Thirty-Fourth Annual Reports

OF THE

CITY OF BIDDEFORD,

FOR THE YEAR ENDING JANUARY 31, 1839.

TOGETHER WITH THE

INAUGURAL ADDRESS OF THE MAYOR,

HON. CHARLES E. GOODWIN.

BIDDEFORD.
PRESS OF STANDARD PUBLISHING COMPANY
1889.
CITY OF BIDDEFORD.

IN BOARD OF ALDERMEN, FEB. 11, 1889.

Ordered:
That the City Clerk be and is hereby authorized and directed to have prepared and printed for distribution five-hundred copies of Annual Reports for 1888-89.

Read and passed, S. D. F. C.

Attest: EDGAR A. HUBBARD, CITY CLERK.

In Common Council, Feb. 11, 1889.

Read and passed in concurrence.

Attest: CARLOS H. MCKENNY, CLERK.
MAYOR’S ADDRESS.

The management of a municipal corporation is a trust of no small importance; it involves the exercise of the greatest powers of judgment, of which we may be capable, for upon wise and intelligent action of those who may have charge of the corporate concerns of a municipality, will depend much of the happiness and the welfare of the community. At the very threshold of a new year, we enter, under the obligation of a solemn oath, into such a trust. I am confident that you, with me, in entering now upon the discharge of those duties which shall be ours to perform in the present year, approach that trust in the hope that our acts may not only receive the approbation of our fellow citizens, but the satisfaction of our own consciences.

We are the servants of the people, consequently we are invested with large powers and with the exercise of large discretion. Into our hands are placed all the public affairs of this city. Save the City Council alone, no other officers of the the city are elected directly by the people to represent them in any of the departments of the municipal corporation. All the departments, the board of overseers of the poor, board of assessors, board of health, and the heads of the various departments are elected by the City Council. We therefore see the importance of the positions which we hold, together, as members of the City government, and the obligation which now devolves upon us, to see to it that by
every act of ours the best governments and the most prudent management of the affairs of this city shall be, not only the result of our own work, but also the result of the work of those who may be elected by us to the responsibilities and duties of the various departments. If we fully realize the dignity and importance of positions, even though we magnify the honorable offices we hold, we shall make no mistake in the proper discharge of our duties; on the contrary should we fail to appreciate the distinction which has been conferred, and the largeness of the trust which has been placed in our hands, we may expect, at the very outset, and the very beginning of our government, to fail in all our duties towards this community as well as towards ourselves. Each member has bound himself to a faithful and impartial performance of his duties.

Let us endeavor, gentlemen, in all the duties we may be called upon to perform, to not only fulfill the letter, but the spirit of the obligation we have assumed.

We will now pass to a statement of the financial condition of the city.

  ..........................................................$445,062.63

The bonds payable are all at 4 per cent except $50,000 which is at 4½ per cent.

The average rate of interest paid for the year on the notes payable has been about 4½ per cent, and the last loan made by the city was at 3¾ per cent.

July 9th, 1888.

By authority of the City Council, the city Treasurer was authorized to pay from the city Treasury the sum of ten thousand dollars as follows: Four thousand dollars for the continuation of
the Fall street sewer, thirty-nine hundred dollars for sewers in general, five hundred dollars for damage in locating street over land of Dennis S. Hill, one thousand dollars for the construction of New Graham street, five hundred dollars for the construction and continuation of West Myrtle street, one hundred dollars for the construction of Mount Pleasant street.

The above amounts have been credited to the various departments and charged to “Balance acct.” as per Treasurer’s statement given to the public prior to this date.

**OUR FIRE DEPARTMENT**

is well managed and is in a good condition. I think the addition of a Fire alarm would meet with the approval of all citizens, and I recommend such to the department the present year.

**OUR SCHOOLS**

have been generously supported by the City Council, but on account of some additional expenses the past year, and which is sure to be increased the coming year, I feel that there should be an increase in the appropriation for this department.

**THE HEALTH DEPARTMENT**

is an important item in our community and should be looked after with great care.

**OUR STREET DEPARTMENT**

has been carefully conducted, some work has been done upon new streets, and we can take pride in the condition of most of our highways.

**THE STREET LIGHTS**

have cost money, but it is money well expended. I think all citizens are well satisfied with our electric lighting.
THE CITY BUILDING

needs repairs, the roof is in a bad condition and a new one will be necessary this year. The city hall should be attended to, and can be repaired to the satisfaction of all, without large expense.

OUR PAUPER DEPARTMENT

has been well conducted the past year, both in the interest of the poor people and the city. As to expense, I think this year will make a better showing.

THE POLICE DEPARTMENT

has been rather expensive the past year, but considerable money has been expended in and around the station house, which has helped the sanitary condition in connection with this department.

SEWERS.

There are still needed, improvements in our sewerage, but no particular sewer is recommended at present. Later in the year your attention will be called to this department.

BRIDGES.

This department has been looked after carefully. The new bridge on Gooch street that was constructed last year and for which no appropriation was made, is an item to be considered this year in our list of appropriations.

SIDEWALKS.

This department is ahead of other departments in the city and I am of the opinion that the appropriation should be much smaller for the present year to carry on the necessary needs of the community.
UNCOLLECTED TAXES.

The amount due from uncollected taxes for the various years amounts to $149,725.91, which is a very large asset and the collection of the same should be immediately attended to. This item alone if collected and turned into the Treasury would cancel all our outstanding notes except about $23,000.00 which the cash on hand will about offset.

GENERAL EXPENSE ACCOUNT

has always been expensive. This year I have found that about $3000 has been charged to this account to care for the insane and I recommend that a separate appropriation should be made for the insane rather than charge to General Expense.

The good feeling now apparent among us is, I believe, real, and although it is not expected or even to be desired that we should always be of one mind, I sincerely hope that this confidence and good will may continue long after our terms of service here shall have expired.

CHARLES E. GOODWIN, MAYOR.

To His Honor, the Mayor, and City Council:

Gentlemen:—I have the honor to submit the following report of the street department, Highway District No. 4, from Feb. 1st, 1888, to Feb. 1st, 1889.

BRIDGES.

A new iron bridge was built across the Saco river from Gooch Island to Saco in connection with the city of Saco. This bridge takes the place of a wooden structure which was considered unsafe. When the old bridge was removed it was found necessary to lengthen the piers with stone, which largely increased the expense. The roadway is planked with 3 inch red oak planks. The Biddeford side of the bridge was raised about twenty-three inches which required filling and grading the street to the bridge; also laid retaining wall for sidewalk, and iron fence from the bridge to property of Luther Bryant.

Bradbury bridge has been replanked with 3 inch spruce plank and the sidewalk relaid with 3 inch spruce plank.

Somesville bridge. The sidewalk has been replanked and repairs have been made on other bridges.
NEW CULVERTS.

Laid new stone culvert on extension of Graham street, fifty-two feet long, two feet wide, and three feet high. Also removed the old culvert of cobble stones at the extension of Granite street, and built a new one of block stone, forty feet long, four feet high, and two feet wide. It was necessary to widen the street which required about three hundred loads of filling.

RETAINING WALLS.

Retaining wall laid on Birch street, sixty-five feet long, six feet high and three feet wide, in front of Horrigan property.

Retaining wall on King street, fifty feet long, five feet high and three feet wide.

Also bank wall on Pool street, eight feet long, four feet high.

SIDEWALKS.

The following brick sidewalks have been laid, viz:

On the north easterly side of Main street, from Boston & Maine R. R., crossing to Elm street.

On westerly side of Elm street, from land of James A. Dresser to Spruce street.

On easterly side of Elm, from Cutts to Pearl street.

North easterly side of Pool, from Alfred street to property of Henry Petrín.

On north easterly side of Main street, from Foss to Laconia gate.

South side of Dean's Hill and twenty feet on Emery street.

Easterly side of Wentworth street, in front of George H. Munroe's property.

Corner Main and Harvey street, in front of Thomas Murphy's property.

Front John Buckley's on Bacon street.

Also relaid several other walks and made repairs where nec-
essary. Used all the bricks that could be obtained in the two cities.

Also filled sidewalks to grade as follows:

- From Pearl street to Lincoln, easterly side.
- Vetromile street, westerly side.
- Main street, south side, from Foss to Emery, and on Emery, one hundred feet.
- Alfred street, from Clark to Myrtle.
- Graham, westerly side, from Union to Brown's property.
- Mason street, both sides, from Elm to Bradbury.
- Union street, front of J. T. Mason's and J. G. Brackett's property.
- Cutts street, northeasterly side from Bradbury to Water Power land.
- From Pool street, easterly side, Foss to Summer.
- North easterly side, Summer to Hiram Hanson's residence.
- Westerly side, Summer from Mt Vernon St., to Prospect.
- Foss street, easterly side, from Summer to Mt. Vernon.
- Westerly side, from residence of S. W. Luques to Summer and north easterly side of Summer street.
- Hill street, front Baker property.
- Also laid stone driveway adjoining same property. Also filled sidewalk both sides of Fall street from Hill to Foss streets; Summer street from Birch, both sides. Laid plank walk on Elm street from H. Taylor's to Seth Warren's residence.
- Also hauled two hundred and seventy-five loads of rocks and gravel for sidewalks on:
  - North easterly side of Main street, above Eastern depot.
  - Bradbury street, front of Mrs. Verrill's and H. B. Dennett's property, also James A. Simpson's.
  - North easterly side of South street from Elm to the Boston & Maine R. R., bridge,
  - High street hill to Mr. Lunt's residence.
  - Bacon street, north easterly side, from Sullivan street to James F. B. Waterhouse
Hill street, from Main to Bacon, both sides.
Made repairs on several other sidewalks. Hauled seventy-five loads, filling West Cutts street, in front S. K. Banks' property.

**EDGESTONE SET.**

Six thousand, three hundred and forty-two feet of edgestone have been set on the following streets, viz:—

- Birch, Foss, Summer, Mason, Main, Green, Fall, Western Avenue, Pool, Elm, Water, Alfred, Hill, Cutts', Bradbury, Emery, and Union streets.

