## Glean note-taking web-app

[Leave a message](#)

### Free access to Glean notetaking web-app

Classes are now online... so it's time to take note taking accommodations online too!

We at Glean want to help make the transition to online learning as easy as possible for your students, which is why we're giving free, unlimited access to our new note taking web-app Glean until August 31st 2020.

With dedicated tools for online learning built in, Glean allows students to take notes independently and record lectures wherever they are.

We've had some great feedback from student users since we launched Glean. They've told us: "Glean is a big part of helping my grades" and "Glean has been one of the very few things that have really worked. It's taught me how to take notes"

Here is a [video introducing Glean](#).

And a video showing [how to use Glean with online classes](#).

**To request access to GLEAN, just email SAS at [um.sas@maine.edu](mailto:um.sas@maine.edu).**
