for rehabilitative services, except as provided in
this article (see exemptions). Applicants must demonstrate to the administrator that they are available for work and are actively seeking full time employment.

a. *Suitable job* means any job (at a rate of at least the state's minimum wage) which the applicant is mentally and physically able to perform.

b. *Available for work* means that applicants must make themselves available for work during the normal business hours prevailing in the area and show that no circumstance exists which would prevent them from complying with the work requirement.

(2) *Verification.* Unemployed applicants or applicants employed on a part-time basis will be required to provide verifiable documentation of their pursuit of employment at the time of each application. At a minimum, such documentation shall consist of a list of the employers contacted, the date and time of the application contact, and the name of the employer representative contacted. If employment is pursued online, an actual application must be completed, and a receipt for the completed application must be provided. *Pursuit of employment* means actually submitting a written application or applying for a job in person when reasonable, or submitting an online application. For the duration of any repeat applicant's period of unemployment or partial employment, each recipient will be responsible for providing documentation of their pursuit of employment according to the conditions set forth by the administrator. Fulfillment of these requirements will not be expected at the time of the initial application, but will be a condition of eligibility for subsequent assistance.

(3) *Disqualification.* After being granted assistance at the time of initial application, applicants will be considered ineligible for further assistance for 120 days if they, without just cause:

a. Refuse to register for employment with the state job service;

b. Refuse to search diligently for employment when the search is reasonable and appropriate. Recipients who unreasonably seek work at the same places repeatedly will not be considered to be performing a diligent work search and will be disqualified;

c. Refuse to accept a suitable job offer;

d. Refuse to participate in an assigned training, education or rehabilitative program that would assist the applicant in securing employment;

e. Fail to be available for work;

f. Refuse to participate, or participate in a substandard manner, in the municipal work program. See section 46-67.

(4) *Disqualification for quitting job, discharge for misconduct.* No applicant, whether an initial or repeat applicant, who has quit his full-time or part-time job without just cause or who has been discharged from employment for misconduct will be eligible to receive general assistance of any kind for a 120-day period from the date of separation from employment.

(5) *Just cause.* Applicants will be ineligible for assistance for 120 days if they refuse
GENERAL ASSISTANCE

to comply with the work requirements of this section without just cause. Just cause will be considered to exist when there is reasonable and verifiable evidence that:

a. The applicant has a physical or mental illness or disability, which prevents him from working;

b. Employment pays below minimum wage;

c. The applicant was subject to sexual harassment;

d. The applicant is physically or mentally unable to perform required job tasks, or to meet piece work standards;

e. The applicant has no means of transportation to or from work or a training or rehabilitation program;

f. The applicant is unable to arrange for necessary child care or care of ill or disabled family members;

g. Any reason found to be good cause by the state department of labor or any other verifiable reason which the administrator considers reasonable and appropriate will be accepted as just cause.

(6) Applicant's burden of establishing just cause. If the administrator finds that the applicant has violated a work related rule without just cause, it shall be the responsibility of the applicant to establish the presence of just cause.

(7) Eligibility regained. Persons who are disqualified for 120 days because they violated the work requirement may regain their eligibility if and only when they become employed or otherwise satisfy the administrator that they are complying with the work requirement by fulfilling the work requirement they violated. Persons who have been disqualified for 120 days for failing or refusing to participate in the municipal workfare program or for performing their workfare assignment in a substandard manner shall be limited to a single opportunity to regain eligibility. If a workfare participant fails to regain eligibility, without just cause, after being offered a distinct and separate opportunity to do so, the administrator shall enforce the 120-day disqualification for the term of its initial duration. If a workfare participant regains eligibility under this section but is subsequently disqualified within the initial period of disqualification for failing to comply with the municipal work program, that participant shall be ineligible for a new 120-day period beginning with a new disqualification date, but with no opportunity to requalify.

(8) Dependents. Failure of an otherwise Eligible Person to comply with the work requirements shall not affect the eligibility of any member of the person's household who is not capable of working, including:

a. A dependent minor child;

b. An elderly, ill, or disabled person; and

c. A person whose presence is required in order to provide care for any child under six years of age or for any ill or disabled member of the household.
GENERAL ASSISTANCE

If one or more members of a household are disqualified and assistance is requested for those remaining members of the household who are dependents, the eligibility of those dependents will be calculated as though the household is composed of the dependents only, except that all household income will be considered as available to them.

(9) Exemptions.

a. The work requirements of this section do not apply to any person who is elderly, physically or mentally ill or disabled. Any person whose presence is required to care for any pre-school age child or for any ill or disabled member of the family residing in the household is also exempt from the requirements of this section.

b. The requirements of this section will not be imposed so as to interfere with an applicant's existing employment, ability to pursue a bona fide job offer, ability to attend an interview for possible employment, classroom participation in a primary or secondary educational program intended to lead to a high school diploma, classroom or on site participation in a training program which is either approved or determined by the department of labor to be expected to assist the applicant in securing employment, or classroom participation in a degree-granting program under the control of the department of human services or department of labor.

(Ord. No. 92-6, § 13-54, 3-5-92; Ord. No. 94-2, § 13-54, 5-5-94; 12-9, 8-16-12)

State law references: Similar provisions, 22 M.R.S.A. § 4301(8), 4309(3), 4316-A(1A), (4).

Sec. 46-67. Municipal work program.

(a) Participation. Each applicant and any member of the household who is capable of working may be required to perform work for the municipality, including work for a nonprofit organization, as a condition of receiving assistance. The work requirement provisions found in section 46-66 regarding just cause, dependents, and exemptions also apply to the municipal workfare program.

(b) Consent. Persons assigned to the work program are required to sign a form stating that they understand the requirements of general assistance and the work program. Prior to signing the form, the administrator will read it to the applicants or the applicants will read it themselves. The form will also state the number of hours the applicants must work and the hourly rate by means of which the duration of the work assignment is calculated. In addition, the consent form shall describe the consequences of failing to adequately perform part or all of the workfare or workfare-first assignment.

(c) Limitations. The work requirement is subject to the following limitations:

(1) No person shall, as a condition of eligibility, be required to do any amount of work that exceeds the value of the net general assistance that the person receives under municipal general assistance standards. Any person performing work under this subsection shall be provided with net general assistance the value of which is computed at the rate of at least the prevailing minimum wage under state or
generally assist

(2) No workfare participant shall be required to work for a nonprofit organization if that work would violate the participant's basic religious beliefs.

(3) In no case shall Eligible Persons performing work under this section replace regular municipal employees.

(4) In no case will work performed under this section interfere with an Eligible Person's:
   a. Existing employment;
   b. Ability to follow up on a bona fide job offer;
   c. Attendance at an interview for possible employment;
   d. Classroom participation in a primary or secondary educational program intended to lead to a high school diploma; or
   e. Classroom or on-site participation in a training program which is approved or determined by the department of labor to be reasonably expected to assist the person in securing employment, or classroom participation in a degree granting program operated under the control of the department of human services or the department of labor.

(5) In no case may an Eligible Person be required to work more than 40 hours per week. An Eligible Person who has full- or part-time employment shall be exempt from the work requirement, to the extent that the work requirement in combination with his regular employment would result in the person working more than 40 hours per week.

(6) In no case will an Eligible Person be required to perform work beyond his capabilities. However, when an illness or disability is claimed, an Eligible Person may be required, as a condition of receiving assistance, to present a medical statement detailing the extent of the disability or illness. If the administrator requires a medical statement to verify an applicant's illness or disability, the municipality will pay for the doctor's evaluation if the applicant has no means to pay for the exam; however, in such a case, the administrator will choose the medical provider. The administrator will not require verification of medical conditions which are apparent or which are of such short duration that a reasonable person would not ordinarily seek medical attention.

(7) In no case may an Eligible Person with an immediate need (i.e., a person in an emergency situation who has not been disqualified from receiving assistance for committing a program violation) be required to perform work under this section prior to receiving general assistance. The administrator shall meet immediate needs upon receiving written assurance from the Eligible Person that he is willing to perform workfare in order to continue to be eligible for general assistance. When the recipient has no immediate need, workfare participation may be required prior to receiving general assistance in accordance with the following workfare first policy.

(d) Workfare first policy. Under the authority of 22 M.R.S.A. § 4316-A(2)(D), the
administrator may, in accordance with the following guidelines, require a recipient of general assistance to perform a workfare assignment prior to the actual issuance of the general assistance benefit conditionally granted.

(1) In no circumstance will emergency general assistance for which an applicant is eligible be withheld pending the satisfactory performance of workfare.

(2) All workfare participants under this policy will be provided a written decision, as otherwise required by law, within 24 hours of submitting an application for general assistance and prior to performing any workfare for the municipality associated with that request for assistance. That written decision must include:

a. A specific description of the amount of general assistance being conditionally granted to the household, and for which basic needs;

b. The period of eligibility for which the general assistance grant is being issued, in days or weeks but not to exceed 30 days;

c. The rate, at a dollar-per-hour basis, but not less than the prevailing minimum wage, upon which the duration of the workfare assignment is calculated;

d. The actual duration of the workfare assignment that must be performed, in hours, before the general assistance grant will be actually issued;

e. The specifics of the workfare assignments, including the general nature of the type of work being assigned, locations of work sites, dates and times of assigned workfare, workfare supervisors' names and contact telephone numbers; and

f. Any other pertinent information related to the workfare assignments the recipient will be expected to perform.

(3) As previously provided in this section, all workfare participants under this policy must sign a consent form that informs the participant of his workfare related rights and responsibilities, including the consequences of failing to perform all or part of the workfare assigned without just cause.

(4) In addition to any disqualification penalty that may apply, the consequences of refusing to perform or failing to completely perform the workfare assignment, without just cause, or performing the entire workfare assignment below the average standards for that job, without just cause, will be the termination of the entire general assistance grant. Notice of the grant termination will be provided to the workfare participant in accordance with section 46-99.

(5) If some of the workfare first assignment is satisfactorily performed but there has been a failure to perform the remainder of the assignment, without just cause, the administrator shall issue a grant of general assistance in the amount of the number of workfare hours satisfactorily performed times the hourly rate used to calculate the duration of the workfare assignment. In addition to any disqualification penalty that may apply, the remaining value of the conditionally issued general assistance grant shall be terminated, and notice of the partial termination and the reasons therefore will be issued to the workfare participant in accordance with
section 46-99.

(6) Any amount of the workfare assignment that is not performed because the workfare participant was temporarily unable to perform the assignment for just cause reasons shall be reassigned.

(e) Work-related expenses. A participant's expenses related to work performed under this section will be added to the amount of net general assistance to be provided to the person. The municipality will provide any special clothes or equipment the recipient needs to perform his work assignment, if they are not available through other sources.

(f) Disqualification. Any person who willfully fails to perform or willfully performs below average standards the work assigned by the municipality, without just cause, will be ineligible for 120 days. As soon as the administrator knows that a recipient failed to fulfill the work assignment, the administrator will notify the recipient that he is disqualified for 120 days unless the recipient can show just cause. The burden of demonstrating a just cause failure to perform a workfare assignment falls on the workfare participant.

(g) Eligibility regained. Recipients who are disqualified from receiving assistance because they have violated the requirements of the municipal work program may regain their eligibility under the following conditions:

(1) Recipients who fail to complete the first municipal work assignment they have been given will be disqualified from receiving assistance during the next 120 days, although dependents in the household may be eligible (see section 46-66).

If during the 120-day disqualification period the recipient makes a timely and reasonable request to perform the work assignment which he, without just cause, failed to perform, the disqualified recipient will be given an opportunity to regain his eligibility. The administrator will give the recipient a work assignment as soon as possible. If under such a set of circumstances the recipient has an emergency need and the administrator is unable to schedule a work assignment in time to alleviate the emergency, the administrator will provide sufficient assistance to the recipient to avert the emergency but the provision of such emergency assistance will not bar the administrator from subsequently enforcing the 120-day disqualification if the recipient fails to regain eligibility by satisfactorily performing the work assignment. The amount of emergency assistance granted will be considered in the computation of the total number of hours the recipient must work.

Recipients who have asked to regain their eligibility during a 120-day disqualification period and who agree to fulfill the assignment which they previously failed to perform and who, without just cause, fail to fulfill their municipal work assignment will be considered to have acted in bad faith. In such a circumstance, the administrator will enforce the 120-day disqualification for the term of its initial duration.

(2) If a workfare participant regains eligibility under this section but is subsequently disqualified within the initial 120-day period of disqualification for failing to comply with the municipal work program, that participant will be ineligible for a new 120-day period beginning with the new disqualification date, but with no
opportunity to requalify.

(3) Any recipient who intentionally causes damage to property or harms other employees by his actions and is discharged by the work supervisor will not be entitled to regain eligibility by returning to the work program. Eligibility may be regained by otherwise becoming employed and meeting the definition of need.

(4) For the purposes of regaining eligibility under section 46-66 and this section by becoming employed, "employment" shall mean employment by an employer as defined in 26 M.R.S.A. § 1043 et seq., or a service performed for an employer who withholds from the employee a social security tax pursuant to federal law.

(h) Reports. The administrator will itemize the assistance that has been provided to persons who work for the municipality in reports to the department of human services.

(Ord. No. 92-6, § 13-55, 3-5-92; Ord. No. 94-2, § 13-55, 5-5-94)

Sec. 46-68. Use of resources.

(a) Required. Each applicant has the responsibility to make a good faith effort to utilize every available or potential resource which may reduce his need for general assistance (see definition of resources, section 46-2). People who refuse or fail to make a good faith effort to secure a potential resource after receiving written notice to do so are disqualified from receiving assistance until they make an effort to secure the resource. Applicants are required to prove that they have made a good faith effort to secure the resource.

(b) Minors. A minor under the age of 18 years who has never married and is applying independently for general assistance and who is pregnant or has a dependent child or children will be eligible to receive general assistance only if the minor is residing in the home of his parent, legal guardian or other adult relative, in which case the entire household will be evaluated for eligibility. Exceptions to this limitation on eligibility will be made when:

(1) The minor is residing in a foster home, maternity home, or other adult-supervised supportive living arrangement;

(2) The minor has no living parent or the whereabouts of the parents are unknown;

(3) No parent will permit the minor to live in the parent's home;

(4) The minor has lived apart from both parents for at least one year before the birth of any dependent child;

(5) The department of human services determines that the physical or emotional health or safety of the minor or the minor's dependent child or children would be jeopardized if the minor and his child or children lived with a parent; or

(6) The department of human services determines, in accordance with its regulations, that there is good cause to waive this limitation on eligibility.
Any person under the age of 25 years who is applying independently from his parents for general assistance will be informed that until he reaches the age of 25, the applicant's parents are still legally liable for his support, and the municipality has the right to seek recovery from the parents of the cost of all assistance granted to such a recipient to the extent his parents are financially capable of repaying the municipality. With regard to any such application, the municipality may seek verification of the applicant's need for general assistance by contacting his parents (City of Bangor v. DHS, Penob. Cty #CV-90-28). If the applicant's parents declare a willingness to provide the applicant with his basic needs directly, and there is no convincing evidence that the applicant would be jeopardized by relying on his parents for basic needs, the administrator may find the applicant to be in no need for general assistance for the reason that his needs are being provided by a legally liable relative.

(c)  *Mental or physical disability.* Any applicant who has a mental or physical disability must make a good faith effort to utilize any medical or rehabilitative services which have been recommended by a physician, psychologist or other professional retraining or rehabilitation specialist when the services are available to the applicant provided they would not constitute a financial burden or create a physical risk to the individual.

(d)  *Written notice; disqualification.* The administrator will give each applicant written notice that he is required to utilize any and all potential resources. Any applicant who refuses to utilize potential resources, without just cause, after receiving a written seven-day notice, will be ineligible for further assistance until he has made a good faith effort to utilize the resources. General assistance will not be withheld from the applicant pending receipt of a resource if the applicant has made, or is in the process of making, a good faith effort to obtain the resource.

(e)  *Forfeiture of benefits.* Any applicant who forfeits receipt of or causes a reduction in benefits from another public assistance program due to fraud, misrepresentation, a knowing or intentional violation of program rules or a refusal to comply with that program's rules without just cause will be ineligible to receive general assistance to replace the forfeited benefits. To the extent the forfeited benefits can be considered income under general assistance law, the worth of the forfeited benefits will be considered income that is available to the applicant for the duration of the forfeiture. An applicant who is found to be ineligible for unemployment compensation benefits because of a finding of fraud by the Department of Labor pursuant to Title 26, section 1051, subsection 1 is ineligible to receive general assistance to replace the forfeited unemployment compensation benefits for the duration of the forfeiture established by the Department of Labor.

(Ord. No. 92-6, § 13-56, 3-5-92; Ord. No. 94-2, § 13-56, 5-5-94; Ord. No. 13-11, 7-1-13)

**State law references:** Similar provisions, 19 M.R.S.A. §§ 441--443, 22 M.R.S.A. §§ 4309(4), 4317, 4319.

**Sec. 46-69. Period of disqualification.**

(a)  *Notice; hearing.* No one will have his assistance terminated, reduced or suspended prior to being given written notice and an opportunity for a fair hearing. Each person will be notified in writing of the reasons for his ineligibility, and any person disqualified for not complying with this chapter will be notified in writing of the period of disqualification.

(b)  *Work requirement.* People who do not comply with a work requirement are disqualified
from receiving assistance for a period of 120 days (unless they regain their eligibility; see section 46-66). Recipients who do not comply with the work requirement and are disqualified before the period covered by the grant of assistance expires shall be disqualified for 120 days following the end of the period covered by the assistance grant. People who do not comply with a work requirement and are disqualified after the period covered by the grant of assistance expires will be disqualified for 120 days from the date of the written notice of disqualification. The administrator shall give recipients written notice that they are disqualified as soon as the administrator has sufficient knowledge and information to render a decision of disqualification.

Secs. 46-70--46-90. Reserved.

ARTICLE IV. DETERMINATION OF ELIGIBILITY

Sec. 46-91. Recognition of dignity and rights.

Any determination or investigation into an applicant's eligibility will be conducted in a manner that will not violate the applicant's privacy or personal dignity or violate his individual rights.

(Ord. No. 92-6, § 13-60, 3-5-92; Ord. No. 94-2, § 13-60, 5-5-94)

Sec. 46-92. Determination; redetermination.

(a) The administrator will make an individual, factual determination of eligibility each time a person applies or reapply for general assistance. The administrator will make a redetermination of eligibility at least monthly, but may do so as often as necessary to administer the program efficiently and meet the needs of the applicants. Upon any application, the administrator will determine the applicant's eligibility on the basis of a 30-day prospective analysis, but may elect to disburse that applicant's assistance periodically, e.g., weekly, throughout a 30-day period of eligibility pursuant to that initial eligibility determination.

(b) The administrator may redetermine a person's eligibility at any time during the period he
is receiving assistance if the administrator is notified of any change in the recipient's circumstances that may alter the amount of assistance the recipient may receive. Once a recipient has been granted assistance, the administrator may not reduce or rescind the grant without giving prior written notice to the recipient explaining the reasons for the decision and offering the recipient an opportunity to appeal the decision to the fair hearing authority.

(Ord. No. 92-6, § 13-61, 3-5-92; Ord. No. 94-2, § 13-61, 5-5-94)

State law references: Similar provisions, 22 M.R.S.A. § 4309.

Sec. 46-93. Verification.

(a) Applicant's responsibility. Each applicant and recipient has the responsibility at the time of application and continuing thereafter to provide complete, accurate and current information and documentation concerning his need, income, use of income, expenses, and any changes in information previously reported on the application. The administrator will require documentation of the applicant's income, use of income, assets and resources plus actual bills and receipts for rent, utilities, fuel, telephone, medical services and other basic necessities that are reasonably obtainable. The recipient is responsible for notifying the administrator of any changes in his household or income that may affect his eligibility. When determining an applicant's eligibility, the administrator will seek all necessary information first from the applicant. Information needed from other sources, with the exception of public records, will be gathered only with the knowledge and consent of the applicant.

(b) Decision. If an applicant does not have the necessary information at the time of application, the administrator will give the applicant the opportunity to provide the information prior to the expiration of the 24-hour period within which the administrator must act on the application. Except when assistance is conditionally granted pursuant to this municipality's workfare first policy (see section 46-67). If all the necessary information has been provided and the applicant is eligible, assistance will be granted. If the applicant does not provide the required information needed within the 24-hour period, and the administrator cannot determine the applicant's eligibility, the applicant will be denied assistance for that reason.

(c) Denial of assistance. The administrator will not grant assistance to any applicant who refuses to supply necessary information and documentation concerning his needs, income and other resources, or who refuses to grant permission for the administrator to contact other persons to verify the information. If the administrator has attempted to verify the information but is unable to determine if the applicant is eligible because the applicant has refused to provide or allow the administrator to verify the necessary information, the applicant will be denied assistance until the necessary verification has been accomplished.

(d) Right to verify. It is the administrator's responsibility to determine and verify the eligibility of each applicant. The administrator may seek and verify information from all appropriate sources including, but not limited to: The department of human services and any other department of the state having information that has a bearing on an applicant's eligibility, financial institutions, employers and landlords, physicians, and legally liable relatives. The administrator will request the applicant's written consent authorizing the
Penalty for refusing to release information. Any person who refuses to provide necessary information to the administrator, after it has been requested, must state in writing the reasons for the refusal within three days of receiving the request. Any person who refuses to provide the information, without just cause, commits a civil violation and may be subject to a fine of not less than $25.00 nor more than $100.00, which may be adjudged in any court of competent jurisdiction. Any person who willfully renders false information to the administrator is guilty of a class E crime.

(Ord. No. 92-6, § 13-62, 3-5-92; Ord. No. 94-2, § 13-62, 5-5-94)

Sec. 46-94. Fraud.

(a) Generally. It is unlawful for a person to make knowingly and willfully a false representation of a material fact to the administrator in order to receive general assistance or cause someone else to receive general assistance. A "material fact" is any information which has direct bearing on the person's eligibility. "False representation" shall consist of any individual knowingly and willfully:

1. Making a false statement to the general assistance administrator, either orally or in writing, in order to obtain assistance to which the applicant or the applicant's household is not entitled;
2. Concealing information from the general assistance administrator in order to obtain assistance to which the applicant or applicant's household is not entitled; or
3. Using general assistance benefits for a purpose other than that for which they were intended.

