\*Deceased.

## MAYOR'S ADDRESS

---

*Gentlemen of the City Council:*

In accordance with the custom of former years I desire to present herewith a brief statement concerning such expense as has been incurred during the past year for permanent improvements, and to make such suggestions in regard to the future as may be of benefit to an incoming administration.

This year's permanent improvements have involved an expenditure of \$8,600 in paying the last of the bills due on the new High School; about \$7,000 on the Hayden Brook Sewer; about \$3,000 on the new Hannaford schoolhouse; \$4,400 in building a retaining wall on Water street; \$3,500 on state road, exclusive of the amount appropriated by the state; \$10,000 for the new fire alarm system; besides several thousand dollars invested in new sewers, new sidewalks, granolithic walks and new crosswalks; or about \$40,000 altogether.

I find that during the past three years we have invested approximately \$190,000 in permanent improvements, which include the paying for so much of the new High School building as was not taken care of previous to that time; the building of the new Fire Station; the building of approximately one-third of a mile of the Hayden Brook Sewer; the beginning of the Hannaford schoolhouse; the paving of Upper Main street; the completion of the State road from the Fairfield line to Western avenue; the installation of a new fire alarm system; repairing the old City Hall to such an extent as to be equivalent to almost rebuilding it; the building of the retaining wall on Water street; and the installation of a large amount of new sewerage, new sidewalks, concrete walks and crosswalks.

These permanent improvements have been made not only without increasing the tax rate, but during the time spoken of we have been enabled to reduce the tax rate from 23 1-2 mills to 23 mills. In the meantime the net debt of the city has been increased approximately \$60,000. In other words, about \$130,000 of the income of the city for three years has been devoted to permanent improvements.

Next year a tax rate of 23 mills, in addition to such income as the city receives from poll taxes and miscellaneous sources, will give the city a gross income of practically \$200,000. About \$13,000 will be needed to complete and equip the Hannaford schoolhouse; \$6,000 should be used to build another section of Hayden Brook Sewer, that amount being sufficient to carry the sewer a considerable distance beyond the railroad tracks; at least \$1,000 should be used in grading the High School lot; and \$5,000 ought to be expended on state road building, leaving \$175,000 for regular current expenses.

The state tax for 1913 was \$37,000, or about \$10,000 larger than for 1912. Next year it will be \$33,500. There should be deducted, therefore, from the 175,000 which the incoming administration will have for income after paying for such needed further permanent improvements as are in sight, the sum of \$45,000 with which to pay the state and county tax, leaving \$130,000 to be expended locally.

The following appropriations will be found necessary, and I believe sufficient:

Bells and Clocks .....	\$ 75.00
Board of Health .....	500.00
City Hall Expense .....	2,000.00
Common Schools .....	16,000.00
Coupons .....	12,500.00
Current Expense .....	10,000.00
Fire Department .....	11,000.00
High School .....	10,000.00
Insurance .....	3,000.00
Interest .....	5,000.00
Memorial Day .....	125.00
Music .....	150.00
Overlaying and Abatements .....	3,000.00
Parks .....	200.00
Police .....	10,000.00
Public Library .....	3,000.00
Sewers .....	2,000.00
Streets .....	15,000.00
Street Lights .....	7,000.00
Support of Poor .....	7,000.00
Tuberculosis Society .....	150.00
Water Contract .....	3,200.00

making a total of \$120,900. This will leave \$9,900, \$6,000 of which should be used in retiring notes to that amount which have been carried ever since the purchase of the High School lot, and the balance

will take care of any expenses which may arise and which cannot well be estimated at the present time.

The new street lighting system ought to be extended as far as the incoming administration feels is consistent with reasonable economy. This system has been inaugurated without cost to the city other than a fair rental for the plant and the additional lights.

I had hoped that we would be able to reduce the tax rate to 20 mills, but a growing city requires constant and fairly large expenditure of money for needed public improvements, and the only policy which it is possible for this city to adopt for some years to come in my opinion is to make such permanent improvements as the growth of the city demands, even though such a policy involves a somewhat higher tax rate and the carrying of a somewhat larger debt than would be necessary or proper if Waterville had attained its full growth. As nearly as can be estimated from the polls and the school census, Waterville has gained about 1,000 in population in the past three years. Such a gain necessarily causes the erection of dwelling houses, which must be accommodated with sidewalks and sewers and enlarged school facilities. This city is in every respect a progressive community, and it is necessary that an administration in charge of its affairs should see that the city as a corporation manifests a progressive spirit sufficient to keep pace with the progress of its inhabitants.

It is especially gratifying to note one thing; that notwithstanding our increase in population and the increase in expense in other departments, the poor have been cared for during the past three years at less expense than previous to that time. A great deal of credit ought to be given for the work of Mr. Napoleon Loubier in this department. He has devoted all of his time to the city work and has done that work intelligently and painstakingly. The city would sustain a distinct loss if it made any change in this particular office. Because Mr. Loubier has cut down expenses in certain directions in connection with the poor department, the city has been able to extend charitable aid in other, new directions where it has done a great deal of good.

The new state highway law under which the state will combine with the city in certain permanent road building should enable Waterville to make a considerable advance in the line of building good roads to connect the city with the adjacent farming territory. Besides our designated state road, which, according to plans in the State Highway Commissioner's office, will be extended out Western avenue, we should build next year a state aid highway, beginning about at the point where the Ridge Road intersects with Upper Main street and extend it to the Fairfield line. It is also important that at the earliest possible date our River road towards Sidney should be permanently repaired and put in such condition as will enable heavy loads to be hauled over it at all seasons of the year.

It is not possible to do very much permanent road building in one year. The section of state road built this year under the charge of Street Commissioner O'Donnell is a good sample of what ought to be done each year on as large a scale as the means of the city permit. The state road from the Fairfield line down to the railroad crossing, which was built in 1911 and 1912 by Street Commissioner Rowe, can be kept in its present excellent condition for many years with very slight expenditure for repairs; and a few more miles of such streets as those now existing from the Fairfield line to Western avenue would mean a great deal in value to the people of the city.

Our increase in valuation has more than kept pace with our growth in population. I am inclined to believe that the addition of new property during this year, together with such reasonable readjustment of tax values as should be made by the next Board of Assessors, will give us a total valuation of \$8,000,000. Almost all of the property in town is valued fairly now, but there is one class of property which does not pay as much tax as it ought. It would be the part of wisdom for the Assessors next year to consider seriously the question of materially raising the valuation of such land in Waterville as is now held out of use. The erection of new buildings is being somewhat retarded by the high price at which building lots are held, and the owners of some of the vacant land are enabled to hold it out of the market for a speculative advance in price because of the fact that the tax upon such property is so low.

No one can question the right of the owner of real estate to refuse to sell it at a price that will attract customers. On the other hand, the advance in the value of vacant land comes purely and solely because of the public spirit and enterprise of people who do not allow their land to remain vacant, but who either improve it themselves or encourage others to do so. And if a man is disposed to refuse to improve his property or to allow anyone to improve it for him, preferring to hold it until the enterprise of his neighbors has made it even more valuable than it is at present, he should pay for the privilege. The only way in which the community can recover from him a portion of what he is receiving from it is by taxing him.

To place a fair, full value on vacant land would result in two things, both of which would be of benefit to the city. First, it would reduce the tax on other property; and second, it would tend to induce the owner to make use of the land or sell it at a fair price to somebody who would make use of it. This is a matter which ought to be given serious attention. The present Board of Assessors have done something on this line, and the work which they have begun should be carried on and greatly extended.

During much of the present year I have been obliged to be away, and I am under deep obligation to all of the members of the City Government who have so cheerfully served the city, not only doing the full work for which they were elected, but in many instances attending to matters which I should have attended to had I been always at home. We have gone through the year without serious disagreements, have settled such problems as have come to us in a spirit of fairness and according to our best judgment. There has been nothing in the conduct of city affairs which could call for harsh criticism. Every department of the city has been run economically. The subordinate officers have worked faithfully for the interests of the community, and I do not believe that the city has expended a dollar for which it has not received full value.

W. R. PATTANGALL.

# Report of Inspector of Buildings

WATERVILLE, MAINE, Feb. 1, 1914.

*To the Honorable Mayor and City Council:*

I have the pleasure herewith to submit the following report which comprises the buildings constructed, repaired and in process of construction and repair during my term of office ending February 1, 1914.

