School census, 1927, 605.  
Total enrollment 462
To the Superintending School Committee and Citizens of Greenville:

I herewith submit my annual report as Superintendent of schools.

The past year has on the whole been marked by steady uninterrupted progress. As will be noted there has been a considerable increase in the enrollment, especially in the lower grades. This is due not only to an increase in the total number of pupils, but also to the fact that many children are obliged to repeat the first grade, on account of entering school too young to have sufficient mental maturity to carry on the work successfully.

HIGH SCHOOL

In the quality of our teaching force, and in terms of results accomplished I feel that we have reason to be proud of our high school. The majority of the students are working conscientiously toward a definite goal, and are a credit to themselves and the institution. A few however are apparently without incentive and consequently are of no benefit to themselves or the school. We have had but one change in the teaching force during the past two years. Mrs. Bement who taught the Commercial classes most successfully resigned Feb. 1. Her successor Miss Alma Thompson, a graduate of the Maine School of Commerce is proving herself well qualified for the position. For a more complete account of high school affairs I refer you to Mr. Bagne"s report.

GRADES

For the past two years the eighth grade has been administered as a part of the high school. This arrangement has proved most satisfactory. The pupils receive the benefits of departmental instruction and become familiar with high school methods, thus rendering them less likely to fail when they enter the freshman class, or to leave school at the minimum age allowed by law.

Due to excessive overcrowding in the Village Primary school it was found necessary to transfer Grade IV to the High School building and combine Grades II and III, as Grade I with an enrollment of fifty pupils required a teacher's entire time. This made the em-
ployment of an additional teacher necessary and Miss Mildred Dean was elected to teach Grades II and III. The continuance of this arrangement depends of course on whether the enrollment from year to year makes it necessary.

While we have fortunately had but a few changes in our grade teaching force during the past few years, it now seems probable that we must lose several of our best teachers at the close of the spring term. It is unfortunate that due to higher salaries and better opportunities for professional advancement we are unable to hold our most valuable teachers for more than a few years, but in this respect we are no worse off than similar towns elsewhere.

**MUSIC**

The school Music has been in charge of Miss Marion Weed who has secured excellent results due to her faithful conscientious work, and the continued cooperation of teachers and pupils. In addition to supervising the Music Miss Weed has had the general supervision of Grade VIII and taught History and Chemistry in the High School. This arrangement has kept the cost of Music supervision at the minimum consistent with satisfactory service.

**REPAIRS**

A great deal of necessary repair work has been done during the past year which has resulted in a considerable overdraft on this account. At the High School a new roof has been laid, the basements sheathed with metal, the steam boiler repaired and the return system re-piped, to lessen danger of freezing, and reduce back pressure, a portion of the main sewer line dug up and two way cleanouts installed. At the Junction Primary School the walls have been covered with sheet rock, and steel ceilings installed, new shades hung and all interior wood and metal work painted and varnished. At the Village Primary the roof has been covered with metal, some minor repairs made, and the children's house on the Shaw Playground re-roofed. It has also been necessary to purchase over $300.00 worth of new desks to take care of the increased enrollment. As so much has been done this
year, only minor repairs and replacements will be necessary next year except in case of unforeseen emergency. This is most fortunate as there is a considerable amount of insurance coming due next year.

IN GENERAL

Our school system is our most important town enterprise, both as to the number of persons directly affected by it, and in point of cost. We all want the best schools possible, we must all work together with this end in view. It is the duty of the school officials to provide suitable equipment, engage properly qualified teachers, and see that the affairs of the schools are efficiently and economically managed. It is the parents' duty to co-operate with the teachers, to see that their children attend school regularly, have regular hours of home study especially in the upper grades and high school, and to instill in the minds of their children a respect for public property which will go far to lengthen the life of text-books, and protect our school buildings from unnecessary damage and defacement.

All recommendations for appropriations for the coming year are based on anticipated costs and have been submitted to the Budget Committee for their consideration.

Respectfully submitted,

RUSSELL S. TAYLOR,
Superintendent of Schools.

Report of High School Principal

To the Citizens of Greenville:

The number of students attending high school this year, is about the same as for the past two or three years. One hundred have registered, and are distributed among the classes as follows:

<table>
<thead>
<tr>
<th></th>
<th>Girls</th>
<th>Boys</th>
</tr>
</thead>
<tbody>
<tr>
<td>Senior</td>
<td>5</td>
<td>7</td>
</tr>
<tr>
<td>Junior</td>
<td>14</td>
<td>8</td>
</tr>
</tbody>
</table>
Sophomores  7  20  
Freshmen    18  20  
Special   1  1  

Total  44  56

Most of these boys and girls are doing good work, and are striving to get the greatest value from their high school course.

Attendance, thought none too good, has been up to the average of other years, and not below that of most other high schools.

Results of standard intelligence tests show, that in scholastic ability our students compare very favorably with those of like age throughout the country.

Until Mrs. Bement resigned, the teaching staff was the same as last year. Under her direction our commercial department has been especially strong. Graduates from this department attending more advanced commercial schools, have been able to do their work to better advantage than students from so-called superior schools. Personally I appreciate the splendid cooperation and loyalty of all our teachers. They are always on the job, driving the sluggard, and giving the ambitious student every possible help.

Our library is in very good shape, several volumes having been added this year. It will soon be necessary to have a new cabinet to take care of future increase.

On account of lack of initiative on the part of the student and a big question in my mind as to its value the high school annual “The Chrysalis” will not be published this year. It has always been difficult to meet the expense, and its value as an advertising medium is questioned.

I wish to express my appreciation to the school committee and Mr. Taylor for their fine cooperation and support. A keener interest on the part of parents whose children are not doing well, would work to the best interest of the child. Every conference with parents clears away a great many misunderstandings.

Respectfully,
J. A. BAGNELL, Principal.
Report of Shaw Library

To the Citizens of the Town of Greenville:

During the year just passed our service to you has been somewhat hampered by the illness of Mrs. John H. Brown our Librarian who is yet unable to perform the work, and by the sickness and death of Mrs. Carrie Taylor our assistant Librarian.

Both of these helpers had been in the work for a long time and their services were helpful and efficient. Mrs. Guy Hanson and Mrs. Frank E. Smith loyally "carried on" in our behalf for a brief period, but were unable to continue the duties permanently. In July Mrs. Emma Sawyer assumed the work as Librarian and in August Mrs. Lynn Smith was engaged as an assistant. Both of these ladies have been very faithful workers and the library is fortunate to have secured their services.

Miss Ruby Jardine and Miss Hazel MacDonald are assisting, as their services are needed and will be helpful in the future.

Our sincere thanks are due to each of the above mentioned ladies for loyal support and assistance.

The 1c per day, newest fiction rental, has been continued throughout the year and the books continue in great demand. This method of increasing our supply of current fiction appears without doubt to meet popular approval and judged by the revenue received from this method, we conclude that the volumes so purchased are nearly, if not quite paid for by these 1c per day rentals.

We are pleased to note an increase in interest in our work on the part of teachers and students of our Public Schools who are using the Library material for reference and research work more than ever before.

Following the dismissal of our Schools, some congestion occurs when the scholars reach the Library. Our Librarians agree that almost without exception at such times our young people are quiet and courteous while in the building.
We extend our thanks to interested friends for generous gifts of books and money and particularly to Mr. Louis Oakes for the gift of one hundred dollars. This amount we aim to invest in reading of a more permanent form, like a set of reference books or encyclopaedia or something of a similar nature.
