If this is a caterpillar's first meal,  
how can you make it the last?

With Foray™, the new field-tested and proven Bt that works harder, longer. It gives excellent deposit levels. Potent killing power. Rain-fast gripping action. And its non-oil formulation is easy to mix.

Foray does all this without harm to sensitive plants and flowers, beneficial insects, animals, or people.

Use Foray. And see lepidopterous pests get their just desserts.

# Effective, Economical and Environmentally Sound. Roundup® Lays it Lightly on the Land.

Today, more and more foresters in the Northeast are using herbicides as an integral tool in timber stand management. And the herbicide preferred most: Roundup.® Why?

Because it's so economical and effective, and one of the most environmentally sound herbicides used in forestry.

In both site prep and release applications, broad-spectrum Roundup offers Maine foresters the vegetation control and conifer safety needed to provide that production edge in the early years of stand establishment and growth.

Roundup also offers the environment something. It has no residual activity and biodegrades in to naturally occurring products.

Roundup. A forestry management tool for today *and* tomorrow.

**The Aroostook County Potato Barrel Now Creating  
Displays with a Distinctive Difference**

Hand crafted tongue & groove Cedar Barrels, Planters, Barrel-craft Displays, POP merchandisers.

A bit of Aroostook county history helping to shape Aroostook's future—through the years of hauling, dumping and rolling in field use, the barrel has endured.

The barrel has now made the transition from a hard working field hand to a star salesman. This living nostalgia we offer is new, but it's not a replica. It is the Aroostook barrel as it was: all cedar; staves fitted tongue to groove; hoops of strong elm & ash; handmade...still.

**Seems like everyone's interested  
in forestry all of a sudden.**

But you've been interested for a long time. That's why you're studying forestry or a related science. With you the forest is not something to forget about next week. It's something you care about, something you want to conserve and improve, something that will be with you for the rest of your life.

And for as long as you're going to be a forester, we're going to be there to help you — with the equipment you use every day, with the newest available technology, with answers to your questions, with just a friendly fellow forester to talk to on the telephone.

**We're in forestry with you — and for you.**

## LETTER FROM THE EDITOR

In September, Project Maine Forester, The 1990 version was set in motion. The long and winding road of sometimes seemingly endless and insurmountable tasks took its toll. However, with the help of dedicated volunteers (you know who you are) this years edition is off to the press. The 1990 staff was small but dedicated. Ted Gamron, my assistant, was a tremendous help. His diligence, patience and most of all his knowledge in and out of the darkroom was the back bone of this adventure. Between the both of us we learned a lot about ourselves and our fellow students. Alec V., Chuck G. and Karl S. were the three musketeers. These guys pulled through in the end when work had to get done. Hats off to you gentlemen, a stupendous effort!!! Vivian B., who volunteered to tackle the dubious task of advertising editor was responsible for soliciting much of our financial support. Bill J. was again the moneyman who took care of the books and eliminated one less headache for me.

A thank you goes to Amy and Julie for their contributions with photography. Gina, Linda and Cindy the three wonderful secretaries who never complained when I asked for help. Their guidance

and support is much appreciated. Whenever one undertakes a project like this the need for advice is crucial. The Yearbook advisor, Louis Morin, was always there to assist and supervise the staff. Thank you. Finally, in order for a yearbook to be readable you need material. I personally want to thank all the faculty, staff and students who contributed articles to the 1990 Maine Forester. Your cooperation and generosity is commendable.

I take great pleasure in dedicating this book to Professor Hale. He not only touched my life here in these four years, but the lives of hundreds of students throughout his illustrious career here at Maine. His smiling face in the hall, or his interesting stories all leave a lasting impression of a man who gave so much to forestry and forestry students. Best wishes for a happy retirement.

Finally, CONGRATULATIONS TO THE CLASS OF 1990. May you all succeed in your pursuit of happiness and prosperity.

Bill Winchester