No person may be denied assistance solely for making a false representation prior to being given an opportunity for a fair hearing.

(b) Period of ineligibility. When the general assistance administrator finds that a person has knowingly and willfully misrepresented material facts for the purpose of making himself eligible for general assistance, the administrator shall notify the applicant in writing that he has been disqualified from receiving assistance and is required to reimburse the municipality for any assistance rendered for which he was ineligible and is ineligible from receiving further assistance for 120 days and until that reimbursement is made, or the person enters into a written agreement, which must be reasonable under the circumstances. For the purpose of this section, a "material misrepresentation" is a false statement about an eligibility factor in the absence of which some or all of the assistance would not be or would not have been granted. The notification of disqualification issued by the administrator shall inform the applicant of his right to appeal the administrator's decision to the fair hearing authority within five working days of receipt. Unless modified by the fair hearing authority, the period of ineligibility shall commence on the day following the end of the period covered by the grant of assistance fraudulently received or upon the date of notification of disqualification, whichever is later.

(c) Right to a fair hearing. Any applicant who is denied assistance for making a false representation will be afforded the opportunity to appeal the decision to the fair hearing administrator to receive the necessary information.
authority in accordance with article V of this chapter. No recipient shall have his assistance reduced or revoked during the period of eligibility before being notified and given the opportunity to appeal the decision. Any person who is dissatisfied with the decision of the fair hearing authority may appeal that decision to the superior court pursuant to rule 80-B.

(d) Reimbursement. If a recipient does not appeal the decision or if the fair hearing authority determines that a recipient did make a false representation, the recipient will be required to reimburse the municipality for any assistance received to which he was not entitled.

(e) Dependents. In no event will the disqualification of a person under this section serve to disqualify any eligible dependent in that household. If one or more members of a household are disqualified and assistance is requested for the remaining dependents, the eligibility of those dependents will be calculated as though the household is comprised of the dependents only, except that the entire household income will be considered available to them.

(Ord. No. 92-6, § 13-63, 3-5-92; Ord. No. 94-2, § 13-63, 5-5-94; Ord. No. 17-18, 11-16-17; Ord. No. 17-21, 1-4-18)

State law references: Similar provisions, 22 M.R.S.A. § 4315.

Sec. 46-95. Period of eligibility.

The administrator will grant assistance to all Eligible Persons for a period that is sufficient to meet their need but in no event may a grant of assistance cover a period in excess of one month. Upon any application the administrator will determine the applicant's eligibility on the basis of a 30-day prospective analysis. For reasons of administrative efficiency, however, the administrator may elect to disburse that applicant's assistance for shorter periods of time, such as weekly, throughout the 30-day period of eligibility. When the administrator elects to disburse general assistance for a period of time less than 30 days, subsequent grants of assistance during that 30-day period may be issued pursuant to the initial determination of need unless the applicant's financial situation changes substantially enough to warrant a redetermination of eligibility.

(Ord. No. 92-6, § 13-64, 3-5-92; Ord. No. 94-2, § 13-64, 5-5-94)

State law references: Similar provisions, 22 M.R.S.A. § 4309.

Sec. 46-96. Determination of need.

The period of time used to calculate need will be the next 30-day period from the date of application. The administrator will calculate applicants' expenses according to the actual expense of the basic necessity or the maximum levels for the specific necessities allowed in the general assistance policy, whichever is less. Applicants will not be considered eligible if their income and other resources exceed this calculation, except in an emergency. See section 46-39.

Applicants will also not be considered in need of general assistance if their income, property, credit, assets or other resources available to provide basic necessities for their household are greater than the applicable overall maximum level of assistance set forth in the general assistance policy. The difference between the applicant's income/resources and the overall maximum levels of assistance established by this chapter is the applicant's deficit. Once an applicant's deficit has
been determined, the specific maximum levels of assistance for each basic necessity listed in the general assistance policy shall be used by the administrator to guide the distribution of assistance for which the applicant is eligible. The specific maximum levels of assistance for each basic necessity are intended to be reasonable and sufficient to help recipients maintain a standard of health and decency.

(1) **Income for basic necessities.** Applicants are required to use their income for basic necessities. Except for initial applicants, no applicant is eligible to receive assistance to replace income that was spent within the 30-day period prior to the application for assistance on goods and services that are not basic necessities. All income spent on goods and services that are not basic necessities will be considered available to the applicant and combined with the applicant's prospective 30-day income for the purposes of computing eligibility. Applicants who have sufficient income to provide their basic necessities, but who use that income to purchase goods or services which are not basic necessities will not be considered eligible for assistance. Persons who exhaust their income on basic necessities and who still need assistance with other basic necessities will be eligible, provided that their income does not exceed the overall maximum levels of assistance.

(2) **Use-of-income requirements.** Anyone applying for general assistance must document his use of income to the administrator. This documentation can take the form of cancelled checks and/or receipts which demonstrate that the applicant has exhausted all household income received over the last 30-day period. Any repeat applicants must verify that such an expenditure of income was for basic necessities.

a. Allowable expenditures include reasonable shelter costs (rent/mortgage); the cost of heating fuel, electricity, and food up to the ordinance maximums; nonprescription drugs up to the ordinance maximums; telephone costs at the base rate if the household needs a telephone for medical reasons; the costs of nonelective medical services as recommended by a physician which are not otherwise covered by medical entitlement or insurance; the reasonable cost of essential clothing; and the costs of any other commodity or service determined essential by the administrator.

b. Cable television, cigarettes, alcohol, gifts purchased, costs of trips or vacations, court fines paid, repayments of unsecured loans, credit card debt, costs associated with pet care, etc., are not considered basic necessities and will not be included in the budget computation.

c. The municipality reserves the right to apply specific use-of-income requirements to any applicant, other than an initial applicant, who fails to use his income for basic necessities or fails to reasonably document his use of income. Those additional requirements will be applied in the following manner:

1. The administrator may require the applicant to use some or all of his income, at the time it becomes available, toward specific basic necessities. The administrator may prioritize such required
GENERAL ASSISTANCE

expenditures so that most or all of the applicant's income is applied to housing (i.e., rent/mortgage), energy (i.e., heating fuel, electricity), or other specified basic necessities.

2. The administrator will notify applicants in writing of the specific use-of-income requirements placed on them.

3. If upon subsequent application it cannot be determined how the applicant's income was spent, or if it is determined that some or all of applicant's income was not spent as directed and was also not spent on basic necessities, the applicant will not be eligible to receive either regular or emergency general assistance to replace that income.

4. If the applicant does not spend his income as directed, but can show with verifiable documentation that all income was spent on basic necessities up to allowed amounts, the applicant will remain eligible to the extent of the applicant's eligibility and need.

(3) Computation of income and expenses. In determining eligibility, the administrator will subtract the applicant's net income from the overall maximum level of assistance found at the beginning of section 46-98. If income is greater than the overall maximum level of assistance, the applicant will not be eligible except in an emergency (see section 46-39).

The municipality will provide assistance in an amount up to the deficit to the extent the applicant is in need of basic necessities. The municipality will not grant assistance in excess of the maximum amounts allowed in section 46-98 for specific basic necessities except in an emergency or when the administrator elects to consolidate the applicant's unmet need, as provided in subsection (4) of this section.

(4) Consolidation of deficit. As a general rule and to the extent of their deficit, applicants will be eligible for assistance for any basic necessity up to, but not exceeding, the maximum amount allowed for that necessity in this chapter or the actual 30-day cost of the necessity, whichever is less. Under certain circumstances, however, and in accordance with the following conditions, the administrator may consolidate the applicant's deficit and apply it toward a basic necessity in an amount greater than the ordinance maximum for that necessity.

a. The practice of consolidating the deficit and applying it toward a basic necessity in amounts greater than the ordinance maximum shall be the exception rather than the rule;

b. The total general assistance grant cannot exceed the total deficit unless the applicant is in an emergency situation; and

c. The need for the application of the recipient's consolidated deficit toward a basic necessity was not created by the recipient misspending his income or resources in violation of the use-of-income requirements of this chapter.

(Ord. No. 92-6, § 13-65, 3-5-92; Ord. No. 94-2, § 13-65, 5-5-94)
Sec. 46-97. Income.

(a) *Income standards.* Applicants whose income exceeds the overall maximum level of assistance provided in the general assistance policy shall not be eligible for general assistance except in an emergency. The administrator will conduct an individual factual inquiry into the applicant's income and expenses each time they apply.

(b) *Calculation of income.* To determine whether applicants are in need, the administrator will calculate the income they will receive during the next 30-day period commencing on the date of application and identify any assets or resources that would alleviate their need. For all applicants other than initial applicants, the administrator will also consider as available income any income that was spent during the previous 30-day period on basic necessities, as well as any income that was spent on basic necessities in unreasonable excess of the ordinance maximums for specific basic necessities. If a household's income exceeds the amount of the household's need for basic necessities, up to the maximum levels contained in the general assistance policy, applicants will not be considered in need. Exceptions will be made in emergency situations which may necessitate that the maximum levels be exceeded. See section 46-39. To calculate weekly income and expenses, the administrator will divide the applicant's monthly income and expenses by 4.3.

(c) *Types of income.* Income which will be considered in determining an applicant's need includes:

1. *Earned income.* Income in cash or in-kind earned by the applicant through wages, salary, commissions, or profit, whether self-employed or as an employee, is considered earned income. If a person is self-employed, total income will be computed by subtracting reasonable and actual business expenses from gross income. When income consists of wages, the amount computed will be the income available after taxes, social security and other payroll deductions required by state, federal and local law. Rental income and profit from produce that is sold is considered earned income. Income that is held in trust and unavailable to the applicant or the applicant's dependents will not be considered as earned income. Note: Actual work-related expenses such as union dues, transportation to and from work, special equipment or work clothes, and child care costs will not be considered available income and will be deducted.

2. *Income from other assistance or social services programs.* State/federal categorical assistance benefits, SSI payments, social security payments, VA benefits, unemployment insurance benefits, and payments from other government sources will be considered as income, unless expressly prohibited by federal law or regulation. Federal law prohibits food stamps and fuel assistance payments made by the home energy assistance program (HEAP) from being considered income. The value of the food stamps or fuel assistance will not be used to reduce the amount of general assistance the applicant is eligible to receive, although applicants may have only a limited or reduced need for general assistance for heating fuel or electricity if a recently received HEAP benefit has sufficiently credited their account or otherwise obviated an actual fuel-related cost over the
prospective 30-day period. The administrator's obligation is to always compute the heating needs of an applicant who has received HEAP as if that applicant paid for his total fuel costs. Accordingly, in such cases, the administrator will budget for the household's heating energy needs according to actual usage, up to the ordinance maximums, but the administrator may, with written notice to the applicant, hold in reserve the heating energy portion of the applicant's deficit until such a time during the period of eligibility that the applicant has a demonstrable need for the disbursement of heating energy assistance; that is, the applicant's fuel tank can accept a minimum fuel delivery or the applicant no longer has a positive credit balance with his utility company. The municipality is not obligated to divert any recipient's heating energy allowance toward nonheating purposes solely on the basis of the recipient’s receipt of HEAP.

(3) Court-ordered support payments. Alimony and child support payments will be considered income only if actually received by the applicant. The general assistance administrator will refer cases where support payments are not actually received to the state department of human services' support enforcement location unit.

(4) Income from other sources. Payments from pensions and trust funds will be considered income. Payments from boarders or lodgers will be considered income as will cash or in-kind contributions provided to the household from any other source, including relatives.

(5) Earnings of a son or daughter. Earned income received by sons and daughters below the age of 18 years who are full-time students and who are not working full-time will not be considered income. The unearned income of a minor in the household will be considered available to the household.

(6) Income from household members. Income from household members will be considered available to the applicant, whether or not the household member is legally obligated for the support of the applicant, if the household members pool or share their income and expenses as a family or intermingle their funds so as to provide support to one another. (Boisvert v. Lewiston, CV#80-436, Androscoggin County Superior Court)

(7) Pooling or nonpooling of income. When two or more individuals share the same dwelling unit but not all members of the household are applying for general assistance, the administrator shall make a finding under a rebuttable presumption that the entire household is pooling income. One or more applicants for assistance can successfully rebut the presumption that all household income is being pooled by providing the administrator with verifiable documentation affirmatively demonstrating a pattern of nonpooling for the duration of the shared living arrangement. Such documentation would include evidence of the entire household expenses as well as bank statements, cancelled checks, receipts, landlord statements or other vendor accounts clearly supporting a claim that the applicant has been and is presently solely and entirely responsible for his pro rata share of household costs. If the applicant is unable to successfully rebut the municipality's presumption that all household income is being pooled, eligibility of the entire household will be determined based on total household income. If the applicant
successfully rebuts the municipality's presumption that all household income is being pooled, the applicant's eligibility will be determined on the basis of his income and his pro rata share of actual household expenses.

(8) **Lump sum income.** A lump sum payment received by an applicant or recipient, prior to or subsequent to applying for assistance shall be considered as income available to the household, with the exception of any required payments (i.e., any third party payment which is required as a condition of receiving the lump sum payment, or any payments of bills earmarked for the purpose for which the lump sum payment was made) and any amount of the lump sum payment which the applicant or recipient can document was spent on basic necessities, as described below. The lump sum payment must be prorated over future months according to the following criteria:

The period of proration is determined by disregarding any portion of the lump sum payment that the applicant or recipient has spent to purchase basic necessities, including but not limited to: all basic necessities provided by general assistance; reasonable payment of funeral or burial expenses for a family member; reasonable travel costs related to the illness or death of a family member; repair or replacement of essentials lost due to fire, flood or other natural disaster; repair or purchase of a motor vehicle essential for employment, education, training or other day-to-day living necessities; repayments of loans or credit, the proceeds of which can be verified as having been spent on basic necessities; and payment of bills earmarked for the purpose for which the lump sum is paid. All income received by the household between the receipt of the lump sum payment and the application for assistance is added to the remainder of the lump sum. The period of proration is then determined by dividing the remainder of the lump sum payment by the verified actual monthly amounts for all of the household's basic necessities. That dividend represents the period of proration determined by the administrator to commence on the date of receipt of the lump sum payment. The prorated sum for each month must be considered available to the household for 12 months from the date of application or during the period of proration, whichever is less.

(Ord. No. 92-6, § 13-66, 3-5-92; Ord. No. 94-2, § 13-66, 5-5-94; 12-9, 8-16-12; Ord. No. 13-11, 7-1-13)

**State law references:** Similar provisions, 22 M.R.S.A. §§ 4301(7), (8-A), (12-A), 4308.

**Sec. 46-98. Basic necessities; maximum levels of assistance.**

(a) **Overall maximum levels of assistance.** Notwithstanding any of the maximum levels of assistance for specific basic necessities listed in this section, an applicant's eligibility for general assistance will be first determined by subtracting his income from the overall maximum level of assistance, established in Title 22, section 4305, subsection 3-C, as set in the general assistance policy for the applicable household size. The difference yielded by this calculation shall be the applicant's deficit. Applicants will be eligible for general assistance up to the calculated deficit to the extent the applicant is unable to otherwise provide the basic necessities essential to maintain themselves or their families. Applicants with no deficit shall be found ineligible for general assistance unless they are in an emergency, in which case eligibility for emergency general assistance will be determined
General Assistance

According to section 46-39.

(b) Maximum levels of assistance for specific basic necessities. The municipality will grant assistance to eligible applicants for basic necessities according to the maximum levels for specific types of assistance as set forth in the general assistance policy. The administrator, in consultation with the applicant, may apply the amount of the applicant's deficit toward assistance with any one or combination of necessities not to exceed the total deficit. These maximum levels will be strictly adhered to unless the administrator determines that there are exceptional circumstances and an emergency is shown to exist, in which case these absolute levels will be waived in order to meet immediate needs (Glidden v. Town of Fairfield, et al, CV79-17, Somerset County Superior Court). In all cases, either the actual expenses the applicant incurs for basic necessities or the maximum amount allowed in each category, whichever is less, will be used in determining need. The applicant's need for common living expenses for food, rent, fuel, etc., will be presumed to be reduced by an amount equal to the other household members' proportionate fair share of the common living expenses. This presumption may be rebutted by evidence that the other household members had no income with which to pay their share of common expenses. No applicant will be allowed to claim a need for any expense which has been or will be paid by another person, or which has been incurred in another person's name.

1) Food. The administrator will provide food assistance to Eligible Persons up to the allowed maximum amounts as established by the city council in the general assistance policy, such amounts being as designated by the U.S.D.A. Thrifty Food Plan for the appropriate household size, and distributed by the state department of human services on or about October of each year. In determining need for food, the administrator will not consider the value of food stamps an applicant receives as income (7 USC sec. 2017(b); Dupler, et al v. City of Portland, et al, CV-74-134 SD). The municipality will authorize vouchers to be used solely for approved food products.

2) Housing. The administrator will provide assistance with rent or mortgage payments that are reasonable and within the allowed maximum levels established by the city council in the general assistance policy, and in accordance with the housing assistance limits provided in Title 22, section 4308, subsection 1-A; and in accordance with the housing exceptions provided in Title 22, section 4308, subsection 1-B. It is the applicant's responsibility to find suitable housing, although the administrator may help the applicant find housing when appropriate. The administrator will inform the applicant of the allowed housing maximums to assist the applicant in his search for housing. The allowed maximum for any applicant will be the categorical housing maximum representing the minimum dwelling unit space necessary to adequately shelter the applicant household. Applicants requesting assistance for housing that contains more bedrooms than are necessary for the number of household members will be provided assistance according to the maximum level for the number of rooms actually needed. Single individuals will be required to live in rooms, boardinghouses or shelters when such housing is available. Persons will be required to find rooms or apartments that have utilities furnished, unless they are residing in subsidized housing. Persons will be required to apply for, and accept, subsidized housing. The...
municipality will not pay security deposits or back bills, except in an emergency as provided in section 46-39.

(3) **Rental payments to relatives.** The municipality may elect to not issue any rental payment to an applicant's relatives unless the rental relationship has existed for at least three months and the applicant's relatives rely on the rental payment for their basic needs. For the purpose of this section, a "relative" is defined as the applicant's parents, grandparents, children, grandchildren, siblings, parent's siblings, or any of those relatives' children.

(4) **Rental payments to private homes.**
   a. When applicants are living in private homes or sharing dwelling units with other people who are not requesting general assistance, the amount allowed as the applicant's shelter expense will be the applicant's pro rata share of the actual, total shelter cost, up to the ordinance maximum.
   b. Any housing assistance issued to a recipient in such a circumstance will be issued, whenever reasonably possible, to the landlord or property owner with most superior legal or equitable interest in the property.
   c. When the municipality issues in aggregate more than $600.00 in rental payments to any landlord in any calendar year, a 1099 form declaring the total amount of rental payments during the calendar year will be forwarded to the Internal Revenue Service (IRS) pursuant to IRS regulation. See section 6041(a) of the Internal Revenue Code.
   d. Any landlord wishing to regularly receive rental payments from the municipality on behalf of applicants renting rooms from the landlord's own residence must, at a minimum, make a good faith effort to obtain a lodging license from the department of human services, division of health engineering, pursuant to 10-144A Code of Maine Regulations, chapter 201, as a condition of that landlord receiving future general assistance payments on behalf of his tenants.

(5) **Mortgage payments.**
   a. In the case of a request for assistance with a mortgage payment, the general assistance administrator will make an individual factual determination of whether the applicant has an immediate need for such aid. In making this determination, the administrator will consider the extent and liquidity of the applicant's proprietary interest in the housing. Factors to consider in making this determination include:
      1. The marketability of the shelter's equity;
      2. The amount of equity;
      3. The availability of the equity interest in the shelter to provide the applicant an opportunity to secure a short-term loan in order to meet immediate needs;
      4. The extent to which liquidation may aid the applicant's financial rehabilitation;
5. A comparison between the amount of mortgage obligations and of anticipated rental charges the applicant would be responsible for if he were to be dislocated to rental housing;

6. The imminence of the applicant's dislocation from owned housing because of his inability to meet the mortgage payments;

7. The likelihood that the provision of housing assistance will prevent such dislocation; and

8. The applicant's age, health and social situation.

b. These factors shall be considered when determining whether the equity in the shelter is an available asset which may be substituted for the assistance the municipality would otherwise be required to provide. If after reviewing the above criteria the administrator determines that the payment of the mortgage is not necessary to meet the applicant's immediate shelter needs, the administrator may elect not to make any mortgage payment unless the applicant has been served a notice of foreclosure, although mortgage payments, up to the ordinance maximum for housing, will be budgeted as an expense.

c. If a mortgage payment is necessary, the administrator will pay the actual amount due, up to the amount allowed according to the maximum levels established by the city council in the general assistance policy, whichever is less. After an initial application, assistance with such payments will be given only after the applicant has made all reasonable efforts to borrow against the equity of his home. If there is not sufficient equity in the home with which to secure a loan, and if the monthly mortgage payments are not realistically in line with the rental rates for similar housing in the area that could meet the applicant's needs, the administrator will inform the applicant that he is responsible for finding alternative housing within his ability to pay and will be obligated to make all reasonable efforts to secure such housing.

(6) Lien.

a. The municipality may place a lien on the property in order to recover its costs of granting assistance with mortgage payments. No lien may be enforced against a recipient, except upon his death or the transfer of the property. Further, no lien may be enforced against a person who is currently receiving any form of public assistance or who would again become eligible for general assistance if the lien were enforced.

b. If the municipality determines that it is appropriate to place a lien on a person's property to recover its costs of providing general assistance for a mortgage payment, it must file a notice of the lien with the county register of deeds where the property is located within 30 days of making the mortgage payment. That filing shall secure the municipality's or the state's interest in an amount equal to the sum of that mortgage payment and all subsequent mortgage payments made on behalf of the same Eligible Person, plus interest and costs. Not less than ten days prior to filing the
lien notice in the registry, the municipal officers must send a different notice to the owner of the real estate, the general assistance recipient, and any record holder of the mortgage by certified mail, return receipt requested, that a lien on the property is going to be filed with the registry. This notice must clearly inform the recipient of the limitations upon enforcement plus the name, title, address and telephone number of the person who granted the assistance. The municipal officers must also give written notice to the recipient each time the amount secured by the lien is increased because of an additional mortgage payment or the imposition of interest. This notice must include the same information that appeared on the original notice of proposed filing sent to the recipient.

c. The municipality will charge interest on the amount of money secured by the lien. The city council will establish the interest rate, not to exceed the maximum rate of interest allowed by the state treasurer to be charged against delinquent taxes. The interest will accrue from the date the lien is filed.

