Length of school year, High School 36 weeks. Common Schools 34 weeks.
Superintendent of Schools’ Report

To the Superintending School Committe and citizens of the town of Greenville.

I herewith submit my annual report of the condition of our schools.

As a whole the year past has been a successful one. Our chief handicap being the rather extensive changes in our teaching force, made necessary by the resignation of several of our strongest teachers, who had been with us for some time. The resignation of a good teacher is always an economic loss, for even though it may be possible to secure one of equal ability, there is still a period of adjustment and adaptation to be passed through on the part of both teacher and pupils, during which the highest grade of work is impossible. It is to be hoped that the time is not far distant when it will be possible for the town to adopt a salary schedule with provision for increase in proportion to efficiency and length of service, to a sufficiently high maximum to make it possible to retain especially desirable teachers against ordinary competition. Changing teachers is at best somewhat experimental, and the educational loss sometimes resulting from a change may easily offset the financial saving.

HIGH SCHOOL

There have been two changes here in the teaching force. Mr. Gershon Rollins succeeding Mr. McLaughlin as principal and Miss Margaret Ryan filling the vacancy made by the resignation of Miss Gormley.
Both are hard working, conscientious teachers. With the exception of a few words in regard to our High school library, I will refer you to Mr. Rollin’s report for an account of the years work.

HIGH SCHOOL LIBRARY

It is imperative that measures be taken to increase our reference library, the few books we have at present being entirely inadequate to the needs of a modern High school.

The State Department of Education is constantly raising the requirements and notice has been received that our library equipment is deficient and must be considerably increased to ensure their approval. An initial appropriation of one hundred and fifty dollars, with smaller annual appropriations would soon provide the school with a reference library equal to that of any similar institution.

COMMON SCHOOLS

The work in the grades has been on the whole excellent, such weaknesses as have existed being due to conditions necessarily resulting from extensive changes in the teaching force.

At the close of the spring term, Miss Matthews, Miss McIntyre, Miss King and Miss Keniston resigned. As these teachers had been with us several year and unquestionably proved their sterling worth, it was evident that it would be no easy matter to fill their places acceptably. As many of our best teachers have been graduates of Castine Normal school, we naturally turned to that institution for candidates and upon the recommendation of the principal and training teacher elected the following:
Village Primary, Miss Addie Robinson, grades 2 and 3
Miss Elizabeth Bates, sub. and 1.

Jct. Primary, Miss Lenora Miller, grades 2 and 3.
Miss Avis Emery, sub, and 1.

At the High school building our only change of common school teachers has been in Grade 8. Miss Nash resigning during the latter part of the fall term to accept a position in Chelsea, Mass. After her departure Mrs. Gershom Rollins substituted very efficiently until the election of Miss Jessie Hall who resigned January 26. She was succeeded by her sister, Miss Mary Hall, who is a most capable teacher. Naturally the progress of the class has been retarded by so many changes, but with hard study will be able to complete the work laid out for the year if we have no further interruptions.

MORKILL

Agreeably to the vote of the town, a school was established at Morkill last spring, in a room loaned by Mr. Badeau. Nine pupils attended during the spring term of ten weeks. The summer term was closed after two weeks, as nearly all of the pupils moved out of town early in July. Since then there has not been a sufficient number of children residing there to make it advisable to re-open the school.

REPAIRS, ETC.

The past year has witnessed the installation of water for drinking and toilet purposes, in the Junction Primary school. As the village Primary building was provided for in a similar manner last year, all of our schools are now supplied with running water.
Through the generosity of several of our citizens, flag staffs have been provided for all the schools, the one at the High school especially conspicuous for its symmetry and perfection.

For the ensuing year there are several matters which should receive attention. The High school building should have metal flashings placed in all roof gutters and along the eaves, to prevent the backing up of water under the ice and snow and consequent leaking, which has given considerable trouble during the past two years. The heating plant at the Village Primary school has given rise to considerable criticism and dissatisfaction, on account of failure to heat the building properly in severe weather, with a northwest wind blowing, without an apparently excessive consumption of fuel.

One of the hot air furnaces at the High school is in rather bad condition, but with care can probably be made to do service for another year. Provision must also be made for the premiums on insurance policies falling due this year.

In our recommendation of $350.00 for repairs, insurance and supplies we have provided only for insurance, school supplies and incidental repairs, believing it better to leave the consideration of the more extensive operations, such as repairing the High school roof, and painting the school buildings, until we can secure estimates. This will be done in time to allow these matters to be acted on at the annual town meeting.

MUSIC AND DRAWING

Several years ago for financial reasons it was found necessary to discontinue the employment of a special teacher of these subjects. This was most unfortunate as music and drawing if properly taught, possess valuable disciplinary qualities, training the eye, ear, voice
and hand. They also furnish a means of recreation and social enjoyment.

Some of our grade teachers are at present accomplishing a creditable amount of work along these lines, considering their limited time, and equipment, but if thorough, lasting results are sought a special teacher is the only solution.

In conclusion I wish to say that I greatly appreciate the continued loyalty of parents, teachers and school officials, which not only renders the work more pleasant, but eliminates friction and makes for better schools. In conjunction with the School committee we make the following recommendations for next year.

High school, $1,500 00
Common schools, 2,700 00
Text books, 300 00
Repairs, supplies and insurance, 350 00
School physician, 50 00
Superintendent of schools, 250 00

Respectfully submitted,

RUSSELL S. TAYLOR,
Superintendent of Schools.

A. G. ROGERS
W. R. DAILEY,
C. F. WOODARD,
School Committee.

To Russell S. Taylor, Supt of Schools, Greenville, Me.

The total enrollment for the year is forty-two, four of whom have left school.