**STONE CROSS WALKS.**

The following stone cross walks have been laid, viz:—

- One South and Green streets.
- One South and Wentworth streets, 12 feet to lengthen out old walk.
- One Alfred and Union streets.
- One on Elm street.
- One on Main street.
- One on Emery street.
- Two on Foss street.
- One on Washington street.
- Reset—One on Kossuth street, three on Elm street and three on Main street.

**NEW STREETS.**

One thousand dollars was appropriated for the extension of Graham to Crescent St., which sum was insufficient to complete the street. There was removed from the street 900 yards of ledge, used for filling. Also hauled two hundred and seventy-five loads of rocks from gravel pit for same purpose.

The extension of Myrtle St., from Graham to property of N. S. Drown. The Street Committee contracted with J. T. Littlefield to remove the ledge. It will be necessary to grade, fill, and gravel the same this year in order to make it passable.
The extension of Harvey street from Cutts to property of Geo. K. Gibbs required the blasting of four hundred and twenty-five yards of ledge, graded and filled the same.

The extension of Western Avenue four hundred and fifty feet to Burnham property.

Graded, filled, and graveled extension of Summer from Fall to Myrtle street.

The following streets have been graveled, viz: Main St., from City Farm to Elm; Elm St. from Spring’s Island to Bradbury bridge; from Lincoln to Spruce; from Cutts to Centre; Mason St., filled and graded from Elm to Bradbury; Union from Elm to residence of J. T. Mason; also front J. G. Brackett’s; Hill street from Main to Bacon, requiring a large quantity of filling to widen out the street; Washington street from Alfred to Main; Jefferson street from Washington to Main; Pine to Elm street; Water street from Sullivan to Pool, clayed and graveled Nason’s Hill, Foss street from Main to Bacon; Summer street from Alfred to Porter; Fall street from Hill to Foss; Oak street from Pool to Acorn; also clayed and graveled Campbell and Emery’s Court off Oak street; filled gutter from Porter to Myrtle; clayed and graveled Graham street from Birch, about three hundred feet; clayed and graveled Foss street hill from Summer to Mt. Vernon, and Mt. Vernon from Foss to Summer; and City Square hill to Jefferson street. Dean’s hill was graveled four times during the season. With so much heavy teaming and so much rain as we had last year it was impossible to keep it in good repair. Driveway stones have been set when required and plank furnished for the same.

Dean’s hill from Foss street to Hill was cut down about three feet and graded.

Also made repairs on Gooch street from bridge to Foundry building, the street washed out by the freshet.

Graded and filled Prospect, Myrtle, and Alfred streets around the new high school building; hauled fifteen hundred loads of rocks and clay. It will require as much more to fill to grade
when the edgestones are set.

The heavy snow storm in the spring of 1888 blocked the streets and sidewalks to an unusual extent and the rain-fall during the summer and fall washed out many of the streets which made it necessary to make repairs on almost every street in the City.

**PAVING.**

Granite paving blocks were laid from Foss street to Emery. Also furnished blocks for Horse R. R. company from Foss St. to bridge.

Elm street was paved from Spruce to Cutts.

No. of blocks furnished and used on the above streets were 107,500.

Relaid old paving on Lincoln and Main streets, where it was necessary.

The paving on Main, Lincoln, and Elm streets was thoroughly cleansed twice a week during the season.

**DRINKING FOUNTAIN.**

Set one large drinking fountain for horses, corner Pool and Clifford streets.

Also reset one foot of Dean's hill.

**SEWERS AND DRAINS.**

The following sewers have been laid during the year, viz:

- 883 ft., 24 inch glazed pipe from Acorn street to Hill, average depth of excavation 12 feet, twenty five feet of excavation through ledge.
- 345 ft., 12 inches glazed pipe on Fall street.
- 450 ft. 12 inch glazed pipe, Main street from Boston & Maine R. R. to F. M. Burnham property, excavation through ledge.
- 60 ft., 12 inch glazed pipe Foss street, excavation through solid ledge.
- 69 ft., 12 inch glazed pipe on Green street.
125 ft., 10 inch glazed pipe on Bradbury street.
304 ft., 12 inch glazed pipe on extension Bradbury street.
60 ft., 8 inch pipe on Mt. Vernon street.
130 ft., plank drain on High street.
30 ft., 8 inch glazed pipe on High street.
40 ft., 8 inch glazed pipe, on Centre street.
75 ft., 15 inch glazed pipe, on Western Avenue.
130 ft., plank drain on High street.
30 ft. 8 inch glazed pipe, on extension Bradbury street.
60 ft. 8 inch pipe on Mt. Vernon street.
130 ft., plank drain on High street.
30 ft., 8 inch glazed pipe, on Centre street.
75 ft., 15 inch glazed pipe, on Western Avenue.
567 ft., 15 inch glazed pipe, on Extension of Cutts street to Boston & Maine R. R.
30 ft., 24 inch glazed pipe, Cutts street extension.
25 ft., 18 inch glazed pipe, Gooch street to river.
28 ft., 12 inch glazed pipe, corner Summer and Alfred.
29 ft., 12 inch glazed pipe, Smith street.
36 ft., 8 inch glazed pipe, Pool and Foss streets.
32 ft., 8 inch glazed pipe, Elm street.
22 ft., 10 inch glazed pipe, Water street.
35 ft., brick sewer on Main street.

NEW BRICK POCKETS.

29 new sewer pockets with drain stone were put in requiring 290 ft. of 6 and 8 inch pipe, viz.—Bradbury, Elm, Campbell's Field, Harmon's Field, Centre, Oak, Granite, Hill, Fall, Hazeb Cutts, Foss, Prospect and Summer streets.
Rebuilt 15 old pockets. Also built three large man holes of brick, covering with stone, viz.—Hill street, Bradbury and Cutts.
Brick sewers have been repaired on Main and Sullivan streets, and corner of Alfred and Main streets.
Filled old reservoir corner of Bacon and Sullivan streets, also one on Pool street front of George Hawkes's house, requiring a large quantity of material.

Respectfully,

J. G. SHAW, STREET COMMISSIONER.
REPORT
OF THE
CHIEF ENGINEER OF FIRE DEPARTMENT.

To the Honorable Mayor and City Council of the City of Biddeford:

Gentlemen: In accordance with the act establishing a Fire Department, I herewith submit to you my Sixth annual Report relating to said Department, for the year ending Jan. 31st, 1889.

This report embraces, as will be found, a complete register of the members connected with the Department, and also gives in detail an account showing the working force of the department, condition of the apparatus and a statement of all fires and alarms during the last year, also the number of hydrants where water can be obtained in case of fire, and their location.

I have but a few recommendations to make in addition to what were made last year, and I trust the recommendations which I have made or deemed it my duty to submit will commend themselves to the good judgment of your honorable body.

DEPARTMENT.

The department consists of two Steam Fire Engines, one Hose Wagon and one Hook and Ladder Truck.

The "Richard Vines" remains the same as reported last year is in good order and only used in cases of emergency.
The "Eben Simpson" is in good condition and well able to do good fire service for some years, needing but few repairs.

The Hose Wagon proves to be very valuable to the department.

"Welcome" Hook and Ladder Truck will need but few repairs the ensuing year.

OFFICERS AND MEMBERS.

Chief Engineer .................. WILLIAM BOSTON.
1st Ass’t .......................... CHAS. E. HOYT.
2nd .......................... JOHN LEONARD.

RICHARD VINES S. F. E. CO. NO. 1.

Foreman .................. Irving W. Mason,
Ass’t Foreman .................. Daniel Kerwin,
Clerk .......................... Fred Grant,
Engineer .................. John Goodier,
Fireman .................. George W. Leavitt,
Hosemen .................. Nathaniel P. Verrill,
  " .......................... George Bowe,
  " .......................... Orrin Skillings,
  " .......................... Charles Grant,
  " .......................... Herbert W. Warren,
  " .......................... Israel Velandrie,
  " .......................... George Coburn,
  " .......................... James O. Smith,
  " .......................... Fred Wormwood,
Driver .................. Henry W. Goodwin.
ENGINE HOUSES AND STABLE.

Both engine houses and stable have been painted the past year and are in good order.
REPORT OF CHIEF ENGINEER.

HORSES.

The horses in the department are all in good condition having earned the past year the sum of $1,006. I would earnestly recommend that the city purchase another pair of horses for the Hook and ladder truck.

HOSE.

There is in this department about 5,000 feet of good, reliable hose, and I think it advisable for the city to purchase 1,000 feet the ensuing year to keep the amount good in the department.

SUGGESTIONS.

I have advised several years past for the removal of the building occupied by the “Welcome” Hook and Ladder company. Its removal would cause less disgrace to both the city and department.

Being wholly unfit for what it is used for at present, it might be converted to such as it was at first, a tool house.

If a good hose tower should be erected on the lot near the No. 1 engine house, it would be of good service. I think more notice should be taken towards its erection, and let action be taken on the matter by the next City Government.

By the present system of cleaning and drying the hose, which is not suitable and causes the hose to become ruined and more to be paid for its removal, more hose is destroyed in this way than if it had been used constantly. If kept in a tower as already spoken of it would save the hose considerably.

A building is also needed for the Hook and Ladder Truck and may be connected with the hose tower.

New hydrants are needed very much in several parts of the city, but especially on Adams street and Oak street.

I would again recommend that nothing less than six inch pipe be used for supplying the hydrants.
The department would receive great benefit if the electric bell alarm was introduced in the city. We have been very fortunate in not having large fires, but it will not always last and I think we should be prepared. By introducing the electric fire alarm it would save the firemen from running in the opposite direction from where the fire is, which is often the case.

I would again recommend that the Gamewell system be adopted as being the only reliable service. If a few boxes be put in this year and a few more be added during the following years until every section is supplied, we should find how great its importance is in saving lives and property.

I would also recommend that a large pung be purchased next winter to carry hose in place of the hose wagon as being better adapted to the season.

