Report of the Superintendent of Schools

To the School Committee and Citizens of the Town of Stow:

Herewith my twelfth annual report of the progress, conditions and needs of the schools of the Town of Stow.

Schools began September 10, 1934, with the following teachers:
Village, Ruth Kayes, West Pembroke; Union Hill, Merrill G. Safford, Monmouth.

I am pleased to report that upon application, we received the sum of $58.00 from the State as Equalization for the purpose of aiding in extending the length of the school year. It is proposed as noted above to extend the winter and coming spring terms one week each.

If the appropriation recommended be granted, we should be able, if there be no marked reduction in the amount to be received from the
State in 1935, to extend the school year and return to our former year of 36 weeks. I urges that this be made possible this year.

We received also from the Equalization Fund the sum of $50.00 with which to assist in paying for the new desks at the village building. These new movable desks are very satisfactory and I recommend that a sufficient number be purchased this year for the Union Hill building.

A new stove at the village building would be a good investment. The old stove is a fuel waster and generally unsatisfactory now in its ripe old age. A new large box stove would cost, installed, around $20.00. Our recommendation for the repair account does not include this item. If a stove is to be considered, the amount of at least $20.00 should be appropriated above the recommendation.

There is available no Federal Free Milk this year but we have recently received a considerable quantity of canned beef soup from the Federal Emergency Relief Administration for use in the noon lunch.

The chimneys at both buildings should be equipped with metal or brick chimney caps to prevent the accumulation of snow in the flues during week ends and vacations with consequent trouble and damage to the interiors of the buildings.

We have two students at Fryeburg Academy and three elementary pupils in the Fryeburg schools for which we pay tuition.

For the times, I think, our schools are successful. Our teachers seem to be satisfactory. Our buildings are in fair shape. We do need new books and more instructional material. For instance, most of our geographies are pre-war books with pre-war maps. Our histories need to be changed. At least $100.00 should be made available for the Text Book Account.

Respectfully submitted,

CHAS. A. SNOW, Supt. of Schools.