## NEW DWELLINGS.

Mrs. J. L. Fortier, Silver street .....	\$7,000 00
J. D. Parent, Lockwood street .....	3,100 00
Charles F. Poulin, Gray avenue .....	2,700 00
W. R. Campbell, Gilman street .....	4,600 00
Ten Associates, School street .....	4,500 00

Herman Blumenthal, Main street .....	1,300 00	
Parochial School Laundry .....	400 00	
	<hr/>	\$38,100 00

In closing my report I wish to extend to his Honor the Mayor and the members of the Committee my appreciation for their kind and generous treatment.

Respectfully,

LEWIS C. POLLARD,  
*Building Inspector.*

# Report of Sanitary Inspector

---

*To the Honorable Mayor and City Council:*

Your Inspector makes the following report for the year ending February 1, 1914:

Number of Plumbers registered .....	7	
Cash received for register fees .....		\$7 00
Cash paid City Treasurer .....		7 00
Number of permits granted .....	114	
Number of inspections made .....	132	

Respectfully submitted,

LOUIS C. POLLARD,

*Inspector.*

# Sealer of Weights and Measures

---

WATERVILLE, MAINE, Feb. 6, 1914.

*To the Honorable Mayor and City Council:*

GENTLEMEN: As Sealer of Weights and Measures I herewith submit my report for the year ending February 1, 1914.

During the past year I have tested:

1449 Milk Bottles, condemning .....	190
9 Milk Quarts, condemning .....	3
21 Large Milk Cans .....	
160 Scales, condemning .....	4
123 Weights, condemning .....	2
8 Dry Measures .....	

All of which were adjusted and sealed.

Respectfully submitted,

LOUIS C. POLLARD,

*Sealer.*

# Assessors' Report

WATERVILLE, MAINE, Feb. 7, 1914.

*To the Honorable Mayor and City Council:*

The board of assessors take pleasure in reporting to your honorable body, that on the 26th day of June, 1913, we committed to H. B. Crosby, collector of taxes, for collection, list of taxes on polls and estates, subject to assessment for the year beginning April 1st, 1913, amounting in aggregate to \$188,976,966 including sprinkling tax to wit:

On real estate valued at \$6,189,320 @ 23 mills	\$142,354 36	
On personal estate valued at \$1,449,152 @ 23		
mills .....	33,330 496	
On 3267 polls @ \$3.00 .....	9,801 00	
On sprinkling .....	3,491 11	
Total tax assessed .....		\$188,976 966
For state tax .....	\$37,678 59	
For county tax .....	11,292 16	
For municipal appropriations .....	136,515 106	
For sprinkling .....	3,491 11	
		\$188,976 966

We are of the opinion that, if assistant assessors were hired instead of elected annually by the city council that a quicker report of poll taxes could be made and committed at an earlier date.

GEDEON PICHER,  
E. PAYSON WITHAM,  
CHAS. H. BARTON.

# City Solicitor's Report

---

WATERVILLE, ME., February 14th, 1914.

*To the Honorable Mayor and City Council:*

The city is not at present involved in any actions at law. Those pending at the beginning of the present fiscal year have been adjusted without expense to the city.

During the year two actions were brought against the town of Castine for pauper supplies which have been settled by the defendant's paying the city's claims in full and costs.

Respectfully submitted,

FRANK PLUMSTEAD,

*City Solicitor.*

# City Physician's Report

WATERVILLE, MAINE, February 1, 1914.

*To His Honor The Mayor, and the Members of the City Council:*

I have the honor of submitting herewith my report as City Physician for the year ending January 31, 1914.

No. of patients treated at Almshouse .....	24	
No. of patients treated at homes .....	47	
		71
No. of visits at Almshouse .....	61	
No. of visits at homes and jail .....	262	
No. of surgical dressings .....	36	
Surgical operations:		
Amputation of toe .....	1	
Tonsils and adenoids .....	3	
Fracture of clavicle .....	1	
Fracture of radius .....	1	
Treated at office .....	26	
Births reported .....	4	
Deaths reported .....	6	

I deem it my duty to respectfully call your attention to some conditions at the almshouse which are far from satisfactory.

The sanitary arrangements are entirely inadequate; first-class bath and toilet room facilities should be provided for both sexes.

Adequate provision should also be made for the segregation or isolation of persons suffering from contagious or infectious diseases. There have been admitted during the year a number of persons in more or less advanced stages of tuberculosis, two of whom died there, and there was no isolation of these cases except such as could be practiced in one of the present rooms with the patients allowed to go about at will, in spite of frequent remonstrances.

I should like to recommend that a careful study be made of the conditions and needs at the almshouse, and such improvements made as, not only to place it on a par with like institutions in this State, but to make it what it should be.

Respectfully submitted,

A. U. DESJARDINS,

*City Physician.*

In making these suggestions I have no desire to reflect any discredit upon any officer connected with the management of the almshouse.

## Board of Health Report

---

*To the Honorable Mayor and City Council of Waterville:*

GENTLEMEN: Following is the report of your Board of Health for the year ending February 5, 1914.

Contagious diseases have been reported as follows:

Diphtheria .....	26 cases	4 deaths
Typhoid fever .....	53 cases	1 death
Measles .....	12 cases	
Smallpox .....	1 case	
Nuisances .....	85 cases	

During the month of May there occurred an epidemic of Typhoid fever which for a time assumed serious proportions. On the night of May 1, there was held at the Baptist church a supper which was attended by a large number of the members and friends of the church. Following this in about seven days, patients in different parts of the city, all of whom had been present at the supper and partaken of the food or had received food from the church in their homes, began to assume symptoms of sickness which soon proved to be typhoid fever. The whole number of cases was forty-seven. Every patient afflicted with the disease showed their first symptoms within the period between May 12 and 24th. The most painstaking inquiries was made into the cause of the epidemic, and as a result it was found that the patients were infected from food taken at the supper above mentioned. Investigation also brought out the fact that a portion of the food taken at this supper was prepared by a party who was undoubtedly sick with typhoid fever at the time and thus capable of infecting any food which she might handle. No other solution of the problem could be made as there was no other avenue which could be detected by which infection could have reached this food. While many patients were seriously sick, there was but one death and this occurred in a patient who received no medical treatment.

While epidemics of this kind are to be regretted yet we see no way by which it could have been avoided so long as typhoid fever exists, as any patient who is beginning to manifest symptoms of the disease

may for a long time before they know the nature of their malady, infect food and thereby spread contagion to a large number of people. Although this happens in but rare cases, yet sufficient evidence has been found to show that it is a fact.

During the late fall and winter months, numerous cases of diphtheria have caused no little trouble, and expense. Twenty-six cases in all have occurred in different parts of the city within the last four months and existed almost wholly among the school children, necessitating frequent and oftentimes repeated fumigations of the school rooms and thereby interrupting the work of the schools. In spite of all the difficulties confronted in the control of the disease, especially among those families where contagious disease of any kind is so apt to originate and be so difficult to overcome, there have been but four deaths.

During the year it has been necessary to do a large amount of fumigating which conditions have made it necessary to extend to the school buildings. Fumigation of this kind is attended with considerable expense to the city. This has necessitated an expenditure of a larger part of the appropriation than has been used any other single year for some time. In addition to this, another unusual expense has been the necessity for the use of a larger amount of antitoxin in those families who have been afflicted with diphtheria. In the light of our present knowledge, fumigation is essential after cases of contagious diseases. We see no way at present where it can be eliminated and the future may necessitate a more extended use of this means of prevention of the extension of contagious diseases.

We wish here to call to your attention, the fact that the appropriation has been inadequate to the needs of this department and we earnestly urge that in the coming year, you make the appropriation sufficient to allow the work to be carried on without the handicap which limited means make necessary. The conservation of public health is an extremely important question from an economic standpoint and we are convinced that a more thorough and direct supervision along these lines is for the best interests of our city. While the work has been extended this extension has disclosed new needs for work of the Board of Health.

There can be no growth of the community without a careful supervision of the health of the individual. New business enterprises and prospective citizens, all unite in the demand that a city shall maintain a degree of health as good or better than that of surrounding communities. Waterville, increasing in population as it is, must maintain a careful watch over the health of its citizens before it can conscientiously ask recognition as a home or place of business of those who would enter its borders.

