ATTACHMENT TO WALLS GRADUATE STUDENT OFFICES

1. University regulations state that nothing is to be attached to the walls of any building. This has been modified to give the Building Manager of Building Hall authority to allow attachments per guidelines that he may set up.

2. The interior of the building is being repainted for the first time in 20 years, and it is important that we keep it in good shape. Unfortunately the base paint is very weak and will fall if anything is taped to the wall and removed after a few days.

3. In graduate student offices or desk areas, nothing will be attached directly to the wall except as follows:

A. For miscellaneous papers, maps, posters, etc., a thin grid or frame of thin slats may be hung from a standard picture hook. A supply of slats is available from Kin in 1198.

B. Framed pictures may be hung on standard picture hooks as appropriate. For the present, let a limit the total number of hangings to 3 per desk space.

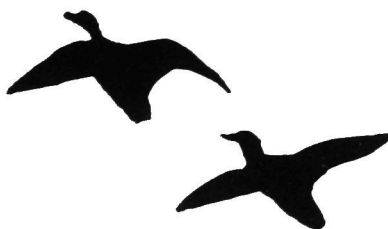

C. On paneled walls, attach picture hooks into groove areas only.

D. When you leave the College, leave the picture hooks for the next occupant. Using this system, we hope that we will be able to maintain attractive offices for you over the years.

E. If, because of the nature of your research material, have a need for some other arrangement, please contact me.

4. I am instructing the custodial staff to remove any material found on walls in violation of the above guidelines and to turn it in to the appropriate departmental office.

Richard A. Hale
Building Manager

Dear Daughter Kathie,

Don't ever stop learning about this super world of wondrous things. Don't ever stop making new friends and being one. May your future be filled with successful pursuits and much happiness. We are proud of you and your many accomplishments.

Love,

Mom and Dad

Congratulations,

Love and best wishes to Katherine Beall from the family in Worcester, New Haven and Montreal.

Contratulations George

You Made It.

Love Mom - Dad - Rachel

Congratulations Brewster!

We love you and are very proud of you.

Love Nan, Michael and Mum

Congratulations, Mark

Amazing, ain't it!!

*Our love and wishes for a
full and happy life - may
your song always be sung.*

Mom and Dad

To Rejane Wesley Butler

The next James Herriot.

You are wonderful, magnificent and terrific! We are so very proud of you. Continue to listen to your Higher Power and Feel the Fear and do it anyway.

-Plus-

Keep those wild animals tamed.

Love, Mom, Dad and sister Renee'

Congratulations Jenn. We are all very proud of you and wish you success in your career.

Love,

Mom, Dad, Tara, Ray and Doug

WE'RE PRESERVING OUR WOODLANDS FOR JOEY JOWDRY.

And Linda Lakeman, Cory Madore, Carrie Knowlton and all the other grade school kids who have already fallen in love with the Maine wilderness. We're making sure Great Northern's forest will still be flourishing when they grow up...right around the turn of the 21st century.

We're creating the forest of the future with scientific management practices. By selective use of herbicides and supplementing natural regrowth with nursery-grown seedlings, we're making our woodlands stronger than ever.

Our 21st century forest will be far more productive than ever before. But still just as beautiful as a child's imagination.

SpectrumSM Services. Conifers are free to grow.

And you're free to go.

SMSpectrum is a service mark of Monsanto Company.

Spectrum turnkey services give you more time to devote to your high priority management tasks. That's because we offer the most comprehensive vegetation management program available for environmentally conscious, cost-effective site prep or conifer release.

The Spectrum program starts with a complete aerial photographic survey. Then, our professional operations foresters will work with you to develop a treatment prescription precisely matched to your tract, selecting from most products on the market. We'll make sure the chemicals are delivered on time and mixed and applied properly. Our responsibilities also include arranging necessary aerial and ground crews.

This complete team of products and professionals allows us to guarantee that at least 80% of the living

conifers on a site will be free-to-grow two seasons after application. Plus, you have liability protection for any adverse environmental or human health effects caused by our products. That's *true* single-source service.

Call or write for our FREE videotape to find out how Spectrum can free you for more important work.

**Boise Cascade
Coated Paper Division**

Studies by the U. S. Service say that America's need for wood could double in less than 50 years. That's why all of us need to be concerned about better management of our nation's forest lands now.

