Respectfully submitted,

B. T. BICKFORD
Treasurer
To the Citizens of the Town of Winter Harbor:

I hereby submit a brief report of the service rendered the Town by the Flanders Bay Nursing Service for a period beginning January 1, 1946 to December 31, 1946.

The annual winter weighing of 45 pupils was completed during January and conferences were held with the teachers and pupils as to necessary corrections that the pupil should receive in order to profit by this health supervision.

The nurse offered to help with transportation in securing recommended corrections. The Patch test for tuberculosis, to be followed by chest X-ray of reactors was offered to the entering class at school and new pupils moving into town. Eight pupils were tested and all proved negative. Tuberculosis contacts have received chest X-rays as recommended by the State Clinic. Tuberculosis health pictures, loaned by the Maine Public Health Association were shown at the High School. Also loaned us by the Maine Public Health Association was the new audiometer for testing the hearing. Seventy-five were tested and 37 retested. Seven were found with defective hearing.

Routine vaccination against smallpox and diphtheria immunization was offered the incoming class, six were immunized. The nurse assisted Dr. Holt with the heart examination of all pupils playing basketball. One was not permitted to play on the team. Thirty two pupils at the high school were tested for vision and three defects found. Eight corrections have been made since the last inspection.

The annual infant and preschool clinic was held at the high school on July 24, with Dr. Taylor from Grindstone Inn in attendance, assisted by the nurse. Helpful advice and pamphlets were given the 18 mothers.

During the first week of school in September, special inspection for head and skin infection was completed, also sanitary inspection of school buildings and playground equipment. Annual school inspection of 45 grade pupils was completed in November. Notices of defects were sent to parents or a home visit made. A full report of the physical findings was left with each teacher. There were 33 Seven Point pupils and all the rooms were 50% Seven Point. Routine
Schoolroom visits have been made and help given teachers with their health problems whenever needed.

Number of Pupils Inspected ................................................... 45
Number of Pupils with Defective Vision ................................ 2
Number of Pupils with Defective Glands ................................. 4
Number of Pupils with Defective Throats ................................. 15
Number of Pupils with Defective Teeth ................................... 26
Number of Pupils Underweight .............................................. 2

Corrections since last inspection:
  Vision ............................................. 8 new or glasses changed
  Teeth ............................................. 5

Home visits made during the year 255. Visits of instruction and investigation were made on prenatal patients, babies, preschool, school children and tuberculosis contacts.

Transportation has been furnished for eight school children, eleven adults, one preschool to the doctor's office, dentists, hospitals, oculist and clinics.

I extend thanks to all who have helped with the nursing program and for the fine cooperation of Dr. Allan Holt, the Selectmen, members of the School Board, Superintendent of Schools, teachers and parents.

Respectfully submitted,

FLANDERS BAY NURSING SERVICE,
Clye H. Ricker, R. N.,
Public Health Nurse
TOWN OF WINTER HARBOR

SCHOOL REPORT

To Parents and Citizens:

An area junior-senior high school would greatly add to the educational and recreational offerings of your community and the surrounding area. Such a prospect will not materialize during the coming year, at least, because of lack of funds and the extra high cost of construction at present.

However, sometime in the near future you will be called upon at your Annual Town Meeting or, at a special one called for that purpose, to vote for or against such a program. Think the matter over very carefully, for the futures of a lot of young boys and girls hang in the balance. Your individual decision may be of the utmost importance to your own child or that of your neighbor's down the street. Whatever your choice, be ready when the right time comes.

Sincerely yours,

R. H. HASKINS
Supt. of Schools
