The above sum was committed to the Collector, with a warrant in due form of law for collecting and paying to the State, County, and Town Treasurers the sum due each respectively, on or before the first day of February, 1889. Non-resident taxes not subject to this rule.

Number of taxable polls, 342; tax on poll, $2.00; number of dogs taxed, 47; tax per dog, $1.00.
April 1, 1888, Mr. and Mrs. F. L. Robbins moved on to the Town Farm and assumed charge for one year, at a salary of $235. We cannot praise the diligence and activity of Mr. Robbins, and the general neatness and order in which Mrs. Robbins has kept her department, too much; suffice it to say that the farm work was not allowed to go behind, and the house always appeared neat and inviting. We wish to say that for the coming year the report will not show any bill for hay bought, but that instead, some two tons will be summered over, as a large crop was put in the barn in a fine condition. At the present date there are three paupers at the Farm: Joseph Palmer, Delia Stevens, and Reuben Andrews.

In April, 1888, we had the Town Records, comprising all the doings of this town since its formation as a grant up to the present date, moved to the Washburn Library, a convenient, fire-proof building, where they are open to the inspection of the citizens of this town. They consist of three large chests, full of successive yearly records, which seem worthless, but are valuable.

There is a complete set of "Maine Reports" in a brown ash library case with a glass front, to which yearly there is added one volume.

We congratulate the people of Livermore on these facts, viz.: That this is the fourth instance of the Treasurer receiving all the resident taxes within the municipal year; that from Livermore Falls to North Turner there is but one wooden bridge, all others being of solid stone structure; that there remains in the treasury after all bills are paid the snug sum of $416.28.

H. B. BRADFORD, Treasurer.
REPORT OF S. S. COMMITTEE.

The remarks that may be made from year to year upon the cause of education, and in reference to the schools of such a town as ours must, of necessity, be somewhat of a repetition of facts. The teachers during the past year have, generally, performed their duties in a satisfactory manner. There has been nothing to mar the harmony and general advancement of any of the schools. Good progress has, therefore, been made. While we are pleased that we can with sincerity make so encouraging a report, yet there are some things that might add to the efficiency of our schools. A better attendance on the part of the pupils would enable the teachers to perform their duties in a more satisfactory manner, and make possible a greater advancement in the studies pursued. We would respectfully call the parents' attention to the fact that it is necessary for the pupils to be present at every session in order to obtain good and lasting results. One of the most important factors of a good school is local pride and interest, and we should be pleased to see the parents show their interest by visiting the schools in their respective districts, and being present at the close. The children who receive the most encouragement at home are the most interested and studious at school, and give their teachers the least trouble. Criticism of the teachers by the parents, especially in the presence of their children is a source of much evil and causes the teacher a great deal of trouble. A few hours spent in the school-room with the teachers would give you a better idea of their cares and trials, and you would be less liable to unjustly criticise their methods.

We wish to call the attention of the people in many of our school districts to the dilapidated condition of their school-houses. Some of them are in a disgraceful condition, and we would earnestly entreat that prompt action be taken to repair or rebuild them.

The Free High Schools for the past year, two in number, spring term located at Brettun's Mills, fall term at North Livermore, have been very successful.

Under the able instruction of Mr. W. S. Masterman, who has had charge of both terms, our Free High School has reached a high degree of excellence. The benefits derived from these schools are
not confined merely to those who attend them; but as many of the pupils teach in our common schools, a higher grade of teachers is, therefore, being obtained for these, and the result is, we are having better schools.
