S. G. Davis, E. W. Wentworth, Aug. Thompson,
Thomas Dealy, J. L. Metcalf,
REPORT OF SELECTMEN.

To the Citizens of Winthrop:

In compliance with the custom and the law, we herewith respectfully submit our annual report for the year ending March 14th, 1887.

The case Winthrop vs. Wayne was not carried up to the law court, but the Overseers of the Poor of Wayne have removed Miss Batchelder to their Almshouse and paid all legitimate bills. The town has been sued by the town of Pittston for supplies furnished to Albert W. Whittier's family. We think there is sufficient proof to show that he never had a settlement in Winthrop. The case was to be tried before the February term of the Supreme Court, but as the Counsel for the plaintiff was sick, it goes over to next term. We are still paying 75 cents per week toward the board of Mrs. Williams (or Bowman).

Upon an examination of the Town Hall building it was found that the timbers of the lower floor were in such condition that in order to keep the Lockup and Safe out of the cellar, the old timbers must be replaced by new. F. Tinker did the job in a thorough manner for eighty-nine dollars. The building and finishing of an annex and the repairing of the Town Hall was let to Wm. Wing of Augusta, for $1,340, who did the job in a thorough and workmanlike manner. In accordance with a vote passed at a special town-meeting Sept. 25th, a wood furnace was placed in the cellar of the Town Hall for the purpose of heating the hall, by the Doran Furnace Co., of Skowhegan for $150, which answers the purpose very satisfactorily.
## VALUATION AND TAX.

Total amount of real and personal estate, $1,029,375 00
Amount of tax on same, the rate being 1.56 mills, 16,058 01
Whole number of polls 565, at $3.00, 1,695 00
Number of dogs 108, at $1, 108 00
Percentage paid for collecting, 1 per cent.  

$17,861 01

## COMMON SCHOOLS.

Balance from last year, 188 65
Appropriation by the town, 1,800 00
Appropriation by State, 956 34
Interest on school fund, 170 24

3,115 23

Amount expended, 2,807 54

Unexpended, 307 69
TOWN FARM.

The Town Farm has been in charge of Mr. and Mrs. A. N. Remick the year past, who have given good satisfaction.

At the beginning of the year there were at the farm, Silas Pettingill, Mrs. Emeline Peterson and Rebecca Lambert. Hope W. Briggs came back to the farm April 26th, and December 4th, Miss Briggs was taken away from the farm and we are now paying one dollar per week for her support. Feb. 1st, 1887, Samuel Torsey and wife were taken to the farm. Emeline Peterson died November 3d. Sixty tramps have been lodged and fed at the farm the year past. There are now at the farm, Silas Pettingill, Rebecca Lambert and Samuel Torsey and wife.

Schedule of personal property at farm March, 1886, $905.77
Paid for family supplies by superintendent, $407.58
Paid salary of superintendent, 250.00
Income of the farm, 440.97

Schedule of personal property at the farm less cash in hands of superintendent, 816.34
Balance against the farm, 306.04

Schedule of Personal Property at Farm.

1 horse, $175.00
7 cows, 315.00
2 heifers three years old, 60.90
2 shoats, 20.00
7 tons hay, 84.00
8 bushels meal, 4.48
460 lbs. middlings, 5.76

J. E. BRAINERD, LEVI JONES, H. PENNIMAN, N. R. PIKE, THOS. H. WHITE,

Appraisers of School Property.
REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE.

We submit the following report for the year ending March, 1887.

At our first meeting A. R. Crane was selected to serve three years, W. H. Keith two years, and L. T. Carleton one year. Mr. Crane was chosen chairman, and Mr. Carleton secretary.

The census was taken, as required by law, on the first of April, 1886, and it was found that there were 578 school children in the town at the time.

The amount of money placed at our disposal for the maintenance of schools during the year was $2,926.58, and was derived from the following sources:

From the annual appropriation, $1,800.00
" " fund, 170.24
" State, 956.34
Total, $2,926.58

The abolition of the "district system" by vote of the town at its last annual meeting, gave to your committee the power, with certain limitations, to make such changes in the management of the schools as they deemed advisable. And after a careful examination of all the facts, and consultation with many living in different parts of the town, we decided

1 To give to all scholars in town the opportunity of attending the Grammar school or the High school, provided they are far enough advanced to pursue the regular courses of study adopted for these schools. And from 15 to 18 scholars living outside the village have attended these schools during the year.

