AUG 2020

### University of Maine System COVID Data by Campus

12 — Known Cases of UMS students or employees in ME CDC Isolation

- 8 UMaine: 4 students isolating on campus and 4 students isolating off-campus
- 1 UMF: an adjunct faculty member isolating in the Farmington area
- 2 USM: 1 on-campus and 1 off-campus student
- 1 Maine Law: student isolating off-campus

Data reflects ACTIVE known cases identified through the UMS asymptomatic screening and other testing venues. When an individual is released from an isolation order by the Maine CDC the active case number shared in the Together for Maine daily update is reduced to reflect that change. UMS is reporting 12 known cases today, up from the [9 reported yesterday](#).

### Asymptomatic Screening [Dashboard Update](#) for Fall Safe Return

- 5,040 Tests to Date
- 3 Positive Tests Results to Date, see note below

**Note on Asymptomatic Positive Results:** A new positive at UMaine was identified late Sunday evening through the UMS asymptomatic screening. The Asymptomatic Screening Dashboard is updated once daily at about 5 AM and does not currently reflect this latest case.

UMS has now identified 4 positive cases through its asymptomatic arrival screening among the 12 known and active cases being reported in today's update — 2 cases at UMaine and 2 cases at the University of Southern Maine. The 8 other cases reported today in the 12 known and active cases were identified through other testing venues and have been verified through collaboration with the Maine CDC.

### UMS News

**Universities utilizing 1.8% of Isolation and Quarantine Space:** The University of Maine System universities have now set aside or identified 607 units of campus-based or hotel housing that can be used to support students or employees who are required to isolate or quarantine. While those types of spaces are distinct for the isolating and quarantining individuals, on an overall basis the universities are currently using less than 2% of available space to manage existing isolation and quarantine needs.