Boise Cascade's foresters are working every day to learn more about the forest and how to care for it, and our experience shows that good management means healthier, more productive forest lands. For example, by adequately stocking and spacing trees, using high quality planting stock and then thinning our wood production increases significantly.

We also consider other values such as recreation, soil stability, water quality and wildlife. For instance, we modify our harvest schedules to fit wildlife needs, and we use logging systems and build logging roads that minimize erosion. We're managing the forest the best way possible so that it can help provide the resources we all need now and in the decades ahead.

LETTER FROM THE EDITOR

Well, the 1989 edition of *The Maine Forester* is finally put to print and I must say, "What a relief." No, it hasn't been bad, only a couple of nightmares of not completing the yearbook and a few tense moments of wondering if the photos are ever going to get printed.

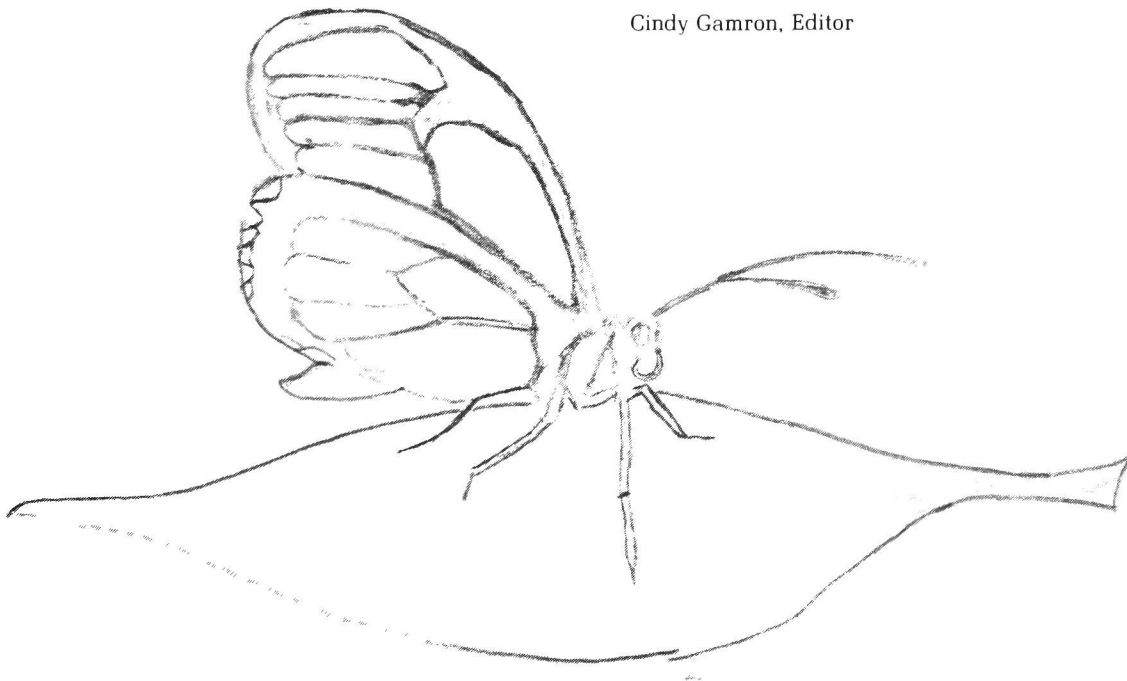

But, thanks to an incredible staff, we succeeded. Thanks to Bill W. - we learned together how to put a yearbook together; Lisa - for being so incredibly dependable; Ted - for putting up with his sister's mood swings and pulling through in the end; Dan and Amy - for helping when they could; but I think this years extra special appreciation, and believe me, it was well earned, goes to Pete and Kim. Pete did so much for the photography, and Kim never complained once no matter how much I piled on her.

Two more thanks for the staff is the silent half - Bill J. and Heather. They might not have been to alot of meetings, but they did their share of the work.

The final round of thanks goes to Louis Morin, a great guy, and the secretaries who dealt with my many questions and requests. This yearbook is as much yours as any ones else's on the staff.

As for the dedication, well, in my opinion, its very self-explanatory and I don't think anybody in this College can dispute that it's not well deserved. So with one last final thought, I officially pass *The Maine Forester* on to Bill Winchester. Good luck and I hope you have as great a staff as I did!

Cindy Gamron, Editor
