Where can I find the latest updates about COVID-19 vaccinations in Maine?

April 5, 2021 | [Health and safety](#), [Vaccine](#)

Beginning April 7, all adult residents in Maine will be eligible for COVID-19 vaccination. That includes all members of our university communities; a University of Maine System identification will be accepted as proof of eligibility.

The state's COVID-19 vaccination [website](#) has the latest information on vaccination sites, FAQs and more. It includes a new link for preregistering for a COVID-19 vaccination appointment.

A reminder to UMaine community members: [BAT Community Connector](#) bus transportation is free of charge with a MaineCard.
