CITY OF SOUTH PORTLAND.

IN COUNCIL.

Ordered, That the Auditor and Committee on Finance and Claims be and are hereby instructed to make the Sixth Annual Report of the Receipts and Expenditures of the City of South Portland, for the financial year ending January 31, A. D. 1906. And that twelve hundred copies of the same be printed for the use of the city, and for distribution, and that there be appended thereto a copy of the Mayor's Address, and Reports of the City Officers returned to the City Council at the close of the financial year.

A true copy of order passed February 9th, 1906.

Attest :

WILLIAM E. ALLEN, *City Clerk.*

MAYOR'S ADDRESS.

GENTLEMEN OF THE COUNCIL :

The voters of South Portland have entrusted to us the management and direction of the municipal affairs during the coming year, and we have now come together to begin that labor which should be taken up with an earnest, persistent determination to discharge the trust to the utmost of our abilities, and with the single purpose of accomplishing that which will result in the best good to our citizens and the further advancement of our city. We ought no longer to consider ourselves as of this or that political creed ; but remember only that we are the servants of those who have by their ballots declared their confidence in our integrity, and to whom we must give faithful account of our stewardship. While working solely for the good of the city we cannot wilfully go astray, and the result of honest deliberation and intelligent discussion must of necessity be the best interests of our people.

It is not my desire or intention to burden you with suggestions or recommendations. The majority of this Board has already had much and valuable experience in the municipal affairs of this city, and know full well what should be done or left undone to best serve the interests of our people. During the past year you have been intimately concerned in the matters which will come before us, and I doubt not but that all of you will sink personal interests or desires if thereby you can best fulfill to the letter and the spirit, the oath of office just taken.

Therefore it is that I shall confine myself to reminding you of the recommendations made by our immediate predecessors — recommendations which I believe we are in duty bound to consider impartially, and at length.

I feel it my duty, however, to call to your attention certain facts as they present themselves to me, in order that you may have well before you a financial condition which must come sooner or later unless it be possible for you to suggest and apply a remedy. As our city has grown the public has demanded each year an increase of improvements considerably in excess of our increase in resources by way of taxation, and it is more than probable that demands—no more than seem reasonable and warranted, will be made during this year, as in the past. The Treasurer reports that various notes given by this city in order to meet the demands for improvements, and falling due this year, amount to the sum of five thousand one hundred seventy dollars and seventy-one cents. That in itself is not a matter to cause comment; but it is to what must follow that I call your attention. In order to meet these maturing notes you will be called upon for increased appropriations, or a renewal of the notes, in which last case there is the danger that you will drift on until another bond issue becomes necessary. I have no remedy to suggest; but hope that you will give the matter the consideration which it demands, and bear well in mind that whatever may be the result of your deliberations, the most rigid economy is necessary when the question of appropriations for the coming year is under discussion. It is hoped and believed that you will strive earnestly with me in apportioning the appropriations to keep the several sums down to the lowest amount consistent with good government and the best interests of the tax payers.

It is to be hoped that you will continue the permanent road-building already begun. As you well know, Ocean Street has been designated as the "State Road," and, according to the report of your Street Commissioner, eight hundred lineal feet were built last year, the same being made up of "ledge rock, crushed rock and gravel, at a cost of seventy-five cents per foot." The fact that for every four hundred dollars appropriated by the city, two hundred dollars is contributed by the

state, is such an inducement to good road-making as cannot well be overlooked. While the state assumes one-third of the liabilities of such improvements, it would be most unwise for us to neglect the opportunity of thus bettering our highways at minimum of cost.

I believe it my duty to call your attention to the recommendation of the City Solicitor relative to possible claims which the city may have on wharf property near Rocky Point, and land near Fort Preble. Your solicitor suggests that if you do not think it advisable at the present time to make an attempt to recover possession of the properties referred to, you take certain legal steps which will protect the city's rights in the future, and whatever may be your personal opinions in the premises, it would seem to be your duty, as the people's representative, to act upon your solicitor's advice.

Your superintendent of schools reports that among the teachers under his charge he has "those who ought in justice to themselves, as well as to their schools, to be otherwise employed." He also adds that "a word of criticism is pregnant with the portents of disaster to him who would venture it," and states that he will do no more than "offer the above general statement." I am well aware, gentlemen of council, that the immediate remedy for such an acknowledged state of affairs does not rest with you; but it is well within your province to declare a remedy when the list of proposed expenditures for the ensuing year is before you, and I venture the hope that you will not shirk the responsibility of insisting that those who are receiving the city's money without earning it, shall be eliminated from the pay-rolls. The schools of a town or city are the tests of that town or city's care on the lines of advancement, and in so far as lies within your power, it should be, and is, your most solemn duty to make certain that our citizens of the future have to the utmost farthing the benefit of the monies which you appropriate for their education.

One year ago it seemed probable that the then city government would be charged with the South Portland work of

re-building Vaughan's Bridge, and your mayor made certain recommendations in accordance with that belief. To-day the proposition is yet a problem; but one which may be settled next Wednesday, when it is probable that the Legislature will take action upon the bill now pending. Until that has been done, or until some definite plan has been presented, it would be superfluous for me to make any suggestion, save it might be that we should hold first, last and all the time that our proportion of the bridge-building should be on the basis of a pro rata tax valuation. It seems your duty, gentlemen, to take the ground that we will build in proportion to our valuation, rather than commit yourselves to construct so many lineal feet. However, until the matter is before us in some definite shape, it is not for me to make suggestions, other than I have done as a general principle, or for you to venture an official opinion.

The City Electrician has called to your attention the need of a fire alarm system, and while it cannot be questioned that an alarm system of some kind may be of great benefit, it is for you to determine whether the city can afford to make the necessary expenditure.

The Inspector of Buildings makes a recommendation as to printing and distributing copies of the ordinance relating to the erection and alteration of buildings, which seems well worth your consideration.

It is to be hoped, for the benefit of the city generally, and the taxpayers in particular, that you will exercise the greatest care in your selection of subordinate officers, the election of which devolves entirely upon you. By virtue of your oath, it is binding upon you to select such officers as are most capable of rendering efficient service to the city, and I have no doubt but that you will throw aside party prejudice and party demands to the end that your city may receive the greatest possible good from her paid servants. Your own reputation and success of administration depends upon your selection of officers to assist you in the work you have sworn to perform to the utmost of your ability.

Gentlemen of the Council, the people of our city look to us during the next twelve months for an honest, conscientious, impartial administration. It devolves upon us to act in municipal affairs as we would in such personal matters as concern us most deeply, and I urge, although at the same time trusting and believing that there is no real reason for so doing, that you and I so perform our public duties that when the hour of our retirement is at hand, those for whom we have labored may in truth say of us : " Well done good and faithful servants," than which praise there can be none higher. Gentlemen of the Council, the city is in your keeping.

Respectfully submitted,

GEORGE H. WEEKS,
Mayor.

SOUTH PORTLAND, MAINE, March 13, 1905.

AUDITOR'S NOTICE.

AUDITOR'S OFFICE, CITY OFFICES }
CITY OF SOUTH PORTLAND. }

All bills presented for payment must specify what the article or articles were for, and for what department, and when for labor, where it was performed, with proper dates.

Items charged to different appropriations or departments must be made on separate bills.

The Auditor desires parties, whose claims against the city have been duly allowed, to be prompt in their calls to receive payment, and when bills have been once presented, ascertain if allowed before duplicating the amount on a subsequent bill, as is sometimes done.

C. A. WILLIAMS,
Auditor.

Receipts and Expenditures

| | 2 milk pitchers. |

Report of Street Commissioner.

SOUTH PORTLAND, Feb. 1, 1906.

To the Honorable Mayor and Board of Aldermen of the City of South Portland :

GENTLEMEN :— I have the honor to submit herewith my annual report as Street Commissioner, as follows :

With a small appropriation, which was not sufficient for the street department to complete the necessary work that should have been done, but have endeavored to expend appropriation to the best advantage.

STREETS AND SIDEWALKS.

WARD 1.

More attention has been paid to sidewalks than streets. There has been rebuilt and with new ones, 3,418 feet, as follows: On Myrtle avenue, Preble, Willard, Woodbury and Cottage streets. Have removed plank walk over Cobb's brook and replaced with retaining wall and solid filling. Have raised the grade of Cottage street from Pillsbury street to Angell avenue, with gravel and stone, and repaired same from Sawyer to Pillsbury streets.

