Mayor's Address

Mr. President and Members of the City Council,
and Citizens of Westbrook :

We are assembled here tonight for the solemn duty of organizing and officially inducting into office those newly elected men to comprise your City Government for 1936.

This ceremony always places great responsibilities and duties upon every man sworn into such public office and I can assure you that I am not the least of these to realize the great responsibility placed upon me as your Mayor for the ensuing year.

For this honor and for the privilege of serving the people of Westbrook, I want to express my sincere appreciation and particularly for the fine vote of confidence accorded me.

I shall endeavor to justify that confidence by giving to you and to Westbrook, my unlimited time and effort to the end and with the hope that these efforts will not be in vain.

In carrying out these hopes and ideas, I am not unmindful of the necessity of a co-operating Council. I have implicit faith in your newly elected Council, many of whom are men of previous experience and all of whom, I believe, are ready to co-operate in administering faithfully the affairs of the City, and each of whom fully realizes the demands of time, energy and responsibility which is placed upon them.

I am sure we are going to be able to work in harmony to the end that Westbrook's standard will not be lowered and that we will compare favorably with other cities throughout the State.

I feel sure that partisan feeling will be absent from our Council chamber and that our deliberations will be cloaked with a sincere desire for honest and efficient government of City affairs.

After having passed through several years of a very serious depression, which among other things has brought critical conditions to every municipality, we can note from our own previous administrations the heavy burdens placed upon us, largely by lack of employment and relief of the poor. To meet these emergencies we have expended large sums of money, which, however necessary might have been the need, has seriously affected our financial standing; and so, as we face this year's work, may we be ever mindful in our deliberations of the extreme need in every department of a program of strict economy.

There are several reasons why our slogan should be one of economy. We are going to be faced this year with at least a materially reduced program of Government projects which will increase our unemployment situation. There is no prospect of any substantial rebates being due us, as in previous years. Our budget will have to include an appropriation of approximately \$5,000.00 as first payment in financing the remodeling of the High School, and lastly, we are going to be faced with a substantial overdraft from the previous administration, which must be met and considered in our budget for 1936.

In speaking of this latter, I want to be fully understood as casting no reflections on the previous administration, for the over-drafts were undoubtedly fully justified; however it does leave the extra burden of expense upon this administration.

Your Finance Committee will determine, I am sure, after careful deliberation, whether or not our budget can be made to cover our expenses for the year at the present rate of taxation, or whether the rate will have to be raised; concerning this, let me say, our obligations must be met, and if careful in our legislation and management of City affairs, we must adjust our tax rate to meet those obligations, 75% of which are fixed expenditures.

It has not been possible for me to investigate the various departments or to formulate any definite policies in and for those departments for the ensuing year, so what comment I might make briefly concerning them would be from previous observations and an analysis of what seems to be the proper future course.

ROADS, SIDEWALKS AND BRIDGES

Our road work this year I believe should be confined largely to keeping in shape the permanent work already done, a continuation of the third-class and state-aid work begun on Spring and Cumberland Streets, and completion so far as possible of those roads already prepared for final grading and black top surfacing; as early as possible in the spring it will be our endeavor to put all roads in the best possible condition and repair work and improvements done where most needed.

Generally speaking, the sidewalks of our City are in reasonably good condition but it is anticipated that some work will be done where it seems most necessary.

RIVERBANK PARK

This has been so admirably taken care of by the Trustees since it was dedicated as a Park and all on so small an appropriation, that I feel no fear should be felt for the continued improvement and care of Riverbank.

It has already become a mecca for children at the playground portion of the Park as well as a retreat for many summer tourists.

POOR DEPARTMENT AND CITY HOME

This department in the past few years has experienced a tremendous growth and responsibility. I feel it can be truly said that the administration of the affairs of this department are among the most important, and an ever watchful eye is needed to see that all funds expended are properly justified.

I feel that the work being done at the City Home by the present farm manager and matron is very satisfactory. The inmates seem content with their treatment, and the

Home inside and out seems to be in good repair and well kept.

FIRE DEPARTMENT

It has always been a pleasure to make proud reference to our Fire Department. Being purely voluntary, it has been very noticeable how efficiently they have, at all times, attended to their duties. Most of the fire equipment is in good condition as are the quarters for the various companies. It is anticipated that some new hose will have to be purchased this year, and the Committee on Fire Department will investigate any further needs of this department.

POLICE DEPARTMENT

During the past administration one additional patrolman and cruiser car has been added to this department, and this, along with the traffic lights installed in Bridge Street Square, has been a big help in solving our traffic hazard along the Main Street. Our Police Department for the most part has been efficiently handled always and I am sure this year will prove no exception. By co-operation with our Police Department and the National Safety Drive, let us be able to report no fatalities in Westbrook for 1936.

SCHOOLS

We can always look with pride upon the high standard which the public schools of our City have established and this in spite of some handicaps.

For several years, Westbrook schools have been recognized for their high degree of efficiency and are considered among the best in the State.

The vision of the people of Westbrook for maintaining that standard and the importance of the need for suitable educational advantages for Westbrook's young men and women was evidenced in the almost unanimous appeal from the public for additional school facilities now being realized in the new addition to our High School. I feel that all citizens of our City are truly alive to the importance and the duty of providing adequate educational facilities to our future citizens.

SEWERS

At the present time there are two WPA sewer projects in operation, local help being used, and the only expense to the City being the furnishing of supplies for the projects. These are expected to last from three to four months. There is one other small sewer project being considered on Forest Street which it is hoped may start in the Spring.

MEMORIAL LIBRARY

I know of no immediate or unusual needs for this institution. Our Library has long been appreciated by the citizens of Westbrook and is not only well managed by competent attendants but has a fine class of books available.

CEMETERIES

Under a well defined plan which has been carried on for many years, we can feel justly proud of the condition of our cemeteries. More particularly in Woodlawn where the larger part of the burials are now made is this care most noticeable. Some new developments are completed each year, and the laying out of new lots, circles and avenues are made necessary by the constant sale of lots. I feel that we can depend upon our Board of Trustees to carry on the work at Woodlawn and Saccarappa Cemeteries in the same efficient manner that it has been in the past.

CONCLUSION

In conclusion, may I urge not only every member of the Council, but every citizen, to feel his responsibility in co-operating to make Westbrook a better city. Let us be a law-abiding people, a people interested in the civic affairs of our municipality, and may those chosen by election and appointment to serve your City have your moral and civic support, that they may go out better equipped with a willingness and determination to serve you and me efficiently and effectively, and ready to meet obstacles, emergencies and duty fearlessly.

REPORT OF THE Chief Engineer of Fire Department

December 31, 1936.

To the Honorable Mayor and City Council of the City of
Westbrook:

GENTLEMEN:—I wish to submit the following report
for the year 1936.

FIRES AND ALARMS

During the year there were 153 calls. They are class-
ified as follows:

General alarms,	25
Still alarms,	114
No alarms,	9
False alarms,	3
Out of town calls,	2

DAMAGES AND INSURANCE

Damage to buildings,	\$13,919.52
Insurance paid on buildings,	8,476.54
Damage to contents,	2,798.64
Insurance paid on contents,	1,901.64

IMPROVEMENTS

Equipment purchased for the Department during the
past year was as follows: one Ford truck; front end
pumper for Ford truck; two ten-foot lengths of suction
hose for truck pumper; one reducing coupling for truck
pumper.

One canvas cover for ladder truck; battery for ladder
truck; one large sheet-iron box for ladder truck; 100 feet
of 1-inch hose for ladder truck.

Three new hydrants (two on Pride Street, one on East
Bridge Street.)

Two sirens (one corner of Main and Mechanic Streets, one at junction of lower Main and driveway of Hose House, No. 1.)

Two hose racks (one for Hose 1 and one for Hose 2.

Repaired conductors on Hose 1 house; papered and painted meeting room of Presumpscot Hose Co.

For Pride's Corner Hose Co. we purchased 250 feet of 2-inch hose; one battery; one battery charger. Also rendered financial assistance to them in the erection of Hose house foundation, and in purchase of their new heating plant.

I wish to extend my sincere thanks to the Mayor and Committee on Fire Department for their kindness and assistance.

Respectfully submitted,

THOMAS D. SMITH,
Chief Engineer.

Report of the Street Commissioner

To the Honorable Mayor and Members of the City Council
of the City of Westbrook :

GENTLEMEN:—In accordance with the provisions of the Charter and Ordinances of the City of Westbrook, I herewith submit my annual report as Commissioner for the Street Department for the year ending December 31, 1936. With a substantially reduced appropriation for the current year, it has been necessary to curtail to some extent the work that might have been accomplished had more funds been available, but the work has been done with a view of keeping so far as possible within that appropriation.

NEW STREETS

One new street, Libby Avenue, has been accepted by the Council this year, and a new road and sidewalk has been constructed on this street for a distance of 300 feet. This required in some places a cut of over two feet, the material excavated being used largely on Lawrence Street. The road resurfaced with gravel, and sidewalks on both sides surfaced with stone dust.

STREET REPAIR

Due to the heavy rains of early spring, much temporary early work had to be done in filling washouts and resurfacing unimproved roads. Throughout the year an endeavor has been made to keep the improved and treated surfaces in good condition, by patching. A heavy drag constructed this year and used frequently on the unimproved roads, has done very efficient work, with the result that these roads have been in good condition most of the time. Late this fall much gravel surfacing work has been done on the unimproved and unaccepted streets, which should help materially the condition of these roads this coming spring. For this work, and for oiling, 8185 yards of sand and gravel have been used.

●

OILING

We were fortunate indeed in the early summer in securing at a very low figure 75,000 gallons of a very efficient road oil, with which we treated 65 streets, covering a mileage of 15.1 miles.

This has been a big factor in holding our dirt roads and keeping them in shape during the year, which otherwise, because of the dry weather, would have gone to pieces.

SNOW REMOVAL

During the early part of the year we were kept busy on snow removal. Owing to the frequency and severity of the storms, but with equipment in good shape, and an honest endeavor on the part of the truck drivers and other employees, we were able to have our streets open at all times.

SEWERS

No new sewers have been constructed by the city this year, but several new manhole covers and rings have been installed to replace badly worn and unsafe ones.

Through the co-operation of the W.P.A. a sewer has been constructed on West Pleasant Street, another on Bridge, Falmouth, Lowell and Webster Streets, and a third on Forest Street; each of these projects employed local relief labor.

DRAINS

Due to the fact that our summer road work was completed early, we were able to do a large amount of ditching and cleaning out of culverts all over the city, which should be a big factor in taking care of surface water in the spring. One hundred new driveway culverts have been put in this year, for the most part replacing old ones which have long since been unserviceable.

BRIDGES

During the spring floods, the Duck Pond bridge was washed out and a temporary bridge had to be installed.

Through the co-operation of W.P.A. a fine new permanent bridge has been constructed under the Flood Relief Program. The help used on this project being mostly local relief labor, and supervised by our City Engineer.

BUSHES

In accordance with the demands of the State, all bushes on State Highways, State Aid, Third Class and Special Resolve Roads, have been cut by our city crew.

SIDEWALKS

Two new pieces of concrete sidewalk have been constructed this year, one on State Street, 62 feet, and another on Forest Street, 367 feet.

