Report of the Superintendent of Schools

To the School Committee and Citizens of the Town of Stow:

Herewith my seventh annual report of the condition, progress and needs of the schools of the town of Stow:

Schools began on Sept. 13, 1929, with the following teachers: Union Hill, Oscar Butler, North Castine, Maine; village, Emma Lamont, Hiram, Maine. Tabulations appended will render information as to enrollment, salaries, etc.

We have nothing new or sensational to report. Both schools are in the hands of faithful, sincere and competent teachers. Both schools are making steady progress. The curriculum, approved by the State Department of Education, is being followed carefully. Both schools are equipped as far as may be with modern text books and a fair amount of equipment. Progress is always possible and I feel that we do progress in accomplishment from year to year.

As in other years both schools are making an effort to raise money for school use. Thus far, as formerly, they have been successful. In the Union Hill School a fine reference book has been purchased. New sanitary equipment has been purchased by the village school. Both schools have a small balance in their League Treasuries. We realize, of course, that this matter of betterments would not be possible without the co-operation and patronage of the public.

Perhaps the measure of an elementary school may be in part, taken by the quality of the success of its pupils in secondary school. This year we have six students in secondary schools, one at Oxford High School and five at Fryeburg Academy. We have heard of no unusual difficulty in connection with these students in any way.

The Tinker Prizes, offered by Mr. and Mrs. B. W. Tinker of Fryeburg, are continued this year, $2.00 to one pupil in each school showing the most improvement in scholarship, deportment and school citizenship, $1.00 to one pupil in each school showing the most improvement in English. Mr. Tinker has also presented each school with a subscription for three years to the American Boy and Youths Companion, which magazines have recently been combined in one.

A traveling library has been secured free of all charges from the Maine State Library. This courtesy was made possible through the interest of The Colonial Dames acting through the State Department of Education. This traveling library is for use in the school and in
the community. The only stipulation is that the books borrowed be returned. The public is invited to make use of these books. We may retain the traveling library for six months.

REPAIRS

Both schools have been provided with new flags and new flag equipment. No other repairs have been made this year. The most urgent need for repair work at present is the matter of painting the village building outside. This work should be done this year. A two coat job is required. The longer this is left undone the more expensive it will be.

This year we have covered the overdraft of $178.44 on the Common School Account and have a balance on all accounts.

Respectfully submitted,

CHAS. A. SNOW, Superintendent of Schools.

CHOOSE CERTAINTY IN PLACE OF UNCERTAINTY

Uncertainty is involved in the appointment of any individual as Executor or Trustee of an Estate. The individual may decline to serve. He may die before his duties are completed. His ability to serve may be interfered with by illness, travel, or the press of his own affairs. He may lack the experience or the seasoned judgment to handle the estate to the best advantage.

Choose certainty in place of uncertainty by entrusting the care of your estate to this organization, which is permanent, always ready to serve, financially responsible, and thoroughly experienced in this work. And our service is not costly—it may even save money for the estate!
