Where can I find the latest updates about COVID-19 vaccinations in Maine?

March 1, 2021 | Health and safety, Vaccine

Maine has adopted an age-based approach to vaccine eligibility. The state's COVID-19 vaccination website has the latest age-eligibility schedule for Maine residents, vaccination sites, FAQs and more. It is an important resource that should be checked often for announcements of exact dates for age eligibility. A University of Maine System news release related to vaccinations is online.