Bitumals have been used extensively in the construction and resurfacing of sidewalks and driveways.

Surface treatment of pea stone and stone dust has been made on sections of Central, Conant, Spring, Bridge, Brown, Walker, Fitch, Libby Avenue, Lawrence and Main Streets.

Several sections of brick sidewalk on Main and Fitch Streets were relaid.

STONE CRUSHER

The stone crusher was started early in the year, and sufficient stone crushed ahead to take care of nearly all our needs for road work during the year. Dirt and chip refuse was removed from our stone quarry leaving it in excellent shape for the coming year.

3,025 yards of stone was crushed, besides 510 yards of pea stone, buckwheat and dust.

BITUMAL PENETRATION ROADS

Continuing the designated State Aid Road on Spring Street from a point just this side of Stroudwater River, we were able to complete this through to the Main Street, the work as far as Valentine Street being new construction, and from Valentine to Main Street being a resurfac-

ing job. This job, slightly over one mile, was done at a cost of \$8,097.80, half of which was paid by the State. 650 feet of this type of road was built on Central Street at a cost of \$700, and 927 feet, the entire length of Church Street, at a cost of \$800.

PENETRATION TARVIA B. ROADS

All third class work this year was done on Cumberland Street, starting from Park Road. 1,450 feet of new construction and treatment was completed, 1,000 feet built last year was treated, and 2,000 feet from the Windham line to Powers Hill given a surface treatment, the entire cost of this new work being \$1,735.40, all of which was paid by the State.

SNOW FENCE

Something new for Westbrook will be tried this year in the use of snow fence. A carload of 8,000 feet was authorized to be purchased at an expense of \$872, and with an annual rental from the State of \$252, as now erected for the coming year, it will pay for itself in about three and one-half years. This in addition to the saving on motor vehicle equipment, labor and increased efficiency in snow removal, seems to be a most advisable move.

EQUIPMENT

The following equipment is on hand at the present time, which will be turned over to my successor:

CITY GARAGE

Five 1½-ton Ford dump-body trucks, one new International 1½-ton dump-body truck (purchased this year), one 1-ton Ford truck with mounted Ingersoll & Rand air compressor, two 8-foot blades, two 10-foot blades, four scooter plows (one purchased this year), one 10-ton Holt tractor with steel plow, one Buffalo steam roller, one acetylene welding and cutting outfit, one set of taps and dies, one 6-ton hydraulic jack, one electric drill, one radiator repair bench complete, two portable forges and

anvils, one pressure pump for applying bitumals, one lathe, one power saw and table, one power pump for air, and other miscellaneous tools, equipment and stock in the garage.

CITY STABLES

Three horses, 3 sets of double harness, 4 single harnesses, 3 sets double sleds, 1 set single sleds, 2 two-horse dump carts, 1 one-horse dump cart, 1 road machine, 3 road graders, 7 king-drags and 6 sidewalk plows.

IN CONCLUSION

Every effort has been made to carry on the work of this Department in an efficient, honest and economical manner. No call has been too small to receive my attention promptly, and I hope conscientiously. The interests of the City and its citizens have been my interests. To those who have worked with me and for me, I extend my deep appreciation, and hope that by our united effort this year's accomplishments will meet your approval.

Respectfully submitted,

ELMER W. RANDALL,
Street Commissioner.

Report of the Chief of Police

December 31, 1936.

To the Honorable Mayor and City Council:

GENTLEMEN:—I hereby submit my report of the Police Department for the year 1936.

Total number of arrests,	366
Before Court,	182
Intoxication,	64
Driving under influence of liquor,	15
Driving auto without license,	7
Reckless driving,	7
Passing traffic lights,	5
Speeding,	32

BEFORE COURT,	182
POLICE PROBATION,	184
	<hr/>
Total number of arrests,	366
Applied for lodging,	514

There has been added another regular patrolman to the force, which gives the City twenty-four hour service. A telephone has been installed in the hallway of the Masonic Block, which will materially help in giving prompt service to the public on telephone calls.

I wish to call your attention to the number of calls for the Cruiser Car, three hundred and sixty-four. Part of these calls were broadcasted from Police Headquarters at Portland, for which I sincerely thank Chief Brooks.

Respectfully submitted,

EDWARD J. HERBERT,

Chief of Police.

Report of the Plumbing Inspector

To the Honorable Mayor and City Council :

GENTLEMEN:—Number of plumbing permits issued for the year 1936, 110.

The number of plumbing fixtures installed in new, remodeled and old houses are as follows :

Water closets,	141
Lavatories,	99
Bath tubs,	70
Sinks,	75
Set trays,	9
Urinals,	11
Floor drains,	14
Drinking fountains,	2
Rain leaders trapped,	2
Sinks relocated,	2
Toilets relocated,	1
Soil pipe relocated,	1

Respectfully submitted,

JOHN W. OUELLETTE,
Plumbing Inspector.

Report of the Assessors

To the Honorable Mayor and City Council:

Report of the Health Officer

WESTBROOK, MAINE, January 27, 1937.

To the Honorable Mayor and City Council of the
City of Westbrook :

I herewith submit my annual report for the year ending December 31, 1936.

Whole number of contagious diseases reported during the year were 97, classified as follows :

Scarlet Fever,	2
Chicken Pox,	4
Measles,	19
Mumps,	42
Pneumonia,	16
Tuberculosis,	4
Whooping Cough,	9
Erysipelas,	1
Total,	<u>97</u>

Complaints of unsanitary conditions were not as numerous as other years. The complaints I received were attended to at once, and attended to in the best possible manner.

I wish to thank His Honor the Mayor and members of the Council for their co-operation and courteous treatment.

Respectfully submitted,

PATRICK H. WELCH,
Health Officer.

REPORT OF THE Trustees and Regents of Memorial Library

To the Honorable Council of the City of Westbrook :

GENTLEMEN:—The Trustees and Regents of the Memorial Library beg leave to submit the following report :

The organization for the year was as follows : President, Joseph A. Warren ; Vice-President, Rev. H. E. Townsend, D. D. ; Secretary, A. A. Staples. Auditing Committee : Mayor Carroll M. Richardson, Joseph A. Warren, A. A. Staples. Purchasing Committee : Rev. H. E. Townsend, D. D., K. E. Terry.

The work of the Library for the past year is shown by the Librarian's report.

REPORT OF THE LIBRARIAN

To the Trustees and Regents of the Walker Memorial Library, of Westbrook :

GENTLEMEN:—I herewith submit the forty-third annual report of the library for the year 1936.

ACCESSIONS

Five hundred and fifty-eight books were purchased, 28 were gifts and 34 were received from the Rental Collection—a total of 620. Of this number 466 were adult and 154 juvenile, 495 fiction and 32 history and travel, 20 literature, 17 biography, 14 philosophy and social science, 19 useful arts and 23 reference literature.

The number of books withdrawn during the year was 527—the number rebound 147. The total number of books now in the library is 21,064.

REGISTRATION

Five hundred and ten applications were issued; one hundred and twelve were juvenile. This is a gain over the previous year when the number was four hundred and sixty-one.

CIRCULATION

The library has been open three hundred and five days the past year.

While we are not able to report an increase in circulation (due largely to increased employment and people turning to other forms of amusement) we are glad to note that we have made a slight gain in the circulation of non-fiction.

Fifty-seven thousand, four hundred and twenty-one books were loaned during the year. Nine thousand, nine hundred and eighty-eight books were loaned to juniors.

CIRCULATION BY CLASS

Philosophy and religion,	229
Sociology,	346
Natural science and useful arts,	712
Philosophy and history,	2,364
Music,	296
Biography and history,	2,364
Miscellaneous,	3,092
Fiction,	38,541
Juvenile,	9,988

Number of mail notices sent for overdue books was 813, and 44 calls were made to recover books.

Postals sent for books on reserve list, 650.

Johnson Small Barn, Brown St.

Respectfully submitted,

HENRY B. FRANK,
Building Inspector.

Report of the Milk Inspector

To the Honorable Mayor and City Council:

DEAR SIRs:—I submit the following report as Milk Inspector for 1936.

The inspection work, done in co-operation with Mr. Carl Titcomb, State of Maine Inspector for this section, was confined to sanitary conditions both in the production and preparation of the product for market.

In every case two copies of written suggestions were kept; one was given to the producer and the other retained by the inspector. These suggestions related to keeping the tie-up in proper condition for the best quality of milk, and a milk room built for the proper cooling and care of the milk.

Westbrook has a very high standard in quality of milk due to the fact that the dealers take pride in the care of the cows and their surroundings.

At the Dairy exhibit of samples of milk and cream at Lewiston last November, Westbrook took more money in individual prizes than all the other towns together in the State.

Citizens of Westbrook should have every confidence in the quality of milk and cream produced by the dealers in this city.

Respectfully submitted,

ROGER HASKELL,
Milk Inspector.

Report of the Superintendent of Cemeteries and Riverbank Park

To the Honorable Mayor and City Council of Westbrook :

GENTLEMEN:—The Superintendent of Woodlawn and Saccarappa Cemeteries and Riverbank Park herewith submits his annual report for the year ending December 31, 1936.

WOODLAWN CEMETERY

Bonds sold in 1936,	988.75	
	<hr/>	
Total,		\$32,092.23

VALUE OF LOTS

Ready for sale January 1, 1937,	\$12,835.00
---------------------------------	-------------

IMPROVEMENT AND DEVELOPMENT WORK

Four hundred feet of $\frac{3}{4}$ -inch water pipe was laid and a new watering place established at Highland Circle.

A new circle to be known as "Cedar Circle," containing twenty-four lots, was graded and lots made ready for seeding and fertilizing in the early spring. Value, \$3,680.00.

Four hundred feet of avenue running around Cedar Circle was graded and graveled.

MAUSOLEUM ERECTED AT WOODLAWN

The beautiful mausoleum erected during the summer by John Clark Scates in Central Circle has received many favorable comments from the public. When the large lot which Mr. Scates had graded and fertilized in October is seeded, and appropriate evergreens and shrubbery planted, it no doubt will be very attractive and add very much to the beauty of Woodlawn.

EVERGREENS SET OUT

Thirty Colorado Spruce purchased from Western Maine Nurseries were set out in different sections of the cemetery early in the spring.

GENERAL CARE

Four thousand, five hundred gallons of weed killer was sprinkled on paths early in the spring, doing away with much hand mowing.

The care of all lots in Woodlawn was carefully attended to during the summer.

All paths and avenues were kept in good condition, many sunken graves filled and monuments righted.

Cemetery Square, located at the southerly entrance to Woodlawn, was mowed regularly during the summer and a large flower bed maintained in the center was very beautiful. It would be a splendid move if we could have more of these roadside beauty spots in Westbrook.

RECOMMENDATIONS

As many lots in the cemetery are in need of fertilizing, I believe a large amount of fertilizer should be purchased for Woodlawn next year.

The brick posts at the Central Entrance are in a very bad condition. A new set should be built in the near future.

In conclusion, I wish once more to thank all lot owners for their co-operation and assistance given in my efforts to make Woodlawn more comforting and cheerful by furnishing so many bouquets and flowers at the graves of loved ones not forgotten.

