Alfred, Me., February 27, 1912.
TOWN OF ALFRED

THIS INDENTURE, made and entered into by and between the Alfred Water Company, a corporation legally established and organized under the laws of Maine and having its place of business at Alfred, in the county of York and State of Maine, hereinafter called the "Company," of the one part, and the inhabitants of the town of Alfred in their corporate capacity, being a municipal corporation legally established and organized under and by virtue of the laws of the State aforesaid, hereinafter called the "Town" of the other part.

WITNESSETH: That whereas said company proposes to construct a system of Water Works, laying and being in the town of Alfred, as may be necessary for obtaining a supply of water and laying pipes for conveying the same for the use of the inhabitants of Alfred Village and Littlefield Mills, so called, and the road connecting the same, called herein "Water District," and having iron water pipes and mains laid in the streets of said Town and twenty-two, or in case another is required for protection of Boston and Maine station, twenty-three hydrants located along and upon said streets intended for the use of said Corporation for fire purposes; and whereas said Town needs the use of said system of water works and said hydrants and for the water conveyed through the same for the protection against loss by fire and other purposes:

Now therefore, in consideration of the several promises and agreements hereinafter contained, the parties hereto agree to bind themselves and to be bound each with the other for the period of twenty years from and after the completion and acceptance of said water works as hereinafter specified.
Item 1. The said Company agrees to construct, maintain and operate a complete and efficient system of water works within said Town, and to furnish a suitable supply of pure water for all municipal purposes, such as water for fire protection, sprinkling streets, flushing sewers, school houses, all buildings used for town purposes, churches, drinking fountains, etc., as per vote of town, in said Water District with the necessary pressure to protect all buildings in the said Water District, the same to be approved by the Board of Selectmen, or if requested by the Board of Underwriters of the fire insurance companies doing business in York County.

Item 2. The Company agrees to lay mains along the streets of said Water District wherever the same may be necessary or convenient for supplying water to the inhabitants of said Town for domestic use and also for erecting and maintaining the hydrants for the use of the water aforesaid. All of said pipes to be of sufficient size and of sufficient weight and quality and the laying of the same to be done in a workmanlike manner so as to make a good and efficient system of water works, through which pipes said Company agrees to furnish to said inhabitants, at all times, an ample supply of pure water and sufficient pressure for the purposes aforesaid.

Item 3. And the said Company further agrees that it will at all times furnish through said pipes to the inhabitants of the said Town, in said Water District, a sufficient supply of pure water for domestic purposes on terms and reasonable rates fixed by said Company and this Committee, a schedule of which is hereto attached, marked schedule A. and not to be raised by said Company during said twenty years.
without some especial contingency demanding same and that the same will be supplied to takers on the lines of the public streets with the same conditions and regulations usually adopted by other water companies.

Item 4. And the said Company further agrees that it will, wherever requested to do so, by the municipal officers of said Town, extend its mains and set additional hydrants on such extensions, provided that the Company shall set at least, one hydrant for each one thousand feet of extension laid, measurements in each case to be made from the last hydrant which had been previously set on the main as extended; and also provided that said Town shall accept and pay for said additional hydrants as hereinafter provided.

Item 5. The said Company hereby agrees to set and maintain within the limits of said Town for the uses herein specified, twenty-two or twenty-three, as above stated, non-freezing hydrants, eighteen of which to be double nozzle and four of which to be three nozzle hydrants, to be located on the lines of the pipes and mains above described, the location to be fixed by said Town or its officers before the said works are accepted, and said Company further agrees to maintain and keep said hydrants in good repair at all times during said term of twenty years; and it further agrees to furnish, at all times, through said hydrants, a constant and ample supply of water under sufficient pressure for the extinguishment of fires, unavoidable accidents excepted.

Item 6. The said Company agrees that the proper officers of the Town shall have the right on all necessary occasions to properly use the same hydrants, including testing the same for the fire ap-
paratus of said Town and all other reasonable uses without additional charge.

Item 7. It is further agreed that said Town shall have the right, at any time, to have the location of any hydrant changed upon the lines of pipes of said Company by paying the actual expense of such change.