2 To discontinue the schools numbered in the old system 6, 9, and 10, and to allow the scholars living in these neighborhoods to attend the schools nearest to them, or most conven-
ient for them. It was further agreed to allow a certain sum of money for the transportation to and from school of such scholars as would be seriously discommoded by the discontinuance of the schools in their vicinity.

3 To maintain in the village and in the districts formerly numbered 1, 2, 3, 5, 7 and 8, three terms of school during the year, our aim being to give equal school privileges, as far as possible, to all the school children of the town. And, with a single exception, those schools have been maintained three terms, of 9, 10, and 11 weeks each, or 30 weeks during the year.

4 We also decided to have a public examination of all persons who should wish to teach any of our schools. Quite a number presented themselves for examination at the appointed time, though all who had previously applied for schools did not appear before your committee. The examination was made in writing, was thorough, and in the main satisfactory. And from the number of those who obtained the highest rank, and whose record showed that they were successful teachers, or who appeared to possess the requisite tact for teaching, the teachers for the first term were selected.

GRADED SCHOOLS.

HIGH SCHOOL.

Miss N. E. Huntington, teacher. Number of scholars attending.
Spring term, whole number, 32; average attendance, 30.
Fall term, whole number, 32; average attendance, 30.
Winter term, whole number, 27; average attendance, 26.

GRAMMAR SCHOOL.

Miss Maud M. McIlroy, teacher.
Spring term, whole number, 41; average attendance, 39.
Fall term, whole number, 37; average attendance, 36.
Winter term, whole number, 34; average attendance, 32.
INTERMEDIATE SCHOOL.

Miss Emma A. Robbins, teacher.
Spring term, whole number, 37; average attendance, 34.
Fall term, Lizzie F. Hegerty, teacher. Whole number, 40; average attendance, 35.
Winter term, Miss A. A. Partridge, teacher. Whole number, 43; average attendance, 38.

PRIMARY SCHOOL.

Teachers,—Juliet M. Stanley, spring; A. A. Partridge, fall; and M. Alice Robbins, winter term.
Spring term, whole number, 53; average attendance, 49.
Fall term, whole number, 49; average attendance, 39.
Winter term, whole number, 45; average attendance, 39.

Miss Hunton and Miss McIlroy did the same good work as in previous years. Emma Robbins left the Intermediate school at the end of the spring term on account of ill health, and was succeeded in the fall by Miss Hegerty, and in the winter by Miss Partridge, under whose instruction the scholars made marked improvement. At the close of the first term, Miss Juliet M. Stanley retired from the Primary school, in which she had labored with unusual success for a series of years, gaining alike the good will of her pupils and the esteem of the community. Miss Partridge was placed in charge of the school and did excellent work one term, when she was transferred to the Intermediate school, and Miss Alice Robbins, one of our most successful teachers, was engaged in her stead. It is the opinion of the only member of the committee who has heretofore been officially connected with the schools, that they are in a better condition than they have ever been. Yet there is room, as there is in the best of schools, for improvement. We think it is especially desirable to raise the standard of scholarship in the schools, and to provide for them a broader range of study. At our request, the teachers of the Primary, Intermediate, Grammar, and High schools have prepared courses of study for these schools, an outline of which is
printed in connection with this report. Should this plan be adopted, as now seems probable, there will be no promotions from the lower to the higher schools during the year.

UNGRADED SCHOOLS.

EAST WINTHEOP.

WINTHROP CENTER.

Lettie M. Smith, teacher. Spring term, whole number of scholars, 21; average attendance, 15. Fall term, whole number, 25; average attendance, 22. Winter term, whole number, 18; average attendance, 13.

SNELL SCHOOL.

Annie R. Allen teacher spring and fall terms, and Edwin M. Foster, winter term. Spring term, whole number 37; average attendance, 29. Fall term, whole number 35; average attendance, 32. Winter term, whole number, 34; average attendance, 28.

WEST WINTHEOP.

Lizzie A. Hegerty, teacher spring term, Alice H. Longfellow, fall term, and Fred W. Newell, winter term. Spring term, whole number of scholars, 15; average attendance, 13. Fall term, whole number, 9; average attendance, 7. Winter term, whole number, 12; average attendance, 10.

NORCROSS SCHOOL.