FIRES AND ALARMS IN 1888.

Feb. 15th, fire at 11.30 P. M., Buxton road, Saco, Department out.

Mar. 26th, fire at 3.15 P. M., Jerry Shaw’s stable, Western avenue, " "

In concluding this, my sixth annual report, I desire to return my sincere thanks to the officers and members of the entire department, for the prompt and efficient manner in which they have responded to the call of duty.

To the Committee on Fire Department for the careful attention always cheerfully given. Finally, the board desires to acknowledge their gratitude to His Honor, the Mayor, the Board of Aldermen, and Gentlemen of the City Council, for their continued liberality to the financial wants of the department.

Respectfully Submitted,

WILLIAM BOSTON, CHIEF ENGINEER.
REPORT
OF THE
CITY MARSHAL.

To the Honorable, the Mayor and City Council:

Gentlemen:—I herewith submit my report as City Marshal from March 23d, 1888, to March 18th, 1889.

I have had under my charge 33 men. To these there was assigned duty as follows:

- Deputy Marshal: 1
- Regular Patrol: 7
- Sunday duty: 5
- City Hall (as occasion required): 2
- Special duty in reserve: 18

The arrests made and causes therefor are as follows:

- Intoxication: 233
- Assault and Battery: 23
- Larceny: 19
- Assault: 8
- Assault on officer: 4
- Delerium Tremens: 2
- Breaking and and Entering: 3
Malicious Mischief, .................................................. 3

Bastardy ................................................................. 1  
Perjury, ................................................................. 1  

Total arrests made, ................................................. 300  
Furnished lodging to .............................................. 549

Food was furnished to lodgers and to three arrested for crime.
Finding the station house in a very bad state of repair and its sanitary condition dangerous, I made such repairs and improvements as seemed to me to be demanded at the least cost I could, under the circumstances.

The men under my charge have been uniformly gentlemanly, faithful, careful and prompt in the performance of their duty.
I feel it my duty to suggest that the term of service in this department should be permanent, subject to removal for cause upon hearing.
That the City Marshal should be paid a stated salary sufficient to compensate him for giving his whole time and energy to the performance of his duties, and the court fees to be covered into the City Treasury.
That the pay of patrolmen be raised to $2.50 per day in full.
I feel myself under great obligation to the Judge and Recorder of the Municipal court for the kindness and consideration with which they have treated me.
And to the Mayor and the city officers, I owe much of gratitude for their courtesy, and the aid they have extended me.
I cannot close without saying that I believe we have reason to be proud of the general disposition of our community to quiet and good order.

Respectfully submitted,

BENJ. F. CHADBOURNE, CITY MARSHAL.

ANNUAL REPORT
OF THE
OVERSEERS OF THE POOR.

Biddeford, Jan. 31, 1889.

To the Honorable, the Mayor and City Council of the City of Biddeford:

Gentlemen:—We herewith submit the following report for the municipal year 1888—89.

EXPENDITURES.

On account of City Farm (warrants drawn) $6,445 49
Credit by 160 cords of wood delivered on streets, 640 00
Total $5,805 49

On account of streets (warrants drawn) $9,052 05
To 160 cords of wood from the farm 640 00
Total $9,692 05

Total expenditures $15,497 54
REPORT OF THE OVERSEERS OF THE POOR.

RESOURCES.

Appropriated by City Council $14,000 00
Cash paid city treasurer 851 27

$14,851 27

Overdrawn 646 27
Total Resources $15,497 54

Expenses of City Farm $5,805 49
Credit by cash $520 27
Credit by work of team 223 00

$743 72

Expenses of farm, less credits $5062 22

Number at almshouse, Feb. 1st, 1888, 47
Received during the year, 29
Born during the year 3
Whole number inmates 79
Number discharged 20
Died 2
Present number inmates 57

Much credit is due Mr. and Mrs. McKeen for the efficient manner in which the farm and almshouse have been managed the present year.

There is at the present time a fine herd of nine cows, which is hard to excel, also three horses, seven hogs, twenty tons of hay, five barrels of pork, six barrels of beans, sixty-five cords of wood and many other articles, together with all household furniture and utensils that are necessary for the convenience and comfort of the inmates.

PAUPERS OUTSIDE THE ALMSHOUSE.

We have furnished relief to one hundred and eighty families numbering five hundred and twenty-three persons.
The number of deaths outside the almshouse have been twenty-three, number sent out of town, forty-five,

Respectfully submitted,

TRISTRAM HANSON,
JOSEPH CARTIER,
WILLIAM TWOMEY.

OVERSEERS OF THE POOR.
REPORT
OF THE
BOARD OF HEALTH.

To the Honorable, the Mayor and City Council of the City of Biddeford:

Gentlemen: The undersigned Board of Health submits the following report for the Municipal year 1888–9.

The appropriation for this Department was $1,500.00.

The amount expended by the department during the year was $3,684.46. A large portion of the above expense was caused by constructing sewers in different parts of the city.

We have laid a sewer in the rear of City Building connected with the Main street sewer, at a cost of $1,109.81, to drain the back-yard which was in a bad condition and dangerous to the health of citizens residing and doing business in that locality. It has also done away with the privy vault which has always been a great nuisance. A good water closet is now in its place.

We also laid a sewer on Vetromile street, to and across the Boston & Maine Railroad, at a cost of $1,011.62, which was very much needed in order to abate the nuisances that existed in that locality, and for the prevention of contagious diseases.

A short sewer was also constructed on Prospect street, at a cost of $100.00.
Drain pipe to be used on Union street near the residence of J. T. Mason for the purpose of repairing or extending sewer, has also been paid for out of the funds of this department.

We have also had two teams two days each week for four months of the year during the warm weather, picking up waste from all parts of the city which has added greatly to the healthy condition of the city and the convenience of the citizens.

Number of complaints made to the Board during the year........517
  "  " vaults found in bad condition.....................270
  "  " cellars in bad condition..........................33
  "  " places from which swine have been removed.......25
  "  " visits made on account of contagious diseases.....69

In conclusion, we are happy to state in regard to the conditions for the health of the citizens, that they are much improved over those of previous years. By the exercise of constant care and strenuous efforts on the part of this Board, many disease breeding tendencies have been suppressed. By following out the course already prescribed, we feel sure that other and still greater improvements may be made. The health of our citizens is an all important question, and we cannot refrain from expressing our satisfaction as to the results which have been already attained as well as the hope that we shall, with the assistance of the other city authorities, be enabled to make other advances and keep our city free from the various causes of nuisance in our midst, and to entirely exterminate the germs of disease arising from an imperfect system of sewerage which exists in some localities.

Respectfully,

DANIEL COTE, SECRETARY,
JAMES BEAUMONT,
ARTHUR SIMPSON,

Board of Health.
REPORT

OF THE

CITY PHYSICIAN.

TO THE HONORABLE, THE MAYOR AND CITY COUNCIL, OF

BIDDEFORD:

I have the honor to submit the following report for the year ending Feb. 1st, 1889.

My duties have been considerably augmented during the past year, due, not only to natural increase of population, but to the arrival among us of a class of citizens not accustomed to mill work or to the abodes in which they are compelled to live, and who are soon overtaken by disease and being without money or friends are obliged to call upon us, for city physician at least. I have spared no pains in making them as comfortable as possible. There is one important subject which I wish to call your especial attention to, and that is the method of obtaining burial certificates. Under the present method it is impossible for the Board of Health or any other officer of the city to obtain a correct report of the vital statistics and I would suggest that the Secretary of the Board of Health alone, issue certificates of burial; in this
way we can give a correct statement of the mortality of our city.

Have had three births and five deaths at the City Farm and nine births and eight deaths outside of Farm. I have prescribed for two hundred and thirty-four at my office and made two hundred and fifty-eight calls, including those at the City Farm.

Respectfully,

C. J. EMERY,

City Physician.
To the Mayor and City Council of the City of Biddeford:

I have the honor to submit herewith my report as City Solicitor for the municipal year, 1888-9.

If I were to enter into a statement, in detail, of all the matters concerning which the various City Officers have consulted me during the year in regard to the rights, powers and duties of the City, this report would cover many pages. Their importance to the general public does not, in my opinion, demand this course, and I therefore confine this report to suits, in which the City is a party, pending, brought and disposed of during the year.

The suit of Elijah Buck vs. the City, mentioned in my last report, was argued before the Law Court at Portland last July, but no decision of the case has as yet been rendered by the court.

The town of Kennebunk began an action against the City at the September term of the Supreme Court, to recover the value of supplies, &c., furnished an alleged pauper of this city the year
before. The action was continued, and before the following January term I ascertained that the Overseers of the Poor for the year 1887 had failed to comply with the provisions of the statutes in such cases, and the case was then settled by paying about one-half the amount claimed to be due.

At the January term of the Supreme Court George N. Ward began an action against the City for injuries to his premises on Hill street, which he alleged had been caused by the City in not keeping a sewer in repair, which crossed his land.

A general demurrer to the declaration in this case was filed, and this will be argued before the Law Court next July.

Only one other action against the City is now pending in the Supreme Court. This is a petition for an increase of damages for land taken for the extension of Graham street, and will be in order for some disposition at the next May term.

Respectfully Submitted,

E. STONE, CITY SOLICITOR.
Rule 1. At the commencement of the municipal year the following joint standing committees shall be appointed by the Mayor, unless otherwise ordered by the respective Boards, viz:

On Finance—to consist of the Mayor, one Alderman, and three members of the Common Council.

On Accounts—to consist of one Alderman, and two members of the Common Council.

On Public Property—to consist of the Mayor, one Alderman, and three members of the Common Council.

On Public Instruction, and City Library—to consist of the Mayor, one Alderman, the President and two members of the Common Council.

On Fire Department—to consist of two Aldermen, and three members of the Common Council.
On Printing—to consist of one Alderman, and two members of the Common Council.

On Poor—to consist of two Aldermen and three members of the Common Council.

On Ordinances—to consist of the Mayor, and two members of the Common Council.

