How do vaccinated members of the university communities provide documentation of vaccination?

August 2, 2021 | [Faculty and staff information](#), [Health and safety](#), [Student information](#), [Vaccine](#)

All members of the university communities, including incoming new employees and undergraduate, transfer and graduate students, should upload their vaccination information via [PointNClick](#), our secure online portal. You will need your MaineStreet username and password to log on. Detailed instructions can be found [online](#). University community members can verify that their vaccination cards are uploaded successfully on PointNClick.

NOTE: Being fully vaccinated with vaccination information uploaded to PointNClick may exempt the person from weekly asymptomatic testing and other protocols, as well, depending on the trajectory of the pandemic, guidance from civil authorities and applicable public health parameters.