Annie L. Bearce, teacher spring and fall terms, and Susie Bearce, teacher winter term. Spring term, whole number of scholars, 19; average attendance, 16. Fall term, whole number, 21; average attendance, 17. Winter term, whole number, 18; average attendance, 15.
MT. PISGAH SCHOOL.

Alice H. Longfellow, teacher spring term, and Mabel S. Robbins, fall term. Whole number scholars in spring term 9; average attendance 7; fall term, number scholars, 10; average attendance 7.

Quite a number of these teachers were young, and almost, if not altogether, destitute of experience in schoolroom work, when they entered upon the labors of the year. They passed, however, a better examination than some who were older, and had been engaged for years in teaching; and the zeal manifested, and the work done by nearly all of them, satisfied us that they may by steady effort make first-class teachers. Among those who were successful in their first efforts were Fred Newell, Edwin Foster, Susie Bearce, Annie Bearce, Mabel Robbins, and Alice Longfellow. Miss Hegerty is a good scholar, of agreeable manners, and, we believe, capable of doing good work. The remaining teachers have had more or less experience prior to the last year. Mr. Robbins, Miss Robbins, Miss Hawkes maintained the good reputation they had previously earned. Miss Smith remained during the year, and gave general satisfaction. Miss Allen was energetic, and fairly successful.

At our suggestion, an Association, composed of all the teachers in town, was formed early in the season. Several meetings were held, attended both by members of the committee and the teachers, at which papers prepared by the teachers were read, and various questions relating to school government and methods of teaching, were freely discussed. The influence of these meetings was highly beneficial, especially to the younger teachers, and we hope the organization will be maintained, and meetings regularly held in the year to come.

We have been enabled, in addition to maintaining thirty weeks of school, with the single exception mentioned, to purchase an organ for the high school, at a cost of $65.00. Also a copy of Yagg's Anatomical Chart, a work of rare merit and great usefulness, for the use of all the schools, at a cost of $35.
It gives us pleasure to record the fact that Miss Hannah Bailey offered a prize of $2.00 to each school for the best essay on the subject of temperance. Stimulated by this offer, a large number of papers were prepared by the scholars, some of them of rare excellence, considering the age and attainments of the authors.

A prize of $5.00 was also offered by a member of the committee to the scholars of the high school for excellence in drawing. A decided interest was aroused, and the drawings made by the pupils showed that they had been well instructed, and possess a good degree of artistic skill.

We are of the opinion that it would be wise for the town to appropriate a small sum, in addition to the ordinary appropriation, for the support of the high school. An appropriation of $250.00 by the town would secure from the State a similar sum, and this would enable us to make many needed improvements, and to purchase books of reference and apparatus for the school.

It is for the town to decide what to do with several of the schoolhouses. It is not probable that there will be any further use for the houses in No. 6 and No. 10. The house in No. 7 is unfit for use. The house on Sturtevant hill is new, and might be moved to a more central location, and accommodate all in that part of the town.

We would observe in closing that the benefits derived from the abolition of the district system are clearly apparent from the foregoing; the work is being systematized, and the good results of this will be still more apparent in the future.

Respectfully submitted,

A. R. CRANE,
WILLIAM H. KEITH,
L. T. CARLETON,

Superintending School Committee.

WINTHROP, Feb. 29, 1887.
PRIMARY SCHOOL.

FIRST YEAR'S WORK.

Reading. Words and sentences from board and chart. Appleton's and Munroe's charts used.

Spelling. Oral, by sound and name.

Number. Counting, with objects, from 1 to 10 inclusive. Adding, subtracting, multiplying and dividing with objects.

Writing. Forms of small letters. Copying words and sentences from board and chart.

Observation. Lessons on direction, place, form, size, color, etc.

SECOND YEAR'S WORK.

Reading. First Reader completed at end of this year.

Spelling. Words from Reader and chart.

Number. Drill on previous work. Writing any number to 50 as a unit, without any notion of units and tens.

Language. Expression. Stories read or told to pupils and reproduced by them orally.

Geography. Place, direction and distance, cardinal and semi-cardinal points of the compass. Drawing plans of tabletop, room, etc.

Writing. Copying from reading lesson, words and short sentences from dictation.

THIRD YEAR'S WORK.

Reading. Completion of Second Reader at end of year.

Arithmetic. Addition and subtraction of simple numbers, with the tables and drills from boards and primary text-book.

