To: UM-EMPLOYEES@lists.maine.edu

Due to recent Zoom bombing issues and security flaws, Zoom has updated its application. For University managed computers, US:IT has made the latest version of the Zoom client available as a pending update, which you can now optionally install similarly to Windows Updates. The update will be automatically installed on **Thursday, April 23rd at 7:15 a.m.** The update will not disrupt meetings in progress and will take approximately 5 minutes to complete.

For University-managed computers, if you prefer to self-install the update prior to April 23rd, please refer to the [Upgrading Zoom on a University Managed Computer](#) page for instructions on updating the Zoom client on Windows and MacOS computers.

For non-University managed computers, you can update your Zoom by following directions on [Where Do I Download The Latest Version?](#)

Should you have any questions or need assistance, please contact [help@maine.edu](mailto:help@maine.edu) or visit the UMS IT Support site (<https://itsupport.maine.edu/>) for additional support options and documentation.

Sincerely,

~ Zoom Support Team