On Roads, Streets, Sewers, Drains and Street Lights—to consist of the Mayor, two Aldermen and four members of the Common Council.

On all joint committees wherein it is provided that the Mayor shall be a member in case of the non-election, decease, inability, or absence of that officer, the chairman of the Board of Aldermen shall act ex officio.

The member of the Board of Aldermen first named on every joint committee, of which the Mayor is not a member, shall be its chairman; and in case of his resignation or inability, the other members of the same board in the order in which they are named; and after them the members of the Common Council first in order, shall call the meeting of the committee, and act as chairman.

Rule 2. In every case of disagreement between the two branches of the City Council, if either Board shall request a conference, and appoint a committee of conference, and the other Board shall also appoint a committee to confer, such committees shall, at a convenient hour, to be agreed upon by their chairmen, meet and state to each other verbally, or in writing, as either shall choose, the reasons of their respective Board, for and against the matter in controversy, confer freely thereon, and report to their respective branches.

Rule 3. When either Board shall not concur in any action of the other, notice of non-concurrence shall be given by written messages.
Rule 4. Either Board may propose to the other for its concurrence, a time to which both Boards shall adjourn; and neither shall adjourn without giving notice to the other Board, and receiving notice from said other Board that it is also ready to adjourn.

Rule 5. In all votes, when either or both branches or the City Council express anything by way of command, the form of expression shall be “Ordered;” and when either or both branches express opinions, principles, facts, or purposes, the form shall be “Resolved.”

Rule 6. No committee shall act by separate consultation, and no report shall be received, unless agreed to in committee actually assembled.

Rule 7. It shall be the duty of every joint committee, to whom any subject may be specially referred, to report thereon within four weeks, or to ask for further time.

Rule 8. The reports of all committees, agreed to by a majority of the members, shall be made to the Board in which the business referred to originated, and all committees may report by ordinance, or otherwise.

Rule 9. All reports and other papers, submitted to the City Council, shall be written in a fair hand; and no report of any kind shall be endorsed on the memorials or other papers referred to the committee of either branch; and the Clerk shall make copies of any papers to be reported by committees, at the request of the respective chairmen thereof.

Rule 10. No business shall be transacted by the City Council in convention, except such as shall have been agreed upon, unless by unanimous consent.

Rule 11. After the annual appropriations have been passed,
no subsequent expenditure shall be authorized for any object, unless provision for the same shall be made by a specific transfer from some of the appropriations contained in the annual resolutions, or by expressly creating therefor a city debt; but no such debt shall be created; unless the resolution authorizing the same, pass by the affirmative votes of two-thirds of the whole number of each branch of the City Council, voting by yeas and nays.

Rule 12. Every joint resolution shall have as many readings in each Board, as the rules of each Board require, after which the question shall be on passing the same; and when the same shall have been passed, it shall be sent to the other Board for concurrence; and when such resolution shall have been passed by each Board, the same shall be enrolled by the City Clerk, and examined by a committee of the Common Council; and on being correctly enrolled, without further reading or question, shall be signed by the President of the Common Council, and sent to the other Board, where a like examination shall be made by a committee of that Board; and if found correctly enrolled, the same shall be presented to the Mayor for his signature.

Rule 13. Every ordinance shall have as many readings in each Board as the rules of each Board require, after which the question shall be on passing the same to be enrolled, and it shall be sent to the other Board for concurrence; and when such ordinance shall have so passed to be enrolled in each Board, the same shall be enrolled by the City Clerk, and examined by a Committee of the Common Council; and on being found by said committee to be correctly enrolled, the same shall be reported to the Council, when the question shall be on passing the same to be ordained; and when said ordinance shall have so passed to be ordained, it shall be signed by the President of the Common Council, and sent to the other Board, where a like examination shall be made by a committee of that Board; and if found to be correctly enrolled, the same shall be reported to the Board, and the question
shall be on passing the same to be ordained; and when the same shall have passed to be ordained, it shall be signed by the Mayor.

**Rule 14.** No enrolled ordinance or resolution shall be amended.

**Rule 15.** No chairman of any committee shall audit or approve any bill or account against the city, for any supplies or services which shall not have been ordered or authorized by the committee.

**Rule 16.** No vote by which an order, resolve or ordinance has been passed in its final stage, shall be reconsidered in either Board, after the same has been finally acted upon in either Board, unless the motion for reconsideration be made, or notice given at the same meeting at which the vote to be reconsidered passed; and when any order, resolve or ordinance shall have been rejected no other, substantially the same, shall be introduced by any committee, or member, during the municipal year, without the consent of two-thirds of the members present.

**Rule 17.** No member of either Board shall be allowed to serve or vote on any committee to which any question is referred where his private right or interest is concerned, distinct from the public interest.

**Rule 18.** None of the foregoing joint rules and orders shall be suspended, amended, or appealed, unless two-thirds of the members present consent thereto.
RULES AND ORDERS

OF THE

BOARD OF MAYOR AND ALDERMEN.

Rule 1. The Mayor shall take the chair at the hour appointed for the meeting, and call the members to order; and a quorum being present, shall cause the minutes of the preceding meeting to be read. In the absence of the Mayor, the Board shall elect a president, pro tempore.

Rule 2. He shall preserve decorum and order; may speak to points of order in preference to other members; and shall decide all questions of order, subject to an appeal to the Board, by motion regularly seconded; and no other business shall be in order till the question on the appeal is decided.

Rule 3. He may read sitting, but shall rise to state a motion or put a question.

Rule 4. He shall declare all votes; but if a vote is doubted, he shall cause a return of the members voting in the affirmative, and in the negative, without debate.
Rule 5. He shall take the sense of the Board in yeas and nays, on all questions whatsoever, provided any member shall so request.

Rule 6. After a motion is stated or read by the presiding officer, it shall be deemed to be in possession of the Board, and shall be disposed of by vote.

Rule 7. When a question is under debate, the presiding officer shall receive no motion but to adjourn, lay on the table, to postpone to a certain time, to commit, to amend, or to postpone indefinitely; which several motions shall have precedence in the order in which they stand arranged.

Rule 8. Every member when about to speak, shall rise and respectfully address the presiding officer, confine himself to the question under debate, and avoid personalites. No member shall speak while out of his place without leave.

Rule 9. No member speaking, shall be interrupted by another but by a call to order, or to correct a mistake.

Rule 10. No member shall speak more than twice to the same question, without leave of the Board, nor more than once until other members choosing to speak shall have spoken.

Rule 11. Every member, who shall be present when a question is put, shall give his vote unless the Board shall excuse him.

Rule 12. Every ordinance shall pass through the following stages, before it shall be considered as having received the final action of this Board, viz:—first reading, second reading, passage
to be enrolled, passage to be ordained; and every joint resolution shall have two several readings, before the question shall be taken on its final passage.

**Rule 13.** Every motion shall be reduced to writing, if the presiding officer shall so direct, or any member request it.

**Rule 14.** The following standing committees of the Board shall be appointed, viz:
- On Elections,
- On Police,
- On Licenses,
- On Enrolled Bills.

The Committees on Police and on License to consist of the Mayor and two Aldermen, and each of the others to consist of three Aldermen.

**Rule 15.** Committees of the Board, to whom any matter is specially referred, shall be required to report within four weeks, or ask for further time.

**Rule 16.** All committees shall be appointed and announced by the Mayor, unless the Board shall determine otherwise.

**Rule 17.** The foregoing rules and orders shall be observed in all cases, unless suspended by a vote of two-thirds of the members present, for a specific purpose.
RULES AND ORDERS

OF THE

COMMON COUNCIL.

DUTIES OF THE PRESIDENT.

Rule 1. The President shall take the chair precisely at the hour appointed for the meeting, and shall call the members to order. Before proceeding to business, he shall cause the minutes of the preceding meeting to be read. In the absence of the President the oldest member present shall call the Council to order, and preside until a president pro tempore be chosen.

Rule 2. He shall preserve order and decorum; may speak to points of order in preference to other members, rising from his seat for that purpose, and shall decide questions of order, subject to an appeal to the Council by any two members.

Rule 3. He shall rise to address the Council, to state facts or to put a question, but may read sitting.

Rule 4. He shall declare all votes; but if a vote be doubted, the President shall, without further debate, require the members
voting in the affirmative and negative to rise and stand until they are counted, and he shall declare the result.

Rule 5. He may call any member to the chair; but such substitution shall not extend beyond an adjournment; and when out of the chair, the President may express his opinion on any subject under debate, and shall not resume the chair while the same question is pending.

Rule 6. All questions shall be propounded in the order in which they are moved, unless the subsequent motion be previous in its nature, except that in naming sums and fixing times, the largest sum and the longest time shall be first put.

Rule 7. After a motion is stated by the President, it shall be disposed of by vote of the Council, unless the mover withdraw it before a decision or amendment.

Rule 8. A motion to adjourn shall always be in order; that, and the motion to lay on the table, shall be decided without debate.

Rule 9. The previous question shall be in this form: "Shall the main question now be put?" It shall only be admitted when demanded by a majority of the members present; and until it is decided, shall preclude all amendment and further debate of the main question.

Rule 10. When two or more members happen to rise at the same time, the President shall name the member who is to speak first.

Election and Duty of Clerk.

Rule 11. The Clerk of the Council shall be elected by written ballots.
RULE 12. The Clerk shall keep brief minutes of the votes and proceedings of the Council, entering thereon all accepted resolutions; shall notice reports and memorials and other papers submitted to the Board, only by their titles, or a brief description of their purport.

RIGHTS, DUTIES AND DECORUM OF MEMBERS.

RULE 13. The yeas and nays shall be taken on any question, upon the request of any two members present.

RULE 14. When any member is about to speak in debate or deliver any matter to the Council, he shall rise in his place and respectfully address the presiding officer, confining himself to the question under debate, and avoiding personality.