(7) Property taxes. If an applicant requests assistance with his property taxes, the administrator will inform the applicant that there are two procedures on the local level to request that relief: the poverty abatement process and general assistance. If the applicant chooses to seek property tax assistance through general assistance, or if the applicant is denied a poverty tax abatement, the administrator may consider using general assistance to meet this need only if:

a. The property tax in question is for the applicant's place of residence;

b. There is a tax lien on the property which is due to mature within 60 days of the date of application;

c. As a matter of policy or practice it is reasonably certain that a tax lien foreclosure will result in subsequent eviction from the residential property; and

d. The applicant, with sufficient notice, applies for property tax relief through the state resident property tax program, when available.

(8) Housing maximums. The maximum levels of housing assistance contained in this chapter have been derived either from a locally accomplished fair market rental survey or the fair market rental values developed by the United States Department of Housing and Urban Development (HUD). If the maximum levels of housing are derived from the HUD values as those values are prepared and distributed by the state department of human services on or about November 1 of each year, those levels are hereby incorporated by reference. If and when the maximum levels of housing contained in this chapter are derived from a locally developed fair market rental survey, a record of that survey will be submitted to the department of human services, general assistance unit, and the maximum levels of housing assistance will be incorporated into this chapter pursuant to the ordinance adoption and amendment procedures found at 22 M.R.S.A. § 4305. The maximum amounts allowed for housing are as established by the city council in the general assistance policy.
Utilities.

a. Expenses for lights, cooking and hot water will be budgeted separately if they are not included in the rent. Applicants are responsible for making arrangements with the utility company regarding service, including entering into a special payment arrangement if necessary.

b. Assistance will be granted to eligible applicants on the basis of their most recent bill. The municipality is not obligated to pay back bills or utility security deposits. Exceptions may be made in emergency situations pursuant to section 46-39. Disconnection of utility service will not be considered an emergency in all cases. The administrator will make an individual, factual analysis to determine if the termination of utility service constitutes an emergency. The administrator will consider the household composition, the time of year, the age and health of the household members, and other appropriate factors in reaching a decision. Applicants who had sufficient income, money, assets or other resources to pay their utility bill when it was received, but who spent all or part of their income on items which were not basic necessities, will not be eligible to receive general assistance to replace those funds. Applicants have the burden of providing evidence of their income and use of income for the applicable time period. See section 46-39. The administrator will notify applicants in writing that they must give the administrator prompt notice if their utility service is to be terminated or if their fuel supply is low. It is the applicants' responsibility to attempt to make arrangements with the utility company to maintain their service and to notify the administrator if assistance is needed with a utility bill prior to service being terminated.

c. In accordance with the following conditions, the administrator may allow as a budgetable expense the amount of an applicant's summer-loaded special payment arrangement (SPA) or budget payment arrangement (BPA), as calculated by the electric utility and entered into by the applicant:

1. The SPA or BPA, when annualized, does not exceed the above monthly maximums, when annualized, for nonelectrically heated dwelling units.

2. The SPA or BPA, when annualized, does not exceed the above monthly maximums and the fuel assistance maximums, when annualized, for electrically heated dwelling units.

3. The administrator determines, in consultation with the utility, that the payment arrangement does not include in any part the installment payment of past debt unless the municipality guaranteed to the utility the allowance of such an arrangement as a condition of averting a disconnection.

d. Pursuant to the use-of-income requirements in section 46-96, whenever the administrator budgets for SPAs or BPAs under this section, the recipient will be required to pay the SPA or BPA himself to the extent of
GENERAL ASSISTANCE

the income capacity of the household.

(10) Nonelectric utilities. The allowed amount for water and sewer utility service will be budgeted at the actual 30-day cost for those services.

(11) Fuel.

a. Expenses for home heating will be budgeted according to the actual need for fuel during the heating season (September through May), provided such expenses are reasonable, and at other times during the year when the administrator determines the request for fuel assistance is reasonable and appropriate.

b. Assistance will be granted to eligible applicants on the basis of their most recent bill. The municipality is not responsible for back bills, except in an emergency as provided in section 46-39. Applicants are responsible for monitoring their fuel supply and requesting assistance prior to depleting their fuel supply. When applicants who have been informed of this responsibility run out of fuel nonetheless, and can show no just cause for failing to give the administrator timely notice of their need for fuel, the administrator shall find that the emergency was not beyond the applicant's control, and process the emergency request accordingly, pursuant to section 46-39. Running out of fuel will not necessarily be considered an emergency unless the applicants have just cause for failing to give the administrator timely notice of their need for fuel.

c. When the dwelling unit is heated electrically, the maximum amount allowed for heating purposes will be calculated by multiplying the number of gallons of fuel allowed for that month by the current price per gallon.

d. When fuel such as wood, coal and/or natural gas is used to heat, they will be budgeted at actual rates, if they are reasonable. No eligible applicant shall be considered to need more than seven tons of coal per year, eight cords of wood per year, 126,000 cubic feet of natural gas per year, or 1000 gallons of propane.

(12) Personal/household supplies. Expenses for ordinary personal and household supplies will be budgeted and allowed according to the applicant's actual need for these items, up to the maximums. Personal and household supplies include hand soap, toothpaste, shampoo, shaving cream, deodorant, dish detergent, laundry supplies and costs, household cleaning supplies, razors, paper products such as toilet paper, tissues, paper towels, garbage/trash bags, and lightbulbs.

(13) Other basic necessities. Expenses falling under this subsection may be granted when they are deemed essential to an applicant's or recipient's health and safety by the general assistance administrator and, in some cases, upon verification by a physician. Assistance will be granted only when these necessities cannot be obtained through the utilization of available resources.

a. Clothing. The municipality may assist a household with the purchase of adequate clothing, although, in most instances, clothing will be a postponable item. Exceptions to this would be, for example, if fire or
unusually cold weather makes extra clothing an immediate necessity, special clothing is necessary for the applicant's employment. Before assistance will be granted for clothing, the general assistance administrator must be satisfied that the applicant has utilized all available resources to secure the necessary clothing. Clothing will be budgeted at a fee as determined by the city council in the general assistance policy when the general assistance administrator finds it necessary to authorize clothing.

b. Medical. The municipality will pay for essential medical expenses, other than hospital bills (see hospital bills), provided that the municipality is notified and approves the expenses and services prior to their being made or delivered. The municipality will grant assistance for medical service only when assistance cannot be obtained from any other source and the applicant would not be able to receive necessary medical care without the municipality's assistance. The applicant is required to utilize any resource, including any federal or state program, that will diminish his need to seek general assistance for medical expenses. The municipality will grant assistance for nonemergency medical services only if a physician verifies that the services are essential. All medical costs authorized by the municipality will be at Medicaid rates. The administrator may require a second medical opinion from a physician designated by the municipality at the municipality's expense to verify the necessity of the service. In order for telephone service to be considered an allowable expense, the applicant must provide a written statement from a physician certifying that the telephone is absolutely essential to the applicant's health and safety. Only the basic rate will be considered.

c. Hospital bills.

1. In the event of an emergency admission to the hospital, the hospital must notify the administrator within five business days of the admission. Notification must be by telephone, confirmed by certified mail, or by certified mail only. If a hospital fails to give timely notice to the administrator, the municipality will have no obligation to pay the bill.

2. Any person who cannot pay his hospital bill must apply to the hospital for consideration under the hospital's charity care program as provided in 22 M.R.S.A. § 396-F(1). Anyone who is not eligible for the hospital's charity care program may apply for general assistance. Applicants must apply for assistance within 30 days of being discharged from the hospital and provide a notice from the hospital certifying that they are not eligible for the hospital's charity care program.

3. Before the administrator will consider whether to allow a hospital bill as a necessary expense, the applicant must enter into a reasonable payment arrangement with the hospital. The payment arrangement will be based upon the Medicaid rate. In determining an applicant's eligibility, the municipality will budget the monthly
payment to the hospital the applicant has agreed to pay. The applicant's need for assistance with a hospital bill will be considered each time he applies by including the amount of the bill in the applicant's monthly budget, but the recipient will be responsible for making any necessary payments to the hospital pursuant to the use-of-income requirements found at section 46-96 of this chapter.

d. **Dental.** The municipality will not furnish dental services, except in cases of emergency. If full mouth extractions are necessary, the municipality will pay for dentures provided the applicant has no other resources to pay for dentures. The applicant will be referred to a dental clinic in the area whenever possible. The administrator will expect the applicant to bear a reasonable part of the cost for dental services, including extractions and dentures, taking into account the applicant's ability to pay.

e. **Eye care.** In order to be eligible to receive general assistance for eyeglasses, an applicant must have his medical need certified by a person licensed to practice optometry. The general assistance administrator will provide assistance for eyeglasses to Eligible Persons only after the applicant has exhausted all other available resources.

f. **Work-related expenses.** In determining need, reasonable and actual work-related expenses will be deducted from earned income. These expenses include child care costs, work clothes, supplies and transportation (if it is not available by the local bus service or car pooling) at the actual costs, not to exceed the ordinance maximum as established by the city council in the general assistance policy. The applicant is required to provide documentation substantiating the costs and that the expenses were necessary.

g. **Burial, cremations.**

1. Under the circumstances and in accordance with the procedures and limitations described below, the municipality recognizes its responsibility to pay for the burial or cremation of Eligible Persons. The administrator will provide for burial and cremation services to Eligible Persons up to the allowed maximum amounts as established by the city council in the general assistance policy.

2. Funeral directors must give timely notice. In order for the municipality to be liable for a burial or cremation expense, the funeral director must notify the administrator prior to the burial or cremation or by the end of 3 business days following the funeral director's receipt of the body, whichever is earlier. This contact by the funeral director shall begin the process of developing an application for burial/cremation assistance on behalf of the deceased. It is the funeral director's responsibility to determine if the family or any other persons are going to pay all or part of the burial expenses. If family members or others are unable to pay the expenses and the funeral director wants the municipality to pay all
or part of the expenses, the funeral director must make timely contact with the municipal administrator. In addition, the funeral director may refer legally liable relatives to the administrator so that a timely determination of financial capacity may be accomplished.

3. Application for assistance shall be created on behalf of the deceased. For the purposes of determining residency, calculating eligibility and issuing general assistance for burial or cremation purposes, an application for assistance shall be created by the administrator on behalf of the deceased.

4. With regard to residency, the municipality of responsibility for burial expenses shall be the municipality in which the eligible deceased person was a resident at the time of death as residency is determined under section 46-40.

5. Although legally liable relatives may be asked to provide information regarding their income, assets, and basic living expenses, that information will not be construed as an application for general assistance inasmuch as living persons are not eligible for burial assistance. To clarify this point of law, although legally liable relatives have a financial responsibility to pay for the burial or cremation of their relatives, that financial responsibility only exists to the extent the legally liable relatives have a financial capacity to do so. Therefore, legally liable relatives who are eligible for general assistance, by virtue of their eligibility, have no legal obligation to pay for the burial or cremation of their relatives. For these reasons, all general assistance issued for burial or cremation purposes shall be issued on behalf of, and in the name of, the deceased.

6. The financial responsibility of certain family members. Spouse, registered domestic partner, grandparents, parents, children and grandchildren of the deceased are financially responsible for the burial or cremation of the deceased to the extent those relatives, individually or as a group, have a financial capacity to pay for the burial or cremation either in lump sum or by means of a budgeted payment arrangement with the funeral home. Accordingly, at the request of the administrator, all legally liable relatives must provide the municipal administrator, with any reasonable requested information regarding their income, assets, and basic living expenses. If any responsible family members refuse to provide the requested information or refuse to allow the municipality to investigate their resources, the municipality will not grant the requested burial or cremation assistance. If the administrator makes a finding that one or more legally liable relatives has a financial capacity to pay for the burial or cremation, the
municipality will not grant the requested burial or cremation assistance. Any representative of a financial institution or any employer of a general assistance applicant who, upon receipt of a written release signed by the depositor and a written request from the Administrator, refuses to provide necessary information to the administrator in order to verify an applicant’s eligibility must state in writing the reason for the refusal. National banks are also obligated to disclose deposit information to the Administrator upon receipt of a written request and release signed by the depositor. Additionally, when a municipality or its agents are acting in accordance with 22 M.R.S.A. §4313(2) to verify eligibility for funeral or cremation benefits, an officer of a financial institution must disclose the amount deposited upon receipt of a written request from the municipality or its agents and a notarized affidavit signed by the overseer of the municipality or its agents stating that the named depositor is deceased.

7. Eight days to determine eligibility. The administrator may take up to eight days from the date of contact by the funeral director to issue a written decision regarding the amount of the municipal contribution toward the burial or cremation.

8. The municipal obligation to pay when legally liable relatives or others can contribute. The figures provided in the general assistance policy are the maximum benefits provided by the municipality when no contributions toward the burial or cremation are available from any other source.

h. Burial expenses. The administrator will respect the wishes of family members with regard to whether the deceased is interred by means of burial or cremation. Burial services required, at a minimum, shall include removal of the body from a local residence or institution, a secured death certificate and obituary, preparation of the body, a minimum casket, and necessary transportation. Other reasonable and necessary specified direct costs may be approved for reimbursement by the administrator, and may include the wholesale cost of a cement liner if the cemetery bylaws require one, the opening and closing of the gravesite, and a lot in the least expensive section of the cemetery. If the municipality is able to provide a cemetery lot in a municipally owned cemetery, or in a cemetery under municipal control, or in a cemetery that donates the lots to the city, the cost of the cemetery lot in any other cemetery will not be paid by the municipality.

i. Cremation expenses. In the absence of any objection by any family members of the deceased, the administrator will issue general assistance for cremation services. Cremation services required, at a minimum, shall include removal of the body from a local residence or institution, a
secured death certificate and obituary, an appropriate container for cremation, and necessary transportation. Other reasonable and necessary specified direct costs may be approved for reimbursement by the administrator, and may include the wholesale cost of a liner if the cemetery bylaws require one, and a cremation lot in the least expensive section of the cemetery. If the municipality is able to provide a cemetery lot in a municipally owned cemetery, or in a cemetery under municipal control, or in a cemetery that donates the lots to the city, the cost of the cemetery lot in any other cemetery will not be paid by the municipality.

j. **Capital improvements.** The costs associated with capital improvements/repairs (e.g., heating/water/septic system repair) will generally not be budgeted as a basic necessity. Exceptions can be made only when the capital improvement/repair has been preapproved by the administrator as a necessary expense and the monthly cost of the capital improvement/repair has been reduced as far as reasonably possible, for example, by means of the applicant entering into an installment payment arrangement with the contractor. The administrator may grant general assistance for capital improvements when:

1. The failure to do so would place the applicant(s) in emergency circumstances;
2. There are no other resources available to effect the capital repair; and
3. There is no more cost-effective alternative available to the applicant or municipality to alleviate an emergency situation.

In some cases, the entire immediate cost of the capital improvement can be mitigated by the applicant entering into an installment payment arrangement with a contractor. The municipality reserves the right to place a lien on any property pursuant to 22 M.R.S.A. § 4320 when general assistance has been used to effect a capital improvement. The lien process shall be accomplished in the same manner as for mortgage payments, as described in subsection (b)(2) of this section.

**Sec. 46-99. Notice of decision; disbursements.**

(a) **Written decision.** The administrator will give a written decision to each applicant after making a determination of eligibility each time a person applies. The decision will be given to the applicant within 24 hours of receiving an application. See section 46-36.

In order to ensure that applicants understand their rights, it is the responsibility of the general assistance administrator to explain the applicant's right to a fair hearing in the written notice of decision.
(b) **Contents.** After an application has been completed, applicants will be given written notice of any decision concerning their eligibility for assistance. In addition to the contents of a written decision listed in section 46-36, the notice will state that applicants:

1. Have the right to a fair hearing and the method by which they may obtain a fair hearing;
2. Have the right to contact the department of human services if they believe the municipality has violated the law. The decision will state the method for notifying the department.

(c) **Disbursement of general assistance.** Except when determined impractical by the administrator, all general assistance will be provided in the form of a voucher or purchase order payable to a vendor or through direct municipal payment to a provider of goods or services. General assistance will not be issued in the form of a cash payment to an applicant unless there is no alternative to making such a cash payment, in which case the administrator shall document the circumstances for issuing general assistance in the form of cash.

**ARTICLE V. FAIR HEARING**

**Sec. 46-121. Right to fair hearing.**

Within five working days of receiving a written notice of denial, reduction or termination of assistance, or within ten working days after any other act or failure to act, the applicant or his authorized representative has the right to request a fair hearing. The right to review a decision by the general assistance administrator is a basic right of the applicant to a fully evidentiary hearing and is not limited solely to a review of the decision. (Carson v. Oakland, 442 A.2d 170 (Me. 1982); Thibodeau v. Lewiston, Androscoggin Superior Court, 1979, CV78-388)

(Ord. No. 92-6, § 13-70, 3-5-92; Ord. No. 94-2, § 13-70, 5-5-94)

**State law references:** Similar provisions, 22 M.R.S.A. § 4322.

**Sec. 46-122. Method of obtaining.**

Upon receiving notification of the decision of the general assistance administrator, all claimants will be informed of the method of obtaining a fair hearing. All complaints that are not clear requests for a fair hearing will be answered by a personal interview or in writing by the general assistance administrator. If the client is satisfied with the adjustment or explanation, the administrator will make an entry in the case record and file any correspondence involved.

1. **Written request.** To obtain a fair hearing, the claimant must make a written request within five working days of receiving the administrator's decision to deny, reduce or terminate assistance, or within ten working days after any other act or failure to act. The administrator will make available a printed form for requesting
a fair hearing and will assist the claimant in completing it if necessary. On the printed form, the claimant will give the following information:

a. The decision on which review is sought;

b. The reasons for the claimant's dissatisfaction and why the claimant believes he is eligible to receive assistance; and

c. The relief sought by the claimant.

The administrator cannot deny or dismiss a request for a hearing unless it has been withdrawn by the claimant.

(2) Scheduling the fair hearing. Upon receipt of the completed written request, the fair hearing authority must meet and hold the hearing within five working days. The administrator will notify the claimant in writing when and where the hearing will be held. In addition to the date, time and place of the hearing, the notice of fair hearing sent to the claimant shall include, at a minimum, the claimant's rights to:

a. Be his own spokesperson at the fair hearing or be represented by legal counsel or other spokesperson at the hearing, at the claimant's own expense;

b. Confront and cross examine any witnesses presented at the hearing against the claimant;

c. Present witnesses on his own behalf.

Arrangements for the date, time, and place of the hearing will take into consideration the convenience of the claimant and hearing authority. The claimant will be given notice early enough to allow preparation and will also be given adequate preliminary information about the hearing procedure to allow for effective preparation of the claimant's case.

(Ord. No. 92-6, § 13-71, 3-5-92; Ord. No. 94-2, § 13-71, 5-5-94)

State law references: Similar provisions, 22 M.R.S.A. § 4322.

Sec. 46-123. The fair hearing authority.

(a) The municipal officers will appoint a fair hearing authority, which will review decisions of the general assistance administrator when requested by any claimant. The authority is charged with the responsibility of ensuring that general assistance is administered in accordance with state law and local ordinance.

(b) The fair hearing authority may consist of the municipal officers, one or more persons appointed by the municipal officers to act as the hearing authority or, if designated, the board of appeals created under 30-A M.R.S.A. § 2691. In determining the organization of the fair hearing authority, the municipal officers will use the following criteria. The person(s) serving as fair hearing authority must:

(1) Not have participated in the decision which is the subject of the appeal;

(2) Be impartial;
(3) Be sufficiently skilled in interviewing techniques to be able to obtain evidence and the facts necessary to make a fair determination;

(4) Be capable of evaluating all evidence fairly and realistically, explaining to the claimant the laws and regulations under which the administrator operated, and interpreting to the administrator any evidence of unsound, unclear or inadequate policies, practices or actions.

(Ord. No. 92-6, § 13-72, 3-5-92; Ord. No. 94-2, § 13-72, 5-5-94)

State law references: Similar provisions, 22 M.R.S.A. § 4322.

Sec. 46-124. The fair hearing procedure.

When a claimant requesting a fair hearing is notified of the date, time and place for the hearing in writing, he will also be given adequate preliminary information about the hearing procedure to allow for effective preparation of his case. The claimant shall be permitted to review his file prior to the hearing. At a minimum, the claimant will be told the following information, which will govern all fair hearings. All fair hearings will:

(1) Be conducted privately, and will be open only to the claimant, witnesses, legal counsel, or others whom the claimant wants present, and the general assistance administrator, his agents, counsel and witnesses;

(2) Be opened with a presentation of the issue by the fair hearing authority;

(3) Be conducted informally, without technical rules of evidence, but subject to the requirements of due process;

(4) Allow the claimant and the administrator the option to present their positions for themselves or with the aid of others, including legal counsel;

(5) Give all participants an opportunity to present oral or written testimony or documentary evidence, offer rebuttal, question witnesses presented at the hearing, and examine all evidence presented at the hearing;

(6) Result in a decision, based exclusively on evidence or testimony presented at the hearing;

(7) Be tape recorded, and result in a written decision that is given to the claimant and filed with evidence introduced at the hearing. The fair hearing authority will allow the claimant to establish all pertinent facts and circumstances, and to advance any arguments without undue interference. Information that the claimant does not have an opportunity to hear or see will not be used in the fair hearing decision or made part of the hearing record. Any material reviewed by the fair hearing authority must be made available to the claimant or his representative. The claimant will be responsible for preparing a written transcript if he wishes to pursue court action.

The fair hearing authority shall admit all evidence if it is the kind of evidence upon which reasonable persons are accustomed to rely in the conduct of serious affairs.

(Ord. No. 92-6, § 13-73, 3-5-92; Ord. No. 94-2, § 13-73, 5-5-94)

State law references: Similar provisions, 22 M.R.S.A. § 4322.
Sec. 46-125. The fair hearing decision.