WARD 2.

Have crowned Bean street with road machine, and gave it a good coat of gravel. This, with the repairs on the sidewalks, completes the work done in this Ward.

WARD 3.

There has been quite a large amount of gravel hauled in this ward, and with the repairs on Pearce street and the sidewalk on High street and Sawyer street, with other minor repairs, is the bulk of work which was done in this ward.

WARD 4.

Have rebuilt a culvert on Summer street, raised the grade of Ocean street from Summer to Thomas street, raised grade of Cottage street from Mill Creek bridge to City square. Have removed the old bridge sidewalk and replaced with a solid filling. The paving in Knightville has been cleaned twice.

WARD 5.

There has been 2,575 feet of new sidewalk built in Ward 5, as follows: On Sawyer street, Ocean street and Highland avenue. Have removed the old sidewalk bridge near the residence of Edwin Parrot and put in a retaining wall and solid filling; also the one over Marriner's brook, which removes all the bridge walks in the city. Have run the road machine over Highland avenue and Evans street.

WARD 6.

Relaid the wall on Elm street, raised the grade, put in new sidewalk on the west side of the street, and done repairs on Robinson and Summer streets.

WARD 7.

Raised grade of Main street with cinders from Portland Iron and Steel Works from Vaughan's bridge to Lincoln street. Crowned Brown street from residence of Chas. Dawson to culvert near residence of Byron B. Brackett with road machine and put on coat of gravel. And cut down grade on Cummings' road to repair washout on same.

These items do not cover all the work done. There has been a number of driveways and culverts built throughout the city.

NEW STREETS.

There was one street which laid over from last year that has been built, running from Summer street to Hill street by the residence of Dr. L. S. Lombard. Two others were commenced by lot purchased for new schoolhouse, running from Summer to Hill street, but owing to cold weather were not completed.

CEMENT SIDEWALKS.

Have built 1,508 feet of cement walks : In Ward 2, 448 ft., Ward 3, 329 ft., Ward 4, 47 ft., Ward 6, 770½ ft.

STATE ROAD.

Amount raised by the city, \$400. Due from State, \$300. The amount expended, \$824.52, making a cost of \$1.10 per foot. This includes the relaying of the retaining wall on westerly side of Ocean street. Length of wall, 360 feet ; average height, four feet. Raised the grade of Ocean street over Marriner's Brook 18 inches, for a distance of 400 feet. The length of the State road built being 750 feet.

SEWERS.

Under the appropriation Dyer street sewer was extended into tide water a distance of 125 feet ; and 250 feet of Preble street sewer, Willard Beach, was rebuilt. There was in all seven catch basins and one manhole built. In Ward 1, one ; Ward 2, two ; Ward 4, two catch basins and one manhole ; Ward 6, one ; Ward 7, one.

NEW SEWERS.

There were eleven in all. In Ward 1, four ; Ward 2, two ; Ward 4, one ; Ward 6, four. This was all contract work, excepting Latham street sewer which was built by the city.

REMARKS.

By vote of the Council the street department was authorized to build a house in which to store their tools and lumber, said house being 24 feet wide and 55 feet long, which was much needed.

I was also ordered by the Street Committee to put the stone crusher in repair, which was done, and stone for the State road was crushed by it. After using crusher it was found to need repairing before storing for winter, which repairs are being made at this time, and when completed the crusher will be in working order for another year.

The cost of said building and repairs on crusher to be paid out of general appropriation.

LIST OF CITY PROPERTY.

1 stone crusher,	\$1,000 00
1 road machine,	75 00
1 plow,	15 00
2 stone hammers,	1 50

2 sewer pails,	70
12 snow shovels,	3 50
1 sewer spoon,	50
	<hr/>
	\$1,309 80

Respectfully submitted,

FRANKLIN A. SKILLIN,
Street Commissioner.

Report of City Engineer.

To the Honorable Mayor and Board of Aldermen of the City of South Portland :

GENTLEMEN :-- I herewith submit my report as City Engineer for the municipal year ending Feb. 28, 1906.

The duties of the City Engineer for the past year have been rather more than the previous year, and it is natural to suppose that they will increase from year to year, as the City grows and is called upon to make more improvements.

During the year I have been called upon and have made the following surveys :

For the location of buildings burned at Knightville, April 23, to locate the bounds of the City's gravel lot in Ward 4, of Front street from Sawyer to Pine street, of City property at South Portland Heights, of City property on Thomas street, of Sawyer street from Cottage street to Meadow brook, for grading Stillman street, for line of Deake street, for line of Woodbury street, for corner of Scammon and Summer streets, for corner of Highland avenue and Cottage street, for corner of Summer and Evans streets, for line of Main street from Ridgland avenue to Vaughan's bridge, and of A and D streets in Knightville.

I have given line and grade for the cement sidewalks, as follows : in front of Pythian hall, 74 feet on High street and 73 feet on Preble street ; in front of Lucy Studley's property on High street 103 feet, on Stanford street 100 feet ; in front of the Cyrus Cole property, 379 feet on Summer street and 399 feet on Cole street ; on Sawyer street, 130 feet in front of the Cole Memorial Church ; High street, 98 feet in front of the People's Church ; West High street, 59 feet in front of J. F. Parkins' property ; and Randall street, 69 feet in front of C. A. Studley's property.

There have been three new streets laid out by the Committee on new streets and accepted by the Council for which I have made surveys.

Harriet street from the southerly line of 4th street, northerly to and across Broadway to the northerly line of 3d street, as shown on plan of Mussey Farm. One street on each side of the new school house property in Ward 6, extending from Summer street southerly to Hill street.

I have made plans and profiles and superintended the building of the following sewers: On Willard street connecting with the sewer built in 1904, a 15-inch sewer extending to Preble street, a distance of 1,123 feet. On Preble street a 15-inch pipe 106 feet to Angell avenue; a 12-inch pipe 200 feet to Mitchell street; an 8-inch pipe to connect with the sewer built in 1904, near the store of S. G. Willard. A 12-inch sewer on Angell avenue from Preble street to Cottage street. On Pickett street an extension of the 12-inch sewer built in 1904, 350 feet. On East Broadway an 8-inch sewer from Preble street easterly 382 feet. On West Broadway connecting with the sewer built by Leighton & Hillis and extending westerly 415 feet. On Day street connecting with the sewer built in 1904, an 8-inch sewer extending westerly 250 feet. On Latham street an 8-inch sewer 300 feet long connecting with the Summer street sewer. We extended the 12-inch sewer on Summer street 485 feet. On Atlantic avenue we built a 10-inch sewer from tidewater to Elm street, 800 feet long.

In looking over the records of the streets of the city I find that there are many streets that the city has no record of, and it is impossible for any one to determine where the boundary lines are by surveys. In such cases the city should lose no time in establishing the lines by some legal process before the abutters encroach too much, and the highways and land becomes so high that the expense will be very great. Many of the streets, while they are legally laid out and recorded in the City Clerk's office, for lack of suitable monuments are hard

to establish, causing trouble and expense. If the city government would cause suitable monuments to be placed at the angles of the streets much trouble would be avoided.

Owing to the fact that the records of the laying out of the streets of the city are not properly indexed, the City Clerk, City Engineer and the public in general, who have occasion to search the records, are put to great inconvenience. The making of a complete index would be a matter of small expense and would save much valuable time and annoyance.

Respectfully submitted,

A. E. SKILLIN,
City Engineer.

Report of City Solicitor.

SOUTH PORTLAND, ME., Feb. 14, 1906.

To the Honorable Mayor and Board of Aldermen :

GENTLEMEN : — I herewith submit my report as City Solicitor for the year ending February 1, A. D. 1906.

The first matter requiring the attention of this department at the beginning of the year was the bill at that time pending before the legislature in relation to the construction of Vaughan's bridge by the creation of a Bridge District, to consist of the cities of Portland and South Portland. When the bridge was originally constructed, the expense was borne in the proportion of one-fourth by the town of Cape Elizabeth and three-fourths by the City of Portland, and the pending bill provided for a division of the expense by a method leading practically to the same result. By direction of the city council, a committee from the council with the city solicitor appeared before the legislative committee at Augusta and secured an amendment to the bill requiring the expense of building and maintaining the bridge to be assessed upon the two cities according to their respective valuations. The bill as amended was passed, approved, and the bridge is now in course of construction under its provisions.