There has been a tendency to make more extensive use of the services of our health officer, Dr. F. C. Thayer, whom we have detailed several times on missions of investigations into nuisances and other questions affecting the health of localities or the citizens in geeral. We believe Waterville is to be congratulated on having a health officer who is adapted by training and social position, to look after this important work without fear or favor. In the future the health department should avail itself of these services more extensively.

We are now, and shall continue in the future, to keep a strict supervision upon all forms of slaughtering and to this end have adopted regulations requiring that no slaughtering of animals shall be carried on within the city limits without permission from the board of health. Already there has been erected in the northern extremity of the city, by Levine and Company, a slaughter house which is constructed upon the most improved sanitary principles. This cannot fail to make an improvement along these lines. Waterville at present has no system of municipal meat inspection. We believe that considerable meat is being sold within our midst, which while not in the strict sense of the term diseased, is nevertheless by reason of inadequate preparation and methods of handling, unfit for consumption. Provision should be made as soon as possible for regulating this very important branch of municipal sanitation. Also there should be a more careful regulation of restaurants, boarding and eating houses as well.

We wish to mention our appreciation to the superintendent of schools and school board and all other municipal officers for their hearty cooperation in matters pertaining to the advancement of public health. There has throughout the year been many questions where joint action of the several boards has been required, and adjustment has been brought about amicably and always for the public good.

Respectfully submitted,

JOHN FARDY, *Chairman.*

DR. J. W. STEWART.

DR. E. P. FISH, *Secretary.*

# Engineer's Report

---

WATERVILLE, MAINE, Feb. 11, 1914.

*To the Honorable Mayor and City Council:*

GENTLEMEN:—The following is the report of the work done in this department for the fiscal year:

## SOUTH MAIN STREET RETAINING WALL.

Along the west side of South Main street, just north of Bridge street, there was formerly a log cribwork supporting the gravel sidewalk and roadway and preventing the same from sliding down the steep slope toward the Lockwood Stables. The outside edge of this crib was about 8 feet inside the street line, making the roadway very narrow at a point where the room was most needed for traffic, especially by automobiles making the turn to or from Bridge street. The timbers had become badly decayed and were falling away, allowing the sidewalk to slide down the steep bank. The place was a menace to all forms of traffic. A concrete retaining wall was designed and the canvass of the bids, May 20, 1913, gave the following results:

## MASSE AND MARSHALL.

(a)	Excavation .....	425 cu. yds.	.50 per cu. yd.	\$212 50
(b)	Concrete .....	350 cu. yds.	7.00 per cu. yd.	2,450 00
(c)	4" tile drain .....	200 lin. ft.	.05 per lin. ft.	10 00
(d)	Sidewalk grading .....	370 cu. yds.		330 00
(e)	1 1-2" double pipe railing	182 lin. ft.		94 00
				<hr/>
				\$3,096 50

## JOSEPH AND FRANK CYR.

(a)	Excavation .....	425 cu. yds.	.40 per cu. yd.	\$170 00
(b)	Concrete .....	350 cu. yds.	7.50 per cu. yd.	2,625 00
(c)	4" tile drain .....	200 lin. ft.	.12 per lin. ft.	24 00
(d)	Sidewalk grading .....	370 cu. yds.		125 00
(e)	1 1-2" double pipe railing..	182 lin. ft.		105 00

---

\$3,049.00

## JAMES H. KERR.

(a)	Excavation .....	425 cu. yds.	.25 per cu. yd.	\$106 25
(b)	Concrete .....	350 cu. yds.	7.50 per cu. yd.	2,625 00
(c)	4" tile drain .....	200 lin. ft.	.12 per lin. ft.	24 00
(d)	Sidewalk grading .....	370 cu. yds.	.35 per cu. yd.	129 50
(e)	1 1-2" double pipe railing	182 lin. ft.	.75 per lin. ft.	136 50

---

\$3,021 25

## E. PAYSON WITHAM.

(a)	Excavation .....	425 cu. yds.	.60 per cu. yd.	\$255 00
(b)	Concrete .....	350 cu. yds.	5.85 per cu. yd.	2,047 50
(c)	4" tile drain .....	200 lin. ft.	.13 per lin. ft.	26 00
(d)	Sidewalk grading .....	370 cu. yds.		500 00
(e)	1 1-2" double pipe railing	182 lin. ft.		125 00

---

\$2,953 50

## EDMOND CYR &amp; CO.

(a)	Excavation .....	425 cu. yds.	.30 per cu. yd.	\$127 50
(b)	Concrete .....	350 cu. yds.	6.25 per cu. yd.	2,187 50
(c)	4" tile drain .....	200 lin. ft.	.10 per lin. ft.	20 00
(d)	Sidewalk grading .....	370 cu. yds.		370 00
(e)	1 1-2" double pipe railing	182 lin. ft.		100 00

---

\$2,805 00

## H. T. WINTERS &amp; SON.

(a)	Excavation .....	425 cu. yds.	.45 per cu. yd.	\$191 25
(b)	Concrete .....	350 cu. yds.	6.25 per cu. yd.	2,187 50
(c)	4" tile drain .....	200 lin. ft.	.25 per lin. ft.	50 00
(d)	Sidewalk grading .....	370 cu. yds.		175 00
(e)	1 1-2" double pipe railing	182 lin. ft.		110 00

---

\$2,713 75

## CYR BROTHERS. (Fred and Henry Cyr.)

(a)	Excavation	..... 425 cu. yds.	.49 per cu. yd.	\$208 25
(b)	Concrete	..... 350 cu. yds.	6.24 per cu. yd.	2,184 00
(c)	4" tile drain	..... 200 lin. ft.	.12 per lin. ft.	24 00
(d)	Sidewalk grading	..... 370 cu. yds.		185 00
(e)	1 1-2" double pipe railing	182 lin. ft.		94 00
				<hr/>
				\$2,695 25

The firm of Cyr Brothers, being the lowest bidder, was awarded the contract at the June meeting of the City Council. They proceeded at once to execute their contract in a very creditable manner.

The outside edge of the wall was built along the street line increasing thereby the width of the travelled roadway about eight feet or 36 per cent. The soil under one portion of wall proved to be loose sand and loam wholly unfit for a foundation. This material was removed and the foundation placed on a hard underlying clay. The increased quantities made the final cost as follows:

Excavation	..... 731 cu. yds.	.49	\$358 19
Concrete	..... 460 cu. yds.	6.24	2,870 40
Tile drain	..... 189 lin. ft.	.12	22 68
Backfilling	..... Lump sum		185 00
Pipe railing	..... Lump sum		94 00
Extra work on pipe railing	23.00		
on backfilling ..	33.81		
on bonding rods	6.08		
		<hr/>	62.89
Commission 15%.....		9.43	72 32
			<hr/>
			\$3,602 59
Waterville Sentinel Pub. Co., advertising			12 00
Engineering and inspection			350 20
			<hr/>
			\$3,964 79

## CITY STREET LINES AND PROPERTY LINES SURVEYED.

The following important surveys of city streets and property were made:

- Western avenue schoolhouse lot.
- Old high school lot.
- Grades for new high school lot.

Percival court.

Junction of Silver and Grove streets.

Lines and grades of Gray street.

Lines and Grades of Gilman street from Pleasant street to Messalonskee stream.

Line between Central fire station lot and Waterville Motor company.

#### MERCHANTS COURT REGRADED.

Merchants court, which has for a long time needed repairs and which has been in the past a dumping place for ashes, paper and all forms of waste, was rebuilt and widened to the established lines of the street and brought to the grade which had been established by the City Council. All soft sand and poor material was first removed to a sufficient depth to allow a gravel wearing surface. Then the soil was rolled hard with the steam roller and gravel was placed and rolled. This work was done in a thorough manner by the street department and makes an excellent approach to the back doors of the business houses on the west side of Main street between Temple and Silver streets.

#### STATE AID ROAD.

The combined automobile fund and state road money was expended this year on Elm street from the postoffice to Western avenue. The roadway was constructed with a selected gravel wearing surface 34 feet wide and from 6 to 12 inches thick. From the postoffice to Winter street a stone base 30 feet wide and 8 inches thick was provided. The surface of the street was brought to true line and grade, and all man-hole and catch basin covers were properly graded. A new catch basin was built near the corner of Winter street and the Waterville and Oakland Street railway placed two catch basins between the rails of their track; one opposite School street and one near Western avenue. The center line of the car track was moved to conform with the center line of the street. About 2,200 feet of the street were rebuilt.

