To the citizens of Winthrop:

Another year is numbered with the past. In accordance with the custom and the law, we respectfully submit our annual report for the year ending March 9, 1885, and as we have endeavored to have all bills against the town paid, we believe that it represents very nearly its financial condition.

We have been called upon to pay several quite large pauper bills to different towns and cities, one of which should have been paid by the relatives of him who caused the expense, as they are abundantly able, but they would not, so the town was obliged to cancel it.

The "North Wayne road case" has at last dragged its slow length along to a terminus. The matter has been decided in favor of the town.

We are still paying one dollar per week to Mrs. Roxie Smith, for the board of Catherine Batcheller.

Suit has been commenced against the town of Wayne, where we believe she belongs, for her support. "As "justice is slow" it will be some time before the case is decided.

Since the 7th of last October we have been paying seventy-five cents per week toward the support of Mrs. Mary Williams. We deemed this better for the town than carrying her to the farm.

Total, 514 70

Leaving amount expended for schools during the current year $2,599 73. The bills for the winter term of Districts No. 1 and 4 are not in.

TOWN FARM.

The care of the Town Farm has been in the charge of Mr. and Mrs. Horace Ingham, who have endeavored to work for the interest of the town, judging from our various visits of inspection. We think that they have made those under their care as comfortable as possible under the circumstances.
The buildings on the Town Farm are becoming somewhat out of repair, especially the barn. Measures will soon have to be adopted to either repair or rebuild it, as the town may deem best. An article has been inserted in the warrant for the town to act upon, touching the matter.

A valuable cow died on the farm a few weeks ago, which will lessen the inventory somewhat.

At the beginning of the year there were at the farm Silas C. Pettengill, Geo. C. Chandler, Rebecca Lambert, Mrs. Benj. Peterson, wife of David B. Torsey and her six children. Samuel Knights came July 10th and died February 1, 1885. Mrs. Torsey and her children left the farm April 1st, leaving now on the farm four, viz: Silas C. Pettingill, Geo. C. Chandler, Mrs. Benj. Peterson and Rebecca Lambert. Thirty-seven tramps have been lodged and fed at the farm the year past.

School District No. 4.

The Directors of School District No. 4 submit to the town the following abstract of their district report for the school year of 1884-'85:

By law towns are required to raise and expend annually for support of schools therein, not less than 80 cents for each inhabitant; and by Sec 15 of Chapter 11 of the Revised Statutes the assessors are required to apportion to each district, and to any inhabitants not embraced in a district, the money so raised, and all funds derived for the support of schools in their town, in proportion to the number of scholars aforesaid. In 1875 the Legislature passed a law which is now Sec. 12 of Chap. 11 of the Revised Statutes as follows: "The assessors and Superintending School Committee, or School Supervisors of towns, may annually apportion twenty per cent. of all money required to be raised by Section six (of Chapter 11) and twenty per cent. of all money received from the State for schools, except money received under Section twenty-eight (free high school) among the districts in the several towns, in such manner as in their judgment shall give to the smaller districts as nearly as may be, an equal opportunity for a common school education." It will be borne in mind that the Directors in District No. 4 exercise by law all the duties, powers and privileges of the superintending school committee or supervisors in this district. At the time appointed by the assessors for the division of the school money according to law, the Directors claimed a voice in the proceedings, so far as District No. 4 was concerned; yet the assessors and supervisor were pleased to deny us this legal right, therefore the taking of any money from this district under these circumstances was clearly illegal,
and we have disregarded it entirely and treated it as though not withdrawn. There have been 31 weeks of school as follows: 9 weeks in spring term, 12 weeks in fall term, and 10 weeks in winter term.

Miss Juliet M. Stanley has taught the primary department with her accustomed success.

Spring term — whole number 70, average attendance 60.
Fall term — whole number 58, average attendance 50.
Winter term — whole number 50, average attendance 42.

The intermediate department has been under the charge of Miss Carrie Young. Miss Young is a graduate of our own High School, and it is very gratifying to be able to say that she has met with marked success and is deserving of much praise. She is a good teacher.

