### Do members of the university community who are fully vaccinated have to participate in weekly asymptomatic testing on campus, and at UMaine offices and facilities statewide?

April 30, 2021 | [Health and safety](#), [Testing](#), [Vaccine](#)

Asymptomatic students, staff and faculty who would otherwise be required to participate in asymptomatic COVID-19 testing, which currently involves weekly testing, and who otherwise would be required to quarantine when determined to be a close contact of a positive COVID-19 case, may be exempted from testing and quarantining if they are fully vaccinated and provide verification of their fully vaccinated status to the university.

More information is on the [UMS Together for Maine website](#).