(a) The decision of the fair hearing authority will be binding on the general assistance administrator, and will be communicated in writing to the claimant within five working days after completion of the hearing. Written notice of the decision will contain the following:

(1) A statement of the issue;
(2) Relevant facts brought out at the hearing;
(3) Pertinent provisions in the law or general assistance ordinance related to the decision;
(4) The decisions and reasons for it.

(b) A copy of the notice of the decision will be given to the claimant. The hearing record and the case record will be maintained by the general assistance administrator.

(c) The written notice of the decision will state that if the claimant is dissatisfied with the fair hearing decision, he has a further legal right to appeal the decision, pursuant to the Maine Rules of Civil Procedure, rule 80B. To take advantage of this right, the claimant must file a petition for review with the superior court within 30 days of receipt of the fair hearing decision.

(d) When the decision by the fair hearing authority or court authorizes assistance to the claimant, that assistance will be provided within 24 hours.

Secs. 46-126--46-145. Reserved.

ARTICLE VI. RECOVERY OF EXPENSES

Sec. 46-146. Recipients.

(a) Generally. The municipality may recover the full amount of assistance granted to a person from either the recipient or from any person liable for the recipient, or from his executors or administrators in a civil action. Prior to taking a recipient to court to recover the amount of assistance, the municipality will seek voluntary repayment from the recipient by notifying him in writing and discussing it with the recipient. The municipality shall not attempt to recover such costs if, as a result of the repayment, the person would again become eligible for general assistance.

(b) Recipients anticipating workers' compensation benefits. The municipality shall claim a lien for the value of all general assistance payments made to a recipient on any lump sum payment made to that recipient under the workers' compensation act or similar law of any other state. After issuing a general assistance payment on behalf of a recipient who has applied for or is receiving workers' compensation, the municipality shall file a notice of the municipal lien with the general assistance recipient and the office of secretary of state, uniform commercial code division. The notice of lien shall be filed on a UCC-1 form. The municipality shall also send a photocopy of that filing to the recipient's
workers' compensation attorney, if known, the applicant's employer or the employer's insurance company, and, at the administrator's discretion, to the workers' compensation board. The lien shall be enforced at the time any lump sum workers' compensation benefit is issued.

(c) **Recipients of SSI.** All applicants who receive general assistance while receipt of their supplemental security income (SSI) assistance is pending or suspended, and which therefore may be retroactively issued to the applicant at a later date, will be required to sign a statement on an interim assistance agreement form distributed by the department of human services that authorizes the Social Security Administration to direct a portion of any retroactive SSI payment to the municipality and/or the state in repayment for the general assistance granted. Any general assistance applicant who has applied for or who may be applying for SSI, or who may be required to apply for SSI pursuant to 22 M.R.S.A. § 4317 and who refuses to sign the interim agreement SSI authorization form will be found ineligible to receive general assistance until he provides the required signature.

(Ord. No. 92-6, § 13-80, 3-5-92; Ord. No. 92-14, § 1, 7-23-92; Ord. No. 94-2, § 13-80, 5-5-94)

**State law references:** Similar provisions, 22 M.R.S.A. § 4318, 39 M.R.S.A. § 106.

**Sec. 46-147. Relatives.**

The spouse of an applicant and the parents of any applicant under the age of 25 years are liable for the support of the applicant. In addition, spouse, registered domestic partner, children, grandchildren, parents and grandparents are liable for the burial costs of each other. The municipality considers these relatives to be available resources and liable for the support of their relatives in proportion to their respective ability. The municipality may complain to any court of competent jurisdiction to recover any expenses made on the behalf of a recipient if the relatives fail to fulfill their responsibility.

(Ord. No. 92-6, § 13-81, 3-5-92; Ord. No. 94-2, § 13-81, 5-5-94; 12-9, 8-16-12; Ord. No. 17-18, 11-16-17)

The expenditure of any donated funds shall be subject to the approval of the city administrator and/or designee, and the City Council where appropriate, who shall ensure that applicable policies are adhered to.

(d) The trustees may authorize the library director to apply for and accept grants to the extent that such grants do not require a cash match from the City or the commitment of City resources in future years. Where such match is required or future resources must be committed, the trustees may request that the City Council authorize and accept such grants.

ARTICLE II. CITATION SYSTEM OF CODE ENFORCEMENT

Sec. 50-36. Purpose.
The purpose of this article is to provide additional and alternative methods and processes to enforce the provisions of this Code in a just, speedy and inexpensive manner, to improve compliance with the provisions of this Code and thereby to protect, preserve and enhance the public health, safety and general welfare. (Code 1982, § 2-700)

Sec. 50-37. Applicability.
This article shall provide a method for enforcing and securing compliance with the various provisions of the Code of Ordinances, which is in addition to those methods otherwise contained in the Code. Any and all inspectors and enforcement officials under the various provisions of this Code are referred to in this article collectively as enforcement officials. (Code 1982, § 2-701)

Sec. 50-38. Investigations.
Upon receipt of information indicating the likelihood of a violation of any provision of this Code, the enforcement official shall investigate the facts and may make an inspection of the premises when legally authorized to do so. (Code 1982, § 2-702)
Sec. 50-39. Notice of violation.

If an investigation reveals that a code violation has occurred, the enforcement official shall give written notice of such violation to the person (hereinafter "violator") having control of any land, building, structure, sign, licensed or permitted business or operation which is in violation and order that the violation be corrected. Notice of the violation may be served in hand to the violator or left with a person of suitable age and discretion at the residence or place of business of the violator or mailed by certified mail, return receipt requested, to his last known address. If the return receipt is not returned, a notice shall be conclusively presumed to have been served if it is also sent by regular mail, postage prepaid, which is not returned as undeliverable by the postal service. If the enforcement official finds that the violation is one which requires immediate correction to protect the public health or safety, he may provide notice under this article by means of telephone or facsimile transmission to the violator or to a person of suitable age and discretion at the residence or place of business of the violator. Any notice under this article shall describe the violation, including a reference to the ordinance section violated, specify that reasonable period within which the violation must be corrected, and state the potential consequences if the violation is not corrected. The notice shall also advise the violator of any right to appeal to the board of appeals with respect to the enforcement official's determination that a violation exists for which the violator is responsible.

(Code 1982, § 2-703)

Sec. 50-40. Civil proceedings.

If the violation has not been corrected within the period established in the notice, the enforcement official or city attorney may initiate appropriate legal proceedings to compel the violator to correct the violation and seek whatever other relief to which the city may be entitled. Such legal proceedings may include the initiation of a land use complaint pursuant to Rule 80K of the Maine Rules of Civil Procedure and 30-A M.R.S.A. § 4452 et seq., as amended.

(Code 1982, § 2-704)

Sec. 50-41. Citations—Issuance.

If the violation has not been corrected within the period established in the notice, the enforcement official may issue, as an alternative to initiating a civil proceeding pursuant to section 50-40, a citation to the violator.

(Code 1982, § 2-705)

Sec. 50-42. Same—Contents.

The citation shall be in writing, describe the nature of the violation, including the ordinance section violated, state the date by which the violation must be corrected, that a civil penalty set in accordance with the city's policy manual as approved by the city council is imposed for the violation, the date by which the penalty must be paid and to whom and the consequences of failing to pay the penalty within the period stated. The time period allowed by the enforcement official within which the violation must be corrected shall be reasonable and shall take into consideration any notice period previously given to the violator, the nature of the violation to be corrected and the time which the enforcement official estimates will be reasonably required to correct the violation. The citation shall state the penalties which may be
imposed if the violation is not corrected within the time period set forth in the first citation and shall also state the penalties which may be imposed if any additional citation must be issued for the same violation. The citation shall also state that all additional penalties are cumulative.

(Code 1982, § 2-706; Ord. No. 08-06g, 8-14-08)

Sec. 50-43. Same--Service of.

A citation may be served upon the violator by giving the citation to the violator in hand, by leaving it with a person of suitable age and discretion at the residence or place of business of the violator or mailed by certified mail, return receipt requested, to his last known address. If the return receipt is not returned, the citation shall be conclusively presumed to have been served if it is also sent by regular mail postage prepaid, which has not been returned as undeliverable by the postal service.

(Code 1982, § 2-708)

Sec. 50-44. Time limits for corrective action.

The time period specified in a citation within which a violation must be corrected shall be reasonable in consideration of:

(1) The threat posed by such violation to the health, safety and welfare of the public;
(2) The nature of the work required to correct the violation; and
(3) Any notice period given to the violator in a previous citation for the same violation or pursuant to section 50-39.

(Code 1982, § 2-707)

Sec. 50-45. Penalty.

The civil penalty set in accordance with the city's policy manual as approved by the city council shall be imposed for the issuance of citations. The civil penalties imposed are cumulative.

(Code 1982, § 2-709; Ord. No. 08-06g, 8-14-08)

Sec. 50-46. Further violations.

If the violation has not been corrected within the time specified in the first citation, the enforcement official may issue a second citation. The second citation shall contain the same information set forth in the first citation regarding the nature of the violation but may do so by reference to the first citation. It shall also state that, in addition to the civil penalty imposed for the first citation, as set in accordance with the city's policy manual as approved by the city council, a civil penalty has been imposed for the second citation as set in accordance with the city's policy manual as approved by the city council. The second citation shall also state that the continued failure to correct the violation may result in the issuance of further citations and shall indicate the penalties provided for the issuance of subsequent citations. The time limits specified for correcting the violation may be the same as that allowed in the first citation or may be altered if there has been a change in circumstances. The same procedure shall be followed with regard to
the issuance of subsequent citations.
(Code 1982, § 2-710; Ord. No. 08-06g, 8-14-08)

**Sec. 50-47. Penalty for nonpayment of penalty: collection proceedings.**

All civil penalties imposed by citation shall be due within five days after the date by which the violation was ordered to be corrected. All civil penalties not paid when due shall bear interest at the rate of 18 percent per annum. The failure to pay when due any civil penalty imposed for violation of any of the laws, ordinances or rules set forth in 30-A M.R.S.A. § 4452(5), as amended, shall itself constitute a violation of such law, ordinance or rule for which the violator shall be liable for the penalties provided for in 30-A M.R.S.A. § 4452(3). The enforcement official or city attorney may initiate appropriate proceedings to collect any civil penalty which is not timely paid together with all interest thereon. Such legal action may include proceedings pursuant to 30-A M.R.S.A. § 4452.
(Code 1982, § 2-711)

**Sec. 50-48. Repeat violations.**

If a violator has been previously served with a notice of violation with regard to a specific violation, he shall not be entitled to receive any further notice of the same violation if it is repeated. If the enforcement official determines that a violator has repeated the same violation, he may proceed in accordance with section 50-43 without further notice.
(Code 1982, § 2-712)

**Sec. 50-49. Appeals.**

Appeals from a determination by the enforcement official that a violation of the Code has been committed may be taken to the board of appeals in accordance with the specific provisions of the particular ordinance alleged to have been violated.
(Code 1982, § 2-713)

**Sec. 50-50. Effect of article on other ordinances.**

This article does not supersede or repeal any other provision of the Code, nor preclude the initiation of any other legal proceeding which may be provided by applicable state or federal law.
(Code 1982, § 2-714)

**Sec. 50-51. Severability of provisions.**

If any provision of this article is declared invalid by a court of competent jurisdiction, such judgment shall be confined in its operation to that provision of this article directly involved in the controversy which gave rise to the judgement and shall not affect or impair the validity of any other provision of this article.

ARTICLE X. AGGRESSIVE PANHANDLING

Sec. 50-266. Purpose.

The purpose and intent of this ordinance is: to prevent dangers to persons and property, to prevent delays, and to avoid interference with traffic flow caused by persons soliciting employment, business, contributions, or sales of any kind, or collecting monies for the same, in
or on a publicly maintained street, road or highway used primarily for the conveyance of motorized vehicle traffic; to ensure unobstructed pedestrian travel within the public right of way, including sidewalks; and to protect the safety of the general public by imposing reasonable manner and place restrictions on the conduct of persons engaged in solicitation while respecting their constitutional rights of free speech. These purposes are derived from the following findings:

(1) Actively soliciting from occupants of vehicles distracts drivers from their primary duties to watch traffic and avoid potential hazards, including pedestrians, in the roadway, to observe all traffic control signals or warnings, and to prepare to move through the City’s travel ways and intersections.

(2) When persons approach vehicles to solicit from occupants, traffic flow is impeded, delays result due to obstruction of the free flow of travel, and congestion and blockage of travel ways, driveways to parking areas, and sidewalks results.

(3) Distracted drivers are more prone to accidents, which constitute a serious traffic safety problem and impede and prevent the orderly flow of traffic. Distracted drivers constitute a threat to the safety of the person engaging in solicitation as well as that of other pedestrian traffic and traffic in general.

(4) Aggressive solicitation creates fear and intimidation and results in a loss of access to and enjoyment of public places.

(5) The State Statute dealing with divided highways, Title 29-A M.R.S. §2052(5), authorizes a municipality to limit the use of travel ways and to prohibit pedestrians from those ways. The State Statute addressing pedestrian traffic, Title 29-A M.R.S. §2056(2), clarifies how pedestrians are expected to conduct themselves on a public way. The State Statute dealing with offenses against public order, Title 17-A M.R.S.A. §505, addresses obstruction of a public way.

Sec. 58-71. Generally.

The appeals procedure established in this division is intended to provide full opportunity for permanent noncontractual employees to bring to the attention of management, acts or omissions, working conditions or administrative actions that the employee feels need either adjustment or information. It is the intent and desire of the city to adjust complaints or grievances informally, and both supervisors and employees are expected to make every effort to resolve problems as they arise. However, it is recognized that there will be matters which can only be resolved after an appeal and review. The submission of a grievance by an employee shall in no way adversely affect the employee or his future employment with the city.

(Code 1982, § 2-251; Ord. No. 06-16, 2-8-07)

Sec. 58-72. Grievance procedure.

In order to ensure the employee of a method in which he/she may obtain review of his/her particular grievance effectively, the following steps are provided:

(1) The aggrieved employee shall, within ten working days of the incident, discuss and explain his/her grievance orally with the immediate supervisor. The
supervisor shall make a decision and notify the employee within ten working days after the discussion.

(2) If the aggrieved employee feels that the matter has not been settled or adjusted to his/her satisfaction by the immediate supervisor, he/she then may submit the matter in writing within ten days to the department head. The department head shall schedule a meeting within ten working days after receipt of the grievance from the employee. If the matter is not resolved at this meeting, the department head shall submit the written answer within ten working days after the scheduled meeting.

(3) If the decision of the department head is not satisfactory to the aggrieved employee, the grievance may then be submitted in writing within ten working days thereafter to the city administrator. The hearing shall be held within ninety working days after receipt of the request. The city administrator shall have the right to issue subpoenas, to examine witnesses under oath and to require the production of evidence. At such hearing, either party may be represented or assisted by counsel. The decision of the city administrator shall be final and may include any remedy appropriate to the dispute, including partial or complete restitution of back pay and/or benefits. The decision shall be submitted in writing within thirty working days after the close of the hearing.

(4) In the event of a suspension, demotion or dismissal of an employee, the employee shall commence the grievance procedure at the city administrator level (subsection (3) of this section).

The provisions of this section shall apply to city employees who were retired prior to the enactment of this section and their beneficiaries as well as to those city employees who are retired after such enactment and their beneficiaries, except that no decrease shall be applied to retired city employees who were retired prior to the enactment of this section or to their beneficiaries.

ARTICLE I. IN GENERAL

Sec. 66-1. Definitions.

The following words and phrases when used in this chapter shall have the meanings ascribed to them in this section. Whenever any words and phrases used in this chapter are not defined in this chapter but are defined in the laws of the state, then such definition shall be deemed to apply to such words or phrases.

**Accepted public easement** means an easement for public use by motor vehicles and otherwise over privately owned land as defined in 23 M.R.S.A. § 3021(2). It becomes accepted by being laid out by the city, by receipt of a deed, pursuant to a discontinuance as provided in 23 M.R.S.A. § 3026(1), or by recognition of a prescriptive use or other dedication. It shall be considered a public way or highway for purposes of the city's police power. However, there shall be no city obligation to maintain and repair such easement.

**Accepted street** means a street or way that has been laid out or accepted by the state, the county commissioners or the city council. The land where the accepted street is located may either be owned in fee by a governmental unit or an easement may have been acquired. An accepted street shall be equivalent to a town way as defined in 23 M.R.S.A. § 3021(3). It shall also include any public way and highway.

**Private way,** for the limited purpose of naming streets pursuant to section 66-2, means any private road, drive or easement used for the access of motor vehicles and pedestrians either by virtue of prior use or by being shown on a subdivision plan when such private way has two or more residential structures with frontage on said private way. A private way may either be proposed or in existence. Nothing herein shall be construed as imposing upon the city any duties or obligations, not otherwise imposed by law or assumed by official action of the city, with respect to private ways.

**Street or highway** means an accepted street and/or an accepted public easement.

**Unaccepted street** means a street or way which has not been legally accepted or recognized by a governmental unit.

**Way** means an existing means of access for motor vehicles and pedestrians by virtue of prior use or by being shown on a recorded subdivision plan. A way may either be proposed or in existence.

Sec. 66-2. Authority to name streets.

The several streets and private ways in the city shall continue to be called and known by such names until they shall be altered by the city council. The council may change or alter the name of any street, or public place or private way; and the council shall establish the names of all streets and public places hereafter laid out and accepted by the city or by any other authority within the city, or private ways which may come into existence by dedication or other process.

(Code 1982, § 24-1; Ord. No. 99-20, 1-13-00)
Sec. 66-3. Procedure for numbering houses.

The following procedures shall be followed in the assignment of door numbers to buildings constructed under the provisions of the building code to the end that street numbers of buildings hereafter constructed or altered may follow a logical and consistent pattern and thus lessen confusion and misunderstanding regarding such numbers:

(1) On approval of an application for a permit required by the building code, the building official shall give written notice to the city engineer of the type of construction or alteration planned on the premises described in the application. Such notice shall contain an adequate description of the premises, the location of the proposed construction or alteration within such premises, and the number of units of occupancy for residential, commercial or industrial purposes which will exist on such premises after completion of all work described in the application.

(2) The assessor shall forthwith determine the number which shall designate and identify and be affixed to the entrance of the unit of occupancy. He shall, so far as practicable, issue odd numbers for one side of a street and even numbers for the other side.

(3) After the assessor assigns the door numbers and notifies the city engineer of such assignments, the engineer shall notify the property owner as described in the application, by mail, of the door number so assigned. Such notice shall direct the property owner to display the assigned number within a period of seven days following receipt of notice, and henceforth, in a prominent place on or near the front of the building so that such can be readily seen from the street. Such notice shall further state that violation of such order shall constitute an offense for each day of violation. Such notice shall advise the property owner to communicate information as to the new number or numbers to the several utilities, the post office and others similarly interested.

(Code 1982, § 24-2)

Sec. 66-4. Placing substances on highway; duty to remove.

No person shall throw or place or cause to be thrown or placed upon any highway any glass, glass bottle, nails, tacks, wire, scrap metal, crockery, cans or other substances harmful to the feet of persons or animals or to tires or wheels of vehicles. Whoever accidentally, or by reason of an accident, drops from his hand or vehicle any such substance upon any highway shall forthwith make all reasonable efforts to clear such highway of the substance.

State law references: Maine Litter Control Act, 17 M.R.S.A. § 2261 et seq.

Sec. 66-5. Allowing substances to accumulate on passageways.

No person shall allow any dirt, sand or gravel emanating from any unsurfaced private driveway or private walk to be washed onto the surface of any street or sidewalk. Whenever, in the opinion of the director of public works, any such street or sidewalk shall have become dangerous to foot or vehicular passage due to the accumulation of dirt, sand or gravel from any source aforesaid, the director shall order the titleholder to the land upon which such walk or
driveway is situated to correct such condition and to clean the street or sidewalk of such dirt, sand or gravel. If the titleholder refuses to comply with the directive within a reasonable time, then the street or sidewalk shall be cleaned of the dirt, sand or gravel by the department and the cost thereof shall be charged to the titleholder.

(Code 1982, § 24-4)

Sec. 66-6. Driving over sidewalks.

No person shall drive any horse, cart, carriage, truck, automobile, motor vehicle or other vehicle, except children's carriages drawn by hand, upon or over the sidewalks of any street in the city; except for the purpose of crossing such sidewalks over and upon an established driveway; provided, however, that operators of pushcarts licensed as roving diners shall not be prohibited from stopping, standing or parking such pushcarts on sidewalks in the course of business and in accordance with the provisions of section 22-169.

(Code 1982, § 24-5)

Sec. 66-7. Construction of sidewalks by landowners.

Should an abutting landowner desire to construct a sidewalk, he shall lay such sidewalk of suitable material of a permanent nature, with or without curbstones as the director of public works may from time to time determine, the work to be done under the direction and approval of the director of public works.

(Code 1982, § 24-6)

Sec. 66-8. Alterations in sidewalks; installing posts, poles, or trees.

(a) No person shall tear or make any alteration in any sidewalk, or set up any posts, poles, or trees on any of the sidewalks, or any part of the street, without the consent of the director of public works.

(b) Poles associated with public utilities may only be placed within a sidewalk if such placement maintains a minimum 60 inches of unobstructed sidewalk width. An applicant for a pole permit may seek a waiver from this requirement upon a showing to the Public Works Director that there exists no practicable alternative that would allow for maintaining utility services to adjacent properties. Upon such a showing, the Director may reduce the minimum width of unobstructed sidewalk to no less than 48 inches. Any guide wires or other appurtenances associated with utility poles and extending over any sidewalk must provide for a minimum 7 feet of clearance above the sidewalk. A violation of this section shall be subject to a minimum fine as established by a policy adopted by the City Council in addition to a requirement to relocate any object violating these standards and repairing any damage done to the sidewalk.

(Code 1982, § 24-7; Ord. No. 17-13, 10-19-17)

Sec. 66-9. Altering, widening, establishing and discontinuing streets.

(a) Whenever application in writing is made to the city council to widen or alter any street, the council may refer such application to the director of public works, and it shall be the
duty of the director to consider such application, and after giving notice as the law requires, the director shall proceed to examine the premises.

(b) If, in the judgment of the director [of] public works, common convenience and public necessity require the widening or otherwise altering of such street outside the existing right-of-way, in whole or in part, the director will consult with the department of assessing to estimate the damage that any person may thereby sustain, and it shall be lawful for the city to apportion the damages so estimated on such parts thereof as to what may seem just, upon the lots or parcels of land adjacent to and bounded on such street in such proportions as in its opinion such lots or parcels of land are benefitted or made more valuable by such widening or otherwise altering or discontinuing of such street; and if any damages shall be sustained by, or betterments accrue to, any person by the discontinuing of any public or private way, the director of public works, when so required, shall report to the council what compensations they shall receive or betterments they shall pay, and also whether the damage is occasioned by the discontinuance of a public or private way.

(c) Any person aggrieved by the decision or judgment of the council under this section may, as far as relates to damages, have them assessed by a committee or jury, as is by law provided.

(d) The director of public works shall make a report of their actions in writing to the city council as soon as practicable after such services, as set out in this section, shall be performed, and such report shall be accompanied by an accurate survey and plan, giving the boundaries and measurements of such proposed widening or altering of such street; and such report as aforesaid having been accepted and after being adopted by an order of the council, such street shall be established and known as a public street, and the boundaries and measurements thereof, together with the plan and survey aforesaid, so laid out, accepted and established by the council, shall be duly recorded by the city clerk in a book kept for that purpose.

(Code 1982, § 24-8; Ord. No. 01-9, 7-5-01)

Sec. 66-10. Petitions to improve accepted streets and accepted public easements.

With respect to accepted streets and accepted public easements on which lots have been sold or which have been actually used for travel prior to December 31, 1985, the abutters may, in writing, petition the city council to improve such streets or public easements by installing sewers, sidewalks, grading, curbing, graveling, paving and in any other way making a permanent roadway over the same, or a portion thereof. If the council is of the opinion that the petitioned-for improvement should be undertaken, it shall cause each feeholder of land adjacent to and bounded by such accepted street or accepted public easement to be advised of the estimated amount of the assessment to be made against him for such improvements, which must be deposited within six months with the city treasurer. Whenever 75 percent of the abutters in number or 75 percent of the abutters in terms of the relationship between their estimated assessments and the estimated total assessment for the entire project shall have made such deposits, then the council may authorize the director of public works to proceed with the project. When the improvements have been completed, the city shall then proceed to assess one-half of the cost thereof on the property adjacent to and bounded by such street or public easement in the manner and in accordance with the provisions of 23 M.R.S.A. § 3601 et seq., with the same right
of appeal as provided therein. The amount so deposited with the city treasurer shall be applied towards the satisfaction of the assessment in each case, with any overpayment being returned to the depositor or any balance being collected according to the terms of 23 M.R.S.A. § 3601 et seq.

(c) Owners duty to inspect and remove unlawfully deposited snow and/or ice within 72 hours. The owner of land and the person(s) in possession of such land abutting a public street or public easement have an affirmative obligation to inspect those portions of their property which have such frontage and to promptly remove within 72 hours any snow and/or ice that has been shoveled, thrown, plowed or deposited on any winter-maintained public sidewalk or public walkway and within or along the edge of the travel way of any public street and/or public easement found along such property.

The owner of, and any person having responsibility for, property abutting the area of the public street and/or winter-maintained public easement, public sidewalk, public walkway or property where snow has been deposited shall be presumed to have deposited same and shall be liable for violations of this article in the absence of evidence to the contrary. Notwithstanding the aforesaid, any owner of and/or any person having responsibility for property abutting the area of the public street and/or public easement, public sidewalk and public walkway where any snow and/or ice has been deposited in violation of this chapter shall remove the snow and/or ice.

(d) Enforcement. It shall be the duty of the director of planning and code enforcement, the
police chief, the director of public works, or their duly authorized representatives to enforce the provisions of section 66-12 of this Code and to prosecute any and all persons violating any such provisions. Enforcement procedures as set out in chapter 50, article II of the Lewiston Code of Ordinances shall apply to enforcement of this chapter, except that the specific penalties listed in subsection (c) herein will apply instead of those listed in section 50-45.

Notwithstanding any provisions in this chapter 66 to the contrary, due to the public nuisance and threat to public health created by the presence of snow and/or ice on public sidewalks, public walkways, or in and/or at the edge of the travel way of public streets and public easements in violation of subsections 66-12(a) and (b), the director of planning and code enforcement, the police chief, the director of public works, or their designees are authorized to fine violators, without any prior notification, in accordance with subsection 66-12(d).

(e) **Penalties.** Violators of any provisions of this chapter shall for the first offense receive a fine equal to twice the removal costs for the snow and/or ice. The minimum fine is $200.00, plus accrued interest, attorney's fees and court costs. A second violation or any subsequent violations occurring within two years of a previous violation shall result in a fine equal to three times the removal costs for the removal of snow and/or ice. The minimum fine is $400.00, plus accrued interest, attorney's fees and court costs. Such fees shall be charged each time the city removes snow and/or ice deposited in violation of this section, whether or not additional notice has been given.

(f) **Responsibilities not transferable.** No contract or agreement between the owner or operator and the occupant relating to the compliance with the terms of section 66-12 shall be effective in relieving any person of the responsibility for compliance with the provisions of this section as described.

street sales be prohibited, and that musical groups be permitted to perform during, and in the
areas of, such street sales. The council shall designate the areas in which such street sales may be

(a) No person shall obstruct with construction work or barriers or obstructions of any kind any street or sidewalk in the city without first obtaining a permit in writing from the director of public works and without faithfully complying with the conditions of such permit, except that, in cases of emergency, such necessary obstruction may be made without first obtaining such permit, provided that the director is notified thereof within a reasonable time thereafter.

(b) Any person causing an obstruction pursuant to this section shall promptly notify the director of public works that such obstruction has been completed, and it shall be the duty of the director to inspect such obstruction. Whenever, in the opinion of the director, the obstruction does not conform to the conditions of the permit issued, he shall order such person to conform to such conditions or to remove such obstruction and charge the cost thereof to the person responsible for the obstruction.

ARTICLE IV. DESIGN AND IMPROVEMENTS

Sec. 66-96. Administration and enforcement.

The city shall adopt standards for the design and construction of streets and sidewalks in the City of Lewiston through the issuance of a policy (hereinafter, the "Policy for the Design and Construction of Streets and Sidewalks" or the "street and sidewalk policy"). Such street and sidewalk policy shall apply to public and private streets and sidewalks, and mobile home park roads. The administration and enforcement of the design and construction standards required by this article and the policy for the laying out and acceptance of streets and sidewalks shall rest with the director of public services.

The city's policy for design and construction of streets and sidewalks shall be contained in the city's regulatory standards manual.

(Code 1982, § 24-60; Ord. No. 07-02, 3-22-07)

Sec. 66-97. Waiver of design or construction standards for acceptance of streets.

No way shall be laid out or accepted as a street unless constructed in accordance with the conditions and specifications contained in the policy for the design and construction of streets and sidewalks, with the following exceptions:

(1) If a way substantially meets the requirements of the policy for the design and construction of streets and sidewalks, a waiver of some of the specifications contained in the policy the for design and construction of streets and sidewalks may be granted by joint agreement of the director of public services and the city engineer after determining that such a waiver is appropriate because of prior city actions, previous development, unique physical site constraints imposed by public policy imperatives, including the preservation of natural resources, habitat, and wetlands, or the promotion of urban small-lot redevelopment, or undue hardship; and
(2) The way was existing and in use prior to December 31, 1985.

Such acceptance shall be at the discretion of the city council and under whatever conditions it may impose, including sharing in construction and upgrading costs and obtaining deeds and/or indemnity agreements from all abutters. Such ways shall conform to the design or construction standards to the fullest extent practicable.

(Code 1982, § 24-61; Ord. No. 07-02, 3-22-07)

Sec. 66-98. Compliance to be at owner's expense; bond.

Compliance with the conditions and specifications of this article, when applicable to private property, shall be at the sole expense of the property owner, his agent, and/or the developer of the improvements, and will render a street constructed on private land eligible for consideration by the city council for the laying out and acceptance as a street for the use of the city. Provided, however, that a street may be eligible for acceptance as aforesaid if the property owner shall post a bond with the city clerk in an amount to be determined by the city council on recommendation of the director of public services, guaranteeing compliance with the requirements and specifications of this article and indemnifying the city against claims for property damage and personal injury suffered upon such street prior to the performance of the conditions of such bond. Failure to comply with the conditions of such bond within one year from the date of the acceptance of such street constitutes a breach thereof, in which event the city council shall fulfill the requirements of this article and recover the cost thereof in an action upon such bond to be brought in the name of the city. The city council shall require the joint written certification of the director of public services and the city engineer that all the specifications have been complied with, or that a bond has been posted as provided in this section.

(Code 1982, § 24-62; Ord. No. 07-02, 3-22-07)

Sec. 66-99. Acceptance of public easements.

(a) Any way which does not meet the requirements for a waiver under the provisions of section 66-97 may be considered for acceptance by the city as a public easement. An accepted public easement is not an accepted street and the city has no obligation to construct, maintain or repair such an accepted public easement or provide municipal services. In order to be accepted as a public easement, the following is necessary:

(1) The way does not or cannot meet the requirements for a waiver under section 66-97;

(2) A waiver of the specifications contained in the policy for design and construction of streets and sidewalks must be granted by the joint agreement of the director of public services and the city engineer after determining that such a waiver is appropriate because of prior city actions, previous development, or undue hardship;

(3) The way where the accepted public easement is to be located was existing and in use prior to December 31, 1985;

(4) The way connects two existing accepted streets or is the sole means of access for two or more lots, at least two of which contain residential, commercial or
industrial buildings; and

(5) A quitclaim deed is obtained from all of the abutters to the city creating a public easement and the abutters agree to indemnify and save the city harmless from all liability.

(Code 1982, § 24-63; Ord. No. 07-02, 3-22-07)

Sec. 66-100. Acceptance of prescriptive or dedicated ways as accepted streets.

Any way in the city for which there is no record of a laying out or acceptance by the state, county or the city, which has been used as a public street for at least 20 years or has otherwise been dedicated to public use, for which municipal services have been provided during this entire period of time, and which meet all of the design, width and construction standards contained in the policy for design and construction of streets and sidewalks, may be declared to be an accepted street by the city council. Quitclaim deeds from abutters are not required. Such action shall constitute evidence of an acceptance of such public streets that have previously been dedicated to public use by prescription or otherwise.

(Code 1982, § 24-64; Ord. No. 07-02, 3-22-07)

Sec. 66-101. Standards for construction of streets.

Except as provided in section 66-97 of this article, the construction or substantial repair of any public or private street or sidewalk, existing as of the effective date of this article shall comply with the City of Lewiston Policy for the Design and Construction of Streets and Sidewalks. In addition, streets and sidewalks constructed to serve a subdivision must meet any additional requirements contained in the subdivision regulations of the city.

(Code 1982, § 24-65; Ord. No. 07-02, 3-22-07)

Sec. 66-102. Requirements for street acceptance.

Except as provided in section 66-97 of this article, no private way shall be accepted as a public street unless it meets all applicable requirements of the City of Lewiston Policy for Design and Construction of Streets and Sidewalks.

(Code 1982, § 24-66; Ord. No. 07-02, 3-22-07)

The Complete Streets Committee shall be briefed on potential future projects of this nature during or immediately following the annual development of the city’s capital improvement program. This will allow the Committee to provide its views regarding complete streets policy early in the planning and design process. (Ord. No. 17-06, 7-20-17)

Sec. 66-111. Exceptions

Exceptions to this policy may be made under the circumstances listed below:

(1) Street projects may exclude those elements of this policy that would require the accommodation of street uses prohibited by law;
(2) Ordinary maintenance activities such as mowing, snowplowing, sweeping, spot repair, joint or crack sealing, or pothole filling do not require that elements of this policy be applied beyond the scope of that maintenance activity;
(3) Ordinary maintenance paving projects may only exclude the elements of this policy that would require increasing pavement width. However, when such projects do occur, the condition of existing facilities supporting alternate transportation modes should be evaluated as well as the appropriateness of modifying existing pavement markings and signage that supports such alternate modes. This exception does not apply to street reconstruction projects;
(4) Street reconstruction projects and maintenance paving projects which involve widening pavement may exclude elements of this policy when the accommodation of a specific use is expected to:
   (a) require more space than is physically available, or
   (b) be located where both current and future demand is proven absent, or
   (c) drastically increase project costs and equivalent alternatives exist within close proximity, or
   (d) have adverse impacts on environmental resources such as streams, wetlands, floodplains, or on historic structures or sites above and beyond the impacts of currently existing infrastructure.
(5) In order for an exception to be granted under the conditions stated above and prior to finalizing the design and budget for the intended project, the City Engineer and Director of Public Works must first consult with the City Planner and City Administrator. If the City Administrator concludes that an exception to the policy is warranted, the Administrator or the staff representative to the Complete Streets Committee shall consult with the Committee regarding the project and the requested exception. If, after this...
consultation, a difference of opinion exists between the Committee and staff regarding an exception that has been granted, the Committee may forward its concerns to the City Council for its consideration.

(6) The City Council may grant such other exceptions as it sees fit.
(Ord. No. 17-06, 7-20-17)

Sec. 66-112. Intergovernmental cooperation

The City will cooperate with the City of Auburn and with other transportation agencies including the Maine Department of Transportation (MDOT) and Androscoggin Transportation Resource Center (ATRC) to ensure the principles and practices of complete streets are embedded within their planning, design, construction, and maintenance activities. The two cities will specifically cooperate to ensure the transportation network flows seamlessly between the two communities in accordance with local and regional road, transit, bicycle, and pedestrian plans and mutually agreed upon design criteria.
(Ord. No. 17-06, 7-20-17)

Sec. 66-113. Design criteria

The City, through its Public Works Department, shall develop and adopt design criteria, standards and guidelines based upon recognized best practices in street design, construction, and operation. To the greatest extent possible, the City shall coordinate with the City of Auburn to adopt the same standards with particular emphasis on pedestrian and bicycle markings and wayfinding signage. Resources to be referenced in developing these standards shall include, but not necessarily be limited to, the latest editions of: American Association of State Highway Transportation Officials (AASHTO) Policy on Geometric Design of Highways and Streets, Guide for Planning, Designing, and Operating Pedestrian Facilities, and Guide for the Development of Bicycle Facilities; Institute of Transportation Engineers (ITE) Designing Walkable Urban Thoroughfares: A Context Sensitive Approach; National Association of City Transportation Officials (NACTO) Urban Bikeway Design Guide; U.S. Access Board Public Right-of-Way Accessibility Guidelines; Androscoggin Transportation Resource Center (ATRC) Complete Streets, A Guide to Best Management and Design Practice; Highway Capacity Manual and Highway Safety Manual; the Manual on Uniform Traffic Control Devices; and any applicable policies and guidance issued by the Maine Department of Transportation.

The Cities will be permitted to consider innovative or non-traditional design options that provide a comparable level of safety and utility for users as those listed above.
(Ord. No. 17-06, 7-20-17)

Sec. 66-114. Community context

Implementation of this Policy shall take into account the goal of enhancing the context and character of the surrounding built and natural environments. Transportation facilities, including roads, should be adapted to fit and enhance the character of the surrounding neighborhood.
(Ord. No. 17-06, 7-20-17)
Sec. 66-115. Network

Special attention should be given to projects which enhance the overall transportation system and its connectivity. Specifically, high priority should be given to:

(1) Corridors providing primary access to one or more significant destinations such as a parks or recreation areas, schools, shopping/commercial areas, public transportation, or employment centers;
(2) Corridors serving a relatively high number of users of non-motorized transportation modes;
(3) Corridors providing important continuity or connectivity links to existing pedestrian or bicycle networks;
(4) Projects identified in regional or local bicycle pedestrian plans prepared by organizations such as the ATRC and other associated groups.

(Ord. No. 17-06, 7-20-17)

Sec. 66-116. Performance measures

The City Administrator and/or designee shall report to the Planning Board and City Council on an annual basis on the transportation projects undertaken within the prior year and planned within the coming year and the extent to which each of these projects has met the Complete Streets ordinance. (Ord. No. 17-06, 7-20-17)

Sec. 66-117. Implementation

This policy will be primarily implemented through planning comprehensive complete streets networks regionally and within each city.

Additional implementation activities will include, but not be limited to: developing project checklists that incorporate complete streets elements in the Cities’ overall design processes; annual review of capital improvement plans and unified planning work programs; establishing design manuals that clearly set forth the complete streets standards; and directing the Planning Boards to evaluate changes to the Cities’ respective land development codes that will extend the complete streets concept into private developments through appropriate subdivision and site plan regulations.

ARTICLE VI. OUTER LISBON STREET TRAFFIC IMPACT FEE

Sec. 66-160. Purpose.

This article imposes an impact fee on land development requiring development review under Appendix A, Article XIII of the City of Lewiston's Zoning and Land Use Code. These fees will be used to upgrade roads and related facilities necessitated by new development that impacts traffic along Outer Lisbon Street, as defined herein. It also provides for the placement of impact fee revenues into a traffic impact fee trust fund established for that purpose and for the administration of the Outer Lisbon Street Traffic Impact Fee Ordinance, including the expenditure of funds derived from traffic impact fees and the refunds of unexpended funds.

(Ord. No. 05-17, 11-17-05)

Sec. 66-161. Legislative findings.

The Lewiston City Council finds, determines and declares as follows:

(1) The city will need to upgrade and expand road infrastructure along Outer Lisbon Street as a result of expected development in the area. To maintain adequate levels of service along Outer Lisbon Street, the existing road system must be expanded to accommodate future traffic increases safely and without decreasing current levels of service. This must be done to promote and protect the public health, safety and welfare;

(2) The State of Maine has authorized municipalities to adopt impact fees for various purposes, including the construction of off-site capital improvements such as roads and traffic control devices, pursuant to 30-A M.R.S.A. § 4354;

(3) The imposition of impact fees is a preferred method of insuring that new development bears a proportionate share of the cost of capital investments necessary to accommodate such development. Appropriate locations for new development in Lewiston and the capital improvements necessary to accommodate such development are consistent with the city's comprehensive plan and capital improvements program;

(4) New development generates additional traffic, necessitating the acquisition of rights-of-way, road construction and road improvements;

(5) The impact fee has been derived from the city's determination that development along Outer Lisbon Street will require that road capacity is expanded by widening it to five lanes or through similar infrastructure upgrades. The city anticipates funding ten percent of the necessary road improvements, with remaining funding provided by state and federal sources. The city's effort to seek alternative sources of funding will reduce the amount of the impact fee sought under this article to
five percent of the cost of impacts created by new development.

(Ord. No. 05-17, 11-17-05)

Sec. 66-162. Title, authority, and applicability.

(a) Title. This article shall be known and may be cited as the "Outer Lisbon Street Traffic Impact Fee Ordinance."

(b) Authority. The Lewiston City Council has the authority to enact this ordinance pursuant to 30-A M.R.S.A. § 4354 and its statutory and constitutional home rule powers.

(c) Applicability. This article shall apply to all development requiring a traffic movement permit issued on or after August 9, 2005 that would require an expansion of road capacity along Outer Lisbon Street based on the four-lane alignment that existed on August 9, 2005.

(Ord. No. 05-17, 11-17-05)

(b) Planning and code enforcement staff shall apply the impact fee to the development and shall make a final determination as to the amount of the fee to be imposed, net of any applicable credits. Staff may request additional information from the developer if necessary to apply the fee. The developer may submit its own calculation of costs and any other information related to the impact of the development on Outer Lisbon Street. Staff shall consider information submitted by the developer, but is not required to accept information it deems to be inaccurate or unreliable.

(a) The developer shall pay the traffic impact fee required by this article to the department of planning and code enforcement prior to the issuance of a traffic movement permit or building permit.

(a) Funds collected from traffic impact fees shall be used for the purpose of capital improvements to, and the expansion of, transportation facilities associated with Outer Lisbon Street.

(b) No funds shall be used for periodic or routine maintenance.

(c) Funds shall be used exclusively for capital improvements within the traffic impact fee area.

(d) In the event that bonds or similar debt instruments are issued for advanced provision of capital facilities for which traffic impact fees may be expended, impact fees may be used to pay debt service on such bonds or similar debt instruments to the extent that the facilities provided are of the type described in subsection (a) of this section.
Sec. 66-169. Refund of fees.
(a) If a building permit is surrendered or expires without commencement of construction, the developer shall be entitled to a refund, without interest, of the impact fee paid as a condition for its issuance, except that the city shall retain three percent of the impact fee paid to offset a portion of the costs of collection. A request for a refund shall be made in writing to the department of planning and code enforcement not later than 15 days after the expiration of the permit.
(b) Any funds not expended or obligated by contract by the end of the calendar quarter immediately following 15 years from the date the fee was paid shall, upon application of the developer, be returned to the developer, provided the developer submits an application for refund of the fee to the city planning and code enforcement department within 180 days of the end of the 15-year period.

Sec. 66-170. Credits
(a) A credit against the impact fee otherwise due may be given when a developer is required to make road improvements other than an expansion from a four-lane to five-lane configuration pursuant to a traffic movement permit. Credit shall be limited to road improvements associated with Outer Lisbon Street intersections, pursuant to the traffic movement permit. In no event shall credit be given for site related improvements, as defined in this article.
(b) Credit shall be calculated in the following manner for the above referenced road improvements as required by the aforementioned traffic movement permit: 50 percent of the value of required road improvements as determined pursuant to section 66-165 may be applied as credit against the impact fee. In no event shall the credit exceed the amount of the otherwise applicable impact fee, or be applied against unrelated impact fee items.
(c) The developer shall provide documentation indicating the cost of the improvements required for the project versus the impact fee. The city shall consider the documentation submitted by the developer but is not required to accept any documentation which it deems to be inaccurate or unreliable.
(d) A credit under this section will be made up to the amount of the impact fee otherwise due, and will not result in any payment of funds to the developer in the event the credit due under this section exceeds the impact fee assessed.

Sec. 66-171. Severability.
If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision, and such holding shall not affect the validity of the remaining portion thereof. E.P.A. means the Environmental Protection Agency of the United States government.

Excessive means amounts or concentrations of a constituent of a wastewater which in the judgment of the city will cause damage to any sewerage facility, which will be harmful to a wastewater treatment process, which cannot be removed in the wastewater treatment works of the authority to the degree required to meet the limiting stream classification standards of the Androscoggin River, which can otherwise endanger life, limb or public property, and/or which can constitute a nuisance.

