I am a student who has had COVID-19. Do I still need to get inoculated under the UMS vaccination policy?

August 6, 2021 | [Student information](#), [Vaccine](#)

Yes. Vaccination of all university students able to be vaccinated who will be in-person on campus and in our facilities is important for community health, safety and well-being. Vaccination is intended to help provide protection against serious illness, including infection by the delta variant.