The city took the contract to do the work and it was executed by the street department under the charge of the street commissioner, Mr. T. A. O'Donnell. The Street Railway company moved and graded their own track.

#### SEWERS

A large amount of sewer work has been undertaken this year. This department designed and furnished the lines and grades for 5,599 linear feet of pipe sewer in the following locations:

*Morrill Avenue.* The Morrill avenue sewer was extended by 95 feet of 10 inch clay pipe to join the Hayden Brook sewer. A manhole was built where the 10 inch extension begins. This sewer formerly discharged into the Hayden brook. This work was done by Alton L. Tripp in connection with his contract on the Hayden Brook sewer.

*Gilman Street.* A sewer was built from a point on a proposed street southerly to Gilman street; thence westerly along Gilman street to the Messalonskee stream. This sewer includes 324 feet of 8 inch pipe with two manholes and one lamp hole.

*Common Street.* The 8 inch sewer on Common street was extended westerly 34 feet to a point opposite the westerly side of the Gallert building. A lamp hole was left at the end. The trench for this sewer was blasted through solid rock.

*Mechanics Court.* Two hundred and sixty feet of 8 inch sewer was laid on Mechanics court, across Temple street and behind the Boutelle and Elden blocks. A manhole was left in Temple street and a lamp hole at the end. Much unusually hard rock was encountered in this trench.

*Colonial Street.* Two hundred feet of 8 inch pipe was laid on Colonial street, southerly from Boutelle avenue. A manhole was built at the junction with the sewer on Boutelle avenue and a lamp hole left at the end of the sewer.

*Western Avenue.* The 8 inch pipe which formerly law from Western avenue, across private land to the manhole at the corner of Cool and Oakland streets was taken up and relaid with 374 feet of 12 inch pipe.

*Upper High Street.* The 8 inch sewer on High street was extended westerly 350 feet and a lamp hole left at the end.

*South Water Street.* An 8 inch sewer 1,080 feet long was built on South Water street and across the land of J. Perry to the Kennebec river. Six manholes were left in the sewer and a lamp hole at the end.

*Prospect and Hilcrest Streets.* A 6 inch sewer was built from the sewer on Boutelle avenue, northerly along Hillcrest street 336.5 feet to a manhole on Prospect street; thence easterly 363.5 feet along Prospect street to a lamp hole.

*Greenwood and Central Streets.* An 8 inch sewer was built from College avenue, northerly along Greenwood street 740 feet to Central street; thence westerly 474 ft to a private connection from the Sisters' hospital. Two manholes and one lamp hole were built.

*Redington Court Extension—Autumn Street.* The 8 inch sewer on Redington court, now Autumn street, was extended 109 feet northeasterly and a lamp hole left at the end.

*Edgemont Avenue.* An 8 inch sewer was constructed along Edgemont avenue from Rosedale street easterly 859 feet. Two manholes, one catch basin and a lamp hole were built. This sewer was built by Edmond Cyr and Company.

The work on all of these sewers, except as noted, was done by the street department.

### HAYDEN BROOK SEWER.

The Hayden Brook sewer was extended from the end of the section which was built in 1912, 567 feet to the culvert in North street and an invert was laid through the culvert 61 feet making the culvert a part of the sewer.

Previous to doing this work, an extension survey was made and a sewer designed for the main brook and its two branches as far north as High street. The notes for this survey are recorded in the City Sewer book. If the profile therein suggested is adhered to in future extensions of the sewer, all the sewers along Ticonic street can be diverted through this trunk line and thereby relieve the main sewers along Lower Main street which are now congested by reason of the large amount of storm water which comes from the upper part of the city.

In former years, the sections of sewer have been built of reinforced concrete 66 inches in diameter inside. 2,746 feet from the Messalonskee stream have been built in this manner. This year, bids were asked for reinforced concrete and vitrified segment blocks. The bids opened June 2, 1913, gave the following results.

### LIGHT, HEAT AND POWER COMPANY, BOSTON.

			Concrete.	Seg. Bl.
A—6" tile pipe .....	1120 lin. ft.	.42 per ft.	\$470 40	
B—66" reinforced concrete sewer .....	560 lin. ft.	9.60 per ft.	5,376 00

			<hr/>	
			\$6,074 50	\$5,419 30

## JAMES H. KERR.

				Concrete.	Seg. Bl.
A—6" tile pipe .....	1120 lin. ft.	.24 per ft.	\$268 80		
B—66" reinforced concrete sewer .....	560 lin. ft.	9.75 per ft.	5,460 00		
C—Manholes .....	2 lin. ft.	5.00 per ft.	85 00		85 00
D—Laying 10" pipe ...	90 lin. ft.	.30 per ft.	27 00		27 00
E—Material and grading .....	400 cu. yds.	.40 per yd.	196 00		196 00
F—66" segment blocks	560 lin. ft.	8.65 per ft.			4,844 00
				\$6,036 80	\$5,152 00

James H. Kerr of Rumford was the low bidder but the Committee on Streets and Sewers decided to award the contract to Alton L. Tripp, because he was a local man, provided he was willing to modify his bid to match the price made by Mr. Kerr. Because of the difference in price in favor of the vitrified clay segment blocks, it was decided to use this form of construction.

The section seems to be an excellent piece of sewer work, substantial and in some ways superior to reinforced concrete.

The Morrill avenue sewer was extended to enter the large sewer, as above noted. All house sewers or drains, formerly discharging into the brook, were entered, and connections were left wherever it was thought there might be a private sewer in the future. A manhole was built just south of North street culvert.

This section is 567 feet to the North street culvert and 61 feet through the culvert making with the sections previously built 3,374 feet of trunk line sewer from the Messalonskee stream. The total cost of this section was as follows:

Segment block sewer .....	557 lin. ft.	8.43	\$4,695 51	
10" pipe sewer .....	95 lin. ft.	.75	71 25	
10" pipe culvert.....	27 lin. ft.	.75	20 25	
2 Manholes .....			55 00	
Grading .....	806 cu. yds.	1.00	806 00	
Segment blocks in invert of culvert.....			7 43	
Extra work				
Gravel under sewer 41 cu. yds.....			\$41 00	
Placing same .....			20 50	
House connections				
Labor and material .....			305 38	366 88
				\$6,022 32

Printing-Advertising for bids .....	21 96
Engineering and inspection .....	559 32
	<hr/>
	\$6,603 60

### REPAIR TO SECTION OF HAYDEN BROOK SEWER BUILT IN 1912.

By order of the Mayor, I made an examination of the section of the Hayden Brook sewer which was built in 1912. I also examined all the sections previously built, and all were in excellent condition except the section built in 1912. This was in need of immediate repair. In many places there was no concrete whatever in the invert and in almost no place was the concrete over two or three inches thick. Alton L. Tripp was engaged to make the repair as separate work from his contract on the next section. He did the work as well as it is possible to repair a concrete structure which has been improperly built. Doubtless this section of sewer will give trouble at some time in the future although it may stand for many years.

The cost of making the repair was as follows:

Alton L. Tripp, labor and materials .....	\$584 31
Engineering and inspection .....	75 00
	<hr/>
Total .....	\$659 31

Respectfully submitted,

EDBERT C. WILSON,

*City Engineer.*

## Free Public Library

---

WATERVILLE, ME., Jan. 31, 1914.

*To the honorable, the Mayor and the City Council:*

The trustees of the public library beg to submit their annual report.

The service of the library has been maintained at its usual high standard during the year and the large circulation of books with the increasing use of the library rooms for reading and reference, shows that the public appreciates the service rendered. Members of this board have visited other libraries during the year and have been pleased to note that the Waterville public library is meeting the needs and desires of its patrons in a manner not surpassed by libraries that have very much larger funds at their disposal. The librarian, Miss Mary Helen Caswell, and the assistant librarian, Miss Jennie Merrylees Smith, have been notably efficient in carrying on the routine work of the library, in making its full resources available for purposes of investigation and study, and in securing the atmosphere necessary to the best usefulness and comfort of a library. A well-deserved increase to their salaries was made at the beginning of the year.

