The accounts of Ex-collector Small are in process of careful examination over the space of eight consecutive years and will be reported as early as possible in detail, separated, showing each year by itself. This examination has been unexpectedly retarded by severe sickness of the collector, together with court duties as Deputy Sheriff which, occurring at the *wrong* time to suit our wants, has made it impossible to get through in time to insert, (as was the intention) in our regular annual report.

URIAH A. JACK,	} Selectmen, Assessors and Overseers of the poor of Topsham.
H. B. FISHER,	
J. F. CHANEY.	

The Auditors of the Town of Topsham have examined the accounts of receipts and expenditures presented by the Selectmen, as Selectmen, Assessors and Overseers of the Poor, for the year, to Feb. 1st, 1886, and with the exception of one bill for \$7.50 which it appears the Selectmen drew two orders for, by mistake, we find them correctly kept and properly vouched.

The accounts of the Treasurer, Charles E. Haskell have been examined and found correct. His statement shows in condensed form the transactions for the year.

# SCHOOL REPORT,

FEBRUARY 12, 1886.

Resources for Common Schools,	\$3,156 06
Resources for High School,	777 56
	<hr/>
Total resources,	\$3,933 62
Wages for teaching the Common Schools from April 1 1885, to March 1, 1886,	\$1,849 00
Wages for teaching the High School from April 1 1885, to March 1, 1886,	608 00
Total wages for teaching from April 1, 1885, to March 1, 1886,	\$2,457 00

The incidental expenses of the schools will be found in the Selectmen's report.

There have been 30 weeks of school, including the winter term which has not yet closed, in each of the school houses except in No. 5, which had no summer school, and No. 6, which had only 6 weeks in the fall. The school had to stop on account of sickness among the scholars and of the teacher. The winter term will continue 12 weeks making 28 weeks.

All the school buildings need repairs. Several of them need quite extensive repairs. I intended to have repainted most of them last summer or fall. I consulted the Selectmen and they consented to take charge of the matter of painting, but when they were ready the weather was unsuitable, and the work has not been done.

The teachers employed during the year, with very few exceptions, have done a good work for their pupils both in discipline and in instruction, and all of them are worthy of commendation for the good work they have tried to do. We have reason to think well of our teachers as a whole, for the ability indicated in the method of teaching, and in the manner of discipline. The summer and winter terms have been a decided success.

I think if the town should raise the same amount for school purposes as last year, all necessary expenses can be defrayed, and give to each school at least 30 weeks and perhaps more, with judicious care, for another year.

Mr. F. P. Knight, Principal of the High school for the spring term did credit to himself and the school, and especially so in the training of the graduating class.

Mr. E. E. Sawyer, Principal for the fall and winter terms has labored hard for the school and has been successful in its management, and good advancement has been the result in the several branches pursued by the pupils.

Physiology has been introduced into all of the schools, and all the scholars have been taught either orally or from text books, and the teachers have already accomplished a noble work, and laid a foundation for the future teaching of Physiology.

The following is a summary of the schools for the year, as far as returns are given:
