We recommend that the town raise sufficient money to build a snow roller, as one is not sufficient to roll all the roads in town and the one which we now have is not quite heavy enough to do good work. We also recommend that the town vote to have the same
discount and interest apply to taxes as last year and that the Col-
lector be authorized to collect all poll taxes before Jan. 1, 1908.

H. A. LOOK, Town Treasurer.
The schools have had a very successful year. The High school has been doing excellent work. A class of two will be graduated at the end of the school year. These graduates, the first in the history of the school, will be qualified to enter any College in the state and stand among the first of their class. This indicates the quality of the work that has been done in the school, not only in the College Preparatory Course, but also in all the courses of study in the school.

The graded schools have also done well under the instruction of a splendid corps of teachers. The assistant teacher has taught History and English in the High School and Music and Drawing in the graded schools. Excellent results have been realized in these departments, considering the time that has been put on them. All the teachers have worked earnestly and successfully.

Equally fortunate conditions have not prevailed in all the rural schools. At Oquossoc the winter term of school was delayed for several weeks on account of a lack of a boarding place for a teacher. In the Quimby and the Wilbur schools, a long term in the Fall and the Spring, instead of three terms of ten weeks each, seemed to be the best arrangement, on account of the deep snows of winter, the small number and tender years of the scholars and the difficulty of obtaining board for a teacher. The winter term in White school was not a very profitable one. The Superintendent visited the school three times and made suggestions each time with the hope that satisfactory improvements might be made. At the last visit the school appeared pretty well. The Superintendent had a great deal of difficulty in securing a teacher at all with the salary he had to offer; the one obtained was young and inexperienced and
lacked a proper feeling of the responsibilities of a teacher. A larger salary will induce a better teacher to accept the position.

The cost of running the schools has increased during the year, because good teachers are scarcer and the cost of board is higher. The fuel bill has been larger than it ever has been before. The graded schools have been supplied with suitable materials for their work in Music and Drawing.

Among the needs of the coming year, are the painting of the Village school building, a water-closet building for the Wilbur school, and, if the Oquossoc school building is to remain where it is, the grading of the lot on which it stands. Its present condition is a menace to the health of the school.

**Financial Statement.**

The following covers a part of the winter term of 1905-6 which had not closed at the time of the last report and the year 1906-7.