RULE 15. No member speaking shall be interrupted by another, but by a call to order, or to correct a mistake. If any member, in speaking, or otherwise, transgress the rules of the Council, the President shall, or any member may, call him to order; in which case the member so called to order, shall immediately sit down, unless permitted to explain; and the Council, if appealed to, shall decide on the case, but without debate. If the decision be in favor of the member so called to order, he shall be at liberty to proceed. if otherwise, he shall not proceed without the leave of the Council.

RULE 16. No member shall speak more than twice on the same question, without leave of the Council.

RULE 17. While the President or any other member is speaking, none shall stand up, or pass unnecessarily before the person speaking.

RULE 18. Every motion shall be reduced to writing, if the President or any member require it.
Rule 19. When a question is under debate, no motion shall be received but to adjourn, to lay on the table, for the previous question, to postpone to a certain day, to commit, to amend, or to postpone indefinitely; which several motions shall have the preference in the order in which they are arranged, and no motion to postpone or commit shall be allowed twice in the same day in the same stage of the ordinance or proposition.

Rule 20. A motion for the reconsideration of a vote shall be open to debate, but such motion shall not be considered unless made by a member voting with the majority, or unless notice thereof be given at the meeting at which the vote passed, in which case the motion shall be made at the next meeting after; and only one motion for the reconsideration of any vote shall be permitted.

Rule 21. Every member who shall be in the Council when a question is put, shall give his vote, unless the Council for special reasons excuse him.

Rule 22. No motion or proposition on a subject different from that under consideration, shall be admitted under color of an amendment.

Rule 23. All motions and reports may be committed or re-committed at the pleasure of the Council.

Rule 24. The division of a question may be called for when the sense will admit of it.

Rule 25. When the reading of a paper is called for and objected to, it shall be determined by a vote of the Council.

Rule 26. No rule or order of the Council shall be repealed or amended without one day’s notice being given of the motion therefor, nor unless a majority of the whole Council concur therein.
Rule 27. No member shall be obliged to serve on more than two committees at the same time, or be the chairman of more than one.

Rule 28. Members of the Council may attend meetings of its Committees, but shall not vote thereat.

Rule 29. Every member shall take notice of the day and hour to which the Council stands adjourned, and shall give his punctual attendance accordingly; and shall attend all special meetings properly called.

Rule 30. The rules and orders of the Council shall be observed in all cases unless suspended by a vote of two thirds of the members present, for specific purposes.

Petitions, Memorials, &c.

Rule 31. All memorials, and other papers addressed to the Council, shall be presented by the President, or by a member in his place, who shall explain the subject thereof, and they shall be taken up in the order in which they were presented, unless the Council shall otherwise direct.

Ordinances and Resolutions.

Rule 32. All ordinances and resolutions shall have two several readings before they shall be finally passed by the Council.

Rule 33. No ordinance or resolution imposing penalties or authorizing the expenditure of money, shall have more than one reading the same day.

Powers and Duties of Committees.

Rule 34. All Committees, except such as the Council determine to select by ballot, shall be nominated by the President.
Rule 35. Standing Committees shall be appointed on the following subjects; On Elections and Returns, on Enrolled Bills—each to consist of three members.

Rule 36. No Committee shall sit during the sitting of the Council, without special leave, except the Committee on Enrolled Bills.

Rule 37. The rules of proceedings in the Council shall be observed in Committee of the whole, so far as they may be applicable, except the rule limiting the time of speaking.

Rule 38. When a Committee is nominated by the chair, the person first named shall be the chairman. In elections of Committees by ballot, when a chairman is not specially chosen, the person having the highest number of votes shall act as chairman, and in case of an equality of votes between two or more candidates of a Committee, the members thereof shall choose a chairman.

Rule 39. All Committees of the Council shall consist of three members, unless a different number be specially ordered. And no report shall be received from any Committee, unless agreed to in Committee actually assembled, and all reports shall be in writing.

Rule 40. It shall be the duty of every Committee of the Council to whom any subject may be specially referred, to report thereon within four weeks, or ask for further time.
PAYMENT OF BILLS.

Regular monthly meetings, second Monday evening in each month at 7.30 o'clock.

Tuesday of each week is PAY DAY on all bills properly approved and allowed.

All bills against the city must be presented at the City Clerk's office on Monday of each week, on or before 9 a. m., for inspection of Committee on Accounts. All bills not so presented will remain over until the next week.

All bills presented for payment must be approved by the proper officers; and must specify what the article or articles were for, and for what department; and when for labor where it was performed, with proper dates.

Items charged to different departments MUST be made on separate bills.

When bills have been once presented ascertain if allowed before duplicating the amount on a subsequent bill, as is sometimes done.

Superintendent's Report.
Superintendent's Report.

Superintendent's Office, Biddeford, Me., July 31, 1889.

To the Superintending School Committee of the City of Biddeford:

Gentlemen:—I have the honor herewith to present, for your consideration, my fourth Annual Report, giving a general review of the condition and progress of the public schools under your charge for the year ending Aug. 31, 1889.

The quality of the instruction given may be safely considered as perfectly satisfactory, and the progress made in sound scholarship is greater than that of any previous year. This progress has been greatly aided by the small number of changes in the corps of teachers. The greater the permanence of tenure of the teacher's position the better the progress made.

As the fiscal year ended Jan. 31, 1889, permit me first to call
your attention to the financial standing of the several districts under your supervision.

**APPROPRIATIONS.**

Amount appropriated by City for Schools $17,000 00

" " " " High School 1,000 00

Received from State, School Fund and Mill Tax 7,697 85

" " " for Free High School 250 00

Total amount available for School Purposes $25,947 85

The following apportionment of the above was made by the assessors:

The per cent. of attendance in the schools is about the same as last year. Some of the pupils have divided their time between the public schools and the Parochial schools, and are registered in both. I am unable to say how large this number is, but whatever it is, it reduces by so many the whole number of different pupils actually attending school during the year. Judging from the number of children seen at all times on the streets in certain localities of the city, it is very evident that many of school age attend school very little, if at all. If questioned, many claim that they attend the Parochial school, and give some reason for being absent at the time. In order to carry out the law and to oblige all children to attend some school the required time during each year, the City Government should appoint a special truant officer, who should devote his whole time to looking after the children wandering about the streets during school hours. Every effort should be made to find out the reason of their absence from the schools, and to see that they are made to attend the school to which they belong. The public money expended for such a purpose would be one of the best investments that could be made. Expend more money in the education of these people, and less will have to be expended in the pauper and criminal department. No better missionary work can be done than to have

some one look after these children, who have been practically abandoned by their parents, and reclaim them from idleness and crime by compelling them to attend school.

TEACHERS.

Very few changes have occurred in the corps of teachers during the past year. At the close of the last school year Miss Lizzie Knight teacher of the C, Grammar grade on Spruce street tendered her resignation to take effect at once. Miss Knight was one of the oldest and most successful teachers, having faithfully served the public for a period of over 21 years. The vacancy caused by Miss Knight's resignation was filled by the promotion of Miss Fannie F. Lincoln of the second primary grade. Miss Cora E. Morton was elected to the vacancy caused by the promotion of Miss Lincoln and Miss Ida F. Carter was elected to the school formerly taught by Miss Morton. Miss Carter is a graduate of the High school, and had made special preparation for teaching by attending the Quincy training school one year. At the close of the spring term this year Miss Clara A. Lunt whom you elected one year ago as second assistant in the High school, tendered her resignation. Miss Lunt has done excellent work in her department of studies and has been popular with the pupils under her charge. I regret very much that the school is to be deprived of her faithful and conscientious labors which had already commenced to show good results. Miss Sally P. Cole has been promoted to the vacancy caused by this resignation, and I bespeak for her a successful career in that position. Miss Grace E. Clark was elected to Miss Cole's school. She is a bright and gifted young lady and will without doubt make a very successful teacher. Miss Fannie
M. Hackett of the Foss street Intermediate School resigned that position at the close of the Spring term on account of sickness. Miss Hackett was a faithful, painstaking teacher, and one that we regret to lose. This vacancy was filled by promoting Miss Mary E. Kelley of the Spruce street First Primary grade. Miss Mary F. Campbell a successful teacher in one of our rural schools was elected to Miss Kelley's school.

It gives me great pleasure to bear testimony to the diligence, earnestness, efficiency and success of the teachers in our public schools. It becomes more apparent every year that all who engage in school work must, in order to be successful, consider teaching as a profession to be entered upon only after the most careful preparation. Special preparation on the part of the teacher is necessary for the best results so far as the pupils are concerned. Whether or not we have good schools depends on the teachers. "As is the teacher, so is the school." Upon you, Gentlemen, rests the responsibility of selecting new teachers, and a mistake made here will be a long, enduring, and far reaching one. Individual merit, and that alone, should decide in the selection of permanent teachers for our schools. It has been your custom for a number of years to select new teachers from the graduates of the High school; this is not only a wise, but successful plan.

The teachers have held a regular meeting at my office once a month for professional reading and discussion of matters relating to school work. These meetings have been very fully attended and have proved of great interest to all. The teachers library, which was started by the purchase of a number of books last year, has been thoroughly appreciated, and has been of great assis-
tance as a reference library in the course of professional reading, which the teachers entered upon two years ago. I am in hopes to make this of more value to the teachers, by the addition of standard works by the best educational writers.

RURAL SCHOOLS.

Every means possible has been employed to increase the efficiency of these schools. With ten or a dozen pupils in a school, however, there can be but little interest manifested by either pupils or teachers. Nearly every school has as many classes as scholars, and four or five times as many recitations as classes. It is to be regretted that the City Government, after having attempted to consolidate the districts, allowed the question to drop.