SACCARAPPA CEMETERY

RECEIPTS

Appropriation,	\$100.00	
Interest on bonds,	215.65	
Depositors' Trust Co.,	65.00	
Miscellaneous supplies,	35.69	
	<hr/>	\$416.34

EXPENDITURES

Payrolls,	\$366.78	
Miscellaneous,	62.61	
	<hr/>	\$429.39
Overdrawn,		\$13.05

SAUCARAPPA CEMETERY BONDS

Bonds sold up to January 1, 1936,	\$4,272.90	
Bonds sold in 1936,	40.00	
	<hr/>	
Total,		\$4,312.90

GENERAL CARE

Saccarappa Cemetery was cleared of all leaves and rubbish early in the spring.

All lots under perpetual care were mowed regularly during the summer, many sunken graves filled, and a number of monuments righted and repaired.

The old cemetery on Conant Street was gone over and all bushes mowed and burned, also some repairs made in the fence.

The Trustees wish once more to urge owners of lots in Saccarappa Cemetery, whose lots are not provided with perpetual care, to arrange for the same. Bond for care of eight-grave lots can be bought for \$40.00. Your lot will be cared for for all time. Every lot cared for adds to the appearance of the cemetery.

We also wish to announce good burial lots can be purchased in Saccarappa Cemetery at a reasonable price.

The Trustees ask for the usual appropriation of \$100 for 1937.

RIVERBANK PARK

RECEIPTS

By appropriation,	\$100.00	
By rental of houses,	495.00	
By American Legion,	10.00	
	<hr/>	\$605.00

EXPENDITURES

Payrolls,	\$492.18	
Miscellaneous,	140.72	
	<hr/>	\$632.90
Overdrawn,		\$27.90

CHILDREN'S PLAYGROUND

The playground at Riverbank was opened at the close of the schools in June.

All playground equipment was repaired and given a coat of paint.

A larger number of children attended during the summer than ever before. Very frequently out-of-the-state cars drove in and let their children enjoy themselves after a long ride.

Special Officer Ovila Larrivee was hired by the Trustees to supervise the playground evenings, also to maintain order on the park property.

No accident was reported this year at the playground. Mr. Larrivee gave the average attendance at 285. His services as a special officer and for supervising the playground cost \$70.00, and was paid from the Riverbank Park appropriation.

IMPROVEMENT WORK

A section of the park grounds lying between the Legion Building and the rear of houses on Main Street, extending from Dunn Street to the Monument Circle, which was plowed last fall, was graded, fertilized, seeded, and thoroughly rolled. Twenty Colorado spruces, purchased at Fryeburg from the Western Maine Nurseries, were set out in the rear of the buildings on the improved land, Mr. Foster having been engaged to establish a permanent line between city and private property. We believe this to be a very valuable improvement.

GENERAL CARE

The Park was mowed regularly during the summer and the park houses kept in good repair.

The usual number of flower beds were maintained and walks and avenues kept in good condition.

DRINKING FOUNTAIN DAMAGED

We are very sorry to report the drinking fountain donated to Riverbank by the Ammonconglin Literary Club and which is appreciated greatly by the law-abiding public, has been shut down owing to repeated damages done by a portion of the younger element whose purpose is to destroy and damage property. Three times during the summer the fountain was repaired at considerable cost.

Each time the depredations were repeated, bubbler stolen, and pipe twisted off in the granite block. We were therefore obliged to shut the water off until we can have Riverbank given more attention by our Police Department.

Three times the flag rope has been stolen from the flagpole. It costs ten dollars to put up a new rope. It was replaced twice. We did not replace it the third time as we believed we would only be supplying some low-down thief with clotheslines.

RECOMMENDATIONS

The Trustees recommend and earnestly request better police protection at Riverbank at night.

We also ask for an increased appropriation for Riverbank Park in order to furnish the Mitchell house with a bathroom and a sewer pipe to enter the sewer on Main Street. The old private sewer is causing considerable trouble and should be discontinued.

We therefore recommend an appropriation of \$400.00 for Riverbank for next year.

Respectfully submitted,

E. J. LAVERTY,

Superintendent.

H. J. R. TEWKSBURY,
GEORGE K. JORDAN,
E. J. LAVERTY, } Board of Trustees.

Report of Committee on Licenses

To the Honorable Mayor and City Council :

GENTLEMEN:—The Committee on Licenses begs leave to submit the following report of licenses granted for the year 1936 :

Report of the Overseers of the Poor

To the Honorable Mayor and City Council:

We respectfully submit the following report for the year ending December 31, 1936:

The Almshouse and Farm have been under the same conscientious supervision of Mr. and Mrs. Harry B. Libby, who are tireless workers and very considerate of the inmates. The average number of inmates for the year was 20. The largest number at one time was 28. There were three deaths at the farm.

The appropriation for the Farm was \$3,000.00. The expenditures were \$9,548.40, receipts \$6,299.64. Net cost \$3,248.76.

Our outside poor, which includes State, other cities and towns, local families, Mother's Aid, all sanatorium cases, and neglected children, totaled 263 families or 1,068 people.

The appropriation for the Outside Poor was \$30,000.00. Total expenses were \$37,300.84. Receipts from State and other towns and cities were \$9,281.05. Net Cost to the City, \$28,019.79.

Respectfully submitted,

RUTH T. HILLS, Secretary.

REPORT OF Committee on Street Lights

To the Honorable Mayor and City Council:

GENTLEMEN:—Herewith is submitted the annual report of the Committee on Street Lights for the year ending December 31, 1936:

During the year forty-one (41) new 60 c. p. lights were installed and eight (8) removed, making a total of thirty-three (33) new installations. Two (2) 250 c. p. lights were changed to 60 c. p. There are now active in the City, four hundred ninety-five (495) 60 c. p. lights and seventeen (17) 250 c. p. lights.

A survey of the City was made by the courtesy of the Cumberland County Power & Light Co., and its lighting engineers compiled a thorough going report with suggestions for an improved lighting service. This report was presented to the City Council at the meeting of December, 1936, and by motion was laid on the table for the incoming Council of 1937.

Your Committee feels that careful consideration should be given to the survey made.

Respectfully submitted,

ERNEST C. ADAMS, Chairman,
WILLIAM B. BRAGDON,
DAVID DUBOIS,

Committee on Street Lights.

Report of the City Physician

To the Honorable Mayor and Members of the City Council:

GENTLEMEN:—During the year of 1936, I made 556 house calls and 590 office calls. The City was unusually free from contagious diseases.

There was the finest of co-operation with the City Health Officer and the District Nursing Association.

Considering the amount of work which the City Physician is called upon to perform, the meagre salary paid for this position is far from adequate. May I advise that attention be given this matter by your Committee of Public Health.

Respectfully submitted,

GRANVILLE C. SHIBLES, D. O.,
City Physician.

Report of the City Solicitor

WESTBROOK, MAINE, January 1, 1937.

To the Honorable Mayor and City Council :

GENTLEMEN:—This office has handled all matters turned over to it during the year 1936. The great bulk of the work has been with pauper cases, although during the latter part of the year unemployment took a turn for the better.

No cases are now pending in court, and the only one of any importance coming up during the year was the case of the Railroads before the Law Court. Most of the preparation of this case had been finished before my term, and the decision was favorable to the City of Westbrook, and saved several thousand dollars of taxable property for the City.

I have attended all meetings of the City Council, and have given advice where required.

I wish to state that all departments of the City have given the greatest of co-operation in any information needed, and I feel that all have carried on their work with the interest of the City at heart.

Very truly yours,

WADE L. BRIDGHAM,
City Solicitor.

School Board for 1936

SUB-COMMITTEES

Teachers, Instruction, Textbooks, Course of Study—
Mrs. Roberts, Mr. DeWolfe, Mr. Webber.

Superintendent, Conveyance, Rules, Regulations,
Discipline—Mr. Scates, Mrs. Roberts, Mr. Motherwell.

Janitors, Fuel, Heat, Telephones, Power and Light—
Mr. DeWolfe, Mr. Berube, Mr. Motherwell.

Physical Training, Medical Inspection, Ventilation,
Sanitary Regulations — Mrs. Roberts, Mr. Scates, Mr.
Roma.

Schoolhouses, Grounds, Supplies—Mr. Webber, Mr.
Berube, Mr. DeWolfe.

Finance, Statistics, Insurance—Mr. DeWolfe, Mr.
Webber, Mr. Scates.

Manual Training, Industrial, Evening School—Mr.
Berube, Mr. Roma, Mr. Scates.

Commercial, Home Economics, Parent-Teachers—
Mr. Motherwell, Mr. Roma, Mrs. Roberts.

Athletics, Public Exhibitions—Mr. Roma, Mr. Moth-
erwell, Mr. Berube.

CALENDAR

First Term begins September 14, 1936; ends Decem-
ber 18, 1936.

Second Term begins January 4, 1937; ends February
19, 1937.

Third Term begins March 1, 1937; ends April 16, 1937.

Fourth Term begins April 26, 1937; ends June 18, 1937.

The following holidays will be observed: Armistice Day; Thanksgiving Day and the day following; and Memorial Day.

STORM SIGNALS FOR NO SCHOOL

Eight blasts of the fire whistle at 7.15 A. M. will be the signal for no school in the High School and grades below for the forenoon.

Eight blasts at 8 A. M. will be the signal for no school in all grades below the High School for the forenoon.

Eight blasts at 12.30 P. M. will be the signal for no school in the afternoon.

When the no-school signal does not sound at 12.30, the grades and all afternoon High School classes will be in session.

REPORT OF Superintendent of Schools

To the School Board and Citizens of Westbrook:

I hereby submit my annual report of the public schools of our city. This report covers the year from January 1, 1936, to December 31, 1936.

TEACHERS

Comparatively few changes have been made in our teaching staff during the past year. Mrs. Christine P. Haley, teacher of Grades One and Two in the Valentine Street building, resigned at the close of the school year in June. Mrs. Haley was an efficient, painstaking teacher and her resignation was accepted with regret. Miss Dorothy M. Welch of Westbrook, a graduate of the Kindergarten-Primary Course of Gorham Normal School, was elected to the vacancy. Miss Welch gained her experience as a substitute teacher in the city schools and her classes in the Valentine Street building are making excellent progress.

Miss Rena Crague of Westbrook, a graduate of Gorham Normal School, is serving as substitute teacher in Grade Five of Bridge Street School in place of Miss Catherine L. Brann, who was granted a leave of absence for an additional year because of continued illness. Miss Crague did her practice teaching while at the Normal School in the intermediate grades, and the children now under her instruction are making commendable progress.

Mrs. Celeste L. Cole, teacher of French and English in the High School since 1928, resigned at the close of the school year to retire from teaching. Mrs. Cole was an outstanding teacher, keenly interested in the advancement of her pupils, and her resignation was a distinct loss.

to the school. Miss Frances E. Stevens of Auburn, a graduate of Bates College, class of 1932, was elected to succeed Mrs. Cole. Miss Stevens came to Westbrook after three successful years at Hartland Academy as teacher of French and Latin and coach of girls' basketball.