The trustees would express their sympathy with Mr. Philip H. Brown so long the faithful and invaluable janitor and care-taker of the library building and helper in all library work, in his long illness, with the hope that he may soon be fully restored. During his absence the duties of janitor have been well performed by Mr. Henry Hoxie.

For the details of our work you are referred to the reports of the standing committees which are appended. Your trustees are sure that much time has been given gratuitously and the best judgment exercised in making the funds provided by you accomplish the largest results.

With the growth of the city the demands upon the library increase and should be met by increased appropriations. During the next year some large expenditures will be necessary in the reference department, to keep the library up to date, and the French department which is now very much used, should be greatly enlarged so that it may contain not only the masterpieces of that wonderful literature, but the best things in contemporary science, fiction and art.

The trustees would express grateful appreciation of the gifts of the year and their thanks to all the donors. They would also suggest that a gift or a bequest to the library is a direct and permanent way to extend a benefit to the entire city.

They would also call attention to the well-equipped reading room at the library, which, in reckoning up the forces for the good of the city, is sometimes overlooked.

For the board of trustees,

EDWIN C. WHITTEMORE.

### REPORT OF THE LIBRARIAN

*To the Board of Trustees of the Waterville Public Library:*

I have the honor to submit the seventeenth annual report of the Waterville public library for the year ending January 31, 1914.

The year 1913 has been a prosperous one in the history of the library. There has been no unusual gain in any of the departments but in proportion to its resources the amount of work done is unusually large both in number of books circulated and in the number of persons to make use of the library for reading and reference.

The annual meeting of the Maine Library association was held in the Library Hall on November 14, and the library was represented by the librarian and assistant at the Library Section of the State Teachers association at Bangor in October.

The plan suggested last year for uniting the work of the various libraries in the town has worked well and much benefit has been derived therefrom.

As in other years, the books in French have proven very popular and we should add others to the collection. Before the holidays an exhibit of books suggested as Christmas gifts for children was held. This was largely attended.

#### LOAN DEPARTMENT.

The total number of volumes loaned for home use has been 37,031. It is gratifying to note a slight increase in the circulation of non-fiction.

#### BOOKS LOANED.

Adult fiction .....	23,005
Juvenile fiction .....	5,476
General works .....	40
Philosophy .....	177

Religion .....	381
Sociology .....	939
Philology .....	3
Natural Science .....	557
Useful Arts .....	504
Fine Arts .....	562
Literature .....	1,671
Travel .....	1,120
History .....	643
Biography .....	715
Magazines .....	1,238
<hr/>	
Total .....	37,031

On May first a re-registration of those using the library was begun. It was deemed wise to do this in order that we should know accurately the number of cards in use: Up the present time the total number of registration is 2,222; of this number 503 were new, 1,713 re-registrations.

#### READING ROOM.

The number of persons, namely 8,305, who have used the reading room during the year shows that this room is much appreciated.

The following is the list of magazines regularly received:

#### MONTHLY.

A. L. A. Booklist  
 American Boy  
 Atlantic  
 Book Review Digest  
 Bookman  
 Century  
 Child Lore  
 Country Life  
 Craftsman  
 Current Opinion  
 Delineator  
 Everybody's  
 Good Housekeeping  
 Good Will Record  
 Harper's  
 Harper's Bazar  
 House Beautiful

## SEMI-WEEKLY.

Rockland Courier-Gazette

## DAILY.

Boston Transcript  
Christian Science Monitor  
Kennebec Journal  
Lewiston Journal  
Waterville Sentinel

## CHILDREN'S ROOM.

The attendance in the children's room has been 3,868.

The books in this room are badly worn and many should be replaced.

The following magazines are to be found on the tables:

American Boy  
Current Events  
John Martin's Book  
St. Nicholas  
Young Crusader  
Youth's Companion

## REFERENCE ROOM.

Each year the work in reference increases both in the number who use the room and in the kind of work done.

The course given on "How to use a library" at the high school was productive of good results.

Material has been furnished for debates and commencement articles. This has also been done for other schools than those in our own town.

Several especially good books have been added to the reference collection this year among them being: "Standard Reference Work," in 6 vols. and Haldane Macfall's "History of Painting" in 8 vols. "The Standard Dictionary."

The lists of books prepared in conjunction with the English department of the high school have proven useful.

The total number of persons to use the room has been 2,249.

## CATALOGING.

The number of books to be added during the year has been 647. Of this number 572 were added by purchase; 75 by gift.

They were classified as follows:

Adult fiction .....	278
Juvenile fiction .....	53
Juvenile non-fiction .....	41
General works .....	46
Philosophy .....	12
Religion .....	10
Sociology .....	28
Philology .....	1
Natural Science .....	3
Useful arts .....	21
Fine arts .....	23

Literature .....	38
Travel .....	24
History .....	17
Biography .....	31
Reference .....	15
	<hr/>
	647

The reports usually received from the United States government and the State of Maine have been duly received and placed on the shelves.

The files of the Century, Harper's and Scribner's have been bound to date and accessioned and cataloged.

Through the courtesy of the Waterville Woman's association the library has been enabled to have several years of bound St. Nicholas.

### GIFTS.

The library wishes to acknowledge gifts from the following persons and to express thanks for the same:

Waterville Woman's Club  
 Woman's Christian Temperance Union  
 Mrs. W. B. Arnold  
 Dr. and Mrs. F. C. Thayer  
 Mr. and Mrs. W. R. Campbell  
 F. L. Greene  
 Smithsonian Institution  
 I. W. Adams  
 Xi of D. K. E.  
 Mrs. Ernest Holman  
 Miss Anna Bartlett  
 Mrs. Augusta Stetson  
 Mrs. John Fardy

### SUMMARY.

Circulation .....	37,031
Books added .....	647
Books repaired .....	1,009

## REPORT OF THE BOOK COMMITTEE.

The book committee has studied the announcements and the reviews of new books issued by all the leading publishers during the year and from them has selected what seemed best adapted to the needs of the library, both in the strengthening of its departments and in meeting the requests of its patrons. The committee is gratified that its selections have been highly approved by many discerning critics from outside the city and have been well received by a throng of eager readers.

Believing that the library should increase its holdings of books of permanent value, though not always of frequent use, the committee has purchased at auction and other special sales such books so far as the means at its disposal would allow. Notable among such purchases is Justin Winsor's Narrative and Critical History of Boston.

In addition to a reasonable number of new books the committee has replaced many books of proved value and inspiration. It is not wise to be always making experiments in the matter of literature and many a reader surfeited and possibly disgusted with the books of the day would find pleasure and stimulus in the reading of the books that have survived the changing fashions because of their permanent value and lasting charm.

For particular statement of the books added during the year with the classification, reference is made to the comprehensive and able report of the librarian. Special mention should be made of the enrichment of the art department by the purchase of the Macfall History of Painting in eight volumes, and the placing of the new Standard Dictionary in the reference room.

Many books have been purchased for the children and young people, but it is needless to add that the demand far exceeds the supply.

It is a matter of satisfaction that in the matter of books for children and young people there has been a great improvement in recent years. Of stories appealing to the imagination, there is happily no lack, and these are now supplemented by charming and informing books of travel and description and also by books that bring to the boy and girl the most recent discoveries and inventions in the practical arts, and open a new world by nature study. There should be no lack of appropriations for this department. A new Encyclopedia has become a necessity in the reference room and must be supplied immediately.

Your committee has purchased practically all the books for which request has been made as well as the larger part of those suggested to the librarians by the needs of their work and by them presented to the committee.

It is again our pleasure to express gratitude to the Waterville Woman's club for their large and important gifts to the library. Is not the example of this club worthy of being followed by other organizations in the city?

Your committee has done its best with the money at hand; a larger appropriation for books would carry to the patrons of the library an increased satisfaction and a larger benefit.

E. C. WHITEMORE,  
GEO. BRUCE NICHOLSON,  
MRS. E. W. HEATH,  
F. C. THAYER,  
MARTHA B. DUNN,  
N. CHARLAND.

## REPORT OF THE BUILDINGS AND GROUNDS COMMITTEE

WATERVILLE, MAINE, February 4, 1914.

*To the Board of Trustees of the Waterville Free Library:*

We herewith beg leave to submit our annual report. We have purchased the usual supply of coal as per bills on file, and attended to the usual duties devolving upon the committee.