There are now pending two suits against the city as follows :

Howard E. Mansfield vs. City of South Portland. This is an action brought for the recovery of damages estimated at two thousand dollars, for injuries alleged to have been received by reason of a defect in the highway on Summer street, near Scamman street, on the 26th day of May, A. D. 1905. The writ is dated July 28, 1905, and was entered in the Supreme Judicial Court at the October term, 1905, where it is now pending.

Delia M. Webb vs. City of South Portland. This is an action for damages estimated at two thousand dollars for personal injuries alleged to have been received at the same time and place as the preceding case, and for the same defect. The action was entered at the October term, 1905, of the Supreme Judicial Court, where it is now pending.

Considerable time has been spent by your solicitor in the collection of sewer and sidewalk assessments and every effort has been made to effect a settlement without bringing suit against our own citizens. In some cases legal proceedings will probably be required for the collection of the accounts, and writs are now being prepared for that purpose.

In conclusion, I would call the attention of the city council once more to the revision of the ordinances of the city, which was postponed to wait the result of the vote on annexation. This matter should be taken up and arrangements made for the preparation of the ordinances as soon as possible.

Respectfully submitted,

DAVID E. MOULTON,
City Solicitor.

Police Department.

SOUTH PORTLAND, ME., Jan. 31, 1906.

To the Citizens and Tax Payers of the City of South Portland :

Following the customary and proper usage, I beg to submit my report of the administration of the police department for the year last past.

An efficient police force is highly essential to the well being of every city. At the beginning of the year, a strong desire was manifested by our people for better police protection, and in compliance with petitions from various sections of our city the following named officers were assigned to duty, viz : Samuel A. Cline, Edwin Fowler, James A. Strout, Hugh F. Flynn and John F. DeCosta, the first four performing night service, and the last named doing duty as a substitute, and I am pleased to say that they have attended to their duties in a manner highly satisfactory, and have maintained order completely, and as far forth as information is obtainable, cannot hear of anything but the best disposition on the part of the people toward the officers who they have rendered every assistance.

This is the first year in our existence as a city that the police service has been continued throughout the year, and has consequently been the most expensive, but it is hoped that the results obtained will justify the increased expenditure.

The conditions of quiet that have prevailed by night throughout the city have been very gratifying, more especially so at Knightville, where in the past, night has been made hideous, and rest impossible by noisy belated parties returning from Portland by way of the bridge after the cars finished their trips for the night. The presence of an officer during the past season has stopped the disturbances and quiet has prevailed.

A number of arrests have been made for minor offences, drunkenness, etc., one for burglary and several for violation of the city ordinance, relating to bicycle riding upon the sidewalks which is an ordinance more frequently violated than any other, and in a number of instances pedestrians have been injured by collisions with careless riders. Copies of the ordinance were duly posted in various parts of the city early in the spring, but were soon torn down by parties unknown. Signboards should be erected at the various roads and bridges entering the city, forbidding this practice, and violations should be severely dealt with.

The practice of the military authorities in permitting athletic games at their reservation on Sunday is much to be deplored. The crowds attracted to witness them have in many instances greatly annoyed our citizens residing in the vicinity of the forts, and rendered it necessary to have officers on duty when ordinarily their services would not have been required; it is also giving us a reputation for lawlessness among those who do not understand that the case is beyond our jurisdiction.

By vote of the Council, the committee on public buildings are now having two new cells placed in the basement of the Masonic building, upon the completion of which the lock-up on Thomas street will be abandoned.

Trusting that the incoming administration will continue the same police service during the coming year, which I feel will be pleasing to our people, this report is

Respectfully submitted,

GEORGE H. WEEKS,
Mayor.

Report of Board of Health.

To the Honorable Board of Mayor and Aldermen of the City of South Portland :

GENTLEMEN :— We hereby submit the annual report of the Board of Health of the City of South Portland for the year ending January 31st, 1906.

The total number of deaths in this city for the year was 87, a decrease of three from last year.

The deaths from contagious diseases are as follows :

Consumption 6, typhoid fever 1, whooping cough 1, meningitis 9, diphtheria 1.

The sanitary condition of our city is receiving the earnest consideration of the municipal officers, and as a result sewers have been built during the past year in the following streets : Willard, Angell avenue, Preble, Day, Pickett, Broadway (east and west), Summer, Atlantic avenue and Chestnut.

Complaint has been made of the unsanitary condition of the Harriett street sewer ; this sewer was built by private parties and no provision was made for an outlet for same, the sewage being allowed to flow into a gully near High street. As a result the land in the vicinity of the outlet has become so polluted as to prove a very serious menace to public health. We recommend that at the earliest opportunity measures be taken to remedy this unsanitary condition.

GREGORY E. BLISH,)
 JAMES H. SYPHERS, } *Board of Health.*
 FRANK W. SMITH,)

Report of Inspector of Buildings.

SOUTH PORTLAND, ME., Jan. 31, 1906.

*To the Honorable Mayor and Aldermen of the City of South
Portland :*

GENTLEMEN :—I herewith submit my annual report as Inspector of Buildings for the year 1905. I have inspected thirty-two (32) new residences and they are situated in the following wards :

Ward 1, one building ; Ward 2, two buildings ; Ward 3, seven buildings ; Ward 4, eight buildings ; Ward 5, five buildings ; Ward 6, eight buildings ; Ward 7, one building. Total, 32 buildings.

Any changes or alterations that I have suggested in the above mentioned buildings have been cheerfully complied with.

In conclusion I would say that all buildings, the owners of which have received certificates, have been built in accordance with the State law.

Respectfully submitted,

WM. Q. TURNER,
Inspector of Buildings.

Report of City Electrician.

To the Honorable Mayor and Board of Aldermen of the City of South Portland:

GENTLEMEN:—In accordance with the requirements of the office of City Electrician I herewith report the condition of the electric wiring.

Of the inside work I have inspected thirty-three new buildings and thirty-two of the old work, all of which have been wired to conform with the New England Board of Fire Underwriters rules, and have had some changes made.

Of the outside work the Northeastern and the New England Telephone Companys have built new lines through the city, and have been built very satisfactory. The Railroad and Electric Light Co.'s lines are in good condition.

It seems to me that the city should take some action in regard to a fire alarm system. There could be arrangements made with the different manufacturers along the water front to blow whistles when the alarms were pulled in. For instance, at the west end of the city there is the plant of the Portland Iron & Steel Co., at lower Pleasantdale the shops of the Boston & Maine Railroad, at Knightville there is the power house of the Portland Railroad Co., and at Ferry Village there is the plant of the Portland Shipbuilding Co. Besides for fire alarm purposes it could be used for no-school signal, which would be very much appreciated by all concerned in the schools.

Respectfully submitted,

WM. C. BAGLEY,
City Electrician.

Fence Viewers' Report.

SOUTH PORTLAND, ME., Jan. 31, 1906.

*To the Honorable Mayor and Aldermen of the City of South
Portland:*

GENTLEMEN:— We, the undersigned, herewith submit our report as Fence Viewers, for the year 1905. There has been only two cases brought to our attention and they were adjusted to the satisfaction of both parties.

JOSEPH S. FICKETT, } *Fence Viewers.*
WM. Q. TURNER, }

Report of School Board.

To the Honorable Mayor and Board of Aldermen of the City of South Portland :

The Superintending School Committee herewith make the seventh annual report of the condition of the school department, and in so doing, your committee will first refer to the physical conditions of the various school buildings and surroundings, taking them by Wards.

WARD 1.

THE WILLARD SCHOOL.

This building is new and therefore is not in need of repairs, except of a minor nature.

WARD 2.

EAST HIGH STREET SCHOOL.

The building in this ward, although built but a short time ago, is now in need of painting outside and repairs to the roof ; it will be good economy to have the wood-work of the interior and desks receive a coat of varnish.

The ground about the foundation should be graded up, and the yard filled in to meet this grading.

WARD 3.

PLEASANT STREET SCHOOL.

This building is in need of painting outside and repairs to the roof. On the inside of the building the needs that are most urgent are new desks and seats, as those in use at present are in a very bad condition.

SCHOOL STREET SCHOOL.

The foundation of this building needs repairs on brick work and the ground in front of building should be graded up where it belongs.

