Together for Maine Daily Briefing and COVID-19 Data Update: 9/30/20

30
SEP 2020

University of Maine System COVID Data by Campus

2 — Known Case of UMS students or employees in public health agency Isolation

- 1 UMaine: New case associated with UMaine, an individual away from campus and tested apart from UMS testing program
- 1 USM: One off-campus student released from isolation.

There are no known cases at the other University of Maine System universities.

The above Data reflects ACTIVE known cases identified through the UMS asymptomatic screening and other testing venues. When an individual is released from an isolation order by a public health agency the active case number shared in the Together for Maine daily update is reduced to reflect that change. UMS is reporting one known case today, one fewer than the number reported in the [9/29/20 update](#).

Asymptomatic Screening Update for Fall Safe Return

- 16,954 Tests Results to Date
- 13 positives results representing new diagnoses of COVID-19

The Asymptomatic Screening Dashboard posted at [Together.Maine.edu](#) has been updated and is active again. Data presented on the dashboard represents known results on all asymptomatic tests going back to July 22, 2020. About 48 hours passes from the time a test sample is collected and when the results are known.

UMS News

Chancellor Dannel Malloy and UMaine President Joan Ferrini-Mundy were tested for COVID-19 as part of Phase 3, Round 2 screening at the Alford Arena in Orono today. The university leaders were among approximately 500 students, faculty, and staff who will be tested today at UMaine and more than 1,500 university community members involved in on-campus activities who have been selected at random for required screening in the ten-day round across the state. The University System [did not detect any cases of COVID-19](#) among the more than 1,900 tests completed during the first 10-day Round of Phase 3 monitoring and amplified screening.