Item 8. And said Company agrees to furnish through its mains, free of charge, water for the following purposes when desired to do so by proper parties at all times during the term of this contract, viz:

To furnish water, free of charge, for all purposes named in "Item 1," (excepting fire protection otherwise provided for), at its mains for sprinkling the streets within the village of said Town from water carts, the necessary stand pipes for filling the same to be erected at the expense of the Town; for drinking fountains and public watering places established or accepted by Town at places provided by same, if in the public way, Public Library, Townhouse, and Schoolhouse in said Water District inside the outer walls of same and for churches and other public purposes at the street line in front of same.

To furnish water through its hydrants or otherwise for the purpose of flushing all sewers.

Item 9. The Company further agrees that said water works shall be constructed on or before the thirty-first day of December, A. D., 1911; and it also agrees that when said water works are completed upon any date subsequent to the signing of this contract, the Town shall upon notice to its municipal officers cause the same to be tested and if found to be satisfactory and completed according to the terms of
the contract, then it shall be accepted by said officials for and in behalf of said Town, and the terms and provisions of this contract shall run as from that date. If said Company and Town officials cannot agree as to when the works are completed and when the Company has complied with all the provisions of this contract, a Committee, consisting of one person appointed by the Company, one person by the officers of the said Town and a third appointed by the two thus chosen, which shall have full power to determine said question and all parties hereto shall be bound by their finding.

Item 10. It is further agreed that said Town shall have the right to purchase the entire works and rights of said Company at any time after said system has been completed, at a price to be agreed upon between said Company and said Town, and if said price cannot be agreed upon, then at a price that has been determined by a commission of three competent and disinterested men, to be appointed by the Chief Justice of the Supreme Judicial Court of Maine; or the said Town may pay to the Company the actual cost of the water system to said Water Company at the time of the transfer plus fifteen percent. The cost of determining the price to be paid by said Town to said Company shall be borne equally by said Town and said Company.

Item 11. And in consideration of the above promises and agreements of said Company, the said Town hereby agrees to pay to the said Company for the use of water for the purposes aforesaid the sum of one thousand dollars (\$1,000) per annum for the said term of twenty years. said sum to be paid in forty equal semi-annual payments as follows: Five
ANNUAL REPORT OF THE

hundred dollars, ($500) on the first day of December and five hundred dollars ($500) on the first day of June of each and every year during said period of twenty years. The first payment under this agreement to become due and payable on the first day of June, A. D., 1912, and the amount then due to be estimated pro rate from the date of the completion and acceptance of the water system by the Town, and the last payment shall be computed in same manner.

Said Town in consideration of the above agreement on the part of said Company hereby further agrees to pay to said Water Company, and for the water aforesaid, a further sum as follows:

To pay annually on the first day of January of each and every year during said term of twenty years, such a sum as said Town may have assessed against said Company in taxes during the preceding year, meaning and intending by this item to provide that said Town shall pay the said Company for the privileges and services above granted, the full and just sum of one thousand dollars and all taxes the Town may assess against the Company in each and every year during said term.

Item 12. And further that provided said Company shall, upon request, set any additional hydrant or hydrants on their said mains or pipes, then the said Town will add to each of the subsequent half yearly payments as aforesaid the sum of twenty-two dollars ($22) for each and every hydrant set.

IN WITNESS WHEREOF, and by virtue of the vote of the said Town, empowering thereto, the parties above named have hereunto interchangeably and in the presence of each other set their hands and
TOWN OF ALFRED

seal in their official capacity this twenty-second day of December, A. D., 1911.

ALFRED WATER COMPANY, by its President and Treasurer duly authorized to sign this contract and apply its corporate seal thereto.

HARRY G. LITTLEFIELD, President.

CHAS. N. TAYLOR, Treasurer.

The inhabitants of the Town of Alfred, by its Special Committee duly authorized by a vote of said Town.

SAMUEL M. CAME,

JAMES H. PENDER,

HERBERT G. CHADBOURNE,

Special Committee.

Report of Superintendent of Schools

To the Superintending School Committee of the Town of Alfred:

Gentlemen:—For the first time I submit to you, and through you to the citizens of Alfred, the school report for the past year. I am glad to say that in general our schools have prospered. We have had an unusual amount of sickness this year but I hope the work can all be made up before the first of next July. There has been a harmonious relation between teachers and scholars and I am pleased with the amount of work that has been accomplished.