Have raised the salary of the janitor to \$700.00 per year and placed a snow guard or rail on the slope of the roof, just over the entrance to the court to prevent possible accident from snow slides, at a cost of of \$20.00.

Respectfully submitted,

FRANK REDINGTON,  
E. L. JONES,  
J. E. POULIN,  
*Committee on Grounds and Buildings.*

## REPORT OF FINANCE COMMITTEE.

WATERVILLE, MAINE, Feb. 3, 1914.

*To the Trustees of the Waterville Public Library:*

The finance committee of the Waterville public library begs leave to say, that they have examined the accounts, books and vouchers of the treasurer, together with all financial transactions connected therewith for the fiscal year ending January 31, 1914, and finds as follows: Total receipts for the year are \$3,481.46, which together with cash on hand February 1, 1913, \$112.81. makes a grand total of available funds of \$3,594.27.

Checks and vouchers of the treasurer which we have examined, and found correct, show a total expenditure of \$3,432.31. Deducting these expenditures from the total available funds, leaves a balance of \$161.96 at the close of the current year. The above balance of cash is in the hands of the treasurer.

We find the books of the treasurer in balance and all funds of the library properly accounted for. The trust fund amounting to \$500.00 is represented by a book of deposit of the Waterville Savings bank in the hands of the president.

The statement of your committee as to the increasing needs of a growing institution like the Waterville public library, is just as timely and just as imperative today as one year ago.

The following apportionment of probable needs is as small as we dare make it having in mind the usefulness of the institution:

Salaries, librarian, assistant, janitor .....	\$1,800 00
New books .....	1,000 00
Periodicals .....	175 00
Binding and replacement .....	125 00
Fuel .....	300 00
Water .....	26 00
Lighting .....	325 00
Incidentals including library supplies and pictures .....	200 00
	<hr/>
	\$3,951 00

All of which is respectfully submitted,

CYRUS W. DAVIS,  
F. C. THAYER,  
G. F. TERRY.

# Pine Grove Cemetery

*To the Honorable Mayor and the City Council of the City of Waterville:*

# Report of Street Commissioner

---

*To the Honorable Mayor and City Council of the City of Waterville:*

In submitting my report on streets, sewers, sidewalks and state road, for the fiscal year ending Jan. 31st, 1914, for your consideration I wish to call your attention to the receipts and expenditures of the different departments, and the work done in each department. There has been many necessary improvements made, also a number of permanent improvements, such as 5941 feet of new sewer laid, 600 feet of Hayden Brook sewer, a retaining wall on Water street, from Simpson's block south 182 1-2 feet, 2,200 feet of state road, 34 feet wide, triangle on Main and Common streets paved, Gray street line established, street and sidewalk built also Edgemont avenue turnpiked, graveled and sidewalk built. This work has been done under the inspection of Engineer Wilson. Several other permanent improvements such as nine concrete cross walks, new concrete sidewalks, 21 manholes, 16 catch basins. The expense for supervision and inspection for this work was \$1,545.05. I have given my entire time and personal attention to this work, and have used the strictest economy consistent to good work. I have endeavored to have the work done in as permanent a manner and at as small a cost as possible.

On May 10th, the wages of the laborers were raised from \$1.75 to \$2.00 per day and on June 21st double teams were raised from \$4.00 to \$4.50 this increase amounted to \$1,778.25. The summaries of the work are shown in the following report:

## PROPERTY OF STREETS AND SEWERS.

4 small sidewalk plows	2 cross cut saws
2 widening plows	1 saw set
1 street breaking plow	1 bit stock
3 road machines	1 nail hammer
2 sanding machines	1 small drill hammer
1 steam roller	3 large hammers
1 street sweeper	2 sledge hammers

1 double harness	22 steel drills
1 single saddle and breeching	1 drill pump
1 double sled and box	2 spoons
1 rubbish rack and wheels	1 lawn mower
2 wagon wheels	40 round pointed shovels
1 dump cart complete	15 square shovels
1 hard pan plow steel	2 set blocks and falls
2 breaking up plows, wooden beam	2 stone rollers
1 small steel plow	1 scales rule
1 80 h. p. motor and belt	1 bench and vise
1 stone crusher	1 pick pole
1 old canvas belt for crusher	3 rubbish forks
4 large chains	1 hand saw
4 trace chains	5 iron rakes
2 old chains	5 wooden rakes
1 16-in. monkey wrench	6 hoes
2 rubbish forks	2 cant dogs
1 harness punch	1 sidewalk sander
50 ft. inch rope	1 iron kettle
50 ft. rubber lawn hose	3-4 keg 10-penny nails
4 whiffle trees	1 box 1 1-4-inch bolts
2 yokes	2 scythe stones
1 carriage jack	2 scythe snaths
2 tool boxes	1 bush scythe
7 bunches shingles	3 grass scythes
1-2 box dynamite	2 crow bars
1 box exploding caps	1 long steel bar
2 tons crushed rock	1 crossing tamper
8 wooden horses	1 ice chisel
83 sewer sticks 3 1-2 ft. long	11 catch basin rods
43 sewer sticks 3 ft. long	1 catch basin hook
12 ft. 6-inch sewer hose	5 good lanterns
1 nozzle	3 old lanterns
1 hydrant wrench	2 steel scrapers
2 hammers	1 phump ball
2 rubber coats	1 sewer scraper
2 pairs old rubber boots	1 sewer spear
2 pairs new rubber boots	1 sewer hoe
2 rubber hats	1 sewer chisel
2 sewer pails	1 1-2 pk. measure
1 root cutter	1 hay fork
1 pump for and hose for sewers	1 pair horses
2 pump wrenches	1 set wagon wheels
2 ladders	2 tons of hay

2 snow scoops	Number of pcs. of granite
2 sewer scoops	9 telephone poles
1 grind stone and frame	1 tunnel
1 buck saw	25 picks
1 saw horse	1 stable
1 pr. tongs	1 old barn used for pipe
1 wheel barrow	1 shed for storage of steam roller and wagons
1 push cart	1 crushed rock storage building, 4 bins
2 water pails	2 gravel screens
1 gal. oil can	
2 axes	
1 stove	

## SEWER PIPE ON HAND.

70 ft. 6-inch	3 ft. 12-inch bends
90 ft. 8-inch	1 ft. 15-inch "y"
144 ft. 10-inch	18 ft. 10-inch "y"
10 ft. 6-inch bends	3 ft. 12-inch "y"
1 ft. 8-inch bends	2 ft. 20-inch "y"
19 ft. 10-inch bends

The first of the year we began our year's work by cleaning out all catch basins, repairing and putting in use all of the drinking fountains.

The following are some of the streets and roads which have been turnpiked and repaired with road machine: River, Mitchell, Webb, Marston, County, Ridge and Oakland roads; Upper Main street from Webb avenue to Terry farm; Penny Hill was repaired and put in good condition, besides minor other repairs.

The steam roller was overhauled and repaired. New broom for the street sweeper. Stone crusher and road machines were also repaired.

Also there were repairs made on the buildings in the city pit, amounting to \$250.00.

Some of the culverts which were rebuilt some with iron pipe and others repaired are as follows: Rebuilt one on Eight-Rod road and one on Trafton road with iron pipe. Rebuilt one on Oak, one on Kelsey, one on Columbia and one on High streets. Repaired two on High street, two on Drummond avenue and High street, one on Edwards street, one on Webb avenue, one on Abbott street, one on Ridge road, one on Spruce street, one on Brook street, two on Stanley road, three on County road. Rebuilt two on Oakland road, one with corrugated pipe. The granite culvert on Sanger avenue caved and the north end had to be rebuilt.

