### AUDITOR'S REPORT

I have examined the accounts of the municipal officers and find the same to have been carefully kept throughout the year and vouchers are on file for all disbursements. Examination of the Treasurer's account shows that all orders drawn on him have been paid and the amount of cash in the treasury agrees with the balance as shown in his report.

Respectfully submitted,  
GEO. C. BLANCE, Auditor.
REPORT OF THE FLANDERS BAY NURSING SERVICE
FOR THE YEAR 1935

To the Citizens of Winter Harbor, Gouldsboro and Sorrento:

The service is an affiliation of the Maine Public Health Association and is under its direct supervision. The personnel remains the same with Fletcher T. Wood as chairman, Charles Small as treasurer and Rubie J. Tracy as secretary.

1142 visits were made through the territory. These visits include everything, bedside, instructive, social service and follow up.

69 visits were made to the 11 school buildings, 408 full inspections were made and 90 inspections for special reasons were given, mainly for communicable diseases. 16 children were excluded and referred to physician. 134 physical examinations were given by physician and oculist. As a result of these examinations and inspections 318 were found with defects that can be corrected, teeth taking the lead. 32 were found to be 10% underweight and 32 were found to be 20% overweight. 140 corrections were made since the last inspection by the nurse.

83 children were personally taken to the dentist, 4 were taken to the physician, 5 were taken to the oculist, 14 adults and children were taken to the hospital and 2 were taken to the sanitorium.

The child who is deaf frequently does not realize his condition. He does not hear the same words spoken by the teacher that are heard by his classmates, consequently he misunderstands what is said. He is criticized for something that he cannot help and becomes sensitive to the reminders of his failings, with the result that he stops trying and becomes inattentive. The removal of such a handicap often entirely makes over a boy or girl, both in progress and attitude.

Through the Woodman Audiometer loaned by the Maine Public Health Association 217 hearing tests were made and those found with defects were referred to their physicians.
5 well baby conferences were held and 2 baby clinics were held.

The regular conferences were omitted by order of the Board of Health due to an epidemic of whooping cough, scarlet fever and an active case of infantile paralysis.

2 tuberculosis clinics were held by the Maine Public Health Association, the tests being given by the clinic nurse and X-rays also in Bar Harbor and the chest examinations by the physician from Fairfield. As a result 1 child was taken to Hebron, 2 were referred to their physicians for further observation and 1 child was advised to attend only one session of school, the afternoon to be spent in a rest period.

55 individuals were given clothing and blankets. This was made possible through the Social Service Section of the Maine Seacoast Mission and an interested summer resident.

Assistance was given with 41 inoculations for whooping cough and typhoid.

In closing I wish to thank all who have helped to make the program a success, the Maine Public Health for its advice and co-operation and help in educational possibilities and co-operation in health and welfare, the Maine Seacoast Mission, the teachers, parents and physicians and all others who by their co-operation have contributed to the success of the service. I appeal to the continued interest and support that has made past years successful.

Respectfully submitted,

M. A. HOLT, R. N.
REPORT OF SUPERINTENDENT OF SCHOOLS

SUPERINTENDING SCHOOL COMMITTEE

Alton Gerrish Term expires in 1933
Joseph McKay Term expires in 1935
Albert Hallowell Term expires in 1938

To the members of the Superintending School Committee and Citizens of the Town of Winter Harbor:

I hereby submit my first annual report of the progress and needs of the schools.

During the portion of the school year which I have worked in our schools I have become acquainted with a corps of earnest, well trained and efficient teachers who enjoy a quality and adequacy of school equipment which bespeaks for foresight, interest and support of a progressive community.

In December, with the hope of becoming better acquainted with individual pupils, their attainments and needs, as well as to learn more of the standing of the schools in general, I gave a standard achievement test for grades two to eight inclusive. I believe the results of this test may be useful in remedial work, in determining more intelligently the grading of pupils and in the inspiration of pupils to do their best.

The necessary annual repairs for the up-keep of school property have been made and both buildings present a creditable appearance. Since children's eyesight should be guarded as a priceless possession I wish to call attention to the imperfect lighting of the Grammar and Intermediate rooms. A limited number of small windows set rather close to the floor do not admit enough light from the right direction and I think the conditions might be greatly improved.

It has been customary to raise $75.00 for High School library. The State not only requires us to do this but now insists upon an annual appropriation of $75.00 for laboratory equipment. To comply with this law an expenditure of this
amount must be made before the close of the present school year.

Since the policy for meeting the High School tuition situation with respect to the neighboring town of Gouldsboro is of such moment to all it rather demands some sort of decision at this time, and I give here such information regarding certain proposed plans as I am able.

There are two types of school which might solve this problem satisfactorily, vis. the union school and the contract school. The contract school however, is preferable because it is simple and clear cut in its establishment and operation, is free from legal entanglements and offers every advantage of the union school with possible exception of the prestige which a union school with a special name might enjoy. There might be a contract for the schooling of High School pupils of Gouldsboro, either by lump sum or pupil by pupil. In case of a contract State Aid would be pro-rated between the two towns and for the reason that Gouldsboro would doubtless pay at least half of the school costs, the Gouldsboro school committee would have the privilege of uniting with the Winter Harbor school committee in the administration of the school. Under a contract of this sort Gouldsboro would be under no obligation to pay tuition for pupils attending other secondary schools. For maintenance of a contract school a vote of the Town of Gouldsboro would be necessary each year, together with a suitable appropriation.

We are looking forward to the culmination of a successful school year.

Respectfully submitted,
M. R. KEYES,
Superintendent of Schools.