Facilities means and includes structures and conduits for the purpose of collecting, treating, neutralizing, stabilizing or disposing of domestic wastewater and/or industrial or other wastewaters as are disposed of by means of such structures and conduits, including treatment and disposal works, necessary intercepting, outfall and outlet sewers, and pumping stations integral to such facilities with sewers, equipment, furnishing thereof and other appurtenances connected
therewith.

*Garbage* means the animal and vegetable wastes resulting from the handling, preparation, cooking and serving of food. It is composed largely of putrescible organic matter and its natural moisture content.

Such characteristics shall include, but are not limited to, volatile, explosive, toxic or otherwise unacceptable materials.

*Storm drain* means a pipe or conduit for conveying rainwater, groundwater, subsurface water, condensate, cooling water or other similar discharge to a storm drain or combined sewer.

*Suspended solids* means solids that either float on the surface of, or are in suspension in, water, wastewater or other liquids, and which are removable by laboratory filtering, and are referred to as nonfilterable residue in the laboratory test prescribed in Standard Methods for the Examination of Water and Wastewater, as published by the American Public Health Association, American Water Works Association and Water Environment Federation.

Sec. 74-27. Drainage plan approval required prior to issuance of building permit.

Prior to the issuance of any building permits for a lot or lots which are not serviced by a drainage plan approved by the director of public works, such plan shall be submitted by the developer of the lot or lots and shall be considered for approval by the director. The drainage plan shall show both sanitary and storm sewerage and, when requested by the director, water mains.

(Code 1982, § 23-2)

Sec. 74-28. Alteration of drainage areas regulated.

(a) For the purpose of this section, the following definitions shall apply:

Stream means any freely flowing water, whether permanent or intermittent.

(b) No person shall alter the contours of any stream or drainageway, in any zone, without first obtaining an alteration permit from the building inspector, except when such alteration is conducted in accordance with an approved subdivision plan.

(c) Alteration permits shall be issued by the building inspector, upon recommendation of the director of public works, when it is found that such alterations will not cause water to intrude upon adjacent parcels, that the flood-carrying capacity within the altered or relocated portion of the watercourse will be maintained, and that the alteration will not otherwise endanger the health, safety and welfare of the public. Permits for temporary alterations may be granted for a period not to exceed six months provided that no permanent alteration of the stream or drainageway shall occur.

(d) The application to the building inspector for an alteration permit shall be supported by a plan detailing the following information:

(1) Name and address of applicant.

(2) Name and address of the owner of the property on which the alteration is to take place.

(3) The exact location on the property of the proposed alteration.

(4) Reason for the proposed alteration.

(5) Description of work to be undertaken.

(e) In granting an alteration permit, the building inspector shall impose reasonable conditions.
regarding the length of time required to complete the project, the area to be serviced, and any other conditions he finds to be necessary to protect the interest of the public, abutting owners or the city.

(f) It will be the responsibility of the building inspector to determine if a violation has occurred, to notify the violator and owner, and to ensure that the violation is corrected.

(g) The fee for an alteration permit, covering three visits by the building inspector, shall be $5.00. If additional inspections are necessary, a surcharge of $2.00 per extra visit will be charged.

(h) Violation of this section shall be an offense.

(i) The state bureau of civil emergency preparedness and the Federal Insurance Administration shall be notified in writing of all applications to alter or relocate a stream. In riverine situations, potentially affected adjacent communities shall also be notified.

(b) The provisions of subsection (a) of this section shall not be applicable to an accessory structure located on the same lot as a principal building containing sanitary facilities which are available at all times to users or occupants of the accessory structure. If food is sold, served, prepared, processed, packaged or repackaged in or from the accessory structure, the provisions of this subsection do not apply.

(Code 1982, § 23-17)

Sec. 74-43. Permit required to connect to public sewer.

Sec. 74-44. Application for permit; agreement required.

(a) Applications for permits to connect or disconnect with any public sewer or drain must be made to the director of public works on a form prescribed and furnished by him at his office. It must be accompanied by a certificate from the plumbing inspector after the system of plumbing is approved by him. The application must be signed by the owner of the premises to be connected, or his attorney, and must state the location of premises and the name of the licensed plumber to be employed. All applications must be made prior to the commencement of any work thereon and be accompanied by a fee set by policy to cover the cost of processing the application and issuing the permit and inspecting the connection or disconnection with a public sewer or drain, such funds to be deposited directly into the sewer or drain account and used for sewer or drain purposes only. This fee shall be in addition to the system use charges and impact fee.

(b) Each application under this division must include an agreement on the part of the owner to abide by all the provisions of this chapter and all the rules and regulations established by the director of public works and to waive any claim for damages in case of revocation as provided in section 74-54.

(c) All applicants for permits for sewer connections involving industrial wastewater, in addition to compliance to subsections (a) and (b) of this section, shall also file application for a permit to discharge wastes to the facilities of the Lewiston-Auburn water pollution control authority. Sec. 74-45. Notification before connection to public sewer.

The applicant for a building sewer permit shall notify the director of public works when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the director of public works or his representative.

Sec. 74-46. Responsibility for connection costs.

All present or future costs and expenses incident to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the city from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

Sec. 74-47. Independent building sewers required.

A separate and independent building sewer shall be provided for every building; except

(Code 1982, § 23-22)

Sec. 74-48. Excavations to be guarded; restoration of public property.

All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the city.

(Code 1982, § 23-23)

Sec. 74-49. Regulation of connection to public sewer generally.

The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code or other rules and regulations of the director of public works. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the director of public works before installation.

(Code 1982, § 23-24)

Sec. 74-50. Abandonment of service.

No person shall dismantle or move any building in this city having a service entrance into a public sewer without first having sealed the area of the entrance of the service into such building with a masonry plug. If, upon examination by the plumbing inspector, the sewer service is found to be unserviceable, the owner shall remove such service and seal the opening at the main. No such work shall be undertaken until a permit, as described in section 74-44, is obtained.

(Code 1982, § 23-25)

Sec. 74-51. Drain elevation.

Whenever possible, the building sewer shall be brought from the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, wastewater carried by such building drain shall be lifted by an approved means so that it may be discharged to the public sewer.

(Code 1982, § 23-26)

Sec. 74-52. Use of old building sewers.

Old building sewers may be used in connection with new buildings only when they can be shown by the applicant to meet all requirements of this division.

(Code 1982, § 23-27)
Sec. 74-53. Construction methods and materials.

The size, slope, alignment and materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing and backfilling the trench, shall all conform to the requirements of the building and plumbing codes or other rules and regulations of the director of public works.

(Code 1982, § 23-28)

Sec. 74-54. Revocation of permits to connect.

Permits to connect with a sewer may at any time be revoked and annulled by the director of public works or by the plumbing inspector for violation of section 74-44, and all parties in interest shall be held to have waived the right to claim damages on account of such revocation, provided that such revocation shall be annulled on compliance with the provisions in this chapter and the rules and regulations of the city council and director of public works.

(Code 1982, § 23-29)

Sec. 74-55. Disposal of unpolluted wastes.

(a) No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, subsurface drainage, cooling water or unpolluted industrial process water to any domestic sewer. Existing plumbing systems not meeting this requirement will be allowed until such time as repairs or renovations of the existing plumbing system make separation feasible.

(b) Stormwater and all other unpolluted drainage shall be discharged to storm drains or to a natural outlet approved by the director of public works and the health officer. Industrial cooling water or unpolluted process water may be discharged upon approval of the director of public works to storm drains or natural outlets.

(c) In areas where the sewer system consists of combined sewers or where connections of downspouts, surface drains, and other connections of unpolluted water to the wastewater system have been allowed, the city:

   (1) Shall permit no new construction of combined wastewater and stormwater drainage systems on real properties. New wastewater and stormwater drainage service connections shall be kept separated;

   (2) Wherever feasible, shall reduce or eliminate storm drain connections that permit the discharge into existing wastewater works of waters not containing domestic or industrial wastewaters;

   (3) Shall require that joints and openings of all domestic wastewater systems shall be made watertight to prevent excess infiltration or exfiltration;

   (4) Where circumstances make compliance with subsections (a) and (b) of this section impractical according to the judgment of the director of public works, then the director may approve a plan for discharge of such waters listed in subsections (a) and (b) of this section in an alternate manner, taking into consideration the existing sewer system, the effect of the plan on the environment of the area and on the sewer system for the city.
Sec. 74-56. Harmful wastes prohibited.

(a) No person shall discharge or cause or allow to be discharged into any sewer under the control of the city the following described substances, materials, waters or wastes if in the opinion of the authority or city council on recommendation of the director of public works such substances, materials, waters or wastes are in excessive amounts or concentrations.

(b) Unless allowed under section 74-57, wastewaters and wastes considered to contain excessive constituents or characteristics as determined by the authority and the city, and therefore prohibited, include:

1. Any wastewaters containing toxic or poisonous liquids, bases or solids in excessive quantity, either singly or by interaction with other wastes.

2. Any wastewater, liquid or vapor having a temperature higher than 150 degrees Fahrenheit.

3. Any wastewaters containing caustic alkalinity, calculated as CaCO₃ (calcium carbonate) in excess of 100 mg/l, or in volumes which may be excessive.

5. Any wastewaters containing fats, wax, grease or oils, whether emulsified or not, in excess of 100 mg/l or containing substances which may solidify or become viscous at temperatures between 32 degrees Fahrenheit and 150 degrees Fahrenheit.

6. Any gasoline, benzene, naphtha, fuel oil or other flammable or explosive liquid, solid or gas.

7. Any solid or viscous substances in such quantities or of such size as to be capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the wastewater works, such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair, fleshings, entrails, paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

8. Any garbage that has not been properly shredded.

10. Any wastewaters containing phenols or other taste- or odor-producing substances in excessive amounts.

11. Any radioactive wastes or isotopes in excessive amounts or of such halflife or concentration as may exceed limits established in applicable state or federal regulations or by the authority or city.

   d. Materials in such concentration as to constitute slugs.
   e. Materials which are not amenable to treatment or reduction by the wastewater treatment process employed, or are amenable to treatment only to such a limited degree that the wastewater treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.
   f. Septic tank solids except under specific license from the authority and at locations designated by the authority.

(c) Persons who desire to discharge industrial wastewaters into facilities of the city shall make their formal application to the authority, with a copy to the city. In forming an opinion as to the limitations on acceptability of any wastes, the city and the authority will give consideration to such factors as the quantities of subject wastes in relation to flow and velocities in the sewers, materials of construction of the sewers, nature of the wastewater treatment process, capacity of the wastewater treatment plant, degree of treatability of wastes in the wastewater treatment plant, and other pertinent factors.

(d) Any person discharging industrial wastewaters directly or indirectly into facilities of the city that do not comply with this division may be subject to action by the city or authority, which action may include, but not be limited to, the withdrawal of permission to discharge wastewaters into facilities of the city.

(e) Limits of acceptable amounts and concentrations of the constituents of wastewater to be discharged to facilities of the city shall be the same as are established by the authority.

(f) Any spill as defined in section 74-26 shall be reported immediately to the authority.

(g) Any damages experienced by the facility as the result of a spill are considered a violation of this division and costs for repair, replacement or other associated costs are recoverable under section 74-63.

(Code 1982, § 23-31)

Sec. 74-57. Control of wastewater, waste strength.

If any wastewaters or wastes are discharged or are proposed to be discharged to the public sewers, containing excessive substances or possessing excessive characteristics, as enumerated in section 74-56, the city may:

   (1) Reject the wastewaters or the wastes;
(2) Require that pretreatment of wastewaters or wastes be provided to modify them to an acceptable condition for discharge to the public sewers;

(3) Require control over the quantities and rates of discharge of the wastewaters or the wastes; and/or

(4) Require payment to cover the added costs of handling and treating the wastes not covered by sewerage use charges under the provisions of sections 74-67 and 74-68.

(Code 1982, § 23-32)

Sec. 74-58. Grease, oil and sand interceptors; maintenance of preliminary treatment and flow-equalizing facilities.

(a) Grease, oil and sand interceptors shall be provided when, in the opinion of the director of public works or the authority, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the director of public works and the authority, and shall be located as to be readily and easily accessible for cleaning and inspection.

(b) When preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

(Code 1982, § 23-33)

Sec. 74-59. Control structures and flow-measuring devices.

When required by the director of public works or the authority, the owner of any property served by a public sewer carrying industrial wastes shall install a suitable control structure and wastewater flow-measuring and monitoring device in the building sewer to facilitate observation, sampling and measurement of the wastes. Such structures and measuring devices, when required, shall be accessible and safely located and shall be constructed in accordance with the plans approved by the director of public works and the authority. The structure and flow-measuring device shall be installed by the owner at his own expense and shall be maintained by him so as to meet the standards set by the director of public works and the authority at all times.

(Code 1982, § 23-34)

Sec. 74-60. Preliminary treatment facilities generally.

The applicant shall provide such works for the preliminary treatment of the wastewater, drainage, substances or wastes as may be required to carry out the purpose of this division by the city and the authority, and the applicant will permit duly authorized representatives of the city or the authority to enter the premises of the industry to sample and measure wastewaters, as needed to check characteristics of the wastewaters, when so directed by the authority. Applications for pretreatment facilities are to be accompanied by plans, specifications and other pertinent information relating to these facilities; along with data showing essential characteristics of all wastewater outlets, analyses of existing wastewater (see section 74-66), and statements as to
existing and expected average and maximum wastewater flows. All of this information must be submitted to and approved by the city and the authority prior to initiating discharge into facilities of the authority or the city. Where preliminary treatment facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and efficient operation by the owner at his expense.

(Code 1982, § 23-35)

Sec. 74-61. Standard tests.

All measurements, tests and analyses of the characteristics of the waters and wastes to which reference is made in section 74-66 shall be determined in accordance with the Standard Methods for the Examination of Water and Sewage and shall be determined at the control structure provided for in section 74-59, or upon suitable samples taken at the control structure. If no special structure has been required, a control structure shall be considered to be the nearest downstream manhole to the public sewer from the point at which the building sewer is connected.

(Code 1982, § 23-36)

Sec. 74-62. Notice and cessation of violations.

Any person found to be violating or in violation of any provision of this division shall be served by the city council, on recommendation of the director of public works, with a written notice stating the nature of the violation and providing a reasonable time limit, as determined by the director, for the satisfactory correction thereof. The offender shall, within the period of time stated in the notice, permanently cease all such violations.

(Code 1982, § 23-37)

Sec. 74-63. Liability of violator.

Any person violating any of the provisions of this division shall become liable to the city for any expense, loss or damage occasioned by the city by reason of such violation.

(Code 1982, § 23-38)

Sec. 74-64. Reports of industrial wastewater discharges; applicant to collect, analyze wastewater.

(a) If deemed necessary by the director of public works, each applicant shall submit an annual report on July 1 each year, or such other time as designated by the authority, to the authority, with a copy to the city, containing information as to the minimum, average and peak flows of industrial wastewater discharges during the previous year and at such time or times designated by the authority, accompanied by designated analyses of wastewater samplings taken in an acceptable manner at approved times during the flow measuring periods.

(b) Each applicant will be responsible, at his own expense, to collect and analyze wastewater from his property in a manner prescribed by the city.

(Code 1982, § 23-39)
Sec. 74-65. Special agreement to treat industrial waste.

No statement contained in this division shall be construed as preventing any special agreement or arrangement between the city and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the city for treatment, subject to payment therefor by the industrial concern.

(Code 1982, § 23-40)

Sec. 74-66. Measurements and analyses of industrial wastes.

Measurement and analyses of industrial wastes are to include, but not necessarily be limited to, items from the following list where applicable. The analyses are to be conducted in accordance with the methods prescribed in the latest edition of Standard Methods for the Examination of Water and Waste Water, as published by the American Public Health Association, American Water Works Association and Water Environment Federation. If any item is not applicable, it shall be so stated on the report of the measurements and the reason for deletion stated.

Sec. 74-67. Sewerage system use charges.

(a) From time to time, the city council upon recommendation from the director of public works and city administrator shall, after public notice and hearing, establish a schedule of rates for sewerage system use charges. The rate schedule shall include a minimum rate and a surcharge for high concentration wastewater.

(b) The quantity of wastewater shall be the actual quantity of water supplied as determined from the water meter readings made by the water division of the department of public works, except that the director of public works upon approval of the city administrator shall adjust the amount of wastewater where it can be determined that the amount of wastewater is greater than or less than the amount of water supplied by the water division.

(c) Where domestic wastewater is discharged by a person to a public sewer and water is supplied from sources other than the water department, the quantity of wastewater discharged shall be determined as the average quantity of wastewater discharged by five similar persons. Upon request by the person, the sewer department of the department of public works will install a water meter in the water supply system of the person for the purpose of determining the quantity of wastewater discharged.

(d) The surcharge for high concentration wastewater shall be determined as provided for in section 74-68.

DIVISION 3. PRIVATE FACILITIES

Sec. 74-81. Minimum standards; disclaimer of liability.

The provisions of this division are to be considered minimal, and compliance therewith shall not constitute or be construed to be grounds for any action against or liability on the part of the city or any of its employees for any subsequent failure of any part or of the whole of any sewage disposal system except as may be provided for by law.

(Code 1982, § 23-61)

Sec. 74-82. Violator's liability.

(Code 1982, § 23-62)

Sec. 74-83. Notice of violation.

Any person found to be violating or in violation of any provision of this division shall be served by the city, by its health officer, with a written notice stating the nature of the violation and providing a reasonable time limit, as determined by the plumbing inspector, for the satisfactory correction thereof. The offender shall, within the period of time stated in the notice, permanently cease all such violations.

(Code 1982, § 23-63)

Sec. 74-84. Sanitary facilities required.

(a) Every building intended for human habitation, use or occupancy shall have sanitary facilities for disposing of human excreta and liquid conveyed material, including bathroom, kitchen and laundry wastes, approved by the plumbing inspector as provided for in this division.

(b) The provisions of subsection (a) of this section shall not be applicable to an accessory
structure located on the same lot as a principal building containing sanitary facilities which are available at all times to users or occupants of the accessory structure. If food is sold, served, prepared, processed, packaged or repackaged in or from the accessory structure, the provisions of this subsection do not apply.

(Code 1982, § 23-64)

Sec. 74-85. Independent system for each building; exception.

(a) The sewer or drain and plumbing system of each new building and of new work installed in an existing building shall be separate from and independent of that of any other building except as provided for in this division; and every building shall have an independent connection with a public or community sewerage system when available, or a private sewage disposal system.

(b) When one building stands or is to be constructed in the rear of another building on an interior lot and no sewer or drain is available or can be constructed to the rear building, the sewer or drain of the front building may be extended to the rear building and the whole will be considered as an independent connection.

(Code 1982, § 23-65)

Sec. 74-86. Existing systems--Use and abandonment.

The sewer or drain of a new building may be connected to an existing sewer or drain or sewage disposal system if, on examination and test, the existing sewer or drain or sewage disposal system is found to be adequate and in suitable condition for further use as provided for in this division. Any sewer or drain or sewage disposal system found not adequate or suitable shall be altered to meet the requirements of this division or shall be abandoned. Every abandoned sewer or drain shall be plugged with concrete for at least one foot of its length or, if the sewer or drain extends into a building, it shall be stopped by capping the sewer or drain with a cap properly leaded in place. Every abandoned septic tank or cesspool shall be drained and then filled with gravel or earth or other suitable material.

(Code 1982, § 23-76)

Sec. 74-87. Same--Inspection and permits.

The determination of the adequacy and condition of any existing sewer or drain connected to a public or community sewerage system shall be made by the director of public works and he shall issue a permit to make use of such existing sewer or drain only when the provisions of this division have been complied with. If such existing sewer or drain or sewage disposal system is private, the determination of its adequacy and condition shall be made by the plumbing inspector and he shall issue a permit to make use of such existing sewer or drain or sewage disposal system only when the provisions of this division have been complied with.

(Code 1982, § 23-77)

Sec. 74-88. Installation to be made apart from other utilities, exception.

The sewer or drain shall be installed in a trench not used in common with any other
utility except that when the sewer or drain is installed in a trench excavated through bedrock, the
director of public works may, at his discretion, permit joint use of the trench with other utilities
in accordance with such rules and regulations as he may prescribe.

(Code 1982, § 23-78)

Sec. 74-89. Connection to public or community system.

If a public or community sewage disposal system is extended to the point where it
becomes feasible to connect a sewer or drain already connected to a private sewage disposal
system, such sewer or drain shall be connected without delay to the public or community system
if the health officer declares that the operation or failure of the private sewage disposal system
constitutes a nuisance or health hazard. The owner of the private sewage disposal system shall, at
his own expense, connect his sewer or drain to the public or community system. No effluent
from any septic tank or cesspool shall be allowed to enter a public or community sewage
disposal system without prior approval from the director of public works.

DIVISION 4. SEWER ASSESSMENTS

Sec. 74-101. Purpose.

The purpose of this division is to provide a means for property abutters to pay a sewer
assessment on a term basis whenever a sanitary sewer project is undertaken. The abutter may
choose to pay the assessment on a lump sum basis or on a term basis.

(Code 1982, § 23-101)

Sec. 74-102. Authorization to adopt policy.

DIVISION 5. SEWER IMPACT FEES*

*State law references: Authority to establish schedule of charges for sewage disposal, 30-A M.R.S.A. § 3406.

Sec. 74-116. Purpose.

The purpose of this division is to provide a means for sanitary sewer users to pay a fee to offset the effect additional sewer connections and use will have on the existing sanitary sewer system and a means for sanitary sewer users to pay their fair share of the existing sewer system and improvements thereto, including sewer mains, pumping stations and the wastewater treatment plant. The fees shall be used to offset the effect of new or changed connections to the existing sanitary sewer system as may be provided by the capital improvement program, section 6.05 of the Charter. Such fees shall be paid prior to the issuance of a building permit and/or a sewer connection permit. Such fees may be applicable to both new structures and/or uses and existing structures and/or uses.

This article establishes methods for controlling the introduction of pollutants into the city's storm drainage system in order to comply with requirements of the Federal Clean Water Act and state law.