Allow me to call your attention to the financial standing of these districts as given in another part of this report. With two exceptions, every one of the outside districts was in debt at the close of the fiscal year, Jan. 31, 1889. District No. 7 at that time had overdrawn its appropriation $180.95, nearly $80 more than the whole amount of its apportionment. Districts 8, 9 and 11 are in the same condition, and 1, 3, 6, 12 and 13 are overdrawn though not so largely. These districts have been running in debt year after year notwithstanding the fact that it hasn’t cost them a cent for supervision during the last eight years, and that nearly every cent’s worth of necessary school supplies has been furnished them free by District No. 4. It cannot be said that the money has been wasted by paying teachers high wages, for with one exception eight dollars a week is the most any of these teachers have received, and the average is only about seven dollars. Owing to the fact that the apportionment,
for nearly all of the district schools is much less than the actual running expenses, and that nearly all have been running in debt from year to year, very little money has been expended for repairs on the different school buildings. Some of these buildings are in such a condition at present that considerable must be expended for necessary repairs, but whatever is taken for that purpose simply goes to increase the debt, already too large. This state of things should not be allowed to continue, but every effort should be made to have the town abolish the district system in accordance with Section 3, Chap. 11, Public Laws of Maine.

EVENING SCHOOL.

This school had four sessions each week for four months, beginning about the middle of November. Any one over fifteen years of age could become a member of this school by application to the principal of the school or to the Superintendent, all under fifteen were given permission to attend the regular day schools. The attendance has been about the same as the preceding year, in fact it could not be any larger as the rooms would not accommodate all who applied for admission either year. Those who attended regularly during the whole term made good progress in the common school branches, but I am very confident that the efficiency of this school will be greatly increased when we begin the next term in the rooms formerly occupied by the High school. For a number of years, we have been cramped for room, and have been without proper accommodations for recitation rooms. We shall have ample accommodations in the High school building, where a more regular course of instruction can be adopted. Notwithstanding the difficulties under which this school has been conduct-
SCHOOL REPORT.

ed in the past, it has produced grand results by enabling many, who otherwise would have grown up ignorant of our language even, to attain a fair education in the common branches. The future of our government rests upon the education of the masses. In my last report, I suggested the formation of a mixed day school to be conducted by competent teachers for the accommodation of those children among us who are obliged to work in corporations. Many of these children attend school only during the four months required by law. It is unjust, not only to them but to the other pupils, to place them in our regular day schools, as they make little or no progress during the time they attend school and are a hindrance to those scholars who attend regularly. The bad influence, which these boys and girls from twelve to fourteen years of age, exert over the younger pupils with whom they come in contact is another strong reason why they should not be allowed to attend our regular day schools.

Some of these mill scholars are well advanced in reading and backward in the other studies, and some may be very good in Arithmetic and poor in reading and spelling. Put these scholars in a mixed school as suggested and they will be able to enter classes where they can advance in each of the studies, when if they were placed in the graded school they would be obliged to enter the school with which they would be on a par in their poorest study. I hope I shall find sufficient encouragement for starting such a school and that you will give me authority to give the matter a fair trial during the coming winter. We can use the same rooms used by the evening school, and the only expense will be for teachers for four or five months. The number of teachers will depend upon the number of pupils, but will not exceed four in all probability.
GRAMMAR SCHOOLS.

We have five first-class grammar schools but the accommodations are not what they should be, nor as good as we can have at a very slight expense. The chief objection to the grammar school rooms on Spruce street is their close proximity to the Boston & Maine R. R. A great amount of business is carried on at the above named railway station, and the noise and bustle occasioned by passing trains is a continual source of annoyance to teachers and pupils. The room occupied by the grammar school on Birch street was originally intended for a primary school and is not properly arranged for the school now occupying it. The Summer street school building, although better adapted than either of the others for the purpose for which it is used, is not what it should be for a city like ours. The plan which I have in mind is to take the old high school building on Washington street, and change it over to accommodate all the grammar schools. The idea is to change the building so that each of the schools should have a separate room in charge of the teacher now conducting the school, the whole to be under the supervision of Mr. Emery of the Summer street school, he being the oldest in the service and one with whom I know it would be a pleasure for the other teachers to work. This arrangement in my opinion would result in good for the schools, and although each one does good work, still better could be accomplished where the teachers would be brought into daily contact with each other, and could have daily consultations. The location is such that hardly any of the scholars would be obliged to travel farther than at present. Much trouble is experienced each year in assigning pupils to the grammar schools; this would be entirely done away with under the
new plan. It is hoped you will give this your careful consideration and that another year you may conclude to carry out the above suggestion.

**PENMANSHIP.**

This department of instruction has been under the special supervision of Mr. Edward Dearing for the past two years. Mr. Dearing is not only a fine penman himself but he has a happy faculty of interesting all under his charge in the subject which he teaches. He has not only created a great enthusiasm in the work among the pupils but every teacher is thoroughly interested that the pupils may show marked improvement, and they have been of exceedingly great assistance to Mr. Dearing in his work. The aim has been to make good writers rather than fancy ones, and the result has been most satisfactory as shown by the special samples handed into this office from each school and also by the neat looking examination papers. This result has been accomplished by a great amount of constant and careful practice on the part of the pupils, and by encouragement and patient oversight on the part of the instructor and regular teachers.

**MUSIC.**

One year ago, after a careful consideration of the subject, you voted unanimously to introduce music into all the schools and employ a competent teacher for the same. It gives me much pleasure to report good results from the faithful and efficient service of Miss Grace S. Corliss, whom you were fortunate in securing as Musical Director. There has been a hearty co-operation on the part of all the teachers, and the scholars generally have
joined in the singing and learned readily the elementary principles of musical notation and expression. This is the first effort that has ever been made to teach music as a regular study and in a systematic manner in any of our schools and the results have been far beyond my expectations. Had the new high school building been completed at the close of the spring term, it was the intention of Miss Corliss to have formed a class from the different schools in the city, and given an exhibition of what had been accomplished during the year. This idea had to be abandoned, but in the early part of the next term of school, after the pupils get fairly settled down to work again, and the hall in the new building is ready for occupancy, such an exhibition will be given.

The time and money expended in this department are, in my opinion, most profitably spent, for the relief which the exercise affords in the routine work of the day, for the elevating taste which it cultivates, and for the refining and inspiring influence which it encourages. On the part of many children, this will be the only opportunity for instruction in music; with others, it will increase the desire of pursuing the study in after years, in whose benefits the homes and community will gladly share. During the past year, Miss Corliss has divided her time between this city and Saco, but feeling that we had a sufficient number of schools to require her whole attention, I recommended that you employ her to give instruction in this city alone during the coming year. It is not understood that she is to give more instruction to the scholars but that she will have more time to look after the instruction given by the several teachers. During the past year, all the teachers have met regularly once a week at my office,
and devoted an hour or more to practice in this department of their work. Miss Corliss gained the good-will of nearly every scholar in town at the very first, and teachers and pupils alike have taken delight in promoting her work. This study has taken such a stronghold upon all that no other would be given up with greater regret.

MANUAL TRAINING.

I wish again to bring to your attention the desirableness of adding manual training to our course of instruction. Allow me to quote the result of this kind of instruction in the Omaha High School.

"The introduction of manual training into the High school has been one of the most interesting features of the work of the year. The course has been optional, those taking it doing the same academic work as the rest of the school. Arranged in classes of twenty each they have spent one and one half hours daily in the shop under the care of a competent instructor, learning light carpentry and how to use and take care of tools. The aggregate amount of time spent in the shop amounts to less than a month of nine hours a day, and yet the progress of the boys has been remarkable. Few apprentices, after a full year in the shop, acquire more practical skill. It is evident that manual training schools cannot be conducted without considerable expense, but for this year our shop has not cost more than some of the regular studies of the High school. It seems evident, also, that a department of this kind has a tendency to hold boys in school at a time when there is a strong inclination to leave and go into business. Our High school has felt this influence, and suffered from
it as much as any school in the land; yet of the 79 boys who took manual training last year 75 remained in the school to the close. On the whole, our experiment with a manual training department in our High school, as far as it has gone, must be considered a success. It has not interfered with the regular work; it has not been excessively expensive; its influence on the High school generally has been favorable, and the progress of the boys in the mechanic arts has been satisfactory. It is not too much to say that the hopes of its friends have been fully realized.”

The new High school building will furnish an excellent place for us to give this subject a fair trial, and I fully believe that we could make as favorable a report as the above at the end of the year.

HIGH SCHOOL.

The prosperity of the High school still continues. The whole number enrolled during the year is 155 and the daily attendance 180. The teachers have been thoroughly interested in their work, and have done all in their power to advance the interests intrusted to them. The best of work has been done by all connected with the school and the results have been highly satisfactory and pleasing to all. For the past four years, this school has been increasing constantly in numbers, and at the beginning of the next school year it will number more than twice as many pupils as it had in 1885. The necessity for more commodious quarters became apparent more than two years ago. A call was made for a new building for the accommodation of this school and as a result, the High school pupils will commence their labors in one of the finest school buildings in the State.
The High school holds a vital relation to all the lower grades, by holding out to every ambitious child in the city the rich advantages of science and literature. It furnishes the city a supply of educated persons fitted to become teachers in our schools, and all who graduate from it go out into life better prepared to fulfil their mission than they otherwise would be.

A more extended report of this school, made by its Principal, will be found in another part of this report.

The Second Annual Reunion of the High School Alumni was held June 20th. It was a success in every way. A very much larger number was present than there was at the first meeting, and every one was enthusiastic. Although young, the influence of this association is being felt in the community, and it should receive the hearty encouragement not only of every graduate, but of every citizen interested in the welfare of our institutions.

ODE TO CLASS OF '89.

Time, on wings of swiftest motion,
Glimmering on from day to day,
Comes at last to this sad moment,
When we each "good-bye." must say.

Four long years of pleasant labor,
Have passed by us heedless not.
But the pleasure of our school days,
Will by us ne'er be forgot.

We are starting on life's ocean.
School days now for us are o'er,
May success still crown our labors,
As it did in days of yore.

Let us then be up and striving,
While we live to do our best;
If we only do our duty,
God will surely do the rest.

RECEPTION OF CLASS OF '89.

WEDNESDAY, JUNE 19th.

MISS ELLA E. SMALL. 
MISS EMMA D. HAINES, 1888. 
MRS. FLORA HELEN LEIGHTON, 1873.
In conclusion, permit me to recapitulate.

