What PPE is there on campus for community members?

December 30, 2020

Health and safety

Employees returning to work on campus receive a back-to-campus kit containing two face coverings, a personal-size bottle of hand sanitizer, cardholder for mobile phone and touchless door opener.

Protective measures campuswide include hand sanitizer stations and hygiene barriers in services areas. Signage is strategically placed as a reminder to maintain social distancing, the need for frequent handwashing and what to do when you feel ill.

[A video provides information about the multiple PPE resources available.](#) In addition, UMS Safety Management offers guidance through the portal to University of Maine System employees. The [website](#) includes factsheets on [office safety guidance](#), [the physical demands of returning to the workplace](#), and a [workspace checklist](#).

The [Emergency Operation Center webpage](#) includes a COVID-19 Central Supply Request Form.