Spring term — whole number 34, average attendance 31.
Fall term — whole number 36, average attendance 34.
Winter term — whole number 31, average attendance 29.

Miss Jennie M. Thorne of Wayne taught the Grammar School the spring term with the same result that has always attended her presence in the school room.

Whole number 40, average attendance 33.

It has been the policy of the Directors, other things being equal, to select the teachers from among the graduates of the High School. And Miss Maud McIlroy has taught the Grammar School during the fall and winter term. We have not been disappointed with the results of her work. This school has, under her guidance, fully maintained its high standing, and has made steady progress in the right direction. Miss M. is a “born” teacher and we consider her one of the best equipped young ladies for the school room in the State.

Fall term — whole number 34, average attendance 33.
Winter term — whole number 35, average attendance 34.

HIGH SCHOOL —

Spring term — whole number 25, average attendance 23.
Fall term — whole number 25, average attendance 23.
Winter term — whole number 26, average attendance 23.

This school has been taught by Miss N. E. Hunton of Readfield. Miss H. is no stranger to the citizens of District No. 4,
nor are they acquainted with the character of her work in the school room. Commendation from us can add nothing to the grand results attained by this school. The 1st class has completed Philosophy, five books in Caesar, four books in Geometry, and commenced Astronomy. 2d class has taken fifty-six lessons in Jones' Latin Book, Advanced Algebra as far as Ratio and Proportion, and in Philosophy to Hydraulics. 3d class has finished Elementary Algebra, and 120 pages in Advanced Algebra, Natural History as far as "Wading and Swimming" birds, and part 1st in Physical Geography. 4th class has taken Natural History and Physical Geography with the 3d class and in the Elementary Algebra to "Radicals." Miss Hunton is pre-eminently a worker and she never fails to infuse the same spirit into her pupils and inspire them with intense earnestness in the prosecution of their studies. Having taught here several years and knowing full well its necessity, she advises a free High School.

Nearly or quite a thousand dollars has been expended in painting and repairing the school house so that now it is neat and warm, and reflects credit upon the district. We feel confident in saying that no money has been wasted in this district this year. The citizens ought to be proud of the high character of these schools and see to it that their efficiency is fully maintained in the future.

The Directors desire to take this opportunity of thanking those interested in our school affairs who have repeatedly honored us by placing us in the very responsible position of Directors, and to add that we do not desire a re-election.

Respectfully submitted,

L. T. CARLETON, Directors
C. A. COCHRAN, School
W. E. WHITMAN, Dist. No. 4.

By these statements it appears that schools have been maintained in District No. 1, 3 terms, 32 weeks; in No. 2, 3 terms, 28 weeks; in No. 3, 3 terms, 28 weeks; in No. 5, 3 terms, 30 weeks; in No. 6, 1 term, 10 weeks; in No. 7, 1 term, 8 weeks; in No. 8, 2 terms, 17 weeks; in No. 9, 3 terms, 22 weeks; and in No. 10, 2 terms, 20 weeks. The average length of the schools during the year has been about 22 weeks.

The work of the year has, on the whole, been quite satisfactory. Mrs. Whitney, Misses Bass, Clifford, Lacroix, Robbins, Mr. Brainard and Mrs. Dexter commenced their work with the advantages arising from previous experience in teaching, and though differing in their methods of instruction as well as their qualification, labored faithfully and successfully. And Misses Chandler, Durfee, Shaw, Hegarty and Peabody, though young and without previous experience, were equally faithful and exhibited a good degree of aptitude for teaching.

My aim has been, as stated in former reports, to arrange such courses of study for the schools as would insure a thorough drill in the elementary branches, and furnish opportunity to acquire some knowledge of the higher branches. The tendency of this plan is, when steadily pursued, to insure more thorough training, rapid advancement and to awaken in the minds of the scholars a desire for higher attainments. The advantages of this course are already beginning to be apparent. Within a short time at least a dozen of our scholars have become teachers, and twice that number have left our schools to pursue their studies in higher institutions of learning.

I have made forty-five visits to the schools during the year and charged for the same sixty-five dollars.
