*Vic 16/2/97*

Dear Henrietta,

Enclosed is a summary of our wartime experiences beginning with a bit of background. I have not included our life here in Australia which has been pretty Rough, but I won't go in to detail here as we have been experiencing over century heat for the past three weeks--hotter than I've ever known it.

So I will try and post this off as promised. At least it's a record from my point of view, but the changes are occurring so quickly that it's out of date already.

I might improve on it at some stage, so keep this as a private copy in return for Walk a little faster. Any criticism is always *welcome*. *Love and every good wish* for '97

Sincerely Bridget Croft.

I haven't included the Reference list.