Arrangement of the teaching schedule and extra-curricular activities in the High School this year has made it possible for Mr. Jordan, submaster, to take over the coaching of baseball in the grammar schools instead of girls' basketball at the High School, a change he has desired for several years. Miss Stevens, who enjoyed excellent success with her teams at Hartland Academy, succeeds Mr. Jordan as coach of girls' basketball.

Miss Ruby T. Haskell of Smyrna Mills, teacher of Grades Six and Seven in the Forest Street School, was granted a year's leave of absence at the beginning of the fall term in order that she might remain at home with her mother who was then seriously ill. The work in Miss Haskell's room is being carried on very successfully by Mrs. Lydia M. Berryment of Westbrook, a former teacher in the city schools.

Mr. Milton H. Nelson of Cumberland Mills, a graduate of Gorham Normal School and Boston University, was elected teacher of the Seventh Grade and principal of the two grade rooms established in the High School building to relieve in part the congestion which has existed in the Bridge Street School for the past few years. The pupils in these rooms, thirty-two from Grade Six and thirty-five from Grade Seven, were selected from children living between Dunn and Central Streets, inclusive, taking in all cross streets. This arrangement made possible the closing of the small overflow room, caring for only fifteen pupils in the Bridge Street building, and the transferring of the teacher, Miss Dorothy M. Shaw, to the Sixth Grade room in the High School.

Perhaps the most serious objection to the schooling of grade children in the High School building is the lack

of a suitable playground. This we hope to overcome by developing through a W. P. A. project the field at the rear of the Industrial School into a playground for both the Grade and High School students. A survey made by the city engineer shows that the lot will accommodate a softball diamond, an eighth of a mile cinder track, a hundred-yard course, and other outdoor athletic activities. The expense to the city in this project will be small.

To keep the teacher ratio for the coming year on an approved basis, it was found necessary to elect an additional member to the High School faculty. This relieves Principal Philbrook of some of his teaching duties and allows him to devote more time to general supervision. The addition to the faculty also gives an opportunity to have more than one coach for major sports, a plan which has come into general use among the high schools in this section of the state.

It was thought advisable, because of our increased facilities for physical training, to select a candidate who could qualify as a physical director in the event the School Board should decide to re-establish a Physical Education Course in the Westbrook Schools.

From the list of candidates, the Board elected Mr. Harold E. Crozier, a graduate of the University of Maine, who at the time of his election was serving his second year as teacher-coach at Biddeford High School. Mr. Crozier, who will coach baseball in addition to his teaching duties, came to us highly recommended, having taught and coached successfully in the high schools of Lubec and Madison, as well as Biddeford.

Mr. Charles A. Warren of Brunswick, teacher of instrumental music in the city schools for the past year, resigned during the summer. Mr. Warren's work will be carried on during the year by our regular supervisor, Miss Lorraine H. Lombard.

ENROLLMENT AND TEACHING CONDITIONS

Enrollment in the Grade Schools is 1,305, 66 less than last year. In the High School we have registered

528 as compared with 473 last year. This makes a net loss of eleven pupils from our 1935 enrollment figures. The following table shows the registration in the elementary schools of the City for the fall terms of 1935 and 1936:

TABLE OF REGISTRATION FOR FALL TERMS OF
1935 AND 1936

School	1935	1936	Gain	Loss

Valentine Street,	148	142		6
Warren,	101	108	7	
Totals,	1,371	1,305	81	147
Net loss,				66

The new annex to the High School building which includes a combined auditorium and gymnasium and eight additional classrooms with the improvements made in the halls and basement of the old building have greatly increased our facilities for classroom and extra-curricular activities. It has enabled us for the first time in the history of the school to house all of its activities under one roof with adequate facilities for music, dramatics, public speaking, physical education, and such other activities as go into the building of a modern high school curriculum.

Increased enrollment in the school prevented us, even with an added teacher on the High School staff, from decreasing to any extent the teaching load, but it has been possible because of the added room to make a more advantageous grouping of some of the departments, to cut down congestion in the halls and thus lessen the time

of passing from one room to another, and to remove almost entirely the fire hazard which existed in the old building.

The enlarged building has enabled us to relieve to a considerable extent the congestion in the Bridge Street building. The rooms taught by Mrs. Marston and Mrs. Page are still too crowded to secure the best results, and it may be necessary another year to use the only large room remaining in the remodeled High School plant to relieve this condition.

The hallway and approaches leading to the Home Economics room, as well as the room itself, were greatly improved in the remodeling of the old building. The centralized heating plant installed under the stage of the new annex, which heats the Industrial building and the remodeled High School plant, made it possible for the Building Commission to do away entirely with the boilers in the basement of the old building and this space has been converted into shower and locker rooms for both the boys and the girls.

Through the courtesy and friendliness of the Westbrook Gas Company and the Cumberland County Power and Light Company, new and up-to-date equipment for cooking and refrigeration has been supplied and installed without expense to the Home Economics Department. Students taking this course now have the opportunity of using modern gas and electric ranges and becoming familiar with both types of refrigeration.

The High School registration of 528 pupils is the largest in the history of the school. The enrollment in the different courses maintains about the same ratio as last year, the Commercial having as many students as the College and Industrial groups combined. The purchase of five additional typewriters for the Commercial Department at the opening of the fall term has enabled us to care for the increase in numbers and continue the plan of allowing all Juniors two periods of typewriting a day as in the past.

More and more each year we are endeavoring to fit our school work to the needs of the individual student. This year we have introduced a course in General Mathematics for those students who would not benefit greatly by the traditional high school course which was intended mainly to fit for college. Next year we shall begin the introduction of World History to take the place of Ancient History, a step which we have had under consideration for the last two or three years.

Westbrook High School, as I stated last year, enjoys the privilege of being on the approved list of the New England College Entrance Board. This association includes Amherst, Bates, Boston University, Bowdoin, Colby, Massachusetts Agricultural College, Wesleyan, Middlebury, Tufts, and Williams. Dartmouth College and Worcester Polytechnic Institute also grant certification privileges.

ATTENDANCE

Attendance data of general interest covering a period of several years is listed below.

Per cent of attendance for all elementary schools in 1929-30,	83.97
Per cent of attendance for all elementary schools in 1930-31,	92.56
Per cent of attendance for all elementary schools in 1931-32,	84.32
Per cent of attendance for all elementary schools in 1932-33,	85.51
Per cent of attendance for all elementary schools in 1933-34,	86.22
Per cent of attendance for all elementary schools in 1934-35,	88.02
Per cent of attendance for all elementary schools in 1935-36,	87.71

VOCATIONAL COURSE IN HOME ECONOMICS

The time has come when we should give very serious consideration, indeed, to the establishing of a vocational course in Home Economics for our High School girls. The need of such a course has existed for a long time, but the lack of room in the old building made any expansion in our work practically impossible. This condition has to a considerable extent been remedied by the building of the new annex. The only change necessary in the room that we are now using would be to erect a partition between the foods and clothing sections so that each teacher might be by herself with her classes. Our present equipment would, I feel certain, with a few minor changes and additions, be sufficient for our needs. Textbooks would have to be supplied but their purchase would not entail a large expense.

The major cost then to the City would be the salary of a vocational teacher. This would be cared for in a large measure by state and federal aid if the teacher, the course offered, and the working conditions and equipment met with their requirements.

For example:— If we were paying a salary of \$1,200.00 for an experienced teacher, our reimbursement would be \$800.00. If the salary were \$1,500.00, reimbursement would be \$1,000.00. Thus the cost to the City would be only between \$400.00 and \$500.00 aside from our additional equipment needs. This is certainly not a large sum to pay for the advantages of such a course.

REPAIRS

REPAIRS MADE DURING THE YEAR 1936

Bridge Street,	\$ 265.19
Brown Street,	777.02
Forest Street,	269.95
High School,	686.46
Highland Lake,	22.91
Pride's Corner,	33.74
Rocky Hill,	509.92
Saco Street,	29.75
Valentine Street,	37.50
Warren,	264.46
Miscellaneous,	78.55
	<hr/>
Total,	\$2,975.45

The repairs on the different buildings were as follows:

Bridge Street—Heating and plumbing, \$135.85; repairing walks, \$17.85; waterproofing cement, \$82.50; painting and repairing flagpole, \$15.00; miscellaneous, \$13.99.

Brown Street—Weatherstripping, \$175.00; remodeling heating system, \$468.71; new doors and repairing floor, \$90.11; painting and repairing flagpole, \$25.00; repairing clock, \$1.50; repairing victrola, \$2.95; miscellaneous, \$13.75.

Forest Street — Sewer, \$65.68; new platform, \$62.44; fence, \$9.20; work on lawn, \$7.38; waterproofing basement walls, \$104.35; heating and plumbing, \$7.10; miscellaneous, \$13.80.

High School — Re-roofing Industrial Building, \$280.00; additional fire extinguishers, \$75.00; heating and plumbing, \$56.45; coat racks, \$4.40; cleaning walls and woodwork, \$98.00; locks, keys and door checks, \$52.98; varnishing Home Economics linoleum, \$6.15; building shelves for storeroom, \$33.14; signs on doors, \$8.50; rubber hose, \$26.25; electrical, \$4.60; miscellaneous, \$40.99.

Highland Lake—Stove pipe, \$15.66; miscellaneous, \$7.25.

Pride's Corner—Heating and plumbing, \$7.15; fence, \$25.36; miscellaneous, \$1.23.

Rocky Hill—Shingling roof, \$443.00; repairing and tuning piano, \$8.00; heating and plumbing, \$9.83; painting flagpole, \$15.00; electrical, \$20.26; repairing victrola, \$4.50; miscellaneous, \$9.33.

Saco Street—Repairing floor and roof, \$12.51; heating and plumbing, \$14.24; repairing victrola, \$3.00.

Valentine Street—Locks, \$15.40; heating and plumbing, \$15.20; tuning piano, \$3.00; repairing victrola, \$2.35; miscellaneous, \$1.55.

Warren—New steel ceiling, \$228.60; repairing victrola, \$3.00; plumbing, \$16.55; repairing steps, \$4.32;

electrical, \$4.58; repairing roof, \$3.10; miscellaneous, \$4.31.

Miscellaneous — Checking and repairing scales, \$18.20; trucking and moving, \$58.85; miscellaneous, \$1.50.

WELFARE WORK

The Lions Club, in addition to furnishing glasses for several underprivileged children in the schools, has supplied again this year a thousand of their Good Will Book Covers for teaching safety.

We are indebted to the Ammonconglin Literary Club for the audiometer used by the school nurse in testing the children during the fall term for defective hearing.

CLOSING

The past year has been a pleasant and profitable one in our schools. The teachers have labored hard to make the year an outstanding one in the educational history of the City, and I feel that their efforts have been crowned with a large measure of success. The new High School annex, with its added facilities for classroom and extra-curricular activities, has made it possible for us to offer the students of the school a much more attractive program than in former years.

The pupils in the Industrial Department, under the supervision of their teachers, were especially helpful during the fall term in caring for many of the minor changes and repairs incidental to the occupancy of the remodeled High School building. Perhaps their most outstanding contribution, however, to the new school plant was the construction of the bleachers, capable of seating six hundred spectators, which they built for the new auditorium during the latter part of the fall term.

