Together for Maine Daily Briefing and COVID-19 Data Update: 9/10/20

10
SEP 2020

University of Maine System COVID Data by Campus

7 — Known Cases of UMS students or employees in ME CDC Isolation

- 4 UMaine:
- 1 UMFK:
- 2 USM:

There are no known cases at the other University of Maine System universities.

The above Data reflects ACTIVE known cases identified through the UMS asymptomatic screening and other testing venues. When an individual is released from an isolation order by the Maine CDC the active case number shared in the Together for Maine daily update is reduced to reflect that change. UMS is reporting 7 known cases today, the same number reported in the [9/9/20 update](#).

Asymptomatic Screening Update for Fall Safe Return

- 14,236 Tests Results to Date
- 13 positives results representing new diagnoses of COVID-19
- 1 positive result of a previously diagnosed individual, see [9/9/20 update](#) for context

The Asymptomatic Screening Dashboard posted at [Together.Maine.edu](#) is under redesign to integrate data from new testing partners. We will continue to provide daily updates of our asymptomatic screening data as part of this daily briefing. Data presented here represents known results on all asymptomatic tests going back to July 22, 2020.

About 48 hours passes from the time a test sample is collected and when the results are known.

UMS News

University System to Begin Several Rounds of Required Random Sampling for COVID-19: The University of Maine System announced details today of its planned Phase 3 surveillance and monitoring asymptomatic screening strategy. Several rounds of random and direct sampling will occur through the Thanksgiving-break transition to distance instruction. Each round will test 2,000 individuals participating in campus-based activities over approximately 10 days. Follow [this link](#) to find the press release.