The iron pipe and wooden spout drive ways and cross walks which have been put in, are eleven driveways on Edwards street, eight drive ways on Ticonic street, three drive ways on Elm street; also four cross walks; one drive way on Mason road, two driveways on Western avenue, three driveways on High street, two on Main street, and two on Upper Main street. Five cross walks on Pleasant street, two drive ways on Boutelle avenue, one on Sanger avenue, one on Maple street, 40 ft., one drive way on Dalton street, one driveway on Harold street, one on Hillside avenue, one on College avenue, one on Lockwood Hill, two on North street, one on Gray street, one on Drummond avenue, one on Spring street. Plank spouts: Eastern avenue, three; Seavey street, two; Prospect, seven; Boutelle avenue, five; Burleigh street, three; Sherwin street, two; Brook street, two; North street, two; Silver street, one; Hazelwood avenue, two; Upper College avenue, two. Repaired four on Main street. Cross walks built: Gilman street opposite West, granite; College avenue, opposite Oak, granite; Ticonic street, opposite Edwards, granite; Chaplin street, opposite Stove Foundry, granite; Lockwood street, opposite Cote's store, granite, Pleasant street across Center, concrete; across Pleasant and Center to Gilman, concrete; Pleasant street opposite residence of Fr. Kealy's, concrete; Silver, opposite

Western avenue, concrete; Main street, across Temple; Main street across from postoffice to Plaisted estate; Main street to Center, across Elm street; Elm street at library; Temple street to Monument park; Gray to Moore street, and the foot of Pleasant street.

There was a total of 5,941 feet of sewer built this year. Gilman street, 330 feet; Common street, 34 feet, all ledge; Mechanic court, 260 feet, part ledge; Colonial street, 200 feet; Western avenue, 380 feet rebuilt to 12-inch. High street, 350 feet; Water street, 1,100 feet; Prospect and Hillcrest, 700 feet; Greenwood and Central avenue, 1,217 feet, ledge; Redington court, 110 feet; Edgemont avenue, 860 feet; Boutelle avenue sewer was extended 100 feet.

Catch basins built: Dalton street, one; Merchants court, one; Halde street, two; Water street, three; Gray street, one; Elm street, two; Edgemont avenue, one; North street, one; Redington street, one; High street, one; Morrill avenue, one; Silver street, one; total, sixteen. Rebuilt, repaired and raised: Gray street, one; Water street, two; Charles street, one; Elm street, three; Western avenue, two; Canabas avenue, one; Eastern avenue, one; Kennebec street, one; Temple street, one; thirteen in all; and minor repairs on a number of others.

There were a total of twenty-one manholes built: One each on Ticonic, High, Water, Prospect, Redington and North streets; and one each on Boutelle and Western avenue, two each on Gilman, Greenwood streets, Edgemont avenue, and Mechanic court; six on Water street. There were two raised and repaired, one on Mechanic street and one on Elm street.

The bridges repaired, and rebuilt are Ticonic bridge cleaned and minor repairs; Low Hill bridge replanked; Western avenue bridge replanked; also Cedar and County road bridges replanked; Marston joint bridge with the town of Oakland, City's half rebuilt, new stringers and plank; West street bridge, the south end rebuilt after wash out; bridge on Eight Rod road replanked and two stringers; Gilman street bridge, the bulk head at west end caved in and end dropped down, stringers all bad, new ones put in and repaired bulk head, and made other repairs on the other bridges which are in good condition at present time.

The streets which were graveled this year are as follows: Ticonic street from Chaplin to Alden was doughed and about six inches of mud hauled away, and graveled; from Alden to Oak was also graveled; Edwards street graveled entire length, also Birch street, Upper Main street, graveled about 350 feet. Merchants court widened to twenty feet, the dirt was hauled to West street bridge for filling. The court graveled entire length; Halde street entire length; Dalton street from Pleasant to Nudd street; Nudd street from Winter to Dalton street; Kennebec street, about 250 feet; Green street entire length; Silver street from Mr. Clukey's south about 500 feet; Edgemont avenue, entire length, 1,400 feet; Pleasant street from Western avenue to School street, and from

Catch basins built: Dalton street, one; Merchants court, one; Halde street, two; Water street, three; Gray street, one; Elm street, two; Edgemont avenue, one; North street, one; Redington street, one; High street, one; Morrill avenue, one; Silver street, one; total, sixteen. Rebuilt, repaired and raised: Gray street, one; Water street, two; Charles street, one; Elm street, three; Western avenue, two; Canabas avenue, one; Eastern avenue, one; Kennebec street, one; Temple street, one; thirteen in all; and minor repairs on a number of others.

There were a total of twenty-one manholes built: One each on Ticonic, High, Water, Prospect, Redington and North streets; and one each on Boutelle and Western avenue, two each on Gilman, Greenwood streets, Edgemont avenue, and Mechanic court; six on Water street. There were two raised and repaired, one on Mechanic street and one on Elm street.

The bridges repaired, and rebuilt are Ticonic bridge cleaned and minor repairs; Low Hill bridge replanked; Western avenue bridge replanked; also Cedar and County road bridges replanked; Marston joint bridge with the town of Oakland, City's half rebuilt, new stringers and plank; West street bridge, the south end rebuilt after wash out; bridge on Eight Rod road replanked and two stringers; Gilman street bridge, the bulk head at west end caved in and end dropped down, stringers all bad, new ones put in and repaired bulk head, and made other repairs on the other bridges which are in good condition at present time.

The streets which were graveled this year are as follows: Ticonic street from Chaplin to Alden was doughed and about six inches of mud hauled away, and graveled; from Alden to Oak was also graveled; Edwards street graveled entire length, also Birch street, Upper Main street, graveled about 350 feet. Merchants court widened to twenty feet, the dirt was hauled to West street bridge for filling. The court graveled entire length; Halde street entire length; Dalton street from Pleasant to Nudd street; Nudd street from Winter to Dalton street; Kennebec street, about 250 feet; Green street entire length; Silver street from Mr. Clukey's south about 500 feet; Edgemont avenue, entire length, 1,400 feet; Pleasant street from Western avenue to School street, and from

Center to R. R. crossing; Gray street entire length; Grove street about 300 feet; Oakland road from Silver street bridge west about 450 feet, and there were 95 loads of gravel used at Baldic's, Connor's and Union's. Leighton street was also graveled. There was a total of 8,201 loads used in all, besides 1,162 loads of gravel used in 1912 which were paid out of this year's appropriation.

Repairs with gravel were made on Paris street, Water street, Gilman street, Boutelle avenue, North Sherwin street, Veteran court, Sanger avenue, Ash street, Oak street, College avenue, Eastern avenue; Campbell street, Maple street, Water street, High street, Temple street, Temple court, Spruce street, Western avenue; Silver, Summer, Highwood, Sturtevant, Gold, Moore, Redington and Kennebec streets, Leighton and Thayer courts, and Hillside avenue, Morrill road, Mason road, Drummond avenue, Chaplin street, King's court, Lockwood and Bridge streets, ninety loads of gravel was used on first rangeway for repairs.

The following streets were scraped with the road machine, and the dirt hauled to fill West street bridge: Silver and Spring streets to Elm street; Main street from Appleton to Chaplin streets, College avenue from Main street to R. R. crossing; Chaplin street, Temple street, North street, Getchell street, Pleasant street, Water street, Front street, Center street, Park street.

Oil used on the streets for the year. Three tanks of oil was used for the following streets: Main street from Appleton to residence of Martin Bartlett; College avenue from Elm to Highwood street; Getchell street, North street, Silver street from Main to residence of Elmer Cloutier; Water street from Main street to residence of Joe Perry; Common street, Temple street from Elm to Front street, Bridge street, Pleasant street from School to Center; Gilman street from Pleasant to Middle street; Western avenue from Silver to Elm street.

The stone wall on Winter street and West street was undermined by the heavy rain the last of May and about 70 feet of sidewalk, also part of Winter street washed out, 1 span of West street bridge was carried down with the wall, to repair the damage done it cost \$741.00. This year I commenced to dump all the dirt from the streets off the West street bridge and have made considerable of a fill. If the same thing is done next year there should be ample fill to continue West street to Winter street, and do away with the bridge. If it is not done the bridge will have to be rebuilt as it is in poor condition and repairs will have to be made early in the year.

