SCHOOL REPORT.
REPORT OF BOARD OF EDUCATION.

To the Citizens of Farmington:

As required by the State law, your Superintending School Committee respectfully submit the following report relative to the conditions and needs of our schools.

To make an extended report would be but to repeat the suggestions and remarks of former years, as but few changes in the condition of the schools have been made during the past year. But few changes in teachers have been made and those changes have been unavoidable.

As far as possible we have retained teachers throughout the year, for as many terms as possible in the same school, but owing to various circumstances changes have been made against our better judgment. Miss Case resigned in our Grammar school at the beginning of the winter term, and was succeeded by Miss Ruth Jacobson who is proving herself to be a worthy successor. At West Farmington M. H. Fowler was elected principal at the beginning of the fall term and his work is very satisfactory. That school is so large that an assistant has been necessary the entire year, and we have been very fortunate in securing the services of Miss Hattie Buck, a student of the Normal School, who has discharged her duties in a very efficient manner and gives promise of becoming one of our finest teachers.

Miss Jane Cutts was elected to fill the vacancy caused by the
resignation of Miss Sewall in the High School. As Miss Cutts has previously filled the same position, comment on her work is unnecessary.

The school at Farmington Falls has been very large the past year and both rooms have been well filled. The school in the Sprague district has been so small that it was deemed advisable to suspend it at the beginning of the winter term, and the children there have been carried to the school at Fairbanks. No other school has been suspended.

We have found all the teachers we have engaged to have been faithful to their duties and but very little dissatisfaction has been expressed. We wish to reiterate our suggestion of former years, that we would like to have more visits from the parents, to our various schools, that they might judge of the work being done and the qualifications of the teachers.

By their so doing we feel assured that they would judge from their personal knowledge and not from the reports of the pupils, which, in many cases, are unfair, not that the children intend to misrepresent, but because they are largely influenced by their likes and dislikes, and many times are blinded to their own good. In other matters children's judgment would not be taken, and certainly, in so important a matter as this it should not be. Visits on the part of the parents would bring them in contact with the teachers and would be of great advantage to all.

The attendance in the schools has been very large, and this is largely due to the fact that the truant laws have been enforced more stringently than in previous years.

As many changes have been made in the truant laws, we make them a part of this report, that all may know what the provisions of the law are.

**TRUANT LAWS.**

**SECT. 24.** Every child between the ages of seven and fifteen inclusive shall attend some public day school during the time such school is in session; provided that necessary absence may be excused by the superintending school committee or superintendent of schools or teacher acting by direction of
either; provided, also, that such attendance shall not be required if the child obtain equivalent instruction, for a like period of time, in an approved private school or in any other manner approved by the superintending school committee; and provided further, that the superintending school committee may exclude from the public schools any child whose physical or mental condition makes it inexpedient for him to attend. All persons having children under their control shall cause them to attend school as provided in this section, and for every neglect of such duty shall forfeit a sum not exceeding twenty-five dollars, to the treasurer of the city or town, for the use of the public schools of such city or town, or shall be imprisoned not exceeding thirty days.

Sect. 25. Cities and towns shall annually elect one or more persons, to be designated truant officers, who shall inquire into all causes of neglect of the duties prescribed in section one and ascertain the reasons therefor, and shall promptly report the same to the superintending school committee, and such truant officers, or any of them shall, when so directed by the school committee or superintendent in writing, prosecute in the name of the city or town, any person liable to the penalty provided in said section; and said officers shall have power, and it shall be their duty, when notified by any teacher that any pupil is irregular in attendance to arrest and take such pupil to school when found truant; and further it shall be the duty of such officers to enforce the provisions of sections one hundred and fourteen to one hundred and sixteen, inclusive, of chapter eleven of the revised statutes. Every city or town neglecting to elect truant officers, and truant officers neglecting to prosecute when directed, as required by law, shall forfeit not less than ten nor more than fifty dollars, to the use of the public schools in the city or town neglecting as aforesaid, or to the use of the public schools in the city or town where such truant officer resides.

Sect. 26. If a child, without sufficient excuse, shall be absent from school six or more times during any term, he shall be deemed an habitual truant, and the superintending school committee shall notify him and any person under whose control he may be that unless he conforms to section one of this act, the provisions of the two following sections will be enforced against them; and if thereafter such child continues irregular in attendance, the truant officers or any of them shall, when so directed by the school committee of superintendent in writing, enforce said provisions by complaint.

Any person having control of a child who is an habitual truant, as defined in the foregoing section, and being in any way responsible for such truancy, and any person who induces a child to absent himself from school, or harbors or conceals such child when he is absent shall forfeit not exceeding twenty dollars, for the use of the public schools of the city or town in which such
child resides, to be recovered by the truant officer on complaint, or shall be imprisoned not exceeding thirty days.

On complaint of the truant officer, an habitual truant, if a boy, may be committed to the state reform school, or, if a girl, to the state industrial school for girls, or to any truant school that may hereafter be established.

SECT. 27. Police or municipal courts and trial justices shall have jurisdiction of the offences described in sections twenty-four, twenty-five and twenty-six.

No changes have been made in text-books. We are enabled to furnish the pupils with the necessary books at an annual expense of a little more than fifty cents per scholar.

Considering the large number who use books during the year we consider that good care is taken of the books, and very rarely is a book willfully injured or destroyed, or taken from the school without permission of the teacher.

At the last annual meeting the sum of twelve hundred dollars was appropriated for the repair of school-buildings. A large part of this was expended in painting the Village school-buildings and in placing a new galvanized iron roof upon the larger school-building. The balance was expended in the purchase of furniture, repairs on the smaller buildings, and in renewing the insurance on school-buildings. Our schoolhouses are now all furnished entire with modern scats and desks.

Blackboard facilities should be improved upon in many of the schoolrooms, especially in the Knowlton Corner school, where a new woodshed is also necessary.

Much should be done in repairing the interior of the Village school-buildings, and the buildings at West Farmington, Fairbanks, Mosher Hill and Norton's Flat should be painted, and small repairs will be needed on all the school-buildings.

Through the efforts of the teachers, pupils and parents, flags have been purchased and raised at Mosher Hill, Holley and the Fairbanks schools. As the buildings in each of these places are in good condition the flags are a decided improvement in adding to the appearance of the buildings.

We believe there is nothing else to bring to your attention, relative to your schools. And in closing this report we wish to
thank all who, by their kindly criticism and their interest in the schools, have enabled us to complete another successful year of school work.

A. L. FENDERSON,
Superintendent of Schools.