Character building, the making of men and women, is still the greatest task of the school. We must think in terms of tomorrow and not of yesterday if we are to train the present generation to meet the problems of the future. We must seek to extend our educational program through

an enlarged curriculum to meet the needs of youth both in and out of school. We must continue to emphasize the close relationship between education and the preservation of our democracy that the schools may render the maximum of service to childhood.

Your attention is called to the reports of the principal of the High School, the supervisors and special teachers, and the school nurse.

In closing, may I take this opportunity to thank you — the members of the School Committee, for your valuable counsel and assistance; the citizens and members of the City Government, for the provisions made for the support of the schools; and the teachers, whose interest and coöperation have had so much to do with the success of the schools during the past year.

Respectfully submitted,

GUY V. SINCLAIR,

Superintendent of Schools.

Instructions to Teachers in Regard to Contagious Diseases

Teachers should exercise the greatest care in the treatment of all contagious diseases. If the teacher has the slightest suspicion that any case of contagious disease has been attending school and associating with other scholars, she should immediately notify the Superintendent of Schools and the Secretary of the Board of Health, in order that the room and its contents may be disinfected with all dispatch and all necessary precautions taken to prevent the spread of said disease.

School Laws of Maine, Section 53:

“When a teacher becomes aware or suspects that any of the pupils attending his school are in a condition which renders them a source of offence or danger to the other pupils in school on account of filthiness, or because they are bearers of vermin or parasites, or have an infectious or contagious disease of the skin, mouth or eyes, he shall notify the superintendent of schools. When a superintendent of schools knows or learns that any of the pupils attending any school within his jurisdiction are affected with any of the conditions, infections, or diseases herein mentioned, he shall notify the parents to cleanse the clothing and the bodies of the children and to furnish them with the required home or medical treatment for the relief of their trouble, and he may, when he deems it necessary, exclude such children from the schools temporarily or until they may be cured, cleansed or disinfected.”

School Laws of Maine, Section 54:

“Parents thus notified of the condition of their children shall forthwith have them and their clothing cleansed and shall promptly do what is necessary, or furnish them such medical treatment as may be required, to rid the children of vermin, parasite, or contagion; any parent who fails to do what is required so that the children may return to school with as little loss of time as is possible, shall be punished by a fine not to exceed five dollars for the first offence, and not to exceed ten dollars for a second or subsequent offence.”

Report of Principal of High School

To MR. GUY V. SINCLAIR, Superintendent of Schools,
Westbrook, Maine:

To you and the School Board of Westbrook, Maine, I present my annual report for the year 1936 just ended.

Probably today more than ever before, we find the problem of leisure time a very serious one. In the same manner the High School enrollment is a problem when taken as a whole, since a part of the pupils do not come to school for what schools are designed, nor because they are interested in school work, but to keep themselves out of idleness when they are unable to find employment. We have that same situation in our own school to a certain extent; however, we have endeavored to broaden our courses to include as many different types of pupils as possible. In our school this past year our enrollment has increased a total of 55 pupils, making 528, while last year we had 473 registered, which was a record to that time.

The total registration to the end of the fall term, December 18, 1936: College, 119; Commercial, 246; Industrial, 123; General, 40; total, 528. Classification as to classes:

Classes	Boys	Girls	Total
Post Graduate,	4	2	6
Seniors,	45	30	75
Juniors,	59	52	111
Sophomores,	78	67	145
Freshmen,	97	94	191
	<hr/>	<hr/>	<hr/>
Totals,	283	245	528

CLASSIFICATION AS TO COURSES

Courses	College	Commercial	Industrial	General	Total
Seniors,	19	24	17	15	75
Juniors,	30	51	19	11	111
Sophomores,	28	70	33	14	145
Freshmen,	38	99	54		191
Post Graduates,	4	2			6
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
Totals,	119	246	123	40	528

The annex, which was under construction when I was writing my report last year, is now a reality, and with additional room and advantages gained by it, every person in Westbrook, whether in school or out, can readily sense the keen interest and enthusiasm.

The Commercial Department, which was handicapped greatly because of increased enrollment in that course, now has sufficient room in which to work, and with the additional typewriters we can still maintain our strong, efficient department. This department occupies three of the eight new rooms. Three other rooms are used for English classes, one for French, and one for History courses.

The beautiful combined auditorium and gymnasium with fine lighting effects is fulfilling a real need which Westbrook High School pupils have been denied for a long time.

Now it is possible for excellent assemblies to be held and each pupil, teacher and guest to occupy a separate seat, something unknown here for many years.

A fire-proof motion picture booth has been constructed so that when pictures are available we may take advantage of the equipment. We have a picture machine but it lacks adequate power for so great a distance. Our spotlight purchased by one of the clubs within the school is suitable, however.

The lockers, showers and other new equipment will be covered in the report of the Superintendent.

When starting our school this September, we had three changes in our faculty. Mrs. Celeste Cole, who had been with us for several years teaching French and English, resigned and her position has been ably filled by Miss Frances Stevens, a graduate of Bates College in 1932 and with three years of teaching experience at Hartland Academy. Miss Stevens is doing very fine work with her classes, and is also coaching girls' basketball. Last spring, when obtaining advance data from the grades on pupils entering in the fall, it was learned that another teacher

must be obtained to care for the increase in registration. Mr. Harold Crozier, a graduate of the University of Maine in 1927, was obtained as the additional teacher and to coach baseball. Mr. Crozier had eight years of teaching experience before coming with us, three years at Lubec, three years at Madison and two at Biddeford. Mr. Crozier is doing very well with his scholastic work and of course we are looking forward with anticipation to what he will develop for a baseball team next spring. Miss Elinor Chick, who was hired as assistant last year, accepted a position as regular teacher in the Gorham schools, and we were fortunate in securing Miss Arline Anderson to fill the vacancy. Miss Anderson completed two years at the University of Maine and two years at Northeastern Business College. Her work is very satisfactory.

The present faculty and subjects taught are listed below:

WESTBROOK HIGH SCHOOL FACULTY AND SUBJECTS TAUGHT

Milton A. Philbrook, Principal—Physics and Mathematics.

Clifford R. Jordan, Submaster—Chemistry, General Science and Mathematics.

G. Lawrence Gates, Director of Athletics—Civics and Physical Geography.

Harold Crozier—Mathematics, Science and Athletics.

Austin A. Alden, Head of Industrial Department—Mechanical Drawing and Shop.

Frances H. Wight—English and Public Speaking.

Nan S. Hatch—English and Dramatics.

Marion Chick—English and Commerce and Industry.

Frances Stevens—English, French and Girls' Basketball.

Pauline Abbott—History and Civics.

Elizabeth Whittier—Latin, French and Science.

Harriett Adams—Latin, English and Mathematics.

Rachael Matthews—Mathematics.

Mabel J. Davis—Commercial Subjects.
 Helen J. Winton—Commercial Subjects.
 Eva H. Dodd—Commercial Subjects.
 Charles Boyce—Shop Work.
 Joseph Given—Manual Training.
 Ansel B. Sterling—Penmanship and Art.
 Mary Byrne—Home Economics, Foods and Clothing.
 Lorraine Lombard—Music.
 Jane O'Sullivan—School Nurse.

Westbrook High School continues to remain upon the approved list of the New England College Entrance Board, which association includes Amherst College, Bates College, Colby College, Brown University, Middlebury College, Tufts College, Wesleyan University, and Williams College. This renewal privilege is until December 31, 1937. We have already filed our application for another four years.

Our school also enjoys the privilege of being on the list of schools approved by Dartmouth College and Worcester Polytechnical Institute for certification privileges. The renewal certificate for the latter has been received again this fall for another three-year period.

Students may enter any of the above-mentioned institutions upon presentation of a certificate from the Principal showing that an average grade of 85% has been attained in the subjects necessary for entrance.

Of course we have many pupils who graduate each year with passing grade of 70% or more in the college and other courses who could not enter these institutions, but who have obtained positions and continued to do well for their employers.

GRADUATING EXERCISES OF THE CLASS OF 1936 OF WESTBROOK HIGH SCHOOL

American Legion Home
 Friday Afternoon, June the twelfth
 At two-fifteen, Daylight Saving Time
Class Colors—Navy Blue and Pale Blue
Class Motto—"Facta non verba"
 "Deeds not words"

ORDER OF EXERCISES

Theme: Conservation and Preservation

March

Scripture Reading—Job XX: 1-28,	Oden T. Naylor, Jr.
Salutatory—Human Lives,	Raymond A. Turgeon
Essay—Bird Life,	Dorothy Kenderdine
Essay—Our Forests,	Richard Foye Libby
Music—“Trees,”	Martha Louise Knight
Essay—The Soil,	Evelyn M. Hansen
Music—High School Orchestra	
Honor Essay—A Literary Pilgrimage,	Frances E. Knight
Music—“Home Land of Maine,”	Glee Club
Essay—Magic and Medicine,	Grayson B. Tewksbury
Essay—Our Artists and Musicians,	Anna Elizabeth Verrill
Music—“O Susanna,”	Glee Club
Valedictory—American Ideals,	Katherine L. Sullivan
Music—“Class Song at Parting,”	Glee Club
Announcements,	Thomas Stanley Hey

Ada McClure	Barbara Turner
Bernice McFarland	Barbara Waning
Muriel Merrill	Virginia Whalen

PRESENT COURSE OF STUDY

The course of study with the necessary statements and comments follows. Prepared subjects are taken five periods each week and count two points toward graduation unless otherwise indicated. The school day is divided into six periods forty-five minutes in length, beginning at eight o'clock and ending at one o'clock. Afternoon sessions for make-up work and additional help are from 2.30 to 4.30 P. M.

The passing grade is 70; certificate grade is 85.

FRESHMAN ENGLISH

The first-year English consists of a study of the four kinds of composition, particular stress being laid on narration. Special attention is given to the parts of speech and to word study.

At least four of the following books are read and studied: "Julius Cæsar," "Ivanhoe," "Old Testament Narratives," "As You Like It," and "Treasure Island."

Stress is placed upon Oral Composition, which helps the student a great deal. Students are required to read and report on three or four works of standard authors. The purpose of the study of the classics is to make students familiar with the best English authors and to interest them in worthwhile books. The book, "Literature and Life," is used as a text.

SOPHOMORE ENGLISH

Sophomore English lays emphasis on the rhetorical and grammatical structure of the composition, the paragraph, and the sentence. It also stresses the correct and effective use of words. A brief review is given of narration, exposition, and argumentation. Description is given detailed study. The textbook used is "Tanner's Correct English." At least four of the following books are used for class work: "The Ancient Mariner," "Silas Marner," "The Merchant of Venice," "Literature and Life Book II," and "Types of Short Stories."

In addition students are required to read and report on from four to six works of standard authors.

JUNIOR ENGLISH

The course in Junior English is divided into three parts: The History of English Literature, a study of required classics, and a course in composition and rhetoric.

The text used is Pace's "History of English Literature." The books studied are the "Idylls of the King," "Macbeth," "The DeCoverly Papers," "Tale of Two Cities," and "Familiar Essays of Today." "Literature and Life Book III" is also studied and "History of American Literature."

The texts used in composition are Tanner's "Composition and Rhetoric." The prose forms of composition are reviewed and special attention is given to exposition. Oral English is also stressed.

