What COVID-19 vaccinations are available?

August 2, 2021 | [Faculty and staff information](#), [Health and safety](#), [Student information](#), [Vaccine](#)

[Information about World Health Organization \(WHO\)-authorized vaccines is available on the World Health Organization website.](#)

On a local level, the university partners with local health organizations to manage the vaccination process. The availability of specific vaccines is dependent on the supply chain. Multiple vaccine brands are recognized by the university.

As of July 8, 2021, the authorized vaccines differed by country, but overall those authorized by WHO included the FDA vaccines — Johnson & Johnson, Moderna, Pfizer — plus Oxford/AstraZeneca, Sinopharm and Sinovac.

More [information about the different vaccines](#) is on the CDC website.