WARD 4.
KNIGHTVILLE.

The brick building in this ward has been put in very good repair the past year, but the light is very poor in both of the downstairs rooms. It is plain to anyone that such a defect as the new partition that was put in has caused, should not be allowed to continue longer than absolutely necessary to meet the congested conditions that prevail in this vicinity.

E STREET PRIMARY.

The building on E street in this ward is a disgrace to the city, and should not be considered longer for school purposes ; it is not sanitary or what a building should be in any sense that is used as a school building where children of tender years are required to put in the early part of their school life, when they are most susceptible to unsanitary surroundings such as exist here.

Some action of the council should be taken to permanently relieve this state of affairs, and it should be done in the near future.

WARD 5.
SOUTH PORTLAND HEIGHTS.

The building in this ward is in very good condition, but needs painting outside and the roof attended to.

WARD 6.
ELM STREET SCHOOL.

This building needs painting outside, and also needs different heating and ventilating apparatus than is at present in use. A record of the temperature of the rooms in this building has been given to the Committee on Public Buildings, and your attention is respectfully called to the same.

EVANS STREET SCHOOL.

This building needs painting and also to be newly shingled and new gutters. The ground about the building needs to be graded up to the foundation, which in many places is in bad condition owing to lack of attention in the past.

WARD 7.

CASH CORNER SCHOOL.

The building in this section is badly in need of a different equipment in the way of water closets and lavatory, the present arrangements being very offensive. The outside of the building is in need of painting.

LIGONIA SCHOOL.

This building compares very favorably with the one mentioned on E street, and needs immediate attention. It is badly in need of repairs and is in a generally unsanitary condition. A cement floor should be put into the basement of the building and water closet and lavatory arrangements introduced.

WESTBROOK STREET SCHOOL.

This building although quite old is in a very good condition and with a few ordinary repairs will meet present requirements.

SKILLINS SCHOOL.

It is the opinion of the School Board that this school should be discontinued, for the following reasons :

1. The building is all out of repair and is wholly unfit for school purposes.
2. There are but a few scholars in the school, and the cost of a teacher, fuel and repairs, are all out of proportion to the good accomplished ; and we recommend that the school be closed and the pupils be transferred to the Westbrook Street School, and conveyance be provided for them at the opening of the fall term.

We recommend the following appropriations to meet requirements for the coming year, viz :

Common schools,	\$9,000 00
" " janitors,	1,600 00
" " fuel,	1,500 00
" " supplies,	700 00
Text books,	1,000 00
Insurance, apparatus, etc.,	500 00
High school,	2,600 00
" " supplies, fuel and janitor,	700 00
Superintendence account,	700 00

HIGH SCHOOL.

The building used for the High School is much in need of repairs and alterations. The roof leaks badly and is the cause of a great deal of damage to the interior of the building. There are several of the ceilings that it will be necessary to have removed and replaced by new ones. The rooms should be thoroughly cleaned and whitened before the fall term of school opens. The floors in the hallways and classrooms are badly worn and need to be replaced by new ones.

Alterations: It is imperative that something be done in the way of change in the method of heating of this building, both from a health point of view and as a matter of economy in the way of janitor service. It is the mind of your School Committee that this building and the grammar school in this locality can be heated by one steam heating plant, thus saving the expense of running ten (10) stoves, an economy in both wood and coal, cleaner conditions of rooms and freer from excessive dust. By doing this the whole of the janitor work can be done for both buildings by one man, with much better satisfaction than is possible now under prevailing conditions. The double seats and desks used at present should be replaced by the single desk and seat to meet up-to-date requirements.

Plumbing: The present arrangement of out houses are not in any sense what they ought to be, and the Committee wish to urge upon the city government the necessity of modern up-to-date plumbing. Water closets and a lavatory should be put into this building during the coming summer and relieve the present very objectionable conditions. The surrounding land is all that can be desired for drainage, and the whole matter can be attended to without any great expense.

GENERAL REMARKS.

We call your attention to the report of the Superintendent of Schools, in which you will find a full account as to the conditions of our schools, which show a marked advance in general work, teaching force, etc.

While our schools are by far the most expensive item that calls for provision in the way of money appropriation, yet it is no different with us than with other growing communities, and with an increasing growth of population we must of necessity meet the demand from year to year by larger appropriations.

While we have made a step toward the construction of a new building in the western end of the city the time is not far off when we shall be obliged to erect another building in the eastern part of the city for the needs that are now presenting themselves.

Attention should be given to the outward appearance of the buildings and the grounds that surround them more in the future than has been done in the past, that they may reflect credit to every person living within our city limits, and every citizen should take a personal pride in this matter.

Respectfully submitted,

SHERMAN G. WILLARD,
W. P. LORD,
FRANK I. BROWN,
ISAAC N. STANLEY,
ARTHUR L. JORDAN,
GRANVILLE L. LIBBY,
FRED E. DEARING,

*Superintending
School Committee.*

Gentlemen of the School Board:

The Superintendent of Schools presents for your consideration an annual report upon the condition and progress of the schools of South Portland.

Our schools, of course, are not in every respect models fit to be held out as the true type for imitation by other places, but I can truthfully say that few municipalities in Maine, or elsewhere for that matter, are getting better returns for the money expended than are we. Our schools cannot claim exemption from the stern economic law, that while we have a right to have what we pay for, yet we have no right to ask to be excused from paying for what we would have.

Whatever improvements are coming to our schools are the result of your hearty support and co-operation given to such of my suggestions as seem to you founded in good judgment and to your wise restraint of such other notions of my own as you have deemed ill advised. It is a matter of mutual congratulation as well as a consideration of inestimable advantage to the work of the schools that the Superintendent and Board can reciprocate confidence.

For convenience and brevity in this communication I will offer a general reduction of the means in attaining good results in school to two, viz : To get the pupils to school, and to give them the best of service when they do attend, and will limit my observations upon common school matters to those two.

An examination of the figures relating to school enrollment for the past three years will reveal some interesting facts. Two hundred eighteen pupils began their school career, entering the first grade in September, 1903 ; one hundred eighty-four in 1904 ; and one hundred seventy-one in 1905. Thus it would appear that either the population of the city is falling off or that race suicide is obtaining a foothold in our midst ; at any rate these facts alone would indicate a falling off in school attendance, but the figures show such a conclusion to be erroneous, for the total enrollment for these three years respectively was eleven hundred thirty-three, eleven hundred seventy-five, and twelve hundred seventeen. Thus with a continually decreasing number beginning the school course, the attendance is actually increasing. This is an encouraging sign, for it means that of those who begin to go to school a larger number are remaining in school through the grammar grades, or that they remain in school longer before dropping out to go to work or to meet a worse fate. That at least the latter half of this conclusion is correct is attested by the following table showing the enrollment by grades, as returned at the end of the first two weeks of the fall terms.

GRADE	I	II	III	IV	V	VI	VII	VIII	IX	TOTAL
1903	218	143	163	156	118	103	84	79	69	1133
1904	184	160	148	144	155	123	95	88	78	1175
1905	171	152	163	139	164	142	126	90	70	1217

Thus it appears that in the first four grades, where it is conceded that practically all the children in the city attend school any way, there has been a gradual falling off, while in the remaining grades, with the sole exception of the ninth, where there is a growing tendency to leave school, the increase in attendance has been equally marked and uniform.

Another table will show the total and average attendance by terms, for the past three years.

	1903		1904			1905		
	Sum.	Fall.	Win.	Sum.	Fall.	Win.	Sum.	Fall.
Total Att.,	1103	1209	1133	1137	1198	1144	1200	1249
Av. Att.,	1003	1068	953	1012	1066	988	1075	1131

This table shows that there has been a gradual gain in both the total and the average attendance and that the average attendance at the present time exceeds the total attendance of 1903.

These tables show a very gratifying tendency to remain in school longer than formerly, and this gain is not entirely the product of chance; on the other hand, when I first took a survey of the schools of this city I was struck with what seemed to me to be the needless disappearance of pupils from school before the completion of their course, and I have during no moment of time since then lost sight of the importance of a remedy. I believe that more ought and might have been accomplished than has been, for I have been somewhat at loss to know what means could be most effectively and advantageously applied. A system of slips, approaching a card index was adopted and has gradually been perfected by means of which a complete record of the attendance in each room is kept in the office of the Superintendent, embracing the date of birth, place of birth, parentage, residence and grade of every

pupil, so that an inquiry concerning any child of school age in the city will disclose whether or not he is in school, and if so in what room and grade he may be found.

