KENDALL M. DUNBAR
1857-1934

Kendall M. Dunbar passed away December ninth, 1934. For fifty years he had been one of the most useful men in the State of Maine. His intimate and encyclopedic knowledge of State affairs was such that even during the times when the opposite political party was in power his services were considered absolutely necessary. He was Secretary of the Senate thirteen terms and was private secretary to Governor Fernald during his term. He was first selectman of Damariscotta twenty years and treasurer almost up to the time of his death. With his brother, Edward E., he established the Village Herald, now The Lincoln County News. He was vice president of the local library association at the time of his death. He was a member of Alna Lodge, F. & A. M. and of the Lincoln County Bar Association. Till his health failed he was trustee of the Baptist Church. He was one of the men through whose efforts a public water system was introduced here. He was born in Nobleboro September 18th, 1857, the son of Edward W. and Lucinda Burnham Dunbar. He attended the public schools and Lincoln Academy. His legal education was acquired in the office of Charles F. Libby in Portland. June 27th, 1885 he was married to Miss Laura E. Castner. Mr. Dunbar’s abilities fitted him for any office in the gift of the people but unfortunate and unjust exigencies prevented him from being honored in proportion to his deserts.

The Augusta Trust Company, where the Huston Trust Fund of $1000 was on deposit, has suspended business and is now in the hands of a Receiver. Depositors in their savings department were allowed to withdraw 40% of their deposit, amounting in our case to $413.74, which amount we withdrew and deposited in the savings department of The First National Bank of Damariscotta, later withdrawing $5.00 to use for the purpose of the fund, leaving $408.74 now on deposit in that bank. The “book” amount still in the Augusta Trust Company, viz., $620.61, will be materi-
ally reduced. When permitted, we shall withdraw whatever balance there may be and add it to the deposit in The First National Bank of Damariscotta.

REPORT OF STATE FINANCE COMMISSION

Commissioner B. E. Packard has urged a more equitable distribution of state school funds. In connection with this problem, the Public School Finance Commission has been working on a new equalization plan which is being considered by the 87th Legislature. The annual allotment has been reduced for all towns in recent years. This decrease has added to the burden of the towns for the maintenance of the schools. In commenting upon the work of this commission, Commissioner Packard has quoted Dr. Luther Gulick in part as follows: "This entire system of aid for public and quasi public educational institutions is
obviously a hodge podge with no consistent underlying idea. The basic purpose of state aid is to guarantee to every child in the state a standard public school education without placing a disproportionate tax burden upon the poor as against the rich communities. After this comes the natural desire to encourage the improvement of schools in all sections of the state. . . . . The cure of this condition is a matter of major importance of the state of Maine.” Whether or not citizens fully approve of the report and findings of this Commission, all have been given the opportunity to study the problem.

CONVEYANCE OF ELEMENTARY SCHOOL CHILDREN
In accordance with Chapter 19, Section 2, Revised Statutes, your School Committee arranged with Mr. Philip Hall to convey all elementary school pupils. There seems to be no reason why this new plan for conveyance service with the school bus should not meet every requirement and safeguard the comfort, health, and welfare of the pupils conveyed.

REPAIRS AND EQUIPMENT ACCOUNT
The superintending school committee has full control of the repairs of the school building, and the care and custody of all school property. As previously reported, this account also includes expenses for the purchase of equipment, insurance, work on school grounds, etc. It is a pleasure to state that the difficulties that were so frequent during previous years because of leaks and faulty heating apparently have been corrected by the repairs on the Castner building authorized by your committee. The members of the school committee have devoted a great deal of time to this undertaking and should be credited for the im-
important improvement. I again suggest that the town make a special appropriation of $45.00 to defray the necessary cost for the display of the Flag. This should be sufficient to furnish the public school with suitable flags and a flagstaff.

CONCLUSION

In closing, it is a pleasure to speak of the splendid professional attitude of our teachers. 1934 marked the tenth consecutive year that the teachers of School Union number 74 have maintained 100% membership in the Maine Teachers' Association. In recognition of this evidence of professional spirit a letter of appreciation has been received from the state secretary. In practically all towns, some teachers have advanced their professional training by enrolling in summer schools or in extension courses. All teachers have attended state, county, and local teachers' meetings. A complete account of the professional activities and undertakings of the teaching staff of the union would include such projects as demonstration teaching, school bulletins, conferences, intervisitation, study of professional literature, teachers' meetings, attendance at summer schools, public programs, objective testing, essay contests, and the teaching of Americanism in cooperation with the American Legion.

To your Committee should be given credit for such success as has been possible. Town officials, teachers, and citizens have all given most helpful assistance.

Respectfully submitted,

BLYNNE ALLEN, Supt. of Schools.
