OSROE L. KNIGHT, Selectmen
ALBERT S. HOLMAN, of
GEORGE L. ROWE, Peru.

TRUANT OFFICER'S REPORT.

My attention has been called to nine cases of wilful truancy, to which I immediately attended. I hope that at our next annual meeting, measures will be taken to elect a truant officer who fully realizes the outgrowth of truancy, and who, also, is so situated in business that he can attend to such cases without delay; for by so doing we may improve the Nation.

JOSEPH A. PUTNAM, Truant Officer.
Report of Supervisor.

As supervisor of schools I submit the following report.

Fellow Townsmen:—As supervisor of schools of the town of Peru for the past school year, I hardly feel myself equal to saying just what should be said in this report. While I believe that the present school system is beneficial to the majority of schools, still there are questions that come up in rural towns like our own, that are difficult to act upon intelligently; one of those being the suspending of schools in certain small districts. I do not believe it to be profitable to support a school of less than ten pupils, still it is impossible to convince the residents of said districts that it is for their interests to do so, and consequently we do not get the hearty co-operation that we should were it otherwise.

In order for our schools to reach a high standard, it is the duty of every citizen to encourage and co-operate with both teacher and pupils. Our public schools have been the source of much of our prosperity and have a world-wide reputation, and if they are to continue their great work the citizens of every community must give some of their time and influence to making them equal to that work and worthy of the
age and State. Every true citizen should realize that it is his duty to take an interest in the school of their neighborhood, to aid and encourage the teacher and to be slow to censure.

I believe paying such salaries to teachers as will secure the best, for by so doing I think we are gainers in the end, and I also believe that we should make our school rooms comfortable and attractive.

Repairs of School Houses.

At the last annual town meeting the town voted to raise $150 to be used for necessary repairs. By using that amount I have made, in some cases, a decided improvement, while in others it just about keeps them from going back.

Free High School.

I earnestly hope that the town at its next annual meeting will take some action in regard to the establishing of Free High schools, for I think that one at West Peru and one at East Peru would be of great benefit to the scholars in town.

School Books.

By action of the town at its last annual meeting, authorizing the adoption of new text books, I, by the advice of the committee, have made introductory terms with the American Book Company, which I think are highly satisfactory.

The School Houses

in town are, with few exceptions, in fair repair. One of the marked exceptions is No. 2 and I think the town should take some action in regard to this at its next annual meeting.
Summary.

In reviewing the school year just closed it is with pleasure that I can say that I regard it, taken as a whole, as a very prosperous one.

The duties of the past year have been more numerous and arduous than usual, owing to the change of text books and the overseeing of repairs on school houses. Now, as is customary, I will speak of the different schools in town as they appeared to me, and will try to do so without favoritism or prejudice.

East School.

Both summer and winter terms of this school were taught by Ada E. Gerrish, who never teaches in a district but what her services are wanted again. She gains the good will of her pupils and her schools are among the best.

Center School.

Summer term of this school, to which some of the scholars from the Waite district were conveyed, was taught by Jennie M. Hopkins. This was Miss Hopkins second experience as a teacher, and I think she met with very fair success. Fall term was taught by Bertha L. Goggin. Miss Goggin is a young teacher, but has already established a good reputation.

West School.

Summer term taught by Mary E. Crockett. Winter term taught by Joseph A. Putnam. I have always considered both of these teachers among the best and their experience in this school verifies the fact.
Dickvale School.

Summer term taught by Florilla L. Phinney. Winter term by Mary E. Crockett. Both of these teachers are too well known to admit of any comments from me.

Knox School.

Both summer and winter terms taught by Bertha E. Hopkins. The fact of Miss Hopkins serving in both terms of this school proves that her efforts were appreciated, and I cheerfully recommend her to my successor.

Foot of Pond School.

Summer term taught by Nellie M. Castle. On account of illness of the teacher the school was cut short. Miss Castle is one of our good teachers and was having good success in this school.

Winter term taught by Marcia V. Hall. Mrs. Hall is one of our old and successful teachers, and in this school fully sustained her reputation. Discipline perfect.

Head of Pond.

Summer term suspended. Fall term taught by Grace L. Johnson. Miss Johnson is a young teacher, but manifests a great interest in her work, and with experience may become one of our best teachers.

Ridge School.

Summer term was under the instruction of Ellen C. Babb, who is an experienced teacher and one of ability, but owing to sickness in her family the term was shortened and it was somewhat detrimental to the interests of the school. Winter term taught by Clara E. Curtis. This was her second term in this
district. I supposed that her services were appreciated, but I found that after the school had been in session a short time there was some dissatisfaction. I inquired into the matter, and came to the conclusion that either there were some unruly pupils or else the teacher had been too sparing of the rod. I think it was partly both, but truly my sympathies were with the teacher. If scholars are sent to school to learn and wish to learn they can learn.

Respectfully submitted.

A. M. CURTIS, Supervisor.