In addition to this, the teachers have co-operated in great efforts toward holding in the course each and every pupil and in discouraging in its incipency the disposition to leave school. Then during the present school year, a systematic and determined truancy campaign has been carried on which has brought good results. It cannot be said that no evasion or violation of the truancy laws has been permitted, but two exceedingly faithful and efficient truant officers have held themselves at the disposal of the teachers and have reduced the unnecessary absence from school to a minimum. The number of cases of truancy reported to this office since the beginning of the present school year is 47, and the number investigated by the officers is 34, all of which has had a moral influence extending further than to the case dealt with.

I have spoken of getting the children to school, and what I have to say now pertains to giving them good service after they get there.

Increased attendance has made the employment of more teachers necessary. The Evans street and Ligonía schools, each provided with but two teachers for the nine grades became so crowded that additional teachers had to be supplied. At Ligonía the extra teacher was assigned to the lower, and at Evans street to the upper grades, and it is not enough to say that the additions have added to the efficiency of the schools—without them school work could no longer have been maintained. At Elm street the addition of a fourth teacher to assist Miss Cummings needs no apology.

An increased amount for teachers' salaries is imperative, not only to provide for these additions to the number, but in order to obtain the services of the best possible candidates for vacant positions as they arise, and to retain the services of the best of those already in our employ when they are tempted to more inviting fields.

The personnel of our teaching force is better than ever before. I have bestowed very little effort in the direction of getting rid of teachers who seemed to be not of the best, and what I have bestowed may have been unwisely bestowed; one may be charged with too many motives other than the proper ones to make it an inviting field of activity, but I have with what care and discernment I could command, striven to encourage the filling of vacancies only with those who gave promise of adding to the strength of the force, and with your counsel which has not infrequently given the wise determination to doubtful cases, the results give no cause for reproach.

I do not believe that our corps of teachers can be duplicated elsewhere as to fitness and efficiency for the money paid. I do not believe we can duplicate it another year. I am not certain that we can retain the entire force for the remainder of the present year without some advances in wages. Even as we are getting used to the fact that teachers are plentiful and that every vacancy precipitates a scramble among candidates, the pendulum has swung the other way and today positions are hunting for teachers as frequently as the reverse is the case. The positions of stenographer and trained nurse are offering better financial inducements than does teaching, and they demand an equal standard of good health, morals and intelligence. The consequence is that while there will always be on the waiting list a contingent of those who would take a school at any price, yet if we would keep up the standard of our force we must go into the market and pay the market price.

When a girl can work in an office fifty-two weeks at ten dollars a week with little or no responsibility cast upon her, it is too much to expect a girl of the same capacity to undertake a year of thirty-six weeks at ten dollars per week, engaged in the brain wearing and nerve racking employment of a teacher.

Meetings of the teachers have been held at the Knightville school house every fourth Friday afternoon, at the close of the

school session. A marked interest has been shown in carrying out the programs which have been participated in almost exclusively by the teachers. Live subjects, relating to the daily work and the common problems, have been discussed and a greater uniformity in the work of the several grades has resulted.

Your wisdom in adding music to the course of study and in the selection of a teacher as well, has been amply demonstrated; very flattering progress in this science has been made and what is of more consequence, a general awakening to the possibilities of the art on the part of both teachers and pupils has become manifest. This work should be continued and provision for its support should be made in the coming year's appropriations.

An article appeared in the School Journal of December 2, 1905, written by a Springfield grammar school principal, in which the writer stated that some time since there was found in a store room in one of the Springfield schools, a complete set of examinations which had been given to the pupils of the ninth grade in that city in 1846; together with them was found the papers written by all the pupils and the computation of results. It occurred to the writer that if these identical examinations were to be given to the present ninth grade it would afford a very fair basis for comparison of the work of the schools of 1846 with that of the schools of the present, and might throw some light on the mooted question of whether the pupils of to-day are getting better instruction in the rudimentary studies than formerly. The examinations, being in spelling and arithmetic, were given last Fall and the following comparison of results was shown :

	1846.	1905.
Number of pupils examined,	85	245
Spelling, per cent. correct,	40.6	51.2
Arithmetic, per cent. correct,	29.4	65.5

Which, in the mind of the writer, was pretty conclusive evidence of the better instruction furnished by modern schools,

especially in view of the fact that the ninth grade pupils then averaged more than a year older than those of to-day.

I saved the article, and on Friday of the second week of the present term I sent the examinations to each of the grammar school principals, directing them to give them to their ninth grade pupils the following Monday forenoon, observing the customary precautions against the gaining of any unfair assistance. The following words composed the test in spelling:

Accidental, accessible, baptism, chirography, characteristic, deceitfully, descendant, eccentric, evanescent, fierceness, feignedly, ghastliness, gnawed, heiress, hysterics, imbecility, inconceivable, inconvenience, inefficient, irresistible; and the questions below made up the examinations in arithmetic:

1. Add together the following numbers: Three thousand and nine, twenty-nine; one, three hundred and one, sixty-one, sixteen, seven hundred two, nine thousand, nineteen and a half, one and a half.

2. Multiply 10008 by 8009.

3. In a town five miles wide and six miles long, how many acres?

4. How many steps of two and a half feet each will a person take in walking one mile?

5. What is one-third of $175\frac{1}{2}$?

6. A boy bought three dozen of oranges for $37\frac{1}{2}$ cents and sold them for $1\frac{1}{2}$ cents apiece; what would he have gained if he had sold them for $2\frac{1}{2}$ cents apiece?

7. There is a certain number, one-third of which exceeds one-fourth of it by two; what is the number?

8. What is the simple interest of \$1200 for 12 years, 11 months, and 29 days?

The papers as written by the entire ninth grade in attendance that day were returned to us in the afternoon and the results were so gratifying, that I have thought it proper to present to you in this report as showing how the work in our

schools in these particular studies compares with Springfield, and at the same time affording a more or less fair comparison of the work of the several schools of the city. The following table represents the work done by our pupils :

SCHOOL.	Number pupils taking exam.	Arithmetic Av. per cent.	Spelling Av. per cent.	No. getting 100 in Arithmetic.	No. getting 0 in Arithmetic.	No. getting 100 in Spelling.	No. getting 0 in Spelling.
Willard	5	65	47	0	0	0	1
Henley.....	27	98.6	39	25	0	0	3
Knightville.....	6	52	53.3	0	1	0	0
Heights.....	1	40	35	0	0	0	0
Evans Street.....	16	80	58	5	0	1	0
Ligonia	3	83.3	35	1	0	0	0
Cash Corner	5	100	59	5	0	0	0
Westbrook Street.....	5	100	53	5	0	0	0
Totals.....	68	86.8	45.6	41	1	1	4

My conclusion from these figures is that more attention might very profitably be given to spelling, and that we need not be ashamed of our work in arithmetic. It must be remembered that the grammar schools of the larger Massachusetts cities include algebra, science, manual training, drawing, sewing, cooking, modern languages, and even Latin, in their courses of study ; arithmetic receiving only its proportionate share of attention among the rest, which should explain the higher average in that study attained by our pupils who have it as one of but four principal branches. This result should in a degree reconcile us to the plan of not branching out in our curriculum faster than our means will permit us to do consistently with thoroughness.

Another conclusion is that the Nichols arithmetic in combination with intelligent teachers, are better for the pupils than the old-fashioned book with rules by means of which parents could send their children to school each morning with their problems all worked out. I am pleased to say that in this examination those of the examples requiring the greatest

application of the analytical powers were the ones most generally correctly done, while those done by rule, calling for no mental work, but only a little care, were the ones upon which the most failures were made. Moreover, two of the teachers reported to me that they gave the questions to their eighth grade pupils and that these did nearly as well as the ninth, which is accounted for by the plan of the books whereby all the subjects belonging to arithmetic are treated in an elementary way in the book belonging to the seventh grade, a repetition of them being made with more completeness in the eighth grade, while the final book of the series takes up no new arithmetical subject but treats of them all in their entirety, requiring the working of advanced problems. Thus, a pupil who is forced to leave school a year before the completion of the course is not compelled to go out in complete ignorance of any of the processes, while under the old plan a pupil might, by leaving school at the right time (which, of course, would be the wrong time) go into life proficient in ability to compute interest, but wholly unable to figure the area of a circle.