SENIOR ENGLISH

The last year of English consists of a study of American Literature, current books and authors, required classics, compositions, and rhetoric.

The text used is Boynton's "American Literature"; the classics studied are "Hamlet," Milton's "Minor Poems," "Washington's Farewell Address," "Emerson's Essays," Macaulay's "Life of Johnson," "Contemporary Verse," "House of Seven Gables," "Burke's Speech," "Lorna Doone," "Literature and Life Book IV." Ward's "Sentence and Theme" is used in composition work. The forms of composition are again reviewed and the subject of argumentation is especially stressed. Frequent written themes of varying length are required throughout each year in the course. Oral English is stressed.

The work in English is so arranged that students taking the Commercial Course are placed in separate divisions and during the last two years of school are given work from Hotchkiss and Drew's Business English instead of the usual composition work required of college preparatory students.

The aim of the English courses is to meet satisfactorily in all particulars the college entrance requirements.

MATHEMATICS

Beginners' Algebra. This course is designed for beginners in Algebra. It comprises the study of the processes of addition, subtraction, multiplication and division, parenthesis, simple equation, factoring, treating in seven cases, fractions, equations, involving fractions, simultaneous linear equations solved by graph and computation, radicals, and simple quadratics. This course lays the foundation for the problems of Plane Geometry and the advanced courses in Mathematics for Juniors and Seniors. The text in use is "First-Year Algebra," by Edgerton & Carpenter, also "General Mathematics" for Industrial pupils.

Advanced Algebra. This course is a continuation of beginners' Algebra. It includes a review of all the processes studied during the first year. The study of quadratics is extended to include the graphic, factoring, completing the square, and formula methods. Following these are advanced topics in factoring, imaginary quantities, theory of exponents, radicals, homogeneous equations, ratio and proportion, the binomial theorem and slide rule. The extent of the course is based upon the requirements of the College Entrance Board as published in their annual bulletin. The text used is Wells and Hart, "Second Course in Algebra."

Plane Geometry. A course especially designed for Sophomores registered in the college preparatory course. The work is based upon the requirements of the College Entrance Board as published in the annual bulletin. Particular emphasis is given to the starred propositions of the College Entrance Board list. A large number of exercises and original demonstrations are required. The derivation and application of formulæ for area receive especial attention during the second semester. The text used is Wentworth and Smith's "Plane Geometry," of which the five books are covered.

Review Mathematics. A review of Plane Geometry and Algebra is given to Seniors in their second semester when a sufficient number signify their intention of taking college entrance examinations in Mathematics.

Solid Geometry and Trigonometry. These subjects are offered for a half year whenever a sufficient number elect them to make it worth while to form a class. The work covered is what is found in any good text, like Wentworth's or Wells'.

Commercial Arithmetic. The course in Arithmetic covers one year's work of five recitations per week. The aim is to teach the Arithmetic needed by the business man. Emphasis is put on the four fundamental principles and an endeavor is made to develop accuracy and speed. The following subjects are taught: Common Fractions,

Aliquot Parts, Pay Rolls, Percentage, Interest, Discount, Commission, and Profit and Loss. Commercial Arithmetic is required of all Freshmen taking the Commercial Course.

Industrial Mathematics. This course is designed especially for the Senior students in the Industrial Course and deals with the figuring of gear ratios and practical problems involved in machine design and mechanics.

SCIENCE

College Chemistry. This course alternates with College Physics and is given every other year to members of the Junior and Senior classes who are taking college preparatory work. The time is divided between laboratory and classroom so as to comply with college requirements, and the work taken is that found in any good textbook designed for college preparation. The book in use now is Black and Conant's "Practical Chemistry." The fundamental laws, theories, principles, and processes of Chemistry are covered, together with the occurrence, preparation, properties and uses of the more common elements and compounds. Facility in writing chemical reactions is developed and numerous problems based upon these are done. A notebook is kept in which 50 or 60 experiments approved by the College Entrance Board are recorded.

General Chemistry. This course is open to Juniors and Seniors and is required of all Juniors in the Industrial Course. It is a study of the laws, theories, principles, and processes of Chemistry and the occurrence, preparation, properties, and uses of the more common elements and compounds. This is not a laboratory course, although enough time is spent in the laboratory to acquaint each member of the class with the setting up and use of ordinary apparatus. This is not designed to meet the college entrance requirements.

General Science. An optional subject for Freshmen intended to stimulate more thinking about the science of

common things and to provide a foundation for the further study of Science. It consists of textbook work in conjunction with frequent table and laboratory demonstrations. About twenty subjects are briefly taken up, some of which are heat, electricity, light, sound, simple machines, the weather, plants, the human body, sanitation, animals, rocks and soil, astronomy, etc. The text used is "Problem in General Science."

College Preparatory Physics. This is a one-year subject open to Juniors and Seniors in the college preparatory department. The course is particularly concerned with laws and problems relating to mechanics, heat, light, sound and electricity. Numerous commercial applications of the science are also studied. Textbook work and laboratory work are arranged to comply with the college entrance requirements. Considerable attention is given to the mathematics of the science and a suitable notebook is kept in which are recorded 45 to 50 experiments. The text used is Henderson's "Physics with Application." The manual is "Laboratory Exercises in Physics" by Brownlee and others.

Industrial Science. As this course is particularly planned for students in the Industrial Department, it is chiefly concerned with a study of the physics of mechanics. It is not a laboratory course and does not aim at college preparation. It is especially concerned with the industrial applications of the science.

Physical Geography. This subject deals with the earth, air, and water; the physical features of the earth and the influence on man. The study of earth formation, climates, ocean currents, minerals and fuels tends to bring the boys and girls in closer touch with nature. This science was introduced into the course of study because some colleges would not grant credit for general science. The textbook used is Tarr and Von Englen's "New Physical Geography."

HISTORY AND GOVERNMENT

Freshman Ancient History. The History Course open to Freshmen is that of Ancient History. The text used is "Ancient Peoples," written by W. C. Morey. This covers the history of the Oriental peoples, the Egyptians, Babylonians, Assyrians, Phoenicians, and Hebrews; the history of the Greeks and history of the Romans. The whole period from about 1000 B. C. to about 1000 A. D. is studied. In this course we review the various phases of national life among the ancient peoples and also trace the growth of civilization. A notebook is kept by each student. Map work and outside reading are also required.

Government. For Sophomores and Juniors this year a course is being given of Government, using as a text Ashley's "The New Civics," with supplementary reference books. Federal, state, and local government, and the fundamentals of citizenship are given careful study.

English History. English History is open to Juniors and the text used is Edward P. Cheyney's "A Short History of England," which covers the development of the English nation from about 55 B. C. up to the present time. More emphasis is laid upon great movements and great men than upon detached episodes and striking occurrences. Special reports based on outside reading are required and notebooks are kept.

In the Freshman, Sophomore and Junior History classes one period per week is devoted to the study of the *Literary Digest* and current history.

American History. This course is open to Seniors. It is a study of American History from the discovery to the present time. Particular attention is given to the political aspects of our history with a view to developing a knowledge of and an interest in our democratic institutions and forms of government. Our military and naval history, our geographical expansion, our constitutional history, and social and economic features are also included. The text in use is Muzzey's "American History."

LATIN

First-Year Latin. In the first year of Latin we attempt to teach the fundamentals and forms of Latin, and develop a vocabulary. The text in use is Smyth's "Elementary Latin."

Second-Year Latin. The work of this year consists in reading four books of "Cæsar's Gallic War" and "Selections from the Lives of Nepos." One period each week is devoted to "Latin Composition" by Allen and Phillips.

Third-Year Latin. The third-year class reads the "Orations Against Catiline," "Manilian Law," "Archias," and "Selections from Ovid." Latin composition is given one day each week. The text are Dunnison and Harley's "Cicero," Kelsey's "Ovid" and "Latin Grammar" by Harkness.

Fourth-Year Latin. In the fourth year the class reads Virgil's "Æneid." A portion of the time is spent in reviewing and in composition work.

FRENCH

Beginners' French. The first year of French comprises a study of grammar, translation of easy sentences from English to French, writing French from dictation, memorizing poems, translation from French to English. Special attention is given to the difficulties of pronunciation.

Second-Year French. Second-year French is a continuation of grammar, devoting special attention to subjunctives, infinitives, irregular verbs and idioms, translation and writing French from dictation. Translation is assigned three periods a week, and grammar two periods.

Third-Year French. Third-year French consists of translation, constant practice in French paraphrases, free composition in the form of letters and brief descriptions. In connection with this year's work, the geography, political organization of France and familiarity with the great figures and movements of its history are touched upon. Stress is laid on conversation in French.

As French is an important subject in college preparation, this course is arranged to meet the college entrance requirements. The books in use are all improved texts. The schedule is arranged so that French may be begun the Sophomore year. Like Latin, it must be continued at least two years unless permission is given to drop it.

COMMERCIAL

Bookkeeping. This course is designed to teach the principles underlying all bookkeeping, and as many different applications of those principles as possible. The aim is to make pupils familiar with business vouchers, with books of record and entries made in them, and to develop the power of independent, logical thinking in analyzing business transactions and situations. The work progresses from the single proprietorship through partnerships to corporations. The course covers three years, the Sophomore, Junior and Senior. The fundamental principles are taught the first year, and for that reason one year of bookkeeping is required of all pupils in the Commercial Department. The student learns first the simple forms of financial statements, and the use of the general journal and ledger. Then the special journals, purchases, sales and cash are introduced. Some of the business vouchers and forms, adjusting and closing entries, depreciation and partnership, are studied the first year. The work of the Junior and Senior years is elective. It consists of varied applications of the principles learned the first year, to different types of business. The usual, as well as some of the more unusual, business vouchers and accounts are introduced, together with additional ledgers, leading to more complicated forms of statements.

Commerce and Industry. This course is required of all Sophomores in the Commercial Department and Industrial Department. A study of natural products, agriculture, animal and mineral matter, of manufacturing processes, of transportation, exports and imports. The emphasis is laid upon the products, industries and commerce of our own country. One period a week is devoted

to current events, based upon "World News," "Looseleaf Current Topics," "Current Events," together with newspapers and magazines.

Office Practice. This course is an elective open to Seniors. It is designed to familiarize the student with office procedure and office machines and appliances. One period a week is devoted to the study of such subjects as handling incoming and outgoing mail, telephoning, sending telegrams, and filing, which is made concrete by actual filing in a Yawman and Erbe filing cabinet illustrative of the various systems. The student has access to office reference books, such as the "Thesaurus," "World Almanac," "Maine Register," "Who's Who," "City and Telephone Directory," and learns how to use them. In addition to this, each pupil spends from three to five periods a week in practice on office machines. Those available are the Dalton adding and calculating machine, the comptometer, the Burroughs calculator, the slide rule, the Monroe calculating machine, the Elliott-Fisher billing machine, the dictaphone and the rotary neostyle.

Typewriting. This is offered the Junior and Senior years. It is required of all Juniors who take the Commercial Course. The Senior year it is optional but should be taken if stenography is taken. During the first year the keyboard is thoroughly learned by the touch method. The chief emphasis is laid upon accuracy.

