Together for Maine Daily Briefing and COVID-19 Data Update: 9/2/20

2
SEP 2020

University of Maine System COVID Data by Campus

13 — Known Cases of UMS students or employees in ME CDC Isolation

- 10 UMaine: 2 new cases, see information in campus news item
 - 5 UMaine students isolating on campus
 - 5 students isolating off-campus
- 1 UMF: an adjunct faculty member isolating in the Farmington area
- 2 USM: 1 on-campus and 1 off-campus student

There are no known cases at the other University of Maine System universities.

The above Data reflects ACTIVE known cases identified through the UMS asymptomatic screening and other testing venues. When an individual is released from an isolation order by the Maine CDC the active case number shared in the Together for Maine daily update is reduced to reflect that change. UMS is reporting 13 known cases today, the same number of cases reported in the [9/1/20 update](#).

Asymptomatic Screening [Dashboard Update](#) for Fall Safe Return

- 7,543 Tests to Date
- 6 Positive Tests Results to Date, see note below

Note on Asymptomatic Positive Results: The Asymptomatic Screening Dashboard is updated once daily at about 5 AM and does not currently reflect the latest two cases identified in the note below under the university news post for UMaine.

UMS has now identified 8 positive cases to date through its asymptomatic arrival screening.

UMS News

University News

UMaine: There are 2 new positive cases at UM that were both identified through the UMS asymptomatic screening. One of the students lives off campus and is isolating in a personal residence. The other student identified today lives on campus and will be isolating in a university facility.

Two UMaine students have been released from Maine CDC directed isolation since yesterday's data update. Consequently, the number of known active COVID-19 cases at UMaine remains 10 cases as was reported in the 9/1/20 update. Similarly, the UMS total case count remains 13.

Criteria for the release from isolation can be found on the website of the U.S. Centers for Disease Control and Prevention [at this link](#).