1. Organize an ungraded school for children employed in the corporations.

2. Use every effort to have the City Government abolish the school districts.

3. Consolidate the grammar schools, if in your opinion the plan suggested is feasible, and greater efficiency can be obtained.

4. Establish a department of manual training in the high school.

5. Arrange a four years' English course for the high school, and give certificates showing studies pursued to those pupils who leave the school at the close of the first, second or third year.

6. Give the Superintendent power to place reference books in the grammar schools as a nucleus for a library in those schools.

In closing this report, I beg to thank the members of the Board, the teachers, and the citizens generally for their hearty support and co-operation in all measures which I have undertaken for the improvement of the schools in the performance of my duties.

Respectfully submitted,

ROYAL E. GOULD,
Supt. of Schools.

High School Report.
To Royal E. Gould, Supt. of Schools.

Sir: Allow me to submit the following report of the High School for the year ending June 22, 1889.

The increase in the number of pupils, which was so marked in 1887-88 has continued until the maximum number registered was one hundred fifty-five. Should there be a proportionate increase next year, the school will number one hundred seventy-five or more. Such an increase would add to the already numerous embarrassments incident to our crowded and inconvenient accommodations.

It is earnestly hoped that the new and commodious building just erected will be ready for occupancy at the opening of the fall term.

The attendance during this year has compared favorably
with that of other years, though sickness and bad weather have been unusually prevalent.

During the last term several of the graduating class were absent, on account of sickness a large part of the time, and two were not able to return at all. Notwithstanding the many drawbacks, the class acquitted itself with entire satisfaction.

The instances of tardiness, though fewer than in some former years, are still sufficiently numerous to interfere with the highest success of the school. It is hoped that the parents will co-operate with the teachers in their efforts to reduce this bad habit to a minimum.

The work of the assistant teachers this year has been eminently satisfactory, considering the disadvantages arising from the re-adjustment of the work, made necessary by the resignation of Mr. Fling and the consequent election of a new teacher. I take this opportunity of thanking them for the faithful manner in which they have supported me in my endeavor to improve the standing of the school.

The courses of study, as outlined in previous reports, have been pretty closely followed. In my opinion, however, the English course requires some modification. As now constituted, the large number of studies in that course renders it impossible to devote to any one of them a sufficient amount of time to thoroughly master its principles.

Sixteen different studies, without counting music and penmanship, are crowded into this three years' course. Assuming that the pupil pursues three subjects at a time, he averages a little less than twenty-two weeks on each study, or, deducting holi-
days, days lost on account of bad weather, and the time used for reviews and examinations, probably not over twenty.

When it is remembered that any one of the subjects referred to may easily furnish material for the work of a lifetime, we see how superficial must be the results of work done under such conditions as are found in this course. The remedy is either to lengthen the time or reduce the number of studies. I would recommend both. Three or four of the sciences studied in such a way that the pupil would acquire a thorough mastery of their principles and form a habit of scientific method in study would, in my view, be immeasurably more valuable than twice that number studied in the present unsatisfactory way.

I would further recommend that certificates be granted to such pupils as desire to leave the school, after having been members of the High School for one, two, or three years, provided the English course, be changed to a four years course as recommended.

In closing, allow me to thank you for the unswerving support which, in this as in other years, you have given me.

Respectfully submitted,

M. C. SMART,

Principal of High School.

There are three grades of Primary Schools in the city, viz: 1st, 2nd and 3rd Primary.

Reading, Writing, Numbers, Geography and Drawing are taught in the 1st and 2nd, and the same are taught in the 3rd, with the exception of Geography.

A visit of an hour and a half in either of the Primary Schools will enable one to hear recitations in all the branches.

Writing three times a week in each school in the city.

Music six times a week in each of the City Schools.
Text Books & Course of Study.
TEXT BOOKS.

PRIMARY, INTERMEDIATE AND GRAMMAR SCHOOLS.

Raub's Normal Reader.
Harrington's Speller.
Greenleaf's Series of Arithmetic.
Barnes' Geographies.
Harvey's Grammars.

Harper's Writing Books.
Barnes' History of the United States.
Meservey's Single Entry Bookkeeping.
Blaisdell's Physiology and Hygiene.

HIGH SCHOOL.

Greenleaf's Algebra.
Davies' Elementary Geometry.
Bryant & Stratton's Book-keeping.
Steele's Geology.
Greene's Chemistry.
Gage's Elements of Physics.
Hutchison's Physiology.
Wood's Botanist and Florist.
Shaler's Geology.
Thalheimer's History of England.
Young's Civil Government.
Hill's Rhetoric.
Magill's French Series.
Swinton's English Literature.
Apgar's Plant Analysis.
Hitching's Blowpipe Analysis and Mineral Record.

Packard's Zoology.
Harkness Latin Grammar.
Harkness' First Year in Latin.
Hanson's Cæsar.
Kelsey's Cæsar.
Sheldon's General History.
Searing's Virgil.
Hanson's Cicero.
Goodwin's Greek Grammar.
Jones Greek Composition
Tozer's Classical Geography.
Jones' Greek Lessons.
Goodwin's Xenophon's Anabasis.
White's or Harper's Latin Lexicon.
Liddell & Scott's Greek Lexicon.

The Making of the Great West.
Eclectic History of the U. S.
Carrington’s Patriotic Reader.
Scott’s Marmion.
COURSE OF STUDY.

THIRD PRIMARY.

First Year.

Reading.—First reader, with blackboard and reading charts by words and short sentences, the word and the phonic methods combined. Choice selections of poetry to be learned and recited.

Writing.—On slates; first, words and sentences, then the short small letters followed by progressive teaching of capitals; forms and names of letters carefully and systematically taught.

Number.—Counting; (1) by objects; (2) without objects, adding and subtracting with objects; with marks, without marks, without figures; with figures and signs. Combinations one to five inclusive.

Observation and Object Lessons.—Familiar lessons and talks. Color; red, orange, green, blue, white, black. Form: simple rectangular figures, surfaces and solids with sphere and cylin-
der. Place: left, right, above, under, before, behind. Size: large, small, great, little, larger, largest, long, short, etc. Prominent qualities: rough, smooth, brittle, tough, hard, soft, sweet, sour. Parts of the human body: their uses, how to care for their health. Familiar animals and plants.

LANGUAGE.—Aim at training pupils to use correct forms of speech. Lead pupils to tell accurately and naturally what they have found in the reading lessons; what they see in the pictures, plants, the school room, on the way to school.

DRAWING.—Straight lines, their divisions, positions, and combination into rectilinear figures.

PHYSICAL EXERCISES.—Marching, and simple calisthenic exercises, at least twice each session.

SECOND YEAR.

READING. — Complete First and begin Second Reader. Supplementary reading. Careful attention to articulation, pronunciation and expression. Continue selections to be learned and recited.

SPELLING.—Spelling of all new words and review of past lessons.

NUMBER.—Combinations, one to twenty inclusive, adding each of the digits; counting up to 100. Mental work fully given in addition and subtraction, with simple exercises in multiplication and division. Begin written addition and subtraction without reduction.
Observation and Object Lessons.—In form and color continued. Name and give uses of principal parts of the human body.

Drawing.—Exercises to be given by teacher in straight lines and combination of these, with curved lines in simple forms.

Writing.—On slate and practice paper. Systematic teaching continued. Pupil’s name and place of residence, with simple sentences dictated, and selections for special tests.

Physical Exercises.—Marching, motion songs, and other simple calisthenics twice each session.

SECOND PRIMARY.

First Term.

Reading.—Second Reader to page 80, with supplementary of same grade.

Spelling.—To lesson 30.

Arithmetic. Combinations to 70. Easy problems in short division with figures. Problems involving combinations of signs.

Writing. Shaylor, No. 2; progressive lessons, and a selection, as a test exercise twice in the term.
SECOND TERM.

READING.  Second Reader completed, and Third Reader commenced.

SPELLING.  To lesson 70.  Continue to spell new words in reading lesson.

ARITHMETIC.  To lesson 60.  Combinations to 100.

GEOGRAPHY.  Continue oral instruction.

WRITING.  Continue Shaylor, No. 1 and 2; slate work and on practice paper.

THIRD TERM.

READING.  Review.

SPELLING.  Review and selected lessons, partly written.

ARITHMETIC.  First Lessons completed and reviewed.

GEOGRAPHY.  Review previous lessons; teach shape of the earth, comparative areas of land and water, clouds, and the cause of rains, dews, etc.

WRITING.  Shaylor, No. 2 completed.
FIRST PRIMARY.

FIRST YEAR.

FIRST TERM.

Reading. Third Reader, 100 pages. Special attention to articulation and pronunciation. Reading at sight in books of previous grade.

Spelling. Harrington to page 42. Words from reading lessons.

Arithmetic. Writing and reading numbers to eight places in whole numbers and three places in decimals; addition, oral and written, in whole numbers and with simple examples in dollars and cents. Continue exercises in rapid addition and prompt combinations. (To U. S. money in Brief Course.)

Geography. Barnes' Elementary. Introductory lessons, comprising ideas of direction, distance, location, points of the compass, with large amount of oral teaching. (To page 23.)

Writing. Shaylor No. 1, in ink. Continue systematic instruction and dictation exercises.

SECOND TERM.

Reading. Third Reader. See directions of last term. Continue memorizing of choice selections.

Spelling. Harrington, advance to page 48.
ARITHMETIC. To page 36. Continual reviews of previous work.

GEOGRAPHY. To North America. Continue use of pictorial chart and other suitable illustrations. Plans of school room, school yard and simple map drawing.

WRITING. Complete Shaylor, No. 1; also on slate and practice paper.

THIRD TERM.

READING. Third Reader completed.

SPELLING. Review to page 48.

ARITHMETIC. Review to page 38.

GEOGRAPHY. To United States, and review year's work.

WRITING. Shaylor, No. 2.

SECOND YEAR.

FIRST TERM.

READING. Supplementary. Note previous directions. Attend carefully to expression. Occasionally let the pupils read entire piece, the class listening and afterwards reproducing from memory substance of chapter.