Language. Stories read or told to pupils, reproduced by them orally. Stories written from pictures.
GEOGRAPHY. Oral instruction preparatory to taking text book.

PHYSIOLOGY. Parts of the body. Bones, muscles, etc. Effects of alcohol and tobacco on the same.

FOURTH YEAR'S WORK.

READING. Normal Third Reader. 125 pages.

SPELLING. Oral and written. Use "Meleney and Griffin's Selected Words." From page 20 to page 46.

WRITING. Arm, hand and finger movements. Use No. 2 writing book.

GEOGRAPHY. Use Warren's Primary, 26 pages.

ARITHMETIC. Addition, subtraction and multiplication tables from 2's to 12's inclusive and work in the four rules, mental and written.

PHYSIOLOGY. Bones, muscles, circulation, digestion, effects of alcohol and tobacco on the body.

INTERMEDIATE SCHOOL.

FIRST YEAR.

READING. Normal Third Reader, first one hundred and twenty pages.

SPELLING. Meleney & Griffin's Selected Words, page 46 to 66.

ARITHMETIC. Review and drill on addition, subtraction, multiplication, and division.

MENTAL ARITHMETIC. In connection with written work.

GEOGRAPHY. Warren's Primary Geography, from page 26 to 62.

LANGUAGE LESSONS. Sentences, capitals, punctuation, etc.

SECOND YEAR.

READING. Normal Third Reader, from page 120 to 238.
SPELLING. Meleney & Griffin’s Selected Words, page 66 to 86.

ARITHMETIC. Fractions.
MENTAL ARITHMETIC. In connection with written work.

GEOGRAPHY. Warren’s Primary Geography, from page 62 to 85.

LANGUAGE LESSONS. Elementary lessons in English.

THIRD YEAR.

READING. Normal Fourth Reader, from page 27 to 108.

SPELLING. Meleney & Griffin’s Selected Words, page 86 to 106.

ARITHMETIC. Review of fractions, denominate numbers.
MENTAL ARITHMETIC. In connection with written work.

GEOGRAPHY. Warren’s Brief Course, from page 22 to 47, and page 5 to 13.

LANGUAGE LESSONS. Oral work in parts of speech and analysis of simple sentences.

HISTORY. Oral work in early discoveries and settlements.

GRAMMAR SCHOOL.

FIRST YEAR.

ARITHMETIC. Denominate fractions to percentage.
MENTAL ARITHMETIC. In connection with written work.

GEOGRAPHY. Warren’s Brief Course. Completed.

HISTORY OF THE U. S. Thirteen Colonies.

GRAMMAR. Oral work in Parts of Speech and Analysis.

SPELLING. Meleney and Griffin’s Selected Words.

SECOND YEAR.

ARITHMETIC. Percentage to Equation of Payments.

MENTAL ARITHMETIC. In connection with written work.
GRAMMAR. Patterson's Grammar, 125 pages.

HISTORY OF U. S. Intercolonial and Revolutionary wars.

READING. Normal Fifth Reader, 150 pages.

PHYSIOLOGY AND HYGIENE. Oral instruction.

SPELLING. Words from Text-book. Definitions.

THIRD YEAR.

ARITHMETIC. Robinson's Arithmetic completed.

MENTAL ARITHMETIC. In connection with written work.

HISTORY OF U. S. Quackenbos' Presidential Administra-

ions.

GRAMMAR. Patterson's Grammar completed and analysis.

READING. Normal Fifth Reader.

PHYSIOLOGY AND HYGIENE.

SPELLING. Words from text-books.

Compositions and Declamations.

COURSES OF STUDY FOR HIGH SCHOOL.

FIRST YEAR. — Terms of Twelve Weeks.

SPRING TERM. Greenleaf's Elementary Algebra, to Quad-

ratics; Hooker's Natural History, to Reptiles. Jones' Latin 

Lessons, the first 24 lessons.

FALL TERM. Elementary Algebra, completed; Natural 

History, completed; Jones' Latin Lessons, from 25th to 55th 

lesson.

WINTER TERM. Advanced Algebra, to Quadratics; Guizot's 

Physical Geography, part first and second; Jones' Latin Les-

sons, completed.

SECOND YEAR.

SPRING TERM. Advanced Algebra, completed; Physical 

Geography, parts third and fourth; Cæsar, first book.
FALL TERM. Meservey's Bookkeeping, Single Entry; Wells' Philosophy, to Pneumatics; Caesar, second and third books.