You will notice an overdraw in Text Book and Supply Account. This is due to adding so much to the chemistry department. New books have been added this year and drawing and painting introduced in the primary and grammar schools.

I would take this opportunity to say that parents are always welcome to visit the schools and see the work of the children, and it would give me pleasure to become better acquainted with them in that way.

Our high school is larger than last year and the teachers and pupils are working hard and meeting with good results.

In conclusion, I wish to thank you, the members of the school board, for your advice and assistance. Your kindly co-operation has smoothed over many difficulties and I appreciate the support you have
given me in my work. To the teachers, pupils and the citizens in general my thanks are extended for help and kind words of appreciation.

Respectfully submitted,

ISAAC A. SMITH,
Superintendent.

Alfred, Me., Feb. 19, 1912.
To the Legal Voters of Alfred:

The enclosed report from the Librarian shows that we have had another year of prosperity.

The severe illness, however, of the President, Treasurer and Secretary, during the last month, has rendered it impossible for the annual accounts to be completed. The Directors therefore can only say that the condition of the Library is substantially the same as a year ago, and on account of the above named difficulties will excuse us from a more extended report.

As the Town has recently been to a large expense installing electricity and water works we feel that we ought not to ask the usual one hundred dollar appropriation this year.

Respectfully submitted,

SAMUEL M. CAME,
JOHN M. AKERS,
LUCIUS M. PERKINS,
E. P. FERGUSON,
HENRY G. GREEN,
HERBERT B. FERNALD.

Alfred, Maine, Feb. 29, 1912.
To the Board of Directors, Parsons Memorial Library:

Gentlemen—I submit the following as the eighth annual report of Parsons Memorial Library for the year ending March 1, 1912.

There are at present 361 cards outstanding.

Number of books loaned during the year, 6,808.
Books received from State library, 36.
Books purchased, 226.
Books replaced, 9.
Books received as gifts, 4.
Whole number of books in library, 5,609.

Mr. Lewis Conant, of Brookline, has again remembered us, this time with a fine globe, representing the earth. We have also received from the estate of the late George Phoenix a book, "The Descendants of John Phoenix of Kittery." Mrs. Olea Bull Vaughan presented, through her attorney, Mr. Bartlett, a fine portrait of her father, Ole Bull, and also his biography. We have also received the "Autobiography of Rev. Anson Rogers Graves" and the book, "Rural Versus Urban," by John W. Bookwalter, from their respective authors.

We have added two more volumes from the Library of Technology; one on Automobiles and another on Cement, Concrete, etc. We have also purchased some valuable works on bleaching and dyeing and the "Library of Home Economics," in twelve volumes, containing much helpful information on all subjects pertaining to the home, care of children, nursing the sick, household management, cooking, etc.
TOWN OF ALFRED

A good proportion of juvenile books has been added and many of the young people make good use of them, but we should be glad if still more would avail themselves of the opportunity.

The number of books loaned shows an increase over last year and the library has been used by visitors and summer people more than ever before.

While we regret that none of the best and most helpful books and magazines fail to attract the majority of readers, it is the aim of the book committee to recommend nothing to the library that is in any way objectionable or without some good qualities, and we believe that all the patrons must realize some benefits from the frequent use of the library.

Respectfully submitted,

M. C. EMERSON. Librarian.

WOOD'S DRUG STORE

The Rexall Store

Washington Street, SANFORD, ME.
Twenty Years of Experience

if experience counts for anything, ought to convince you that I am capable of doing

FIRST-CLASS WATCH, CLOCK —and— JEWELRY REPAIRING

Have made one complete Watch, which is here illustrated. Original may be seen at Central Square Store.

ECONOMY IS WEALTH

You would not run any machine without oiling and overhauling it—if you did it would soon be spoiled. It is the same with a watch. Don't wait until it is so badly out of repair as to require new parts and days of work on it. There is economy in having your watch attended to regularly—having it cleaned and oiled at least once a year. If properly done, your watch will last you a lifetime.