The prospect of improved conditions to be made possible by the addition of the new Pleasantdale school house now in process of construction is very gratifying. Another school year ought to and doubtless will see the schools of wards six and seven on a par with those of the easterly wards, for the quality of the teaching force there employed assures the best of results whenever the physical conditions can be made to conform to modern requirements.

Three years ago when the agitation for this new school was commenced, I stated to the friends of the project and to the city council that the importance of immediate action was emphasized by the fact that the rapid increase in numbers in immediate prospect would give rise in a short time to a demand for enlarged accommodations in the form of a grammar school in the Broadway section, to relieve the crowded conditions soon to become acute in Knighville and in wards two and three, and I then said that unless the Pleasantdale build-

ing was built at once there would be no respite between its completion and the enforced movement for the Broadway school, if indeed too much of a delay should not result in the building of the latter named school first. Events have corresponded pretty nearly with my prediction, for with the well known lack of suitable accommodations in Knightville and the occupancy of the hose house in South Portland, the move made last spring for the Broadway school was recognized as premature only in defence to the prior claims of Pleasantdale, and it is generally understood that the movement to be made in that behalf this year will commend itself to the people as deserving of a response, not only for the sake of relieving some of our best citizens from the very justifiable decision to send their young pupils out of town to school rather than to subject them to the untidy and unsanitary conditions obtaining in Knightville, but as in harmony with and conducive to the very creditable and exceedingly desirable growth along Broadway.

The principal of the high school reports a registry at present of ninety-seven, with an average attendance of ninety-one, of which number twelve are preparing for college, while more than half are taking the purely English course.

The addition of a sub-principal to the teaching force is proving of advantage and the selection of Mr. Turner for the position appears to have been a happy one, for he possesses the qualifications of close application and careful attention to detail so essential to success in teaching the exact sciences. The principal complains of a lack of uniformity in the character of the preparation of the different pupils entering the school and says that more pupils suffer from being too young when entering than too old.

Recent graduates of the school are at present taking high rank in both technical and academic colleges, which refute the statement which has been carelessly made that the school does not fit for college. This idea had its origin in the fact that certain pupils who did not take the college preparatory course

and who at the time of graduation would have been glad to have been in position to go to college, have expressed regrets at being unable to do so without further preparation, and thus an erroneous impression has been created. The principal recommends that parents determine at the time their children enter, if there be any possibility of their going to college, and see that they take the proper course from the first, and I am of the opinion that with proper restrictions the principal might wisely be given authority to require such pupils as in his judgment ought to do so, to take the college preparatory course for the first year.

High schools of the size of ours may be found that are its superior in standing, but they will be found to show a far greater excess over ours in the cost of maintenance.

While the city council by the amount of their appropriations finally determine the degree of efficiency to which our schools may attain, it is, nevertheless, possible for you, by your active display of interest in their welfare, to wield a large influence in bringing about the desired results.

Very respectfully submitted,

L. M. SANBORN,
Superintendent of Schools.

Vital Statistics

OF THE CITY OF SOUTH PORTLAND, FOR THE YEAR
ENDING JANUARY 31, 1906.

There has been returned to the City Clerk's office for record 75 marriages, 111 deaths, 145 births during the municipal year.

MARRIAGES.

DEATHS.

The following is a list of the dead, including the name, age and cause of death :

SOUTH PORTLAND.

1904.

- Dec. 13. Henry T. Crane, 25 yrs., 11 mos., 13 days, acute pneumonia.

1905.

- Feb. 9. Henry A. Smith, 34 yrs., 5 mos., 11 days, typhoid pneumonia.
13. Mary Jane O'Neil, 70 yrs., apoplexy.
16. Rachel Harmon, 87 yrs., 9 mos., 10 days, pulmonary œdemia.
16. Mary A. Allen, 47 yrs., 3 mos., 5 days, dilation of heart.
21. Charles L. Curtis, 29 yrs., 11 mos., 19 days, typhoid fever.

- Feb. 22. Abbie W. Scott, 72 yrs., 1 mo., 4 days, scirrhus tumor.
23. Caroline A. Thompson, 80 yrs., 5 mos., affection of heart.
23. Leona S. Brangan, infant.
- Mar. 5. Fannie E. Clark, 17 yrs., 7 mos., 26 days, abscess of brain.
10. Infant Landingham, 3 days, innutrition.
11. Eugene S. Palmer, 57 yrs., 11 mos., 12 days, falling from engine, accident.
17. Elsie May Cobb, 3 years, 5 mos., 15 days, anemia, following operation.
21. Anna M. Lejonhud, 61 yrs., 1 mo., 12 days, cancer of stomach.
26. George W. Libby, 85 yrs., 10 mos., pneumonia.
29. Mary W. Dyer, 90 yrs., 4 days, cancer of chin.
- April 3. Irene Annie McCann, 1 yr., 11 mos., 21 days, tubercular meningitis.
10. Herbert L. Hutchinson, 5 yrs., 5 mos., 10 days, tubercular cerebro spinal meningitis.
11. Catharine S. Sawyer, 76 yrs., 8 mos., 23 days, cerebro apoplexy.
11. Lucinda E. Libby, 68 yrs., 9 mos., paralysis.
13. Edith S. Dyer, 36 yrs., 6 mos., 15 days, pulmonary tuberculosis.
21. Howard Austin Abbott, 32 yrs., 11 mos., 18 days, diabetis mellitus.
22. Delia Agnes Grace, 25 yrs., peritonitis gastritis.
23. Mary E. Moon, 29 yrs., 11 mos., ulceration of bowels and bronchitis.
- May 12. Mary E. Wright, 76 yrs., 5 mos., 1 day, paralysis, old age.
13. Essie M. Fisher, 10 yrs., 8 mos., 19 days, diphtheria.
13. Catherine McCarthy, 79 yrs., apoplexy.
14. J. W. Blake, 70 yrs., 6 mos., 16 days, malignant disease of liver.

- May 16. Joseph H. Dyer, 67 yrs., 3 mos., 25 days, heart trouble.
18. Olive Skillings Peables, cyanotic.
19. Infant, Fifield, 4 days, premature birth.
- June 1. Harry V. Cole, 7 days, premature birth.
2. Joseph S. Pillsbury, 58 yrs., 11 mos., 4 days, cancer.
11. Sylvester Doe, 75 yrs., 5 mos., 19 days, enlargement of heart.
13. Milton C. Duncan, 42 yrs., purpura haemorrhagica.
16. Irving F. Lowell, 1 yr., 1 mo., 19 days, tuberculosis meningitis.
26. Josiah Starling, 79 yrs., 10 mos., 22 days, senility.
- July 3. Margaret F. Flint, 68 yrs., nephritis.
11. Adelia A. Brackett, 59 yrs., 7 mos., 9 days, cancer of kidney.
10. John F. Smith, 16 yrs., 3 mos., 18 days, accidental drowning.
16. Fred H. Rundlett, 40 yrs., 2 mos., 24 days, heart failure, general debility.
17. Alice M. Farr, 47 yrs., angina pectoris.
22. John W. O'Neil, 19 yrs., 3 mos., 12 days, epilepsy.
- Aug. 1. Enoch L. Littlefield, 68 yrs., 7 mos., 13 days, apoplexy.
5. George H. McCalmon, 52 yrs., 9 mos., 26 days, apoplexy.
5. Mary Webb Dyer, 84 yrs., 21 days, gangrene, with old age.
10. John B. Knight, 71 yrs., 11 mos., 24 days, chronic Bright's disease.
10. Alice M. Lowe, 10 mos., 11 days, infantile diarrhoea.
11. Fannie Leona Clark, 6 mos., 12 days, cholera infantum with meningitis.
12. Estella May Elliott, 6 mos., 7 days, cholera infantum.