WINTER TERM. Bookkeeping, Double Entry; Philosophy, to Light; Virgil, first book.

THIRD YEAR.

SPRING TERM. Wentworth's Geometry, first book; Botany; Virgil, second and third books.

FALL TERM. Geometry, second and third books; take up Botany in regard to seeds, the first 6 weeks, and complete Philosophy in the remainder of the term; Virgil, 4th, 5th and 6th books.

WINTER TERM. Geometry, complete; Astronomy; Rhetoric.
CHIEF ENGINEER'S REPORT.

To the Citizens of Winthrop:

I herewith submit my second annual report of the condition and general efficiency of the Fire Department, with a detailed statement of the work performed for the municipal year, closing March 13th.

I am glad to be able to report that the town has been much more favored in regard to exemption from fires than last year.

The apparatus of the department is the same as last year with the addition of six leather "leak straps" so called, two "hydrant gates," six leather shoulder straps, six hydrant wrenches, one "Siamese" and two $\frac{3}{4}$ inch nozzles — all of which articles were absolutely needed. The department has been worked this year as last, by "Payson Tucker Hose Co.," now numbering 24 good and efficient men — W. E. Whitman, foreman, succeeding E. O. Kelley, who served the company and the public the two previous years, so promptly, efficiently and with general satisfaction, to whom I desire on my part to extend my thanks for his readiness at all times to respond to all reasonable calls.

Wallace E. Berry has had charge of the hose house and all the apparatus connected with the department and to see to it that it is at all times in working order, which trust he has faithfully discharged, to the satisfaction of the department.

The services rendered by the department during the year have been as follows: They have been called out five times, four of which were to test the pipes, hydrants, hose and pump to make sure they were all in working condition.

April 24th a test was made and found to be all right except a leak in the pipe leading from the pump to the hydrant in the hydrant house of the Winthrop Mills Company, which leak the company at once repaired.
May 29th, again tested the water works, the frost being out of the ground and found to be all right.

September 10th. Tested again the same and found them in good working condition.

November 20th. Again tested the water works in all its parts, before winter set in, to be sure all was right and in good working condition, which was found to be all right.

Feb. 5th, 1887, the department was for the first time since my last report, and since Dec. 20, 1885, summoned to a fire, the shop of Wellman & Clark. The Hose Company was promptly at the fire, where they found the building so thoroughly on fire that the flames had burst out through the roof.

They soon had two streams playing on the building, which was a two story wood building used for a blacksmith shop and a carriage factory, and in which was much combustible material. Within half an hour they had the fire under control, and within a reasonable time entirely extinguished. The whole lower story was saved with but very little damage. Considering the hour of night when called out, the Company are entitled to no little credit for their promptness and willingness to do the best in their power. This was another proof of the fact that “Payson Tucker Hose Company” is a hard and strong power for a fire to contend with.

All the members of the company were present but two, who were unable to be. The building was insured for $600, and the stock for $1600. Origin of the fire unknown.

The expenses of the department for the year have been as small as practicable, in connection with the necessities of the same, and for a detailed statement of which, I refer you to the report of the Selectmen.

I feel constrained again to call the attention of the town to the necessity of extending the pipe to connect with the pump in the lower mill, for reasons which must appear obvious to every one. I think it obvious to every one who will consider the matter that the pipes should be extended down Mechanic street, Royal street and across the Railroad from hy-
drant No. 8, and it is hoped that some steps to this end may be considered at the next annual meeting.

Relative to obtaining more hose which are liable any day to be needed, and at no very distant time will be absolutely needed, I feel it would be a wise thing for the town to purchase annually a few hundred feet, say three hundred; in this way the expense would be light and the supply kept up in good condition.

The results of our water works have proved their value to the town and therefore the more reason why they should be kept up to a good working condition.

I think I shall be excused for again bespeaking for the company a reasonable compensation for their services for the ensuing year, liable as they are at any and all times to be called out and ready as they are to promptly respond. I think the results of the company are by this time quite fully appreciated.

And now in closing I wish to thank the officers and members of the company for their faithful and cheerful support, and also the selectmen for their readiness to accede to all reasonable demands to promote the efficiency of the department.

Respectfully submitted,

C. A. WING, Chief Engineer.