Sidewalks, tar, new graveled and repaired are as follows: Tar sidewalks on College avenue from Spruce to Abbott street; Pleasant street from Main to North street; Center street from Elm to Pleasant street on the north side; Gray street on the north side from Water to Silver street; Gold street north side from Water to Silver street; Abbott street about 70 feet. Resurfaced and repairs made on Elm street, Water

street, Pleasant street, Main street, Silver street and College avenue. Cement-concrete, Silver street in front of the Morrison and Haines blocks, Main and Common streets, in front of the Gallert and Krutzky blocks, Main street corner Temple street; Maple street in front of Freeman's store; Pleasant street from Friel lot to Gilman street. Gravel sidewalks built and regravled, Charles street, both sides; new gravel sidewalks entire length of Edgemont avenue, 1,400 feet; College avenue from Seavey street north, new gravel sidewalks, 500 feet; Oak street north side, new gravel sidewalk about 200 feet; Edwards street graveled entire length; north side Birch street, graveled both sides, entire length; Prospect street, north side, entire length; Boutelle avenue, south side, from Main street, to Mr. Hunt's; Pleasant street, west side, from Winter street to Western avenue, new gravel sidewalk. School street, south side, from Elm to Pleasant street; Water street, length of retaining wall; Silver street from Redington to Gold street, new gravel side walk; Gilman street, about 50 feet; Burleigh street, about 75 feet; College avenue from Spruce to Abbott, gravel for concrete; Drummond avenue, about 100 feet; Sauger avenue, walk put on line and graveled from Main to grist mill. Repaired sidewalks on Elm street, Spring street, Burleigh street, Front street, Temple street, High street, May street, Maple street, Kelsey street, Brook street, Oak street, Pine street and Eastern avenue. Repairs on plank sidewalks on Western avenue from four corners to Morrill road, 1,200 feet of plank used.

In concluding this report, I would like to make a few recommendations, that Gilman street bridge be rebuilt with concrete abutments and the bridge be made of iron or steel if possible, as it is in a poor condition.

That the grade of Water street be lowered or grade of sidewalk be raised and street graveled; at present the street is much higher than sidewalks and they require a great deal of labor and expense to keep the walks passable in wet weather.

That Silver street from Main street to Silver place be repaired with crushed stone, and from Silver place south be graveled.

That Front street from Temple street to Bay View be paved as there is a great deal of heavy traffic on this street and it is in poor condition. Pleasant street from School to Center street be graveled.

That each year a street should be selected by city council for perma-

nent improvements as in this way it wouldn't be but a few years before our streets would be in excellent condition. The practice of doing small portions of a number of streets each year is not feasible, in my mind. Some one street should be started and finished each year to obtain good results, and get our streets in a condition to be above criticism.

That the removal of rubbish from business places be given consideration. It is a question which involves an expense of over \$900.00 a year to the city for which no revenue is received, and this amount comes out of the street appropriation and \$900.00 will make a number of improvements on streets where now there is nothing to show for this amount in this department.

Respectfully submitted,

T. A. O'DONNELL,

*Street Commissioner.*

# Public Schools

WATERVILLE, MAINE, Feb. 1, 1914.

*To the Honorable Mayor and City Council of Waterville:*

I hereby submit the financial statement of the receipts and expenditures of the school department for the year ending February 1, 1914. For a complete report of the progress and condition of the public schools you are referred to a special report which will be issued later and which may be obtained at the office of the superintendent of schools at the city building.

## ALMSHOUSE.

Number of inmates Feb. 1, 1913 .....	20
Number born during year.....	2
Number admitted .....	26
Number died .....	5
Number discharged .....	26
Present number .....	17
Aggregate number of days' support (including help).....	5,713

Beside the Superintendent and his wife the only salaried help running the almshouse, it may be found advisable in the future to secure an assistant whose special duty would be the care of the sick. This person could devote part of her time to looking after the clothing of the inmates and could also help out on outside cases where the department has to hire nursing. In the past we have been able to get along by hiring extra labor for emergencies, but the arrangement suggested above would give better satisfaction. Moreover, a well regulated almshouse which gives comforts and adequate care to its inmates is a preventive of pauperism. People not really in need of public care will rarely seek admission into a poor house; but, when they must, we are willing to extend kindness and generous treatment.

One good improvement brought about at the Almshouse during the past year was the change in the lighting. Oil lamps have been discarded, and electricity is now the light as well as the delight in the institution.

Respectfully submitted,

NAPOLEON LOUBIER,

*Clerk to Overseers of the Poor.*

# Fire Department

---

WATERVILLE, MAINE, Feb. 6, 1914.

*To His Honor the Mayor and City Council:*

Jan. 26th, box 25, 11.20 A. M., Common street. Owner, W. T. Haines. Occupant, John Herkel. Cause, sparks.

Jan. 26th, still alarm, 1.30 P. M., 40 Elm street. Owner, Mrs. J. B. Franks. Occupant, Mrs. J. B. Franks. Cause, hot chimney.

Jan. 29th, box 214, 10.20 P. M., Ticonic street. Owner, Louis Wolman. Occupant, Louis Wolman. Cause, rubbish.

### FIRE ALARM SYSTEM.

On February 14, 1913 a contract was entered into with the Gamwell Fire Alarm and Telegraph Company to rebuild the Gamwell System, and to furnish such devices as the New England Board of Underwriters

might determine. Their recommendations were that testing board, charging board, repeater, batteries and other devices be installed in a fire proof building.

A contract was let to Edmund Cyr and Company to build the fire alarm building upon the city's land in the rear of the Central Fire Station. The building was completed and the instruments recommended installed therein, so that we are lead to believe that we now have a system of the most modern and up-to-date of any in New England, with the exception of the Diaphone horn which is not yet a success. The system has not yet been accepted by the city.

The contract price with the Gamwell Fire Alarm and Telegraph Company was \$7,800.00 and the contract price with the Edmund Cyr Company for the fire alarm station was \$879.00. The auxiliary system is still in use, and it is my opinion should certainly be continued until there are several paid men attached to the Central Station force.

### IMPROVEMENTS.

Improvements this year consist of the purchase of 1000 feet of hose, the overhauling of the fire alarm system, the building of the new fire station, the painting of hose 3 and 4 houses and several minor improvements of a general nature

### FIRE ALARM BOXES.

Box	13	M. C. R. R. Shops (private).
	15	Central Fire Station.
	21	Silver and Grove Streets.

## RECOMMENDATIONS.

In closing this report I am pleased to say that things have moved along very well this year. The department has responded to an unusual number of alarms and in most cases has been very successful in combating the fires.

The losses have been heavy in our Main street fires, but this is to be expected so long as there are as many wooden buildings left in which fire has a chance to get hold and bring about conditions which baffle the best efforts of the department to overcome. Now, I feel that the citizens, especially those located in the business section of the city, fully realize and appreciate the value of time to the department in reaching the scene of a fire, and keeping this in mind, I wish to offer the following recommendations: either that the city purchase a combination chemical and hose automobile truck, or that a horse drawn, combination chemical hose wagon be provided. If the latter is adopted, it means the purchase of another pair of horses, and it would seem by reports received from cities and towns that have installed automobile trucks that they are

a success and are preferable to horse drawn apparatus. This is a matter that should be taken up and given careful consideration so that something definite may be done in the immediate future.

I also wish to call public attention to the fact that the State Insurance Department at this time is giving a great deal of attention to fire prevention, and that under the new law, which was enacted at the last term of the legislature, it becomes the duty of the fire chief or his deputy to act as inspector to carry out, as far as possible by inspection, the prevention of causes that lead to fires. I would, therefore, suggest that every citizen keep his or her place of business, as well as their residence, as scrupulously clean from rubbish, waste material, excelsior, etc., as possible;—to keep matches in some metal or earthen receptacle; to avoid the use of kerosene in the lighting of fires, and to be extremely careful in the handling of gasoline. To the ladies at home, I would suggest that they be more careful in the use of electric flatiron, as the department is frequently called at quite an expense to simply turn off the switch that someone has overlooked or forgotten.

The above recommendations are offered for your careful consideration. This department will soon start upon a system of inspection backed by the law as it now is. There cannot be any leniency shown anyone upon neglect or refusal to comply with the suggestions or rules that may be offered by this department.

Thanking all who contributed pictures and other presents to the department during the past year, and soliciting their cordial support in the future, I remain,

Yours truly,

W. W. BERRY, *Chief Engineer.*

Total ..... \$13,867 50

L. E. THAYER, Auditor.

## Delinquent Taxpayers

---

The following list of delinquent taxpayers for the year 1913, with the amount of taxes due from each, is made in compliance with a law passed by the Legislature of 1907, requiring the municipal officers to cause the names of delinquent taxpayers with the amount of tax due to be published in the annual report.

A \* opposite a name indicates that the tax has been paid since the books closed.

Adams, Arthur L., 2 Haines Ct. ....	\$3 00