- Aug. 14. Joseph M. Jones, 7 mos., intestinal inflammation.
 15. Wm. J. McDonough, 1 yr., 5 mos., cerebral hemorrhage.
 19. Arminta Atkins Guilford, 85 yrs., 9 mos., 9 days, old age.
 19. Robert F. Ballard, 77 yrs., 1 mo., 7 days, disease of heart.
 29. Infant, Bridges, 17 days, heart failure.
 29. Sarah Jane Osborne, 57 yrs., enteritis.
- Sept. 2. Everett King Staples, 2 yrs., 9 mos. 14 days, tubercular meningitis.
 4. Rose A. McIntyre, 60 yrs., 8 mos., 8 days, cancer of stomach.
 5. William E. Ryan, 7 mos., cholera infantum.
 11. Ida Trefethen Skinner, 28 yrs., dilation of heart with nephritis.
 11. Frank J. Dodge, 4 mos., 6 days, meningitis.
 13. Althea Ruth Stetson, 1 yr., 6 mos., 16 days, enterocolitis.
 18. Frank R. Massie, 4 mos., 4 days, meningitis.
 23. Wm. H. Crowley, 1 mo., 14 days, inanition.
 25. Julia M. Rideout, 85 yrs., 2 mos., 17 days, old age.
 29. Mary Depetre, infant, stillborn.
- Oct. 6. James M. Pond, 88 yrs., 4 mos., senility.
 7. Robert T. Baker, 63 yrs., 5 mos., 15 days, cancer of stomach.
 17. Cynthia Boultonhouse, 95 yrs., 8 mos., 19 days, senility.
 20. Charles H. McGee, 4 mos., tubercular meningitis.
 22. Caroline Stanwood Sawyer, 81 yrs., 7 mos., 8 days, apoplexy.
 22. Ina Welch, 4 mos., tubercular meningitis.
- Nov. 1. Hannah E. McFarland, 72 yrs., 6 mos., 5 days, cerebral apoplexy.
 4. Daniel Sawyer, 78 yrs., 3 mos., 7 days, apoplexy.
 4. Sarah J. Walker, 79 yrs., 4 mos., 11 days, valvular disease of heart.

- Nov. 17. Albert W. Kelsey, 89 yrs., 9 mos., 21 days, senility.
 19. George W. Clark, 87 yrs., 4 mos., 6 days, senility.
 20. Clarence Coney, 15 yrs., 8 mos., 25 days, accidental drowning.
- Dec. 5. Susan M. Hall, 61 yrs., 5 mos., apoplexy.
 10. Alice L. Crowell, 49 yrs., 5 mos., abdominal tumor.
 15. Lydia A. Dyer, 64 yrs., 9 mos., apoplexy.
 23. Lucy Gott, 91 yrs., 9 mos., 11 days, senility.
 23. Joseph P. Murray, 37 yrs., 10 mos., laryngeal tuberculosis.

1906.

- Jan. 1. Melvin Arthur Waters, 1 mo., 14 days, whooping cough.
 3. Emily Howland, 91 yrs., 3 mos., 18 days, senility.
 8. Andrew J. Brown, 65 yrs., paralysis.
 13. Sarah E. Dam, 52 yrs., eraemia.
 25. Michael J. McCourt, 34 yrs., carcuionea, intestinal.
 27. Martin H. McIntire, 64 yrs., 4 mos., 15 days, cystitis tuberculosis.

PORTLAND.

1905.

- Feb. 9. Jane Stewart, 71 yrs., 5 mos., 9 days, pneumonia.
- Mar. 11. Wilfred D. Booth, 51 yrs., 4 mos., 12 days, heart failure, probably from vrasmia.
 24. Harriett E. Dolley, 34 yrs., 6 mos., 9 days, tuberculosis.
 26. Lucinda C. Crocker, 68 yrs., 18 days, angina pectoris.
- April 19. Emeline P. Philbrook, 67 yrs., diabetis.
- July 30. Harry W. Cole, 24 yrs., appendicitis.
- Aug. 5. Mary Webb Dyer, 84 yrs., 21 days, gangrene with old age.
 20. Mary McClean, 91 yrs., senility.
- Sept. 10. Elnora B. Greenstreet, 28 yrs., 4 mos., 16 days, tubercular consumption.

Oct. 2. Florence E. Colberg, 5 yrs., 1 mo., 17 days, pneumonia.

Nov. 27. Isaac Silverman, 21 yrs., shock following accident.

Dec. 14. Alice Elizabeth Dolley, 9 mos., 25 days, pulmonary tuberculosis.

20. Walter B. Weeks, 34 yrs., tuberculosis.

1906.

Jan. 20. Eunice P. Ostman, 2 mos., cerebral meningitis.

LOS ANGELES, CAL.

1905.

May 8. Willis C. Forbes, 25 yrs., septic infection.

LEWISTON.

29. George W. Miller, 26 yrs., 8 mos., 26 days, pneumonia.

AUGUSTA, ME.

June 6. Max Temken, 30 yrs., uremia following chronic nephritis.

Dec. 12. Woodbridge G. Osborne, 68 yrs., chronic melancholia.

CAPE ELIZABETH.

June 25. (Infant) Breeman, 11 hours, alactasia pulmonus.

28. Amanda E. Dyer, 70 yrs., 6 mos., 4 days, heart disease.

WALTHAM, MASS.

July 6. Caroline Rowe Gilbert, 58 yrs., 1 mo., 27 days, heart disease.

BOSTON, MASS.

April 4. Carolyn Vena Mooney, 3 mos., colitis.

SCARBORO.

Oct. 13. Stephen Harris, 87 yrs., 10 mos., cancer of stomach.

Report of Board of Registration.

To the Honorable Mayor and Board of Aldermen :

GENTLEMEN :— We beg leave to respectfully submit the following, our seventh annual report :

The past year, an " off " one in politics and elections, has made but little work for this board. Two sessions only have been held by us, the one prior and incident to the municipal election, March 6, 1905, and the usual annual session for revision.

In the session next preceding said municipal election, we added, by registration, 93 new names to the voting lists. These, together with the 1,485 borne on the then posted lists, brought the total up to 1,578, the highest number we have attained in any election.

May 1, 1905, the official tenure of the two subordinate members of this board expired, and on nomination by the republican and democratic city committees, respectively, said two members : i. e., Marcus C. Hanna and James K. Turner were re-appointed by Mayor Weeks for another term. Both were duly qualified by City Clerk W. E. Allen, as per record by said city clerk.

Our session for revision, which usually follows close upon the spring canvass of the assessors, was, on account of serious illness in the family of Chairman Fuller, postponed from time to time. Meantime, the City of Portland having called an election to vote upon the question of the union of the two cities, it was deemed expedient to further defer all work by this board until said election (Dec. 19, 1905) was held and the result made public.

As our city grows in population, it is to be expected that each year will show an increase in the number of new voters

added, as well as an increase in the number of those, who for valid reasons are dropped from the lists. The past year seems to demonstrate, at least, the latter part of this simple proposition.

Inspection of the list of polls of our city as transmitted to us by the Board of Assessors, compared with the voting lists used in the March election, 1905, revealed an apparent loss to us of 170 names. A conscientious and pains-taking analysis of these missing names resulted in our dropping 90 of them ; 20 by reason of death, and the others (70) for evident removal from our city. We also discovered and confirmed 52 ward residence changes.

Action thus far left us with 80 other missing voters (many of them undoubted citizens of our city) to account for and dispose of, which we sought to do by treating them as directed under Sec. 11, State Registration Law. A later sifting of these names led us to drop off 31 more of them, thus increasing the stricken list to 121 total for the session and year. This reduces the now posted lists to 28 names less than the corresponding ones of a year ago contained, an indication, not only that this board keeps the voting lists thoroughly purged of all "deadwood," but that our city finds it hard to increase its voting strength much beyond a 1,500 total.

Copies of the revised lists, now posted in the several wards, prior to the forthcoming March election, contain an aggregate of 1,457 names.

As exhibited by wards, the posted lists foot up as follows : Ward 1, 201 ; Ward 2, 234 ; Ward 3, 230 ; Ward 4, 194 ; Ward 5, 149 , Ward 6, 198 ; Ward 7, 251. Total, 1,457.

A session for the registration of new voters, embracing the following dates, viz. : Feb. 27 and 28, and Mar. 1, 2 and 3, 1906, will be our next work.

MELVILLE B. FULLER,	} <i>Board of</i>
JAMES K. TURNER,	
MARCUS A. HANNA,	
	<i>Registration</i>
	<i>of Voters.</i>

Memorial Day Report, 1905.

To his Honor the Mayor and the Honorable Board of Aldermen, South Portland, Maine.