(Ord. No. 05-14, 9-8-05)

Sec. 74-201. Objectives.

The objectives of this article are:

(2) To set forth the legal authority and procedures to carry out all inspection, monitoring and enforcement activities necessary to ensure compliance with this
Sec. 74-202. Definitions.

For the purposes of this article, the following shall mean:

Discharge. "Discharge" means any spilling, leaking, pumping, pouring, emptying, dumping, disposing or other addition of pollutants to "waters of the state", "direct discharge" or "point source" means any discernible, confined and discrete conveyance, including, but not limited to, any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation or vessel or other floating craft, from which pollutants are or may be discharged.

This article shall apply to all persons discharging storm water and/or non-storm water discharges from any premises into the storm drainage system.

(Ord. No. 05-14, 9-8-05)

**Sec. 74-204. Responsibility for administration.**
The city administrator or his/her designee is the enforcement authority who shall administer, implement, and enforce the provisions of this article.

(Ord. No. 05-14, 9-8-05)

Sec. 74-205. Prohibition of non-storm water discharges.

(a) General prohibition. Except as allowed or exempted herein, no person shall create, initiate, originate or maintain a non-storm water discharge to the storm drainage system. Such non-storm water discharges are prohibited notwithstanding the fact that the municipality may have approved the connections, drains or conveyances by which a person discharges un-allowed non-storm water discharges to the storm drainage system.

(b) Allowed non-storm water discharges. The creation, initiation, origination or maintenance of the following non-storm water discharges to the storm drainage system is allowed:

(1) Landscape irrigation; diverted stream flows; rising ground waters; uncontaminated ground water infiltration (as defined at 40 CFR 35.2005(20)); uncontaminated pumped ground water; uncontaminated flows from foundation drains; air conditioning and compressor condensate; irrigation water; flows from uncontaminated springs; uncontaminated water from crawl space pumps; uncontaminated flows from footing drains; lawn watering runoff; flows from riparian habitats and wetlands; residual street wash water (where spills/leaks of toxic or hazardous materials have not occurred, unless all spilled material has been removed and detergents are not used); hydrant flushing and fire fighting activity runoff; water line flushing and discharges from potable water sources; and individual residential car washing;

(2) Discharges specified in writing by the enforcement authority as being necessary to protect public health and safety; and

(3) Dye testing, with verbal notification to the enforcement authority prior to the time of the test.

(c) Exempt person or discharge. This article shall not apply to an exempt person or discharge, except that the enforcement authority may request from exempt persons and persons with exempt discharges copies of permits, notices of intent, licenses and orders from the EPA or DEP that authorize the discharge(s).

(Ord. No. 05-14, 9-8-05)

Sec. 74-206. Suspension of access to the municipality's small MS4.

The enforcement authority may, without prior notice, physically suspend discharge access to the storm drainage system to a person when such suspension is necessary to stop an actual or threatened non-storm water discharge(s) to the storm drainage system which present or may present imminent and substantial danger to the environment, or to the health or welfare of persons, or to the storm drainage system, or which may cause the municipality to violate the terms of its environmental permits. Such suspension may include, but is not limited to, blocking pipes, constructing dams or taking other measures, on public ways or public property, to physically block the discharge to prevent or minimize non-storm water discharges to the storm drainage system. If the person fails to comply with a suspension order issued in an emergency,
the enforcement authority may take such steps as deemed necessary to prevent or minimize damage to the storm drainage system, or to minimize danger to persons, provided, however, that in taking such steps the enforcement authority may only enter upon the premises that is the source of the actual or threatened non-storm water discharge to the storm drainage system with the consent of the premises' owner, occupant or agent.  (Ord. No. 05-14, 9-8-05)

Sec. 74-207. Monitoring of discharges.

In order to determine compliance with this article, the enforcement authority may enter upon and inspect premises subject to this article at reasonable hours with the consent of the premises' owner, occupant or agent; to inspect the premises and connections thereon to the storm drainage system; and to conduct monitoring sampling and testing of the discharge to the storm drainage system.

(Ord. No. 05-14, 9-8-05)

Sec. 74-208. Enforcement.

It shall be unlawful for any person to violate any provision of or to fail to comply with any of the requirements of this article. Whenever the enforcement authority believes that a person has violated this article, the enforcement authority may enforce this article in accordance with 30-A M.R.S.A. § 4452.

(1) Notice of violation. Whenever the enforcement authority believes that a person has violated this article, the enforcement authority may order compliance with this article by written notice of violation to that person indicating the nature of the violation and ordering the action necessary to correct it, including, without limitation:

a. The elimination of non-storm water discharges to the storm drainage system;

b. The cessation of discharges, practices, or operations in violation of this article;

c. At the person's expense, the abatement or remediation (in accordance with best management practices in DEP rules and regulations) of non-storm water discharges to the storm drainage system and the restoration of any affected property; and/or

d. The payment of fines, of the municipality's remediation costs and of the municipality's reasonable administrative costs and attorneys' fees and costs.

If abatement of a violation and/or restoration of affected property is required, the notice shall set forth a deadline within which such abatement or restoration must be completed.

(2) Penalties/fines/injunctive relief. Any person who violates this article shall be subject to fines, penalties and orders for injunctive relief and shall be responsible for the municipality's attorney's fees and costs, all in accordance with 30-A M.R.S.A. § 4452. Each day such violations continues shall constitute a separate
violation. Moreover, any person who violates this article also shall be responsible for any and all fines, penalties, damages and costs, including, but not limited to attorneys' fees and costs, incurred by the municipality for violation of federal and state environmental laws and regulations caused by or related to that person's violation of this article; this responsibility shall be in addition to any penalties, fines or injunctive relief imposed under this section.

(3)  *Consent agreement.* The enforcement authority may, with the approval of the municipal officers, enter into a written consent agreement with the violator to address timely abatement of the violation(s) of this article for the purposes of eliminating violations of this article and of recovering fines, costs and fees without court action.

(4)  *Appeal of notice of violation.* Any person receiving a notice of violation or suspension notice may appeal the determination of the enforcement authority to the board of appeals in accordance with the City's Code of Ordinances. The notice of appeal must be received within 30 days from the date of the notice of violation. The board of appeals shall hold a de novo hearing on the appeal within 30 days from the date of receipt of the notice of appeal. The board of appeals may affirm, reverse or modify the decision of the enforcement authority. A suspension under section 74-206 of this article remains in place unless or until lifted by the board of appeals or by a reviewing court. A party aggrieved by the decision of the board of appeals may appeal that decision to the Maine Superior Court within 45 days of the date of the board of appeals decision pursuant to Rule 80B of the Maine Rules of Civil Procedure.

(5)  *Enforcement measures.* If the violation has not been corrected pursuant to the requirements set forth in the notice of violation, or, in the event of an appeal, within 45 days of the decision of the municipal board of appeals upholding the decision of the enforcement authority, then the enforcement authority may recommend to the municipal officers that the town attorney file an enforcement action in a Maine court of competent jurisdiction under Rule 80K of the Maine Rules of Civil Procedure.

(6)  *Ultimate responsibility of discharger.* The standards set forth herein are minimum standards; therefore this article does not intend nor imply that compliance by any person will ensure that there will be no contamination, pollution, nor unauthorized discharge of pollutants into waters of the U.S. caused by said person. This article shall not create liability on the part of the municipality, or any agent or employee thereof for any damages that result from any person's reliance on this article or any administrative decision lawfully made hereunder.

(Ord. No. 05-14, 9-8-05)

Sec. 74-209. Severability.

The provisions of this article are hereby declared to be severable. If any provision, clause, sentence, or paragraph of this article or the application thereof to any person, establishment, or circumstances shall be held invalid, such invalidity shall not affect the other provisions, clauses, sentences, or paragraphs or application of this article.
Sec. 74-210. Basis.

The City of Lewiston enacts this article pursuant to 30-A M.R.S.A. § 3001 (Municipal Home Rule Ordinance Authority), 38 M.R.S.A. § 413 (the "Wastewater Discharge Law"), 33 U.S.C. § 1251 et seq. (the "Clean Water Act"), and 40 CFR Part 122 (U.S. Environmental Protection Agency's regulations governing the National Pollutant Discharge Elimination System ("NPDES")). The Maine Department of Environmental Protection, through its promulgation of the "general permit for the discharge of stormwater from small municipal separate storm sewer systems", dated June 3, 2003, has listed the City of Lewiston as having a regulated small municipal separate storm sewer system ("small MS4"); under this general permit, listing as a regulated small MS4 necessitates enactment of this article as part of the municipality's stormwater management program.

ARTICLE IV. STORMWATER UTILITY

Sec. 74-300. Findings.

Whereas the city council finds that water quality in the watersheds within and surrounding the city, including but not limited to watersheds associated with the Androscoggin River, No Name Pond, Garcelon Bog, Jepson Brook, Hart Brook, No Name Brook, Stetson Brook, Gully Brook, Goff Brook, Moody Brook and Salmon Brook, along with their tributaries are potentially threatened by pollutants associated with existing land use and future development; and

Whereas the city council finds that poor water quality in the watershed can threaten public health, safety, and welfare; and

Whereas the existing stormwater management system is deteriorating and may be inadequate to meet existing and future needs, and flooding concerns may arise; and

Whereas requirements of the U.S. Environmental Protection Agency ("EPA") demand a comprehensive approach to municipal stormwater management, and the city wishes to take a proactive approach to these requirements; and

The city council makes the following additional findings:

• The stormwater management needs of the city have been identified in a needs analysis entitled (Stormwater/CSO Utility Feasibility Study Preliminary Results) dated April 11, 2002, by Camp Dresser and McKee, Inc. and an analysis entitled "Clean Water Act Master Plan" dated December 12, 2000, by Metcalf & Eddy ("stormwater studies") that indicate more effective stormwater management in the city would contribute to the health, safety and welfare of the residents. Further, this analysis reveals that stormwater facilities and activities associated with stormwater management provide services and benefits to all properties, property owners, residents and citizens of the city.
Given the scope of stormwater management needs identified by the stormwater studies, it is appropriate and necessary to authorize the formation of a stormwater utility unit, as a program comprised of personnel from the city's department of public services and department of public works and with dedicated funding components, charged with the responsibility to establish, operate, maintain, control, and enhance the stormwater management programs, services, systems, and facilities of the city.

In order to establish, operate, and maintain the stormwater infrastructure of the city, ensure the future usefulness of the existing system through additions and improvements, and provide other services associated with stormwater and watershed management, sufficient and stable funding is required for the operation, maintenance and improvement of the stormwater management programs, services, systems, and facilities of the city.

A stormwater utility service fee schedule that efficiently takes into account impervious surface area, and uses intensity and nature of land use as the most appropriate and equitable method of allocating the cost of stormwater management programs, services, systems, and facilities of the city and between and among rural and urbanized areas of the city and residential dwelling units, non-residential properties and other developed lands for governing assessments and collections of the utility.

Sec. 74-301. Purpose.

Stormwater runoff is one (1) of the largest contributors to water quality violations in urban and urbanizing areas of Maine. According to the US EPA, polluted stormwater runoff is a leading cause of impairment to the nearly forty (40) percent of surveyed U.S. water bodies which do not meet water quality standards (U.S. EPA, 1995). When polluted stormwater runoff is discharged directly into surface water bodies, several adverse effects can occur: public health can be threatened from contaminated drinking water sources, food sources, and recreational waters; aquatic habitats can be damaged or destroyed; and aesthetic values of waterways can decline. Management of stormwater is critical to ensuring the integrity of valuable surface water resources. An effective approach to managing stormwater and related impacts is creation of a utility that delivers stormwater management services to a community.

Therefore, the city hereby establishes a stormwater management utility for the following purposes:

• To determine the necessary level of municipal stormwater management services for the city;

• To maintain and improve the drainage facilities of the city, to ensure that they perform to design capacity while using best management practices to meet local, state, and federal water quality standards;

• To mitigate the damaging effects of uncontrolled and unmanaged stormwater runoff;

• To support and promote sound stormwater management practices that mitigate non-point source pollution, reduce flooding, and enhance area drainage within the city.
and;

- To support the goals and objectives of the city ordinances addressing stormwater management in other sections of this Code of Ordinances and to comply with applicable law, including the Maine Department of Environmental Protection Stormwater Management Regulations.

Sec. 74-302. Authority and jurisdiction.

(a) Under the authority of the Maine Constitution, Article VIII, and Title 30-A M.R.S.A. § 3001, the city hereby establishes the Lewiston Stormwater Utility ("utility") as a program comprised of personnel of the department of public services and department of public works to provide stormwater management programs, services, systems, and facilities of the city. The city administrator will appoint a superintendent of stormwater management and a director of field operations to carry out the responsibilities of the utility.

(b) The utility or its designee is authorized to assess and collect service fees from all persons owning land within the municipality that benefit from the services provided by the utility, including all persons that own land from which stormwater runoff discharges directly or indirectly to the stormwater management systems and facilities managed by the utility.

(c) The utility will assume all responsibility for providing stormwater management programs, services, systems, and facilities of the city, including maintaining and improving stormwater infrastructure; providing engineering services for stormwater management; regulating, in accordance with local, state and federal regulations, stormwater discharges from each parcel contributing to the stormwater management systems and facilities; and collecting utility fees. The superintendent of stormwater management, or his/her designated representative, is authorized to make recommendations for stormwater management plans during any required review process for new and/or existing development.

(d) The boundaries and jurisdiction of the stormwater utility shall encompass all portions of the City of Lewiston.

(Ord. No. 06-10, 7-27-06)

Sec. 74-303. Definitions.

The definitions contained in Maine's Stormwater Management Law and Regulations (38 M.R.S.A. § 420D; 06-096 CMR Ch. 500 (Oct. 30, 2005), are incorporated herein by reference. Additional terms used in this article are defined as follows:

Credit: Credit shall mean a conditional reduction in the amount of a stormwater service fee to an individual property based on the provision and continuing presence of an effectively maintained and operational on-site stormwater system or facility or other service or activity that reduces the stormwater management utility's cost of providing services.

Customers of the stormwater utility: Customers of the stormwater utility shall include all persons, properties, and entities served by and/or benefiting from the utility's
acquisition, management, maintenance, extension, and improvement of the public stormwater management systems and facilities and regulation of public and private stormwater systems, facilities, and activities related thereto, and persons, properties, and entities which will ultimately be served or benefited as a result of the stormwater management program.

*Developed land:* Developed land shall mean property altered from its natural state by removal of vegetation, construction, or installation of improvements such as buildings, structures, or other impervious surfaces, or by other alteration of the property that results in a meaningful change in the hydrology of the property during and following rainfall events (agricultural and forestry operations that do not create impervious surface area excepted).

*Ephemeral stream:* A channel that flows only during wet weather following a precipitation event and typically flows no more than a few days after the storm.

*Equivalent residential unit (ERU):* A measure used to standardize the utility service fees for residential properties, or classes of residential properties, and based on the average amount of impervious area of a base residential parcel. The ERU shall also be used as the basis for standardizing and determining the equivalent size of non-residential properties and other developed lands. The staff of the utility, together with consulting engineers, shall undertake an analysis to identify the amount of square feet of impervious surface area of an ERU and this will be identified as part of the stormwater service fee schedule policy.

*Exemption:* Exemption shall mean not applying to, or removing the application of the stormwater management utility service fee from, a property. No permanent exemption shall be granted based on taxable or non-taxable status or economic status of the property owner.

*Hydrologic response:* The hydrologic response of a property is the manner whereby stormwater collects, remains, infiltrates, and is conveyed from a property.

*Impervious surfaces:* Impervious surfaces are those areas that prevent or impede the infiltration of stormwater into the soil as it entered in natural conditions prior to development. Impervious areas include, but are not limited to, rooftops, sidewalks, walkways, patio areas, driveways, parking lots, storage areas, compacted gravel surfaces, awnings and other fabric or plastic coverings, and other surfaces that prevent or impede the natural infiltration of stormwater runoff which existed prior to development.

*Intermittent stream:* A stream or river that flows during both wet and dry weather only during the wettest part of the year and exhibits no flow during dry weather during at least a portion of the year, and is depicted as a thin solid line on United States Geological Survey (USGS) quadrangle maps.

*Other developed lands:* Other developed lands shall mean, but not be limited to, mobile home parks, commercial and office buildings, public buildings and structures, industrial and manufacturing buildings, storage buildings and storage areas covered with impervious surfaces, parking lots, parks, recreation properties, public and private schools and universities, colleges, research facilities and stations, hospitals and convalescent centers, airports, agricultural uses covered by impervious surfaces, water and wastewater treatment plants, and lands in other uses which alter the hydrology of the property from
that which would exist in a natural state.

*Perennial stream:* A stream or river that flows during both wet and dry weather throughout the year and over multiple years in duration, and that is depicted as a bold line on USGS quadrangle maps.

*Pollution:* The contamination or other alteration of the physical, chemical or biological properties of any natural waters of the City of Lewiston, or the discharge of any liquid, gaseous, solid or radioactive or other substance into any such waters as will or is likely to create a nuisance, or render such water harmful, detrimental, or injurious to the public health, safety and welfare or to other beneficial uses.

*Residential dwelling unit:* Residential dwelling unit shall mean developed land containing one or more structures and which contains one or more bedrooms, with a bathroom and kitchen facilities, designed for occupancy for dwelling purposes. Dwelling units may include single-family houses, single duplex units under common ownership, manufactured homes, condominiums, townhouses, and mobile homes located on one or more individual lots or parcels of land. Developed land may be classified as a residential dwelling unit despite the presence of incidental structures associated with residential uses such as barns, garages, carports, or small storage buildings such as tool sheds or woodsheds.

*Stormwater:* Precipitation as it falls to the earth, surface runoff and drainage, and paths taken by such water.

*Stormwater management programs, services, systems, and facilities:* Stormwater management programs, services, systems, and facilities are those administrative, engineering, operational, regulatory, and capital improvement activities and functions performed by the City of Lewiston in connection with managing the stormwater management systems and facilities of the city, plus all other activities and functions necessary to support the provision of such programs and services.

*Stormwater management systems and facilities:* Those natural and man-made channels, swales, ditches, swamps, rivers, streams, creeks, branches, reservoirs, ponds, drainage ways, inlets, catch basins, pipes, head walls, storm sewers, lakes, city and state roads including the Maine Turnpike and other physical works, properties, and improvements which transfer, control, convey or otherwise influence the movement of stormwater runoff and its discharge to and impact upon receiving waters.

*Stormwater service fees:* Stormwater service fees shall mean the periodic service fee imposed pursuant to this article for the purpose of funding costs related to stormwater management programs, services, systems, and facilities.

*Stormwater service fee schedule policy:* The policy approved by the city council identifying the specific fee structure and formulas upon which stormwater service fees and credits will be based.

*Undeveloped land:* Land in its unaltered natural state or which has been modified to such minimal degree as to have a hydrologic response comparable to land in an unaltered natural state shall be deemed undeveloped. Undeveloped land shall have no pavement, asphalt, or compacted dirt or gravel surfaces or structures which create an impervious surface that would prevent infiltration of stormwater or cause stormwater to
collect, concentrate, or flow in a manner materially different than that which would occur naturally.

_Lewiston Stormwater Utility:_ The program within the City of Lewiston staffed by the public services department and public works department, responsible for providing the stormwater management programs, services, systems, and facilities pursuant to this article.

(Ord. No. 06-10, 7-27-06; Ord. No. 06-14, 11-2-06)

**Sec. 74-304. Establishment of stormwater fund.**

(a) The city administrator shall establish a dedicated stormwater fund in the city budget and an accounting system for the purpose of managing all funds collected for the purposes and responsibilities of the utility. All revenues and receipts of the utility shall be placed in the stormwater fund, which shall be separate from all other funds, and only the expenses of stormwater management programs, services, systems, and facilities of the city shall be paid by the fund.

(b) The utility and the stormwater fund may also accept loans, state, federal and private grants, and allocations of funds from the city’s general fund or special purpose funds.

(c) Stormwater service fees will be set at a rate that covers the costs necessary to carry out the stormwater management programs, services, systems and facilities approved by the city as necessary to carry out the functions of the utility. Expenditure of funds from the stormwater fund is limited to the following:

- Operating expenses;
- Non-operating expenses, such as equipment and supplies;
- Payment on principal and interest on debt obligations;
- Capital investments including stormwater best management practices (BMPs) and components (e.g., purchase of plants and other amenities to support stormwater management alternatives utilizing vegetation);
- Reserve expenses; and
- Others costs as deemed necessary by the city council.

(Ord. No. 06-10, 7-27-06)

**Sec. 74-305. Requirements for on-site stormwater management.**

All property owners and developers of property within the city shall provide, manage, maintain and operate their stormwater systems to meet all requirements of the Maine Stormwater Management Law, and regulations and all other applicable stormwater management requirements now specified or later specified in this Code of Ordinances, including, but not limited to, the non-stormwater discharge ordinance (section 74-200 et seq.), the private stormwater elimination policy, and applicable development performance standards contained in the Code of Ordinances. The city council hereby adopts and incorporates the requirements of the private stormwater elimination policy, subject to revision and amendment by the council upon recommendation of the superintendent of stormwater.
Failure to comply with these requirements shall constitute a nuisance and be subject to abatement action, in addition to the enforcement actions described in subsection 74-311(a). In the event that a public nuisance is found to exist by a court of appropriate jurisdiction, and the property owner fails to abate said nuisance within a reasonable time as allowed by the court, the city may take all legally authorized actions necessary to enforce the court's judgment, including entering upon the property and causing such work as is reasonably necessary to be performed, with the actual cost thereof assessed against the owner in the same manner as a tax levied against the property. From the date of filing such action, the city shall have lien rights that may be perfected, after judgment, by filing a notice of lien in the court of appropriate jurisdiction. The city shall have the right, pursuant to this article, for its designated officer and employees to enter upon private and public property owned by entities other than the city, upon reasonable notice to the owner thereof, to inspect the property and conduct surveys and engineering tests thereon in order to ensure compliance. Failure to comply with the standards identified herein will also subject the property owner to enforcement action, as described in section 74-311, herein.

(Ord. No. 06-10, 7-27-06)

Sec. 74-306. Services provided.

Lewiston Code
Chapter 74

CH 74:33
Sec. 74-307. Service area.

The service area of the utility will include all areas within the municipal boundaries of the City of Lewiston.