Advanced Typewriting. The second year the emphasis upon accuracy is continued and speed developed. Practice in letter writing, transcribing shorthand notes, tabulating and billing is given. The monthly tests sent out by the various typewriting companies are given and awards made when won by the pupils.

Stenography. Beginners' Shorthand is designed to give the pupils a thorough grounding in the fundamentals of the Gregg shorthand method. Emphasis is placed upon accuracy of outline, mastery of word-signs, and word building. Practice in dictation is given in the latter part of the year. This course is elective for Juniors in the Commercial or General Courses.

Advanced Stenography. Advanced Stenography is a continuation of the previous year's work. The shorthand manual is reviewed. Special attention is given to the development of speed and accuracy through dictation of various matter, such as drill, business letters, literary articles, court testimony, for the purpose of developing a shorthand vocabulary.

INDUSTRIAL

MECHANICAL DRAWING

First year of drawing takes up lettering, geometrical constructions, standard lines and sections, shading, orthographic projections, blue-print reading. Two periods weekly.

Second-Year Mechanical Drawing takes up projections, intersections and developments. At least three periods weekly.

Third-Year Mechanical Drawing consists of practice in detail and assembly drawings of bolt threads and gears, making of blue-prints. Five periods weekly.

The Fourth-Year work consists of drafting, machine design, mechanic's architectural drawing, practice in use of slide rule.

SHOP

Freshman Shop is devoted to sheet metal work, forging, plumbing, general woodwork, and repair work. Four periods per week are allotted to Freshman Shop. This is done during the regular forenoon session. An afternoon session for Manual Training is also held. The length of this period is two hours. The class is divided into four sections and each section meets once a week.

Sophomore Shop. The work of this year takes up lathe and bench work. Screws, planes, screw threads, cones, paper weights, etc., are made. The time available for this work is two hours and forty minutes for the two divisions.

Junior Shop. This includes general machine shop practice, making of jacks, hammers, clamps, etc. Work

is also done in the pattern shop in the construction of wooden patterns, core boxes, cores, molds, etc. This is all afternoon work and occupies time equivalent to nineteen regular periods.

Senior Shop. The amount of time is the same as the preceding year; part of it, however, is forenoon work. The work consists of general machine construction, tool making, forging and tempering.

PUBLIC SPEAKING

The aim of this course is to develop power in the use of the spoken language. It is compulsory for all those whose regular schedule of work permits it to be taken.

The elementary part of the course includes a study of the vocal mechanism and the breath processes in relation to voice; drill in pronunciation and articulation; correction of faults in voice production and in speech; practice in reading and speaking before the class. Classes are held a single period for three periods each week.

The more advanced work covers a wider range of practice in voice culture and expression. Parliamentary procedure, debate, extemporaneous speaking and dramatic interpretation are stressed. The members of the public speaking class compete annually in the American Legion prize speaking contest held under the auspices of the Stephen W. Manchester Post of this city. This subject gives a one-point credit.

MUSIC

High School chorus meets for an hour each week.

High School orchestra meets once each week for an hour and a half.

A class in the fundamentals of music meets once a week for forty minutes of prepared work.

Credit allowed in music is one-half point for each of the above courses. A pupil who desires may take all three offered, but the credit allowed cannot be in excess of one point per year.

ART AND PENMANSHIP

Penmanship. This course is offered once each week. It is required of all Commercial students and elective for the remainder of the pupils. One-half point credit is given.

Art. Any pupil may elect this course which is offered once a week for a period of one hour. The history and appreciation of art is taught, as well as art designing. One-half point credit is allowed.

DOMESTIC SCIENCE

Clothing. This course is offered to Freshman and Sophomore girls. The time allotted to it is 105 minutes weekly. The class is limited to 18 girls. One-half point credit is given.

Foods. This course is for Junior and Senior girls. Accommodations permit a class of 24 pupils. The class meets for 105 minutes one afternoon each week. One-half point credit is given.

COLLEGE PREPARATORY COURSE

Necessary to graduate, 32 points, 30 of which must be obtained in prepared subjects.

Required three years of one foreign language, or two years each of two foreign languages, four years of English, one year of Plane Geometry, at least one year of Algebra, one year of History, and enough other subjects in Science, History, Language or Mathematics, or other subjects acceptable to colleges, so that a total of 32 points are obtained.

A language once started must be continued through the second year unless permission is given to omit.

FIRST YEAR

REQUIRED		ELECT ONE	
5 English,	2	5 Latin	2
5 Algebra,	2	5 Science	2
5 Ancient History,	2		

SECOND YEAR

REQUIRED		ELECT ONE		
5	English	2	5 French or Latin,	2
5	Geometry (Plane),	2	5 English History,	2
5	Latin or French,	2	*5 Commercial Geography,	2

(Latin must be continued if begun the first year; if not begun, then either Latin or French must be started the second year, and both may be started if desired.)

THIRD YEAR

REQUIRED		ELECT ONE	
5	English,	2	(Unless both French and
5	Algebra,	2	Latin are taken under
5	Continuation of Latin or		required subjects.)
	French or both until	7	College Physics or Chem-
	each has been taken		istry,
	two years,	2 or 4	5 English History (unless
			taken previous year),
			5 Civics,

FOURTH YEAR

REQUIRED		ELECT ENOUGH TO MAKE FOUR PREPARED SUBJECTS		
5	English,	2	5 Foreign Language,	2
5	U. S. History,	2	5 College Chemistry or	2
5	Foreign Language as		Physics,	2
	necessary to complete		5 Solid Geometry and Trig-	
	requirement as noted		onometry and Review	
	above,	2	Mathematics,	2

* Commercial Geography may be taken by a student who plans to enter where it is allowed as credit.

Trigonometry offered when a sufficient number elect.

COMMERCIAL COURSE

FIRST YEAR

REQUIRED		ELECT TWO		
5	English,	2	5 Algebra,	2
5	Arithmetic,	2	5 Ancient History,	2
1	Penmanship,	$\frac{1}{2}$	5 Science,	2
			5 Community Civics,	2

SECOND YEAR

REQUIRED		ELECT ONE		
5	English,	2	5 English History,	2
5	Commercial Geography,	2	5 French,	2
10-5	Bookkeeping,	2	5 Plane Geometry,	2
1	Penmanship,	$\frac{1}{2}$		

THIRD YEAR

REQUIRED		ELECT ONE OR TWO	
5 English,	2	5 French (begin or continue),	2
5-10 Typewriting,	2	5 English History (unless taken second year),	2
5 Bookkeeping or Stenography,	2	5 Algebra (if taken first year)	
1 Penmanship,	$\frac{1}{2}$	Stenography or Bookkeeping,	2
		5 Civics,	2

FOURTH YEAR

REQUIRED		ELECT SUFFICIENT TO GRADUATE	
5 English,	2	4 Bookkeeping and Office Practice,	2
5 Stenography (if begun must be continued unless permission is given to omit),	2	5 Commercial Law and Economics,	2
5-10 Typewriting (must be taken if stenography is taken),	1 or 2	5 Stenography,	2
		5 Civics,	2
		5 U. S. History,	2
		5 Office Practice,	2

Necessary to graduate, 32 points, of which 26 must be in prepared subjects.

INDUSTRIAL COURSE

FIRST YEAR

5 English,	2	2 Mechanical Drawing,	$\frac{1}{2}$
5 General Mathematics,	2	2 Shop Work,	$\frac{1}{2}$
5 Science,	2	2 Manual Training,	$\frac{1}{2}$

SECOND YEAR

5 English,	2	3-5 Mechanical Drawing,	$\frac{1}{2}$ or 1
5 Geometry,	2	2-4 Machine Shop,	$\frac{1}{2}$ or 1
5 Commercial Geography,	2		

THIRD YEAR

5 English,	2	5 Mechanical Drawing,	1
5 Related Physics or Chemistry,	2	19 Machine and Pattern Shop,	4
5 Algebra,	2		

FOURTH YEAR

5 English,	2	3-5 Mechanical Drawing,	$\frac{1}{2}$ or 1
5 Industrial Science,	2	19 Machine Shop,	4
5 Industrial Mathematics,	2		

Necessary to graduate, 34 points, 22 of which must be obtained in prepared work, and the remainder in Mechanical Drawing and Shop Work, providing that the amount of Shop Work in the last two years shall not total less than eight points.

GENERAL COURSE

This course does not begin until the second year. First-year selections must be taken from the College, Commercial and Industrial Courses.

SECOND YEAR

	REQUIRED	ELECT
English		3 other subjects

THIRD YEAR

	REQUIRED	ELECT
English		3 other subjects

FOURTH YEAR

	REQUIRED	ELECT
English		3 other subjects

Clothing—One afternoon per week. Credit $\frac{1}{2}$ point.

Foods—One afternoon per week. Credit $\frac{1}{2}$ point.

Chorus—One afternoon per week. Credit $\frac{1}{2}$ point.

Orchestra—One afternoon per week. Credit $\frac{1}{2}$ point.

Public Speaking—Three periods per week. Credit 1 point.

Penmanship—One period per week. Credit $\frac{1}{2}$ point.

Art—One period per week. Credit $\frac{1}{2}$ point.

Glee Club—One afternoon per week. Credit $\frac{1}{2}$ point.

Penmanship is compulsory for Commercial students; others may elect insofar as it is possible to accommodate them.

Mechanical Drawing, Shop Courses and Typewriting available for College and General students if there is room after the Industrial and Commercial students are assigned to classes.

Junior and Senior divisions of college science are combined, giving Physics one year and Chemistry the next.

No student will be allowed to elect studies which come earlier or later in the course than the class to which he belongs, except by permission of the Principal.

Trigonometry may be substituted for Review Mathematics the Senior year.

It is hoped that we may be able to introduce a course in World History, starting the school year 1937 and 1938. in place of one of the divisions in Ancient History. Also that we may be able to offer a course in Biology, which seems to be at present much in demand. With these two additional courses and the present variety of courses, each pupil is certainly given a chance for a broad selection after the Freshman year, which is a foundation for all courses.

At this time I wish to extend a cordial invitation to all interested in their school system to visit us and thank them for the helpful coöperation during the past year.

Respectfully submitted,

MILTON A. PHILBROOK.

Report of Director of Home Economics

To MR. GUY V. SINCLAIR, Superintendent of Schools:

Dear Sir:—I herewith submit my annual report of the Department of Home Economics.

At the close of 1936 the registration was 266, which was one less than at the close of 1935. However, at one time during the year the registration reached 270.

The enrollment was as follows: Grade VI, 68; Grade VII, 76; Grade VIII, 85; High School, 37.

For several weeks in the spring we had with us as a practice teacher Miss Ruth Lowell, a graduate of Farmington Normal School, which grants a B. S. degree. She was of great assistance, as the teaching load is unusually heavy for one person.

The department did no entertaining, with the exception of the annual dinner.

On June third, at six-thirty o'clock, the girls in the High School foods class had as dinner guests the Superintendent, School Committee, Principal, and their wives. Other special guests were Mr. and Mrs. K. E. Terry.

The class equalled the high standard attained in preceding years and the guests voted it a most enjoyable event even though the weather man was unkind and all sweltered in a temperature never before imagined possible in our usually cool and comfortable sewing room.

