We have a tuition to pay to the town of Sullivan and tuition to collect from the town of Winter Harbor so the balance will be in our favor. The money in my opinion has been used to the best advantage; the School Committee have looked after the school property and done their part in every way to the interest of the schools. We should have more money appropriated for our schools. Our school year is not up to the average of the towns in the county, but can see no way to do any better; some of our schools are small, it is better for the scholars to have a school near home as many parents do not want their children to board away. The school buildings are in a very good condition; many of the rooms are fitted up in a neat attractive manner. Our teachers for the past year have tried to do good work; in some cases the parents have not taken the interest in the schools that is needed. Some changes have been made in the text-books so as to make new books, the old editions were worn out and the new books are of a very fine series and are much liked by teachers and scholars.

The School League of which there are several in town have added some good books for reference and study that will be of use for many years to come. We have several scholars that are away to take an advanced course of study. All have chosen good schools and the results will be satisfactory. We have heard it talked to establish a Free High School but our town is so situated it would be hard to have the school so as to convene a majority of the scholars who could attend. I will leave this to your consideration. In our opinion it will be necessary to raise the same amount for text-books and repairs on school property as last year. In conclusion I wish to thank the school committee and citizens for their support during the past year.

Respectfully submitted,

CH. C. LARRABEE.