(Ord. No. 06-10, 7-27-06)

Sec. 74-308. Stormwater utility service fees.

(a) The city may determine and modify from time to time the service fees of the utility in order that the funds generated correspond to the cost of stormwater management programs, services, systems, and facilities of the city. In general, funding for the stormwater utility shall be equitably derived based on methods that establish a link between the fees and degree of impact imposed on the stormwater management system and facilities.

(b) To the extent that other funding methods are employed by the city to manage stormwater both within and outside the service area, stormwater service fees shall support and be consistent with plan review and inspection fees, special fees for services, fees in lieu of regulatory requirements, impacts fees, special assessments, and other fees. Fees collected to fund stormwater management activities of the utility can also be supplemented by other revenues available to the city, most notably state, federal, and private grants or loans.

(c) After adoption of the ordinance, the utility, guided by the city administrator and with the assistance of those consultants deemed necessary by the utility and city administrator, shall undertake an analysis of the cost of stormwater management programs, services, systems, and facilities of the city for the purpose of setting an annual rate schedule for properties served by the utility. The recommendations of the utility (and/or city administrator) shall be submitted for approval by the city council. The fee schedule approved by the city council shall be designated as the stormwater service fee schedule and be made part of the city's policy manual. No bills will be issued to customers prior to city council approval of the stormwater service fee schedule.

(d) Rate studies shall be conducted periodically by the utility to determine all changes and future updates to the stormwater utility use fee schedule policy. Any revision to the stormwater service fee schedule policy will be approved by the city council prior to implementation.

(Ord. No. 06-10, 7-27-06)

Sec. 74-309. Credits and exemptions.

(a) Credits against service charges are an appropriate means of adjusting payments to the utility and will only be granted to those properties that go beyond the requirements of state and local laws and regulations. Credits against service charges may be granted on a sliding scale for properties providing on-site or off-site stormwater management measures that reduces the impact of the property on the cost of providing stormwater management services, provided that such systems are adequately maintained and exceed performance standards specified under Maine's Stormwater Management Law and regulations as well as any additional stormwater management performance standards.
imposed by this Code of Ordinances. A fee credit schedule and a manual for the stormwater utility shall be developed by the utility's staff and consultants specifying the necessary performance standards for stormwater systems to qualify for a credit. The scale for credits shall reflect the extent to which the subject properties reduce the peak rate of runoff from the property, or avoid other costs incurred by the stormwater management utility in the delivery of services, and shall be determined by the director, department of public services. The fee credit schedule shall be submitted to and approved by the city council as part of the stormwater service fee schedule policy and be made part of the city's policy manual.

(b) Credits may be provided for the following:

(1) Properties upon which a permanent and/or perpetual conservation or other protective easement has been provided may receive service fee credits, as established by the city council, provided such easement:
   a. Reduces or compensates for the impact that the subject property, or an unrelated property, has on public or private stormwater systems or water quality of receiving waters;
   b. Improves the function of public stormwater systems or the water quality of receiving waters; or
   c. Provides other substantial benefits as identified by the city council.

(2) Creation of freshwater wetlands (assuming the created wetland is not part of a mitigation project associated with a permitted impact to a natural wetland);

(3) Stormwater management practices (e.g., on-site detention and retention facilities); and

(4) Peak flow reduction (may be same as c).

(c) Exemptions from stormwater service fees are not allowed, except as provided in this section. Exemptions shall be allowed for:

• All city and state-owned or maintained roads and rights-of-way, including the Maine Turnpike, because these roads are part of the stormwater management systems and facilities.

(Ord. No. 06-10, 7-27-06; Ord. No. 06-14, 11-2-06)

Sec. 74-310. Fee collection schedule.

Stormwater service fees shall be collected quarterly. To minimize administrative costs, notification and collection of stormwater utility fees shall be coordinated, to the extent possible with the collection of water and sewer service charges. A customer shall have 30 days from receipt of a service fee bill to make payment. Interest, at a rate determined by the city council as part of the stormwater utility use fee schedule shall be charged on delinquent accounts after 30 days.

(Ord. No. 06-10, 7-27-06)

Sec. 74-311. Right to enforcement and violations.
(a) The city administrator, or his authorized designee is the enforcement authority who shall administer, implement, and enforce the provisions of this article.

(b) It shall be unlawful for any person to violate or to fail to comply with the stormwater management requirements of section 74-305. Whenever the enforcement authority believes that a person has violated section 74-305, the enforcement authority may enforce this article in accordance with 30-A M.R.S.A. § 4452 and section 1-8 of the Code of Ordinances.

1) Notice of violation. Whenever the enforcement authority believes that a person has violated this section 74-305, the enforcement authority may order compliance with this article by written notice of violation to that person indicating the nature of the violation and ordering the action necessary to correct it including, without limitation: the cessation of discharges, practices, or operations in violation of this article; at the person's expense, the abatement or remediation of conditions; and/or the payment of fines, of the city's remediation costs and of the city's reasonable administrative costs and attorneys' fees and costs. If abatement of a violation and/or restoration of affected property is required, the notice shall set forth a deadline within which such abatement or restoration must be completed.

2) Penalties/fines/injunctive relief. Any person who violates section 74-305 shall be subject to fines, penalties and orders for injunctive relief and shall be responsible for the city's attorneys' fees and costs, all in accordance with 30-A M.R.S.A. § 4452 and section 1-8 of the Code of Ordinances. Each day such violations continue shall constitute a separate violation. Moreover, any person who violates section 74-305 also shall be responsible for any and all fines, penalties, damages and costs, including, but not limited to attorneys' fees and costs, incurred by the city for violation of federal and state environmental laws and regulations caused by or related to that person's violation of section; this responsibility shall be in addition to any penalties, fines or injunctive relief imposed under this section.

3) Consent agreement. The enforcement authority may enter into a written consent agreement with the violator to address timely abatement of the violation(s) of this article for the purposes of eliminating violations of section 74-305 and of recovering fines, costs and fees without court action.

4) Appeal of notice of violation. Any person receiving a notice of violation or suspension notice may appeal the determination of the enforcement authority to the board of appeals in accordance with the City's Code of Ordinances, App. A, Art. IX. The notice of appeal must be received within 30 days from the date of the notice of violation. The board of appeals shall hold a de novo hearing on the appeal within 30 days from the date of receipt of the notice of appeal. The board of appeals may affirm, reverse or modify the decision of the enforcement authority. A party aggrieved by the decision of the board of appeals may appeal that decision to the Maine Superior Court within 45 days of the date of the board of appeals decision pursuant to Rule 80B of the Maine Rules of Civil Procedure.

5) Enforcement measures. If the violation has not been corrected pursuant to the requirements set forth in the notice of violation, or, in the event of an appeal, within 45 days of the decision of the board of appeals upholding the decision of the enforcement authority, then the enforcement authority may initiate an
enforcement action in a Maine court of competent jurisdiction under Rule 80K of the Maine Rules of Civil Procedure.

(c) Delinquent fees.

(1) Any person that fails to pay the service fee when due shall be responsible for the amount of the unpaid service fee, interest on the unpaid amount at a rate determined by the city council as part of the stormwater utility use fee schedule, a minimum penalty of $200.00, and attorneys' fees and other costs of collection. Delinquent amounts may be collected by a civil action against the person.

(2) A customer of the utility may request review of the amount of the service fee imposed on such customer by written request to the superintendent of stormwater within 30 days of the date the customer receives a service fee bill. The superintendent shall review the service fee and issue a determination, in writing, within 30 days. A customer may appeal the superintendent's decision to the city council within 30 days of the date of the superintendent's decision. Aggrieved persons may appeal a decision of the council to a court of competent jurisdiction within 30 days of the date of the council decision.

(Ord. No. 06-10, 7-27-06)

Sec. 74-312. Limitation of liability.

Floods from stormwater may occasionally occur which exceed the capacity of the storm drainage facilities constructed, operated, or maintained by funds made available under this chapter. This chapter shall not be interpreted to mean that property subject to the fees and charges established herein will always (or at any time) be free from stormwater flooding or flood damage, or that stormwater systems capable of handling all storm events can be cost-effectively constructed, operated or maintained. Therefore the following limitations on liability are set forth:

(1) It is the express intent of the city that this stormwater utility ordinance will protect the public heath, safety and welfare of properties and persons in general. However, this ordinance does not create any special duty or relationship with any individual person or specific property either within or outside the jurisdiction of the stormwater utility.

(2) The city shall not be held liable for flood damage or assessing and removing pollution sources, and reserves the right to assert all available immunities and defenses in any action seeking monetary compensation from the city, or its officers, agents or employees for alleged damages arising from alleged failure or breach of duties or relationship as may now exist or hereafter be created.

(3) The issuance of any permit, plan approval or inspection shall not constitute a warranty, express or implied, nor shall it afford the basis for any action seeking the imposition of monetary damages against the city or its officers, employees or agents.

(4) Operation of stormwater systems located on private property or public property not owned by the City of Lewiston and for which there has been no public dedication of such systems and facilities for operation, maintenance and/or improvements of the system, shall be the legal responsibility of the property
owner, except as may be affected by the laws of the State of Maine and the United States of America.

(Ord. No. 06-10, 7-27-06)

Sec. 74-313. Severability.

Each section of this ordinance is severable from all other sections. If any part of this ordinance is deemed invalid by a court or competent jurisdiction, remaining portions of the ordinance shall not be affected and shall continue in full force. Whenever this ordinance conflicts with any other ordinance of the city, State of Maine, or federal government, the stricter standard shall apply, except as limited by state or federal law.

(Ord. No. 06-10, 7-27-06)

Sec. 74-314. Applicability.

This ordinance and the fees, obligations and requirements identified herein shall apply to all use of and benefit from the city's stormwater management systems and facilities, occurring on or after July 1, 2006. All persons owning land within the municipality that benefit from the services provided by the utility shall be subject to service fees for their use of the stormwater management systems and facilities occurring on or after July 1, 2006.

If the cost of remedying a condition under this article is not paid within 30 days after receipt of a statement therefor from the director of public works, such cost shall be levied against the property upon which such hazard exists, as a special assessment. Such special assessment shall be certified by the director to the city treasurer and shall thereupon become and be a lien upon such property, shall be included in the next tax bill rendered to the owner or owners thereof unless paid before, and shall be collected in the same manner as other taxes against such property. (Code 1982, § 27-21)

Sec. 78-32. Disclaimer of liability; negligence.

The city shall be liable for no damages under this article except those occasioned by negligence. (Code 1982, § 27-22)

ARTICLE III. COMMUNITY FOREST

Sec. 78-40. Findings.

The City Council finds that the community forest is important in advancing the economic and ecological health of the community and in protecting and enhancing its historic and esthetic characteristics. The City Council also finds that public trees beautify our streets and neighborhoods and also serve important environmental and economic purposes in that they release oxygen into the air, absorb carbon dioxide, reduce stormwater runoff, and reduce energy costs by providing shade in warm weather and protection from cold winter winds. (Ord. No. 12-07, 7-19-12)

Sec. 78-41. Purpose.

The purpose of this ordinance is to promote these values and to provide for the public health and safety by regulating the planting, maintenance, removal, and harvesting of trees and shrubs which are part of the community forest. (Ord. No. 12-07, 7-19-12)
Sec. 78-42. Authority.

The City has authority to enact this ordinance under its home rule powers provided in 30-A M.R.S.A. §§ 2003 and 2004. (Ord. No. 12-07, 7-19-12)

Sec. 78-43. Definitions.

A plan normally provides a description of the woodlot including maps, timber inventory data, wildlife habitat, recreation potential, historic features, and special attributes. It will specify silvicultural practices and activities necessary to harvest products, improve forest health, and minimize adverse environmental impacts. The forest management plan serves as the basis for specific harvest plans.

(e.) Public tree: any tree or other woody vegetation which is located within the limits of any public way situated within the Urban Compact Zone.

(f.) Shrub: any woody vegetation likely to grow to a mature height of fifteen (15) feet or less.

(h.) Trimming: includes pruning

(Ord. No. 12-07, 7-19-12)

Sec. 78-44. Management.

The broad objectives stated in § 78-40 "Findings" and § 78-41 "Purpose" will be achieved by the active management of the community forest, using best known practices and, within the guidelines of a forest management plan, to promote public safety, forest health, species diversity, and environmental benefit to the community. Harvesting trees may be part of the overall management objectives of this plan.

Sec. 78-45. Harvest revenues.

If and when revenues generated from any timber harvests exceed the expense of conducting that harvest, the surplus revenues will be distributed as outlined below:

(a.) 80% to municipal general fund
(b.) 20% to designated account established for the purpose of protecting and enhancing the community forest

(Ord. No. 12-07, 7-19-12)

Sec. 78-46. Administration.

Sec. 78-47. Municipal arborist.

The Director of the Department of Public Works shall appoint the Municipal Arborist who shall have a degree in forestry, arboriculture, or urban forestry from an accredited college or university or have equivalent field experience. The Municipal Arborist shall at all times during his or her employment hold a valid arborist’s license issued by the State of Maine.

(Ord. No. 12-07, 7-19-12)

Sec. 78-48. Duties of the municipal arborist.

(a.) The Municipal Arborist shall have responsibility for planting, maintaining, preserving, and removing trees and plants which are part of the community forest in order to promote public safety and to protect and preserve the symmetry, health, and beauty of the community forest and the places where public trees and shrubs are located. The Municipal Arborist shall maintain a list that includes trees and shrubs which are suitable for planting as well as those which are unsuitable in general or under specific circumstances. This list shall be made readily available to members of the public.

(b.) The Municipal Arborist may order the trimming or removal of trees or shrubs which are located within the public right of way to lessen the danger of travel or to suppress tree pests or insects as provided in 30-A M.R.S.A. § 3283. The Municipal Arborist may also order the trimming or removal of trees or shrubs located on private property outside the right of way for similar reasons by notifying the owner of the property in writing of the required action. In the event that a property owner does not initiate the requested action within 10 business days of receiving notice to do so, the Municipal Arborist may cause such action to be taken at the city's expense. The property owner may appeal the decision of the
VEGETATION

Municipal Arborist in the manner provided by § 78-49(e) and the Municipal Arborist shall take no action during the pendency of such appeal.

(c.) The Municipal Arborist shall develop rules and regulations as well as standards of practice governing the planting, placement, maintenance, removal, fertilization, pruning, and bracing of trees in public rights of way and other public sites. These rules shall be reviewed by the Lewiston-Auburn Community Forest Board which may recommend changes and additions for the Municipal Arborist and the City Council to consider. Once adopted by the City Council, the rules and regulations shall have the force of law and violators of any such rules and regulations shall be subject to the penalties established by this ordinance. Copies of such rules and regulations shall be available from the City Clerk and from the Municipal Arborist and shall be posted on the city’s website. The Municipal Arborist shall be responsible for initiating proceedings to enforce such rules and regulations.

(Ord. No. 12-07, 7-19-12)

Sec. 78-49. Requests to the municipal arborist; written permits required; appeals.

(a.) No person shall plant, prune, remove, or otherwise disturb, above or below ground, any public tree without first filing an application with and obtaining a permit from the Municipal Arborist. Any permit granted shall contain a definite date of expiration and may contain conditions attached thereto by the Municipal Arborist. Any violation of this article or the terms of the permit shall be grounds for revocation of the permit, after notice and hearing. In emergency situations, such as storm damage to trees requiring immediate pruning or removal, the work may be performed without permits; however, the Municipal Arborist shall be notified as soon as possible.

(b.) It is the intent of this article to preserve public trees. The Municipal Arborist may issue a permit to cut down, remove, or destroy a public tree under one or more of the following circumstances:

(1) The tree is diseased, injured, in danger of falling too close to existing or proposed structures, interferes with existing utility services, creates unsafe vision clearance or other traffic hazard, or is otherwise dangerous to people or property.

(2) The tree is located in an area where a structure or other improvements will be placed in accordance with plans approved under the Land Use Ordinance.

(c.) Requests for Tree Removal, Pruning, or Trimming

Persons owning or occupying property abutting a public way or their representatives may request the Municipal Arborist to remove or top trees located within the limits of the public way or, alternatively, for a permit authorizing them to do the work on their own. If the Municipal Arborist concludes that the request is not urgent, he may decline to do the work and issue a written permit allowing
the property owner or his or her representative to undertake the work on their own and at their own expense. The permit may specify conditions and shall establish an expiration date. Failure to comply with the conditions specified in the permit will subject the property owner and his or her representatives to the penalties established by this ordinance. In lieu of initiating enforcement proceedings when the conditions imposed by the permit are violated, the Municipal Arborist may cause any necessary corrective work to be done at the expense of the property owner or his or her representatives.

(d.) Requests to Plant Trees or Shrubs

Persons owning land abutting a public way or their representatives may request the Municipal Arborist to issue a written permit to plant trees or shrubs within the limits of the public way. The Municipal Arborist shall issue a permit if he or she determines that the proposed planting will not be harmful to public health or safety, will not damage or encroach upon existing public trees, shrubs, or utility lines, will not damage the public street, sidewalk, or public or private utilities located in the right of way, and that suitable arrangements have been made to provide for future maintenance of the proposed tree or shrub. The Municipal Arborist may specify reasonable conditions in the permit which the property owner or his or her representatives must follow in carrying out the work. Failure to comply with the conditions in the permit will subject the property owner to the penalties established by this ordinance. In lieu of initiating proceedings to enforce the conditions stated in the permit, the Municipal Arborist may cause any necessary corrective work to be done at the expense of the abutting owner.

(e.) Appeals

Any person who is denied permission by the Municipal Arborist to act under this section or who disagrees with a restriction or condition imposed on the action to be taken may appeal the same by filing a notice of appeal to the Board within ten (10) days from the date the action appealed from was taken. The notice of appeal shall contain the name and address of the person filing the appeal, the date and nature of the action from which the appeal is being taken, and a brief description of the basis for the appeal. The notice of appeal shall be filed with the Municipal Arborist who shall promptly forward it, as well as a response to the appeal, to the Chair and Secretary of the Board. The Board shall hear and decide the appeal within thirty (30) days from the date that the appeal was taken. A majority of the members of the Board shall constitute a quorum for purposes of hearing an appeal. The Board shall develop procedures governing the processing of such appeals. Such procedures to be made available to the public.

(Ord. No. 12-07, 7-19-12)

Sec. 78-50. Notice by municipal arborist of proposed tree work; appeals.

(a.) Except in the case of an emergency, the Municipal Arborist shall notify any abutting property owner at least ten (10) days before removing, topping, or spraying any public tree. In the case of an abutting property owner who does not
occupy the property, notice may be given to any occupant of suitable age and
discretion. Notice may be given by mail, by telephone, by electronic
transmission, by leaving written notice attached to the person’s door, or in person.
The notice shall describe the work to be done, when it is scheduled to begin, the
process by which an appeal may be taken, and how to contact the Municipal
Arborist. With respect to pruning and trimming public trees, no formal notice is
required, but the Municipal Arborist shall make a good faith effort when feasible
to advise abutting property owners of the work to be done and to provide them
with an opportunity to express any objections they may have.

(b.) Within ten (10) days of the date when notice of the Municipal Arborist’s intention
to remove, top, or spray a tree is given, an abutting owner or his or her
representative may give notice to the Municipal Arborist that he or she is
appealing the decision to the Board. Such notice of appeal may be given in
person, by telephone, mail, or electronic communication. The procedure with
respect to appeals under this section shall be the same as that for appeals under §
78-49(e) of this ordinance except that the proposed action shall be held in
abeyance until the appeal has been heard and the Board has rendered a decision.

(Ord. No. 12-07, 7-19-12)

Sec. 78-51. Notice of tree work by utilities.

(a.) At least thirty (30) days before initiating any trimming, cutting, or removal of
public trees, a utility company must notify the Municipal Arborist who may
request the City Council to hold a public hearing to discuss the request.

(b.) At least thirty (30) days before initiating any trimming, cutting, or removal of
public trees, a utility company shall publish notice of its proposal on its website
and in at least one newspaper which has daily circulation in the area in which the
work is to be done. The notice shall describe the work which is proposed, the
streets on which the work is scheduled to be carried out, and the dates on which
the work is to be done. The notice shall be published in a display advertisement
format which is easily readable and sufficiently prominent so that it is likely to
come to the attention of persons whose property will be affected by the proposed
tree work. The published notice shall also advise the members of the public of
their right pursuant to state law to be added to a list of persons who must be
consulted by the utility company before it trims, cuts, or removes trees in which
they have a legal interest.

(b.) Should any public tree be destroyed, the person causing the destruction shall also make restitution to the city or to the abutting landowner in an amount equal to the cost of removing the destroyed tree plus its replacement value. Replacement value shall be calculated as follows:

(1) For a tree up to and including 2 inches in diameter measured at a distance of 4.5 feet from the ground, the replacement value shall be $200.

(2) The replacement value of a tree in excess of 2 inches in diameter as measured at a distance of 4.5 feet from the ground shall be calculated by using the following formula: restitution = $200 + (d^2 x $40) not to exceed $2,500 where d equals the diameter of the trunk as measured in inches.

(3) Transported any person other than the passenger first engaging the taxicab without the express consent of such passenger;

If no taxicab is available at the time when a request for taxicab service is telephoned to a dispatch service, the dispatch service shall arrange with the caller for transportation by the next available taxicab using such dispatch service unless the caller expressly declines to make such arrangement;

(6) Charged more than the maximum fare specified in this article;

Maximum suspensions of taxicab driver's licenses shall be as follows: Five days for the first violation, 14 days for the second violation, 30 days for the third violation within a one-year period. Fourth violations shall result in revocation of the taxi driver's license and may be the basis for further action with respect to the taxicab business license.

(c) Taxicab business licenses. In addition to the provisions of subsection (a) of this section, taxicab business licenses shall be subject to suspension or revocation where it is determined that there have been repeated violations by the driver or drivers thereof which resulted in four or more suspensions for similar conduct by the same driver, or eight or more suspensions by employees of the same person holding more than one taxicab business license for similar conduct, establishing a pattern of conduct by the holder of the taxicab business licenses.

(d) Either license. Notwithstanding the foregoing provisions of this section, a taxicab business or driver's license may be suspended or revoked if a licensee used, or allowed another to use, a taxicab in connection with, or to promote or solicit for, any unlawful business or activity.
