Community Resource Guide for Adult Learners

10
APR 2020

The UMS Office of Student Success and Credential Attainment has compiled a list of community support for students and staff during COVID-19.

The [Resource for Adult Learners](#) includes links and key information on a range of topics including food assistance, filing for unemployment, access to WiFi, student loan repayment assistance, and child care.

If you have other resources to recommend for the list, please email us at:
UMSCSAO@maine.edu.

Many of the resources included in the guide can also be of use to University employees.