GENTLEMEN :— I submit the following report of the observance of Memorial Sunday and Memorial Day, 1905, by the South Portland Veteran Association, assisted by members of the City Government and citizens.

OBSERVANCE OF MEMORIAL SUNDAY, MAY 28th, 1905.

At the invitation of Rev. A. C. Gilmore, pastor of the North Congregational church, the Veteran Association to the number of thirty-five, with Mayor Weeks and ex-Mayor Reynolds, attended divine worship at the church on Meeting House Hill. The church decorations consisted chiefly of a display of the national colors. The text chosen as a base of the sermon was from the Proverbs, which declares that "righteousness exalteth a nation, but sin is a reproach to any people." The trend of the speaker's remarks were that while disunion and slavery were no longer thought of, the fair fame of the nation was being clouded and smirched by greedy trusts, soulless corporations and self-seeking and dishonest men having control of the affairs of town, city and national governments. And unreasonable mobs of idle and vicious men hindering other men willing to labor from gaining an honest living. The speaker declared that these evils must be met by the same spirit which possessed men from '61 to '65. A spirit which dared to do or die even that the right might triumph. The service closed by the audience singing "America," and with benediction by the pastor.

OBSERVANCE OF MEMORIAL DAY, MAY 30th, 1905.

Twenty-five members of the Veteran Association together with his honor the mayor, George H. Weeks, alderman Thompson of Ward 1, Mr. Delano, city treasurer, Rev. A. C. Gilmore and Rev. W. P. Lord, assembled at the square in

front of the city building, Knightville, at nine o'clock in the morning, where barges were taken for the usual round of the cemeteries within the city limits.

Brown's Hill was the first to receive our attention. Twenty-five graves were decorated here. Prayer and benediction by the Rev. W. P. Lord and appropriate pieces were sung by the quartette. A detachment accompanied by Rev. A. C. Gilmore visited and decorated with special decorations the graves of Comrades Evans, Palmer and others at Forest City cemetery.

At Bay View the usual services of prayer, singing and benediction were observed. The graves of comrades were decked with the flags and wreaths, common on such occasions. On returning to Knightville a collation was served, to which ample justice was done by the veterans and their guests. The mayor being aware of the fondness of most old soldiers for tobacco smoke, presented the association with a box of cigars, and judging by the look of contentment which settled on the faces of those who indulged in the habit of smoking, they must have been fine. A vote of thanks was given the mayor for the present.

At Mount Pleasant, graves were visited and decorated with flags and wreaths. The school children who assembled at this cemetery under the direction of Comrade Henley and their teachers and sang so sweetly, was a very pleasing feature and was very highly appreciated by the people present.

The Soldier's and Sailor's Monument was decorated with wreaths furnished jointly by South Portland and Cape Elizabeth. At the conclusion of this service, the North Church was quickly filled with an eager audience. The exercises at the church was begun by singing by the quartet, followed by prayer.

The orator of the day, the Rev. A. C. Gilmore was then introduced, who pictured in glowing terms our wonderful growth as a nation from a few illy fed and poorly clad mortals on the sands of Plymouth and the banks of the James, sur-

rounded by "savage beasts and still more savage men," depending on the woods, the sea, the streams and flats for food, to a mighty host of more than 80 millions, covering the land from the Atlantic to the Pacific, from Canada on the north to Mexico on the south, taking to our protection vast stretches of country hiding untold billions of gold formerly belonging to Russia, and reaching out over the Pacific 12000 miles, embracing 8,000,000 of Filipinos who are hailing with pride our flag as their flag, and holding the Hawaian Islands as a convenient stopping place on our way to our possession in the far east. Truly no other people have been so favored by the Ruler of the Universe.

The reading of Lincoln's Gettysburg address by Miss Jennie Files was particularly fine.

The roll of honor read by the secretary, included 103 buried at Mount Pleasant, 25 at Brown's Hill, 19 at Bay View, 7 at Fort Preble, 10 at Forest City, 2 at Evergreen, 1 at Skunk's Hill and 1 on the Mark Dyer farm just west of the Freewill Baptist church.

"On fumes eternal camping ground
Their silent tents are spread,
While glory guards with solemn round
The bivouac of the dead."

After the oration, patriotic remarks were made by Rev. Mr. Lord, Rev. Mr. Davies, Rev. Mr. Smith, Rev. Mr. Bragg, His Honor the Mayor George H. Weeks, and others.

The exercises closed by quartet and audience singing America and benediction by Rev. Mr. Gilmore.

GEORGE F. SMALL,

Secretary South Portland Veteran Association.

The following condensed report from the Quartermaster's itemized account shows to what extent and for what purposes the annual appropriation (\$125) by the City was expended :

APPENDIX.

RULES OF THE CITY COUNCIL.

SEC. 1. The presiding officer shall take the chair promptly at the time appointed for the meeting, and having called the Council to order, and a roll-call showing a quorum present, shall proceed at once to business.

SEC. 2. He shall be entitled to speak on questions of order, but not on any other question when occupying the chair ; shall decide all questions of order subject to an appeal to the Council, declare all votes, preserve order and decorum, and shall appoint all committees unless they are otherwise provided for.

SEC. 3. When stating a question or motion, or when addressing a Council, the presiding officer shall rise, but may read sitting.

SEC. 4. When a question is under debate no motion shall be in order except the following :

1. To adjourn.
2. The previous question.
3. To commit.
4. To amend.
5. To postpone indefinitely.
6. To lay on the table.

SEC. 5. A motion to adjourn shall always be in order except when immediately repeated.

Sec. 6. The following questions shall be decided without debate :

1. To adjourn.
2. The previous question.
3. All question of order and appeals from the decision of the chair thereon.
4. To lay on the table.

SEC. 7. When a vote has been passed, any member who voted in the majority may move a reconsideration of said vote at the time, or at the next succeeding regular meeting, but not afterward, but a vote to reconsider shall require a majority of all the members of the Council.

SEC. 8. Every member present shall vote unless specially excused by the Council before the vote is taken.

SEC. 9. A motion to commit shall take precedence of all amendments of the main question.

SEC. 10. Every motion shall be reduced to writing if any member shall so request.

SEC. 11. The enacting form as an ordinance shall be as follows: "Be it ordained by the City Council." The form of an order shall be as follows: "In City Council, Ordered:" etc. The form of a resolve shall be: "In City Council, Resolved:" etc.

SEC. 12. When a vote is doubted, the members for and against the motion shall rise when called upon by the presiding officer and remain standing until counted.

SEC. 13. No member shall speak more than twice on the same question at any one meeting, unless by permission of the Council.

SEC. 14. The Council may resolve itself into committee of the whole on any question, and the presiding officer shall appoint a member who shall occupy the chair.

SEC. 15. Special committees of the Council shall report within one month, unless further time is granted.

SEC. 16. When a member wishes to speak, he shall rise and address the presiding officer, and not proceed until recognized by the chair. He shall confine himself to the question under discussion and avoid intemperate and abusive language.

SEC. 17. The Clerk shall keep a record of all votes, orders, ordinances and other proceedings of the Council in a journal; shall prepare and present to the Mayor all votes, ordinances and documents requiring his signature, unless the Council shall otherwise direct; shall notify, or cause to be notified, all

members of the Council of the time of special meetings, as provided by the charter ; and shall perform such other duties, not inconsistent with the charter, as the Council may from time to time prescribe.

SEC. 18. All by-laws passed by the City Council shall be styled ordinances, and shall receive at least two readings before they are finally passed to be ordained, not more than one of which readings shall be at the same meeting of the City Council ; and all amendments, alterations or repeals of ordinances shall be made in the same manner and subject to the same number of readings as original ordinances.

SEC. 19. None of these rules or orders shall be suspended unless by a two-thirds vote of the members present ; and such suspension shall continue only during the meeting at which such vote is taken ; and no rule or order shall be altered or repealed unless written notice shall have been given at a preceding meeting, nor unless a majority of all the members of the Council vote to so alter or appeal.

SEC. 20. All questions of order not herein provided for shall be decided by the presiding officer subject to an appeal to the Council.

Order of Business.

The following shall be the order of business unless when otherwise determined by the Council :

1. Roll-call.
2. Reading of minutes.
3. Unfinished business.
4. Orders of the day.
5. Reports of the committees.
6. New business.
7. Adjournment.