The work of Mrs. Nettie F. Young in English, French and Latin needs no comment by me. The town has
been very fortunate in retaining a woman of her ability and wide experience as a teacher. Her personal interest and impartial treatment have made her greatly respected and esteemed by the pupils.

Miss Margaret T. Ryan, a graduate of Bay Path Institute, took charge of the Commercial Department this fall. I have found her a teacher well trained in her subjects and one who spares neither time nor labor for the welfare of her pupils. In short, the work of these teachers has been excellent. Their painstaking methods and unflagging interest in each pupil's advancement have gone far to make our school year successful.

Fire drills have been held and will be continued throughout the year. By using the front entrance, all the pupils have marched from the building in good order in less than three minutes. The furnaces are protected in such a way, and so well cared for that possibilities of a fire are remote.

Successful school work can be carried on only by cooperation of parents and teachers. Cooperation, unless parents visit school and see that pupils are in regular attendance, except in case of illness, is almost impossible. Irregular attendance is responsible for many failures, has a bad influence on the other pupils, and defeats the aim of the school.

I would recommend that the town raise the sum of $50.00 to be expended for reference books for the school library. At the present time there is no school library except a set of dictionaries and borrowed encyclopedias. Without suitable reference books, work in History and English can never be extended beyond the regular text, and therefore must be elementary in character.

In a social way the school has been active. One play, two entertainments and several socials, all well patronized by the townspeople, have been held. The proceeds
have been used in making payments on the Athletic association debt, which has been reduced from $110 to $48. This debt we hope to liquidate before spring. The school orchestra, though reduced in numbers, has made rapid progress and is an organization of which the town may well be proud. I wish to thank all those who have given their loyal support to the school and so generously contributed to make our social functions successful.

Respectfully submitted,

G. B. ROLLINS, Principal.

SCHOOL PHYSICIAN REPORT

As in the last report I still think our pupils are the equal of any in the State in physical development. I also think the parents are showing prompt and energetic response to endeavor to better their children's welfare. For instance, in the tonsil-adenoid group twenty show improvement most of them having been operated upon, eight have had no treatment and are growing progressively worse, about a dozen new ones are added with the new classes and about forty show a moderate but fairly stationary involvement. Many of last year's habit mouth-breathers are cured but eight new ones joined us. Three are so unfortunate as to have chronic middle ear disease and three also show valvular heart diseases.

Among the eyes we have fifty with extra acute vision, the High school carrying the banner with ten. Twenty show an irregularity of vision, one eye seeing much better than the other so that they do all their work with it. I believe that these are the ones that require the most painstaking examination by...
petant specialists to try to make the weak eye do its share of work. A few of this group have been injured so that their condition cannot be bettered but there ought to be many that could be helped. There are also eighty that I class as poor vision, the fifth grade taking the prize with twenty-four. In closing I wish to thank you and also to warn you not to depend too much upon the simple test for vision given in the schools as it will show only the worst of errors. If you see symptoms of eye trouble with the children have their eyes properly tested and be sure.

F. J. PRITHAM,
Report of Sealer of Weights and Measures

Greenville, Maine, March 3, 1917.

For the current year I have tested as follows:

Total number of scales tested, 52.
- Condemned, 1

Weights tested, 104.
- Condemned, 0

Dry measure tested, 14.
- Condemned, 0

Liquid measure tested, 31.
- Condemned, 3

Yard sticks tested, 9.
- Condemned, 1

Automatic pumps tested, 15.
- Condemned, 0

For the above I have charged the sum of $22.77 and paid the same over to the Town Treasurer.

ADELBERT G. ROGERS, Sealer.
Report of Greenville Free Public Library

To the Citizens of Greenville:

The Trustees of Greenville Free Public Library submit the following report for the year ending, March 1, 1917.

Days open from March 3, 1916 to March 1, 1917, 51
Total number books issued, 5,110
Gain over last year, 1,598
Gain over two years ago, 2,674
Largest number books issued in one day, 166
Average number, 98
Number patron’s cards issued during year, 153
Total number issued, 593
Number volumes catalogued, 1,393
Number State, U. S. reports, pamphlets, etc., 469
Discarded during last four years, 66
Volumes added by purchase, 82
Volumes added by gifts, 93
Volumes from State, 26
Total number of volumes, 1,796

The increasing patronage of the Library is a sure indication of its popularity with our town’s people at the same time presenting a condition that requires more financial assistance on the part of the town.

It is evident to us that we need an appropriation that will enable us to employ a librarian, as we are so overworked during the sessions that we fall far short of doing the best work.

So great is the rush that it requires the undivided attention of one person to receive and give out books
thus rendering it impossible to give our patrons the assistance needed in the directing of their reading and other courtesies desired.

The employment of a librarian to take charge of the distribution of books, supervise the return of same, arrange them on the shelves and mend such as need it and to catalogue new books, is earnestly recommended.

This would enable the trustees to bestow assistance and courtesies that would greatly increase the efficiency of the work that the library should do in the community.

We hereby express our thanks to friends of the library, who have given books, magazines and services, and especially to Mrs. W. I. Hamilton, Kokadjo, and to Mrs. F. H. Kimball of Bath for their generous gifts of books. Good books and magazines are always gratefully received.

F. W. ALLEN,
P. W. HALL,
FLORENCE VAUGHAN.
R. H. DUNBAR,

Auditor’s Report

To the inhabitants of the Town of Greenville:

The accounts of the Selectmen, Town Treasurer and
Treasurer of the Greenville Free Public Library for the
fiscal year ending March 1, 1917, have been examined
by me and I find them to be correct with all payments
properly vouched.

F. W. ALLEN, Town Auditor.

March 8, 1917,
