Balance in Treasury, 373.62

Respectfully submitted,
MARCELLUS J. DOW, Treasurer of Brooks.

SUPERVISOR'S REPORT.

We submit the following as our management of the schools for the past year.

We have purchased the following books within the year:

- 15 copies Greenleaf's Complete Arithmetic
- 5 " Kerl's Common School Grammar.
- 9 " Meserve's Book keeping.
- 27 " " " blanks.
- 13 " Barnes' U. S. History.
- 11 " " Readers.
- 1 " Monteith's Physical Geography.
- 2 " Harkness' First Year in Latin.
- 3 " " Caesar.

Three years' constant wear has well nigh ruined many books which have been used by the smaller scholars.

DIST. NO. 1. STANLEY PERKINS, AGT.

Miss Lelia Stimpson taught the summer term of ten weeks. Whole number of scholars, 20. We think Miss Stimpson, who is an excellent scholar, intended to do her whole duty by the school, but circumstances combined to render this term not as successful as we hoped.

The winter term was taught by Fred Myrick, who is a young teacher of three terms' experience. Although we did not fully approve of some of Mr. Myrick's methods, there were a portion of the scholars who made very marked improvement. Length of term 12 weeks. Whole number of scholars registered 45. Average attendance 29.
DIST. NO. 2. JAMES GROVER, AGENT.

The summer term in this district was taught by Miss Alice Ricker. We think the advancement made by the scholars under her charge fully up to our highest expectations. Length of term, nine weeks. Whole number attending, 16; average number, 10.

Winter term by A. B. Stantial, who has taught a number of terms in the district always with the best success. Mr. Stantial is a teacher who makes his work in the school room very thorough. Length of term, nine weeks. Whole number attending, 20; average number, 19.

DIST. NO. 4. NOAH G. JOHNSON, AGENT.

Miss May L. Huxford taught the Summer term. Miss Huxford possesses the faculty of interesting her scholars in their work, and we have no doubt that experience will place her in the front rank among our teachers. Length of term, nine weeks. Whole number attending, 20; average number, 19.

Winter term was under the instruction of B. F. Stantial. This was Mr. Stantial's second winter in this school, which is good evidence that his work was satisfactory to the District. We think the work of this term was very profitable. Length of term, ten weeks. Whole number registered, 23; average attendance, 19.

DIST. NO. 5. H. F. ROBERTS, AGENT.

The Summer term was taught by Grace M. Jenkins. The progress made in this school was not very great. Length of term, eight weeks. Whole number registered, 13; average 11.

Winter term by Everett I. Grant. We think the experience which Mr. Grant has acquired in teaching nine preceding terms was well applied in this term. His scholars seemed to be interested in their work and satisfactory progress was made. Length of term, ten weeks. Whole number registered, 22; average number, 19.

DISTRICT NO. 6. J. R. LITTLEFIELD, AGENT.

Although the Summer term in this District was Miss Mabel Bartlett's first experience as a teacher, she took up her work in a practical manner, and the term was attended with profit by the scholars. Length of term, eight weeks. Whole number attending, 14; average number, 12.

Winter term by Becky Rich. I visited this school at the beginning when it seemed to be progressing well. By a mis-understanding I did not visit it at the close. Length of term, ten weeks. Whole number attending, 13; average, 13.
DIST. NO. 7. FERNANDO ELLIS, AGENT.

The Summer term was taught by Abbie L. Moody, this being her twenty-sixth term. Miss Moody's labors in this school were attended with success, good interest was taken and excellent progress was made. Length of term, eight weeks. Whole number of scholars registered, 11; average, 9.

Winter term by Everett I. Grant. This term, at the writing, is still in progress, closing March 17th. We have visited this school twice and considered it a successful term. Whole number attending, 16.

DIST. NO. 8. C. F. FOSS, AGENT.

There was but one term held in this District during the year, which was taught by Sadie Russ, who is a graduate of the Belfast High School. We have made two visits to this school. The scholars all were interested in their studies and doing some good work. We feel justified in saying that this school was not excelled by any in town. The term does not close till March 10th. Whole number attending, 10.

We have supported two terms of Free High School, one in District No. 1, under the charge of Edward Evans with Miss May Huxford as assistant. Mr. Evans has taught for ten years with unvarying success. We think his reputation was fully sustained in this term.

The Free High School in District No. 2 was taught by A. B. Stuntial with Ina M. Foss as assistant. We were glad to see a large attendance and considered it a successful term.

In our experience of the past year we have become convinced that the adoption of the town system of schools would be for the advantage of our scholars.

Respectfully submitted,

GEO. B. ROBERTS, SUPERVISOR.
