Introduction: COVID-19 Misinformation Challenge

Day 1: The Virus Goes Viral

Day 2: Trick or Treatment

Day 3: Doctor or Doctored?

Day 4: Fact or Fiction (Toilet Paper Edition)

Day 5: Science or Science Fiction?

Welcome to Day 2 of the COVID-19 Misinformation Challenge!

Many treatments are being considered for people who have contracted COVID-19. However, new information is coming at us rapidly, in large part because the science around COVID-19 is dynamic as drug trials continue. That means that it's not always clear what to believe about the treatment options that exist.

Your Challenge: Determine the Validity of Treatment Options for People with COVID-19

Let's Get Started with the 5 Questions Below!

1. Answer each of the questions below and click the Submit button when finished. Note: this quiz is anonymous.
2. Click on "View Score" to see what you got right and wrong, plus feedback on the answers. The answer feedback includes links to resources related to each question.

Enjoy!