Mr. Terry, chairman of the building committee for the construction of the new annex and the renovation of the old building, gave a most interesting talk on what his committee hoped to accomplish.

When school re-opened in September our quarters were not finished and the classes met in the former book-keeping room. This necessitated a rearrangement of the fall course of study as ranges and sewing machines were not available for laboratory practice.

Lessons included personal hygiene, table setting and serving, intensive study of leavenings, nutrition, etc.

The sixth grades followed the usual routine of hand sewing, while the seventh grades and the high school clothing class were taught various finishes which could be done by hand. Work on household linens included napery hems and hemstitching.

Although the room was not completed, part of the equipment was moved in and each class had the privilege of one lesson in the renovated quarters during the last school week of 1936.

New chairs for the sewing room were the outstanding purchase of the year. They were greatly needed and are most satisfactory. Several small items of equipment were replaced.

The cooking laboratory contains splendid new equipment and the classes are most enthusiastic about using it. I feel sure it will also increase their interest in keeping a spotless kitchen.

When several minor but very necessary details are completed so that we can really get settled, Westbrook

will have Home Economics quarters of which the citizens can justly be proud.

We shall cordially welcome visitors at any time.

Our goal is still the same—a real Home Economics Course for the High School girl. Let us hope we may achieve it in the not too distant future.

I thank all those who have done so much to make a difficult situation less difficult.

The coöperation has been most marked and is gratefully acknowledged.

Respectfully submitted,

MARY S. BYRNE.

Report of Art-Penmanship Director

To the Superintendent, Members of the School Board,
and Citizens:

I do here present the annual report of the Art and Penmanship Department in the Westbrook Public Schools.

The cardinal aim of the Art Course as presented to the grades and High School is ever to develop a fine creative ability, color sense, and a worthwhile appreciation of the beautiful. I sincerely believe this subject to be one of the most important of the child's school life, since it embodies those things that make toward the finest type of citizen possessed of refinement and a true responsibility of civic pride.

In the teaching of Penmanship it is my one desire to strive constantly for the perfection of a rapid legible handwriting without destroying that individuality that is so vital and precious to the student.

Last year at the National Penmanship Convention held in Boston the exhibit from the Westbrook Public Schools merited a place of unique distinction. The Westbrook School system was represented by an outstanding exhibit of Penmanship, English Manuscript, and Art during the Teachers' State Convention held at Lewiston.

The Department of Art and Penmanship has out-

grown the schedule of one teacher covering all grades and High School. With the added teaching load the old schedule has become far too heavy for any one teacher.

At the present time I am teaching under an immense handicap that allows less than twenty per cent of the student body of the High School to continue Penmanship. The fine work of Penmanship carried on by the grade teaching falls into a rapid decline under such existing conditions. But thirty-five students of the enrollment of five hundred are allowed to elect Art, while such an Art class is forced to work in one of the classrooms devoid of equipment and proper working facilities.

I do hope that the necessity of an Art room, as well as an assistant, will be considered in the near future. Surely with a subject so worthwhile to the cultural life of the student and so valuable to the community life at large, and with such an enthusiasm manifested by the pupils, this vital need should be worthy of careful consideration.

I desire at this time to extend my sincere appreciation to Mr. Sinclair and to the teachers who have so aided in the promotion of my teaching aims.

Respectfully submitted,

ANSEL B. STERLING,
Art-Penmanship Director.

Report of Director of Industrial Arts

To MR. GUY V. SINCLAIR, Superintendent of Schools:

Dear Sir:—I herewith submit my thirteenth annual report of the Manual Training and Industrial Departments.

The Manual Training work is now being taught by Mr. Given. The subdividing of the seventh and eighth grades and the addition of two rooms in the High School building have made it possible to maintain the best working schedule which we have had in years. It has also

reduced the size of classes to numbers which can be handled very comfortably in our present wood-working shop by a single teacher. We have cut the time in each grade to the minimum required by the State, and by doing so we are still able to continue the sixth grade work, which many other schools have found it necessary to drop.

Most of our congestion is in the Industrial Department of the High School. More pupils elect this course each year and unless some further provisions are made, we shall be unable to give them even the required minimum amount of time.

Perhaps a few comparative figures might best show why it is necessary to cut corners at all points.

Ten years ago, in 1926, the City appropriated \$2,100.00 for the Industrial Department, and had at that time 47 boys taking the course. The annual per capita cost to the City was \$44.88. In 1936 the City appropriated \$1,625.00 with 120 boys taking the course, which made the cost to the City \$13.54 per pupil.

In no other department of the school has the cut been so drastic. We have done everything possible to give these boys a maximum of training at a minimum cost, and I trust you will consider that we have done our part. I feel that the value of the course has been proven since at least 80% of those graduated from this department have not only obtained employment but have held their positions throughout the depression.

There is a limit to the number of pupils any teacher can supervise and continue to do his work efficiently. We have reached that limit and are badly in need of another instructor in this department. This would not entail any great expense to the City since a large portion of the salaries of teachers in this department comes from State and Federal aid.

Many boys taking this course are obliged to sit through three study periods daily because there is not room for them in their rightful classes. Freshmen who should have five periods a week of Mechanical Drawing

have only two and the Sophomores have but three. In the Machine Shop the boys of these two classes have two periods a week instead of the recommended five. However, the work of the Machine Shop has progressed steadily during the year. Some of our machines are out of date and badly worn. I recommend the purchase of a new shaper and two lathes when possible.

The safety course, using as a textbook "Man and the Motor Car," which we have adopted this year has proved to me conclusively that such a course is not only of great interest to them but is very beneficial. I wish that arrangements might be made to extend the benefits of the course to a larger group and to supplement it by actual driving lessons.

I wish to extend a cordial invitation to all interested citizens of Westbrook to visit the school and shop; also I thank pupils and all those interested in the school system for coöperation during the year.

Respectfully submitted,

AUSTIN ALDEN.

Report of the Music Director

To the Superintendent of Schools, School Board, and Citizens:

I herewith present my second report as Music Supervisor in the Public Schools of Westbrook.

The work of the past half year has been a continuation of the program started in the schools during the year 1935-36. The course in Music is so presented that each child feels a desire to participate. This joy derived from singing and studying as a group makes each lesson vital and each song learned a living gem for each child to remember.

The Rhythm Bands, organized last year, are still active and beneficial in innumerable ways. New records have been purchased to aid the children and teachers.

Children taking part in the Harmonica Bands con-

tinue to find pleasure. These bands answer the need of what to do for outside activities to assist any child desiring further knowledge of Music.

The Junior and Senior Orchestras have been added to the Music Supervisor's curriculum.

The Junior Orchestra consists of twenty-five interested members. These children meet for one hour every Monday afternoon. New books were purchased at the beginning of the year, besides a snare drum, drum stand, cymbal and foot pedal. The Music Department appreciates these additions.

Twenty-five High School students comprise the Senior Orchestra. This group received new books, which have proven thoroughly enjoyable. A number of appearances have been made by the Orchestra, one of which was over Station WCSH.

The High School Glee Club, due to the number enrolled, was divided into two groups, one meeting on Tuesday afternoons and the other on Thursdays. The total number enrolled at the opening of the year was eighty. Blue and white emblems were purchased by the girls at the beginning of the year. These add much to the uniforms of white sweaters and blue skirts.

Six grades have been furnished with books of the Music Hour Series, while three grades are enjoying booklets purchased for group singing.

In closing my second report, I wish to thank Mr. Sinclair, the School Board, teachers, and parents for the coöperation and kindly spirit extended to this department.

Respectfully submitted,

LORRAINE H. LOMBARD,

Director of Music.

Report of School Nurse

To Mr. Sinclair, Members of the School Board, and Citizens:

I herewith submit my second report covering the period from January 6, 1936, to January 4, 1937.

During the stated time inspections of all children in the public schools have been made. The following survey has been compiled :

Total pupils,	1,781
Dental defects,	42.4 %
Throat defects,	13.5 %
Visual defects,	7.68 %
Hearing defects,	4.94 %
10% or more below average weight,	9.19 %
20% or more above average weight,	5.94 %

Comparing the 1936 survey with that of 1935, we find that there is a 9.2% decrease in dental defects, 1.02% decrease in visual defects, and 4.31% decrease in the number of those 10% or more below average weight, while there has been a 5.2% increase in throat defects, .86% in hearing defects, and 1.56% increase in those 20% or more above average weight.

During the school year of 1935-36, there were 36% who had dental corrections, 2.46% who had visual corrections, and .476% who had corrections of hearing defects.

As is obvious from the above figures, there is definite need for corrective work and we hope to perform this remedial work to as great an extent as is financially possible. We are rather confident that we shall be able to have a dental clinic in the spring through the efforts of the Teachers' Association.

The dental and throat examinations have been made by Dr. Bertrand F. Marshall, who was elected to serve as part-time school physician.

Eighty-four home visits were made within the year. The purpose of these visits is to explain the nature of the defects and the necessity of their correction, stressing the advisability of visiting the family physician and dentist; also to impart any health education which will make the family more competent to help itself.

The audiometer, a very accurate and time-saving device for testing hearing, was furnished by the Ammonconglin Club, to which we express our deep apprecia-

tion for the aid in securing this apparatus for the schools.

We wish to express our very sincere gratitude to the physicians and dentists of Westbrook for their interest and manifold service; to the Westbrook Visiting Nurse Association for its earnest coöperation; to the Lion's Club for its generosity in furnishing glasses to those children of limited finances; to the Red Cross Association for defraying hospitalization expenses and for caring for emergency dental work; and to the Kiwanis Club for tonsilleotomies and hospitalization.

One of the aims of the school hygiene service is to carry out a program which will aid the child in the acquisition of scientific health habits, thereby fostering the normal development of the child physically, mentally, emotionally, and socially, ultimately preparing him to meet adequately the exactions of the future as a healthy and upright citizen.

The hearty coöperation of Mr. Sinclair, members of the School Board, teachers, citizens, and students is extremely satisfying and very gratefully acknowledged.

Respectfully submitted,

JANE O'SULLIVAN,

School Nurse.

Report of the City Treasurer

WESTBROOK, MAINE.

To the Honorable Mayor and City Council of the City of
Westbrook :

GENTLEMEN:—In accordance with the requirements of
Section 5, Chapter 5, of the Ordinances of the City, I
hereby submit the following report of the receipts and
expenditures of the City of Westbrook during the fiscal
year ending January 4, 1937.

Respectfully submitted,

FRANK A. CHASE, JR.,
Treasurer and Collector.

January 1, 1937.

FRANK A. CHASE, JR., Treasurer,
 IN ACCOUNT WITH CITY OF WESTBROOK, MAINE.

Delinquent List Submitted by Collector and Treasurer

Chapter 106 of the Public Laws of the State of Maine,
for the year 1907.

An act for the better collection of taxes.

Be it enacted by the Senate and House of Representatives in Legislature assembled, as follows:

That on and after January first, nineteen hundred and eight, all municipal officers of the cities and towns in making out the yearly report shall cause to be printed in said report the names and amounts of all delinquent tax payers which have been committed to the collector or treasurer for collection.

The failure of non-performance of this duty shall be not less than five dollars nor more than twenty-five.

Approved March 27, 1907.