SPELLING. To page 52. Oral and written exercises.
SCHOOL REPORT.

Arithmetic. To page 52. Teach combinations of Roman numerals to cover common usage, including year date. Introduce in test examples some simple common fractions.

Geography. To New England States. Note great ocean currents east and west of U. S., wheat, cotton, tobacco, sugar, coal and iron sections, counties, rivers and railways of Maine, chief points for water power. Continue review of products and industries of State and chief features of local geography.

Writing. Complete Shaylor, No. 2. See directions already given.

SECOND TERM.

Reading. Supplementary. See directions already given.

Spelling. To page 61.

Arithmetic. Complete short division, with review of multiplication. Use objects in teaching measures and weights. Teach pupils to judge accurately of lengths, heights and distances.

Writing. Commence Shaylor, No. 3.

THIRD TERM.

Reading. Supplementary and review.

Spelling. Review to page 61.

Arithmetic. To tables, page 74, and review.
GEOGRAPHY. To South Atlantic States.

WRITING. Complete Shaylor, No. 3.

LANGUAGE. Daily instruction throughout the course—making use of text books and charts supplied.

INTERMEDIATE SCHOOLS.

FIRST YEAR.

FIRST TERM.

READING. Fourth Reader. Careful attention to promptness, clearness and expression.

SPELLING. Part 1, to page 70. Written and oral exercises. Draw attention to words commonly mis-spelled, and make lists of them to be frequently reviewed. Teach diacritical marks, and give lessons in their use, till application in dictionary is thoroughly mastered.

ARITHMETIC. Simple rules. Brief Course, 73 pages. Thoroughly drill in writing and reading numbers, to at least seven places in whole numbers and decimals. Variety of test examples in fundamental rules in four and five place numbers, with occasional examples in six numbers. Mental arithmetic to receive special attention through the grade.

GEOGRAPHY. To Lake States, reviewing primary grade work. Products, industries, surface, water courses, and main lines of
transportation. Special attention to State of Maine. Map drawing through grade.

**Writing.** Shaylor, No. 2.

Continue object lessons, general exercises, choice selections for memorizing, and careful language teaching throughout the year.

**Second Term.**

**Reading.** Fourth Reader. Drill in expression. Occasionally allow single pupil to read entire lesson or selection.

**Spelling.** Harrington, to Part II.

**Arithmetic.** To fractions in Brief Course, including Accounts and Bills. Use objects, (actual measures) in teaching tables.

**Geography.** To Pacific States. In addition to previous directions, note especially mines and mining, rainless regions, plateaus, canons, &c.

**Writing.** Shaylor, No. 3.

**Third Term.**

**Reading.** Fourth Reader and supplementary.

**Spelling.** Review.

**Arithmetic.** To addition of fractions.

**Geography.** To South America. Use all available maps and pictures.

**Writing.** Shaylor, No. 3.
SECOND YEAR.

FIRST TERM.

READING. Fourth Reader and supplementary of same grade.

SPELLING. 15 lessons in Part II, and review Part I.

ARITHMETIC. To lesson 124. Rapid addition and subtraction of easy fractions, with much practice in rapid reduction.

GEOGRAPHY. South America and review. Additional matter by teacher.

WRITING. Shaylor, No. 3.

SECOND TERM.

READING. Complete Fourth Reader.

SPELLING. 25 lessons in Part II.

ARITHMETIC. Decimals to Volumes. Use objects in measurements, and give practice in actual use of measures.

GEOGRAPHY. Europe and Asia and review.

WRITING. Shaylor, No. 4.

THIRD TERM.

READING. Review and supplementary.

SPELLING. Review.

ARITHMETIC. Review. Introduce new examples and illustrations.
GEography. Complete Elementary and have a general review.

Writing. Shaylor, No. 4.

Language. Make use of charts daily throughout the course.

GRAMMAR SCHOOLS.

FIRST YEAR.

FIRST TERM.

Reading—Fifth Reader. Selections and supplementary reading. Study and teach expression. Note biographical and other facts regarding authors read. Designate subjects and authors suitable for general reading of pupils.

Spelling. Harrington. 16 pages, Part II, and selection of practical words. Exercise for the most part written.

Arithmetic. Fundamental rules, factoring, and common fractions to page 81. Thorough practice in reading and writing whole numbers, and mixed numbers, with decimals, and in rapid addition. Much mental work, and many test problems supplementary to those in text books.

Geography. To page 33. Use illustrations largely, and all available supplementary reading.
LANGUAGE. Sentences, sentence making, and parts of speech to preposition. Large amount of practical work in correcting commons errors, exercises in expression, use of capitals, punctuation, &c. Substance of short stories, &c., to be reproduced from memory in writing.

WRITING. Shaylor, No. 4.

SECOND TERM.

READING. Selections, Fifth Reader.

SPELLING. To page 33, Part II.

ARITHMETIC. To page 126.

GEOGRAPHY. To page 84.

LANGUAGE. Complete parts of speech. Take properties of substantives. Classify pronouns and adjectives, and verbs. (To page 132.) See general directions for first term.

WRITING. Shaylor, No. 5.

THIRD TERM.

READING. Continue as before.

SPELLING. Review to page 40, Part II.

ARITHMETIC. United States money, accounts and bills, weights and measures, and simple measurements, to compound numbers. Practical exercises, and carefully make forms in accounts and bills. To Metric system.

GEOGRAPHY. To Europe, page 89.
SCHOOL REPORT.

LANGUAGE. Properties and conjugation of verbs, the preposition and interjection. Writing letters. Complete Elementary Grammar.

WRITING. Shaylor, No. 5.

SECOND YEAR.

FIRST TERM.

READING. See directions of first term.

SPELLING. To page 24, Part II.

ARITHMETIC. Complete compound numbers, measurements, percentage and simple interest. Write forms of notes, and all paper involved in rules studied.

 GEOGRAPHY. Complete Geography, and take general review of whole book.

LANGUAGE. Harvey's Practical Grammar, to pronouns. Progressive exercises in descriptive, narrative and other forms of simple composition.

WRITING. Shaylor, No. 5.

SECOND TERM.

READING. See first term.

SPELLING. To page 36, Part II.
ARITHMETIC. Compound interest, bank and commercial discount, and stock investments, to exchange, with written forms of all papers involved.

HISTORY. To Intercolonial Wars. Direct the pupil to collateral reading on period studied. Use illustrative charts, diagrams and pictures.

LANGUAGE. Full course in pronouns and verbs, with practical exercises in irregular verbs, and in the use of modes and tenses. Careful correction of errors, and frequent exercises in progressive composition.

WRITING. Shaylor, No. 5.

THIRD TERM.

SPELLING. To page 48, Part II.

ARITHMETIC. Exchange, average of payments, ratio and proportion, and partnership. To page 241.

HISTORY. Intercolonial Wars and Revolution, to events of 1779.

LANGUAGE. Full course in remaining parts of speech, correction of errors, with rules and reasons. Selections for analysis from Reader. See direction before given for composition. Letter writing and forms of business paper.

WRITING. Shaylor No. 6.
THIRD YEAR.

FIRST TERM.

READING. Reader of prescribed grade with supplementary reading, and spelling of selected words.

SPELLING. To page 62, Part II.

ARITHMETIC. To Cube Root.

HISTORY. To Lincoln’s Administration.

LANGUAGE. Analysis, definition and classification of elements combined with exercises of synthesis. (Syntax to page 178.)

PHYSIOLOGY. To digestion.

WRITING. Shaylor, No. 6.

SECOND TERM.

READING. Reader of prescribed grade, with large use of supplementary reading.

SPELLING. To page 72, Part II.

ARITHMETIC. Completed. Test examples by teacher in practical measurements.

HISTORY. To Johnson’s Administration.

BOOK-KEEPING. Single Entry. First three forms.

LANGUAGE. Text book completed.

PHYSIOLOGY. To Nervous System.

WRITING. Shaylor, No. 6.
THIRD TERM.

READING. Supplementary and review.

SPELLING. Selected words in Geography and industries. Harrington's completed.

ARITHMETIC. Review, with new test examples.

HISTORY. Complete and review.

CIVIL GOVERNMENT. Oral lessons.

BOOK-KEEPING. Single Entry completed.

LANGUAGE. Review, in Etymology, analysis, punctuation, use of capitals, &c.

PHYSIOLOGY. Completed.

WRITING. Shaylor, No. 7.

In the Year of our Lord one thousand eight hundred eighty-one.

An Act providing for the Election of a Superintending School Committee, and Superintendent of Schools, in the City of Biddeford.

Be it Enacted by the Senate and House of Representatives in Legislature Assembled, as Follows:

Sect. 1. The city council of the city of Biddeford may elect a superintending school committee of nine members, or may provide for the election of the same by the legal voters in the several wards of said city. Committee shall be divided into three classes of three members each. The term of office of each member to be determined at the time of his election. The first class of three to hold office for one year; the second class of three to hold office for two years; the third class of three to hold office for three years; and the successor of each class shall be elected for the term of three years, and immediately upon the election and qualification of the committee herein provided for, the term of office of the existing committee shall cease. In case a superintendent of schools is appointed, as authorized by this act, then the superintending school committee shall receive no compensation.

Sect. 2. The superintending school committee of said city of Biddeford may exercise all the power conferred, and shall discharge all duties imposed by law upon superintending school committees, and also exercise all the powers conferred, and shall discharge all the duties imposed by law upon the school agents; and they may also appoint a superintendent of schools for a term of five years, and with such compensation as said committee may determine. Superintendent may be removed at the pleasure of said committee; and any vacancy may be filled by the appointment of said committee.

Sect. 3. Said superintendent of schools shall act under the direction of, and be responsible to the superintending school committee of said city, and may exercise such of those powers as they may from time to time confer upon him.

Sect. 4. All acts and parts of acts inconsistent with this act are hereby repealed.

Sect. 5. This act shall take effect when approved.

Approved, February 24th, 1881.
