# Together for Maine Daily Briefing and COVID-19 Data Update: 9/7/20

7  
SEP 2020

### University of Maine System COVID Data by Campus

11 — Known Cases of UMS students or employees in ME CDC Isolation

- 8 UMaine:
- 1 UMFK:
- 2 USM: One student released from isolation

There are no known cases at the other University of Maine System universities.

The above Data reflects ACTIVE known cases identified through the UMS asymptomatic screening and other testing venues. When an individual is released from an isolation order by the Maine CDC the active case number shared in the Together for Maine daily update is reduced to reflect that change. UMS is reporting 11 known cases today, 1 fewer than the number reported in the [9/6/20 update](#).

### Asymptomatic Screening Update for Fall Safe Return

- 13,364 Tests Results to Date
- 13 Positives Results Received

The Asymptomatic Screening Dashboard posted at [Together.Maine.edu](#) is under redesign to integrate data from new testing partners. We will continue to provide daily updates of our asymptomatic screening data as part of this daily briefing. Data presented here represents known results on all asymptomatic tests going back to July 22, 2020.

About 48 hours passes from the time a test sample is collected and when the results are known.
